DOMINO'S PIZZA, INC. 2016 PROXY STATEMENT 3

Voting Information

Record Date, Issued and Outstanding Shares

The record date for the determination of shareholders entitled to notice of and to vote at the Annual Meeting was the close of business on March 7, 2016 (the Record Date). On the Record Date, there were 50,323,573 shares of common stock, \$0.01 par value per share, the Company's only voting securities, outstanding and entitled to vote at the Annual Meeting. Each share of common stock is entitled to one vote.

Quorum Requirement

Under the Company's By-Laws, the holders of a majority of the shares of common stock outstanding and entitled to vote at the Annual Meeting constitute a quorum for the transaction of business at the Annual Meeting. Shares of common stock represented in person or by proxy, including shares that abstain or do not vote with respect to one or more of the matters presented for shareholder approval, will be counted for purposes of determining whether a quorum is present.

Voting Procedures

The holders of common stock are entitled to one vote per share on any proposal presented at the Annual Meeting. Only shareholders of record at the close of business on the Record Date are entitled to notice of and to vote at the Annual Meeting and any adjournment thereof. Shareholders may choose to vote by any of the following methods: (i) by returning the enclosed Proxy card, (ii) electronically by accessing the Internet site or by using the toll-free telephone number, both of which are stated on the form of Proxy, or (iii) by attending the Annual Meeting and voting in person.

All properly executed Proxies received by mail, and properly authenticated electronic votes recorded through the Internet or by telephone, will be voted as directed by the shareholder. All properly executed Proxies received by mail that do not specify how shares should be voted will be voted in accordance with the Board's recommendation (**FOR** the election of all Director nominees, **FOR** Proposals Two and Three, and **AGAINST** Proposal Four).

Revocation of Proxies

Any Proxy given pursuant to this solicitation may be revoked at any time before it is voted by: (i) signing and returning a new Proxy card with a later date, (ii) submitting a later-dated vote by telephone or via the Internet (only your latest telephone or Internet vote received by 11:59 p.m. Eastern Daylight Time on April 25, 2016 will be counted), (iii) filing with our Corporate Secretary a written notice of revocation dated later than the date of the Proxy being revoked, or (iv) attending the Annual Meeting and revoking or voting in person. Any written notice of revocation should be sent to: Corporate Secretary, Domino's Pizza, Inc., 30 Frank Lloyd Wright Drive, Ann Arbor, Michigan 48105.

The Internet and telephone procedures for voting and for revoking or changing a vote are designed to authenticate shareholders' identities, to allow shareholders to give their voting instructions and to confirm that shareholders' instructions have been properly recorded. Shareholders that vote through the Internet should understand that there may be costs associated with electronic access, such as usage charges from Internet access providers and telephone

companies, which will be borne by the shareholder.

Broker Non-Votes

Brokers are subject to the rules of the New York Stock Exchange (the NYSE). The NYSE rules direct that certain matters submitted to a vote of shareholders are routine items and brokers generally may vote on behalf of beneficial owners who have not furnished voting instructions, subject to the rules of the NYSE concerning transmission of proxy materials to beneficial owners, and subject to any proxy voting policies and procedures of those brokerage firms. Brokers who hold shares in street name for customers who are beneficial owners of such shares are prohibited from giving a proxy to vote such customers shares on non-routine matters in the absence of specific instructions from such customers.

Under current NYSE rules, we believe Proposal Two is a routine matter. Accordingly, if your broker holds shares that you own in street name, the broker may vote your shares on Proposal Two even if the broker does not receive instructions

4 DOMINO S PIZZA, INC. 2016 PROXY STATEMENT

Voting Information (continued)

from you. We believe Proposal One, Proposal Three and Proposal Four are non-routine matters and, therefore, the broker may not vote your shares on such proposals without receiving instructions from you. If your broker does not vote on a proposal, this is commonly referred to as a broker non-vote. Broker non-votes will not be counted as having voted in person or by proxy.

Votes Required

Under Proposal One, Directors are elected by a plurality of the votes of the shares of common stock represented and voted at the Annual Meeting. If you withhold your vote for a particular nominee, then your vote will not count FOR such nominee. Broker non-votes and votes withheld will not be treated as votes cast with respect to the election of Directors and, therefore, will have no effect on the outcome of the election of Directors.

Beginning this year, we have implemented a Majority Voting Policy for uncontested director elections (elections in which the number of nominees for election does not exceed the number of directors to be elected). In the event that the votes WITHHELD from a nominee's election exceed the votes cast FOR that nominee's election, such nominee shall be required to submit his or her resignation to the Board of Directors for consideration. The Board of Directors will then have the opportunity to determine whether to accept or reject such tendered resignation. The Board of Directors, in making its decision, may consider any factors or other information that it considers appropriate or relevant.

The Board of Directors will act within 120 days following certification of the stockholder vote. Thereafter the Board of Directors will promptly publicly disclose, in a report furnished to the SEC, its decision regarding the tendered resignation, including its rationale for accepting or rejecting the tendered resignation. The Board of Directors may accept a Director's resignation or reject the resignation. If the Board of Directors accepts a Director's resignation, or if a nominee for Director is not elected and the nominee is not an incumbent Director, then the Board of Directors, in its sole discretion, may fill any resulting vacancy or may decrease the size of the Board of Directors, in each case pursuant to our Bylaws. If a Director's resignation is not accepted by the Board of Directors, such Director will continue to serve until the next annual meeting of stockholders and until his or her successor is duly elected, or his or her earlier resignation or removal.

Approval of each of the other proposals requires the affirmative vote of a majority of the shares voted in person or by proxy at the Annual Meeting. Broker non-votes, if any, and abstentions will not be treated as votes cast with respect to these proposals and, therefore, will have no effect on the outcome of the vote.

No matter currently is expected to be considered at the Annual Meeting other than those listed in this Proxy Statement. If any other matters are properly brought before the Annual Meeting for action, it is intended that the persons named in the proxy and acting thereunder will vote in accordance with their discretion on such matters.

Proposal One: Election of Directors

At our 2015 annual meeting of shareholders, our shareholders authorized the Board of Directors to amend the Company's Certificate of Incorporation to declassify the Board and to require that all Directors stand for annual election. Accordingly, this year we are asking our shareholders to elect the eight individuals listed below to terms ending with the 2017 annual meeting of shareholders, until his or her successor is elected or qualified or until his or her earlier death, resignation or removal. Each nominee is currently serving as a Director and has indicated his or her willingness to continue to serve, if elected. However, if a nominee should be unable to serve, the shares of common stock represented by Proxies may be voted for a substitute nominee designated by the Board. Management has no reason to believe that any of the above-mentioned persons will not serve his or her term as a Director.

Under the Board's Corporate Governance Principles, no Director who has attained the age of 72 (the mandatory retirement age) prior to the end of his or her term shall be nominated to serve a new term on the Board. Mr. Hamilton has reached the mandatory retirement age and, therefore, is not on the ballot for re-election at the Annual Meeting and his term will expire on the date of the Annual Meeting.

Board Membership Criteria

Although our Nominating and Corporate Governance Committee does not have any specific, delineated qualifications for the nomination of Director candidates, the Committee takes into account a number of factors, qualifications and skills that it deems appropriate, with the primary goal of ensuring the Board collectively serves the interest of shareholders. The Company and the Board, at a minimum, seek to have Directors with sound business judgment, wisdom and knowledge in his or her field of expertise. Identified and described below are the additional key experiences, qualifications and skills that are important to the Company's business and that were considered in the selection of the Directors, which factors may change from time to time. Director candidates are also evaluated according to the qualifications set forth in the Board's Corporate Governance Principles, as further described on page 12.

Business experience. The Company and the Board believe that the Company benefits from nominating Directors with a substantial degree of business experience. This may include accomplishments in his or her particular field of practice, and a history of achievements that reflect his or her high standards and sound business decisions.

Leadership experience. The Company and the Board believe that Directors with experience in significant leadership positions over an extended period, especially President or Chief Executive Officer positions, provide the Company with strategic insights. These Directors generally possess superior leadership qualities and the ability to identify and develop those qualities in others. They demonstrate a practical understanding of organizations, long-term strategy, risk management and the methods to drive change and growth.

Finance experience. The Company and the Board believe an understanding of finance and financial reporting processes is an important skill for our Directors. The Company uses financial measures to evaluate its performance as well as its accomplishment of financial performance targets. In addition, the Board and the Audit Committee

oversee the required public disclosures of the Company that includes financial statements and related information.

Educational and industry experience. The Company and the Board seek to have directors with relevant education, business expertise and experience as executives, directors, investors or in other leadership positions in the retail sector, including the restaurant industry.

Corporate Governance Principles and Director Information

Domino's Pizza has a commitment to strong corporate governance practices. These practices provide a framework within which the Company's Board and management can pursue the strategic objectives of Domino's Pizza and ensure its long-term growth for the benefit of shareholders. The Company's corporate governance principles and practices are reviewed annually by the Nominating and Corporate Governance Committee and any changes are recommended to the Board for approval. The Company's Corporate Governance Principles are posted on Domino's corporate and investor website biz.dominos.com under the Investors' Corporate Governance section and are available free of charge upon request from the Company's Corporate Secretary. The Company's corporate and investor website (Investors' Corporate Governance section [on biz.dominos.com](http://biz.dominos.com)) also contains the Nominating and Corporate Governance Committee Charter, the Compensation Committee Charter and the Audit Committee Charter. All the referenced charters and the other documents referenced herein are available free of charge upon request from the Company's Corporate Secretary.

The Corporate Governance Principles and the Charter of the Nominating and Corporate Governance Committee set forth the Company's policies with respect to Board structure, membership (including nominee qualifications), performance, operations and management oversight. Pursuant to the Corporate Governance Principles, the Board meets at least quarterly in an independent director session, an executive session and in a non-management executive session. The current discussion leader for executive session is generally Mr. Brandon and the current discussion leader for the independent Director session is generally Mr. Balson. The independent Directors meet separately at each quarterly Board meeting.

The entire Board of Directors is engaged in risk management oversight. At the present time, the Board has not established a separate committee to facilitate its risk oversight responsibilities. The Board will continue to monitor and assess whether such a committee would be appropriate. In accordance with NYSE listed company rules, the Audit Committee assists the Board of Directors in its oversight of Domino's Pizza's company-wide risk management and the process established to identify, measure, monitor, and manage risks, in particular major financial risks. The Board of Directors receives regular reports from management, as well as from the Audit Committee and other standing committees regarding relevant risks and the actions taken by management to adequately address those risks.

The Company is required to have a majority of its Board be independent Directors. The Company's Corporate Governance Principles contain the Company's standards for director independence. A Director will be designated as independent if he or she (i) has no material relationship with the Company or its subsidiaries, (ii) satisfies the other criteria specified by NYSE listed company rules, (iii) has no business conflict with the Company or its subsidiaries, and (iv) otherwise meets applicable independence criteria specified by law, regulation, exchange requirement or the Board. The Board has affirmatively determined that the following Directors serving in the 2015 fiscal year are independent under that definition:

C. Andrew Ballard

Andrew B. Balson

Diana F. Cantor

Richard L. Federico

James A. Goldman

Vernon Bud O. Hamilton

Gregory A. Trojan

The Corporate Governance Principles further provide that the Directors are invited and expected to attend the Company's annual meetings of shareholders. All eight Directors serving at the time attended the 2015 annual meeting of shareholders.

The Company has adopted a Code of Professional Conduct for Senior Financial Officers that applies to all executive officers of the Company, including the Chief Executive Officer and Chief Financial Officer, as well as all of the Company's other financial officers and other employees with senior financial roles. In addition, the Company has adopted a Code of Business Conduct and Ethics for Directors, Officers and Employees that applies to all Directors, officers and employees. The Code of Professional Conduct and the Code of Business Conduct and Ethics are posted on the Company's corporate and investor website (Investors Corporate Governance [section on biz.dominos.com](#)). The Company intends to satisfy the disclosure requirement regarding any amendment to, or waiver of, a provision of the Code of Professional Conduct for the Chief Executive Officer, Chief Financial Officer, Corporate Controller or persons performing similar functions, by posting such information on its website.

10 DOMINO S PIZZA, INC. 2016 PROXY STATEMENT

Corporate Governance Principles and Director Information (continued)

A total of seven meetings of the Board of Directors of the Company were held during 2015, and the Board acted via unanimous written consent on one other occasion. Additionally, one special meeting of the Pricing Committee of the Board of Directors was held in 2015 in connection with the Company's refinancing transaction in October 2015. Each Director attended at least 75% of the aggregate of (i) the total number of meetings of the Board, and (ii) the total number of meetings held by all committees of the Board on which that Director served during the period each served as a Director.

In accordance with NYSE requirements, the Board has a Nominating and Corporate Governance Committee, a Compensation Committee and an Audit Committee, all of which are comprised solely of independent Directors, as defined by Section 303A of the NYSE listed company rules. Each committee of the Board has designated responsibilities and regularly reports on their activities to the entire Board. In February 2016, the Board of Directors revised the composition of each committee.

The Company's current leadership structure, as established in March 2010, separates the Chairman and Chief Executive Officer roles into two positions. David A. Brandon is the Chairman of the Board and J. Patrick Doyle is the Chief Executive Officer. The Company has determined what leadership structure it deems appropriate based on factors such as the experience of the applicable individuals, the current business environment of the Company, or other relevant criteria. After considering these factors, the Company determined that separating the positions of Chairman of the Board and Chief Executive Officer is the appropriate leadership structure. The Chief Executive Officer is responsible for the strategic direction of the Company and the day-to-day leadership and performance of the Company, while the Chairman of the Board provides guidance to the Chief Executive Officer, sets the agenda for the Board meetings and presides over meetings of the Board. The Company and the Board believe that this is appropriate under current circumstances, because it allows management to make the operating decisions necessary to manage the business, while helping to keep a measure of independence between the oversight function of our Board of Directors and operating decisions. The Company and the Board feel that this division provides an appropriate balance of operational focus, flexibility and oversight, and they support this structure.

As described under **Votes Required** on page 5, the Company has implemented a majority voting policy with respect to uncontested director elections beginning with this Annual Meeting.

Nominating and Corporate Governance Committee

For the 2015 fiscal year, the members of the Nominating and Corporate Governance Committee were Messrs. Hamilton (Chair) and Balson and Ms. Cantor. As of February 25, 2016, the members of the Committee are Messrs. Goldman (Chairperson) and Trojan and Ms. Cantor. The independence of each member of the Nominating and Corporate Governance Committee is determined annually by the full Board of Directors in accordance with Section 303A.05 of the NYSE listed company rules. The Board of Directors has determined that each member of the Nominating and Corporate Governance Committee during 2015, as well as each of its current members, is independent. The Committee held two meetings in 2015. A Nominating and Corporate Governance Committee Charter, as approved by the Board, can be found on the Company's corporate and investor website ([Investors Corporate Governance](#) section on biz.dominos.com).

The Committee's functions include assisting the Board in determining the desired qualifications of Directors, identifying potential individuals meeting those qualifications, proposing to the Board a slate of nominees for election by the shareholders and reviewing candidates nominated by shareholders. In addition, further functions include reviewing the succession planning process for senior management of the Company, reviewing the Corporate Governance Principles, making recommendations to the Board with respect to other corporate governance principles applicable to the Company, recommending Directors to serve on committees, overseeing the determinations of director independence, overseeing the annual evaluation of the Board and management and reviewing Board succession plans.

Evaluation of Director Candidates. The Nominating and Corporate Governance Committee meets regularly to discuss, among other things, identification and evaluation of potential candidates for nomination as a Director. The Nominating and Corporate Governance Committee may use a paid outside search firm to identify possible Directors. In addition to

Corporate Governance Principles and Director Information (continued)

the experience, qualifications and skills for Directors listed under Proposal One, Director candidates will be evaluated according to the qualifications as set forth in the Board's Corporate Governance Principles, including the following desirable characteristics:

High personal and professional ethics, integrity and values;

Possession of a range of talents, skills and expertise to provide sound and prudent guidance with respect to the operations and interests of the Company;

Expertise that is useful to the Company and complementary to the background and experience of other Board members;

Ability to devote the time necessary for the diligent performance of the duties and responsibilities of Board membership;

Commitment to serve on the Board over a period of several years to develop knowledge about the Company and its operations;

Willingness to represent the long-term interests of all shareholders and objectively appraise management's performance; and

Board diversity and other relevant factors as the Board may determine.

Board Diversity. While the Nominating and Corporate Governance Committee does not have a written policy regarding diversity in identifying director candidates, the Nominating and Corporate Governance Committee considers diversity in its search for the best candidates to serve on the Board of Directors. The Committee looks to incorporate diversity into the Board through a number of demographics, skills, experiences (including operational experience) and viewpoints, all with a view to identify candidates that can assist the Board with its decision making. The Committee believes that the current Board of Directors reflects diversity on a number of these factors.

Shareholder Submission of Director Nominees. The Nominating and Corporate Governance Committee will consider nominees recommended by shareholders for the 2017 annual meeting of shareholders, provided that the names of such nominees are submitted in writing, not later than February 25, 2017, to the Corporate Secretary of Domino's Pizza, Inc. at 30 Frank Lloyd Wright Drive, Ann Arbor, Michigan 48105. Each such submission must include a statement of the qualifications of the nominee, a consent signed by the nominee evidencing a willingness to serve as a Director, if elected, and a commitment by the nominee to meet personally with the Nominating and

Corporate Governance Committee members.

Other than the submission requirements set forth above, there are no differences in the manner in which the Nominating and Corporate Governance Committee evaluates a nominee for Director recommended by a shareholder.

Compensation Committee

For the 2015 fiscal year, the members of the Compensation Committee were Messrs. Balson (Chair), Federico and Goldman. As of February 25, 2016, the members of the Committee are Messrs. Balson (Chair), Ballard and Federico. The independence of each member of the Compensation Committee is determined annually by the full Board of Directors in accordance with Section 303A.05 of the NYSE listed company rules. The Board of Directors has determined that each member of the Compensation Committee during 2015, as well as each of its current members, is independent. The Compensation Committee met three times during 2015, and acted via unanimous written consent on four other occasions, to conduct its required business in accordance with the Compensation Committee Charter. The Compensation Committee Charter authorizes the Compensation Committee to delegate to subcommittees of the Compensation Committee any responsibilities of the full committee. The Compensation Committee Charter, as approved by the Board, reflects the Compensation Committee's responsibilities, and the Compensation Committee reviews the charter at least once annually. The charter was last reviewed in July 2015 and can be found on the Company's corporate and investor website (Investors Corporate Governance section on biz.dominos.com).

The Compensation Committee's functions include examining the levels and methods of compensation employed by the Company with respect to the Chief Executive Officer and other executive officers, making recommendations with respect

Corporate Governance Principles and Director Information (continued)

to other executive officer compensation, reviewing and approving the compensation package of the Chief Executive Officer, making recommendations to the Board with respect to Director compensation, making recommendations to the Board with respect to incentive compensation plans and equity-based plans, making plan administration and compensation decisions under equity compensation plans approved by the Board, and implementing and administering one or more incentive bonus plans, subject to shareholder approval, that will qualify as compensation paid thereunder as performance-based compensation within the meaning of Section 162(m) of the Internal Revenue Code of 1986, as amended (Section 162(m)).

The AIP was most recently approved by shareholders at the 2015 annual meeting of shareholders. In February 2015, the Compensation Committee established the annual performance measure, list of participants and target incentive amounts for executives under the Domino's Pizza Senior Executive Annual Incentive Plan (the AIP) for senior executives of the Company. For 2015, all of the named executive officers were participants under the AIP, with the exception of Mr. Lawrence whose annual performance incentive was granted under the Company's bonus plan for non-executives, rather than the AIP, because he was not eligible to participate in the AIP at the time of his 2015 grant.

Audit Committee

For the 2015 fiscal year, the members of the Audit Committee were Ms. Cantor (Chairperson) and Messrs. Hamilton and Trojan. As of February 25, 2016, the members of the Committee are Ms. Cantor (Chairperson) and Messrs. Goldman and Trojan. The independence of each member of the Audit Committee is determined annually by the full Board of Directors in accordance with Section 303A.05 of the NYSE listed company rules. The Board of Directors has determined that each member of the Audit Committee during 2015, as well as each of its current members, is independent. The Committee met six times during 2015. The Audit Committee Charter, as approved by the Board, can be found on the Company's corporate and investor website (Investors Corporate Governance section on biz.dominos.com).

The Board has determined that three of its independent members, Ms. Cantor, Mr. Goldman and Mr. Trojan, are Audit Committee financial experts under Item 407(d)(5) of Regulation S-K. The Audit Committee's functions include: (i) providing assistance to the Board in fulfilling its oversight responsibility relating to the Company's financial statements and the financial reporting process, compliance with legal and regulatory requirements, the qualifications and independence of the Company's independent registered public accountants, the Company's system of internal controls, the internal audit function and the Company's code of ethical conduct, (ii) retaining and, if appropriate, terminating the independent registered public accountants, and (iii) approving audit and non-audit services to be performed by the independent registered public accountants.

The Audit Committee has adopted a policy under which audit and non-audit services to be rendered by the Company's independent public registered accountants are pre-approved. This policy can be found on the Company's corporate and investor website (Investors Corporate Governance section [on biz.dominos.com](http://biz.dominos.com)).

Audit Committee Report

The following Report of the Audit Committee does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other Company filing under the Securities Act of 1933 or the Securities Act of 1934, except to the extent the Company specifically incorporates this Report.

The Audit Committee is governed by a written charter which was adopted by the Company's Board of Directors and is reviewed annually by the Audit Committee. The Audit Committee is responsible for overseeing the quality and integrity of the Company's accounting, auditing, financial reporting and internal control practices. The Audit Committee is responsible for, in addition to other activities, the appointment, retention and compensation of the Company's independent registered public accountants. The Audit Committee has a policy with respect to the pre-approval of non-audit services.

Each member of the Audit Committee is independent as required under the NYSE listed company rules, including those rules applicable to audit committee members. The Board has determined that two of its independent members during 2015, Ms. Cantor and Mr. Trojan, were audit committee financial experts under Item 407(d)(5) of Regulation S-K. The Audit Committee met six times during 2015.

In performing its responsibilities, the Audit Committee, in addition to other activities; (i) reviewed and discussed the Company's audited financial statements with management, (ii) discussed with PricewaterhouseCoopers LLP, the Company's independent registered public accountants, the matters required to be discussed by Public Company Accounting Oversight Board (PCAOB) Auditing Standard No. 16 (Communications With Audit Committees), as modified or supplemented, and (iii) received the letter from PricewaterhouseCoopers LLP required by the PCAOB regarding the independent accountants' communications with the Audit Committee concerning independence and discussed with PricewaterhouseCoopers LLP the firm's independence. Based on these reviews, discussions and activities, the Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for fiscal 2015 for filing with the SEC (SEC).

The Audit Committee considered whether the provision of non-audit services by PricewaterhouseCoopers LLP was compatible with maintaining such firm's independence. After reviewing the services provided by PricewaterhouseCoopers LLP, including all non-audit services, the Audit Committee, in accordance with its charter, authorized the reappointment of PricewaterhouseCoopers LLP as the independent registered public accountants of the Company, with such reappointment to be ratified by the shareholders at the Annual Meeting.

Respectfully submitted,

Audit Committee

Vernon Bud O. Hamilton

14 DOMINO S PIZZA, INC. 2016 PROXY STATEMENT

Proposal Two: Ratification of Independent Registered Public Accountants

The Company's Audit Committee has selected PricewaterhouseCoopers LLP as the independent registered public accountants of the Company for the current fiscal year. Management expects that representatives of PricewaterhouseCoopers LLP will be present at the Annual Meeting with the opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions.

The affirmative vote of the holders of a majority of the votes cast at the meeting in person or by proxy is necessary to ratify the selection of the Company's independent registered public accountants for the current year. Under applicable law, listed company rules and the Company's By-Laws, abstentions are not counted as votes cast and will have no effect on the outcome of the vote. Unless otherwise indicated, the persons named in the Proxy will vote all Proxies in favor of ratification. If the selection of PricewaterhouseCoopers LLP is not ratified, the Audit Committee will reconsider the selection of independent registered public accountants.

Even if the selection of PricewaterhouseCoopers LLP is ratified by shareholders, the Audit Committee, in its discretion, could decide to terminate the engagement of PricewaterhouseCoopers LLP and to engage another firm if the Committee determines such action to be necessary or desirable. Conversely, if the selection of PricewaterhouseCoopers LLP is not ratified by shareholders, the Audit Committee, in its discretion, could still decide to engage PricewaterhouseCoopers LLP for the 2016 audit if the Company determines such action to be necessary or desirable.

Our Board of Directors Unanimously Recommends a Vote FOR Ratification of the Selection of PricewaterhouseCoopers LLC as the Independent Registered Public Accountants of the Company

for the 2016 Fiscal Year

Compensation Discussion and Analysis

Executive Summary

Domino's Pizza's objective is to be a worldwide leader in the pizza industry and one of the top restaurant brands in the world. To accomplish this, the Compensation Committee of the Board of Directors believes that Domino's must recruit and retain capable and high-performing executives to help attain the Company's business goals and objectives, and we have established short and long-term compensation programs that we believe support this mission.

The Compensation Discussion and Analysis describes the Company's executive compensation program, philosophy and objectives as they relate to our 2015 named executive officers listed below:

J. Patrick Doyle President and Chief Executive Officer (CEO)

Russell J. Weiner President, Domino's USA

Richard E. Allison, Jr. President, Domino's International

Jeffrey D. Lawrence Executive Vice President, Chief Financial Officer

Scott R. Hinshaw Executive Vice President, Franchise Operations and Development

Michael T. Lawton Former Executive Vice President, Chief Financial Officer

On August 27, 2015, Mr. Lawton, Former Executive Vice President, Chief Financial Officer, retired from his position as Executive Vice President, Chief Financial Officer. Effective August 28, 2015, Mr. Lawrence was promoted to Executive Vice President, Chief Financial Officer.

2015 Business Performance. The Company completed another profitable year in fiscal 2015. The following table illustrates the Company's growth in fiscal 2015 in terms of revenues, segment income (as defined and disclosed in Note 11 to the Company's consolidated financial statements for the fiscal year ended January 3, 2016), income from operations and stock price relative to performance in fiscal 2014 and fiscal 2013.

(Dollars in millions, except stock price)	2015	2014	2013	Three-Year Change 2013 to 2015
---	------	------	------	--------------------------------------

				(% increase)
Revenues	\$ 2,216.5	\$ 1,993.8	\$ 1,802.2	23.0%
Segment Income	\$ 456.7	\$ 397.6	\$ 361.9	26.2%
Income from Operations	\$ 405.4	\$ 345.4	\$ 313.8	29.2%
Stock Price (Fiscal Year End)	\$ 111.25	\$ 95.45	\$ 70.20	161.0% ⁽¹⁾

(1) Percent increase is calculated from the Company's closing stock price as of the 2012 fiscal year end (\$42.63) in order to capture the three-year change.

The Company's performance during fiscal 2015, and for the three-year period ending with fiscal 2015, demonstrated significantly improved financial results and a corresponding strong growth in the Company's stock price.

2015 Key Performance and Compensation Highlights. Key events with respect to the Company's 2015 compensation program are as follows:

2015 annual incentive award performance was achieved at 105.5% of target, reflecting our strong financial performance as noted above and resulting in a payout of awards at 136.9% of target;

Other than the increase associated with Mr. Lawrence's promotion, the base salaries of named executive officers increased, on average, 2.35%;

The Company adopted a clawback policy in compliance with the requirements of Dodd-Frank Wall Street Reform and Consumer Protection Act;

The Company adopted a policy of capping payouts of the annual incentive award to 250% of target for any participant, including our named executive officers, under the Domino's Pizza Senior Executive Annual Incentive Plan (the AIP); and

The Company re-evaluated its peer group and added two non-restaurant companies and eliminated three restaurant companies.

Compensation Discussion and Analysis (continued)

Changes to be effective in 2016:

The Company eliminated the mid-year measurement period and payout under the AIP, and changed the payout threshold amount from 85% to 90% of the full-year target; and

The Company changed the vesting threshold of performance shares from 85% to 90% of the full-year performance target under the Amended Domino's Pizza, Inc. 2004 Equity Incentive Plan (the "EIP").

Compensation Program Overview

The Compensation Committee is responsible for determining the compensation of our executive officers and administering the plans in which our executive officers, Directors and other employees participate. The goal of the Company's compensation program is to attract, motivate and retain talented individuals to help us attain our business goals and objectives. We are committed to achieving long-term, sustainable growth and increasing shareholder value. Our compensation programs for named executive officers are designed to be compatible with and to enhance these commitments, as well as to encourage strong financial performance on both an annual and long-term basis.

The Compensation Committee uses total direct compensation as the primary measure of compensation for our named executive officers. The principal elements of total direct compensation for the CEO and our other named executive officers are: (i) annual base salary, (ii) annual performance incentives under the AIP, and (iii) long-term compensation consisting of stock options and performance shares granted under the EIP, as well as certain perquisites and other benefits.

The Compensation Committee places a significant focus on performance-based compensation. For each of our named executive officers, other than our CEO, approximately 67% of his total direct compensation is attributable to performance-based compensation. For our CEO, the Compensation Committee places even more emphasis on the performance-based components of total direct compensation, so that approximately 83% of his total direct compensation is performance-based compensation. Our strong focus on performance-based compensation rewards strong Company financial performance and aligns the interests of our named executive officers with the Company's shareholders.

Other aspects of the Company's compensation program are intended to further align the interests of our named executive officers with our shareholders and to promote good corporate governance. These include:

Stock ownership guidelines for executives;

No obligations for the Company to provide tax gross-ups on income associated with payments made in connection with a change of control;

Cap on maximum annual performance incentives;

No special or supplemental pension or death benefits for our named executive officers; and

Clawback policy on performance-based compensation for certain executive officers.

Compensation Philosophy and Process

Compensation Committee Philosophy. The Compensation Committee looks at total direct compensation when determining the level and components of compensation for our named executive officers. The Compensation Committee generally targets the 50th percentile of the applicable benchmark (i.e., peer group or broader quick service restaurant industry) when setting target total direct compensation levels for our CEO and other named executive officers. Employee

Compensation Discussion and Analysis (continued)

performance and executive-specific considerations, actual performance related to the incentive plan measures used and stock price performance can result in actual total direct compensation that can be above or below the 50th percentile in any given year. A description of our use of peer groups and similar data is described below.

Compensation Setting Process. In order to evaluate and maintain the effectiveness of the Company's current executive compensation program, the Compensation Committee annually reviews the reasonableness of executive compensation levels using professional compensation consultants, currently Willis Towers Watson (WTW), as well as public information about comparable companies within the Company's industry, and evaluates such levels in light of individual performance as well as the Company's growth and profitability. In making such determinations, the Compensation Committee reviews the nature and scope of each named executive officer's responsibilities, as well as his or her effectiveness in supporting the Company's long-term goals. The Compensation Committee attempts to set levels of salary, annual performance incentives, long-term compensation and other compensation at levels that will attract, motivate, and retain superior executive talent in a highly competitive environment.

In 2015, the Compensation Committee conducted a review of the total direct compensation of our named executive officers using data provided by WTW. The Compensation Committee targets the total direct compensation of our named executive officers, excluding our CEO, to be allocated equally among annual base salary (33%), annual performance incentive (33%) and long-term compensation (34%).

For Mr. Doyle, the Compensation Committee places more emphasis on the performance-based components of total direct compensation so that his total direct compensation is generally allocated as follows: annual base salary (17%), annual performance incentive (33%) and long-term compensation (50%). The Compensation Committee believes, for our CEO, the proportion of his performance-based compensation as a component of total direct compensation should be greater than that of his annual salary because performance-based compensation serves to align our CEO's interest with the interests of the Company's shareholders. For 2015, the amount of annual performance incentive indicated in the Summary Compensation Table as earned by our named executive officers is greater than the respective stated target percentage due to overachievement by the Company in relation to the AIP.

Consideration of Say-On-Pay Vote and Shareholder Feedback. In evaluating the Company's executive compensation program, the Compensation Committee also considered the results of the advisory vote on the say-on-pay proposal presented at the Company's 2015 annual meeting of shareholders. At the 2015 annual meeting, approximately 87.5% of votes cast were in support of the compensation provided to our named executive officers. In light of our shareholders' continued support and the success of the executive compensation program, the Compensation Committee made minimal changes to the program during 2015. The Compensation Committee concluded that the Company continues to provide a competitive pay-for-performance package that effectively

incentivizes and retains executives.

Compensation Discussion and Analysis (continued)

In addition to the factors described above, the Company also engaged in discussions with our key shareholders to solicit feedback regarding our executive compensation program. As a result of those discussions and to comply with certain legal requirements, the Compensation Committee identified select elements of the program as areas of concern and has addressed the concerns as follows:

Shareholder Area of Concern	How we addressed in 2015
Voting policy for Directors	Implemented a majority voting policy for Directors
Clawback policy	Adopted a clawback policy effective for 2015
Uncapped maximum payouts under the AIP	Instituted a 250% cap on maximum payouts
Mid-year bonus payout	Eliminated the mid-year bonus payout for executives effective for 2016
Payout threshold for AIP	Increased the payout threshold for the AIP from 85% to 90% of target effective for 2016
EIP vesting	Increased the vesting threshold for performance shares issued under the EIP from 85% to 90% of target effective for 2016

The shareholders of the Company previously voted in favor of an annual say-on-pay vote and the Company has elected to follow such advisory vote. The shareholders will be asked to vote again on the frequency of the say-on-pay vote at the 2017 annual meeting of shareholders.

Role of the Compensation Consultant. The Compensation Committee has the authority under its charter to engage the services of outside advisors, experts and others to assist the Compensation Committee and also to discontinue such services. In accordance with this authority, the Compensation Committee has engaged WTW as an independent compensation consultant to advise the Compensation Committee on matters related to executive compensation. The Company has assessed the independence of WTW pursuant to Item 407(e)(3)(iv) of Regulation S-K and concluded that no conflict of interest exists that would prevent WTW from independently representing the Compensation Committee. In 2015, WTW did not attend any Compensation Committee meetings. However, in December 2015, WTW prepared an analysis on executive competitive pay practices that was provided to the Compensation Committee at the December 2015 meeting. The Compensation Committee has used, and intends to continue to use, WTW in 2016.

Benchmarking and Peer Group. The Compensation Committee used several peer group and market surveys, including executive officer compensation studies prepared by WTW in each of 2014 and 2015 reflecting relevant general and quick service restaurant industry compensation levels (referred to as the WTW Studies), for a review of executive compensation at companies in Domino's Pizza's peer group. The Compensation Committee evaluates executive compensation by measuring the total direct compensation of our named executive officers against benchmarks of comparable companies described below. The Compensation Committee targeted the annual salary for Mr. Doyle to be between 90% and 100% of the market median and total direct compensation for Mr. Doyle to be above the market median based on industry differences and financial performance and characteristics of the relevant companies. The Compensation Committee targeted the annual base salary and total direct compensation for the other named executive officers, on average, to be within a competitive range around the market median.

The following criteria were considered in determining the members of the Company's 2015 peer group: publicly-traded, retail industry, revenues generally between 0.25 times and 3.0 times that of the Company with a similar business model, complexity of business and recruiting pool for executives.

For the 2015 compensation decisions, the Compensation Committee removed Bob Evans, DineEquity and Sonic because their market cap, TSR performance and/or revenues are below the Company's criteria for inclusion. The Compensation Committee also concluded that, while the majority of the peers should continue to be chain restaurant companies, its business model and strategy share similarities with non-restaurant companies, and these types of companies should also be considered. For this reason, the Compensation Committee added Hyatt Hotels and Marriott International to its 2015 peer group. Additionally, Burger King Worldwide is now known as Restaurant Brands International, the new entity created as a result of the Burger King and Tim Horton's merger, and remains in our peer group.

Role of Executive Officers in Establishing Compensation. The Company's executive officers have a limited role in the executive compensation process. The CEO, the Executive Vice President of PeopleFirst and the Compensation Committee annually review the performance of each named executive officer (other than the CEO) and the other executive officers and make recommendations to the Compensation Committee. In addition, the Chairman of the Board and the Chairperson of the Compensation Committee review the performance of the CEO and make recommendations to the Compensation Committee. The scope of these reviews is to evaluate performance for a given year and for compensation planning for the subsequent year. The conclusions reached and recommendations based on these reviews, including with respect to base salary adjustments, annual performance incentives under the AIP and annual long-term compensation under the EIP, are presented to the Compensation Committee. The Compensation Committee may exercise its discretion to modify any recommended base salary adjustments or awards to executives. The Compensation Committee ultimately makes all compensation decisions for our named executive officers and approves recommendations regarding equity awards to our executive officers, which are ultimately ratified by our Board of Directors.

Use of Tally Sheets. The Compensation Committee, with the assistance of management of the Company, created tally sheets to facilitate the Compensation Committee's review of the total compensation of our named executive officers. In preparation for making decisions on increases in base salary, target annual incentive awards and target long-term compensation award grants, the Compensation Committee reviewed the tally sheets for our named executive officers. The tally sheets contained annual cash compensation (base salary and annual performance incentive), other compensation, stock option exercises, stock award vesting events and annual equity grants under the EIP, and also includes Accounting Standards Codification 718 (ASC 718) fair market values for the grants, potential severance payments, and equity grant holdings with total in-the-money value at the end of the fiscal year.

Equity Award Processes. Equity awards are generally granted at the regularly scheduled meetings of the Compensation Committee in February and July of each year. The specific date of these meetings is set by the Board of Directors, along with other Board and committee meetings, generally one to three years in advance. On occasion, in connection with new hires, promotions or certain corporate events, equity awards have been granted at other times throughout the year. The Compensation Committee does not have any plans, practices or policies of timing these equity award grants in coordination with the release of material non-public information and the Company does not

have any plans, practices or policies of timing the release of material non-public information with the timing of equity awards. The exercise price of stock options is set at the closing price of Domino's Pizza, Inc. common stock on the NYSE on the date of the grant.

Components of Total Direct Compensation

Annual Base Salary. The Compensation Committee annually reviews and approves the base salaries, and any adjustments thereto, of our named executive officers. In making these determinations, the Compensation Committee considers various factors such as:

Industry compensation survey data found in the WTW Studies;

Peer group compensation information found in the WTW Studies;

The executive's employment agreement with the Company;

The executive's individual performance, responsibilities, leadership and years of experience; and

The performance of the Company.

Compensation Discussion and Analysis (continued)

For 2015, the base salaries for our named executive officers, excluding Mr. Doyle, ranged from 77% to 106% of the median base salary from the industry compensation survey data, consistent with the Compensation Committee's target to pay at the 50th percentile of the benchmark.

The 2015 base salaries for our named executive officers, including any year-over-year change, were as follows:

Executive	2014 FYE	2015 FYE	Overall % Change (Year-Over-Year)
	Base Salary	Base Salary	
J. Patrick Doyle	\$ 925,000	\$ 975,000*	5.4%
Russell J. Weiner	\$ 550,000	\$ 550,000	0%
Richard E. Allison, Jr.	\$ 550,000	\$ 550,000	0%
Jeffrey D. Lawrence	N/A	\$ 400,000**	N/A
Scott R. Hinshaw	\$ 327,540	\$ 340,642	4.0%
Michael T. Lawton	\$ 500,000	\$ 500,000	0%

* Increase effective March 1, 2015.

** Promotion to CFO effective August 28, 2015.

Messrs. Allison and Weiner received promotion-related increases in their respective base salaries in October 2014 and, therefore, did not receive another base salary increase for fiscal 2015.

Annual Performance Incentives. The following section describes the annual performance incentive for fiscal 2015 for each of our named executive officers. For Mr. Doyle, the annual performance incentive target was 200% of his annual base salary. For Messrs. Weiner, Allison, Hinshaw and Lawton, the annual performance incentive target was 100% of their respective annual base salaries. Mr. Lawrence received an increase in his annual performance incentive target from 40% to 100% of his annual base salary at the time of his promotion to Executive Vice President, Chief Financial Officer. With the exception of Mr. Lawrence, these target bonuses were unchanged from fiscal 2014. The Compensation Committee establishes the performance criteria and approves annual performance incentives for the named executive officers based on whether the pre-approved incentive goals associated with such incentives have been met. The Compensation Committee made awards under the AIP to each of the named executive officers in 2015, with the exception of Mr. Lawrence, whose annual performance incentive was granted under the Company's bonus plan for non-executives, rather than the AIP, because he was not eligible to participate in the AIP at the time of his 2015 grant. Mr. Lawrence's annual performance incentive will be granted under the AIP for 2016 and for so long as he is our Executive Vice President, Chief Financial Officer.

The Compensation Committee, Board of Directors and shareholders last approved the AIP in 2015. The AIP allows the Compensation Committee flexibility in establishing the annual participants, performance measures, performance periods and performance targets, including minimum and maximum annual payment thresholds. For 2015, the

maximum annual payment threshold under the AIP was the lesser of (i) 250% of an individual's annual performance incentive target, and (ii) \$5,000,000 per participant (Maximum Annual Payment Threshold).

For annual performance incentives granted with respect to fiscal 2015, the measurement of such performance, as applied to all of the named executive officers, was segment income as defined by the Company under Accounting Standards Codification 280 (ASC 280), with certain adjustments (referred to as adjusted net segment income). The Compensation Committee believes that the use of adjusted net segment income is appropriate because it is a reliable barometer for overall success of the Company and it is a primary measure used by management to internally evaluate operating performance and determine future performance targets and long-range planning. A named executive officer was not entitled to a year-end payment unless 85% of the annual performance target was attained, and each named executive officer was entitled to receive two-thirds of one percent (2/3%) of a specified percentage of his base salary for every one-tenth of one percent (0.1%) that actual performance exceeded 85% of the annual performance target. The named executive officers would be eligible to receive payments in excess of 100% of their annual performance incentives, in accordance with the same payment scale and the Maximum Annual Payment Threshold per participant, if the Company achieved greater than 100% of the annual performance target.

Compensation Discussion and Analysis (continued)

The annual performance incentives for fiscal 2015 were designed to permit a potential mid-year payment of 50% of an individual's annual performance incentive target, but only if the Company exceeded its performance target for the first two fiscal quarters of 2015. Any such mid-year payment would reduce a named executive officer's annual performance incentive payment by a corresponding amount (but would not have been recouped if the Company did not achieve the annual performance target). Each named executive officer received a mid-year payment in fiscal 2015.

For illustrative purposes, assume a named executive officer had an annual base salary of \$100,000 per year and was eligible for an annual performance incentive of 100% of his annual salary. Further assume that the Company had an annual performance target of \$10,000,000. The Compensation Committee determined that the annual performance result was \$10,100,000 or 101.0% achievement of the annual performance target and that the Company exceeded its performance target for the first two fiscal quarters. In such a situation, the Company would pay the named executive officer 106.67% of his annual performance incentive, or \$106,670. Additionally, 50%, or \$50,000, of the named executive officer's annual performance incentive (Mid-Year Payment) would be paid subsequent to the second fiscal quarter if the Company exceeds its performance target for the first two fiscal quarters. The named executive officers' annual performance incentive is then reduced by the amount of the Mid-Year Payment.

For the named executive officers, the annual incentive performance target for 2015 was achievement of \$440 million in adjusted net segment income. The annual performance target was set to be aggressive, yet realistic to sufficiently motivate executive performance. As shown below, the Compensation Committee has raised the annual performance target by more than 10% from the previous year's target in each of the last six years, and by more than 5% over the previous year's actual results in the last five years, thereby requiring superior performance in a highly-competitive market to achieve the annual performance target.

Fiscal Year	Incentive Target	Incentive Target	Performance Incentive Payout
	Percentage Increase From Prior Year Incentive Target	Percentage Increase From Prior Year Actual Results	
2005	6.5%	7.8%	132.0%
2006	11.7%	8.2%	69.0%
2007	5.0%	8.8%	0.0%
2008	-5.9%	6.5%	0.0%
2009*	-20.0%	-7.3%	100.0%
2010	15.7%	1.1%	183.4%
2011	18.6%	5.5%	135.8%
2012	11.8%	6.1%	123.2%
2013	10.2%	6.5%	132.6%
2014	11.6%	6.4%	121.9%
2015*	14.3%	10.7%	136.9%

* *53-week fiscal year*

The Company believes that its annual performance incentive structure for executives that is closely tied to the Company's performance objectives is relatively difficult to achieve, as evidenced by the payment of less than 70.0% of the annual performance incentive for fiscal 2006 and no annual performance incentive for fiscal 2007 and fiscal 2008. The annual performance incentive payout for 2015 was above 100% due to the fact that the Company achieved greater than 100% of the 2015 annual performance target, even though the Compensation Committee raised the 2015 target 14.3% from the 2014 target, and 10.7% from the actual results achieved in 2014. In addition, because the annual performance targets set by the Compensation Committee were based on the Company's performance as a whole, the likelihood of each named executive officer achieving his annual performance incentive was equal.

The specific performance targets established by the Compensation Committee are based on the financial planning of the Company and take into account a variety of factors including certain plans, programs, commodity pricing and discounts (including long-term supply contracts), product pricing and discounts, volume and sales predictions, marketing plans and expenses, domestic and international store count projections, product initiatives, technological initiatives, macroeconomic conditions and other meaningful information.

Compensation Discussion and Analysis (continued)

The amount of the payouts for 2015 exceeded the target bonus opportunity because actual performance was 105.5% of target performance. Accordingly, pursuant to the terms of the plan described above, based on this level of performance, the Compensation Committee determined that 136.9% of the target bonus opportunities were earned by our named executive officers.

Executive	2015 Target Annual Incentive		Company	2015 Actual Award Payout

(1) % of Salary reflects end-of-year percentage. Actual Award Payout for period worked in 2015 prior to promotion to Chief Financial Officer was calculated at 40% of base salary.

(2) Actual Award Payout was prorated based on retirement date of August 27, 2015.

In December 2015, effective with the 2016 fiscal year, the Compensation Committee made the following changes to the AIP:

- (i) the Company shall establish one measurement period and one target for the fiscal year (eliminating the Mid-Year Payment);
- (ii) the Company must meet or exceed a payout threshold amount of 90% (rather than 85%) of the full-year target for participants to be eligible to receive a bonus payment, and
- (iii) the participants will receive 1% of their formula bonus for every 0.1% in excess of the payout threshold that is achieved. For example, if 95% of the target is achieved, then the executive will receive 50% of his formula bonus, if 100% of the target is achieved then the executive receives 100% of his formula bonus and if 101% of the target is achieved then the executive receives 110% of his formula bonus.

Long-term Compensation. The Compensation Committee believes that an equity component of executive compensation serves to align our named executive officers' interests with the interests of our shareholders and creating value for those shareholders. To that end, the Compensation Committee provides and maintains a long-term compensation program administered through its EIP. Under the EIP, the Compensation Committee may award incentive stock options, non-qualified stock options, stock appreciation rights, restricted stock, unrestricted stock, stock deliverable on a deferred basis, performance share awards, and cash payments intended to defray the cost of awards. The EIP also limits the maximum number of shares for which awards may be granted to any participant in any year to 1,000,000 shares per participant. The limit on shares available under the EIP, the individual limits, and other award terms are subject to adjustment to reflect stock splits or stock dividends, combinations, and certain other events. The EIP also includes provisions concerning the treatment of awards upon the termination of service of an individual employee, and in the case of a change of control of the Company, merger or similar corporate transaction by the Company. Grants of awards to our CEO and other named executive officers are presented to the Board of Directors by the Compensation Committee and are ratified by our Board of Directors.

(2) Based on a Black-Scholes value on February 11, 2015 of \$28.875 per share.

(3) Based on our closing stock price on July 15, 2015 of \$118.54 per share, unless otherwise noted.

(4) Based on our closing stock price on February 11, 2015 of \$100.45 per share.

Performance Shares. In 2015, the Compensation Committee continued its use of performance shares as a vehicle for long-term compensation. The Compensation Committee believes that performance shares align with peer group practices to provide a diversified equity compensation strategy. Recipients of performance shares do not receive a benefit from them unless the Company achieves the applicable performance goal. The actual value of the shares that are earned, if any, will depend on our stock price at the time the performance shares vest and shares are delivered to our named executive officers. Participation in the Company's equity incentive programs accomplishes the objective of linking each named executive officer's opportunity for financial gain to Company performance and increases in shareholder wealth, as reflected by the market price of the Company's common stock.

Historically, performance share awards were full value awards that consisted of Domino's Pizza, Inc. common stock with both time-based and performance-based vesting conditions that generally vested over three years in three separate vesting tranches. Beginning in February 2013, performance share grants vest over four years in four separate vesting tranches. Each vesting tranche has its own performance-based vesting condition that is established annually by the Compensation Committee. For performance shares granted in 2015 and prior years, the measurement of performance established by the Compensation Committee was segment income as defined by the Company under ASC 280, with certain adjustments (the same adjusted net segment income used by the Company for annual performance incentives).

The performance shares for each named executive officer vest only in the event that the Company achieves at least 85% of the annual performance target (with no additional performance shares earned for performance above 85% of the annual performance target). Beginning with grants issued on or after January 4, 2016, the required achievement percentage for vesting of all future performance share grants will be 90% or more of the annual performance target

(with no additional performance shares earned for performance above 90% of the annual performance target). If the achievement is less than 85% of the performance target (or less than 90% for grants issued on or after January 4, 2016), each respective vesting tranche is canceled and forfeited for no consideration. The performance shares do not contain a provision for partial vesting. All unvested performance shares are canceled upon termination of the named executive officer's employment, except in certain circumstances such as death and qualified retirement. The specified service and age requirements for qualified retirement by an employee are ten years of continuous service and 55 years of age. Upon the achievement of the qualified retirement requirements, in the event the named executive officer's employment is terminated, the performance shares will continue to be eligible to vest upon the achievement of the applicable performance criteria. Outstanding, unvested performance shares are also eligible for dividends. Dividends accrue on such unvested performance shares and are delivered to the named executive officers if the performance shares vest.

Stock Options. In 2015, the Compensation Committee continued its use of stock options as an additional vehicle for long-term compensation. Recipients of stock option grants do not receive a benefit from stock options unless and until the market price of the Company's common stock increases above the exercise price and the recipient exercises such stock options.

28 DOMINO S PIZZA, INC. 2016 PROXY STATEMENT

Compensation Discussion and Analysis (continued)

Beginning in February 2013, stock options awarded under the EIP have a maximum term of ten years and vest ratably over four years, and vested options are exercisable for a limited period of time after a termination of employment. Upon death and qualified retirement, any unvested stock options become immediately vested and the period of exercisability is extended until the end of the original term of the options. Stock options granted in 2009 through 2012 under the EIP had the same terms as stock options granted in or after 2013, except those stock options generally vested ratably over three years. Stock options awarded prior to 2009 under the EIP had the same terms as stock options granted in 2009 and forward, except those stock options generally vested ratably over five years. All options awarded under the EIP are granted with an exercise price equal to the closing price of Domino's Pizza, Inc. common stock on the grant date of the award.

In February 2009, the Compensation Committee approved the amendment of existing stock option agreements issued under the EIP and all future equity grant agreements issued under the EIP. These amendments provide for accelerated vesting and extended exercise periods upon the retirement of option holders who have achieved specified service and age requirements. For employees, the specified service and age requirements are ten years of continuous service and 55 years of age. For Directors, the specified service and age requirements are five years of continuous service and 55 years of age. Upon achievement of the service and age requirements, all outstanding unvested equity grants will vest upon such qualified retirement, subject to the achievement of any performance measures attached to such equity grant agreements, and all stock option grants will remain exercisable through the original term of the option grant. As of January 3, 2016, there were no currently employed named executive officers who had achieved the qualified retirement requirements.

Other Elements of Compensation

Employee Stock Payroll Deduction Plan. The Company maintains the Employee Stock Payroll Deduction Plan (the ESPDP), adopted in July 2004, to provide employees, including named executive officers, with an opportunity to purchase shares of the Company's common stock through payroll deductions at a 15% discount from the market price. The ESPDP is a qualified plan under Internal Revenue Code §423. Shares of the Company's common stock purchased under the ESPDP have a one-year holding period requirement before employees can sell the shares. The Compensation Committee believes the ESPDP is an attractive benefit that assists the Company in retaining key employees, securing new qualified employees and providing incentives for employees to work towards achieving the Company's key objectives because it gives employees access to the Company's equity at a discounted price.

Retirement and Pension Benefits. The Company does not maintain a defined benefit pension plan or retiree medical coverage for the named executive officers.

Deferred Compensation. The Company maintains the Domino's Pizza Deferred Compensation Plan (the DCP), a nonqualified elective deferred compensation plan, whereby our named executive officers, select senior management and Directors of the Company are permitted to defer their own compensation. Deferred amounts under the DCP are invested in mutual funds or other investments available under the DCP. The Company does not provide an employer match for amounts deferred in the DCP. The DCP is described more fully below.

Perquisites. The Company makes a limited amount of perquisites available to our named executive officers. Each participating executive officer is reimbursed for expenses related to the completion of an annual comprehensive

physical for themselves and their spouse as well as personal purchases of Domino's Pizza food items. Mr. Doyle is also entitled to a certain number of hours of personal use of the Company's aircraft, as described below. Detailed information regarding perquisites provided to named executive officers is set forth in the Summary Compensation Table in this Proxy Statement.

Other Benefits. The Company also maintains a benefits program comprised of retirement income and group insurance plans. The objective of the program is to provide our named executive officers and certain other full-time employees with reasonable and competitive levels of benefits for the four contingencies (retirement, death, disability and illness), which will interrupt the eligible employee's employment and/or income received as an active employee. The retirement program consists of two savings plans; (i) a tax-qualified 401(k) savings plan, and (ii) a non-qualified deferred

Compensation Discussion and Analysis (continued)

compensation plan (the DCP referenced above). The 401(k) savings plan is open to all employees age 21 or older who have also worked at least 1,000 hours for the Company. The Company provides a match on employee 401(k) contributions equal to 100% on the first three percent (3%) contributed by employees into their 401(k) funds and 50% on each of the fourth and fifth percent (4% and 5%) of employee 401(k) contributions.

The Company's group insurance program consists of life, disability and health insurance benefit plans that cover all full-time employees. Umbrella insurance premiums are paid by the Company for participating named executive officers, and the amounts paid are recorded as compensation (and included in the Summary Compensation Table) for such named executive officers.

Compensation for Chief Executive Officer

Mr. Doyle's annual salary was increased by the Compensation Committee from \$925,000 to \$975,000 on March 1, 2015, and from \$975,000 to \$1,025,000 on March 1, 2016. Mr. Doyle entered into an employment agreement in March 2015 that granted him an annual allotment of 45 hours of personal use of the Company's corporate aircraft during the term of the agreement at no charge to him to address bona fide business-oriented security concerns. For any personal use over the allotted 45 hours per year, the Company has a time-sharing agreement with Mr. Doyle that requires him to reimburse the Company for such personal use of the Company's corporate aircraft pursuant to a statutory formula. The employment agreement also provides that Mr. Doyle be eligible for an annual performance incentive that is targeted at 200% of his annual base salary upon the achievement of the annual performance target, the actual amount of which being based on the Company's achievement of performance target measures under the AIP.

In February 2015, the Board of Directors awarded a long-term compensation grant to Mr. Doyle in the form of an equity grant under the EIP consisting of: (i) a stock option grant of 70,910 shares with a four-year graded vesting period, a ten-year life and an exercise price equal to the closing price on the day of the grant, and (ii) a performance share grant of 13,590 shares that vest equally over four years in separate tranches. The performance shares have the same terms and conditions as those described above in the long-term compensation section. In February 2016, Mr. Doyle was granted an award under the EIP, as approved by the Board of Directors, consisting of: (i) a stock option grant of 83,590 shares, and (ii) a performance share grant of 10,460 shares, both with the same terms as the equity grants received in 2015. Awards under the Company's EIP in the form of stock options and performance shares are designed to reward demonstrated leadership, motivate future superior performance, align the interests of the CEO with the shareholders and to retain the CEO. The Compensation Committee believes that Mr. Doyle's compensation is appropriate in relation to his experience, skills, past performance and market data. In December 2014, WTW provided an Executive Officer Compensation Study (the "2014 Study") to the Compensation Committee that reflected relevant restaurant and quick service restaurant industry compensation levels. Among other factors, the Compensation Committee considered the results of the 2014 Study when it set Mr. Doyle's annual base salary at \$975,000 per year as of March 1, 2015 (approximately 4% below the 2014 Study median). In December 2015, WTW provided an Executive Officer Compensation Study (the "2015 Study") to the Compensation Committee using a consistent methodology as the 2014 Study. Again, among other factors, the Compensation Committee considered the results of the 2015 Study when it set Mr. Doyle's annual base salary to \$1,025,000 per year as of March 1, 2016. The 2014 Study and 2015 Study (collectively, the "WTW Studies") are described in more detail above in the section titled "Benchmarking and Peer Group."

The Compensation Committee believes that Mr. Doyle's annual base salary in 2015 is an appropriate annual base salary for the CEO as it is within 90% to 100% of the market median according to the 2014 Study. While Mr. Doyle's 2015 annual base salary is below the market median, his annual performance incentive target is above the market median and his long term incentive compensation is also above the market median resulting in his total direct compensation being above the market median. The Compensation Committee believes it is appropriate to compensate Mr. Doyle at this rate as a CEO with a significant level of operational experience in the industry in which the Company competes and given that he has served in an executive capacity at the Company for more than 19 years. The Compensation Committee will continue to evaluate Mr. Doyle's performance as CEO and make any further necessary adjustments. Mr. Doyle's opportunities to increase his future compensation depend on the Company's future performance and the competitive pay practices of comparable positions within the food-service industry.

30 DOMINO S PIZZA, INC. 2016 PROXY STATEMENT

Compensation Discussion and Analysis (continued)

The Compensation Committee believes Mr. Doyle's compensation package effectively links shareholder and financial performance to Mr. Doyle's total direct compensation through the use of long-term awards and cash compensation that is based, in part, on Company performance. With respect to financial performance, the Company's global retail sales, defined as total worldwide retail sales at Company-owned and franchise stores, increased approximately 58% during Mr. Doyle's six-year tenure as CEO, and the Company's segment income increased 75% during this time. As it relates to an increase in shareholder value, the price of the Company's common stock has increased a total of 992% during Mr. Doyle's six-year tenure as CEO. The Compensation Committee has continued the Company's practice of using performance-based awards for equity compensation to named executive officers, consisting of stock options and performance shares. The philosophy behind this practice is that stock options and performance shares require increased Company financial performance in order for the CEO and other executive officers to earn long-term compensation.

Employment Agreements

Each of our named executive officers is party to a written agreement that governs their employment with the Company and includes both severance provisions as well as restrictive covenants that apply for two years following termination of employment. The provisions of the employment agreements relating to termination of employment and severance are described in more detail under Potential Post Employment Payments to Executive Officers. We believe entering into non-competition and non-solicitation arrangements with our named executive officers is important to protect the Company following the cessation of their employment and we also believe that severance provisions help attract and retain top-performing executive officers.

Stock Ownership Guidelines

The Compensation Committee reviews the Company's stock ownership guidelines annually. In July 2015, the Compensation Committee amended the guidelines to require stock ownership after five years of employment or service with the Company at the individual's current executive level equal to five times base salary for the CEO, four times base salary for President-level executives, and three times base salary for the other named executive officers. These stock ownership guidelines are designed to align management's and shareholders' interests and to encourage loyalty and long-term focus of executives. All of our named executive officers and directors who have completed their respective accumulation period under the guidelines are in compliance with such guidelines.

Tax and Accounting Considerations

Section 162(m) of the Internal Revenue Code and the regulations thereunder (collectively, Section 162(m)) generally limits the tax deductibility of annual compensation paid by a publicly-held company to \$1,000,000 per employee per year for certain executive officers. However, this limitation generally does not apply to performance-based compensation under a plan that is approved by the shareholders of a company that also meets certain other technical requirements. The Compensation Committee has utilized performance-based compensation programs that are intended to meet the requirements for performance-based compensation under Section 162(m). At the Company's 2015 annual meeting of shareholders, the shareholders approved the AIP, which is intended to qualify under Section 162(m), the terms of which are described above. However, the Compensation Committee also realizes that in order to attract and retain individuals with superior talent, it may pay, and it has paid, compensation that is not deductible by reason of

Section 162(m). The Compensation Committee views the tax deductibility of executive compensation as one factor to be considered in the context of an overall compensation philosophy.

Risk Assessment Disclosure

In February 2016, the Compensation Committee, in consultation with WTW and senior human resource executives of the Company, reviewed the risk assessment for risks associated with the Company's compensation practices and policies for employees. Based upon the assessment performed, the Committee believes that, through the counterbalance of risk-taking incentives and risk-mitigating features guided by relevant market practices and Company goals, the Company's compensation practices and policies do not encourage unnecessary or excessive risk taking and are not reasonably likely to have a material adverse effect on financial results of the Company.

The total annual variable costs are divided by the annual number of flight hours flown by the airplane to calculate an average variable cost per flight hour. This average variable flight cost per flight hour is then multiplied by the flight hours flown for personal use to calculate the incremental cost for the executive. For tax purposes, income is imputed to the executive for personal travel based on a multiple of the Standard Industry Fare Level (SIFL) rates.

Non-Qualified Deferred Compensation

A select group of management or highly compensated employees as defined by the Employee Retirement Income and Security Act of 1974, as amended, as well as the Company's Directors, are eligible to participate in the Domino's Pizza Deferred Compensation Plan, or the DCP. Participants elect a specific date or event (termination) for payment of deferred compensation and the form of the payment, either lump sum or installments. Participants are able to invest their deferrals in mutual funds selected by them from a lineup of options. The options available under the DCP for the fiscal year ended January 3, 2016 were as follows:

Under Mr. Doyle's employment agreement, effective as of March 1, 2015, upon involuntary termination by the Company without cause prior to the end of the term of the agreement, or if Mr. Doyle terminates voluntarily for good reason, defined as material diminution of his

Such amount will be paid in a payment equal to six times Mr. Doyle's base monthly salary made six months after termination of employment and monthly payments equal to Mr. Doyle's base monthly salary for the next 18 months as well as a prorated annual performance incentive under the AIP. Mr. Doyle is also entitled to continued medical insurance coverage during the severance period.

Under the employment agreements of Messrs. Each named executive officer is also entitled to a prorated annual performance incentive under the AIP. In addition, during the severance period, each named executive officer is entitled to continued medical insurance coverage. Equity awards and other benefits are governed by the terms of those programs.

Each of the employment agreements for the named executive officers contains a two year non-competition and non-solicitation provision.

The terms of the employment agreements of Messrs. Doyle, Weiner, Allison, Lawrence and Hinshaw were established through arms-length negotiations between the Company and each executive. The Company uses peer group compensation surveys and data to establish an acceptable salary range for each executive position and then negotiates with successful candidates to arrive at a fully-negotiated base salary. 40 DOMINO'S PIZZA, INC. 2016 PROXY STATEMENT

Proposal Three: Advisory Vote to Approve Named Executive Officer Compensation

At our 2015 annual meeting of shareholders, the Company provided shareholders with the opportunity to cast an advisory vote regarding the compensation of our named executive officers as disclosed in our 2015 Proxy Statement. This non-binding advisory vote is commonly referred to as say-on-pay. At our 2015 annual meeting, our shareholders approved the proposal with over 87% of the votes cast voting in favor of the say-on-pay proposal.

In keeping with the preference expressed by our shareholders at the 2011 annual meeting, our Board of Directors elected to hold an annual say-on-pay vote. Accordingly, this year we are again asking our shareholders to vote **FOR** the approval of the compensation we pay to our named executive officers as disclosed in this Proxy Statement. Shareholders will be asked to vote again on how frequently we should hold the say-on-pay vote at the Company's 2017 annual meeting of shareholders.

The objectives, philosophy and programs, along with the compensation paid to our named executive officers and the rationale for such compensation, are set forth in the Compensation Discussion and Analysis, and the related tables and narrative disclosures in this Proxy Statement.

The Board of Directors, as required pursuant to Section 14A of the Securities Exchange Act, is asking shareholders to cast a non-binding, advisory vote **FOR** the following resolution:

RESOLVED, that the compensation paid to the Company's named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and any related material contained in this proxy statement, is hereby APPROVED.

As we described in the Compensation Discussion and Analysis, our executive compensation program embodies a pay-for-performance philosophy that supports the Company's business strategy and aligns the interests of our executives with our shareholders. In approving the 2015 compensation decisions for our named executive officers, the Compensation Committee considered the financial performance of the Company in 2014. In fiscal 2014, the Company's financial results significantly exceeded its 2014 business plan and goals. The Company's named executive officers contributed greatly to these achievements and, therefore, the compensation of our named executive officers was increased.

In addition, the Company has reviewed its compensation programs and engaged in discussions with our key shareholders to solicit feedback regarding our executive compensation programs. As a result, the Company has (i) implemented a majority voting policy for directors, (ii) adopted a clawback policy, (iii) added a maximum payout under our AIP, (iv) eliminated the mid-year annual incentive bonus payout and increased the payout threshold under the AIP (effective in the 2016 fiscal year), and (v) increased the vesting threshold for performance shares issued under the EIP (effective in the 2016 fiscal year).

For these reasons, the Board is asking shareholders to again support this say-on-pay proposal. Although the vote we are asking you to cast is non-binding, the Compensation Committee and the Board value the views of our shareholders and will continue to consider the outcome of the vote when determining future compensation arrangements for our named executive officers.

Our Board of Directors Unanimously Recommends a Vote FOR this Proposal

Review and Approval of Related Person Transactions

The Company reviews relationships and transactions in which the Company and its Directors and executive officers or their immediate family members are participants to determine whether such related persons have a direct or indirect material interest. The Company's legal staff is primarily responsible for the development and implementation of processes and controls to obtain information from the Directors and executive officers with respect to related person transactions and for then determining, based on the facts and circumstances, whether a related person has a direct or indirect material interest in the transaction. The Company does not currently have a specific written policy on the review, approval or ratification of transactions required to be reported under Section 404(a) of Regulation S-K, but the Company has enacted a Code of Business Conduct and Ethics for Directors, Officers and Employees as well as Corporate Governance Principles, both of which contain provisions relating to possible conflicts of interest of employees, Directors and officers of the Company. The Company's Board of Directors is to review, approve or ratify any potential related person transaction and consider the nature of the related person's interest in the transaction, the material terms of the transaction, the relative importance of the transaction to the related person, the relative importance of the transaction to the Company, whether the transaction would impair the judgment of a Director or officer of the Company and any other matters deemed important. As required under SEC rules, transactions with any related person that are determined to be directly or indirectly material are disclosed in this Proxy Statement.

Time Sharing Agreement with J. Patrick Doyle for Use of Corporate Aircraft

In accordance with the terms of the Time Sharing Agreement between Domino's Pizza LLC and J. Patrick Doyle, the Company's President and CEO and a member of the Company's Board of Directors, dated as of February 23, 2015, Mr. Doyle is entitled to 45 hours per year of personal use of the Company aircraft without charge and he is required to pay the Company for any personal use in excess of the 45 hours at a reimbursement rate set by the Federal Aviation Regulations. For 2015, Mr. Doyle's personal use of the Company aircraft totaled 57.6 hours and, therefore, he reimbursed the Company \$39,183 for an additional 12.6 hours of personal use.

Supply Agreement

The Company has a supply agreement with Griffith Laboratories U.S.A., Inc. (Griffith) for the provision of certain ingredients that are used in the production of certain dough products. The supply agreement is negotiated at arms-length on an annual basis and the overall relationship between the Company and Griffith is over 20 years old. The sister-in-law of Gregory A. Trojan, one of the members of the Company's Board of Directors, is an executive at Griffith. In 2015, the Company purchased \$1,204,607 in products from Griffith, less than two percent of the consolidated gross revenues of Griffith.

Proposal Four: Shareholder Proposal Regarding Deforestation

The New York State Common Retirement Fund (the Fund) has advised the Company that it intends to present the following shareholder proposal at the Annual Meeting. In accordance with applicable proxy regulations, the proposed resolution and supporting statement, for which the Board of Directors and the Company accept no responsibility, are set forth below. The address and share ownership of the proponent will be furnished to any shareholder upon request. Approval of this proposal would require the affirmative vote of a majority of the votes properly cast in person or by proxy at the Annual Meeting. If you abstain, your shares will not be counted as having been voted on the matter. The Board of Directors recommends a vote **AGAINST** this proposal.

Shareholder Proposal

Dominos supply chain includes four commodities that, together, are the largest cause of deforestation globally: palm oil, soy, cattle and forest products.

Deforestation accounts for 15-20% of global greenhouse gas emissions, more than the entire transportation industry, while contributing to habitat and biodiversity loss, soil erosion, disrupted rainfall patterns and community land conflicts.

Over 1 billion people depend on forests for their livelihood, yet production of these commodities can displace and endanger the livelihoods and food security of smallholder farmers and indigenous communities. Alternatively, these commodities can be produced according to robust sustainability standards.

Soy and palm oil derivatives are ingredients in Dominos pizza dough. Meat products, for which soy often provides feed, are used as toppings. In addition, the Company uses wood-derived products and packaging throughout its operations (including franchises) in over 80 countries.

Due to the company's reliance on these commodities that cause deforestation, Dominos may be exposed to significant business risks including supply chain reliability, reputational damage and failure to meet shifting consumer and market expectations.

Dominos peer companies are working to minimize these risks and avoid the negative media attention associated with irresponsible sourcing. For example, McDonalds committed to eliminate deforestation from its global supply chains and Yum! Brands, Dunkin Donuts, and Krispy Kreme adopted zero deforestation policies for palm oil.

The Consumer Goods Forum has pledged to help its member companies achieve zero net deforestation by 2020, which included developing specific, time bound and cost effective action plans for the different challenges in sourcing commodities like palm oil, soya, beef, paper and board.

Resolved: Shareholders request Dominos Pizza Inc. issue a forest impact report that establishes a time-bound plan to address its supply chain impact on deforestation and associated human rights issues. This report should be prepared at reasonable cost, omit proprietary information and be published within six months of the Company's 2016 Annual Meeting.

Supporting Statement. Proponents suggest consideration of the following content:

A company-wide policy on reducing deforestation and any associated violations of human rights

The amount of each commodity used as well as traceability to the course (where feasible)

Board of Directors Statement in Opposition to Shareholder Proposal

The Board recommends shareholders vote **AGAINST** the shareholder resolution. The Board recommends that shareholders instead consider the information below to serve as the report asked for by the shareholder resolution.

Domino s Sources 100% Certified Sustainable Mass Balance Palm Oil Product

Domino s Pizza is a member of the Roundtable for Sustainable Palm Oil (RSPO). Through our supplier, AAK USA, we are committed to sourcing 100% certified sustainable mass balance palm oil, and have done so since June 2015.

Proposal Four: Shareholder Proposal Regarding Deforestation (continued)

Additionally, we are committed to sourcing palm oil that is produced without deforestation of High Conservation Value areas, High Carbon Stock forests or the destruction of peat land. Domino's established and reached the goal of 100% traceability back to the mill for all palm oil products at the end of 2015. Domino's requires that AAK be a member in good standing of the RSPO.

Up to 50% of Domino's U.S. Packaging Comes from Recycled Material

Domino's Pizza purchases our paper products from International Paper, RockTenn and Weyerhaeuser, and up to 50% of our corrugated comes from recycled cardboard.

International Paper notes that for every tree harvested for corrugate production, three are planted. This policy has led to 12 million more acres of trees planted in the past several years.

RockTenn works with a number of recognized environmental organizations on sustainable initiatives.

Weyerhaeuser notes that all of the forests it owns or manages worldwide have environmental management systems registered to the ISO 14001 standard. 100% of the forests Weyerhaeuser owns or manages in North America have been independently certified as meeting either the SFI or CSA standard. In one recent year, Weyerhaeuser says it planted 130 million seedlings.

More information on these and other topics can be found on our corporate and investor website at biz.dominos.com/investors/profile/social-commitment, which includes a downloadable four-page guide outlining our efforts and successes in these areas.
