Edgar Filing: DARLING INTERNATIONAL INC - Form 8-K

The consolidated and combined financial statements of VION Ingredients referred to above, from which the unaudited pro forma condensed combined financial information with respect to VION Ingredients has been derived, are presented in euros and have been prepared in accordance with Dutch GAAP, the principles of which vary in certain significant respects from U.S. GAAP. The following unaudited pro forma condensed combined financial information is presented and has been prepared in accordance with U.S. GAAP (as reconciled from Dutch GAAP with respect to the historical financial information of VION Ingredients). See note 25 to the consolidated and combined financial statements of VION Ingredients as of December 31, 2012 and note 15 of the unaudited consolidated and combined financial statements as of September 30, 2013, included as Exhibits 99.1 and 99.2 to Darling's Current Report on Form 8-K filed on December 3, 2013 for a description of the significant differences between Dutch GAAP and U.S. GAAP that are applicable to VION Ingredients. The reconciliation from Dutch GAAP to U.S. GAAP for the unaudited consolidated and combined balance sheet of VION Ingredients as of September 30, 2013, the audited consolidated and combined profit and loss account of VION Ingredients for the year ended December 31, 2012 and the unaudited consolidated and combined profit and loss account of VION Ingredients for the nine months ended September 30, 2013 is described in Note 7 to the unaudited pro forma condensed consolidated financial information included as Exhibit 99.1 to Darling's Current Report on Form 8K/A filed with the SEC on December 9, 2013.

The unaudited pro forma condensed combined balance sheet is presented as if the Transactions had occurred on September 28, 2013. The unaudited pro forma condensed combined income statement for the year ended December 29, 2012 and the nine months ended September 28, 2013 assume the Transactions were completed on January 1, 2012.

The unaudited pro forma condensed combined financial information furnished herewith is presented for illustrative purposes only, contains a variety of adjustments, assumptions and preliminary estimates, is subject to numerous other uncertainties and does not reflect what the combined entity's financial position or results of operations would have been had the Transactions been completed as of the dates assumed for purposes of that pro forma financial information, nor does it reflect the financial position or results of operations of the combined company following the Transactions. The pro forma adjustments are based on the preliminary information available at the time of the preparation of this Current Report on Form 8-K. In addition, the unaudited pro forma condensed combined financial information does not purport to project the future financial position or operating results of the consolidated company as of the end of Fiscal 2013, or for any other future period.

The unaudited pro forma condensed combined balance sheet has been prepared using the acquisition method of accounting. The pro forma information presented includes our initial estimate of the fair values of the acquired assets and liabilities of Rothsay and VION Ingredients. In connection with the Rothsay Acquisition, the estimated fair values of the acquired assets and assumed liabilities are based on the assumption the acquisition was completed as of September 28, 2013. The total purchase price of approximately \$625.4 million (based on an exchange rate of CAD1.00:\$0.9696) to acquire the Rothsay business has been allocated to the assets acquired and assumed liabilities of Rothsay based upon preliminary estimated fair values at September 28, 2013. These amounts will be required to be updated to reflect the actual values as of the actual date of acquisition of October 28, 2013. Independent valuation specialists are conducting analyses of Rothsay in order to assist our management in determining the fair values of the acquired assets and liabilities assumed. Our management is responsible for these internal and third party valuations and appraisals. We are continuing to finalize the valuations of these net assets and liabilities. The fair value allocation consists of preliminary estimates and analyses and is subject to change upon the finalization of the appraisals and other valuation analyses, which will be completed during the one year measurement period following the actual acquisition date.

In connection with the VION Acquisition, the estimated fair values of the acquired assets and assumed liabilities are based on the assumption the VION Acquisition was completed as of September 28, 2013. The total purchase price of approximately \$2.25 billion (based on an exchange rate of 1.00:\$1.347) to acquire VION Ingredients has been allocated to the assets acquired and assumed liabilities of VION Ingredients based upon preliminary estimated fair values at September 30, 2013, the assumed date of acquisition for this purpose. These amounts will be required to be updated to reflect the actual values as of the actual closing date when and if that occurs. Accordingly, the amounts and allocations may change and such changes may be material. The determination of actual fair values will depend on a number of factors, including the actual date of completion of the VION Acquisition and completion of fair value appraisals and other analyses of third parties related to the assets and liabilities acquired, including tangible and intangible assets. Any adjustments, including increases to depreciation and amortization resulting from the allocation of purchase price to amortizable tangible and intangible assets, may be material. The final valuations will be completed during the one year measurement period after the closing of the VION Acquisition and will be based on the actual net tangible and intangible assets and liabilities that exist as of the closing date of the VION Acquisition.

In addition, the pro forma adjustments for the Acquisitions do not include any post-closing adjustments that may occur pursuant to the Rothsay Acquisition Agreement or the VION SPA, which may include adjustments of the applicable purchase price, and any such post-closing adjustments may be material.

This Form 8-K and Exhibit 99.1 hereto shall not constitute an offer to sell or the solicitation of an offer to buy the securities referenced herein, nor shall there be any sale of these securities in any state or jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state or other jurisdiction.

The pro forma financial statements furnished herewith contain forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. These statements are based upon management's current

expectations, assumptions and estimates and are not guarantees of future results or performance. Actual results may differ materially from those contemplated in these statements due to a variety of risks and uncertainties and other factors, as discussed further in the pro forma financial information.

The information in this Item 7.01, including Exhibit 99.1, is being furnished and shall not be deemed filed for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that Section. The information in this Item 7.01 and Exhibit 99.1 shall not be incorporated by reference into any registration statement or other document pursuant to the Securities Act. By filing this Current Report on Form 8-K and furnishing the information contained herein, including Exhibit 99.1, the Company makes no admission as to the materiality of any such information.
