Annual Report

This report provides management's discussion of fund performance for AllianceBernstein Global High Income Fund (the "Fund") for the annual reporting period ended March 31, 2007. The Fund is a closed-end fund that trades under the New York Stock Exchange symbol "AWF." Effective January 26, 2007, the Fund changed its name from Alliance World Dollar Government Fund II, Inc. to AllianceBernstein Global High Income Fund, Inc. to reflect the new investment policies and guidelines, which are discussed below, and to brand the Fund with the same AllianceBernstein name used for most other funds in the AllianceBernstein family of funds. On April 13, 2007, the Fund acquired all of the assets and assumed the liabilities of Alliance World Dollar Government Fund, Inc. in exchange for shares of the Fund.

Investment Objective and Policies

This closed-end fund seeks high current income and secondarily, capital appreciation. At a Special Meeting of the Fund's stockholders held on December 12, 2006, stockholders approved a proposal to eliminate the fundamental investment restriction requiring that the Fund invest at least 65% of its total assets in sovereign debt obligations issued or guaranteed by foreign governments. The Fund is now permitted to invest, without limit, in securities denominated in non-U.S. currencies as well as those denominated in the U.S. dollar. The Fund may also invest, without limit, in sovereign debt securities issued by emerging and developed nations and in debt securities of U.S. and non-U.S. corporate issuers. For more information regarding the Fund's risks, please see "A Word About Risk" on page 4 and "Note E--Risks Involved in Investing in the Fund" of the Notes to Financial Statements on page 33.

Investment Results

The table on page 5 shows the Fund's performance compared to its new benchmark, the J.P. Morgan Emerging Markets Bond Index Global (JPM EMBI Global) and its old benchmark, the J.P. Morgan Emerging Markets Bond Index Plus (JPM EMBI+). The JPM EMBI Global tracks total returns for U.S. dollar-denominated debt instruments issued by emerging market sovereign and quasi-sovereign entities, Brady bonds, loans and eurobonds. The JPM EMBI Global is a more appropriate index for the Fund because it contains a broader representation of the emerging market debt universe than the JPM EMBI+.

Edgar Filing: ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND INC - Form N-CSR

The Fund outperformed both the old and new benchmarks for both the six- and 12-month periods ended March 31, 2007. Contributing positively to performance for both periods was the Fund's exposure to unhedged local currency emerging market debt, which outperformed the benchmark.

Significantly adding to the Fund's return was the Fund's exposure to local debt in Brazil, and to a lesser extent Mexico. The Fund's U.S. dollar debt in Peru, Panama and Indonesia also contributed positively to performance. The Fund's leveraged position, at a time when emerging market debt countries posted solid returns, continued to add to relative performance. Both the old and new benchmarks are unleveraged.

ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND o 1

Detracting from Fund performance for both the six- and 12-month periods was security selection in Argentina. Although the Fund's country selection of Argentina contributed positively to performance, shorter maturity bond selection in the country detracted from performance as Argentina's longer-duration bonds outperformed.

Market Review and Investment Strategy

The emerging market debt class, as represented by the JPM EMBI Global, posted a strong return of 10.86% for the annual period ended March 31, 2007, outperforming most fixed-income sectors. Emerging market debt began the period in negative territory, dragged down by rising global interest rates as well as successive interest-rate hikes by the U.S. Federal Reserve (the "Fed"). Emerging market debt bounced back strongly in the second half of 2006, sparked by the first U.S. monetary-policy shift in more than two years. The Fed left the Fed funds rate unchanged at 5.25% in August 2006, and ended their tightening policy following 425 basis points of consecutive rate hikes. Additionally, solid global growth, strong investor demand and ample financial-market liquidity all led to a favorable environment for emerging market debt.

A temporary spike in volatility, however, returned to the bond market at the end of February 2007, as global equity markets sold off sharply, led by declines in China, then Europe and the U.S. China's sell-off was prompted by its government's proposals to control the market, curbing speculative activity. Emerging market debt impressed with a quicker recovery than most fixed-income sectors and ended the period with the yield spread returning to near-record low levels of 170 basis points over comparable Treasuries.

For the 12-month period ended March 31, 2007, all countries within the Fund's benchmark posted positive returns, with the exception of Ecuador. Latin countries at 12.37% outpaced non-Latin regions at 9.02%. Outperforming countries for the annual period included Argentina at 33.08%, Peru at 16.08% and Brazil at 15.50%. Underperforming countries for the year included Ecuador at -0.86% and Lebanon at 3.73%, both of which suffered from political events.

Emerging market debt in local currency terms (unhedged in U.S. dollars) posted even stronger returns for the period at 12.45%, due to strong local currencies and falling interest rates. Brazil, the Fund's largest local currency holding, significantly outperformed, posting a strong return of 26.43%.

Emerging market debt countries favored during the period included Brazil, Argentina, Peru and Panama, as well as corporate debt in Russia. Like most Latin American countries, Brazil benefited from a cycle of robust net exports, capital inflows and prudent fiscal and monetary policy. Brazil has shown impressive progress in building dollar reserves and has made great strides in

Edgar Filing: ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND INC - Form N-CSR

decreasing its external and sovereign debt ratios (the country's outstanding sovereign debt versus its gross domestic product or GDP), two of the most critical factors for advancing to investment grade.

2 o ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND

Peru has benefited from strong economic growth, fiscal and current account surpluses and modest inflation. Peru has also impressed with progress in building dollar reserves and decreasing its external and sovereign debt ratios (the country's outstanding sovereign debt versus its GDP). Standard & Poor's and Fitch Ratings Inc. recently upgraded the country to BB+, one notch below investment grade, and Moody's Investors Service has placed it on positive outlook.

Panama benefited from a strengthening economy and canal-related fees, services and expansion. Panama also continued to be strongly levered to regional and global growth. During much of the annual period, Russia was favored as it continued to increase its already high level of U.S. dollar reserves while paying back debt; it is also likely to join the World Trade Organization by mid-2007. Also, the Fund's holdings in Ecuador were eliminated due to political risk.

HISTORICAL PERFORMANCE

An Important Note About the Value of Historical Performance

The performance shown on the following page represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance information shown. All fees and expenses related to the operation of the Fund have been deducted. Performance assumes reinvestment of distributions and does not account for taxes.

AllianceBernstein Global High Income Fund Shareholder Information

The Fund's NYSE trading symbol is "AWF." Weekly comparative and market price information about the Fund is published each Monday in The Wall Street Journal, each Sunday in The New York Times, each Saturday in Barron's and other newspapers in a table called "Closed-End Funds." For additional shareholder information regarding this Fund, please see page 52.

Benchmark Disclosure

Neither the unmanaged J.P. Morgan Emerging Markets Bond Index Global (JPM EMBI Global) nor the J.P. Morgan Emerging Markets Bond Index Plus (JPM EMBI+) reflects fees and expenses associated with the active management of a mutual fund portfolio. The JPM EMBI Global tracks total returns for U.S. dollar-denominated debt instruments issued by emerging market sovereign and quasi-sovereign entities, Brady bonds, loans and eurobonds. The JPM EMBI+ is a standard measure of the performance of a basket of unmanaged emerging market debt securities. An investor cannot invest directly in an index, and its results are not indicative of the performance of any specific investment, including the Fund.

Edgar Filing: ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND INC - Form N-CSR

A Word About Risk

The Fund invests primarily in foreign securities which may result in significant fluctuations due to changes in foreign exchange rates and the possibility of substantial volatility due to political and economic uncertainty in foreign countries. The Fund may invest in securities of emerging market nations, which may present market, credit, currency, liquidity, legal, political and other risks different from, or greater than, the risks of investing in developed foreign countries. Fluctuations in the exchange rates between the U.S. dollar and foreign currencies may negatively affect the value of the Fund's investments or reduce the returns of the Fund. Price fluctuation in the Fund's portfolio securities may be caused by changes in the general level of interest rates or changes in bond credit quality ratings. Please note, as interest rates rise, existing bond prices fall and can cause the value of an investment in the Fund to decline. Changes in interest rates have a greater effect on bonds with longer maturities than on those with shorter maturities. At the discretion of the Fund's Adviser, the Fund may invest substantially all of its net assets in bonds that are rated below investment grade (i.e., "junk bonds") and up to 50% in securities that are not readily marketable. These high-yield bonds involve a greater risk of default and price volatility than other bonds. Investing in non-investment grade securities presents special risks, including credit risk. Investments in the Fund are not guaranteed because of fluctuation in the net asset value of the underlying fixed-income related investments. Similar to direct bond ownership, bond funds have the same interest rate, inflation and credit risks that are associated with the underlying bonds owned by the Fund. The Fund utilizes leverage, which increases volatility since leverage magnifies both positive and negative performance. The Fund maintains asset coverage of at least 300%. While the Fund invests principally in bonds and other fixed-income securities, in order to achieve its investment objectives, the Fund may at times use certain types of investment derivatives, such as options, futures, forwards and swaps. These instruments involve risks different from, and in certain cases, greater than, the risks presented by more traditional investments.

26 o ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND

NOTES TO FINANCIAL STATEMENTS

March 31, 2007

Notes to Financial Statements

NOTE A

Significant Accounting Policies

AllianceBernstein Global High Income Fund, Inc. (the "Fund"), formerly Alliance World Dollar Government Fund II, Inc. was incorporated under the laws of the State of Maryland on May 20, 1993 and is registered under the Investment Company Act of 1940 as a non-diversified, closed-end management investment company. The financial statements have been prepared in conformity with U.S. generally accepted accounting principles, which require management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements and amounts of income and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund.

1. Security Valuation

Portfolio securities are valued at their current market value determined on the basis of market quotations or, if market quotations are not readily available or are deemed unreliable, at "fair value" as determined in accordance with procedures established by and under the general supervision of the Fund's Board of Directors.

In general, the market value of securities which are readily available and deemed reliable are determined as follows. Securities listed on a national securities exchange (other than securities listed on The NASDAQ Stock Market, Inc. ("NASDAQ")) or on a foreign securities exchange are valued at the last sale price at the close of the exchange or foreign securities exchange. If there has been no sale on such day, the securities are valued at the mean of the closing bid and asked prices on such day. Securities listed on more than one exchange are valued by reference to the principal exchange on which the securities are traded; securities listed only on NASDAQ are valued in accordance with the NASDAQ Official Closing Price; listed put or call options are valued at the last sale price. If there has been no sale on that day, such securities will be valued at the closing bid prices on that day; open futures contracts and options thereon are valued using the closing settlement price or, in the absence of such a price, the most recent quoted bid price. If there are no quotations available for the day of valuation, the last available closing settlement price is used; securities traded in the over-the-counter market, ("OTC") are valued at the mean of the current bid and asked prices as reported by the National Quotation Bureau or other comparable sources; U.S. Government securities and other debt instruments having 60 days or less remaining until maturity are valued at amortized cost if their original maturity was 60 days or less; or by amortizing their fair value as of the 61st day prior to maturity if their original term to maturity exceeded 60 days; fixed-income securities, including mortgage backed and asset backed securities, may be valued on the basis of prices provided by a pricing service or at a price obtained from one or more of the major broker/dealers. In cases where broker/dealer

ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND o 27

quotes are obtained, AllianceBernstein L.P. (the "Adviser") may establish procedures whereby changes in market yields or spreads are used to adjust, on a daily basis, a recently obtained quoted price on a security; and OTC and other derivatives are valued on the basis of a quoted bid price or spread from a major broker/dealer in such security.

Securities for which market quotations are not readily available (including restricted securities) or are deemed unreliable are valued at fair value. Factors considered in making this determination may include, but are not limited to, information obtained by contacting the issuer, analysts, analysis of the issuer's financial statements or other available documents. In addition, the Fund may use fair value pricing for securities primarily traded in non-U.S. markets because, most foreign markets close well before the Fund values its securities at 4:00 p.m., Eastern Time. The earlier close of these foreign markets gives rise to the possibility that significant events, including broad market moves, may have occurred in the interim and may materially affect the value of those securities.

2. Currency Translation

Assets and liabilities denominated in foreign currencies and commitments under forward currency exchange contracts are translated into U.S. dollars at the mean of the quoted bid and asked prices of such currencies against the U.S. dollar. Purchases and sales of portfolio securities are translated into U.S. dollars at the rates of exchange prevailing when such securities were acquired or sold. Income and expenses are translated into U.S. dollars at the rates of exchange prevailing when accrued.

Net realized gain or loss on foreign currency transactions represents foreign exchange gains and losses from sales and maturities of foreign fixed income investments, foreign currency exchange contracts, holding of foreign currencies, currency gains or losses realized between the trade and settlement dates on foreign investment transactions, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent amounts actually received or paid. Net unrealized currency gains and losses from valuing foreign currency denominated assets and liabilities at period end exchange rates are reflected as a component of net unrealized appreciation and depreciation of investments and foreign currency denominated assets and liabilities.

3. Taxes

It is the Fund's policy to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its investment company taxable income and net realized gains, if any, to shareholders. Therefore, no provisions for federal income or excise taxes are required. The Fund may be subject to taxes imposed by countries in which it invests. Such taxes are generally based on income and/or capital gains earned or repatriated. Taxes

28 o ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND

Notes to Financial Statements

are accrued and applied to net investment income, net realized gains and net unrealized appreciation/depreciation as such income and/or gains are earned.

Edgar Filing: ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND INC - Form N-CSR

4. Investment Income and Investment Transactions

Interest income is accrued daily. Investment transactions are accounted for on the date securities are purchased or sold. Investment gains and losses are determined on the identified cost basis. The Fund amortizes premiums and accretes discounts as adjustments to interest income.

5. Dividends and Distributions

Dividends and distributions to shareholders are recorded on the ex-dividend date. Income and capital gains distributions are determined in accordance with federal tax regulations and may differ from those determined in accordance with U.S. generally accepted accounting principles. To the extent these differences are permanent, such amounts are reclassified within the capital accounts based on their federal tax basis treatment; temporary differences do not require such reclassification.

NOTE B

Advisory Fee and Other Transactions with Affiliates

Under the terms of the Investment Advisory Agreement, the Fund pays the Adviser an advisory fee at an annual rate of .90% of the Fund's average weekly net assets. Prior to October 1, 2005, the Fund paid the Adviser an advisory fee at an annual rate of 1.00% of the Fund's average weekly net assets. Such fee is accrued daily and paid monthly.

Pursuant to the Administration Agreement in effect until October 1, 2005, the Fund paid the Adviser an administrative fee of .15% of the Fund's average weekly net assets. Effective that date pursuant to an Amended Administration Agreement, the Fund reimburses the Adviser for its costs, including legal and accounting costs, in serving as Administrator of the Fund; provided, however, that the reimbursement may not exceed the prior fee of .15% of average weekly net assets. For the year ended March 31, 2007, the Fund paid the Adviser \$102,250 for its administrative services, representing .01% of the Fund's average weekly net assets.

Under the terms of a Shareholder Inquiry Agency Agreement with AllianceBernstein Investor Services, Inc. ("ABIS"), a wholly-owned subsidiary of the Adviser, the Fund reimburses ABIS for costs relating to servicing phone inquiries on behalf of the Fund. During the year ended March 31, 2007, the Fund reimbursed \$775 to ABIS.

ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND o 29

NOTE C

Investment Transactions

Purchases and sales of investment securities (excluding short-term investments) for the year ended March 31, 2007, were as follows:

	Purchases	Sales
	-----	-----
Investment securities (excluding U.S. government securities)	\$ 785,480,546	\$ 660,776,895
U.S. government securities	-0-	-0-

The cost of investments for federal income tax purposes, gross unrealized

Edgar Filing: ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND INC - Form N-CSR

appreciation and unrealized depreciation (excluding swap contracts and foreign currency transactions) are as follows:

Cost	\$1,006,245,229
Gross unrealized appreciation	\$89,152,578
Gross unrealized depreciation	(2,823,703)
Net unrealized appreciation	\$86,328,875

1. Forward Currency Exchange Contracts

The Fund may enter into forward currency exchange contracts in order to hedge its exposure to changes in foreign currency exchange rates on its foreign portfolio holdings, to hedge certain firm purchase and sale commitments denominated in foreign currencies and for investment purposes. A forward currency exchange contract is a commitment to purchase or sell a foreign currency on a future date at a negotiated forward rate. The gain or loss arising from the difference between the original contract and the closing of such contract would be included in net realized gain or loss on foreign currency transactions.

Fluctuations in the value of open forward currency exchange contracts are recorded for financial reporting purposes as unrealized appreciation and depreciation by the Fund.

The Fund's custodian will place and maintain cash not available for investment or other liquid assets in a separate account of the Fund having a value at least equal to the aggregate amount of the Fund's commitments under forward currency exchange contracts entered into with respect to position hedges.

Risks may arise from the potential inability of the counterparty to meet the terms of a contract and from unanticipated movements in the value of a foreign currencies relative to the U.S. dollar. The face or contract amount, in U.S. dollars reflects the total exposure the Fund has in that particular currency contract.

30 o ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND

Notes to Financial Statements

2. Option Transactions

For hedging and investment purposes, the Fund may purchase and write (sell) put and call options on U.S. and foreign government securities and foreign currencies that are traded on U.S. and foreign securities exchanges and over-the-counter markets.

The risk associated with purchasing an option is that the Fund pays a premium whether or not the option is exercised. Additionally, the Fund bears the risk of loss of premium and change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. The cost of securities acquired through the exercise of call options is increased by premiums paid. The proceeds from securities sold through the exercise of put options are decreased by the premiums paid.

When the Fund writes an option, the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current market value of the

option written. Premiums received from written options which expire unexercised are recorded by the Fund on the expiration date as realized gains from options written. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium received is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium received is added to the proceeds from the sale of the underlying security or currency in determining whether the Fund has realized a gain or loss. If a put option is exercised, the premium received reduces the cost basis of the security or currency purchased by the Fund. In writing an option, the Fund bears the market risk of an unfavorable change in the price of the security or currency underlying the written option. Exercise of an option written by the Fund could result in the Fund's selling or buying a security or currency at a price different from the current market value.

For the year ended March 31, 2007, the Fund had no transactions in written options.

3. Swap Agreements

The Fund may enter into swaps to hedge its exposure to interest rates and credit risk or for investment purposes. A swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset. The payment flows are usually netted against each other, with the difference being paid by one party to the other.

Risks may arise as a result of the failure of the counterparty to the swap contract to comply with the terms of the swap contract. The loss incurred by the failure of

ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND o 31

a counterparty is generally limited to the net interim payment to be received by the Fund, and/or the termination value at the end of the contract. Therefore, the Fund considers the creditworthiness of each counterparty to a swap contract in evaluating potential credit risk. Additionally, risks may arise from unanticipated movements in interest rates or in the value of the underlying securities.

The Fund accrues for the interim payments on swap contracts on a daily basis, with the net amount recorded within unrealized appreciation/depreciation of swap contracts on the statement of assets and liabilities. Once the interim payments are settled in cash, the net amount is recorded as realized gain/loss on swaps, in addition to realized gain/loss recorded upon the termination of swap contracts on the statement of operations. Fluctuations in the value of swap contracts are recorded as a component of net change in unrealized appreciation/depreciation of investments.

The Fund may enter into credit default swaps. The Fund may purchase credit protection on the referenced obligation of the credit default swap ("Buy Contract") or provide credit protection on the referenced obligation of the credit default swap ("Sale Contract"). A sale/(buy) in a credit default swap provides upon the occurrence of a credit event, as defined in the swap agreement, for the Fund to buy/(sell) from/(to) the counterparty at the notional amount (the "Notional Amount") and receive/(deliver) the principal amount of the referenced obligation. If a credit event occurs, the maximum payout amount for a Sale Contract is limited to the Notional Amount of the swap contract ("Maximum Payout Amount"). During the term of the swap agreement, the Fund receives/(pays) fixed payments from/(to) the respective counterparty,

Edgar Filing: ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND INC - Form N-CSR

calculated at the agreed upon interest rate applied to the Notional Amount. These interim payments are recorded within unrealized appreciation/depreciation of swap contracts on the statement of assets and liabilities.

Credit default swaps may involve greater risks than if a Fund had invested in the referenced obligation directly. Credit default swaps are subject to general market risk, liquidity risk, counterparty risk and credit risk. If the Fund is a buyer and no credit event occurs, it will lose its investment. In addition, if the Fund is a seller and a credit event occurs, the value of the referenced obligation received by the Fund coupled with the periodic payments previously received, may be less than the Maximum Payout Amount it pays to the buyer, resulting in a loss to the Fund.

At March 31, 2007, the Fund had Sale Contracts outstanding with Maximum Payout Amounts aggregating \$107,124,000, with net unrealized appreciation of \$3,984,706 and terms ranging from 1 month to 3 years, as reflected in the portfolio of investments.

In certain circumstances, the Fund may hold Sale Contracts on the same referenced obligation and with the same counterparty from which it has pur-

32 o ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND

Notes to Financial Statements

chased credit protection, which may reduce its obligation to make payments on Sale Contracts, if a credit event occurs. The Fund had buy contracts with a Notional Amount of \$11,430,000 with respect to the same referenced obligations and same counterparties of certain Sale Contracts outstanding which reduced its obligation to make payments on Sale Contracts to \$95,964,000 as of March 31, 2007.

4. Reverse Repurchase Agreements

Under a reverse repurchase agreement, the Fund sells securities and agrees to repurchase them at a mutually agreed upon date and price. At the time the Fund enters into a reverse repurchase agreement, it will establish a segregated account with the custodian containing liquid assets having a value at least equal to the repurchase price.

For the year ended March 31, 2007, the average amount of reverse repurchase agreements outstanding was \$143,830,609 and the daily weighted average interest rate was 4.27%.

NOTE D

Capital Stock

During the years ended March 31, 2007 and March 31, 2006, the Fund issued no shares in connection with the Fund's dividend reinvestment plan.

NOTE E

Risks Involved in Investing in the Fund

Interest Rate Risk and Credit Risk--Interest rate risk is the risk that changes in interest rates will affect the value of the Fund's investments in fixed-income debt securities such as bonds or notes. Increases in interest rates may cause the value of the Fund's investments to decline. Credit risk is the risk that the issuer or guarantor of a debt security, or the counterparty

Edgar Filing: ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND INC - Form N-CSR

to a derivative contract, will be unable or unwilling to make timely principal and/or interest payments, or to otherwise honor its obligations. The degree of risk for a particular security may be reflected in its credit risk rating. Credit risk is greater for medium quality and lower-rated securities. Lower-rated debt securities and similar unrated securities (commonly known as "junk bonds") have speculative elements or are predominantly speculative risks.

Foreign Securities Risk--Investing in securities of foreign companies or foreign governments involves special risks which include changes in foreign currency exchange rates and the possibility of future political and economic developments which could adversely affect the value of such securities. Moreover, securities of many foreign companies or foreign governments and their markets may be less liquid and their prices more volatile than those of comparable U.S. companies and the U.S. government.

ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND o 33

Indemnification Risk--In the ordinary course of business, the Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these indemnification provisions and expects the risk of loss thereunder to be remote.

Leverage Risk--The Fund may use certain investment techniques that have increased risks. For example, the Fund may use leverage, through borrowings, to enhance its returns. For this purpose, the Fund may use reverse repurchase agreements and dollar rolls, which are considered borrowings, as part of its investment strategy. Borrowings allow the Fund to increase the amount of money available to invest in debt securities. As long as the income from the securities financed is greater than the interest cost of the borrowings, the Fund's investors benefit from higher returns than if the Fund were not leveraged.

The use of leverage, which is usually considered speculative, involves certain risks to stockholders. These include a higher volatility of the NAV of the common stock caused by favorable or adverse changes in interest rates. In addition, fluctuations in the interest rates on a fund's borrowings will affect the return to stockholders, with increases in interest rates decreasing the fund's return.

To the extent that the current interest rate on a fund's borrowings approaches the net return on the leveraged portion of the fund's investment portfolio, the benefit of leverage to stockholders will be reduced. If the current interest rate on the borrowings were to exceed the net return on that portion of the fund's portfolio, the fund's leverage would result in a lower rate of return to stockholders and in a lower NAV than if a fund were not leveraged.

NOTE F

Distributions to Shareholders

The tax character of distributions paid during the fiscal years ended March 31, 2007 and March 31, 2006 were as follows:

	2007	2006
Distributions paid from:		
Ordinary income	\$66,464,867	\$60,647,076
Total taxable distributions	66,464,867	60,647,076

Edgar Filing: ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND INC - Form N-CSR

	-----	-----
Total distributions paid	\$66,464,867	\$60,647,076
	-----	-----

34 o ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND

Notes to Financial Statements

As of March 31, 2007, the components of accumulated earnings/(deficit) on a tax basis were as follows:

Undistributed ordinary income	\$10,348,257
Undistributed long-term capital gains	14,268,618 (a)
Unrealized appreciation/(depreciation)	86,274,080 (b)

Total accumulated earnings (deficit)	\$110,890,955

(a) During the fiscal year, the Fund utilized capital loss carryforwards of \$17,972,214.

(b) The difference between book-basis and tax-basis unrealized appreciation/(depreciation) is attributable primarily to the tax deferral of losses on wash sales, the difference between book and tax amortization methods for premium and the difference between book and tax treatment of swap income.

During the current fiscal year, permanent differences primarily due to the tax treatment of swap income, tax character of paydown gain/losses and foreign currency transactions, and the tax treatment of bond premium, resulted in a net decrease in distributions in excess of net investment income and a decrease in accumulated net realized gain on investment transactions. This reclassification had no effect on net assets.

NOTE G

Legal Proceedings

As has been previously reported, the staff of the U.S. Securities and Exchange Commission ("SEC") and the Office of the New York Attorney General ("NYAG") have been investigating practices in the mutual fund industry identified as "market timing" and "late trading" of mutual fund shares. Certain other regulatory authorities have also been conducting investigations into these practices within the industry and have requested that the Adviser provide information to them. The Adviser has been cooperating and will continue to cooperate with all of these authorities. The shares of the Fund are not redeemable by the Fund, but are traded on an exchange at prices established by the market. Accordingly, the Fund and its shareholders are not subject to the market timing and late trading practices that are the subject of the investigations mentioned above or the lawsuits described below. Please see below for a description of the agreements reached by the Adviser and the SEC and NYAG in connection with the investigations mentioned above.

Numerous lawsuits have been filed against the Adviser and certain other defendants in which plaintiffs make claims purportedly based on or related to the same practices that are the subject of the SEC and NYAG investigations referred to above. Some of these lawsuits name the Fund as a party. The lawsuits are now pending in the United States District Court for the District of Maryland pursuant to a ruling by the Judicial Panel on Multidistrict Litigation transferring and centralizing all of the mutual funds involving market and late trading in the District of Maryland (the "Mutual Fund MDL").

Edgar Filing: ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND INC - Form N-CSR

Management of the Adviser

ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND o 35

believes that these private lawsuits are not likely to have a material adverse effect on the results of operations or financial condition of the Fund.

On December 18, 2003, the Adviser confirmed that it had reached terms with the SEC and the NYAG for the resolution of regulatory claims relating to the practice of "market timing" mutual fund shares in some of the AllianceBernstein Mutual Funds. The agreement with the SEC is reflected in an Order of the Commission ("SEC Order"). The agreement with the NYAG is memorialized in an Assurance of Discontinuation dated September 1, 2004 ("NYAGOrder"). Among the key provisions of these agreements are the following:

(i) The Adviser agreed to establish a \$250 million fund (the "Reimbursement Fund") to compensate mutual fund shareholders for the adverse effects of market timing attributable to market timing relationships described in the SEC Order. According to the SEC Order, the Reimbursement Fund is to be paid, in order of priority, to fund investors based on (i) their aliquot share of losses suffered by the fund due to market timing, and (ii) a proportionate share of advisory fees paid by such fund during the period of such market timing;

(ii) The Adviser agreed to reduce the advisory fees it receives from some of the AllianceBernstein long-term, open-end retail funds, commencing January 1, 2004, for a period of at least five years; and

(iii) The Adviser agreed to implement changes to its governance and compliance procedures. Additionally, the SEC Order contemplates that the Adviser's registered investment company clients, including the Fund, will introduce governance and compliance changes.

The shares of the Fund are not redeemable by the Fund, but are traded on an exchange at prices established by the market. Accordingly, the Fund and its shareholders are not subject to the market timing practices described in the SEC Order and are not expected to participate in the Reimbursement Fund. Since the Fund is a closed-end fund, it did not have its advisory fee reduced pursuant to the terms of the agreements mentioned above.

On February 10, 2004, the Adviser received (i) a subpoena duces tecum from the Office of the Attorney General of the State of West Virginia and (ii) a request for information from West Virginia's Office of the State Auditor, Securities Commission (the "West Virginia Securities Commissioner") (together, the "Information Requests"). Both Information Requests require the Adviser to produce documents concerning, among other things, any market timing or late trading in the Adviser's sponsored mutual funds. The Adviser responded to the Information Requests and has been cooperating fully with the investigation.

36 o ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND

Notes to Financial Statements

On April 11, 2005, a complaint entitled The Attorney General of the State of West Virginia v. AIM Advisors, Inc., et al. ("WVAG Complaint") was filed against the Adviser, Alliance Capital Management Holding L.P. ("Alliance Holding"), and various other defendants not affiliated with the Adviser. The WVAG Complaint was filed in the Circuit Court of Marshall County, West Virginia by the Attorney General of the State of West Virginia. The WVAG Complaint makes

Edgar Filing: ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND INC - Form N-CSR

factual allegations generally similar to those in certain of the complaints related to the lawsuits discussed above. On October 19, 2005, the WVAG Complaint was transferred to the Mutual Fund MDL.

On August 30, 2005, the West Virginia Securities Commissioner signed a Summary Order to Cease and Desist, and Notice of Right to Hearing addressed to the Adviser and Alliance Holding. The Summary Order claims that the Adviser and Alliance Holding violated the West Virginia Uniform Securities Act, and makes factual allegations generally similar to those in the SEC Order and the NYAG Order. On January 26, 2006, the Adviser, Alliance Holding, and various unaffiliated defendants filed a Petition for Writ of Prohibition and Order Suspending Proceedings in West Virginia state court seeking to vacate the Summary Order and for other relief. The court denied the writ and in September 2006 the Supreme Court of Appeals declined the defendants' petition for appeal. On September 22, 2006, Alliance and Alliance Holding filed an answer and motion to dismiss the Summary Order with the Securities Commissioner.

On June 22, 2004, a purported class action complaint entitled Aucoin, et al. v. Alliance Capital Management L.P., et al. ("Aucoin Complaint") was filed against the Adviser, Alliance Capital Management Holding L.P., Alliance Capital Management Corporation, AXA Financial, Inc., AllianceBernstein Investment Research & Management, Inc., certain current and former directors of the AllianceBernstein Mutual Funds, and unnamed Doe defendants. The Aucoin Complaint names certain of the AllianceBernstein mutual funds as nominal defendants. The Fund was not named as a defendant in the Aucoin Complaint. The Aucoin Complaint was filed in the United States District Court for the Southern District of New York by alleged shareholders of an AllianceBernstein mutual fund. The Aucoin Complaint alleges, among other things, (i) that certain of the defendants improperly authorized the payment of excessive commissions and other fees from fund assets to broker-dealers in exchange for preferential marketing services, (ii) that certain of the defendants misrepresented and omitted from registration statements and other reports material facts concerning such payments, and (iii) that certain defendants caused such conduct as control persons of other defendants. The Aucoin Complaint asserts claims for violation of Sections 34(b), 36(b) and 48(a) of the Investment Company Act, Sections 206 and 215 of the Advisers Act, breach of common law fiduciary duties, and aiding and abetting breaches of common law fiduciary duties. Plaintiffs seek an unspecified amount of compensatory damages and punitive damages, rescission of their contracts with the Adviser, including recovery of all fees paid to the Adviser pursuant to such contracts, an accounting of all fund-related fees, commissions and

ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND o 37

soft dollar payments, and restitution of all unlawfully or discriminatorily obtained fees and expenses.

Since June 22, 2004, nine additional lawsuits making factual allegations substantially similar to those in the Aucoin Complaint were filed against the Adviser and certain other defendants. All nine of the lawsuits (i) were brought as class actions filed in the United States District Court for the Southern District of New York, (ii) assert claims substantially identical to the Aucoin Complaint, and (iii) are brought on behalf of shareholders of the Funds.

On February 2, 2005, plaintiffs filed a consolidated amended class action complaint ("Aucoin Consolidated Amended Complaint") that asserts claims substantially similar to the Aucoin Complaint and the nine additional lawsuits referenced above. On October 19, 2005, the District Court dismissed each of the claims set forth in the Aucoin Consolidated Amended Complaint, except for plaintiffs' claim under Section 36(b) of the Investment Company Act. On January

Edgar Filing: ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND INC - Form N-CSR

11, 2006, the District Court granted defendants' motion for reconsideration and dismissed the remaining Section 36(b) claim. On May 31, 2006 the District Court denied plaintiffs' motion for leave to file an amended complaint. On July 5, 2006, plaintiffs filed a notice of appeal. On October 4, 2006 the appeal was withdrawn by stipulation, with plaintiffs reserving the right to reinstate it at a later date.

The Adviser believes that these matters are not likely to have a material adverse effect on the Fund or the Adviser's ability to perform advisory services relating to the Fund.

NOTE H

Recent Accounting Pronouncements

On July 13, 2006, the Financial Accounting Standards Board ("FASB") released FASB Interpretation No. 48 "Accounting for Uncertainty in Income Taxes" ("FIN 48"). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions taken or expected to be taken in the course of preparing a fund's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded in the current period. Adoption of FIN 48 is required for fiscal years beginning after December 15, 2006 and is to be applied to all open tax years as of the effective date. On December 22, 2006, the Securities and Exchange Commission notified the industry that the implementation of FIN 48 by registered investment companies could be delayed until the last business day of the first required financial statement reporting period for fiscal years beginning after December 15, 2006. At this time, management is evaluating the implications of FIN 48 and its impact on the financial statements has not yet been determined.

38 o ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND

Notes to Financial Statements

On September 20, 2006, the FASB released Statement of Financial Accounting Standards No. 157 "Fair Value Measurements" ("FAS 157"). FAS 157 establishes an authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair-value measurements. The application of FAS 157 is required for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. At this time, management is evaluating the implications of FAS 157 and its impact on the financial statements has not yet been determined.

NOTE I

Subsequent Events

On April 13, 2007, the Fund acquired all of the assets and assumed all of the liabilities of Alliance World Dollar Government Fund, Inc. ("AWG") in a tax free event, pursuant to an Agreement and Plan of Acquisition and Liquidation approved by the stockholders of AWG at a Special Meeting of Stockholders held on January 19, 2007. As a result of the acquisition, stockholders of AWG received shares of the Fund equivalent to the aggregate net asset value of the shares they held in AWG. Stockholders participating in AWG's dividend reinvestment plan received full and fractional shares of the Fund. Other stockholders received cash in lieu of fractional shares.

Edgar Filing: ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND INC - Form N-CSR

On April 12, 2007, the aggregate net assets of the Fund and AWG were \$1,001,169,926 and \$128,756,589, respectively. As of the close of business on April 13, 2007, the combined net assets of the Fund amounted to \$1,129,600,816.

40 o ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND

(a) As of April 1, 2003, the Fund has adopted the method of accounting for interim payments on swap contracts in accordance with Financial Accounting Standards Board Statement No. 133. These interim payments are reflected within

Edgar Filing: ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND INC - Form N-CSR

net realized and unrealized gain (loss) on swap contracts, however prior to April 1, 2003, these interim payments were reflected within interest income/expense on the statement of operations. The effect of this change for the year ended March 31, 2004, was to decrease net investment income per share by \$0.06 and increase net realized and unrealized gain (loss) on investment transactions per share by \$0.06, and decrease the ratios of net investment income and expenses to average net assets by 0.50% and 0.20%, respectively.

(b) Based on average shares outstanding.

(c) Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed, for purposes of this calculation, to be reinvested at prices obtained under the Fund's Dividend Reinvestment Plan. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods. Total investment return calculated for a period of less than one year is not annualized.

ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND o 41

REPORT OF INDEPENDENT REGISTERED
PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors of
AllianceBernstein Global High Income Fund, Inc.

We have audited the accompanying statement of assets and liabilities of AllianceBernstein Global High Income Fund, Inc., formerly Alliance World Dollar Government Fund II, Inc., (the "Fund"), including the portfolio of investments, as of March 31, 2007, and the related statement of operations and cash flows for the year then ended, the statement of changes in net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Fund's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of March 31, 2007 by correspondence with the custodian and others, or by other appropriate auditing procedures where

Edgar Filing: ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND INC - Form N-CSR

replies from others were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of AllianceBernstein Global High Income Fund at March 31, 2007, the results of its operations and cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

42 o ALLIANCEBERNSTEIN GLOBAL
HIGH INCOME FUND

TAX INFORMATION (unaudited)

2.3% of the ordinary income dividends paid by the Fund during the fiscal year ended March 31, 2007 qualify as "interest related dividends" for non-U.S. shareholders.

ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND o 43

ADDITIONAL INFORMATION (unaudited)

AllianceBernstein Global High Income Fund

Shareholders whose shares are registered in their own names may elect to be participants in the Dividend Reinvestment Plan (the "Plan"), pursuant to which distributions to shareholders will be paid in or reinvested in additional shares of the Fund. Computershare Trust Company N.A. (the "Agent") will act as agent for participants under the Plan. Shareholders whose shares are held in the name of a broker or nominee should contact such broker or nominee to determine whether or how they may participate in the Plan.

If the Board declares a distribution payable either in shares or in cash, as holders of the Common Stock may have elected, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in shares of Common Stock of the Fund valued as follows:

(i) If the shares of Common Stock are trading at net asset value or at a premium above net asset value at the time of valuation, the Fund will issue new shares at the greater of net asset value or 95% of the then current market price.

(ii) If the shares of Common Stock are trading at a discount from net asset value at the time of valuation, the Agent will receive the distribution in cash and apply it to the purchase of the Fund's shares of Common Stock in the open market on the New York Stock Exchange or elsewhere, for the participants' accounts. Such purchases will be made on or shortly after the payment date for such distribution and in no event more than 30 days after such date except

Edgar Filing: ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND INC - Form N-CSR

where temporary curtailment or suspension of purchase is necessary to comply with Federal securities laws. If, before the Agent has completed its purchases, the market price exceeds the net asset value of a share of Common Stock, the average purchase price per share paid by the Agent may exceed the net asset value of the Fund's shares of Common Stock, resulting in the acquisition of fewer shares than if the distribution had been paid in shares issued by the Fund.

The Agent will maintain all shareholders' accounts in the Plan and furnish written confirmation of all transactions in the account, including information needed by shareholders for tax records. Shares in the account of each Plan participant will be held by the Agent in non-certificate form in the name of the participant, and each shareholder's proxy will include those shares purchased or received pursuant to the Plan.

There will be no charges with respect to shares issued directly by the Fund to satisfy the dividend reinvestment requirements. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Agent's open market purchases of shares. In each case, the cost per share of shares purchased for each shareholder's account will be the average cost, including brokerage commissions, of any shares purchased in the open market plus the cost of any shares issued by the Fund.

44 o ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND

The automatic reinvestment of distributions will not relieve participants of any income taxes that may be payable (or required to be withheld) on distributions.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan as applied to any distribution paid subsequent to written notice of the change sent to participants in the Plan at least 90 days before the record date for such distribution. The Plan may also be amended or terminated by the Agent on at least 90 days' written notice to participants in the Plan. All correspondence concerning the Plan should be directed to the Agent at Computershare Trust Company N.A., P.O. Box 43010, Providence, RI 02940-3010.

RESULTS OF SHAREHOLDERS MEETING (unaudited)

A Special Meeting of the Stockholders of AllianceBernstein Global High Income Fund, Inc. (the "Fund") was held on December 12, 2006. At the Meeting, with respect to the proposal to eliminate the Fund's fundamental investment policy to invest at least 65% of its assets in U.S. Dollar-denominated sovereign debt obligations, the required number of outstanding shares were voted in favor of the proposal, and the proposal was approved. A description of the proposal and number of shares voted at the Meeting are as follows:

	Voted For	Voted Against	Abstained
1. The elimination of the Fund's fundamental investment policy to invest at least 65% of its assets in U.S. Dollar-denominated sovereign	31,024,512	2,472,264	1,619,697

SUMMARY OF GENERAL INFORMATION

The daily net asset value of the Fund's shares is available from the Fund's Transfer Agent by calling (800) 219-4218. The Fund also distributes its daily net asset value (NAV) to various financial publications or independent organizations such as Lipper, Inc., Morningstar, Inc. and Bloomberg. The Fund's NYSE trading symbol is "AWF." Weekly comparative net asset value and market price information about the Fund is published each Monday in The Wall Street Journal, each Sunday in The New York Times and each Saturday in Barron's and other newspapers in a table called "Closed-End Funds."

Information Regarding New or Amended Investment Policies

The Fund's Board of Directors recently approved a broader investment policy that permits the Fund to invest in other investment companies to the full extent permitted by the Investment Company Act of 1940 (the "1940 Act") and the rules thereunder. The Board of Directors also approved the Fund's investments of uninvested cash balances in an affiliated money market fund as permitted by Rule 12d1-1 under the 1940 Act.

Dividend Reinvestment Plan

If your shares are held in your own name, you will automatically be a participant in the Plan unless you elect to receive cash. If your shares are held in nominee or street name through a broker or nominee who provides this

Edgar Filing: ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND INC - Form N-CSR

service, you will also automatically be a participant in the Plan. If your shares are held in the name of a broker or nominee who does not provide this service, you will need to instruct them to participate in the Plan on your behalf or your distributions will not be reinvested. In such case, you will receive your distributions in cash.

For questions concerning shareholder account information, or if you would like a brochure describing the Divi-dend Reinvestment Plan, please call Computershare Trust Company, N.A. at (800) 219-4218.

52 o ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND

Information Regarding the Review and Approval of the Fund's Advisory and Administration Agreements

The Fund's disinterested directors (the "directors") unanimously approved the continuance of the Advisory Agreement between the Fund and the Adviser and the continuance of the Administration Agreement between the Adviser (in such capacity, the "Administrator") and the Fund at a meeting held on October 31-November 2, 2006.

In preparation for the meeting, the directors had requested from the Adviser and received and evaluated extensive materials, including performance and expense information for other investment companies with similar investment objectives derived from data compiled by Lipper Inc. ("Lipper"), which is not affiliated with the Adviser. Prior to voting, the directors reviewed the proposed continuance of the Advisory Agreement and Administration Agreement with management and with experienced counsel who are independent of the Adviser and received a memorandum from such counsel discussing the legal standards for their consideration of the proposed continuance. The directors also discussed the proposed continuance in three private sessions at which only the directors, their independent counsel and the Fund's Independent Compliance Officer were present. In reaching their determinations relating to continuance of the Advisory Agreement and the Administration Agreement, the directors considered all factors they believed relevant, including the following:

1. information comparing the performance of the Fund to other investment companies with similar investment objectives and to an index;
2. the nature, extent and quality of investment, compliance, administrative and other services rendered by the Adviser;
3. payments received by the Adviser from all sources in respect of the Fund and all investment companies in the AllianceBernstein Funds complex;
4. the costs borne by, and profitability of, the Adviser and its affiliates in providing services to the Fund and to all investment companies in the AllianceBernstein Funds complex;
5. comparative fee and expense data for the Fund and other investment companies with similar investment objectives;
6. the extent to which economies of scale would be realized to the extent the Fund grows and whether fee levels reflect any economies of scale for the benefit of investors;

ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND o 53

Edgar Filing: ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND INC - Form N-CSR

7. the Adviser's policies and practices regarding allocation of portfolio transactions of the Fund;
8. portfolio turnover rates for the Fund compared to other investment companies with similar investment objectives;
9. fall-out benefits which the Adviser and its affiliates receive from their relationships with the Fund;
10. the Adviser's representation that there are no institutional products managed by the Adviser which have a substantially similar investment style as the Fund;
11. the professional experience and qualifications of the Fund's portfolio management team and other senior personnel of the Adviser;
12. the terms of the Advisory Agreement; and
13. the terms of the Administration Agreement.

The directors also considered their knowledge of the nature and quality of the services provided by the Adviser to the Fund gained from their experience as directors or trustees of most of the registered investment companies advised by the Adviser, their overall confidence in the Adviser's integrity and competence they have gained from that experience and the Adviser's responsiveness to concerns raised by them in the past, including the Adviser's willingness to consider and implement organizational and operational changes designed to improve investment results and the services provided to the AllianceBernstein Funds.

In their deliberations, the directors did not identify any particular information that was all-important or controlling, and different directors may have attributed different weights to the various factors.

The directors determined that the overall arrangements (i) between the Fund and the Adviser, as provided in the Advisory Agreement, and (ii) between the Fund and the Administrator, as provided in the Administration Agreement, were fair and reasonable in light of the services performed, expenses incurred and such other matters as the directors considered relevant in the exercise of their business judgment.

The material factors and conclusions that formed the basis for the directors reaching their determinations to approve the continuance of the Advisory Agreement and Administration Agreement (including their determinations that the Adviser should continue to be the investment adviser for the Fund, that the Administrator should continue to be the administrator for the Fund, and that the

54 o ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND

fees payable to the Adviser pursuant to the Advisory Agreement, and to the Administrator pursuant to the Administration Agreement, are appropriate) were separately discussed by the directors.

Nature, Extent and Quality of Services Provided by the Adviser

The directors noted that, under the Advisory Agreement, the Adviser, subject to the oversight of the directors, administers the Fund's business and other affairs. The Adviser manages the investment of the assets of the Fund, including making purchases and sales of portfolio securities consistent with

the Fund's investment objective and policies. The Adviser also provides the Fund with such office space, administrative and other services (exclusive of, and in addition to, any such services provided by any others retained by the Fund) and executive and other personnel as are necessary for the Fund's operations. The Adviser pays all of the compensation of directors of the Fund who are affiliated persons of the Adviser and of the officers of the Fund.

The directors noted that the Advisory Agreement for the Fund does not contain a reimbursement provision for the cost of certain administrative and other services provided by the Adviser. The directors noted that under the Administration Agreement, the Administrator, subject to the supervision of the directors, provides the following services: (a) oversees the determination and publication of the Fund's net asset value; (b) oversees the maintenance of the books and records of the Fund; (c) arranges for bank or other borrowing by the Fund, pursuant to the Adviser's determination of the lenders, timing, amount and terms of any such borrowing; (d) prepares the Fund's federal, state and local income tax returns; (e) prepares the financial information for the Fund's proxy statements and reports to shareholders; (f) prepares the Fund's periodic financial and other reports to regulatory agencies; (g) responds to or refers, as appropriate, shareholder inquiries; (h) coordinates audit examinations; and (i) conducts asset maintenance tests and prepares related reports. With respect to (g) the directors noted that the Fund pays AllianceBernstein Investor Services to respond to certain types of shareholder inquiries pursuant to a Shareholder Inquiry Agency Agreement.

The directors considered the scope and quality of services provided by the Adviser under the Advisory Agreement and by the Administrator under the Administration Agreement and noted that the scope of services provided by advisers and administrators of funds had expanded over time as a result of regulatory and other developments. The directors noted that, for example, the Adviser (including in its capacity as Administrator of the Fund) is responsible for maintaining and monitoring its own and, to varying degrees, the Fund's compliance programs, and these compliance programs have recently been refined and enhanced in light of new regulatory requirements. The directors considered the quality of the in-house investment research capabilities of the Adviser and the other resources it has dedicated to performing services for the Fund. The quality

ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND o 55

of administrative and other services, including the Adviser's role in coordinating the activities of the Fund's other service providers, also were considered. The directors also considered the Adviser's response to recent regulatory compliance issues affecting a number of the investment companies in the AllianceBernstein Funds complex. The directors concluded that, overall, they were satisfied with the nature, extent and quality of services provided to the Fund under the Advisory Agreement and the Administration Agreement.

Costs of Services Provided and Profitability to the Adviser

The directors reviewed a schedule of the revenues, expenses and related notes indicating the profitability of the Fund to the Adviser (including in its capacity as Administrator) for calendar years 2004 and 2005 that had been prepared with an updated expense allocation methodology arrived at in consultation with an independent consultant. The directors noted that the updated methodology differed in various respects from the methodology used in prior years. The directors reviewed the assumptions and methods of allocation used by the Adviser in preparing fund-specific profitability data, and noted the Adviser's representation to them that it believed that the methods of allocation used in preparing the profitability information were reasonable and

appropriate and that the Adviser had previously discussed with the directors that there is no generally accepted allocation methodology for information of this type.

The directors recognized that it is difficult to make comparisons of profitability from fund advisory contracts because comparative information is not generally publicly available and is affected by numerous factors, including the structure of the particular adviser, the types of funds it manages, its business mix, numerous assumptions regarding allocations and the adviser's capital structure and cost of capital. In considering profitability information, the directors considered the effect of fall-out benefits on the Adviser's expenses. The directors focused on the profitability of the Adviser's relationship with the Fund before taxes. The directors recognized that the Adviser should generally be entitled to earn a reasonable level of profits for the services it provides to the Fund and, based on their review, concluded that they were satisfied that the Adviser's level of profitability from its relationship with the Fund was not excessive.

Fall-Out Benefits

The directors considered that the Adviser benefits from soft dollar arrangements whereby it receives brokerage and research services from many of the brokers and dealers that execute purchases and sales of securities on behalf of its clients on an agency basis. The directors noted that since the Fund does not engage in brokerage transactions, the Adviser does not receive soft dollar benefits in respect of portfolio transactions of the Fund. The directors also noted that a subsidiary of the Adviser provides certain shareholder services to the Fund and receives compensation from the Fund for such services.

56 o ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND

The directors recognized that the Adviser's profitability would be somewhat lower if the Adviser's subsidiary did not receive the benefits described above. The directors understood that the Adviser also might derive reputational and other benefits from its association with the Fund.

Investment Results

In addition to the information reviewed by the directors in connection with the meeting, the directors receive detailed comparative performance information for the Fund at each regular Board meeting during the year. At the meeting, the directors reviewed information prepared by the Adviser based on information obtained from Lipper showing performance of the Fund as compared to other funds in the Lipper Emerging Markets Debt Funds Average (the "Lipper Average") for periods ended June 30, 2006 over the year to date ("YTD"), 1-, 3-, 5- and 10-year and since inception periods (inception July 1993) and for each of the last ten calendar years, and as compared to the JP Morgan Emerging Markets Bond Index Global (the "Index") for periods ended June 30, 2006 over the YTD, 1-, 3-, 5- and 10-year periods (information was not available for the since inception period). The directors noted that in the Lipper Average comparison (13 funds in the YTD period, including the Fund and Alliance World Dollar Government Fund, Inc., another closed-end fund advised by the Adviser), the Fund's performance was somewhat above the Lipper median in the YTD and since inception periods, materially above the Lipper median in the 5- and 10-year periods, somewhat below the Lipper median in the 1-year period and materially below the Lipper median in the 3-year period, and that the Fund's calendar year performance was significantly above the Lipper median in 2002 and 2005, slightly above the Lipper median in 2003, materially above the Lipper median in 1997, 1999 and 2000, somewhat below the Lipper median in 2004 and significantly

Edgar Filing: ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND INC - Form N-CSR

below the Lipper median in 1996, 1998 and 2001. The directors further noted that the Fund outperformed the Index in all periods reviewed. Based on their review, the directors concluded that the Fund's relative performance over time was satisfactory.

Advisory Fees and Other Expenses

The directors considered the latest fiscal period actual management fees paid by the Fund (advisory fees paid to the Adviser and administration fees paid to the Adviser (in its capacity as Administrator of the Fund)) and information prepared by Lipper concerning fee rates paid by other funds in the same Lipper category as the Fund. They compared the combined advisory and administration fees paid by the Fund to the advisory fees of other funds where there is no separate administrator. The directors recognized that it is difficult to make comparisons of advisory fees because there are variations in the services that are included in the fees paid by other funds.

The directors noted that in connection with the settlement of the market timing matter with the New York Attorney General in December 2003, the Adviser

ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND o 57

agreed to material reductions (averaging 20%) in the fee schedules of most of the open-end funds sponsored by the Adviser and that such open-end funds had benefited from such reductions since 2004. The directors noted that the Fund's contractual advisory fee rate was higher than the fee rate charged to an open-end emerging market debt fund managed by the Adviser, and that the Fund's fee rate exceeded the rate paid by the open-end fund prior to the settlement related reduction. The directors further noted that, at their September 14 and 16, 2005 meeting, the directors considered and approved the Adviser's proposal, in response to the directors' request for advisory and administration fee reductions, to amend the Advisory Agreement effective October 1, 2005 to reduce the fee rate by 10 basis points (from 1.00% to 0.90%) and the Administrator's proposal to replace the 15 basis points fee in the Administration Agreement with an amount equal to no more than the cost to the Administrator of providing administrative services subject to a maximum of 15 basis points.

The Adviser informed the directors that there are no institutional products offered by it that have a substantially similar investment style as the Fund. The directors reviewed information in the Adviser's Form ADV and noted that it charges institutional clients lower fees for advising comparably sized accounts using strategies that differ from those of the Fund but which involve investments in securities of the same type that the Fund invests in (i.e., emerging market fixed income).

The Adviser reviewed with the directors the significant differences in the scope of services it provides to institutional clients and to the Fund. For example, the Advisory Agreement requires the Adviser to provide, in addition to investment advice, office facilities and officers (including officers to provide required certifications). The Adviser also coordinates the provision of services to the Fund by non-affiliated service providers and is responsible for the compensation of the Fund's Independent Compliance Officer and certain related expenses. The provision of these non-advisory services involves costs and exposure to liability. The Adviser explained that many of these services normally are not provided to non-investment company clients and that fees charged to the Fund reflect the costs and risks of the additional obligations. In light of these facts, the directors did not place significant weight on these fee comparisons.

In evaluating the Adviser's proposal, the directors took into account the fact

Edgar Filing: ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND INC - Form N-CSR

that the Fund utilizes leverage and that as a result the Fund's assets that the Adviser invests and reinvests are materially greater than its net assets. However, the advisory fee is calculated based on the Fund's net assets. The directors noted that many leveraged funds pay advisory fees based on "adjusted net assets" which results in such funds paying advisory fees on the assets supported by leverage, and that if the advisory fee paid by the Fund was expressed as a percentage of its adjusted net assets the fee rate would be materially lower than the rate stated in the Advisory Agreement.

58 o ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND

The directors also considered the total expense ratio of the Fund in comparison to the fees and expenses of funds within two comparison groups created by Lipper: an Expense Group and an Expense Universe. Lipper described an Expense Group as a representative sample of comparable funds and an Expense Universe as a broader group, consisting of all funds in the Fund's investment classification/objective with a similar load type as the Fund. The directors noted that because of the small number of funds in the Fund's Lipper category, at the request of the Adviser and the Fund's Senior Officer, Lipper expanded the Expense Group and Expense Universe of the Fund to include funds that are allowed to utilize leverage but do not do so. The expense ratio of the Fund was based on the Fund's latest fiscal year expense ratio. The Lipper information included the pro forma expense ratio provided by the Adviser assuming the new lower contractual advisory and administration fees effective October 1, 2005 had been in effect throughout fiscal 2006. All references to expense ratios are to the pro forma expense ratio. The directors recognized that the expense ratio information for the Fund potentially reflected on the Adviser's provision of services, as the Adviser is responsible for coordinating services provided to the Fund by others. The directors noted that the expense ratios of some funds in the Fund's Lipper category also were lowered by waivers or reimbursements by those funds' investment advisers, which in some cases were voluntary and perhaps temporary.

The information reviewed by the directors showed that the Fund's latest fiscal period actual management fees of 91.1 basis points (the pro forma combined advisory and administration fees paid under the Advisory and Administration Agreements) were materially lower than the Expense Group and Expense Universe medians. The directors also noted that the Fund's pro forma total expense ratio (which, they noted, benefited from the Fund's relatively large size) was significantly lower than the Expense Group and Expense Universe medians. The directors concluded that the Fund's expense ratio was satisfactory.

Economies of Scale

The directors considered that the Fund is a closed-end Fund and that it was not expected to have meaningful asset growth as a result. In such circumstances, the directors did not view the potential for realization of economies of scale as the Fund's assets grow to be a material factor in their deliberations. The directors noted that if the Fund's net assets were to increase materially as a result of, e.g., an acquisition or rights offering, they would review whether potential economies of scale would be realized. In this regard the directors took account of the fact that it was proposed that the Fund's net assets be increased modestly by the acquisition of a much smaller fund, Alliance World Dollar Government Fund, Inc.

Privacy Notice

AllianceBernstein, the AllianceBernstein Family of Funds and AllianceBernstein Investments, Inc. (collectively, "AllianceBernstein" or "we") understand the importance of maintaining the confidentiality of our customers' nonpublic personal information. In order to provide financial products and services to our customers efficiently and accurately, we may collect nonpublic personal information about our customers from the following sources: (1) information we receive from account documentation, including applications or other forms (which may include information such as a customer's name, address, social security number, assets and income) and (2) information about our customers' transactions with us, our affiliates and others (including information such as a customer's account balances and account activity).

It is our policy not to disclose nonpublic personal information about our customers (or former customers) except to our affiliates, or to others as permitted or required by law. From time to time, AllianceBernstein may disclose nonpublic personal information that we collect about our customers (or former customers), as described above, to non-affiliated third party providers, including those that perform processing or servicing functions and those that provide marketing services for us or on our behalf pursuant to a joint marketing agreement that requires the third party provider to adhere to AllianceBernstein's privacy policy. We have policies and procedures to safeguard nonpublic personal information about our customers (or former customers) which include: (1) restricting access to such nonpublic personal information and (2) maintaining physical, electronic and procedural safeguards that comply with federal standards to safeguard such nonpublic personal information.

ITEM 2. CODE OF ETHICS.

(a) The registrant has adopted a code of ethics that applies to its principal

Edgar Filing: ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND INC - Form N-CSR

executive officer, principal financial officer and principal accounting officer. A copy of the registrant's code of ethics is filed herewith as Exhibit 12(a)(1).

(b) During the period covered by this report, no material amendments were made to the provisions of the code of ethics adopted in 2(a) above.

(c) During the period covered by this report, no implicit or explicit waivers to the provisions of the code of ethics adopted in 2(a) above were granted.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's Board of Directors has determined that independent directors David H. Dievler and William H. Foulk, Jr. qualify as audit committee financial experts.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

(a) - (c) The following table sets forth the aggregate fees billed by the independent registered public accounting firm Ernst & Young LLP, for the Fund's last two fiscal years for professional services rendered for: (i) the audit of the Fund's annual financial statements included in the Fund's annual report to stockholders; (ii) assurance and related services that are reasonably related to the performance of the audit of the Fund's financial statements and are not reported under (i), which include advice and education related to accounting and auditing issues and quarterly press release review (for those Funds that issue quarterly press releases), and preferred stock maintenance testing (for those Funds that issue preferred stock); and (iii) tax compliance, tax advice and tax return preparation.

	Audit Fees	Audit-Related Fees	Tax Fees
2006	56,000	4,960	8,800
2007	59,000	5,083	19,950

(d) Not applicable.

(e) (1) Beginning with audit and non-audit service contracts entered into on or after May 6, 2003, the Fund's Audit Committee policies and procedures require the pre-approval of all audit and non-audit services provided to the Fund by the Fund's independent registered public accounting firm. The Fund's Audit Committee policies and procedures also require pre-approval of all audit and non-audit services provided to the Adviser and Service Affiliates to the extent that these services are directly related to the operations or financial reporting of the Fund.

(e) (2) All of the amounts for Audit Fees, Audit-Related Fees and Tax Fees in the table under Item 4 (a) - (c) are for services pre-approved by the Fund's Audit Committee.

(f) Not applicable.

(g) The following table sets forth the aggregate non-audit services provided to the Fund, the Fund's Adviser and entities that control, are controlled by or under common control with the Adviser that provide ongoing services to the Fund, which include conducting an annual internal control report pursuant to Statement on Auditing Standards No. 70 ("Service Affiliates"):

Total Amount of

Edgar Filing: ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND INC - Form N-CSR

	All Fees for Non-Audit Services Provided to the Portfolio, the Adviser and Service Affiliates	Foregoing Column Pre-) approved by the Audit Committee (Portion Comprised of Audit Related Fees) (Portion Comprised of Tax Fees
2006	484,715	[13,760] (4,960) (8,800)
2007	1,007,078	[158,704] (138,754) (19,950)

(h) The Audit Committee of the Fund has considered whether the provision of any non-audit services not pre-approved by the Audit Committee provided by the Fund's independent registered public accounting firm to the Adviser and Service Affiliates is compatible with maintaining the auditor's independence.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant has a separately-designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The audit committee members are as follows:

David H. Dievler	Nancy P. Jacklin
John H. Dobkin	D. James Guzy
Michael J. Downey	Marshall C. Turner, Jr.
William H. Foulk, Jr.	Earl D. Weiner

ITEM 6. SCHEDULE OF INVESTMENTS.

Please see Schedule of Investments contained in the Report to Shareholders included under Item 1 of this Form N-CSR.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Statement of Policies and Procedures for
Proxy Voting

October 2006

1. Introduction

As a registered investment adviser, AllianceBernstein L.P. ("AllianceBernstein", "we" or "us") has a fiduciary duty to act solely in the best interests of our clients. We recognize that this duty requires us to vote client securities in a timely manner and make voting decisions that are in the best interests of our clients. Consistent with these obligations, we will disclose our clients' voting records only to them and as required by mutual fund vote disclosure regulations. In addition, the proxy committees may, after careful consideration, choose to respond to surveys regarding past votes.

This statement is intended to comply with Rule 206(4)-6 of the Investment Advisers Act of 1940. It sets forth our policies and procedures for voting proxies for our discretionary investment advisory clients, including investment companies registered under the Investment Company Act of 1940. This statement applies to AllianceBernstein's growth, value and blend investment groups investing on behalf of clients in both US and non-US securities.

2. Proxy Policies

This statement is designed to be responsive to the wide range of proxy voting subjects that can have a significant effect on the investment value of the securities held in our clients' accounts. These policies are not exhaustive due to the variety of proxy voting issues that we may be required to consider. AllianceBernstein reserves the right to depart from these guidelines in order to avoid voting decisions that we believe may be contrary to our clients' best interests. In reviewing proxy issues, we will apply the following general policies:

2.1 Corporate Governance

AllianceBernstein's proxy voting policies recognize the importance of good corporate governance in ensuring that management and the board of directors fulfill their obligations to the shareholders. We favor proposals promoting transparency and accountability within a company. We will vote for proposals providing for equal access to the proxy materials so that shareholders can express their views on various proxy issues. We also support the appointment of a majority of independent directors on key committees and separating the positions of chairman and chief executive officer. Finally, because we believe that good corporate governance requires shareholders to have a meaningful voice in the affairs of the company, we will support shareholder proposals that request that companies amend their by-laws to provide that director nominees be elected by an affirmative vote of a majority of the votes cast.

2.2 Elections of Directors

Unless there is a proxy fight for seats on the Board or we determine that there are other compelling reasons for withholding votes for directors, we will vote in favor of the management proposed slate of directors. That said, we believe that directors have a duty to respond to shareholder actions that have received significant shareholder support. We may withhold votes for directors (or vote against in non-US markets) that fail to act on key issues such as failure to implement proposals to declassify boards, failure to implement a majority vote requirement, failure to submit a rights plan to a shareholder vote or failure to act on tender offers where a majority of shareholders have tendered their shares. In addition, we will withhold votes for directors who fail to attend at least seventy-five percent of board meetings within a given year without a reasonable excuse. Finally, we may abstain or vote against directors of non-U.S. issuers where there is insufficient information about the nominees disclosed in the proxy statement.

2.3 Appointment of Auditors

AllianceBernstein believes that the company remains in the best position to choose the auditors and will generally support management's recommendation. However, we recognize that there may be inherent conflicts when a company's independent auditor performs substantial non-audit related services for the company. The Sarbanes-Oxley Act of 2002 prohibited certain categories of services by auditors to US issuers, making this issue less prevalent in the US. Nevertheless, in reviewing a proposed auditor, we will consider the fees paid for non-audit services relative to total fees as well as if there are other reasons to question the independence of the auditors.

2.4 Changes in Legal and Capital Structure

Changes in a company's charter, articles of incorporation or by-laws are often technical and administrative in nature. Absent a compelling reason to the contrary, AllianceBernstein will cast its votes in accordance with the company's management on such proposals. However, we will review and analyze on a case-by-case basis any non-routine proposals that are likely to affect the

structure and operation of the company or have a material economic effect on the company. For example, we will generally support proposals to increase authorized common stock when it is necessary to implement a stock split, aid in a restructuring or acquisition or provide a sufficient number of shares for an employee savings plan, stock option or executive compensation plan. However, a satisfactory explanation of a company's intentions must be disclosed in the proxy statement for proposals requesting an increase of greater than one hundred percent of the shares outstanding. We will oppose increases in authorized common stock where there is evidence that the shares will be used to implement a poison pill or another form of anti-takeover device. We will support shareholder proposals that seek to eliminate dual class voting structures.

2.5 Corporate Restructurings, Mergers and Acquisitions

AllianceBernstein believes proxy votes dealing with corporate reorganizations are an extension of the investment decision. Accordingly, we will analyze such proposals on a case-by-case basis, weighing heavily the views of our research analysts that cover the company and our investment professionals managing the portfolios in which the stock is held.

2.6 Proposals Affecting Shareholder Rights

AllianceBernstein believes that certain fundamental rights of shareholders must be protected. We will generally vote in favor of proposals that give shareholders a greater voice in the affairs of the company and oppose any measure that seeks to limit those rights. However, when analyzing such proposals we will weigh the financial impact of the proposal against the impairment of shareholder rights.

2.7 Anti-Takeover Measures

AllianceBernstein believes that measures that impede corporate transactions such as takeovers or entrench management not only infringe on the rights of shareholders but may also have a detrimental effect on the value of the company. We will generally oppose proposals, regardless of whether they are advanced by management or shareholders, the purpose or effect of which is to entrench management or excessively or inappropriately dilute shareholder ownership. Conversely, we support proposals that would restrict or otherwise eliminate anti-takeover or anti-shareholder measures that have already been adopted by corporate issuers. For example, we will support shareholder proposals that seek to require the company to submit a shareholder rights plan to a shareholder vote. We will evaluate, on a case-by-case basis, proposals to completely redeem or eliminate such plans. Furthermore, we will generally oppose proposals put forward by management (including the authorization of blank check preferred stock, classified boards and supermajority vote requirements) that appear to be anti-shareholder or intended as management entrenchment mechanisms.

2.8 Executive Compensation

AllianceBernstein believes that company management and the compensation committee of the board of directors should, within reason, be given latitude to determine the types and mix of compensation and benefit awards offered to company employees. Whether proposed by a shareholder or management, we will review proposals relating to executive compensation plans on a case-by-case basis to ensure that the long-term interests of management and shareholders are properly aligned. In general, we will analyze the proposed plan to ensure that shareholder equity will not be excessively diluted taking into account shares available for grant under the proposed plan as well as other existing plans. We generally will oppose plans that have below market value grant or exercise prices on the date of issuance or permit repricing of underwater stock options

without shareholder approval. Other factors such as the company's performance and industry practice will generally be factored into our analysis. We generally will support shareholder proposals seeking additional disclosure of executive and director compensation. This policy includes proposals that seek to specify the measurement of performance based compensation. In addition, we will support proposals requiring managements to submit severance packages that exceed 2.99 times the sum of an executive officer's base salary plus bonus that are triggered by a change in control to a shareholder vote. Finally, we will support shareholder proposals requiring companies to expense stock options because we view them as a large corporate expense that should be appropriately accounted for.

2.9 Social and Corporate Responsibility

AllianceBernstein will review and analyze on a case-by-case basis proposals relating to social, political and environmental issues to determine whether they will have a financial impact on shareholder value. We will vote against proposals that are unduly burdensome or result in unnecessary and excessive costs to the company. We may abstain from voting on social proposals that do not have a readily determinable financial impact on shareholder value.

3. Proxy Voting Procedures

3.1 Proxy Voting Committees

Our growth and value investment groups have formed separate proxy voting committees to establish general proxy policies for AllianceBernstein and consider specific proxy voting matters as necessary. These committees periodically review these policies and new types of corporate governance issues, and decide how we should vote on proposals not covered by these policies. When a proxy vote cannot be clearly decided by an application of our stated policy, the proxy committee will evaluate the proposal. In addition, the committees, in conjunction with the analyst that covers the company, may contact corporate management and interested shareholder groups and others as necessary to discuss proxy issues. Members of the committee include senior investment personnel and representatives of the Legal and Compliance Department. The committees may also evaluate proxies where we face a potential conflict of interest (as discussed below). Finally, the committees monitor adherence to these policies.

3.2 Conflicts of Interest

AllianceBernstein recognizes that there may be a potential conflict of interest when we vote a proxy solicited by an issuer whose retirement plan we manage, or we administer, who distributes AllianceBernstein sponsored mutual funds, or with whom we or an employee has another business or personal relationship that may affect how we vote on the issuer's proxy. Similarly, AllianceBernstein may have a potential material conflict of interest when deciding how to vote on a proposal sponsored or supported by a shareholder group that is a client. We believe that centralized management of proxy voting, oversight by the proxy voting committees and adherence to these policies ensures that proxies are voted with only our clients' best interests in mind. Additionally, we have implemented procedures to ensure that our votes are not the product of a material conflict of interests, including: (i) on an annual basis, the proxy committees will take reasonable steps to evaluate the nature of AllianceBernstein's and our employees' material business and personal relationships (and those of our affiliates) with any company whose equity securities are held in client accounts and any client that has sponsored or has material interest in a proposal upon which we will be eligible to vote; (ii) requiring anyone involved in the decision making process to disclose to the chairman of the appropriate proxy committee any potential conflict that they are aware of (including personal relationships) and any contact that they have

had with any interested party regarding a proxy vote; (iii) prohibiting employees involved in the decision making process or vote administration from revealing how we intend to vote on a proposal in order to reduce any attempted influence from interested parties; and (iv) where a material conflict of interests exists, reviewing our proposed vote by applying a series of objective tests and, where necessary, considering the views of third party research services to ensure that our voting decision is consistent with our clients' best interests.

Because under certain circumstances AllianceBernstein considers the recommendation of third party research services, the proxy committees will take reasonable steps to verify that any third party research service is in fact independent based on all of the relevant facts and circumstances. This includes reviewing the third party research service's conflict management procedures and ascertaining, among other things, whether the third party research service (i) has the capacity and competency to adequately analyze proxy issues; and (ii) can make such recommendations in an impartial manner and in the best interests of our clients.

3.3 Proxies of Certain Non-US Issuers

Proxy voting in certain countries requires "share blocking." Shareholders wishing to vote their proxies must deposit their shares shortly before the date of the meeting with a designated depository. During this blocking period, shares that will be voted at the meeting cannot be sold until the meeting has taken place and the shares are returned to the clients' custodian banks. Absent compelling reasons to the contrary, AllianceBernstein believes that the benefit to the client of exercising the vote does not outweigh the cost of voting (i.e. not being able to sell the shares during this period). Accordingly, if share blocking is required we generally abstain from voting those shares.

In addition, voting proxies of issuers in non-US markets may give rise to a number of administrative issues that may prevent AllianceBernstein from voting such proxies. For example, AllianceBernstein may receive meeting notices without enough time to fully consider the proxy or after the cut-off date for voting. Other markets require AllianceBernstein to provide local agents with power of attorney prior to implementing AllianceBernstein's voting instructions. Although it is AllianceBernstein's policy to seek to vote all proxies for securities held in client accounts for which we have proxy voting authority, in the case of non-US issuers, we vote proxies on a best efforts basis.

3.4 Loaned Securities

Many clients of AllianceBernstein have entered into securities lending arrangements with agent lenders to generate additional revenue. AllianceBernstein will not be able to vote securities that are on loan under these types of arrangements. However, under rare circumstances, for voting issues that may have a significant impact on the investment, we may request that clients recall securities that are on loan if we determine that the benefit of voting outweighs the costs and lost revenue to the client or fund and the administrative burden of retrieving the securities.

3.5 Proxy Voting Records

You may obtain information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30, without charge. Simply visit AllianceBernstein's web site at www.alliancebernstein.com, go to the Securities and Exchange Commission's web site at www.sec.gov or call AllianceBernstein at (800) 227-4618.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

(a) (1) The management of and investment decisions for the Fund's portfolio are made by the Global Fixed Income: Emerging Markets Investment Team.

The following table lists the five members of the team with the most significant responsibility for the day-to-day management of the Fund's portfolio, the length of time that each person has been involved in the management of the Fund, and each person's principal occupation during the past five years:

Employee; Year; Title	Principal Occupation During the Past Five (5) Years
Paul DeNoon; principally responsible for the Fund since August 2002-Senior Vice President of AllianceBernstein L.P. ("AB") and Director of Emerging Market Debt	Senior Vice President of AB with which he has been associated in a substantially similar capacity to his current position since prior to 2002, and Director of Emerging Market Debt.
Fernando Grisales; since January 2005-Assistant Vice President of AB	Assistant Vice President of AB, with which he has been associated since October 2001. He provided trade support to Alliance's Bernstein Private Wealth Group from prior to 2002 until June 2003. From June 2003 until January 2005, he worked as a portfolio assistant for the Global Fixed Income Team and became an Assistant Portfolio Manager for the Global Fixed Income: Emerging Markets Investment Team in January 2005.
Michael L. Mon; since August 2002-Vice President of AB	Vice President of AB with which he has been associated in a substantially similar capacity to his current position since prior to 2002
Douglas J. Peebles; since August 2002-Executive Vice President of AB, Chief Investment Officer and Co-Head of Fixed Income	Executive Vice President of AB, with which he has been associated in a substantially similar capacity to his current position since prior to 2002, and Chief Investment Officer and Co-Head of Fixed Income.
Matthew Sheridan; since October 2005-Vice President of AB	Vice President of AB, with which he has been associated in a substantially similar capacity to his current position since prior to 2002

(a) (2) The following tables provide information regarding registered investment companies other than the Fund, other pooled investment vehicles and other accounts over which the Fund's portfolio managers also have day-to-day management responsibilities. The tables provide the numbers of such accounts, the total assets in such accounts and the number of accounts and total assets whose fees are based on performance. The information is provided as of the Fund's fiscal year ended March 31, 2007.

Investment Professional Conflict of Interest Disclosure

As an investment adviser and fiduciary, Alliance owes its clients and shareholders an undivided duty of loyalty. We recognize that conflicts of interest are inherent in our business and accordingly have developed policies and procedures (including oversight monitoring) reasonably designed to detect, manage and mitigate the effects of actual or potential conflicts of interest in the area of employee personal trading, managing multiple accounts for multiple clients, including AllianceBernstein Mutual Funds, and allocating investment opportunities. Investment professionals, including portfolio managers and research analysts, are subject to the above-mentioned policies and oversight monitoring to ensure that all clients are treated equitably. We place the interests of our clients first and expect all of our employees to meet their fiduciary duties.

Employee Personal Trading. Alliance has adopted a Code of Business Conduct and Ethics that is designed to detect and prevent conflicts of interest when

investment professionals and other personnel of Alliance own, buy or sell securities which may be owned by, or bought or sold for, clients. Personal securities transactions by an employee may raise a potential conflict of interest when an employee owns or trades in a security that is owned or considered for purchase or sale by a client, or recommended for purchase or sale by an employee to a client. Subject to the reporting requirements and other limitations of its Code of Business Conduct and Ethics, Alliance permits its employees to engage in personal securities transactions, and also allows them to acquire investments in the AllianceBernstein Mutual Funds through direct purchase, 401K/profit sharing plan investment and/or notionally in connection with deferred incentive compensation awards. Alliance's Code of Ethics and Business Conduct requires disclosure of all personal accounts and maintenance of brokerage accounts with designated broker-dealers approved by Alliance. The Code also requires preclearance of all securities transactions and imposes a one-year holding period for securities purchased by employees to discourage short-term trading.

Managing Multiple Accounts for Multiple Clients. Alliance has compliance policies and oversight monitoring in place to address conflicts of interest relating to the management of multiple accounts for multiple clients. Conflicts of interest may arise when an investment professional has responsibilities for the investments of more than one account because the investment professional may be unable to devote equal time and attention to each account. The investment professional or investment professional teams for each client may have responsibilities for managing all or a portion of the investments of multiple accounts with a common investment strategy, including other registered investment companies, unregistered investment vehicles, such as hedge funds, pension plans, separate accounts, collective trusts and charitable foundations. Among other things, Alliance's policies and procedures provide for the prompt dissemination to investment professionals of initial or changed investment recommendations by analysts so that investment professionals are better able to develop investment strategies for all accounts they manage. In addition, investment decisions by investment professionals are reviewed for the purpose of maintaining uniformity among similar accounts and ensuring that accounts are treated equitably. No investment professional that manages client accounts carrying performance fees is compensated directly or specifically for the performance of those accounts. Investment professional compensation reflects a broad contribution in multiple dimensions to long-term investment success for our clients and is not tied specifically to the performance of any particular client's account, nor is it directly tied to the level or change in level of assets under management.

Allocating Investment Opportunities. Alliance has policies and procedures intended to address conflicts of interest relating to the allocation of investment opportunities. These policies and procedures are designed to ensure that information relevant to investment decisions is disseminated promptly within its portfolio management teams and investment opportunities are allocated equitably among different clients. The investment professionals at Alliance routinely are required to select and allocate investment opportunities among accounts. Portfolio holdings, position sizes, and industry and sector exposures tend to be similar across similar accounts, which minimizes the potential for conflicts of interest relating to the allocation of investment opportunities. Nevertheless, investment opportunities may be allocated differently among accounts due to the particular characteristics of an account, such as size of the account, cash position, tax status, risk tolerance and investment restrictions or for other reasons.

Alliance's procedures are also designed to prevent potential conflicts of interest that may arise when Alliance has a particular financial incentive, such as a performance-based management fee, relating to an account. An investment professional may perceive that he or she has an incentive to devote more time to developing and analyzing investment strategies and opportunities

or allocating securities preferentially to accounts for which Alliance could share in investment gains.

To address these conflicts of interest, Alliance's policies and procedures require, among other things, the prompt dissemination to investment professionals of any initial or changed investment recommendations by analysts; the aggregation of orders to facilitate best execution for all accounts; price averaging for all aggregated orders; objective allocation for limited investment opportunities (e.g., on a rotational basis) to ensure fair and equitable allocation among accounts; and limitations on short sales of securities. These procedures also require documentation and review of justifications for any decisions to make investments only for select accounts or in a manner disproportionate to the size of the account.

(a) (3) Portfolio Manager Compensation

Alliance's compensation program for investment professionals is designed to be competitive and effective in order to attract and retain the highest caliber employees. The compensation program for investment professionals is designed to reflect their ability to generate long-term investment success for our clients, including shareholders of the AllianceBernstein Mutual Funds. Investment professionals do not receive any direct compensation based upon the investment returns of any individual client account, nor is compensation tied directly to the level or change in level of assets under management. Investment professionals' annual compensation is comprised of the following:

(i) Fixed base salary: This is generally the smallest portion of compensation. The base salary is a relatively low, fixed salary within a similar range for all investment professionals. The base salary is determined at the outset of employment based on level of experience, does not change significantly from year-to-year and hence, is not particularly sensitive to performance.

(ii) Discretionary incentive compensation in the form of an annual cash bonus: Alliance's overall profitability determines the total amount of incentive compensation available to investment professionals. This portion of compensation is determined subjectively based on qualitative and quantitative factors. In evaluating this component of an investment professional's compensation, Alliance considers the contribution to his/her team or discipline as it relates to that team's overall contribution to the long-term investment success, business results and strategy of Alliance. Quantitative factors considered include, among other things, relative investment performance (e.g., by comparison to competitor or peer group funds or similar styles of investments, and appropriate, broad-based or specific market indices), and consistency of performance. There are no specific formulas used to determine this part of an investment professional's compensation and the compensation is not tied to any pre-determined or specified level of performance. Alliance also considers qualitative factors such as the complexity and risk of investment strategies involved in the style or type of assets managed by the investment professional; success of marketing/business development efforts and client servicing; seniority/length of service with the firm; management and supervisory responsibilities; and fulfillment of Alliance's leadership criteria.

(iii) Discretionary incentive compensation in the form of awards under Alliance's Partners Compensation Plan ("deferred awards"): Alliance's overall profitability determines the total amount of deferred awards available to investment professionals. The deferred awards are allocated among investment professionals based on criteria similar to those used to determine the annual cash bonus. There is no fixed formula for determining these amounts. Deferred awards, for which there are various investment options, vest over a four-year period and are generally forfeited if the employee resigns or Alliance terminates his/her employment. Investment options under the deferred awards plan include many of the same AllianceBernstein Mutual Funds offered to mutual

Edgar Filing: ALLIANCEBERNSTEIN GLOBAL HIGH INCOME FUND INC - Form N-CSR

fund investors, thereby creating a close alignment between the financial interests of the investment professionals and those of Alliance's clients and mutual fund shareholders with respect to the performance of those mutual funds. Alliance also permits deferred award recipients to allocate up to 50% of their award to investments in Alliance's publicly traded equity securities.(1)

(iv) Contributions under Alliance's Profit Sharing/401(k) Plan: The contributions are based on Alliance's overall profitability. The amount and allocation of the contributions are determined at the sole discretion of Alliance.

(a) (4) The dollar range of the Fund's equity securities owned directly or beneficially by the Fund's portfolio managers as of the Fund's fiscal year ended March 31, 2007 is set forth below:

	DOLLAR RANGE OF EQUITY SECURITIES IN THE FUND
Paul DeNoon	0 - \$10,000
Fernando Grisales	None
Michael Mon	None
Douglas Peebles	None
Matthew Sheridan	None

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

There have been no purchases of equity securities by the Fund or by affiliated parties for the reporting period.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the Fund's Board of Directors since the Fund last provided disclosure in response to this item.

ITEM 11. CONTROLS AND PROCEDURES.

(a) The registrant's principal executive officer and principal financial officer have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-2(c) under the Investment Company Act of 1940, as amended) are effective at the reasonable assurance level based on their evaluation of these controls and procedures as of a date within 90 days of the filing date of this document.

(b) There were no changes in the registrant's internal controls over financial reporting that occurred during the second fiscal quarter of the period that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.
