#### CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Our disclosure and analysis in this Current Report on Form 8-K contains some forward-looking statements. Certain of the matters discussed concerning our operations, cash flows, financial position, economic performance and financial condition, and the effect of economic conditions include forward-looking statements.

Statements that are predictive in nature, that depend upon or refer to future events or conditions or that include words such as "expects," "anticipates," "intends," "plans," "believes," "estimates" and similar expressions are forward-looking statements. Although we believe that these statements are based upon reasonable assumptions, including projections of orders, sales, operating margins, earnings, cash flow, research and development costs, working capital, capital expenditures and other projections, they are subject to several risks and uncertainties.

Investors are cautioned that our forward-looking statements are not guarantees of future performance and the actual results or developments may differ materially from the expectations expressed in the forward-looking statements.

As for the forward-looking statements that relate to future financial results and other projections, actual results will be different due to the inherent uncertainty of estimates, forecasts and projections may be better or worse than projected. Given these uncertainties, you should not place any reliance on these forward-looking statements. These forward-looking statements also represent our estimates and assumptions only as of the date that they were made. We expressly disclaim a duty to provide updates to these forward-looking statements, and the estimates and assumptions associated with them, after the date of this filing to reflect events or changes in circumstances or changes in expectations or the occurrence of anticipated events. You are advised, however, to consult any additional disclosures we make in our reports on Form 10-K, Form 10-Q, Form 8-K, or their successors.

Item 4.02. Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.

The Board of Directors, in reviewing the annual report on Form 10-K for the year ended September 30, 2012, determined that the 10-K financial statements for September 30, 2012 should not be relied upon and have authorized the filing of a Form 10-K/A as soon as possible for the year ended September 30, 2012 for the following reason:

Our independent registered public accounting firm, L.L. Bradford & Company, LLC informed us that they had not issued the Report of Independent Registered Public Accounting Firm published in the annual report on Form 10-K for the year ended September 30, 2012. Consequently, the Board of Directors determined to file a restated audit opinion for fiscal year ended September 30, 2012 to be performed by L.L. Bradford & Company, LLC. This 10-K filing for the year ended September 30, 2012 was filed on February 14, 2013.

In addition, the Board of Directors determined to file all other reports required pursuant to the Securities Exchange Act of 1934, as amended, to bring our company current with its public company reporting obligations.

As a consequence, in part, of the filing of the annual report on Form 10-K for the year ended September 30, 2012, our current Chief Executive Officer has concluded that our disclosure controls and procedures continue to not be effective due to possible material weakness in our internal controls over financial reporting described above and other factors related to the Company's financial reporting processes. We are in the process of evaluating the internal controls and procedures to ensure that the internal controls and procedures satisfy the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control — Integrated Framework. The Company and its independent registered public accounting firm identified certain significant internal control deficiencies that we considered to be, in the aggregate, a material weakness relative to our financial reporting procedures. The primary concern was the filing of our Form 10K without approval from our prior independent auditors and the other factors described in that annual report on Form 10-K for the year ended September 30, 2012.
