If the subject report could not be filed without unreasonable effort or expense and the registrant seeks relief pursuant to Rule 12b-25(b), the following should be completed. (Check box if appropriate)

**PART III — NARRATIVE**

State below in reasonable detail the reasons why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

The Registrant filed a Form 12b-25 (the "Original Form 12b-25") disclosing that we were unable, without unreasonable effort or expense, able to file our Annual Report on Form 10-K for the fiscal year ended June 30, 2013 by September 30, 2013 and that the registrant anticipates that it will file its Form 10-K within the "grace" period provided by Securities Exchange Act Rule 12b-25. The Registrant also noted in Part IV(3) of the Original Form 12b-25 that we anticipated no significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof. We are hereby amending the Original Form 12b-25 to change the response to Part IV(3) below.

**Forward-Looking Statements**

This Amendment to the Original Form 12b-25 contains various "forward-looking statements" within the meaning of Section 21E of the Securities Exchange Act of 1934 that are based on management's beliefs and assumptions, as well

as information currently available to management. Statements other than those of historical fact, as well as those identified by the use of words such as “intends,” “anticipates,” “estimate,” “plan,” “expect,” “believe,” “may,” “will,” “should,” variations of the foregoing and similar expressions, are forward-looking statements. Although we believe that the expectations reflected in any such forward-looking statements are reasonable, we can give no assurance that such expectations will prove to be correct. Any such statements are subject to certain risks, uncertainties and assumptions. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, our actual financial results, performance, financial condition or stock price may vary materially from those anticipated, estimated, expected or implied by any forward-looking statements. Among the key factors that could cause our actual financial results, performance, condition or stock price to differ from the expectations expressed or implied in such forward-looking statements are the following: recently enacted, proposed or future legislation and the manner in which it is implemented; the nature and scope of regulatory authority, particularly discretionary authority, that may be exercised by regulators having jurisdiction over the Company's business or consumer financial transactions generically; the impact of changes in accounting rules and regulations, or their interpretation or application, or determinations made in connection with the preparation or audit of the Company's financial statements, which could materially and adversely affect the Company's reported financial statements; or necessitate material delays or changes in the issuance of the Company's audited financial statements; the Company's assessment of its internal control over financial reporting and the possibility that such assessment could lead the Company to report one or more material weaknesses in its internal control over financial reporting; changes in interest rates; risks relating to expansion and foreign operations; risks inherent in making loans, including repayment risks and value of collateral; the timing and amount of revenues that may be recognized by the Company; changes in current revenue and expense trends (including trends affecting delinquency and charge-offs); changes in the Company's markets and general changes in the economy (particularly in the markets served by the Company); and the unpredictable nature of litigation. The Company does not undertake any obligation to update any forward-looking statements it may make.

Have all other periodic reports required under Section 13 or 15(d) of the Securities Exchange Act of 1934 or Section 30 of the Investment Company Act of 1940 during the preceding 12 months or for such shorter period that the registrant was required to file such report(s) been filed? If answer is no, identify report(s).

Yes  No

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes  No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

Current assets declined by approximately \$59 million, or 51%, year-on-year, to approximately \$56 million as of June 30, 2013. In addition, net loss increased by approximately \$52 million, to approximately \$69 million for the year ended June 30, 2013, compared to approximately \$17 million for the year ended June 30, 2012. The increase in net loss is attributable to a combination of the factors to be discussed in the Form 10-K, but was principally due to a material decline in sales revenues, a negative gross profit margin, and a substantial allowance for bad and doubtful debts.
