**Notes to Consolidated Financial Statements**

**For the three and six months ended June 30, 2012**

**(Unaudited)**

**Note 1- Company Information**

ANV Security Group, Inc. (the "Company") is a Nevada company and was incorporated on December 18, 2006 in Vancouver, BC, Canada. The Company's headquarter is in Shenzhen, China.

On June 28, 2009, the Company entered into an agreement and plan of reorganization (the "agreement") by and among Dini Products, Inc. ("DINP"), a Nevada corporation, where each common share of DINP was exchanged on a share-for-share basis for the Company's shares such that after the exchange, DINP has 33,190,071 common shares issued and outstanding, inclusive of 29,860,000 shares issued to the Company's stockholders. Upon the execution of the agreement, the Company changed its name to ANV Security Group, Inc.

The Company specializes in network video surveillance and video alarm service, and conducts new products research & development, software solution and technologies on its current platforms. The Company plans to become a fully integrated developer, designer, manufacturer, marketer, installer and servicer of web-based security systems for residential, commercial and government customers operating in the People's Republic of China.

On February 10, 2011, the Company changed its fiscal year-end from March 31 to December 31 in order to be aligned with the fiscal years of its principal operating subsidiaries in China.

On May 31, 2012, ANV Security Group, Inc. (the "Company") entered into an Equity and Intellectual Property Rights Transfer Agreement (the "EIPRTA") to dispose of all of the shares and related intellectual property of its subsidiary ANV Security Technology (China) Co., Ltd. ("ANV Tech"), by transferring the same to a company owned by its former owner and director. At the same time, the Company sold 100% equity interest in ANV Tech's four subsidiaries back to former owners of these subsidiaries.

**Note 2- Summary of Significant Accounting Policies**

**a) Basis of Presentation**

These consolidated financial statements are those of the Company and its subsidiaries. All significant intercompany transactions have been eliminated. These financial statements and related notes are presented in accordance with the accounting principles generally accepted in the United States and are expressed in US dollars.

**b) Principles of Consolidation**

The consolidated financial statements include the accounts of the Company and all of its subsidiaries (all subsidiaries are 100% owned by the Company): ANV Security Group (Asia) Co., Ltd., ANV Video Alarm Service Inc. and Shenzhen Intelligent Eye Technology Co., Ltd. The Company consolidates its subsidiaries in which it has over 50% controlling interests. All significant intercompany accounts, transactions and cash flows have been eliminated on consolidation.

**c) Use of Estimates**

In preparing the Company's consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting periods. Significant estimates made by management include: provision for product returns, allowance for doubtful accounts, inventory provision, useful lives of amortizable intangible assets, and provisions for income taxes and realizability of deferred tax assets. On an ongoing basis, management reviews its estimates to ensure that these estimates appropriately reflect changes in the Company's business and new information as it becomes available. If historical experience and other factors used by management to make these estimates do not reasonably reflect future activity, the Company's consolidated financial statements could be materially impacted.

**d) Reclassification**

Certain account reclassifications have been made to the financial statements of the prior year in order to conform to classifications used in the current year. These changes have no impact on previously stated financial statements of the Company.

**e) Comprehensive Income (Loss)**

In accordance with ASC 220-10-55, comprehensive income is defined to include all changes in equity except those resulting from investments by owners and distributions to owners. The Company's components of comprehensive income for the three months ended June 30, 2012 and 2011 were net loss and the foreign currency translation adjustment.

**f) Cash and Cash Equivalents**

Cash equivalents consist of highly liquid investments that are readily convertible to cash with maturities of three months or less when purchased.

**g) Accounts Receivable**

The Company extends unsecured credit to its customers in the ordinary course of business but mitigates the associated risks by performing credit checks and actively pursuing past due accounts. An allowance for doubtful accounts is established and recorded based on management's assessment of the credit history with the customer and current relationships with them.

**h) Inventories**

Inventories are stated at the lower of cost or replacement cost with respect to raw materials and the lower of cost and net realizable value with respect to finished goods and work in progress. Cost of work in progress and finished goods

is generally determined on weighted average cost basis and includes direct material, direct labour and overhead. Net realizable value represents the anticipated selling price less estimated costs of completion and distribution.

**i) GST Receivable**

GST receivable represents tax credit that the Canadian subsidiary receives when the subsidiary pays GST tax for its normal operations. As of June 30, 2012, the Company had a GST tax receivable of nil.

**j) Prepayment and Deposits**

Prepayment and deposits represent cash paid in advance for purchasing of inventory items from suppliers and the amounts as of June 30, 2012 and December 31, 2011 were \$5,304 and \$1,399,787 respectively.

**k) Property, Plant and Equipment**

Property, plant and equipment are recorded at cost. Significant additions and improvements are capitalized, while repairs and maintenance are charged to expenses as incurred. Equipment purchased for specific research and development projects with no alternative uses are expensed. Assets under construction are not depreciated until construction is completed and the assets are ready for their intended use. Gains and losses from the disposal of property, plant and equipment are included in operating income (loss).

Depreciation of property, plant and equipment generally is computed using the straight-line method based on the estimated useful lives of the assets as follows:

Production equipment	5-10 years
Electronic equipment	3-5 years
Vehicle	5-10 years
Leasehold improvement	3-5 years

**l) Impairment of Long-Lived Assets**

Long-lived assets including intangible assets subject to amortization are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value of the asset may not be recoverable from the future undiscounted net cash flows expected to be generated by the asset. If the asset is not fully recoverable, an impairment loss would be recognized for the difference between the carrying value of the asset and its estimated fair value based on discounted net future cash flows. There were no impairment adjustments to the carrying value of the long-lived assets for the six months ended June 30, 2012 and the year ended December 31, 2011.

**m) Software Development Costs**

The Company accounts for software development costs in accordance with ASC 985-20, Accounting for the Costs of Computer Software to be Sold, Leased, or Otherwise Marketed . Costs related to establishing the technological feasibility of a software product are expensed as incurred as a part of research and development in general and administrative expenses. Costs that are incurred to produce the finished product after technological feasibility is established are capitalized and amortized over the estimated economic life of 5 years. The Company performs periodic reviews to ensure that unamortized program costs remain recoverable from future revenue.

**n) Financial Instruments and Concentration of Credit Risks**

### **Fair Value of Financial Instruments**

Assets and liabilities subject to fair value measurements are required to be disclosed within a specified fair value hierarchy. The fair value hierarchy ranks the quality and reliability of inputs, or assumptions, used in the determination of fair value and requires assets and liabilities carried at fair value to be classified and disclosed in one of the following categories based on the lowest level input used that is significant to a particular fair value measurement:

Level 1 Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities in active markets, or quoted prices for identical or similar assets and liabilities in markets that are not active.

Level 3 Unobservable inputs for the asset or liability.

As of June 30, 2012 and December 31, 2011, the Company did not have any Level 2 and 3 financial assets. As of June 30, 2012 and December 31, 2011, the Company did not have financial liabilities measured at fair value on a recurring basis.

The fair values of financial instruments are estimated at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

The carrying values of cash and cash equivalents, restricted cash, short-term investments, accounts receivable, short-term loans payable, accounts payable and accrued liabilities, and due from related parties approximate their fair value because of their short term nature. The fair values of loans payable and long-term payable for acquisition of assets are based on the estimated discounted value of future contractual cash flows. The discount rate is estimated using the rates currently offered for debt with similar remaining maturities.

### **Exchange Rate Risks**

The Company operates in China, which may give rise to significant foreign currency risks from fluctuations and the degree of volatility of foreign exchange rates between US dollars and the Chinese RMB.

### **Concentration of Credit Risks**

Financial instruments that potentially subject the Company to concentration of credit risks consist primarily of cash and cash equivalents, accounts receivable, and short-term investments, the balances of which are stated on the consolidated balance sheets which represents the Company's maximum exposure. The Company places its cash and cash equivalents in high credit quality financial institutions. Concentration of credit risks with respect to accounts receivables is linked to the concentration of revenue. To manage credit risk, the Company performs ongoing credit evaluations of customers' financial condition. The Company does not require collateral or other security to support financial instruments subject to credit risks.

### **o) Revenue Recognition**

The Company recognizes revenue in accordance with ASC 605, which requires that revenue be recognized when it is earned and either realized or realizable. In general, the Company generates revenue from the sales of surveillance and safety products and systems and revenue is recognized when the following criteria are met:

(i) Persuasive evidence of an arrangement exists The Company requires evidence of an agreement with a customer specifying the terms and conditions of the products to be delivered typically in the form of a signed contract or purchase order;

(ii) Delivery has occurred For product sales, delivery generally takes place when title to the product is transferred, which generally take place when products are shipped to or accepted by the customer, depending on the terms of the contract;

(iii) The fee is fixed or determinable Fees are fixed or determinable based on the contract or purchase order terms; and

(iv) Collection is probable The Company performs a credit review of all customers with significant transactions to determine whether a customer is creditworthy and collection is probable.

**p) Income Taxes**

The Company recognizes deferred tax liabilities and assets for the expected future tax consequences of events that have been recognized in the Company's financial statements or tax returns using the liability method. Under this method, deferred tax liabilities and assets are determined based on the temporary differences between the financial statements and tax bases of assets and liabilities using enacted tax rates in effect in the years in which the differences are expected to reverse. A valuation allowance is provided for the portion of deferred tax assets that is more likely than not to remain unrealized. Deferred tax assets and liabilities are measured using enacted tax rates and laws.

The Company adopted the guidance issued by the Financial Accounting Standards Board ( FASB ) Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109 ( FIN 48 ), codified in the FASB Accounting Standards Codification ( ASC ) 740, Income Taxes. ASC 740 prescribes a more-likely than-not threshold for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. ASC 740 also provides guidance on the recognition and de-recognition of income tax assets and liabilities; classification of current and deferred income tax assets and liabilities accounting for interest and penalties associated with tax positions; accounting for income taxes in interim periods and income tax disclosures.

The tax benefit from an uncertain tax position is recognized only if it is more likely than not that the tax position will be sustained upon examination by the appropriate taxing authority, based on the technical merits of the position. The tax benefits recognized from such a position are measured based on the amount that is greater than 50% likely of being realized upon settlement. Liabilities associated with uncertain tax positions are classified as long-term unless expected to be paid within one year. Interest and penalties related to uncertain tax positions, if any, are recorded in the provision for income taxes and classified with the related liability on the consolidated balance sheet.

The Company has reviewed the tax positions taken, or to be taken, in its tax return for all tax years currently open to examination by a taxing authority in accordance with the recognition and measurement standards of ASC 740. The Company is not under examination by any authority for income tax purposes and has not applied any income tax filing extension.

The Company's taxing jurisdiction is U.S. ANV Video Alarm Service Inc.'s taxing jurisdiction is Canada. ANV Security Group (Asia) Co., Ltd.'s tax jurisdiction is Hong Kong. ANV Security Technology (Taian) Co., Ltd., and Shenzhen Intelligent Eye Technology Co., Ltd.'s taxing jurisdiction is China.

**q) Segments**

Operating segments are defined as components of an enterprise for which separate financial information is available that is evaluated regularly by the chief operating decision maker, or decision making group, in deciding how to allocate resources and in assessing performance. The Company's chief operating decision maker is its Chief Executive Officer. The Company operates exclusively in the network video surveillance sector. The Company's business is considered as operating in one segment based upon the Company's organizational structure, the way in which the operation is managed and evaluated, the availability of separate financial results and materiality considerations.

**r) Foreign Exchange Translation**

The Company's financial information is presented in US dollars. The functional currencies of the Company and its subsidiaries include the United States dollar ( US\$ ), Hong Kong dollar, Canadian dollar and Renminbi ( RMB ).

The financial statements of the Company have been translated into U.S. dollars in accordance with ASC 830-30 *Translation of Financial Statements* . The financial information is first prepared in functional currencies and then is translated into U.S. dollars at period-end exchange rates as to assets and liabilities and average exchange rates as to revenue and expenses. Capital accounts are translated at their historical exchange rates when the capital transactions occurred. The effects of foreign currency translation are included as a component of accumulated other comprehensive income in shareholders' equity.

The RMB is not freely convertible into foreign currency and all foreign exchange transactions must take place through authorized institutions. No representation is made that the RMB amounts could have been, or could be, converted into US dollars at the rates used in translation.

**s) Basic and Diluted Net Income (Loss) Per Share**

The Company computes earnings per share ( EPS ) in accordance with ASC 260 Earnings per Share ( ASC 260 ), and SEC Staff Accounting Bulletin No. 98 ( SAB 98 ). ASC 260 requires companies with complex capital structures to present basic and diluted EPS. Basic EPS is measured as net income divided by the weighted average common shares outstanding for the period. Diluted EPS is similar to basic EPS but presents the dilutive effect on a per share basis of potential common shares (e.g., convertible securities, options and warrants) as if they had been converted at the beginning of the periods presented, or issuance date, if later. Potential common shares that have an anti-dilutive effect (i.e., those that increase income per share or decrease loss per share) are excluded from the calculation of diluted EPS.

Basic net earnings (loss) per share equals net earnings (loss) divided by the weighted average shares outstanding during the year. The computation of diluted net earnings per share does not include dilutive common stock equivalents in the weighted average shares outstanding as they would be anti-dilutive. The Company's common stock equivalents as at June 30, 2012 and 2011 include its outstanding stock options granted.

**t) Stock-based Compensation**

Compensation expense for costs related to all share-based payments, including grants of stock options, is recognized through a fair-value based method. The Company uses the Black-Scholes option-pricing model to determine the fair value for the awards. The value of the portion of the award that is ultimately expected to vest is recognized on a straight-line basis as expense over the requisite service period in the statement of income.

**u) Recent Accounting Pronouncements**

**New Accounting Standards**

The company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on its results of operations, financial position or cash flows.

**Note 3- Inventory**

Inventories consisted of the following:

	<u>June 30, 2012</u>		<u>December 31, 2011</u>
Raw materials	-	\$	1,405,438

The Company owes individual shareholders in amount of \$nil and \$100,801 respectively.

**Note 8- Capital Stock**

As of June 30, 2012, and December 31, 2011, the amount of voting common shares issued and outstanding are 74,480,071 and 74,130,071, respectively.

**Note 9- Stock Options**

On October 1, 2008, the board of directors adopted the Company's Stock Option Plan. The Company has reserved 1,000,000 shares of common stock for issuance upon exercise of options granted from time to time under the stock option plan. The stock option plan is intended to assist the Company in securing and retaining key employees, directors and consultants by allowing them to participate in the Company's ownership and growth through the grant of incentive and non-qualified options. Under the stock option plan, the Company may grant incentive stock options only to key employees and employee directors, or the Company may grant non-qualified options to employees, officers, directors and consultants. The stock option plan is currently administered by the Company's board of directors. Subject to the provisions of the stock option plan, the board will determine who shall receive options, the number of shares of common stock that may be purchased under the options. As at June 30, 2012, the Company has granted 140,000 shares options.

**Note 10- Income Taxes**

ANV Security Technology (Taian) Co., Ltd. and Shenzhen Intelligent Eye Technology Co., Ltd. are subject to income taxes in China on their taxable income as reported in their statutory accounts at a tax rate in accordance with the relevant income tax laws.

ANV Security Group, Inc. and ANV Video Alarm Service Inc. are U.S. and Canadian companies, respectively, and are subject to taxes in those jurisdictions.

On March 16, 2007, The National People's Congress of China passed The Law of the People's Republic of China on Enterprise Income Tax (the Enterprise Income Tax Law). The Enterprise Income Tax Law became effective on January 1, 2008. Under the new law, both domestic companies and foreign invested enterprises are subject to a unified income tax rate of 25% starting from 2008.

The Company has structured its business and operations on an international basis. The Company's history is that they have also been involved in a number of business combinations. As a result the Company could be involved in various investigations, claims and tax reviews that arise in the ordinary course of business activities. The tax effect of temporary differences that give rise to significant components of the deferred tax assets are as follows:

	<u>June 30, 2012</u>	<u>December 31, 2011</u>
Deferred tax assets / (liabilities):		
Provision for bad debts	\$ -	\$ 570,343
Inventories	-7	34,897
Property, plant and equipment	-0	125,298
Losses carryforwards	2,641,136	453,116
Total deferred tax assets	2,641,136	1,183,654
Less: Valuation allowance	(2,641,136)	(435,212)
Net deferred tax assets	\$ -	\$ 748,442

The valuation allowance is reviewed periodically. When circumstance changes and this causes a change in management's judgment about the realizability of deferred tax assets, the impact of the change on the valuation allowance is generally reflected in current income.

The Company has non-capital losses carried forward of approximately \$1,830,233 in Canada, expiring through year 2018. The Company also has non-capital losses carried forward of approximately \$450,000 in the US expiring through year 2031. Deductibility of the losses and period of expiration is subject to the normal review by taxation authorities.

All income and taxes are attributable to foreign operations. A reconciliation of the federal statutory income tax, at the statutory rate of 35% to the Company's effective income tax rate, for the three months ended June 30, 2012 and 2011 are as follows:

	<u>Three months ended</u>	<u>Three months ended</u>
	<u>June 30, 2012</u>	<u>June 30, 2011</u>
Loss from operations before taxes	\$ (7,201,651)	\$ (722,8083)
Statutory tax rate	35%	35%
Income tax expense at statutory tax rate	(2,520,578)	(252,983)
Foreign tax rate differential	1,221,353	127,100
	1,053,099	12,857

Expenses not deductible (recoverable) for  
income tax purpose

Change in valuation allowance and others	21,869	87,113
Income tax expense (benefit)	\$ (224,257)	\$ (25,913)

Undistributed loss of the Company's non-US subsidiaries amounted to approximately \$13,180,824 and \$6,203,430 as of June 30, 2012 and December 31, 2011, respectively. The Company has not provided any additional U.S. federal or state income taxes or foreign withholding taxes on the undistributed earnings as such earnings have been indefinitely reinvested in the business as defined in ASC Topic 740. The determination of the amount of the unrecognized deferred tax liability related to the undistributed earnings is not practicable because of the complexities associated with its hypothetical calculation.

**Note 11- Concentrations & Risks**

100% of the Company's revenues for the three months ended June 30, 2012 and 2011, respectively, were derived from customers located in China mainland.

The majority of the Company's assets, liabilities, revenues and expenses are denominated in Renminbi, which was tied to the US Dollar and is now tied to a basket of currencies of China's largest trading partners, is not a freely convertible currency. The appreciation of the Renminbi against the US Dollar would result in an increase in the assets, liabilities, revenues and expenses of the Company and a foreign currency gain included in comprehensive income. Conversely, the devaluation of the Renminbi against the US Dollar would result in a decrease in the assets, liabilities, revenues and expenses of the Company and a foreign currency loss included in comprehensive income. As at June 30, 2012, approximately US\$66,696 of the cash and cash equivalents (December 31, 2011: US\$802,207) were held in Renminbi.

**Note- 12 Discontinued Operations**

As of May 31, 2012, the Company entered into an Equity and Intellectual Property Rights Transfer Agreement (the EIPRTA) to dispose of all of the shares and related intellectual property of its subsidiary ANV Security Technology (China) Co., Ltd. (ANV Tech), by transferring the same to a company owned by its former owner and director, for five million RMB (approximately \$800,000) payable in three installments; (i) 20% on Closing, and 40% on each of December 31, 2012 and 2013 and (B) the return to the Company of 9,550,000 shares from former owner of the Company's common stock. At the same time, the Company sold 100% equity interest in ANV Tech's four subsidiaries back to former owners of these subsidiaries by return to the Company of 8,000,000 common shares from former owners of four subsidiaries.

The operating results of discontinued operations are as follows:

### b) Litigation

As at June 30, 2012, there were no actions, suits, proceedings or claims pending against the Company, which if adversely determined, would have a material adverse effect on the financial condition of the Company.

## Note 14- Subsequent Events

The Company has performed an evaluation of subsequent events in accordance with ASC Topic 855 and the Company is not aware of any subsequent events which would require recognition or disclosure in the financial statements.

## **ITEM 2. MANGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

### **Forward Looking Statements**

This Quarterly Report on Form 10-Q contains "forward-looking" statements as such term is defined in the Private Securities Litigation Reform Act of 1995 and information relating to the Company that is based on the beliefs of the Company's management as well as assumptions made by and information currently available to the Company's management. When used in this report, the words "anticipate," "believe," "estimate," "expect" and "intend" and words or phrases of similar import, as they relate to the Company or Company management, are intended to identify forward-looking statements. Such statements reflect the current risks, uncertainties and assumptions related to certain factors including, without limitations, competitive factors, general economic conditions, customer relations, relationships with vendors, the interest rate environment, governmental regulation and supervision, seasonality, distribution networks, product introductions and acceptance, technological change, changes in industry practices, onetime events and other factors described herein and in other filings made by the Company with the Securities and Exchange Commission. Based upon changing conditions, should any one or more of these risks or uncertainties materialize, or should any underlying assumptions prove incorrect, actual results may vary materially from those described herein as anticipated, believed, estimated, expected or intended. The Company does not intend to update these forward-looking statements.

## OVERVIEW

ANV Security Group, Inc. and its subsidiaries (the Company or ANVS ) is specialized in new product research & development, software solutions, technologies for network video surveillance and video alarm service platforms.

ANVS has developed products of IP camera and digital video server ( DVS ), as well as NVR, DVR, CCTV camera, etc. It has also developed the first automatic video alarm platform in the world: [www.usci8.com](http://www.usci8.com). A patent for this platform was officially approved by the US Patent and Trademark Office ( USPT ) on October 22, 2009 with patent number US2009/0265747A1. This platform performs instant notification to the owner via SMS, e-mail, telephone or cellular phone when an alarm is triggered worldwide in any time zone and captures the event images in user accessible video surveillance servers.

## RESULTS OF OPERATIONS

### Revenues

Our revenues are primarily generated from sales of surveillance and safety products. Revenues was \$286 for the three months ended June 30, 2012, and \$nil for the same period last year. The Company disposed its manufacturing business in this quarter to develop its services business, as a result, the continuing revenue is only \$286 for the three months ended June 30, 2012.

### Cost of goods sold

Cost of goods sold is primarily comprised of the costs of our raw materials, labor and overhead. Cost of goods sold was \$186 for the three months ended June 30, 2012, and \$nil for the same period last year. As discussed above, the cost of goods sold only including the continuing operations for the three months ended June 30, 2012.

### Operating expenses

Operating expenses was \$526,335 for the three months ended June 30, 2012 compared to \$nil for the same period in last year.

### Operation loss

Operating loss was \$526,345 for the three months ended June 30, 2012 compared to \$nil for the same period last year.

### Loss from discontinued operations

Loss from discontinued operations was \$(5,323,043) for three months ended June 30, 2012 compared to \$329,711 for the same period in 2011. In the second quarter of 2012, the Company disposed certain subsidiaries and recorded

\$5,846,100 of loss on disposals.

### **Net Loss**

Net loss was \$5,849,254 for the three months ended June 30, 2012, compared to \$329,711 for the same period in 2011.

### **LIQUIDITY AND CAPITAL RESOURCES**

We had cash and cash equivalents of \$254,942 as of June 30, 2012, as compared to \$1,388,743 as of December 31, 2011, a decrease of \$1,133,802. The decrease of cash and cash equivalents during the six months ended June 30, 2012 was primarily attributable to cash used in operations of \$407,981.

Net cash used in operating activities was \$407,981 for the six months ended June 30, 2012, as compared to net cash used in operating activities \$nil for the six months ended June 30, 2011. The cash used in operating activities was primarily attributable to our net loss, as well as changes in working capital for the six months ended June 30, 2012 and 2011.

Net cash provided from investing activities was \$149,974 for the six months ended June 30, 2012, as compared to \$nil for the six months ended June 30, 2011. Main components of cash flows from investing activities for the six months ended June 30, 2012 included cash of \$9,236 used in purchases of equipment and furniture. Main components of cash flows from

investing activities for the six months ended June 30, 2012 included cash \$159,210 received from disposal of subsidiaries.

Net cash from financing activities was \$31,552 for the six months ended June 30, 2012 compared to \$nil for the same period last year. Main components of cash flows from financing activities for the three months ended June 30, 2012 included \$31,552 proceeds from related parties.

We have funded our activities to date primarily through the sales of surveillance and safety products and systems and the issuance of equity securities. Our working capital resources should be sufficient for our operation for the next twelve months, and we are seeking additional bank lines and placement of equity. However, we can give no assurance we will be successful in these efforts. If we do not receive additional funding we may have to curtail our operations.

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

#### **Foreign Exchange Risk**

Our reporting currency is the U.S. dollar. Except for the U.S. holding company, the majority of our consolidated revenues, consolidated costs and expenses, and our assets are denominated in RMB. As a result, we are exposed to foreign exchange risk as our revenues and results of operations may be affected by fluctuations in the exchange rate between the U.S. dollars and the RMB. If the RMB depreciates against the U.S. dollar, the value of our RMB revenues, earnings and assets as expressed in our U.S. dollar financial statements will decline. Assets and liabilities are translated at exchange rates at the balance sheet dates and revenue and expenses are translated at the average exchange rates and equity is translated at historical exchange rates. Any resulting translation adjustments are not included in determining net income but are included in determining other comprehensive income, a component of equity. We have not entered into any hedging transactions in an effort to reduce our exposure to foreign exchange risk.

The value of the Renminbi against the U.S. dollar and other currencies is affected by, among other things, changes in China's political and economic conditions. Since July 2005, the Renminbi has not been pegged to the U.S. dollar. Although the People's Bank of China regularly intervenes in the foreign exchange market to prevent significant short-term fluctuations in the exchange rate, the Renminbi may appreciate or depreciate significantly in value against the U.S. dollar in the medium to long term. Moreover, it is possible that in the future, PRC authorities may lift restrictions on fluctuations in the Renminbi exchange rate and lessen intervention in the foreign exchange market.

#### **Inflation**

Inflationary factors such as increases in the cost of our materials and overhead costs may adversely affect our operating results. Although we do not believe that inflation has had a material impact on our financial position or results of operations to date, a high rate of inflation in the future may have an adverse effect on our ability to maintain current levels of gross margin and selling, general and administrative expenses as a percentage of net revenues if the selling prices of our products do not increase with these increased costs.

## **ITEM 4. CONTROLS AND PRODCECURES**

### **(a) Evaluation of Disclosure Controls and Procedures**

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Securities Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, as ours are designed to do, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As of June 30, 2012, we carried out an evaluation, under the supervision and with the participation of our management, including our Principal Financial Officer of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934. Based upon that evaluation, our Principal Financial Officer concluded that our disclosure controls and procedures are effective in enabling us to record, process, summarize and report information required to be included in our periodic SEC filings within the required time period.

### **(b) Changes in Internal Controls**

There were no changes in our internal controls and procedures in internal control over financial reporting that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. We continue to rely on the members of the Board of Directors to provide assurance that our entity-level controls remain effective and we believe our process-level controls remain effective.
