Edgar Filing: Stem Cell Therapy International, Inc. - Form 8-K

On February 27, 2008, Stem Cell Therapy International, Inc., a Nevada corporation ("SCII"), entered into a Memorandum of Understanding (MOU) with Histostem, Co., Ltd., a Korean company ("Histostem") to acquire one hundred percent of the issued and outstanding stock of Histostem from Histostem's shareholders, in exchange for stock in SCII. The agreement is subject to further discussions with respect to operational details and the signing of the definitive agreement.

Histostem, Co., Ltd. started in Seoul, Korea in 2000. To date it has treated more than 500 patients with stem cells and currently has 56 full time employees and 28 part-time employees. Histostem's intellectual property portfolio consists of five patents that have been granted and 6 patents pending. To management's knowledge, Histostem is one of the very few stem cell companies in the world currently earning several million dollars in income from its products and technology. Histostem maintains a website at http://www.histostem.cokr/english/english_1.htm.

Upon completion of the definitive agreement, management intends to take the research data that the Korean FDA already approved and submit it to the U.S. FDA, with the objective of getting the U.S. FDA approval in advance of other companies now researching umbilical stem cell treatments for a variety of different diseases.

ITEM 9.01 FINANCIAL STATEMENTS AND EXHIBITS

(c) Exhibits.

10.35 Memorandum of Understanding between Stem Cell Therapy International, Inc. and Histostem Co., Ltd.
