Forward-looking statements relate to expectations or forecasts of future events. They use words such as anticipate, believe, estimate, expect, forecast, project, intend, plan, probably, potential, and other similar terms, and future or conditional tense verbs like could, may, might, should, will and would. You identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. For example, we may use forward-looking statements when addressing topics such as: market and industry conditions, including competitive and pricing trends; changes in our business strategies and methods of generating revenue; the development and performance of our services and products; changes in the composition or level of our revenues; our cost structure and the outcome of cost-saving or restructuring initiatives; the outcome of contingencies; dividend policy; the expected impact of acquisitions and dispositions; pension obligations; cash flow and liquidity; expected effective tax rate; future actions by regulators; and the impact of changes in accounting rules. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from either historical or anticipated results depending on a variety of factors. Potential factors that could impact results include:

general economic and political conditions in the countries in which we do business around the world;

the level of our debt limiting financial flexibility or increasing borrowing costs;

rating agency actions that could affect our ability to borrow funds;

the effect of the change in global headquarters and jurisdiction of incorporation, including differences in the anticipated benefits;

changes in estimates or assumptions on our financial statements;

the impact of any investigations brought by regulatory authorities in the United States (the U.S.), the United Kingdom (the U.K.) and other countries;

the impact of any inquiries relating to compliance with the U.S. Foreign Corrupt Practices Act and non-U.S. anti-corruption laws and with U.S. and non-U.S. trade sanctions regimes;

failure to protect intellectual property rights or allegations that we infringe on the intellectual property rights of others;

the effects of English law on our operating flexibility and the enforcement of judgments against us;

the failure to retain and attract qualified personnel;

international risks associated with our global operations;

the effect of natural or man-made disasters;

our ability to develop and implement new technology;

the damage to our reputation among clients, markets or third parties;

the actions taken by third parties that perform aspects of our business operations and client services;

the extent to which we manage certain risks created in connection with the various services, including fiduciary and investment consulting and other advisory services, among others, that we currently provide, or will provide in the future, to clients;

our ability to grow, continue, and the costs and risks associated with, growing, developing and integrating companies that we acquire or new lines of business;

changes in commercial property and casualty markets, commercial premium rates or methods of compensation;

changes in the health care system or our relationships with insurance carriers;

our risks and uncertainties in connection with the sale of the Divested Business, including arrangements under the transition service agreement and legacy IT systems associated therewith (as defined below); and

our ability to realize the expected benefits from our restructuring plan.

Any or all of these forward-looking statements may turn out to be inaccurate, and there are no guarantees about our performance. The factors identified above are not exhaustive. We and our subsidiaries operate in a dynamic business environment in which new risks may emerge frequently. Accordingly, you should not place undue reliance on forward-looking statements, which speak only as of the dates on which they are made. We are under no obligation (and expressly disclaim any obligation) to update or alter any forward-looking statement that we may make from time to time, whether as a result of new information, future events or otherwise. Further information about factors that could materially affect us, including our results of operations and financial condition, is contained in the Risk Factors and Management's Discussion and Analysis of Financial Condition and Results of Operations sections in Part I, Item 1A and in Part II, Item 7, respectively, of our Annual Report on Form 10-K for the year ended December 31, 2017, as filed with the SEC, as such factors may be updated in our periodic filings with the SEC.

Aon plc

Aon plc is a leading global professional services firm that provides advice and solutions to clients focused on risk, retirement, and health, delivering distinctive client value via innovative and effective risk management and workforce productivity solutions that are under-pinned by industry-leading data and analytics. Our strategy is to be the preeminent professional services firm in the world, focused on risk and people. Our clients are globally diversified and include all market segments (individuals through personal lines, mid-market companies, and large global companies) and almost every industry in the economy in over 120 countries and sovereignties. This diversification of our customer base helps provide us stability in different economic scenarios that could affect specific industries, customer segments, or geographies. We have continued to focus our portfolio on higher margin, capital-light professional services businesses that have high recurring revenue streams and strong cash flow generation. Aon endeavours to make capital allocation decisions based upon return on invested capital (ROIC).

On February 9, 2017, the Company entered into a Purchase Agreement with Tempo Acquisition, LLC (the Purchase Agreement) to sell its benefits administration and business process outsourcing business (the Divested Business) to an entity formed and controlled by affiliates of The Blackstone Group L.P. (the Buyer) and certain designated purchasers that are direct or indirect subsidiaries of the Buyer. On May 1, 2017, the Buyer purchased all of the outstanding equity interests of the Divested Business, plus certain related assets and liabilities, for a purchase price of \$4.3 billion in cash paid at closing, subject to customary adjustments set forth in the Purchase Agreement, and deferred consideration of up to \$500 million. Beginning in the first quarter of 2017 and following the sale of our Divested Business, the Company led a set of initiatives designed to strengthen Aon and unite the firm with one portfolio of capability enabled by proprietary data and analytics and one operating model to deliver additional insight, connectivity, and efficiency. These initiatives reinforce Aon's ROIC decision-making process and emphasis on free cash flow. The Company is now operating as one segment that includes all of Aon's continuing operations, which, as a global professional services firm, provides advice and solutions to clients focused on risk, retirement, and health through five principal products and service revenue lines: Commercial Risk Solutions, Reinsurance Solutions, Retirement Solutions, Health Solutions, and Data & Analytic Services. Collectively, these products and service revenue lines make up our one segment: Aon United.

As of December 31, 2017, we had approximately 50,000 employees and conducted our operations through various subsidiaries in more than 120 countries and sovereignties.
