Business Highlights

(For more details, please see our Annual Report on Form 10-K for the fiscal year ended December 31, 2016 filed with the Securities and Exchange Commission (the SEC) on February 23, 2017)

During 2016, Flowers Foods gained market share, driven by the solid performance of Dave's Killer Bread (DKB), volume improvement by Nature's Own, and growing sales of the Wonder brand. Among other things, Flowers Foods key developments in 2016 included:

The completion of the diagnostic phase of Project Centennial. Flowers Foods is now turning its focus to executing on the following four key strategic initiatives developed as a result of Project Centennial that it believes will strengthen its competitive position and drive profitable revenue growth: (1) reinvigorating the core business, (2) capitalizing on product adjacencies, (3) reducing costs to fuel growth and (4) developing leading capabilities. Flowers Foods is targeting at least 250 basis points of net EBITDA margin improvement by fiscal 2021, and expects to achieve run rate cost reductions of at least \$45 million by fiscal 2018.

The completion of Flowers Foods nationwide launch of the DKB brand. Organic, non-GMO DKB products are now available in over 17,000 stores within Flowers Foods direct-store-delivery (DSD) geographic footprint. As part of this process, Flowers Foods also completed the conversion of its Tuscaloosa, Alabama plant to an all-organic production facility. Financial highlights from the 52-week fiscal 2016:

Sales increased 3.9%. Acquisitions of DKB, until cycled September 12, 2016, and Alpine Valley Bread, until cycled October 13, 2016, contributed 4.0% to the overall sales increase.

Net income of \$163.8 and adjusted EBITDA of \$446.8 million.⁽¹⁾ Adjusted EBITDA margin was 11.4% of sales.⁽¹⁾

Diluted net income per share of \$0.78 per share and adjusted net income per diluted common share of \$0.91 per share.⁽¹⁾

Paid dividends in fiscal 2016 of \$0.6250, an increase of 10.1% over fiscal 2015.

Entered into an accelerated share repurchase agreement to repurchase \$120 million of the company's common stock.

(1) Adjusted EBITDA, adjusted EBITDA margin and adjusted net income per diluted common share differ from the measures reported under U.S. generally accepted accounting principles (GAAP). See Annex A for a reconciliation of non-GAAP financial measures to the nearest financial measure reported under GAAP.

Governance of the Company (page 17)

Director Independence Pursuant to our corporate governance guidelines, the nominating/corporate governance committee and the board of directors are required to annually review the independence of each director and director-nominee. The purpose of this annual review is to determine whether each director meets the applicable criteria for independence under the rules and regulations of the SEC, the New York Stock Exchange Listed Company Manual (NYSE Rules) and our corporate governance

6 FLOWERS FOODS, INC. - *2017 Proxy Statement*

guidelines. Only those directors who meet the applicable criteria for independence and the board of directors affirmatively determines to have no direct or indirect material relationship with the company are considered independent directors. Additional guidelines apply to the members of the audit committee under the SEC rules and regulations and NYSE Rules.

Board Leadership Structure George E. Deese, our former chairman and chief executive officer, now serves as non-executive chairman. In fiscal 2016, Benjamin H. Griswold, IV was elected as presiding director. With the active participation by all of our directors, including 10 independent directors, we believe that the board leadership structure best positions Flowers to benefit from the respective strengths of our chief executive officer, non-executive chairman of the board of directors and presiding director.

QUESTIONS AND ANSWERS ABOUT THE ANNUAL MEETING AND VOTING

What is a proxy?

A proxy is your legal designation of another person to vote the shares of Flowers Foods common stock you own as of the record date for the annual meeting. If you appoint someone as your proxy in a written document, that document is also called a proxy or a proxy card. We have designated three of our executive officers as proxies for the annual

meeting. These three officers are Allen L. Shiver, our president and chief executive officer, R. Steve Kinsey, our executive vice president and chief financial officer, and Stephen R. Avera, our executive vice president, secretary and general counsel.

Are the proxy materials available electronically?

Yes. Under SEC rules and regulations, Flowers Foods is making this proxy statement and its 2016 annual report available to its shareholders electronically on the Internet at www.proxyvote.com. On or about April 11, 2017, we mailed to our shareholders a notice (the Notice) containing instructions on how to access this proxy statement and our 2016 annual report online. If you received a Notice by mail, you will not receive a printed copy of the proxy materials in the mail. Rather, the

Notice instructs you on how to access and review all of the important information contained in this proxy statement and our 2016 annual report on the Internet. The Notice also instructs you on how you may submit your proxy vote over the Internet.

If you received a Notice by mail but would like to receive a printed copy of this proxy statement and our 2016 annual report, please follow the instructions contained on the Notice.

Who can vote?

To be eligible to vote, you must have been a shareholder of record of the company's common stock at the close of business on March 23, 2017, which is the record date for the annual meeting. There were 209,184,590 shares of our common stock outstanding and entitled to vote on the record date.

How many votes do I have?

You are entitled to one vote on each of the twelve director-nominees, and one vote on each other matter to be voted upon at the annual meeting, for each share of common stock you held on the record date for the annual meeting. For example, if you owned 100 shares of our common stock on the record date, you would be entitled to 100 votes for each of the twelve director-nominees and for each other matter to be voted upon at the annual meeting.

How do I vote?

You can vote in the following ways:

Voting by Mail. If you elect to receive your proxy materials by mail, you may vote by completing and signing the enclosed proxy card and promptly mailing it in the enclosed postage-paid envelope. The envelope does not require additional postage if you mail it within the United States.

Internet Voting. If you have Internet access, you may vote your shares from any location in the world by following the *Vote by Internet* instructions set forth on the Notice or the proxy card.

Telephone Voting. You may authorize the voting of your shares by following the *Vote by Telephone* instructions set forth on the proxy card.

Vote at the Meeting. If you attend the annual meeting and you are a registered shareholder, you may vote by delivering your completed proxy card in person or you may vote by completing a ballot, which will be available at the annual meeting. If your shares are held in *street name* through a bank, broker or other record holder, to be eligible to vote your shares in person, you must obtain a legal proxy from your bank, broker or other record holder that specifies the number of shares you owned on the record date and bring the legal proxy with you to the annual meeting.

1 YEAR for the frequency of future advisory votes on the compensation of the Named Executives.

AGAINST the shareholder sponsored proposal.

Can I change my vote after I have mailed my proxy card or after I have authorized the voting of my shares over the Internet or by telephone?

Yes. You can change your vote and revoke your proxy at any time before the polls close at the annual meeting by doing any one of the following things:

signing and delivering to our corporate secretary another proxy with a later date;
giving our corporate secretary a written notice before or at the annual meeting that you want to revoke your proxy;
or

voting in person at the annual meeting.

Your attendance at the annual meeting alone will not revoke your proxy.

How do I vote my 401(k) shares?

If you participate in the Flowers Foods, Inc. 401(k) Retirement Savings Plan (the 401(k) Plan) and you received the Notice, you may vote by the Internet or telephone as previously described in this proxy statement. If you elect to

receive your proxy materials by mail, you may vote by completing and signing the enclosed proxy card and promptly mailing it in the enclosed postage-paid envelope. In addition, if you received a Notice by mail but would like to receive a printed copy of this proxy statement and our 2016 annual report, please follow the instructions contained on the Notice. By voting, you will direct Great-

West Trust Company, LLC, as trustee of the 401(k) Plan (the Trustee), how to vote the shares of Flowers Foods common stock allocated to your account. Any unvoted or unallocated shares will be voted by the Trustee in the same proportion on each proposal as the Trustee votes the shares of common stock credited to the 401(k) Plan participants accounts for which the Trustee receives voting directions from the 401(k) Plan participants. The number of shares you are eligible to vote is based on the number of shares of Flowers Foods common stock in your account on the record date for the annual meeting.

Can I vote if my shares are held in street name by a bank, broker or other record holder?

If your shares of Flowers Foods common stock are held in street name through a bank, broker or other record holder, you will receive instructions from the registered holder that you must follow in order for your shares to be voted for you by that bank, broker or other record holder. Internet and telephone voting are offered to shareholders who own their shares of Flowers Foods common stock through certain banks and brokers.

The election of directors (Proposal I), the advisory vote on the compensation of the Named Executives (Proposal II), the advisory vote on the frequency of future advisory votes on the compensation of the Named Executives (Proposal III) and the shareholder proposal regarding whether the chairman of the board of directors should be independent,

if properly presented at the annual meeting (Proposal V), are considered non-discretionary matters under applicable NYSE Rules. A broker or other nominee cannot vote without instructions on non-discretionary matters, and therefore there may be broker non-votes on Proposal I, Proposal II, Proposal III and Proposal V. The ratification of the appointment of our independent registered public accounting firm for fiscal 2017 (Proposal IV) is considered a discretionary matter under applicable rules, and a broker or other nominee may (but is not required to) vote FOR Proposal IV without instructions. Accordingly, it is important that you follow the voting instructions sent to you by the registered holder of your shares held in street name if you want your vote to be counted.

QUESTIONS AND ANSWERS ABOUT THE ANNUAL MEETING AND VOTING

How will broker non-votes be treated?

Broker non-votes will be counted as present in determining whether the quorum requirement is satisfied but will not be included in vote totals and generally will not affect the outcome of the vote. A non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a proposal because the nominee has not received instructions from the beneficial owner and does not have discretionary power to vote.

In order for your shares to be voted on all matters presented at the annual meeting, including the election of directors, we urge all shareholders whose shares are held in street name by a bank, broker or other record holder to provide voting instructions to the bank, broker or other record holder.

How will abstentions be treated?

Abstentions will be counted as present in determining whether the quorum requirement is satisfied. However, abstentions will not be included in the vote totals and will have no effect on the outcome of the vote with respect to Proposals I, II, III, IV and V.

What constitutes a quorum?

The holders of at least a majority of the shares of our common stock entitled to vote at the annual meeting are required to be present in person or represented by proxy to constitute a quorum for the transaction of business at the annual meeting. Abstentions and broker non-votes will be counted as present in determining whether the quorum requirement is satisfied. The aggregate number of votes cast by all shareholders present

in person or represented by proxy at the annual meeting, whether those shareholders vote for or against the proposals, and the total number of votes cast for each of these proposals will be counted for purposes of determining whether the proposals have been approved by the shareholders.

What if a quorum is not present at the meeting?

If a quorum is not present at the scheduled time of the annual meeting, we may adjourn or postpone the annual meeting until a quorum is present. The time and place of the adjourned or postponed annual meeting will be

announced at the time the adjournment or postponement is taken, and, unless such adjournment or postponement is for more than 120 days, no other notice will be given. An adjournment or postponement will have no effect on the business that may be conducted at the annual meeting.

What vote is required for each matter to be voted upon at the annual meeting?

With regard to Proposal I, each of the twelve nominees for director who receive a majority of the votes cast at the meeting in person or by proxy will be elected (meaning the number of shares voted FOR a director-nominee must exceed the number of votes cast AGAINST that director-nominee), subject to the board of directors existing policy regarding resignations by directors who do not receive a majority of FOR votes, which is described in our corporate governance guidelines.

Approval of Proposals II, III, IV and V require the affirmative vote of the holders of a majority of the shares of our common stock present at the meeting in person or by proxy.

Will any other business be conducted at the annual meeting or will other matters be voted on?

At this time, the board of directors does not know of any other business to be brought before the annual meeting, but if any other business is properly brought before the annual meeting, the persons named as proxies, Messrs. Shiver, Kinsey and Avera, will exercise their judgment in deciding how to vote or otherwise act at the annual meeting with respect to that matter or proposal.

Where can I find the voting results from the annual meeting?

We will report the voting results from the annual meeting on a Current Report on Form 8-K, which we expect to file with the SEC on or before May 31, 2017.

Determination of Independence

Pursuant to our corporate governance guidelines, the nominating/corporate governance committee and the board of directors are required to annually review the independence of each director and director-nominee. During this review, transactions and relationships among each director and director-nominee or any member of his or her immediate family and the company are considered, including, among others, all commercial, industrial, banking, consulting, legal, accounting, charitable and familial relationships and those reported in this proxy statement under Transactions with Management and Others. In addition, transactions and relationships among directors or director-nominees or their affiliates and members of senior management and their affiliates are examined. The purpose of this annual review is to determine whether each director and director-nominee meets the applicable criteria for independence in accordance with the SEC rules and regulations, NYSE Rules and our corporate governance guidelines. Only those directors who meet the applicable criteria for independence and the board of directors affirmatively determines to have no direct or indirect material relationship with the company are considered independent directors.

As part of our corporate governance guidelines, we have adopted categorical standards which provide that certain relationships will be considered material relationships and will preclude a director's independence. Under these standards, an independent director is one who:

has not been employed by the company or any of its subsidiaries or affiliates, or whose immediate family member has not been employed as an executive officer by the company, within the previous three years;

does not, or whose immediate family member does not, receive more than \$120,000 per year in direct compensation from the company, other than director and committee fees and pension or other forms of deferred compensation for prior service, provided such compensation is not contingent in any way on continued service (such person is presumed not to be independent until three years after he or she (or their immediate family member) ceases to receive more than \$120,000 per year in such compensation); provided that compensation received by an immediate family member for service as an employee of the company (other than as an executive officer) need not be considered;

is not affiliated with or employed by, or whose immediate family member is not affiliated with or employed in a professional capacity by, a present or former internal or external auditor of the company (such person is not independent until three years after the end of either the affiliation or the auditing relationship);

is not employed, or whose immediate family member is not employed, as an executive officer of another company where any of Flowers Foods' present executives serve on such other company's compensation committee (such person is not independent until three years after the end of such service or the employment relationship); and

is not a current employee, or whose immediate family member is not a current executive officer, of a company that has made payments to, or received payments from, Flowers Foods for property or services in an amount which, in any of the last three fiscal years, exceeds the greater of \$1 million, or 2% of such other company's consolidated

gross revenues.

The nominating/corporate governance committee and the board of directors conducted the required annual independence review in February 2017. Upon the recommendation of the nominating/corporate governance committee, the board of directors affirmatively determined that a majority of our directors and director-nominees are independent of the company and its management as required by the SEC rules and regulations, NYSE Rules and our corporate governance guidelines. Messrs. Griswold, Lan, McMullian, Shields, Singer, Spear, Stith and Wood and Mses. Lewis and Gass are independent director-nominees and Messrs. Beverly and Burke were independent directors prior to their retirement in May of 2016. Mr. Deese is considered an inside director

Table of Contents

DIRECTORS AND CORPORATE GOVERNANCE

because of the proximity of his employment with the company as executive chairman and Mr. Shiver is an inside director because he is currently the president and chief executive officer of the company. Each director and director-nominee abstained from voting on his or her own independence.

The foregoing discussion of director independence is applicable only to service as a member of the board of directors, the compensation committee and the nominating/corporate governance committee. Additional guidelines apply to the members of the audit committee under the SEC rules and regulations and NYSE Rules.

Presiding Director

Pursuant to our corporate governance guidelines, the board of directors created the position of presiding director, whose primary responsibilities are to preside over periodic executive sessions of the board of directors in which management directors and other members of management do not participate and to:

serve as the liaison between the chairman of the board of directors and the outside, independent directors of the company;

oversee information sent by the company to the members of the board of directors;

review meeting agendas and schedules for the board of directors;

call meetings of the independent, non-management directors; and

be available for consultation and director communication with shareholders.

Each year at the meeting of the board of directors following the annual meeting, a presiding director is appointed among the independent directors to serve until the company's annual meeting of shareholders the following year. On May 26, 2016, Benjamin H. Griswold, IV was appointed to serve as the presiding director until the 2017 annual meeting of shareholders.

The Board of Directors and Committees of the Board of Directors

In accordance with the company's amended and restated bylaws, the board of directors has set the number of members of the board of directors at twelve. The board of directors held nine meetings in fiscal 2016, and no incumbent director attended fewer than 75% of the aggregate of:

the total number of meetings of the board of directors held during the period for which he or she has been a director; and

the total number of committee meetings held by all committees of the board of directors on which he or she served during the periods that he or she served.

The board of directors has established several standing committees: an audit committee, a nominating/corporate governance committee, a compensation committee and a finance committee. The board of directors has adopted a written charter for each of these committees, all of which are available on the company's website at www.flowersfoods.com.

review of employment agreements (if any), severance agreements and any severance or other termination payments proposed with respect to any of our executive officers;

overseeing risks related to executive compensation disclosures, human capital needs, intellectual capital loss, labor relations, employee retention and public compensation disclosures; and
production of a report on executive compensation for inclusion in our proxy statement for the annual meeting of shareholders.

For fiscal 2016, the compensation committee completed its annual review of our compensation philosophies and practices with respect to our employees and concluded that the risks arising from such policies and practices are not reasonably likely to have a material adverse effect on us. While risk is inherent in any strategy for growth, the company's compensation programs minimize risk through the following design elements, among others:

balanced incentive plans designed to reward both annual and long-term performance, and both internal and stock price performance;

incentive goals set at the corporate level;

capped incentives;

double-trigger equity vesting upon a change of control;

stock ownership guidelines requiring the Named Executives to own a significant amount of our common stock; and

a recoupment (clawback) policy for equity grants and cash bonuses if they are paid based on incorrect financial results due to knowing misconduct by a participant.

The board of directors has determined that all members of the compensation committee are independent under SEC rules and regulations, NYSE Rules and our corporate governance guidelines.

Finance Committee

Under the terms of its charter, the finance committee reviews and makes recommendations with respect to financial matters affecting the company. The finance committee's duties and responsibilities include:

make recommendations to the board of directors with respect to (i) management's capital expenditure plans and other uses of the company's cash flows (including the financial impact of stock repurchases, acquisitions and the payment of dividends), (ii) the company's credit facilities, (iii) commodities hedging and (iv) liquidity matters;

make plan design recommendations to the board of directors with respect to the approval, adoption and any significant amendment of all defined benefit and defined contribution retirement plans;

recommend to the board of directors appointments to and have oversight over the Fiduciary Oversight Committee; and

be responsible for oversight of risks regarding the following matters:

leverage and debt service/cash flow;

access to capital;

deployment of capital;

mergers and acquisitions;

benefit plan funding and multi-employer pension plan funding;

DIRECTORS AND CORPORATE GOVERNANCE

Board Leadership Structure

Mr. Deese, our former executive chairman of the board of directors, is non-executive chairman and continues to provide guidance regarding the strategic direction of the company. Mr. Shiver, in his role as president and chief executive officer, has primary responsibility for the day-to-day operations of the company. In his role as non-executive chairman of the board of directors, Mr. Deese continues to set the strategic priorities for the board of directors (with input from the presiding director), preside over its meetings and communicate its strategic findings and guidance to management. The board of directors believes that the close working relationship between the president and chief executive officer and non-executive chairman of the board of directors will continue to provide consistent communication and coordination throughout the organization, which results in a more effective and efficient implementation of corporate strategy. The board of directors further believes that Mr. Deese's continued active role on the board of directors is important in unifying the

company's strategy behind a consistent vision as the company transitions through its established succession plans.

As noted earlier, the independent non-management directors appointed Mr. Griswold as independent presiding director in fiscal 2016, which provides balance to the board's leadership structure. With a supermajority of independent directors, an audit committee, compensation committee, nominating/corporate governance committee and finance committee each comprised entirely of independent directors, and an independent presiding director to oversee all meetings of the non-management directors, the company's board of directors believes the existing leadership structure provides for an appropriate balance that best serves the company and its shareholders. The board of directors annually reviews its leadership structure to ensure that it remains the optimal structure for the company and our shareholders.

Risk Management

The board of directors is actively involved in oversight of risks that could affect the company. This oversight is conducted primarily through the audit committee, as described above and in the audit committee charter, but the full board of directors has retained responsibility for general oversight of risks. Specifically, the board of directors has responsibility for overseeing, reviewing and monitoring the company's overall risks, and each board committee is responsible for the oversight of specific risk areas relevant to its purpose as provided in the committee charters. The overall responsibility of the board of directors and its committees is enabled by an enterprise risk management model and process implemented by management that is designed to identify, assess, manage and mitigate risks. The board of directors satisfies this responsibility through full reports by each committee chair

regarding the committee's considerations and actions, as well as through regular reports to the board of directors directly from executive officers responsible for oversight of particular risks within the company. In addition, the compensation committee, nominating/corporate governance committee and finance committee are responsible for the

oversight of specific risks, as described above and in each committee's charter. The company believes that the board's leadership structure, discussed in detail above, supports the risk oversight function of the board of directors. Strong directors chair the various board committees involved with risk oversight, there is open communication between management and directors and all directors are actively involved in the risk oversight function.

Relationships Among Certain Directors

J.V. Shields, Jr. and C. Martin Wood III are married to sisters.

Attendance at Annual Meetings

In accordance with our corporate governance guidelines, directors are expected to rigorously prepare for, attend and participate in all meetings of the board of directors and meetings of the committees on which they serve and to devote the time necessary to appropriately discharge their responsibilities. Aside

from these requirements, the company does not maintain a formal policy for attendance by directors at annual meetings of shareholders. However, all of our directors attended the annual meeting of shareholders held on May 26, 2016.

Selection of Director-Nominees

The nominating/corporate governance committee identifies and considers director candidates recommended by its members and other board members, as well as management and shareholders. A shareholder who wishes to recommend a prospective director-nominee

for the committee's consideration should submit the candidate's name and qualifications to Flowers Foods, Inc., 1919 Flowers Circle, Thomasville, Georgia 31757, Attention: Executive Vice President, Secretary and General Counsel. The nominating/corporate governance

Table of Contents

DIRECTORS AND CORPORATE GOVERNANCE

committee will also consider whether to recommend for nomination any person identified by a shareholder pursuant to the provisions of our amended and restated bylaws relating to shareholder nominations. Recommendations by shareholders that are made in accordance with these procedures will receive the same consideration given to nominees of the nominating/corporate governance committee.

The nominating/corporate governance committee believes that any director-nominee must meet the director qualification criteria set forth in our corporate governance guidelines before such director-nominee can be recommended for election to the board of directors. These factors include:

integrity and demonstrated high ethical standards;

the ability to express opinions, raise tough questions and make informed, independent judgments;

experience managing or operating public companies;

knowledge, experience and skills in at least one specialty area;

ability to devote sufficient time to prepare for and attend board of directors meetings;

willingness and ability to work with other members of the board of directors in an open and constructive manner;

ability to communicate clearly and persuasively; and

diversity in background, personal and professional experience, viewpoints or other demographics.

The nominating/corporate governance committee considers these factors as it deems appropriate, as well as other factors it determines

are pertinent in light of the current needs of the board of directors. The nominating/corporate governance committee may use the services of a third-party executive search firm to assist it in identifying and evaluating possible director-nominees.

On February 17, 2017, the board of directors voted to approve an amendment to the corporate governance guidelines eliminating the mandatory retirement age for directors. In making this determination, the board of directors considered its overall composition, including the qualifications, background and tenure of its current members, and the prospect that the current retirement age could result in the arbitrary or premature loss of valuable, experienced directors with

deep knowledge of the operations of the company and a thorough understanding of the company's history, operations, policies and strategic vision. The board of directors concluded that a specific retirement age may be counterproductive and that it is in the best interests of the company and its shareholders to retain flexibility in electing or reelecting directors without an age restriction. The elimination of the retirement age of 75 resulted in the following directors retaining eligibility for reelection in 2017: Benjamin H. Griswold, IV, age 76, who has been a director of the company since 2005; Amos R. McMullian, age 79, who is chairman emeritus of the company and served as chairman of the board of directors from 2000 to 2006 and chief executive officer of the company from 2000 to 2004; and J.V. Shields, Jr., age 79, who has been a director of the company since 2001. Messrs. Griswold, McMullian and Shields abstained from the vote of directors approving the amendment to the corporate governance guidelines.

Shareholder & Other Interested Party Communication with Directors

The board of directors will give proper attention to written communications that are submitted by shareholders and other interested parties and will respond if appropriate. Shareholders and other interested parties interested in communicating directly with the board of directors as a group, the independent, non-management directors as a group or any individual director may do so by writing to Presiding Director, Flowers Foods, Inc., 1919 Flowers Circle,

Thomasville, GA 31757. Absent circumstances contemplated by committee charters, the chair of the nominating/corporate governance committee and the presiding director, with the assistance of our executive vice president, secretary and general counsel will monitor and review all correspondence from shareholders and other interested parties and provide copies or summaries of such communications to other directors as they deem appropriate.

DIRECTOR COMPENSATION

General

Based upon the recommendations of the nominating/corporate governance committee, the board of directors considers and establishes director compensation. An employee of the company who also serves as a director does not receive any additional compensation for serving as a director or as a member or chair of a board committee.

2016 Director Compensation Package

During 2016, the directors' compensation package for non-employee directors was based on the following principles:

a significant portion of director compensation should be aligned with creating and sustaining shareholder value;

directors should have an equity interest in the company; and

total compensation should be structured to attract and retain a diverse and superior board of directors. The nominating/corporate governance committee annually reviews the status of director compensation in relation to other comparable companies and other factors it deems appropriate. In addition, in 2016, the nominating/corporate governance committee engaged Meridian Compensation Partners (Meridian), an independent compensation consultant, to assist the committee in its assessment of the competitiveness of director compensation.

Additional Compensation Program Details

Non-employee directors are eligible to participate in the 2014 Omnibus Equity and Incentive Compensation Plan (the Omnibus Plan) and the Executive Deferred Compensation Plan (the EDCP).

Non-employee directors have the option to convert their annual cash board retainer fees into deferred stock equal in value to the cash payments they would otherwise have received. These deferred shares vest pro rata over a one-year period based on service. Accumulated dividends are paid upon the delivery of the vested shares.

Non-employee directors may alternatively elect to defer all or any portion of their annual retainers and cash committee fees into an interest-bearing account in the EDCP. Generally, the deferral plus interest is paid to the director upon retirement or termination from the company's board of directors.

Stock Ownership Guidelines

In order to align the economic interests of directors with those of shareholders, all directors are expected to hold shares of common stock in the company. A non-employee director must own shares of common stock with a value of at least six times the annual cash retainer paid to the non-employee directors. In addition, the non-executive chairman of the board of directors is required to hold six times his

annual board retainer plus his additional cash retainer. All direct holdings of our common stock, certain indirect holdings, and all vested and unvested shares of deferred stock are included for purposes of determining compliance. Directors have five years to meet the required guidelines. All non-employee directors were in compliance with the guidelines as of August 2016.

Other Arrangements

We reimburse all directors for out-of-pocket expenses incurred in connection with attendance at board of directors meetings, or when traveling in connection with the performance of their services for the company.

Executive Compensation Generally

Objectives of Executive Compensation

The primary objective of our executive compensation program is to attract, retain and motivate qualified executives necessary for the future success of the company and the maximization of shareholder value. Our compensation program is designed to motivate our executives by rewarding them for the achievement of specific annual, long-term and strategic goals of the company. The program aligns our executives' interests with those of the shareholders by rewarding performance above established goals, with the ultimate objective of improving shareholder value. We strive to foster a sense of ownership among our executives by establishing stock ownership guidelines that require them to maintain ownership of a specified amount of our common stock.

The compensation committee evaluates both performance and compensation to ensure that (i) the company maintains its ability to attract and retain the most qualified executives; (ii) each executive's compensation remains competitive relative to the compensation paid to similarly situated executives in comparable companies; and (iii) each of the company's primary objectives with respect to compensation is

being fulfilled. To meet those goals, our compensation program includes three primary components:

base salary;

annual cash bonuses; and

long-term incentives, through stock-based compensation.

Certain retirement and other post-employment benefits are also included in the executives' compensation package. In addition, see the section entitled "Potential Payments Upon Termination or Change of Control" of this proxy statement for details on payments and benefits payable (or realizable) upon termination of employment and a change of control of the company. We do not offer perquisites as part of our executive compensation program.

Each element of our compensation program is described in greater detail below, including a discussion of why the company chooses to pay each element, how we determine the amount of each element to pay and how each element and the company's decisions regarding that element fit into our overall compensation objectives.

Role of Executive Officers in Compensation Decisions

The compensation committee, which is comprised entirely of independent directors, has overall responsibility for evaluating, analyzing and approving the company's compensation plans, policies and programs.

The president and chief executive officer consults with and advises the compensation committee with respect to the company's compensation philosophy and makes recommendations regarding the compensation of other executive officers including the Named Executives, but not regarding his own compensation. All recommendations of the chief executive officer to the compensation committee regarding

compensation of executive officers are independently evaluated by the committee.

The chief financial officer, or his designee, assists the compensation committee in understanding the key drivers of company performance, particularly those measures used in our annual cash bonus and long-term incentive plans and also provides the compensation committee with regular updates on company performance as it relates to certain performance measures used in our annual cash bonus and long-term incentive plans.

Compensation Consultants

For fiscal 2016, the compensation committee engaged Meridian as its independent compensation consultant. At the compensation committee's request, Meridian evaluated the competitiveness of the base salaries, annual bonuses and long-term incentives awarded to the Named Executives, provided competitive market data on new compensation arrangements and evaluated the continued appropriateness of existing arrangements. Meridian attended compensation committee meetings at the committee's request and was available to provide guidance to the compensation committee on compensation questions and issues as they arose.

In December 2016, the compensation committee, in accordance with SEC rules and regulations, considered various factors related to consultant conflicts of interest. In connection with this review, the compensation committee considered the following six factors established by the SEC:

the provision of other services to the company by the consultant's employer;

the amount of fees received from the company by the consultant's employer as a percentage of total revenue;

the policies and procedures of the consultant's employer designed to prevent conflicts of interest;

any business or personal relationship of the consultant with a member of the compensation committee;

any stock of the company owned by the consultant; and

any business or personal relationship of the consultant or the consultant's employer with an executive officer of the company.

As a result of its review of these six factors, the committee determined that the work of the compensation consultant did not raise any conflicts of interest.

Table of Contents**EXECUTIVE COMPENSATION****Compensation Benchmarking**

Because there are not many food companies the size of Flowers Foods, a specific set of peer companies is not used for market compensation comparisons. We use market pay data for base salary, bonus and long-term incentives opportunity based on available food industry and general industry peers pay data from published surveys. We use an average of food industry and general industry (the Relevant Market Sector) survey data when making market comparisons, and the data is adjusted to reflect pay for companies with annual revenues comparable to the company (the Relevant Market Data). When establishing pay levels for fiscal 2016, data was collected from the Willis Towers Watson Executive Compensation Database using both general industry data (from 700+ companies) and data from the Food & Beverage industry cut comprised of the following companies:

WILLIS TOWERS WATSON EXECUTIVE COMPENSATION DATABASE FOOD & BEVERAGE COMPANIES

General Mills, Inc.	Nestle USA	

The Relevant Market Data obtained from the companies above was for pay opportunity, not actual payout, and was regressed (size-adjusted) to reflect appropriate scope of revenue responsibility. The Relevant Market Data is calculated using the simple average of the regressed food industry and general industry market rates. Both are established at levels that approximate the size-adjusted 50th percentile for each component of pay opportunity (*i.e.*, base salary, target bonus and long-term incentive opportunity). This approach sets executive pay opportunities high enough to be competitive and to attract and retain a strong motivated leadership team but not so high that they create

negative perception among other constituencies.

The compensation committee concluded that the proposed 2016 compensation levels under the company's incentive and equity compensation plans for each Named Executive, and their total compensation opportunities, were consistent with the pay philosophy, as well as appropriate to meet the company's goal to retain each Named Executive and to align his interests with those of the company's shareholders.

Cash Compensation

Base Salary

Base salary represents the fixed and recurring part of each Named Executive's annual compensation. Its objective is to reward experience and expertise, functional progression (*i.e.*, the development of the executive through a series of work experiences and duties and accountabilities relevant to the current position held), career development, skills and competencies. It rewards core competence in the executive role. We choose to pay base salary because it is a standard element of pay for executive positions and is required to attract and retain talent.

We have established a system of tiered salary grades, and executives are assigned an appropriate salary grade considering the position's internal value as well as external comparisons to the Relevant Market Data. With respect to the position's internal value, we have developed salary grades on the basis that a given position is at least one salary grade below that of the supervising position, which is the only weight assigned to internal value in establishing the salary grades.

Named Executives' base salaries are related to a salary grade and the base salaries for the grades are determined based on (i) external competitive market base salaries, as determined through benchmarking analysis of the Relevant Market Data and (ii) the internal relationships (*i.e.*, value and progression) of these positions. We periodically make adjustments to the base salaries based on the factors discussed above as well as the performance of the respective Named Executive.

Individual salaries for Named Executives reporting directly to the president and chief executive officer are subject to approval by the compensation committee after consideration of the recommendations he submits. The president and chief executive officer's salary is subject to review and approval by the compensation committee and the board of directors. Base salaries for all Named Executives are reviewed annually by the compensation committee and the board of directors.

Table of Contents**EXECUTIVE COMPENSATION**

The 2016 base salary for the following Named Executives increased as shown below and for the reasons provided:

Base Salary		
Executive	Increase	Reasons
Allen L. Shiver	2.6%	Merit pay increase
R. Steve Kinsey	6.1%	Merit pay increase
Bradley K. Alexander	5.1%	Merit pay increase

Annual Executive Cash Incentive Awards

For 2016, the annual cash incentive awards were granted to Named Executives under our Omnibus Plan, which was designed to provide an incentive to achieve critical annual goals that lead to our long-term success. We choose to pay it in order to motivate achievement of annual performance metrics critical to continued company growth and shareholder value creation.

For 2016, the compensation committee established target bonus levels under the Omnibus Plan, which are expressed as a percentage of each Named Executive's base salary (the Target Bonus Percentage). Target Bonus Percentages for each Named Executive in 2016 were as follows:

Named Executive	Target Bonus Percentage
Allen L. Shiver	110%
R. Steve Kinsey	80%
Bradley K. Alexander	80%
Stephen R. Avera	70%
D. Keith Wheeler	70%

For 2016, a bonus was awarded to participating Named Executives based on the following formula:

the Named Executive's base salary; *multiplied by*

the Target Bonus Percentage; *multiplied by*

the Actual Bonus Percentage, a percentage based upon the company's actual EBITDA for the fiscal year as compared to the payout scale below which uses straight-line interpolation between points. The scale also shows the percentage of the 2016 EBITDA Goal achieved and the related Actual Bonus Percentages:

Level of Achievement	% of EBITDA	Actual Bonus
	Goal Achieved	Percentage
Maximum	110%	150%
Target	100%	100%
Actual	89.76%	48.80%
Threshold	80%	0%

Each Named Executive's 2016 bonus payment could not exceed the lesser of 150% of his base salary or \$3.0 million. The Actual Bonus Percentage would have been zero if actual EBITDA were 80% or less of the EBITDA Goal. This mechanism provided motivation for each Named Executive to strive for improved company performance in 2016 even if the EBITDA Goal itself were not attained.

The company does not pay bonuses under the Omnibus Plan to any Named Executive until such time as the compensation committee has certified the Actual Bonus Percentage and the annual report on Form 10-K for the applicable fiscal year has been filed with the SEC.

EXECUTIVE COMPENSATION

Long-Term Incentive Compensation

The objective of providing long-term incentive compensation is to focus executives on metrics that lead to increased shareholder value over a longer period of time. It rewards achievement of the specific metrics described below. We choose to pay long-term incentive compensation because it aligns Named Executives' interests with those of shareholders and helps to retain a stable management team.

Equity and Performance Compensation Awards

In keeping with the compensation committee's pay-for-performance philosophy, stock-based incentives comprise our entire long-term incentive program and a significant portion of total compensation opportunity for Named Executives. We believe our stock-based incentives, as designed, are fundamental to the enhancement of shareholder value, reward performance over the long-term and align the Named Executives' interests with those of our shareholders. The 2016 awards under the Omnibus Plan contain elements that helped focus the

Named Executives' attention on one of the company's primary goals—the long-term success of the company and, ultimately, the enhancement of shareholder value.

Individual long-term incentive grants are reviewed annually and approved by the compensation committee with reference to the Relevant Market Data it receives from its compensation consultant.

Ongoing Stock-Based Incentive Grants

As in 2015, in 2016 the compensation committee allocated equity-based awards between two types of performance-contingent restricted stock, as described below, and did not grant any stock options. The use of performance-contingent restricted stock is intended to encourage Named Executives to focus on capital investments that produce returns in excess of the Company WACC and that enhance the company's total shareholder return relative to food industry peers.

The determination of 2016 performance-contingent restricted stock award levels for the Named Executives was based on the Relevant Market Data, the expected allocation of value between types of equity award, and a value of 101.6% of face value for both types of performance-contingent restricted stock.

The 2016 performance-contingent restricted stock agreement (the Performance Restricted Stock Agreement) provides the terms and conditions under which the shares of restricted stock will vest. Vesting of the awards occurs approximately two years from the date of grant (after the filing of our Annual Report on Form 10-K) to the extent that the vesting conditions described below are satisfied.

ROIC-Based Performance-Contingent Restricted Stock Awards. The Performance Restricted Stock Agreement provides that, as to 50% of the restricted stock underlying each executive's performance-contingent restricted stock award (the ROIC-Based Award), vesting will occur in the manner set forth below, if the Company's ROIC exceeds its WAAC by the following levels during the 24-month performance period ending December 30, 2017 (the Performance Period):

ROIC minus WACC	Payment Percentage (% of Target)
Less than 175 basis points	0%
175 basis points	50%
375 basis points	100%
475 basis points	125%

For performance between the levels described above, the degree of vesting is interpolated on a linear basis.

TSR-Based Performance-Contingent Restricted Stock Awards. The Performance Restricted Stock Agreement provides that, as to the remaining 50% of the restricted stock underlying each Named Executive's performance-contingent restricted stock award (the TSR-Based Award), vesting will occur based on the company's performance, measured by Company TSR over the two-year performance period, as compared to the total shareholder return of the companies in a specified peer group (the TSR Peer Group).

For 2016, the TSR Peer Group consisted of the following 19 publicly traded packaged food and meats companies:

B&G Foods	Kellogg
Campbell Soup	The Kraft Heinz Company
Conagra Foods	Lancaster Colony
Dean Foods	McCormick & Co.
General Mills	Mondelez International, Inc.
Hain Celestial Group	Pinnacle Foods, Inc.
Hershey Co.	Post Holdings, Inc.
Hormel Foods	Snyders-Lance
J&J Snack Foods	Treehouse Foods
J.M. Smucker	The Whitewave Foods Company

Hypothetical payouts based on the total shareholder return for the company and each member of the TSR Peer Group are calculated at the end of each of the last four quarters of the Performance Period using the performance/payout schedule below and then averaged to determine the actual payout:

Percentile of Company TSR	Payment
vs. Peer Group TSR	Percentage
	(% of Target)
Less than 30 th	0%
30 th	50%
50 th	100%
70 th	150%
90 th or above	200%

For performance between the percentiles described above, the degree of vesting is interpolated on a linear basis.

Vesting Upon Death, Disability, Retirement or Change of Control. For the 2016 grant, if the grantee dies or becomes disabled, the performance-contingent restricted stock awards generally vest at the

Table of Contents

EXECUTIVE COMPENSATION

target level immediately. If the grantee retires at age 65 (or age 55 with at least ten years of service with the company) or later, on the normal vesting date the grantee will receive a prorated number of shares based upon the retirement date and actual performance for the entire performance period. For the 2016 grants, double-trigger vesting applies if a change of control occurs. In addition to change of control, double-trigger vesting requires either that an award fail to be assumed by a successor employer or that the executive's employment be terminated under specific circumstances within a specified period of time following the change of control before accelerated vesting can occur.

Dividends. Dividends accrue on the restricted stock and are paid to the executive on the vesting date on all shares of restricted stock that vest. At the time of vesting, the executive will receive the shares of stock and will be liable for his or her portion of all federal and state income and payroll taxes based on the fair market value of the shares awarded on the vesting date.

Timing of Grants. Grants of performance-contingent restricted stock were made on January 3, 2016. It is expected that this timing of

granting awards will continue for consistency and planning purposes. Except in unusual circumstances, we typically do not grant equity awards to the Named Executives at other dates. The grant price of our performance-contingent restricted stock grants is the closing market price on the grant date.

Vesting of 2015 Awards:

The ROIC Performance-Contingent Restricted Stock Award issued in 2015 vested in early 2017 at 87% of target as a result of Company ROIC during the two-year performance period ending December 31, 2016 exceeding Company WACC by 322 basis points.

The TSR-Based Performance-Contingent Restricted Stock Award issued in 2015 vested in early 2017 at 0% of target as a result of the rankings of the company's TSR from January 1, 2015 through each of the last four quarters in calendar 2016, placing below the 30th percentile of the TSR Peer Group companies. We ended the two-year performance period with TSR of 10.9%.

Recoupment (Clawback) Policy

The Omnibus Plan provides for the recoupment of grants and bonuses awarded under it. The recoupment policy provides that if the board of directors has reliable evidence of knowing misconduct by a participant that results in an overstatement of the company's earnings or other financial measurements that were taken into consideration in awarding

grants or bonuses and, as a result of such overstatement, the participant (i) received a bonus and/or (ii) either received a grant or had a prior grant vest or become nonforfeitable, the participant shall be required to reimburse (or forfeit, as the case may be) the full amount of any grants or bonuses that resulted from the overstatement.

Anti-Hedging Policy

The company's insider trading policy generally prohibits short-term, speculative trading practices and hedging by executive officers, including any Named Executives, and directors.

Retirement & Other Post-Employment Benefits

We provide retirement benefits to our Named Executives and other executives as noted below. The objective is to provide a competitive array of benefits that is affordable to the company. Retirement benefits reward continued employment and indirectly reward achievement of the metrics in the Omnibus Plan. We choose to pay them to remain competitive in the marketplace and to provide compensation that extends into employees' non-earning years.

Pension benefits are provided to executives under the Flowers Foods, Inc. Retirement Plan No. 1 (the Retirement Plan). The company also provides a defined contribution benefit to executives through the 401(k) Plan and the EDCP.

Retirement Plan

The Retirement Plan is a qualified defined benefit pension plan that provides a pension upon retirement to eligible employees of participating subsidiaries (but not to employees of the company) that is based upon each year of service with the participating subsidiary until December 31, 2005. Additionally, the Retirement Plan provides a pension upon retirement to eligible employees (including employees of non-participating subsidiaries and of the company) who were participants under the Flowers Industries, Inc. Retirement Plan No. 1 prior to the company's spin-off from Flowers Industries, Inc., which is based upon each year of service with Flowers Industries, Inc. and/or certain of its subsidiaries. No additional years of credited service have been granted other than for actual years of credited service in the Retirement Plan.

Participation in the Retirement Plan was closed to new employees beginning January 1, 1999, and effective December 31, 2005 benefits under the Retirement Plan were frozen and no additional benefits will accrue under the Retirement Plan. The frozen pension benefit is the sum of annual credits earned during eligible employment. The basic credit formula at the time the Retirement Plan was frozen was 1.35% of the first \$10,000 of W-2 earnings (subject to certain exclusions) plus 2% of W-2 earnings (subject to certain exclusions) in excess of \$10,000 for each year of service up to 35 years. For each year of service in excess of 35 years, 1.8% of W-2 earnings (subject to certain exclusions) was credited. Earnings in any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. Certain additional fixed benefit amounts were provided for a limited group of participants in the Retirement Plan, including certain of the Named Executives.

Table of Contents

EXECUTIVE COMPENSATION

Benefits can be paid in many forms under the terms of the Retirement Plan, including a life annuity option, joint and survivor option, period certain and life options, and a level income option. Participants who terminate or retire on or after January 1, 2016 may elect an unlimited lump sum. The payout option must be elected by the participant before benefit payments begin. Each available payout option is actuarially equivalent. Early retirement benefit payments are available to participants upon attainment of age 55 and completion of five years of vesting service. A participant's full benefit under the Retirement Plan is payable at age 65. Benefits are reduced by 1/15 for each of the first five

years and 1/30 for each of the next five years by which benefit commencement precedes age 65. The same benefits are payable upon retirement, termination, or disability with the adjustments described above for commencement before age 65 but on or after age 55. A 50% survivor annuity is payable to a participant's spouse upon death prior to retirement. All Named Executives have fulfilled the required service period and are either eligible for early retirement benefit payments currently or will become eligible upon attainment of age 55. No payments were made to the Named Executives under the terms of the Retirement Plan during the 2016 fiscal year.

Executive Deferred Compensation Plan

The EDCP provides additional deferred compensation opportunities to certain members of management. In particular, the EDCP allows these members of management to defer the receipt of a percentage of their salary and bonus. The EDCP is not a tax-qualified plan.

The participant's deferrals are credited to a book keeping account established for the participant that is deemed to be credited with interest until paid. Additionally, the company allocates matching contributions pursuant to the plan on behalf of the participant that are also deemed to be credited with interest until paid.

Interest credited on deemed participant deferrals and company contributions to the EDCP are based on the Merrill Lynch U.S. Corp., BBB-rated Fifteen-Year Bond Index plus 150 basis points. Interest is considered above-market if earned at a rate which is 120% or more of the applicable federal long-term rate. Earnings in the EDCP are interest-based credits that exceed this threshold. The company credits interest at above market rates because participants' EDCP accounts are unfunded and unsecured and therefore subject to substantial risk of

loss should events ever befall the company causing it to reorganize or liquidate. Amounts deemed to be credited to the EDCP on behalf of the Named Executives amounted to \$307,174 in fiscal 2016.

Generally, the deemed deferrals and company contributions plus interest are paid to the participant upon termination of employment. Distributions from the EDCP are made from the company's general assets. During 2008, participants were given a one-time, irrevocable opportunity to convert their EDCP deemed cash account for some or all prior years deferrals to an account that tracks the performance of our common stock. Balances as of the end of the fiscal year for

participants making such an election were converted, based on the closing price of our common stock on January 2, 2009. The EDCP tracking account will be distributed in shares of our common stock at the time elected by the participant for the deferral year(s) in question. The EDCP tracking account will be credited with dividends paid on company common stock for the number of shares deemed held in such account, and such dividends will then be deemed to be invested in the cash account and will earn interest as described above.

Change of Control Severance

We maintain change of control severance arrangements with our executives, including the Named Executives, as set forth in the Flowers Foods, Inc. Change of Control Plan (the "Change of Control Plan"). Such arrangements have several business objectives important to the company, including stability of the executive team in the event of a threatened or pending change of control, and post-employment restrictive covenants (non-competition, non-solicitation and trade secret protection, among others). The Change of Control Plan rewards executives for remaining employed with the company on a timetable

convenient to the company rather than to the executive. We choose to make such payments to obtain the business objectives mentioned. The Change of Control Plan provides double-trigger severance at market-level amounts, has no excise tax gross-up provisions and is consistent with current corporate governance norms (see section entitled "Potential Payments upon Termination or Change of Control" in this proxy statement for additional details). In 2015, the compensation committee adopted a policy that, without shareholder approval, future cash severance arrangements may not exceed 2.99 times salary and bonus.

Executive Share Ownership Guidelines

Based on the view of the compensation committee that the ownership of an equity interest in the company by executives, including Named Executives, is a component of good corporate governance and aligns executive and shareholder interests, share ownership guidelines were adopted that require key members of the company's management team to directly own minimum amounts of the company's common stock. All direct holdings of our common stock, certain indirect holdings, and all vested and unvested shares of deferred stock are included for purposes of determining compliance. The guidelines for the Named Executives, which were amended by the board of directors in February 2016, are set forth below:

President and Chief Executive Officer: 6 times base salary

Executive Vice President and Chief Financial Officer: 3 times base salary

Executive Vice President and Chief Operating Officer: 3 times base salary

Executive Vice President, Secretary and General Counsel: 2 times base salary

President, Flowers Bakeries: 2 times base salary

The holdings of each of the Named Executives are currently either at the guideline or on track to meet it, and progress toward the guidelines is reviewed annually by the nominating/corporate governance committee.

Executives subject to the guideline must hold at least 75% of all net shares received through vesting or realized through stock option exercises until the applicable guidelines are achieved.

Tax Deductibility of Executive Compensation

Companies are not allowed a federal income tax deduction for compensation paid to certain executive officers in excess of \$1 million, except to the extent that such compensation constitutes performance-based compensation (as defined in Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code)). The compensation committee retains the ability to consider factors, including tax

deductibility, as it structures coordinated compensation packages of current and long-term compensation, to retain flexibility in rewarding efforts which prove to be of immediate or future benefit to the company and its shareholders. Certain incentive opportunities in 2016 were structured with the intention to qualify as performance-based compensation under Code Section 162(m).

COMPENSATION COMMITTEE REPORT

The compensation committee is responsible for evaluating and approving the company's compensation plans, policies and programs. The compensation committee has reviewed and discussed the Compensation Discussion and Analysis contained in this proxy statement with the company's management and, based on this review and discussion, recommended to the board of directors that the Compensation Discussion and Analysis be included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2016 filed with the SEC and proxy statement for the 2017 annual meeting of shareholders.

EXECUTIVE COMPENSATION

POTENTIAL PAYMENTS UPON TERMINATION OR

CHANGE OF CONTROL

Payments Made Upon Termination Following a

Change of Control

The Change of Control Plan is designed to provide for stability and continuity of management and the company's operations in the event of a change of control. The compensation committee may designate, in its sole discretion, additional executives that are eligible to participate in the Change of Control Plan. If the company experiences a change of control and, during the protection period, (i) an executive's employment is terminated for any reason other than for Cause (as defined in the Change of Control Plan), death or disability, or (ii) the executive terminates his employment for Good Reason (as defined in the Change of Control Plan), the executive is entitled to the following payments:

an amount equal to three times (in the case of Mr. Shiver) and two times (in the case of Messrs. Kinsey, Alexander, Avera and Wheeler) the executive's annual base salary and target bonus award under the Omnibus Plan at the time of termination (subject to adjustment if base salary was reduced in connection with the change of control);

a lump sum amount equal to 18 times the monthly premium amount calculated as if the executive had continued participation in the company's medical plan using the executive's coverage election at the time of termination; and

up to \$25,000 of outplacement services for up to one year following termination.

Pursuant to the terms of the Change of Control Plan, upon the attainment of age 65, the multiples applicable to a Named Executive's annual base salary and target bonus award under the Omnibus Plan are reduced to one times such amounts.

In the event that actual payments to an executive under the Change of Control Plan are determined in certain instances to be subject to excise taxes, the payments to be paid will be set to the best net amount, representing either (i) the largest portion of the payments that would result in no portion being subject to excise taxes, or (ii) the entire payments, whichever amount, after taking into account all applicable taxes, including excise taxes, results in the executive receiving, on an after tax basis, the greater amount of payments notwithstanding that all or a portion of the payments may be subject to excise taxes.

In 2015, the compensation committee adopted a policy that, without shareholder approval, future cash severance arrangements may not exceed 2.99 times salary and bonus.

The following events would constitute a change of control under the Change of Control Plan:

any person becomes the beneficial owner of securities representing 35% or more of the voting power of the company other than as a result of the following: (i) acquisitions from the company with prior approval of the board of directors, (ii) acquisitions by the company, a subsidiary or an employee benefit plan of the company or a subsidiary, (iii) acquisitions as a result of stock dividends, splits or similar transactions, (iv) a reduction in the number of shares outstanding pursuant to a board-approved transaction, or (v) acquisitions where the board of directors determines that beneficial ownership was acquired in good faith and the person promptly divests a number of shares necessary to reduce his beneficial ownership below 35%;

all or substantially all of the company's assets are sold to another entity, or the company is merged or consolidated into or with another entity (other than a subsidiary of the company), with the result that upon the conclusion of the transaction the company's shareholders immediately prior to the transaction will beneficially own less than 60% of the voting power of the surviving entity;

a majority of the board of directors are not directors who were (i) members of the board of directors on the effective date of the Change of Control Plan or (ii) nominated for election or elected to the board of directors by at least 2/3 of the directors who were members of the board of directors on the effective date of the Change of Control Plan plus previously qualified successors serving as directors at the time of such nomination or election; or

approval by the company's shareholders of a complete liquidation or dissolution of the company.

For purposes of the Change of Control Plan, the protection period includes:

the period beginning on the date of the change of control and continuing until the second anniversary thereof; and

the six-month period prior to the date of the change of control if an executive is terminated without Cause or terminates for Good Reason and, in either case, the termination (i) was requested by the third party that effectuates the change of control, or (ii) occurs in connection with the change of control.

The Change of Control Plan includes a one-year covenant not to compete with respect to the trade or business of the successor entity. The Change of Control Plan also includes, for all executives, non-disclosure covenants that do not expire, certain trade secret protections, two year non-solicitation covenants and non-disparagement covenants that do not expire. Payments under the Change of Control Plan are subject to the execution by the executive of a general release of the company. Breach of the release or of any covenant may result in the forfeiture of any payments or benefits that the executive is entitled to under the Change of Control Plan.

Pursuant to the Change of Control Plan, the only event that triggers cash payments and the provision of other benefits is a change of control followed by the termination of an executive's employment, other than for death, disability or for Cause or voluntary resignation other than for Good Reason, within the protection period. For awards prior to 2015, if a change of control occurs, regardless of whether the executive's employment is terminated, all unvested performance-contingent restricted stock (at the target level) and all unvested stock options held by the executive immediately vest, except that as to any TSR-Based Awards, if 12 months of the Performance Period have been completed, vesting will be determined based on total shareholder return as of the date of the change of control without application of four-quarter averaging (see Executive Compensation Compensation Discussion and Analysis Long-Term Incentive Compensation Equity and Performance Compensation Awards Vesting Upon Death, Disability, Retirement or Change of Control). In addition, any undistributed amounts under the company's deferred

compensation plan will be distributed upon a change of control.

Table of Contents**EXECUTIVE COMPENSATION****Payments Made Upon Death or Disability, Retirement or Change of Control**

If a Named Executive dies, becomes permanently disabled or retires (at age 65 or after) he is generally entitled to the following items:

immediate vesting in all unvested stock options, of which currently there are none;

in the cases of death or disability, immediate vesting in the 2015 and 2016 performance-contingent restricted stock awards at target amount;

in the case of retirement, for the 2015 and 2016 award of performance-contingent restricted stock, at the normal vesting date a prorated award based upon the retirement date and actual performance (for purposes of the calculations that follow, if actual results are unknown, target values are used); and

in the event of a change of control, for equity awards granted prior to 2015 that are reflected in the table below, awards immediately vest at the target level (whether or not the Named Executive is terminated), provided that as to TSR-Based Awards, if 12 months of the Performance Period have been completed, vesting is determined based on the total shareholder return as of the date of the change of control without application of the fourth quarter averaging.

Beginning in 2015, all equity awards granted under the Omnibus Plan include a double-trigger vesting mechanism upon a change of control.

Amounts shown in the table below represent estimated amounts payable (or realizable) by the company to each Named Executive upon death, disability, or retirement, a change of control without termination or termination in connection with a change of control. Amounts shown in the tables below are the estimated payment amounts assuming that the triggering event occurred on December 31, 2016, the last business day of fiscal 2016. Values in the tables for equity-based awards are calculated using the closing market price of \$19.97 of the company's common stock on December 31, 2016.

2016 Audited Financial Statements

The audit committee has reviewed and discussed the company's audited consolidated financial statements for the year ended December 31, 2016 with the company's management and PricewaterhouseCoopers LLP, the company's independent registered public accounting firm for the year ended December 31, 2016. Management represented to the audit committee that the company's audited consolidated financial statements were prepared in accordance with GAAP. The audit committee has reviewed with the internal auditors and PricewaterhouseCoopers LLP the results of their examinations and their assessment of the company's internal controls and discussed with senior officers of the company the processes undertaken to evaluate the accuracy and fair presentation of the company's financial statements and the effectiveness of the company's system of disclosure controls and procedures. The audit committee has also discussed with PricewaterhouseCoopers LLP the matters required to be discussed by the Auditing Standard No. 1301, *Communication with Audit Committees*, issued by the Public Company Accounting Oversight Board (PCAOB), as amended from time to time, including the auditors' judgment about the quality of the company's accounting principles as applied in its financial reporting.

In addition, the audit committee has received the written disclosures and the letter from PricewaterhouseCoopers LLP required by PCAOB Ethics and Independence Rule 3526, *Communications with Audit Committees Concerning Independence*, and has discussed with PricewaterhouseCoopers LLP their independence from the company and its management.

Based on the reviews and discussions outlined above, the audit committee recommended to the board of directors that the company's audited consolidated financial statements be included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2016, which was filed with the SEC on February 23, 2017.

OVERVIEW OF PROPOSALS

This proxy statement contains five proposals requiring shareholder action. Proposal I proposes the election of twelve director-nominees to the board of directors. Proposal II requests an advisory vote on the compensation of the Named Executives. Proposal III requests an advisory vote on the frequency of future advisory votes on the compensation on the Named Executives. Proposal IV requests the

ratification of the appointment of PricewaterhouseCoopers LLP as the company's independent registered public accounting firm for fiscal 2017. Proposal V concerns a shareholder proposal whether the chairman of the board of directors should be independent, if properly presented at the annual meeting. Each of the proposals is discussed in more detail below.

PROPOSAL I

ELECTION OF DIRECTORS

Formerly, our board of directors was divided into three classes with the directors in each class serving for a term of three years. At the 2015 annual meeting, shareholders approved a proposal to declassify the company's board of directors and provide for the annual election of directors. Beginning with the 2015 annual shareholder meeting and continuing with the 2016 annual shareholders meeting, directors will now be elected for one-year terms. The remaining directors who were elected in 2014 (formerly Class I directors whose terms expire in 2017) will also be nominated for election to a one-year term at the 2017 annual shareholders meeting, resulting in the entire board of directors being elected annually beginning with this 2017 annual shareholders meeting.

Background information concerning each of our director-nominees is provided above under Directors and Corporate Governance.

The following nominees are proposed for election as directors to serve until the 2018 annual shareholder meeting:

George E. Deese

Rhonda Gass

Benjamin H. Griswold, IV

Richard Lan

Margaret G. Lewis

Amos R. McMullian

J. V. Shields, Jr.

Allen L. Shiver
David V. Singer

James T. Spear

Melvin T. Stith

C. Martin Wood III

As described in the Corporate Governance section of this proxy statement, on February 17, 2017, the board of directors voted to approve an amendment to the corporate governance guidelines eliminating the mandatory retirement age for directors. The elimination of the retirement age of 75 resulted in the following directors retaining eligibility for reelection in 2017: Benjamin H. Griswold, IV, age 76, who has been a director of the company since 2005; Amos R. McMullian, age 79, who is chairman emeritus of the company and served as chairman of the board of directors from 2000 to 2006 and chief executive officer of the company from 2000 to 2004; and J.V. Shields, Jr., age 79, who has been a director of the company since 2001. Messrs. Griswold, McMullian and Shields abstained from the vote of directors approving the amendment to the corporate governance guidelines.

Unless instructed otherwise, the proxies will be voted for the election of the director-nominees named above to serve for the terms indicated or until their successors are elected and have been duly qualified. If any nominee is unable to serve, proxies may be voted for a substitute nominee selected by the board of directors. However, the board of directors has no reason to believe that any nominee will not be able to serve if elected.

Vote Required

Each of the twelve nominees for director who receive a majority of the votes cast at the meeting in person or by proxy will be elected (meaning the number of shares voted for a director-nominee must exceed the number of votes cast against that director-nominee), subject to the board of directors' existing policy regarding resignations by directors who do not receive a majority of for votes, which is described in our corporate governance guidelines.

Recommendation of the Board

Your board of directors unanimously recommends that you vote FOR each of the above-named director-nominees.

PROPOSAL II

ADVISORY VOTE ON EXECUTIVE COMPENSATION

The Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the Dodd-Frank Act) and Section 14A of the Exchange Act provide shareholders with the right to cast an advisory (non-binding) vote to approve the compensation of the Named Executives as disclosed pursuant to the compensation disclosure rules of the SEC. This proposal is commonly known as the say-on-pay vote.

At our 2016 annual meeting of shareholders, more than 98% of the shares voted were cast in support of the company's executive compensation program.

As described in the Compensation Discussion and Analysis section of this proxy statement, the compensation committee evaluates both performance and compensation to ensure that the company maintains its ability to attract and retain the most qualified executives while motivating high company performance. Highlights of our executive compensation program, as described in the Compensation Discussion and Analysis section of this proxy statement, include:

pay opportunities that are:

appropriate to the size of the company when compared to peer companies; and

heavily performance-based using multiple internal and stock-based performance measures;

disclosure of the financial performance drivers used in our incentives, in numeric terms;

a long-term incentives program:

that is entirely performance-based and aligned with shareholder interests through links to stock performance and measurement of our return on invested capital performance versus our cost of capital; and whose payout potentials are capped at conservative levels;

a clawback provision that allows for recoupment of incentives in certain situations;

beginning with 2015 grants, double-trigger equity vesting upon a change of control;

no backdating or repricing of stock options;

stock ownership guidelines for executives and directors;

no perquisites; and

no employment contracts.

The say-on-pay vote gives our shareholders the opportunity to express their views on the compensation of our Named Executives. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our Named Executives and the compensation philosophy, policies and practices described in this proxy statement. Accordingly, we are asking shareholders to approve the following resolution:

RESOLVED, that the shareholders approve the compensation of the company's Named Executives, as disclosed pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the compensation discussion and analysis, compensation tables and any related material disclosed in this proxy statement.

Because this vote is advisory, it will not be binding on the compensation committee, the board of directors or the company. However, the compensation committee and the board of directors value the opinions of the company's shareholders and will take into account the outcome of the vote when considering future compensation arrangements for the Named Executives.

Vote Required

Proposal II requires the affirmative vote of the holders of a majority of the shares of our common stock present at the annual meeting in person or by proxy.

Recommendation of the Board

Your board of directors unanimously recommends that you vote FOR Proposal II.

PROPOSAL III

**ADVISORY VOTE ON FREQUENCY OF FUTURE ADVISORY VOTES
ON EXECUTIVE COMPENSATION**

The Dodd-Frank Act and Section 14A of the Exchange Act also require us to provide shareholders the right to cast an advisory (non-binding) vote regarding how frequently the company should include in its proxy materials a proposal similar to Proposal III regarding the approval of the compensation awarded to our executives. Shareholders may vote for the proposal to be included in our proxy statement every one, two or three years.

The board of directors recommends that a say-on-pay shareholder advisory vote, similar to Proposal II be included in the company's proxy statement every year. The board of directors believes that a say-on-pay vote every year by shareholders provides the highest level of accountability and direct communication by enabling the say-on-pay vote to correspond to the majority of the information presented in the accompanying proxy statement for the applicable meeting of shareholders.

You may cast your vote on your preferred voting frequency by choosing the option of 1 year, 2 years, or 3 years, or abstaining from voting, when you vote in response to the resolution set forth below.

RESOLVED, that the option of once every year, two years or three years that receives the highest number of votes cast for this resolution will be determined to be the preferred frequency with which the company is to hold a shareholder vote to approve the compensation of the company's Named Executives, as disclosed pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the compensation discussion and analysis, compensation tables and any related material disclosed in this proxy statement.

Because this vote is advisory, it will not be binding on the company or the board of directors and, notwithstanding the results of such vote, the board of directors may decide that it is in the best interests of shareholders and the company to hold an advisory vote on executive compensation more or less frequently than the option approved by shareholders. If none of the options achieves the required vote, the board of directors intends to use its discretion to conduct future advisory votes on executive compensation each year.

Vote Required

Proposal III requires the affirmative vote of the holders of a majority of the shares of our common stock present at the meeting in person or by proxy.

Recommendation of the Board

Your board of directors unanimously recommends that you vote 1 YEAR for Proposal III.

PROPOSAL IV

**RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED
PUBLIC ACCOUNTING FIRM**

Our audit committee and board of directors have appointed PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ending December 30, 2017. The board of directors recommends that this appointment be ratified.

Representatives of PricewaterhouseCoopers LLP will be present at the 2017 annual meeting and will have the opportunity to make a statement, if they desire to do so, and to respond to appropriate questions.

We have been advised by PricewaterhouseCoopers LLP that neither the firm, nor any member of the firm, has any financial interest, direct or indirect, in any capacity in the company or its subsidiaries.

If the shareholders of the company do not ratify the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for fiscal 2017, the audit committee will reconsider the appointment.

Fiscal 2016 and Fiscal 2015 Audit Firm Fee Summary

During fiscal 2016 and fiscal 2015, we retained our principal accountant, PricewaterhouseCoopers LLP, to provide services in the following categories and amounts:

Audit Fees. Fees for audit services totaled approximately \$3,338,000 in 2016 and \$3,322,000 in 2015, including fees associated with annual audits, the reviews of our Quarterly Reports on Form 10-Q and Annual Reports on Form 10-K in both 2016 and 2015, and in 2016, comfort letter procedures related to a public debt offering.

Audit Related Fees. Fees for audit related services totaled approximately \$140,000 in 2016 and \$191,000 in 2015. Audit related services principally include services related to audits of certain employee benefit plans and accounting consultations in both 2016 and 2015 and acquisition due diligence in 2015.

Tax Fees. Fees for tax services, including tax compliance, tax advice and tax planning, totaled approximately \$500,000 in 2016 and \$347,000 in 2015.

All Other Fees. Fees for all other services not described above totaled approximately \$1,052,000 in 2016 and \$802,000 in 2015 related to consulting fees for a pricing and trade capabilities assessment in both 2016 and 2015 and a cybersecurity project in 2015.

All non-audit services were reviewed by the audit committee, which concluded that the provision of such services by PricewaterhouseCoopers LLP was compatible with the maintenance of that firm's independence in the conduct of its auditing function. On an ongoing basis all audit and permissible non-audit services provided by PricewaterhouseCoopers LLP are pre-approved by the audit committee on a case-by-case basis.

Vote Required

Proposal IV requires the affirmative vote of the holders of a majority of the shares of our common stock present at the annual meeting in person or by proxy.

Recommendation of the Board

Your board of directors unanimously recommends that you vote FOR Proposal IV.

SHAREHOLDER PROPOSAL

We periodically receive suggestions from our shareholders, some as formal shareholder proposals. We give careful consideration to all suggestions, and assess whether they promote the best long-term interests of the company and its shareholders.

We expect Proposal V to be presented by a shareholder at the annual meeting. Following SEC rules and regulations, we are reprinting the proposals and supporting statements as they were submitted to us, other than minor formatting changes. We take no responsibility for them. On request to the Secretary at the address listed under Questions and Answers about the Annual Meeting and Voting How

can I obtain an Annual Report on Form 10-K, we will provide information about the sponsors' shareholdings, as well as the names, addresses and shareholdings of any co-sponsors. Approval of this proposal requires the affirmative vote of the holders of a majority of the shares of our common stock present at the meeting in person or by proxy.

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE AGAINST PROPOSAL V FOR THE REASONS WE GIVE AFTER THE PROPOSAL.

PROPOSAL V

INDEPENDENT BOARD CHAIRMAN

RESOLVED: Shareholders of Flowers Foods, Inc. (the Company), urge the Board of Directors (the Board) to take the steps necessary to adopt a policy to require that, to the extent feasible, the Chairman of the Board shall be an independent director who has not previously served as an executive officer of the Company. The policy should be

implemented so as not to violate any contractual obligations. The policy should also specify the process for selecting a new independent Chairman if the current Chairman ceases to be independent between annual meetings of shareholders; or if no independent director is available and willing to serve as Chairman.

Supporting Statement

A former CEO of the Company currently serves as the non-independent chairman of the Board. In our view, the chairman should be an independent director, who has not previously served as an executive, in order to promote the robust oversight and accountability of management, and to provide effective deliberation of corporate strategy, something we believe is difficult to accomplish when a former executive serves as the board's leader. Even with robust responsibilities, we believe the position of a lead independent or presiding director is inadequate to this task because competing responsibilities for board leadership remain with the non-independent chair.

In the case of the Company, this concern is compounded by the fact that, as of last year's proxy statement, three former executives of the Company or its predecessor, Flowers Industries Inc., as well as a former executive of a majority-owned subsidiary of Flowers Industries, sit on the board; two of those directors serving on the Audit Committee. We also note that three directors have over a quarter of a century of board service at the company and its predecessor, Flowers Industries, and that two of those directors exceed the Board's mandatory retirement age of 75 years.

In our opinion, these considerations are especially important as the company faces legal and regulatory challenges to its business model. The company's independent contractor model is the subject of nearly two dozen lawsuits from drivers claiming they were incorrectly classified as independent contractors; and on August 10, 2016, it was announced that the U.S. Department of Labor was reviewing the Company's compliance with the Fair Labor Standards Act following which, shares closed down 9%. The Wall Street Journal reports that according to the Pivotal Research Group, if found in violation of these requirements, the Company's potential liability could top \$1 billion and sooner or later . . . lead to a complete recasting of [the Company's] business model. (See <http://www.wsj.com/articles/labor-department-taps-flowers-foods-for-fair-labor-compliance-review-1470834757>).

In the midst of such scrutiny, we believe an independent chairman can be invaluable in ensuring that the board is appropriately reviewing and questioning the risks and opportunities of the Company's business strategy, and maintaining good communications and credibility with key stakeholders.

Board of Directors Statement in Opposition of Proposal V

The board of directors unanimously recommends that you vote **AGAINST** Proposal V because it believes its adoption is not in the best interests of the company and its shareholders for the reasons discussed below.

Proposal V includes Meritless Claims about the Company. The supporting statement to Proposal V contains statements that are irrelevant to the proposal's subject matter, as well as a number of misleading statements. In particular, the proponent references an outdated August 10, 2016 article from The Wall Street Journal citing potential liability up to \$1 billion related to our outstanding distributor litigation. As we have previously publicly disclosed, in December 2016, the company reached an agreement to settle its first such class action lawsuit for \$9.0 million, including \$3.8 million in attorneys' fees. The settlement, which remains subject to court approval, covers approximately 270 distributor territories and contains certain terms that are intended to strengthen and enhance our independent contractor model, which remains in place. We are pleased by this result and intend to continue to vigorously defend claims against our business model. In addition, the proponent states that our current chairman is not independent. While Mr. Deese did serve previously as our chief executive officer, which is executive and operational experience that we consider highly valuable to board leadership, he will become an independent director under NYSE Rules at the end of 2017.

Flexibility in Board Leadership is More Suitable for the Company than a Rigid and Prescriptive Approach.

Our board of directors must take great care to select the right leadership structure for our company. We take this responsibility very seriously, and believe that the board of directors should be able to consider, on a case-by-case basis, the style of leadership best suited to meet the needs of the company and its shareholders based on the individuals available and the circumstances

as they exist at the time. The adoption of a mandate that the chairman of the board be an independent director would impose an unnecessary restriction on the board of directors and would limit its ability to select the director best suited to serve as chairman based on the relevant facts, circumstances, and criteria as they exist at the time. In addition, in reviewing this proposal, the board of directors took into consideration relevant benchmarking data and concluded that the proposal's rigid approach is not common practice. According to the 2016 Spencer Stuart U.S. Board Index, only 27% of S&P 500 companies reported having an independent chair.

Our Current Board Leadership Structure Best Serves the Company and its Shareholders. Our board of directors routinely evaluates the company's leadership structure to ensure that there is strong, independent board leadership in place to provide effective oversight to management. As discussed in greater detail under **Directors and Corporate Governance** **Corporate Governance** **Board Leadership Structure**, the board of directors believes that at the present time, the company and its shareholders are best served by a leadership structure in which our non-executive chairman is able to maintain a close working relationship with our chief executive officer, as the company transitions through its established succession plans, counterbalanced by an engaged independent board and presiding director. Indeed, as discussed above, Mr. Deese, our non-executive chairman, will become independent under the NYSE Rules at the end of 2017. In addition, we have a strong presiding director that is appointed annually by our independent directors and has specified responsibilities that provide the same leadership, oversight and benefits to the company and the board of directors that would be provided by an independent chairman that did not previously serve as our chief executive officer. These responsibilities include:

Table of Contents

PROPOSAL V

Presiding at all executive sessions of the board of directors in which management directors and other members of management do not participate;

Serving as a liaison between the chairman of the board of directors and the independent directors;

Overseeing information sent by the company to the members of the board of directors;

Reviewing meeting agendas and schedules of meetings for the board of directors;

Calling meetings of the independent directors; and

Making himself available for consultation and communication with shareholders.

The Company's Good Corporate Governance Practices Currently Provide Effective, Independent Board Oversight. We believe that good corporate governance is essential to ensure that the company is effectively managed for the long-term benefit of our shareholders. We have thoroughly reviewed our corporate governance policies and practices and compared them with those recommended by corporate

governance advisors and the practices of other publicly-held

companies. We believe our policies and practices promote board independence and effective oversight of management, and provide shareholders with meaningful rights, including:

Annual board elections with majority voting standard;

Shareholder right to call special meetings;

Supermajority board independence;

100% board independence on committees, which entrusts to the independent directors oversight of critical matters, such as the integrity of the company's financial statements, the evaluation of the board and its committees, and the compensation of the company's executive officers;

A highly-qualified and engaged board of directors, as described in their biographies, that possess the relevant business experience and skills to oversee management;

Regular executive sessions of independent directors;

Robust board, committee and director evaluation process; and

Ongoing board review of corporate governance policies and practices.

Recommendation of the Board

Your board of directors unanimously recommends that you vote AGAINST Proposal V.

Table of Contents**ANNEX A (NON-GAAP FINANCIAL MEASURES)****Information Regarding Non-GAAP Financial Measures**

The company prepares its consolidated financial statements in accordance with U.S. generally accepted accounting principles (GAAP). However, from time to time, the company may present in its public statements, press releases and filings with the Securities and Exchange Commission, non-GAAP financial measures such as EBITDA, adjusted EBITDA, adjusted EBITDA margin and adjusted net income per diluted common share to measure the performance of the company and its operating divisions (collectively, the Non-GAAP Measures). EBITDA is used as the primary performance measure in the company s annual executive bonus plan. The company defines EBITDA as earnings from continuing operations before interest, income taxes, depreciation, amortization and income attributable to non-controlling interest. The company believes that EBITDA is a useful tool for managing the operations of its business and is an indicator of the company s ability to incur and service indebtedness and generate free cash flow. Furthermore, pursuant to the terms of our credit facility, EBITDA is used to determine the company s compliance with certain financial covenants. The company also believes that EBITDA measures are commonly reported and widely used by investors and other interested parties as measures of a company s operating performance and debt servicing ability because EBITDA measures assist in comparing performance on a consistent basis without regard to depreciation or amortization, which can vary significantly depending upon accounting methods and non-operating factors (such as historical cost). EBITDA is also a widely-accepted financial indicator of a company s ability to incur and service indebtedness

The company defines adjusted EBITDA, adjusted EBITDA margin and adjusted net income per diluted share, respectively, to exclude additional costs that we consider important to present to investors. These costs include, but are not limited to, the costs of closing a plant or costs associated with acquisition-related activities, certain impairment charges, legal settlements and other non-recurring expenses. We believe that financial information excluding certain transactions not considered to be part of the ongoing business improves the comparability of earnings results. We believe investors will be able to better understand our earnings results if these transactions are excluded from the results.

These Non-GAAP Measures are measures of performance not defined by GAAP and should be considered in addition to, not in lieu of, GAAP reported measures. These Non-GAAP Measures should not be considered an alternative to (a) income from operations or net income (loss) as a measure of operating performance; (b) cash flows provided by operating, investing and financing activities (as determined in accordance with GAAP) as a measure of the company s ability to meet its cash needs; or (c) any other indicator of performance or liquidity that has been determined in accordance with GAAP. Our method of calculating these Non-GAAP Measures may differ from the methods used by other companies, and, accordingly, may not be comparable to similarly titled measures used by other companies. The reconciliations below provide a reconciliation of the Non-GAAP Measures used in this proxy statement to the most comparable GAAP financial measure.
