Dear Valued Customer,

We are pleased to share with you today that TDK has announced the acquisition of InvenSense. Pending regulatory and InvenSense shareholder approval, we believe this acquisition will enable us to better serve your needs with a more comprehensive sensor platform with broader core competencies.

This acquisition brings together our sensor solution capabilities spanning the mobile, IoT, automotive and industrial markets with a broad portfolio of motion, location, pressure, ultrasonic and audio/microphone sensor technologies under the TDK Sensors Business Group. Together, we believe our combined technologies and global reach will accelerate and enhance our roadmap for future sensor product solutions and make us the best possible sensor technology partner for you and your organization.

TDK has a strong commitment to customer satisfaction and extending that same commitment to the acquisition of InvenSense is one of the many reasons why this combination makes sense. We appreciate your business and remain as committed as ever to provide the highest level of quality, service and support that you have come to expect from InvenSense. Until the transaction closes, which is expected in the third calendar quarter of 2017, InvenSense will continue to operate as an independent company with no changes to your sales and support contacts or the strong relationship we have built with you.

We look forward to enriching our support and solutions to help you to achieve your business and technology objectives.
