UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, DC 20549

FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES

EXCHANGE ACT OF 1934

For the fiscal year ended February 3, 2018

Commission file number 001-36501

THE MICHAELS COMPANIES, INC.

A Delaware Corporation

IRS Employer Identification No. 37-1737959

8000 Bent Branch Drive

Irving, Texas 75063

(972) 409-1300

The Michaels Companies, Inc.'s common stock, par value \$0.06775 per share, is registered pursuant to Section 12(b) of the Securities Exchange Act of 1934 (the "Act") and is listed on the NASDAQ Global Select Market. The Michaels Companies, Inc. does not have any securities registered under Section 12(g) of the Act.

The Michaels Companies, Inc. is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

The Michaels Companies, Inc. (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

The Michaels Companies, Inc. has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will be contained, to the best of the registrant's knowledge, in the definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10 K.

The Michaels Companies, Inc. is a large accelerated filer.

The Michaels Companies, Inc. is not a shell company or emerging growth company (as defined in Rule 12b-2 of the Exchange Act).

Edgar Filing: Michaels Companies, Inc. - Form 10-K

The aggregate market value of The Michaels Companies, Inc.'s common stock held by non-affiliates as of July 29, 2017 was approximately \$2,139,635,655 based upon the closing sales price of \$19.88 quoted on The NASDAQ Global Select Market as of July 28, 2017. For this purpose, directors and officers have been assumed to be affiliates.

As of March 16, 2018, 181,932,563 shares of The Michaels Companies, Inc.'s common stock were outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

The registrant will incorporate by reference information required in response to Part III, items 10-14, from its definitive proxy statement for its annual meeting of shareholders, to be held on June 13, 2018.

PART I

ITEM 1. BUSINESS.

The following discussion, as well as other portions of this Annual Report on Form 10-K, contains forward-looking statements that reflect our plans, estimates and beliefs. Any statements contained herein (including, but not limited to, statements to the effect that Michaels or its management “anticipates”, “plans”, “estimates”, “expects”, “believes”, “intends”, and other similar expressions) that are not statements of historical fact should be considered forward-looking statements and should be read in conjunction with our consolidated financial statements and related notes contained elsewhere in this report. Specific examples of forward-looking statements include, but are not limited to, statements regarding our forecasts of financial performance, share repurchases, store openings, capital expenditures and working capital requirements. Our actual results could materially differ from those discussed in these forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed below and elsewhere in this Annual Report on Form 10-K and particularly in “Item 1A. Risk Factors” and “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations”. Unless the context otherwise indicates, references in this Annual Report on Form 10-K to “we”, “our”, “us”, “our Company”, “the Company”, and “Michaels” mean The Michaels Companies, Inc., together with its subsidiaries.

General

Michaels Stores, Inc. (“MSI”) is headquartered in Irving, Texas and was incorporated in the state of Delaware in 1983. In July 2013, MSI was reorganized into a holding company structure and The Michaels Companies, Inc. was incorporated in Delaware in connection with the reorganization.

With \$5,362.0 million in sales in fiscal 2017, the Company is the largest arts and crafts specialty retailer in North America (based on store count) providing materials, project ideas and education for creative activities. Our mission is to inspire and enable customer creativity, create a fun and rewarding place to work, foster meaningful connections with our communities and lead the industry in growth and innovation. With crafting classes, store events, project sheets, store displays, mobile applications and online videos, we offer a shopping experience that can inspire creativity and build confidence in our customers’ artistic abilities.

On February 2, 2016, we completed the acquisition of Lamrite West, Inc. and certain of its affiliates and subsidiaries (“Lamrite”) for \$150.0 million, prior to certain purchase price adjustments, utilizing our existing cash on hand. Lamrite operates an international wholesale business under the Darice brand name (“Darice”) and 36 arts and crafts retail stores (32 as of the acquisition date), located primarily in Ohio and the surrounding states, under the Pat Catan’s brand name (“Pat Catan’s”). We acquired Lamrite to enhance our private brand development capabilities, accelerate our direct sourcing initiatives and strengthen our business-to-business capabilities.

As of February 3, 2018, we operated 1,238 Michaels retail stores in 49 states and Canada, with approximately 18,000 average square feet of selling space per store. We operated 97 Aaron Brothers stores in eight states, with approximately 5,500 average square feet of selling space and 36 Pat Catan's stores in five states, with approximately 32,000 average square feet of selling space.

Table of Contents

Merchandising

Michaels. Each Michaels store offers approximately 45,000 basic and seasonal stock-keeping units (“SKUs”) in a number of product categories. The following table shows a breakdown of sales for Michaels stores by department as a percentage of total net sales:

	Fiscal Year					
	2017		2016		2015	
General crafts	49	%	50	%	52	%
Home décor and seasonal	23		22		21	
Framing	16		17		17	
Papercrafting	12		11		10	
	100	%	100	%	100	%

We have product development, sourcing and design teams focused on quality, innovation and cost mitigation. Our internal product development and global sourcing teams position us to continue delivering a differentiated level of innovation, quality and value to our customers. Our global sourcing network allows us to control new product introductions, maintain quality standards, monitor delivery times, and manage product costs and inventory levels to enhance profitability. In an industry with few well-known national brands, our private brands are recognized as a leader in many categories. We continue to expand our private brands and improve the selection of products we design, develop and deliver to our customers. In fiscal 2016, we acquired Lamrite as part of our strategy to enhance our private brand and direct sourcing capabilities. Our private brands totaled approximately 58% of net sales in fiscal 2017 and include, among others, Recollections®, Studio Decor®, Bead Landing®, Creatology®, Ashland®, Celebrate It®, ArtMinds®, Artist’s Loft®, Craft Smart®, Loops & Threads®, Make Market®, Foamies®, LockerLookz®, Imagin8® and Sticky Sticks®.

We continue to search for ways to leverage our position as a market leader by establishing strategic partnerships and exclusive product relationships to provide our customers with exciting merchandise. We have partnerships with popular brands such as Crayola, Elmer’s and Cricut. We will continue to explore opportunities to form future partnerships and exclusive product associations.

Aaron Brothers. Each Aaron Brothers store offers approximately 5,600 SKUs, including photo frames, a full line of ready-made frames, art prints, framed art, art supplies and custom framing services. The merchandising strategy for our Aaron Brothers stores is to provide an upscale framing assortment in an appealing environment with attentive customer service.

Pat Catan's. Each Pat Catan's store offers approximately 57,000 SKUs, including an assortment of kids craft items, fine art supplies, yarn, floral supplies, fabric, home décor, bakeware, seasonal and wedding related merchandise. The merchandising strategy for our Pat Catan's stores is to provide a wide variety of affordably priced craft supplies.

Darice. We operate an international wholesale business under the Darice brand name. Darice sources products from domestic and foreign suppliers for resale to a variety of retail outlets worldwide, including our Michaels and Pat Catan's stores. Darice offers approximately 55,000 SKUs consisting of a wide range of craft and hobby items. We also develop Darice branded products carried by both Company owned and third-party stores reflecting the breadth of our product line and our ability to distribute and source quality products at competitive prices.

E-commerce. While we expect e-commerce to remain a relatively small portion of our business, we believe it provides an important avenue to communicate with our customers in an interactive way that reinforces the Michaels brand and drives traffic to our stores and websites. We continue to strengthen our omnichannel offering with the expansion of existing sites, including Michaels.com and ConsumerCrafts.com, and the introduction of new platforms, including the Michaels app, which more effectively connects our store and online experience, and Framerspointe.com, an online custom framing solution.

Table of Contents

Purchasing and Inventory Management

We purchase merchandise from a variety of different vendors through our wholly-owned subsidiary, Michaels Stores Procurement Company, Inc. We believe our buying power and ability to make centralized purchases enable us to acquire products on favorable terms. Centralized merchandising management teams negotiate with vendors in an attempt to obtain the lowest net merchandise costs and to improve product mix and inventory levels. In fiscal 2017, there were no vendors or sourcing agents accounting for more than 10% of total purchases.

In fiscal 2016, we formed Darice International Sourcing Group as part of our strategy to develop our direct sourcing capabilities. We believe our direct sourcing operation allows us to maintain greater control over the manufacturing process resulting in improved product quality and lower costs. In addition, our stores purchase custom frames, framing supplies and mats from our framing operation and wholly-owned subsidiary, Artistree, Inc. (“Artistree”), which consists of a manufacturing facility and four regional processing centers.

The majority of the products sold in our stores are manufactured in Asia. Goods manufactured in Asia generally require long lead times and are ordered three to four months in advance of delivery. Those products are either imported directly by us or acquired from distributors based in the U.S.

Our automated replenishment system uses perpetual inventory records to analyze on-hand SKU quantities by store, as well as other pertinent information such as sales forecasts, seasonal selling patterns, promotional events and vendor lead times, to generate recommended merchandise reorder information. These recommended orders are reviewed daily and purchase orders are delivered electronically to our vendors and our distribution centers. In addition to improving our store in-stock position, these systems enable us to better forecast merchandise ordering quantities for our vendors and give us the ability to identify, order and replenish the stores’ merchandise. These systems also allow us to react more quickly to sales trends and allow our store team members to devote more time to customer service, thereby improving inventory productivity and sales opportunities.

Artistree

We own and operate Artistree, a vertically-integrated framing operation which supplies precut mats and high quality custom framing merchandise across our store networks. We believe Artistree provides a competitive advantage to our stores and gives us quality control over the entire framing process. Custom framing orders are processed and shipped to our stores where the custom frame order is completed for customer pick-up.

Our moulding manufacturing plant, located in Kernersville, North Carolina, converts lumber into finished frame moulding that is used at our regional processing centers to fulfill custom framing orders for our stores. We manufacture approximately 34% of the moulding that we process and import approximately 48% from quality manufacturers in Brazil, Indonesia, Malaysia, China and Italy.

During fiscal 2017, we operated four regional processing centers located in City of Industry, California; DFW Airport, Texas; Kernersville, North Carolina; and Mississauga, Ontario. Combined, these facilities occupy approximately 579,000 square feet and, in fiscal 2017, processed 28.1 million linear feet of frame moulding and 4.1 million individual custom cut mats and foam boards for our stores. Our precut mats and custom frame supplies are packaged and distributed out of our DFW Airport regional processing center.

Distribution

We currently operate eight distribution centers to supply our stores with merchandise. Approximately 91% of our stores' merchandise receipts are shipped through the distribution network with the remainder shipped directly from vendors to stores. Our distribution centers are located in California, Florida, Illinois, Ohio, Pennsylvania, Texas and Washington. We also utilize a third-party fulfillment center for our e-commerce merchandise.

Our distribution facilities use warehouse management and control software systems to maintain and support product purchase decisions. Store replenishment order selection is performed using pick-to-light and radio frequency processing technologies. Product is delivered to stores using both a dedicated fleet of trucks and contract carriers.

Table of Contents

Marketing

We employ a multi-faceted marketing strategy to increase brand awareness, acquire new customers, improve customer retention and increase frequency of shopping. We communicate with our current and prospective customers through multiple vehicles, including direct mail, newspaper inserts, television, radio, digital advertising and email.

We continue to develop and leverage our customer data analytic capabilities to drive a more customer-centric strategy through targeted marketing and promotions. We believe that targeted marketing and promotions play an important role in today's retail environment, including social media, email and in-store events. Our rewards program, Michaels Rewards, which launched in July 2016, is an important tool to increase retention of existing customers and enhance their loyalty to the Michaels brand. Michaels Rewards continues to grow and has surpassed 24 million customers. Michaels Rewards offers customers tailored, exclusive offers and events such as sneak peeks for new product, early alerts for big sales, and receipt-free returns. The program adds to our customer database and, over time, will allow us to target our marketing and promotions more effectively.

Seasonality

Our business is highly seasonal, with higher sales in the third and fourth fiscal quarters. Our fourth quarter, which includes the Holiday selling season, has on average accounted for approximately 34% of our net sales and approximately 46% of our operating income.

Our Industry

According to internal market research, approximately 55% of U.S. households participated in at least one crafting project during 2016, which represented approximately 68 million households. This research indicated that crafting activities continue to grow in popularity and market size has expanded to approximately \$36 billion. We believe the broad, multi-generational appeal, high personal attachment and the low-cost, project-based nature of crafting creates a loyal, resilient following consistent with the research insights.

Table of Contents

Store Expansion and Relocation

The following table shows our total store growth for the last five years:

	Fiscal Year				
	2017	2016	2015	2014	2013
Michaels stores:					
Open at beginning of period	1,223	1,196	1,168	1,136	1,099
New stores	17	32	30	32	40

New stores	1	3	—	—	—
Relocated stores opened	—	1	—	—	—
Relocated stores closed	—	(1)	—	—	—
Open at end of period	36	35	—	—	—
Total store count at end of period	1,371	1,367	1,313	1,288	1,257

We believe, based on an internal real estate and market penetration study of Michaels stores, that the combined U.S. and Canadian markets can support between 1,400 and 1,500 Michaels stores. We plan to open approximately 36 Michaels stores, including approximately 17 relocations in fiscal 2018. We continue to pursue a store relocation program to improve the real estate location quality and performance of our store base. During fiscal 2018, we plan to close up to five Michaels stores. Many of our store closings are stores that have reached the end of their lease term. We believe our ongoing store evaluation process results in strong performance across our store base.

We have developed a standardized procedure to allow for the efficient opening of new stores and their integration into our information and distribution systems. We develop the merchandise layout floor plan and organize the advertising and promotions in connection with the opening of each new store. In addition, we maintain qualified store opening

teams to provide new store team members with training.

Our Michaels store operating model, which is based on historical store performance, assumes an average store size of approximately 18,000 selling square feet. Our fiscal 2017 average initial net investment, which varies by site and specific store characteristics, was \$1.0 million per Michaels store, including store build-out costs, pre-opening expenses and average first year inventory.

Employees

As of February 3, 2018, we employed approximately 49,000 team members, approximately 37,000 of whom were employed on a part-time basis. The number of part-time team members substantially increases during the Holiday selling season. Of our full-time team members, approximately 4,400 are engaged in various executive, operating, training, distribution and administrative functions in our support center, division offices, administrative offices and distribution centers and the remainder are engaged in store operations. None of our team members are subject to a collective bargaining agreement.

Table of Contents

Competition

We are the largest arts and crafts specialty retailer in North America based on store count. The market in which we compete is highly fragmented and includes stores across the U.S. and Canada operated primarily by small, independent retailers along with a few regional and national chains. We believe customers choose where to shop based upon store location, breadth of selection, price, quality of merchandise, availability of product and customer service. We compete with many different types of retailers and classify our competition within the following categories:

- Multi-store chains. This category consists of several multi-store chains, each operating more than 100 stores, including: Hobby Lobby Stores, Inc., which operates more than 800 stores in 47 states; Jo-Ann Stores, Inc., which operates approximately 850 stores in 49 states; and A.C. Moore Arts & Crafts, Inc., which operates approximately 130 stores primarily in the Eastern U.S. We believe all of these chains are smaller than Michaels with respect to net sales.
- Mass merchandisers. This category of retailers typically dedicate a portion of their selling space to a limited selection of home décor, arts and crafts supplies and seasonal merchandise, but they do seek to capitalize on the latest trends by stocking products that are complementary to those trends and their current merchandise offerings. These mass merchandisers generally have limited customer service staffs with minimal experience in crafting projects.
- Small, local specialty retailers. This category includes local independent arts and crafts retailers and custom framing shops. Typically, these stores are single-store operations managed by the owner. These stores generally have limited resources for advertising, purchasing and distribution. Many of these stores have established a loyal customer base within a given community and compete based on relationships and customer service.
- Internet. This category includes all internet-based retailers that sell arts and crafts merchandise, completed projects and online custom framing. Our internet competition is inclusive of those companies discussed in the categories above, as well as others that may only sell products online. These retailers provide consumers with the ability to search and compare products and prices without having to visit a physical store. These sellers generally offer a wide variety of products but do not offer product expertise or project advice.

Foreign Sales

Substantially all of our international business is in Canada, which accounted for approximately 9% of total sales in fiscal 2017, fiscal 2016 and fiscal 2015. Approximately 7% of our assets were located outside of the U.S. in fiscal 2017, 8% of our assets in fiscal 2016 and 7% of our assets in fiscal 2015. See Note 12 to the consolidated financial statements for net sales and total assets by country.

Trademarks and Service Marks

As of February 3, 2018, we own or have rights to trademarks, service marks or trade names we use in connection with the operation of our business, including “Aaron Brothers”, “Artistree”, “Darice”, “Lamrite”, “Michaels”, “Michaels the Arts and Crafts Store”, “Pat Catan’s”, “Recollections”, “Make Creativity Happen”, “Where Creativity Happens”, and the stylized Michaels logo. We have registered our primary private brands including Recollections®, Studio Decor®, Bead Landing®, Creatology®, Ashland®, Celebrate It®, ArtMinds®, Artist’s Loft®, Craft Smart®, Loops & Threads®, Make Market®, Foamies®, LockerLookz®, Imagin8® and Sticky Sticks® and various sub-brands associated with these primary marks. Solely for convenience, some of the trademarks, service marks and trade names referred to in this Annual Report on Form 10-K are listed without the copyright, trademark and registered trademark symbols, but we will assert, to the fullest extent under applicable law, our rights to our copyrights, trademarks, service marks, trade names and domain names.

Available Information

We provide links to our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and amendments to those reports, and other documents filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), on our Internet website, free of charge, at www.michaels.com under the heading “Investor Relations”. These reports are available as soon as reasonably practicable after we electronically file them with the Securities and Exchange Commission (“SEC”). The reports may also be accessed at the SEC’s Public Reference Room at 100 F Street, NE, Washington, D.C. 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. These filings are also available through the SEC’s EDGAR system at www.sec.gov.

We use our website (www.michaels.com) as a means of disclosing material non-public information and for complying with our disclosure obligations under Regulation Fair Disclosure promulgated by the SEC. These disclosures are included on our website in the “Investor Relations” section. Accordingly, investors should monitor this portion of our website, in addition to following our press releases, SEC filings, public conference calls and webcasts.

We webcast our earnings calls and certain events we participate in or host with members of the investment community on the investor relations section of our website. Additionally, we provide notifications of news or announcements regarding press and earnings releases as part of the investor relations section of our website. The contents of our website are not part of this Annual Report on Form 10-K, or any other report we file with, or furnish to, the SEC.

ITEM 1A. RISK FACTORS.

Our business is subject to various risks and uncertainties. The risks described below are those we believe are the material risks we face. Any of the risk factors described below, as well as risks not currently known to us, could significantly and adversely affect our business, cash flows, financial condition, results of operations, liquidity or access to sources of financing.

We face risks related to the effect of economic uncertainty.

In the event of an economic downturn or slow recovery, our growth, prospects, results of operations, cash flows and financial condition could be adversely impacted. Our stores offer arts and crafts supplies and products for the crafter and custom framing for the do-it-yourself home decorator, which are viewed as discretionary items. Pressure on discretionary income brought on by economic downturns and slow recoveries, including housing market declines, rising energy prices and weak labor markets, may cause consumers to reduce the amount they spend on discretionary items. The inherent uncertainty related to predicting economic conditions makes it difficult for us to accurately forecast future demand trends, which could cause us to purchase excess inventories, resulting in increases in our inventory carrying cost, or limit our ability to satisfy customer demand and potentially lose market share.

We face risks related to our substantial indebtedness.

Our substantial leverage could adversely affect our ability to raise additional capital to fund our operations, limit our ability to react to changes in the economy or our industry, expose us to interest rate risk associated with our variable rate debt and prevent us from meeting our obligations under our notes and credit facilities. As of February 3, 2018, we had total outstanding debt of \$2,742.4 million, of which \$2,232.4 million was subject to variable interest rates and \$510.0 million was subject to fixed interest rates. As of February 3, 2018, we had \$716.6 million of additional borrowing capacity (after giving effect to \$63.4 million of letters of credit then outstanding) under our Amended Revolving Credit Facility. Our substantial indebtedness could have important consequences to us, including:

- making it more difficult for us to satisfy our obligations with respect to our debt, and any failure to comply with the obligations under our debt instruments, including restrictive covenants, could result in an event of default under the agreements governing our indebtedness;
- increasing our vulnerability to general economic and industry conditions;

Table of Contents

- requiring a substantial portion of our cash flow from operations to be dedicated to the payment of principal and interest on our debt, thereby reducing our ability to use our cash flow to fund our operations, capital expenditures, selling and marketing efforts, product development, future business opportunities and other purposes;
- exposing us to the risk of increased interest rates as certain of our borrowings, including under our Senior Secured Credit Facilities, which consist of the Amended Revolving Credit Facility and the Amended Term Loan Credit Facility (each, as defined below), are at variable rates;
- restricting us from making strategic acquisitions or causing us to make non strategic divestitures;
- limiting our ability to obtain additional financing for working capital, capital expenditures, product development, debt service requirements, acquisitions, and general corporate or other purposes; or
- limiting our ability to plan for, or adjust to, changing market conditions and placing us at a competitive disadvantage compared to our competitors who may be less highly leveraged.

The occurrence of any one of these events could have an adverse effect on our business, financial condition, results of operations, and ability to satisfy our obligations under our indebtedness.

We and our subsidiaries may be able to incur substantial additional indebtedness in the future, subject, in the case of MSI and Michaels Funding, Inc. (“Holdings”) and their subsidiaries, to the restrictions contained in our Senior Secured Credit Facilities and the indenture governing our notes. In addition, our Senior Secured Credit Facilities and indenture governing our notes do not restrict us from creating new holding companies that may be able to incur indebtedness without regard to the restrictions set forth in our Senior Secured Credit Facilities and indenture governing our notes. If new indebtedness is added to our current debt levels, the related risks that we now face could intensify.

Our debt agreements contain restrictions that limit our flexibility in operating our business.

Our Senior Secured Credit Facilities and the indenture governing our notes contain various covenants that limit our ability to engage in specified types of transactions. These covenants limit the ability of the relevant borrowers, issuers, guarantors and their restricted subsidiaries to, among other things:

- incur or guarantee additional debt;

.

pay dividends or distributions on their capital stock or redeem, repurchase or retire their capital stock or indebtedness;

- issue stock of subsidiaries;
- make certain investments, loans, advances and acquisitions;
- create liens on our assets to secure debt;
- enter into transactions with affiliates;
- merge or consolidate with another company; or
- sell or otherwise transfer assets.

In addition, under the Amended Term Loan Credit Facility, MSI is required to meet specified financial ratios in order to undertake certain actions, and under our Amended Revolving Credit Facility, MSI is required to meet specified financial ratios in order to undertake certain actions, and under certain circumstances, MSI may be required to maintain a specified fixed charge coverage ratio. Our ability to meet those tests can be affected by events beyond our control, and we cannot assure you we will meet them. A breach of any of these covenants could result in a default under our Senior Secured Credit Facilities, which could also lead to an event of default under our notes if any of the Senior Secured Credit Facilities

Table of Contents

were accelerated. Upon the occurrence of an event of default under our Senior Secured Credit Facilities, the lenders could elect to declare all amounts outstanding under our Senior Secured Credit Facilities to be immediately due and payable and terminate all commitments to extend further credit. If we were unable to repay those amounts, the lenders under our Senior Secured Credit Facilities could proceed against the collateral granted to them to secure such indebtedness. Holdings, MSI and certain of MSI's subsidiaries have pledged substantially all of their assets, including the capital stock of MSI and certain of its subsidiaries, as collateral under our Senior Secured Credit Facilities. If the indebtedness under our Senior Secured Credit Facilities or our notes were to be accelerated, our assets may not be sufficient to repay such indebtedness in full.

Changes in customer demand could materially adversely affect our sales, results of operations and cash flow.

Our success depends on our ability to anticipate and respond in a timely manner to changing customer demands and preferences for products and supplies used in creative activities. If we misjudge the market, we may significantly overstock unpopular products and be forced to take significant inventory markdowns, or experience shortages of key items, either of which could have a material adverse impact on our operating results and cash flow. In addition, adverse weather conditions, economic instability and consumer confidence volatility could have material adverse impacts on our sales and operating results.

Competition, including Internet-based competition, could negatively impact our business.

The retail arts and crafts industry, including custom framing, is competitive, which could result in pressure to reduce prices and losses in our market share. We must remain competitive in the areas of quality, price, breadth of selection, customer service and convenience to retain and grow our market share. We compete with mass merchants, which dedicate a portion of their selling space to a limited selection of craft supplies and seasonal and holiday merchandise, along with national and regional chains and local merchants. We also compete with specialty retailers, which include Hobby Lobby Stores, Inc., A.C. Moore Arts & Crafts, Inc. and Jo Ann Stores, Inc. Some of our competitors, particularly the mass merchants, are larger and have greater financial resources than we do. We also face competition from Internet based retailers, such as Amazon.com, Inc., in addition to traditional store based retailers, who may be larger, more experienced and able to offer products we cannot. This could result in increased price competition since our customers could more readily search and compare non private brand products. Furthermore, we ultimately compete with alternative sources of entertainment and leisure for our customers.

A weak fourth quarter would materially adversely affect our result of operations.

Our business is highly seasonal. Our inventories and short-term borrowings may grow in the third fiscal quarter as we prepare for our peak selling season in the third and fourth fiscal quarters. Our most important quarter in terms of sales, profitability and cash flow historically has been the fourth fiscal quarter. If for any reason our fourth fiscal quarter

results were substantially below expectations, our operating results for the full year would be materially adversely affected, and we could have substantial excess inventory, especially in seasonal merchandise that is difficult to liquidate.

Unexpected or unfavorable consumer responses to our promotional or merchandising programs could materially adversely affect our sales, results of operations, cash flow and financial condition.

Brand recognition, quality and price have a significant influence on consumers' choices among competing products and brands. Advertising, promotion, merchandising and the cadence of new product introductions also have a significant impact on consumers' buying decisions. If we misjudge consumer responses to our existing or future promotional activities, this could have a material adverse impact on our sales, results of operations, cash flow and financial condition.

We believe improvements in our merchandise offering help drive sales at our stores. We could be materially adversely affected by poor execution of changes to our merchandise offering or by unexpected consumer responses to changes in our merchandise offering.

Table of Contents

Our results may be adversely affected by serious disruptions or catastrophic events, including geo-political events and weather.

Unforeseen public health issues, such as pandemics and epidemics, and geo political events, such as civil unrest in a country in which our suppliers are located or terrorist or military activities disrupting transportation, communication or utility systems, as well as natural disasters such as hurricanes, tornadoes, floods, earthquakes and other adverse weather and climate conditions, whether occurring in the U.S. or abroad, particularly during peak seasonal periods, could disrupt our operations or the operations of one or more of our vendors, or could severely damage or destroy one or more of our stores or distribution facilities located in the affected areas. For example, day to day operations, particularly our ability to receive products from our vendors or transport products to our stores, could be adversely affected, or we could be required to close stores or distribution centers in the affected areas or in areas served by the affected distribution center. These factors could also cause consumer confidence and spending to decrease or result in increased volatility in the U.S. and global financial markets and economy. Such occurrences could significantly impact our operating results and financial performance. For example, during fiscal 2017, more than 100 of our stores were impacted by weather related to Hurricane Harvey and Irma, resulting in closures and an estimated \$10 million in lost sales.

We have experienced a data breach in the past and any future failure to adequately maintain security and prevent unauthorized access to electronic and other confidential information could result in an additional data breach which could materially adversely affect our reputation, financial condition and operating results.

The protection of our customer, team members and Company data is critically important to us. Our customers and team members have a high expectation that we will adequately safeguard and protect their sensitive personal information. We have become increasingly centralized and dependent upon automated information technology processes. In addition, a large portion of our business operations is conducted electronically, increasing the risk of attack or interception that could cause loss or misuse of data, system failures or disruption of operations. This risk has increased with the launch of our e commerce platform in fiscal 2014. Improper activities by third parties, exploitation of encryption technology, new data hacking tools and discoveries and other events or developments may result in a future compromise or breach of our networks, payment card terminals or other payment systems. In particular, the techniques used by criminals to obtain unauthorized access to sensitive data change frequently and often are not recognized until launched against a target; accordingly, we may be unable to anticipate these techniques or implement adequate preventative measures. Any failure to maintain the security of our customers' sensitive information, or data belonging to ourselves or our suppliers, could put us at a competitive disadvantage, result in deterioration of our customers' confidence in us, and subject us to potential litigation, liability, fines and penalties, resulting in a possible material adverse impact on our financial condition and results of operations. While we maintain insurance coverage that may, subject to policy terms and conditions, cover certain aspects of cyber risks, such insurance coverage may be insufficient to cover all losses and would not remedy damage to our reputation. There can be no assurance that we will not suffer a criminal attack in the future, that unauthorized parties will not gain access to personal information, or that any such incident will be discovered in a timely manner.

Our reliance on foreign suppliers increases our risk of obtaining adequate, timely and cost-effective product supplies.

To a significant extent, we rely on foreign manufacturers for our merchandise, particularly manufacturers located in China. In addition, many of our domestic suppliers purchase a portion of their products from foreign sources. This reliance increases the risk that we will not have adequate and timely supplies of various products due to local political, economic, social or environmental conditions (including acts of terrorism, the outbreak of war or the occurrence of a natural disaster), transportation delays (including dock strikes and other work stoppages), restrictive actions by foreign governments, or changes in U.S. laws and regulations affecting imports or domestic distribution. Reliance on foreign manufacturers also increases our exposure to trade infringement claims and reduces our ability to return product for various reasons.

We are at a risk for higher costs associated with goods manufactured in China. Significant increases in wages or wage taxes paid by contract facilities may increase the cost of goods manufactured, which could have a material adverse effect on our profit margins and profitability.

All of our products manufactured overseas and imported into the U.S. are subject to duties collected by the U.S. Customs Service. We may be subjected to additional duties or tariffs, significant monetary penalties, the seizure and forfeiture of the products we are attempting to import, or the loss of import privileges if we or our suppliers are found to be in violation of U.S. laws and regulations applicable to the importation of our products.

Table of Contents

Our growth depends on our ability to increase comparable store sales and to open new stores.

We anticipate our sales growth will primarily come from increasing comparable store sales. Profitability growth would then depend significantly on our ability to improve gross margin. Another business strategy is to continue to expand our base of retail stores. We may be unable to continue our store growth strategy if we cannot identify suitable sites for additional stores, negotiate acceptable leases, access sufficient capital to support store growth, or hire and train a sufficient number of qualified team members. If we are unable to accomplish these strategies, our ability to increase our sales, profitability and cash flow could be impaired.

Damage to the reputation of the Michaels brand or our private and exclusive brands could adversely affect our sales.

We believe the Michaels brand name and many of our private and exclusive brand names are powerful sales and marketing tools and we devote significant resources to promoting and protecting them. To be successful in the future, we must continue to preserve, grow and utilize the value of Michaels' reputation. Reputational value is based in large part on perceptions of subjective qualities, and even isolated incidents may erode trust and confidence. In addition, we develop and promote private and exclusive brands, which we believe have generated national recognition. Our Michaels private brands totaled approximately 58% of net sales in fiscal 2017. Damage to the reputations (whether or not justified) of our brand names could arise from product failures, data privacy or security incidents, litigation or various forms of adverse publicity (including adverse publicity generated as a result of a vendor's or a supplier's failure to comply with general social accountability practices), especially in social media outlets, and may generate negative customer sentiment, potentially resulting in a reduction in our sales and earnings.

Suppliers from whom our products are sourced may fail us and transitioning to other qualified vendors could materially adversely affect our revenue and profit growth.

The products we sell are sourced from a wide variety of domestic and international vendors. Global sourcing has become an increasingly important part of our business, as we have undertaken efforts to increase the amount of product we source directly from overseas manufacturers. Our ability to find qualified vendors who meet our standards and supply products in a timely and efficient manner is a significant challenge, especially with respect to goods sourced from outside the U.S. Any issues related to transitioning vendors could adversely affect our revenue and gross profit.

Many of our suppliers are small firms that produce a limited number of items. Given their limited resources, these firms are susceptible to cash flow issues, access to capital, production difficulties, quality control issues and problems in delivering agreed upon quantities on schedule. We may not be able, if necessary, to return products to these suppliers and obtain refunds of our purchase price or obtain reimbursement or indemnification from them if their products prove defective. These suppliers may also be unable to withstand a downturn in economic conditions.

Significant failures on the part of our key suppliers could have a material adverse effect on our results of operations.

In addition, many of these suppliers require extensive advance notice of our requirements to supply products in the quantities we desire. This long lead time may limit our ability to respond timely to shifts in demand.

Changes in regulations or enforcement, or our failure to comply with existing or future regulations, may adversely impact our business.

We are subject to federal, state and local regulations with respect to our operations in the U.S. We are further subject to federal, provincial and local regulations internationally, including in Canada and China, each of which are distinct from those in the U.S., and may be subject to greater international regulation as our business expands. There are a number of legislative and regulatory initiatives that could adversely impact our business if they are enacted or enforced. Those initiatives include wage or workforce issues (such as minimum wage requirements, overtime and other working conditions and citizenship requirements), collective bargaining matters, environmental regulation, price and promotion regulation, trade regulations and others.

Proposed changes in tax regulations may also change our effective tax rate as our business is subject to a combination of applicable tax rates in the various countries, states and other jurisdictions in which we operate. On December 22, 2017, the Tax Cuts and Jobs Act (the “Tax Act”) was signed into law. The Tax Act changes U.S. tax law and includes numerous provisions that affect our business, including reducing our corporate tax rate from 35% to 21% effective January 1, 2018. The Tax Act also introduces changes that impact business-related exclusions, deductions and

Table of Contents

credits. We are continuing to evaluate the impact of the Tax Act on our business and results of operations. Many of the income tax effects of the Tax Act that we have accounted for in fiscal 2017 are based on reasonable estimates and are provisional. See Note 9 to the consolidated financial statements for additional information. The U.S. Treasury is expected to issue additional regulations and guidance in connection with the Tax Act, which may alter interpretations of its provisions and change our preliminary analysis and conclusions. Any changes in regulations or additional guidance could adversely affect our provision for income taxes.

New accounting pronouncements and interpretations of existing accounting rules and practices have occurred and may occur in the future. A change in accounting standards or practices can have a significant effect on our reported results of operations. Failure to comply with legal requirements could result in, among other things, increased litigation risk that could affect us adversely by subjecting us to significant monetary damages and other remedies or by increasing our litigation expenses, administrative enforcement actions, fines and civil and criminal liability. We are currently subject to various class action lawsuits alleging violations of wage and workforce laws and similar matters (see Note 13 to the consolidated financial statements). If such issues become more expensive to address, or if new issues arise, they could increase our expenses, generate negative publicity, or otherwise adversely affect us.

Significant increases in inflation or commodity prices, such as petroleum, natural gas, electricity, steel, wood and paper, may adversely affect our costs, including cost of merchandise.

Significant future increases in commodity prices or inflation could adversely affect our costs, including cost of merchandise and distribution costs. Furthermore, the transportation industry may experience a shortage or reduction of capacity, which could be exacerbated by higher fuel prices. Our results of operations may be adversely affected if we are unable to secure, or are able to secure only at significantly higher costs, adequate transportation resources to fulfill our receipt of goods or delivery schedules to the stores.

We may be subject to information technology system failures or network disruptions, or our information systems may prove inadequate, resulting in damage to our reputation, business operations and financial condition.

We depend on our management information systems for many aspects of our business, including our perpetual inventory, automated replenishment and weighted-average cost stock ledger systems which are necessary to properly forecast, manage, analyze and record our inventory. The Company may be subject to information technology system failures and network disruptions. These may be caused by natural disasters, accidents, power disruptions, telecommunications failures, acts of terrorism or war, denial of service attacks, computer viruses, physical or electronic break ins, or similar events or disruptions. System redundancy may be ineffective or inadequate, and the Company's disaster recovery planning may not be sufficient for all eventualities. Such failures or disruptions could prevent access to our online services and preclude store transactions. System failures and disruptions could also impede the manufacturing and shipping of products, transactions processing and financial reporting. Additionally, we may be materially adversely affected if we are unable to improve, upgrade, maintain, and expand our systems.

Improvements to our supply chain may not be fully successful.

An important part of our efforts to achieve efficiencies, cost reductions and sales and cash flow growth is the identification and implementation of improvements to our supply chain, including merchandise ordering, transportation, direct sourcing initiatives and receipt processing. We continue to implement enhancements to our distribution systems and processes, which are designed to improve efficiency throughout the supply chain and at our stores. If we are unable to successfully implement significant changes, this could disrupt our supply chain, which could have a material adverse impact on our results of operations.

We are exposed to fluctuations in exchange rates between the U.S. and Canadian dollar, which is the functional currency of our Canadian subsidiaries.

Our Canadian operating subsidiaries purchase inventory in U.S. dollars, which is sold in Canadian dollars and exposes us to foreign exchange rate fluctuations. In addition, our customers at border locations can be sensitive to cross border price differences. Substantial foreign currency fluctuations could adversely affect our business. In fiscal 2017, exchange rates had a positive impact on our consolidated operating results due to a 6% increase in the Canadian exchange rate.

Table of Contents

We are dependent upon the services of our senior management team.

We are dependent on the services, abilities and experience of our executive officers, including Carl S. Rubin, our Chief Executive Officer, and Denise A. Paulonis, our Chief Financial Officer. The permanent loss of the services of either of these senior executives and any change in the composition of our senior management team could have a negative impact on our ability to execute on our business and operating strategies.

Any difficulty executing or integrating an acquisition, a business combination or a major business initiative could adversely affect our business or results of operations.

Any difficulty in executing or integrating an acquisition, a business combination or a major business initiative may result in our inability to achieve anticipated benefits from these transactions in the time frame that we anticipate, or at all, which could adversely affect our business or results of operations. Such transactions may also disrupt the operation of our current activities and divert management's attention from other business matters. In addition, the Company's current credit agreements place certain limited constraints on our ability to make an acquisition or enter into a business combination, and future borrowing agreements could place tighter constraints on such actions.

Our marketing programs, e-commerce initiatives and use of consumer information are governed by an evolving set of laws and enforcement trends and unfavorable changes in those laws or trends, or our failure to comply with existing or future laws, could substantially harm our business and results of operations.

We collect, maintain and use data provided to us through our online activities and other customer interactions in our business. Our current and future marketing programs depend on our ability to collect, maintain and use this information, and our ability to do so is subject to certain contractual restrictions in third party contracts as well as evolving international, federal and state laws and enforcement trends. We strive to comply with all applicable laws and other legal obligations relating to privacy, data protection and consumer protection, including those relating to the use of data for marketing purposes. It is possible, however, that these requirements may be interpreted and applied in a manner that is inconsistent from one jurisdiction to another, may conflict with other rules or may conflict with our practices. If so, we may suffer damage to our reputation and be subject to proceedings or actions against us by governmental entities or others. Any such proceeding or action could hurt our reputation, force us to spend significant amounts to defend our practices, distract our management, increase our costs of doing business and result in monetary liability.

In addition, as data privacy and marketing laws change, we may incur additional costs to ensure we remain in compliance with such laws. If applicable data privacy and marketing laws become more restrictive at the federal or state level, our compliance costs may increase, our ability to effectively engage customers via personalized marketing may decrease, our investment in our e-commerce platform may not be fully realized, our opportunities for growth may

be curtailed by our compliance capabilities or reputational harm and our potential liability for security breaches may increase.

Product recalls and/or product liability, as well as changes in product safety and other consumer protection laws, may adversely impact our operations, merchandise offerings, reputation, results of operations, cash flow and financial condition.

We are subject to regulations by a variety of federal, state and international regulatory authorities, including the Consumer Product Safety Commission. In fiscal 2017, we purchased merchandise from approximately 650 vendors. Since a majority of our merchandise is manufactured in foreign countries, one or more of our vendors may not adhere to product safety requirements or our quality control standards, and we may not identify the deficiency before merchandise ships to our stores. Any issues of product safety, including but not limited to those manufactured in foreign countries, could cause us to recall some of those products. If our vendors fail to manufacture or import merchandise that adheres to our quality control standards, our reputation and brands could be damaged, potentially leading to increases in customer litigation against us. Furthermore, to the extent we are unable to replace any recalled products, we may have to reduce our merchandise offerings, resulting in a decrease in sales, especially if a recall occurs near or during a seasonal period. If our vendors are unable or unwilling to recall products failing to meet our quality standards, we may be required to recall those products at a substantial cost to us. Moreover, changes in product safety or other consumer protection laws could lead to increased costs to us for certain merchandise, or additional labor costs associated with readying merchandise for sale. Long lead times on merchandise ordering cycles increase the difficulty for us to plan and prepare for potential changes to applicable laws. The Consumer Product Safety Improvement Act of 2008 imposes significant requirements on manufacturing, importing, testing and labeling requirements for our products. In the event that we are unable to timely

Table of Contents

comply with regulatory changes or regulators do not believe we are complying with current regulations applicable to us, significant fines or penalties could result and could adversely affect our reputation, results of operations, cash flow and financial condition.

Our total assets include intangible assets, goodwill and substantial amounts of property and equipment. Changes in estimates or projections used to assess the fair value of these assets, or operating results that are lower than our current estimates at certain store locations, may cause us to incur impairment charges that could adversely affect our results of operation.

Our total assets include intangible assets, goodwill and substantial amounts of property and equipment. We make certain estimates and projections in connection with impairment analyses for these long lived assets, in accordance with Financial Accounting Standards Board Accounting Standards Codification ("ASC") 360, "Property, Plant and Equipment", and ASC 350, "Intangibles—Goodwill and Other". We also review the carrying value of these assets for impairment on an annual basis and whenever events or changes in circumstances indicate that the carrying value of the asset may not be recoverable. We will record an impairment loss when the carrying value of the underlying asset, asset group or reporting unit exceeds its fair value. These calculations require us to make a number of estimates and projections of future results. If these estimates or projections change, we may be required to record additional impairment charges on certain of these assets. If these impairment charges are significant, our results of operations would be adversely affected.

Changes in newspaper subscription rates may result in reduced exposure to our circular advertisements.

A substantial portion of our promotional activities utilize circular advertisements in local newspapers. A continued decline in consumer subscriptions of these newspapers could reduce the frequency with which consumers receive our circular advertisements, thereby negatively affecting sales, results of operations and cash flow.

Disruptions in the capital markets could increase our costs of doing business.

Any disruption in the capital markets could make it difficult for us to raise additional capital when needed, or to eventually refinance our existing indebtedness on acceptable terms or at all. Similarly, if our suppliers face challenges in obtaining credit when needed, or otherwise face difficult business conditions, they may become unable to offer us the merchandise we use in our business thereby causing reductions in our revenues, or they may demand more favorable payment terms, all of which could adversely affect our results of operations, cash flows and financial condition.

Our real estate leases generally obligate us for long periods, which subject us to various financial risks.

We lease virtually all of our store, distribution center and administrative locations, generally for long terms. While we have the right to terminate some of our leases under specified conditions by making specified payments, we may not be able to terminate a particular lease if or when we would like to do so. If we decide to close stores, we are generally required to continue paying rent and operating expenses for the balance of the lease term, or pay to exercise rights to terminate, and the performance of any of these obligations may be expensive. When we assign or sublease vacated locations, we may remain liable on the lease obligations if the assignee or sublessee does not perform. In addition, when leases for the stores in our ongoing operations expire, we may be unable to negotiate renewals, either on commercially acceptable terms, or at all, which could cause us to close stores. Accordingly, we are subject to the risks associated with leasing real estate, which can have a material adverse effect on our results.

We have co-sourced certain of our information technology, accounts payable, payroll, accounting and human resources functions and may co-source other administrative functions, which makes us more dependent upon third parties.

We place significant reliance on third party providers for the co-sourcing of certain of our information technology ("IT"), accounts payable, payroll, accounting and human resources functions. This co-sourcing initiative is a component of our ongoing strategy to increase efficiencies, increase our IT capabilities, manage our costs and seek additional cost savings. These functions are generally performed in offshore locations. As a result, we rely on third parties to ensure that certain functional needs are sufficiently met. This reliance subjects us to risks arising from the loss of control over these processes, changes in pricing that may affect our operating results, and potentially, termination of provision of these services by our suppliers. If our service providers fail to perform, we may have difficulty arranging for an alternate supplier or rebuilding our own internal resources, and we could incur significant costs, all of which may have a significant adverse effect on our business. We may co-source other administrative functions in the future, which would further increase our

Table of Contents

reliance on third parties. Further, the use of offshore service providers may expose us to risks related to local political, economic, social or environmental conditions (including acts of terrorism, the outbreak of war, or the occurrence of natural disaster), restrictive actions by foreign governments or changes in U.S. laws and regulations.

Failure to attract and retain quality sales, distribution center and other team members in appropriate numbers as well as experienced buying and management personnel could adversely affect our performance.

Our performance depends on recruiting, developing, training and retaining quality sales, distribution center and other team members in large numbers as well as experienced buying and management personnel. Many of our store level team members are in entry level or part time positions with historically high rates of turnover. Our ability to meet our labor needs while controlling labor costs is subject to external factors such as unemployment levels, prevailing wage rates, minimum wage legislation, changing demographics, health and other insurance costs and governmental labor and employment requirements. In the event of increasing wage rates, if we fail to increase our wages competitively, the quality of our workforce could decline, causing our customer service to suffer, while increasing our wages could cause our earnings to decrease. The market for retail management is highly competitive and, similar to other retailers, we face challenges in securing sufficient management talent. If we do not continue to attract, train and retain quality team members, our performance could be adversely affected.

The Sponsors continue to have significant influence over us and their interest may conflict with yours and those of our Company.

Although we are no longer a “controlled company”, the Sponsors continue to beneficially own approximately 40% of our outstanding common stock as of February 3, 2018. For so long as the Sponsors continue to hold a significant portion of our outstanding common stock, the Sponsors may continue to be able to strongly influence or effectively control our decisions.

Because our executive officers hold or may hold restricted shares or option awards that will vest upon a change of control, these officers may have interests in us that conflict with yours.

Our executive officers hold or may hold restricted shares and options to purchase shares that would automatically vest upon a change of control. As a result, these officers may view certain change of control transactions more favorably than an investor due to the vesting opportunities available to them and, as a result, may have an economic incentive to support a transaction that may not be viewed as favorable by other stockholders.

Our holding company structure makes us, and certain of our direct and indirect subsidiaries, dependent on the operations of our, and their, subsidiaries to meet our financial obligations.

We, and certain of our direct and indirect subsidiaries, have no significant assets other than the interest in direct and indirect subsidiaries, including MSI. As a result, we, and certain of our direct and indirect subsidiaries, rely exclusively upon payments, dividends and distributions from direct and indirect subsidiaries' cash flows. Our ability to pay dividends, if any are declared, to our shareholders is dependent on the ability of our subsidiaries to generate sufficient net income and cash flows to pay upstream dividends and make loans or loan repayments.

Our stock price could be extremely volatile and may decline and, as a result, you may not be able to resell your shares at or above the price you paid for them.

Since listing our common stock on The NASDAQ Global Select Market in June 2014 in connection with our IPO, the price of our common stock has ranged from a low of \$14.51 on August 1, 2014 to a high of \$31.37 on June 6, 2016. In addition, the stock market in general has been highly volatile. As a result, the market price of our common stock is likely to be similarly volatile, and investors in our common stock may experience a decrease, which could be substantial, in the value of their stock, including decreases unrelated to our operating performance or prospects, and could lose part or all of their investment. The price of our common stock could be subject to wide fluctuations in response to a number of factors, including those described elsewhere in this filing and others such as:

- variations in our operating performance and the performance of our competitors;

Table of Contents

- actual or anticipated fluctuations in our quarterly or annual operating results;
- publication of research reports by securities analysts about us or our competitors or our industry;
- our failure or the failure of our competitors to meet analysts' projections or guidance that we or our competitors may give to the market;
- additions and departures of key personnel;
- strategic decisions by us or our competitors, such as acquisitions, divestitures, spin offs, joint ventures, strategic investments or changes in business strategy;
- the passage of legislation or other regulatory developments affecting us or our industry;
- speculation in the press or investment community;
- adverse publicity;
- changes in accounting principles;
- terrorist acts, acts of war or periods of widespread civil unrest;
- natural disasters and other calamities; and
- changes in general market and economic conditions.

In the past, securities class action litigation has often been initiated against companies following periods of volatility in their stock price. This type of litigation could result in substantial costs and divert our management's attention and resources, and could also require us to make substantial payments to satisfy judgments or to settle litigation.

Provisions in our charter documents and Delaware law may deter takeover efforts that may be beneficial to stockholder value.

Delaware law and provisions in our certificate of incorporation and bylaws could make it harder for a third party to acquire us, even if doing so might be beneficial to our stockholders. These provisions include limitations on our stockholders' ability to act by written consent. In addition, our Board has the right to issue preferred stock without stockholder approval that could be used to dilute a potential hostile acquirer. Our certificate of incorporation imposes some restrictions on mergers and other business combinations between us and any holder of 15% or more of our outstanding common stock other than the Sponsors, who own approximately 40% of our outstanding common stock as of February 3, 2018. As a result, you may lose your ability to sell your stock for a price in excess of the prevailing market price due to these protective measures and efforts by stockholders to change the direction or management of the Company may be unsuccessful.

Our certificate of incorporation designates the Court of Chancery of the State of Delaware as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by our stockholders, which could limit our stockholders' ability to obtain a favorable judicial forum for disputes with us or our directors, officers or employees.

Our certificate of incorporation provides that, subject to limited exceptions, the Court of Chancery of the State of Delaware will be the sole and exclusive forum for (i) any derivative action or proceeding brought on our behalf, (ii) any action asserting a claim of breach of a fiduciary duty owed by any director, officer or other employee to us or our stockholders, (iii) any action asserting a claim against us arising pursuant to any provision of the Delaware General Corporation Law or our certificate of incorporation or the bylaws or (iv) any action asserting a claim against us governed by the internal affairs doctrine. Any person or entity purchasing or otherwise acquiring any interest in shares of our capital stock shall be deemed to have notice of and to have consented to the provisions of our certificate of incorporation described above. This choice of forum provision may limit a stockholder's ability to bring a claim in a judicial forum that it finds

Table of Contents

favorable for disputes with us or our directors, officers or other employees, which may discourage such lawsuits against us and our directors, officers and employees. Alternatively, if a court were to find these provisions of our certificate of incorporation inapplicable to, or unenforceable in respect of, one or more of the specified types of actions or proceedings, we may incur additional costs associated with resolving such matters in other jurisdictions, which could adversely affect our business and financial condition.

Because we have no current plans to pay cash dividends on our common stock for the foreseeable future, you may not receive any return on investment unless you sell your common stock for a price greater than you paid.

We plan to retain future earnings, if any, for future operation, expansion and debt repayment and have no current plans to pay any cash dividends for the foreseeable future. Any decision to declare and pay dividends in the future will be made at the discretion of our Board and will depend on, among other things, our results of operations, financial condition, cash requirements, contractual restrictions and other factors that our Board may deem relevant. In addition, our ability to pay dividends may be limited by covenants of any existing and future outstanding indebtedness we or our subsidiaries incur, including our Senior Secured Credit Facilities. As a result, you may not receive any return on an investment in our common stock unless you sell our common stock for a price greater than you paid.

ITEM 1B. UNRESOLVED STAFF COMMENTS.

Not applicable.

Table of Contents

ITEM 2. PROPERTIES

We lease substantially all of the sites for our Michaels, Aaron Brothers and Pat Catan's stores, with the majority of our stores having initial lease terms of approximately 10 years. The leases are generally renewable, with increases in lease rental rates. Lessors have made leasehold improvements to prepare our stores for opening under a majority of our existing leases. As of February 3, 2018, in connection with stores that we plan to open or relocate in future fiscal years, we had signed approximately 49 leases for Michaels stores. Management believes our facilities are suitable and adequate for our business as presently conducted.

As of February 3, 2018, we leased the following non-store facilities:

Locations	Square Footage
Distribution centers:	
Hazleton, Pennsylvania	692,000
Jacksonville, Florida	506,000
Lancaster, California	763,000
Centralia, Washington	718,000
New Lenox, Illinois	693,000
Haslet, Texas	433,000
City of Commerce, California (Aaron Brothers)	174,000
Strongsville, Ohio (Darice warehouse)	287,000
	4,266,000
Artistree:	
DFW Airport, Texas (regional processing and fulfillment operations center)	271,000
Kernersville, North Carolina (manufacturing plant and regional processing center)	156,000
City of Industry, California (regional processing center) (1)	90,000
Mississauga, Ontario (regional processing center)	62,000
	579,000
Office space:	
Irving, Texas (corporate office support center)	296,000
Strongsville, Ohio (Lamrite office support center)	557,000
Atlanta, Georgia (Darice showroom)	6,000
Mississauga, Ontario (Canadian regional office)	3,000
Kowloon Bay, Hong Kong	4,000
Ningbo, China	17,000
	883,000
Coppell, Texas (new store staging warehouse)	82,000
	5,810,000

(1) Closed in the first quarter of fiscal 2018.

PART II

ITEM 5. MARKET FOR REGISTRANT’S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

Market Information

Our common stock is listed on The NASDAQ Global Select Market under the symbol “MIK”. As of February 3, 2018, there were approximately 377 holders of record of our common stock. The following table sets forth the high and low sales price per share for the periods indicated of our common stock:

	Fiscal Year			
	2017		2016	
	High	Low	High	Low
First Quarter	\$ 24.16	\$ 19.00	\$ 29.56	\$ 20.25
Second Quarter	\$ 23.53	\$ 17.25	\$ 31.37	\$ 25.52
Third Quarter	\$ 24.24	\$ 18.91	\$ 26.57	\$ 22.11
Fourth Quarter	\$ 27.87	\$ 17.72	\$ 25.57	\$ 19.25

Dividends

The Company does not anticipate paying any cash dividends in the near future. We anticipate that all of our earnings for the foreseeable future will be used to repay debt, to repurchase outstanding shares, for working capital, to support our operations and to finance the growth and development of our business. Any future determination to pay dividends will be at the discretion of our Board, subject to compliance with applicable law and any contractual provisions, including under agreements for indebtedness, that restrict or limit our ability to pay dividends, and will depend upon, among other factors, our results of operations, financial condition, earnings, capital requirements and other factors that our Board may deem relevant. For additional information concerning restrictions relating to agreements for indebtedness, see Note 7 to the consolidated financial statements.

Performance Graph

The following graph shows a comparison of cumulative total return to holders of The Michaels Companies, Inc.'s common shares against the cumulative total return of the S&P 500 Index and S&P 500 Retail Index from June 27, 2014 (the date the Company's stock commenced trading on the NASDAQ Global Select Market) through February 3, 2018. The comparison of the cumulative total returns for each investment assumes that \$100 was invested in The Michaels Companies, Inc. common shares and the respective indices on June 27, 2014 through February 3, 2018 including reinvestment of any dividends. Historical share price performance should not be relied upon as an indication of future share price performance.

	6/27/2014	1/31/2015	1/30/2016	1/28/2017	2/3/2018

Total stores open at end of year	1,371	1,367	1,313	1,288	1,257

- (1) Fiscal 2017 consisted of 53 weeks while all other periods presented consisted of 52 weeks.
- (2) Fiscal 2016 results of operations includes \$11.4 million of non-recurring purchase accounting adjustments and integration costs related to the acquisition of Lamrite on February 2, 2016.
- (3) Fiscal 2014 operating income includes a \$32.3 million charge associated with the IPO primarily related to a \$30.2 million fee paid to certain related parties to terminate our management agreement.
- (4) Net income for fiscal 2017 includes \$8.5 million of additional income tax expense as a result of the Tax Cuts and Jobs Act.
- (5) The calculation of average net sales per selling square foot includes only Michaels comparable stores. Aaron Brothers, which is a smaller store model, and Pat Catan's, which is a larger store model, are excluded from the calculation.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

We report on the basis of a 52- or 53-week fiscal year, which ends on the Saturday closest to January 31. All references to fiscal year mean the year in which that fiscal year began. References to "fiscal 2017" relate to the 53 weeks ended February 3, 2018, references to "fiscal 2016" relate to the 52 weeks ended January 28, 2017 and references to "fiscal 2015" relate to the 52 weeks ended January 30, 2016.

Michaels Stores, Inc. ("MSI") is headquartered in Irving, Texas and was incorporated in the state of Delaware in 1983. In July 2013, MSI was reorganized into a holding company structure and The Michaels Companies, Inc. (the "Company") was incorporated in Delaware in connection with the reorganization.

Fiscal 2017 Overview

With \$5,362.0 million in net sales in fiscal 2017, we are the largest arts and crafts specialty retailer in North America (based on store count) providing materials, project ideas and education for creative activities, under the retail brands of Michaels, Aaron Brothers and Pat Catan's. We also operate an international wholesale business under the Darice brand name and a market-leading vertically-integrated custom framing business under the Artistree brand name. At February 3, 2018, we operated 1,238 Michaels stores, 97 Aaron Brothers stores and 36 Pat Catan's stores.

Financial highlights for fiscal 2017 include the following:

- Net sales increased to \$5,362.0 million, a 3.2% improvement over last year, primarily driven by \$78.6 million associated with the 53rd week in fiscal 2017 and the opening of 15 additional Michaels stores (net of closures).
- Comparable store sales increased 0.9%, or 0.7%, at constant exchange rates.
- Our Michaels retail stores' private brand merchandise drove approximately 58% of net sales in fiscal 2017 compared to 57% of net sales in fiscal 2016.
- We reported operating income of \$735.4 million, an increase of 2.8% from the prior year, including \$11.4 million of purchase accounting adjustments and integration costs recorded in the prior year.

- As a result of the Tax Cuts and Jobs Act (the “Tax Act”), we recorded an \$8.5 million charge which includes provisional adjustments of \$10.8 million related to repatriation taxes for accumulated earnings of foreign subsidiaries and \$3.8 million related to the revaluation of net deferred tax assets, partially offset by a \$6.1 million benefit due to a decrease in the federal statutory tax rate from 35% to 21%.
- We reported net income of \$390.5 million, an increase of 3.3% from the prior year.
- Adjusted EBITDA, a non-GAAP measure that is a required calculation in our debt agreements, improved by 1.8%, from \$872.7 million in fiscal 2016 to \$888.5 million in fiscal 2017 (see “Management Discussion and Analysis of Financial Condition and Results of Operations - Non-GAAP Measures”).
- We recognized approximately \$46 million of cost savings in fiscal 2017 as a result of sourcing initiatives that began in fiscal 2016.
- Our Board of Directors authorized the Company to purchase an additional \$500.0 million of the Company’s common stock on the open market.

In fiscal 2017, we made significant progress implementing our strategic initiatives, including:

- the expansion of our integrated MAKE brand campaign, intended to leverage the growing customer trends of “do-it-yourself” and “personalization” while also positioning Michaels in a more contemporary light;

Table of Contents

- strengthening our omnichannel offering with the refresh and expansion of existing sites, including Michaels.com and ConsumerCrafts.com, and the introduction of new platforms, including the Michaels app, which more effectively connects our store and online experience, and Framerspointe.com, an online custom framing solution;
- supporting the growth of our e-commerce businesses by diversifying how we deliver product to customers through the launch of ship from store and the introduction of buy online, pick up in store in several markets, reducing our dependence on third-party fulfillment services to improve the customer experience and, ultimately, reduce our fulfillment costs;
 - offering customers a more experiential shopping experience in Michaels stores, with an expanded selection of free classes and MakeBreaks, which give customers opportunities to try simple projects and Make for themselves;
- the upgrade of our POS system in all U.S. stores, providing customers with a faster checkout experience and providing us with new promotional capabilities;
- the enhancement of our merchandise assortment through channel leading, trend-right product and exclusive partnerships, including Martha Stewart®, Disney® and Caron Cakes™;
- the presentation of a stronger value statement to customers with the expansion of our Every Day Value program, increased use of clear, even-dollar price points for key items, and the introduction of a new price match guarantee program; and
- generating meaningful product cost savings as part of our Fuel for Growth efforts, and supporting these efforts with the expansion of our Darice Global Sourcing team in China.

Fiscal 2018 Outlook

In fiscal 2018, we intend to continue to expand our industry leadership through innovation and strategic initiatives such as:

- expanding our digital platforms to capture more market share in the arts and crafts channel;
- creating a more seamless omnichannel shopping experience for customers with the expansion of buy online, pick up in store throughout the U.S. and additional enhancements to the Michaels app;

- launching customer-centric, holistic online solutions to help customers bring their important celebrations to life;
- investing in our technology and supply chain to build a foundation that will enable us to fully insource e-commerce fulfillment in fiscal 2019, reducing our fulfillment costs and improving operational efficiencies;
- leveraging our size and scale to curate our assortment, both in-store and online, to offer customers more newness, more exclusives and trend-right product;
- creating flexible merchandising space in more stores to highlight new product and present stronger, more cohesive seasonal product statements to customers;
- further strengthening our value perception through the expansion of our Every Day Value program, increased utilization of clear, even dollar price points, and the introduction of a new bulk program on Michaels.com;
- investing in new data analytic capabilities to help us leverage our extensive customer database to drive a more customer-centric strategy;

Table of Contents

- repositioning our Aaron Brothers brand as a store-within-a-store to provide custom framing services in all Michaels stores and rebranding Framerspointe.com to AaronBrothers.com; and
- generating meaningful cost savings through our ongoing Fuel for Growth efforts.

Comparable Store Sales

Comparable store sales represents the change in net sales for stores open the same number of months in the comparable period of the previous year, including stores that were relocated or expanded during either period, as well as e-commerce sales. A store is deemed to become comparable in its 14th month of operation in order to eliminate grand opening sales distortions. A store temporarily closed more than two weeks is not considered comparable during the month it is closed. If a store is closed longer than two weeks but less than two months, it becomes comparable in the month in which it reopens, subject to a mid-month convention. A store closed longer than two months becomes comparable in its 14th month of operation after its reopening. As of the beginning of fiscal 2017, Pat Catan's stores met the requirements for inclusion in comparable store sales. Comparable store sales exclude the impact of the 53rd week in fiscal 2017.

Results of Operations

The following table sets forth the percentage relationship to net sales of line items of our consolidated statements of comprehensive income. This table should be read in conjunction with the following discussion and with our consolidated financial statements, including the related notes.

	Fiscal Year					
	2017		2016		2015	
Net sales	100.0	%	100.0	%	100.0	%

Income taxes	4.0		3.9		4.3	
Net income	7.3	%	7.3	%	7.4	%

Fiscal 2017 Compared to Fiscal 2016

Net Sales. Net sales increased \$164.7 million in fiscal 2017, or 3.2%, compared to fiscal 2016. The increase in net sales was due to \$78.6 million associated with the 53rd week in fiscal 2017, a \$49.9 million increase primarily related to 15 additional Michaels stores opened (net of closures) since January 28, 2017 and a \$47.8 million increase in comparable store sales. Comparable store sales increased 0.9% compared to fiscal 2016, or 0.7% at constant exchange rates, due to an increase in average ticket and an increase in customer transactions. Wholesale revenue decreased \$11.3 million primarily due to the timing differences between new customer acquisitions and the expected decline in sales from legacy customers as a result of the Lamrite acquisition in fiscal 2016.

Gross Profit. Gross profit was 39.7% of net sales in fiscal 2017 compared to 39.0% in fiscal 2016. The 70 basis point increase was primarily due to our sourcing initiatives that began in fiscal 2016, occupancy cost leverage as a result of the 53rd week in fiscal 2017 and \$4.0 million of non-recurring purchase accounting adjustments related to inventory recorded in the prior year. The increase was partially offset by an increase in shrink and distribution related costs.

Selling, General and Administrative. Selling, general and administrative (“SG&A”) was 25.9% of net sales in fiscal 2017 compared to 25.2% in fiscal 2016. SG&A increased \$82.3 million to \$1,390.4 million in fiscal 2017. The increase was due to a \$37.6 million increase in incentive-based compensation, a \$23.5 million increase in payroll related expenses primarily due to the 53rd week in fiscal 2017, \$9.9 million of higher healthcare costs, a \$5.3 million increase in

Table of Contents

marketing expenses and \$3.5 million of expenses primarily associated with operating 15 additional Michaels stores (net of closures). The increase was partially offset by \$7.4 million of Lamrite integration costs recorded in the prior year.

Interest Expense. Interest expense increased \$2.8 million to \$129.1 million in fiscal 2017 compared to fiscal 2016. The increase was primarily due to \$4.4 million in additional interest related to the 53rd week in fiscal 2017 and a higher interest rate on our senior secured term loan facility (“Amended Term Loan Credit Facility”). The increase was partially offset by \$1.1 million of interest savings due to the refinancing of our term loan credit facility in the third quarter of fiscal 2016 and \$0.4 million in interest savings related to the refinancing of the senior secured asset-based revolving credit facility in the second quarter of fiscal 2016.

Losses on Early Extinguishments of Debt and Refinancing Costs. We recorded a loss on the early extinguishment of debt of \$7.3 million during fiscal 2016, consisting of \$6.9 million related to the amendment of our term loan credit facility and \$0.4 million related to the refinancing of our senior secured asset-based revolving credit facility.

Income Taxes. The effective tax rate for fiscal 2017 was 35.5% compared to 35.0% in the prior year. The effective tax rate for fiscal 2017 was higher than the prior year due to an \$8.5 million charge as a result of the enactment of the Tax Act. The charge consists of provisional adjustments of \$10.8 million related to repatriation taxes for accumulated earnings of foreign subsidiaries and \$3.8 million related to the revaluation of net deferred tax assets, partially offset by a \$6.1 million benefit due to a decrease in the federal statutory tax rate from 35% to 21%. In addition, we realized tax benefits associated with our direct sourcing initiatives that began in the second half of fiscal 2016 and \$3.2 million of excess tax benefits in fiscal 2017 associated with the adoption of a new accounting standard related to share-based compensation.

Fiscal 2016 Compared to Fiscal 2015

Net Sales. Net sales increased \$284.5 million in fiscal 2016, or 5.8%, compared to fiscal 2015. The increase in net sales was due to a \$232.3 million increase related to the acquisition of Lamrite in fiscal 2016 and a \$75.1 million increase primarily related to 27 additional Michaels stores opened (net of closures) since January 30, 2016. The increase was partially offset by a \$22.9 million decrease in comparable store sales. Comparable store sales decreased 0.5% compared to fiscal 2015 due to a decrease in customer transactions, partially offset by an increase in average ticket.

Gross Profit. Gross profit was 39.0% of net sales in fiscal 2016 compared to 40.1% in fiscal 2015. The 110 basis point decline was primarily due to an increase in promotional activity and lower margins associated with Lamrite’s wholesale business, including \$4.0 million of non-recurring purchase accounting adjustments related to inventory. The decline was partially offset by an increase in retail prices and sourcing efficiencies.

Selling, General and Administrative. SG&A was 25.2% of net sales in fiscal 2016 compared to 25.3% in fiscal 2015. SG&A increased \$65.1 million to \$1,308.1 million in fiscal 2016 due primarily to \$72.4 million of expenses related to Lamrite, including \$7.4 million of integration costs, a \$14.9 million increase in payroll-related costs, \$10.7 million of costs primarily associated with operating 27 additional Michaels stores (net of closures) and \$9.0 million of costs to create flexible space in our stores to present new and seasonally relevant merchandise. The increase was partially offset by a \$45.6 million decrease in performance-based compensation.

Interest Expense. Interest expense decreased \$13.1 million to \$126.3 million in fiscal 2016 compared to fiscal 2015. The decrease was primarily attributable to \$8.0 million of interest savings from the partial redemption of our term loan credit facility in the fourth quarter of fiscal 2015, \$3.8 million of interest savings from the redemption of our remaining outstanding 7.5%/8.25% PIK Toggle Notes due 2018 ("PIK Notes") during the second quarter of fiscal 2015 and \$1.1 million of interest savings from the refinancing of our revolving credit facility in the second quarter of fiscal 2016.

Losses on Early Extinguishments of Debt and Refinancing Costs. We recorded a loss on the early extinguishment of debt of \$7.3 million during fiscal 2016, consisting of \$6.9 million related to the amendment of our term loan credit facility and \$0.4 million related to the refinancing of our revolving credit facility. During fiscal 2015, we recorded a loss on the early extinguishment of debt of \$8.5 million related to the redemption of our remaining outstanding PIK Notes and the partial prepayment of our Term Loan Credit Facility maturing in 2020 ("Additional Term Loan"), consisting of \$4.4 million to write off related debt issuance costs, \$3.6 million of redemption premiums and a \$0.5 million write-off of the unamortized net discount of the Additional Term Loan.

Table of Contents

Income Taxes. The effective tax rate for fiscal 2016 was 35.0% compared to 36.6% in the prior year. The effective tax rate for fiscal 2016 was lower than the prior year primarily due to benefits realized associated with our direct sourcing initiatives implemented in the current year and a decrease in state taxes.

Liquidity and Capital Resources

We require cash principally for day-to-day operations, to finance capital investments, purchase inventory, service our outstanding debt and for seasonal working capital needs. We expect that our available cash, cash flow generated from operating activities and funds available under our Amended Revolving Credit Facility (as defined below) will be sufficient to fund planned capital expenditures, working capital requirements, debt repayments, debt service requirements and anticipated growth for the foreseeable future. Our ability to satisfy our liquidity needs and continue to refinance or reduce debt could be adversely affected by the occurrence of any of the events described under “Item 1A. Risk Factors” or our failure to meet our debt covenants as described below. Our Amended Revolving Credit Facility provides senior secured financing of up to \$850.0 million, subject to a borrowing base. As of February 3, 2018, the borrowing base was \$780.0 million, of which we had no outstanding borrowings, \$63.4 million of outstanding standby letters of credit and \$716.6 million of unused borrowing capacity. Our cash and cash equivalents totaled \$425.9 million at February 3, 2018.

In June 2017, the Board of Directors authorized a new share repurchase program for the Company to purchase \$500.0 million of the Company’s common stock on the open market. The share repurchase program does not have an expiration date, and the timing and number of repurchase transactions under the program will depend on market conditions, corporate considerations, debt agreements and regulatory requirements. Shares repurchased under the program are held as treasury shares until retired. During fiscal 2017, we repurchased 12.7 million shares under our share repurchase programs for an aggregate amount of \$249.5 million, including \$99.4 million repurchased under our previous authorization. As of February 3, 2018, we had \$350.0 million of availability remaining under our current program.

We had total outstanding debt of \$2,742.4 million at February 3, 2018, of which \$2,232.4 million was subject to variable interest rates and \$510.0 million was subject to fixed interest rates.

Our substantial indebtedness could adversely affect our ability to raise additional capital, limit our ability to react to changes in the economy or our industry, expose us to interest rate risk and prevent us from meeting our obligations. Management reacts strategically to changes in economic conditions and monitors compliance with debt covenants to seek to mitigate any potential material impacts to our financial condition and flexibility.

We intend to use excess operating cash flows to invest in growth opportunities, repurchase outstanding shares and repay portions of our indebtedness, depending on prevailing market conditions, liquidity requirements, contractual

restrictions and other factors. As such, we and our subsidiaries, affiliates and significant shareholders may, from time to time, seek to retire or purchase our outstanding debt (including publicly issued debt) through cash purchases and/or exchanges, in open market purchases, privately negotiated transactions, by tender offer or otherwise. If we use our excess cash flows to repay our debt, it will reduce the amount of excess cash available for additional capital expenditures.

Cash Flow from Operating Activities

Cash flows provided by operating activities were \$523.6 million in fiscal 2017, a decrease of \$40.8 million from fiscal 2016. The decrease was primarily due to a \$24.3 million increase related to the timing of interest payments during fiscal 2017 and an increase in vendor payments, partially offset by \$7.4 million of Lamrite integration costs recorded in the prior year.

Inventory decreased 0.4% to \$1,123.3 million at February 3, 2018, from \$1,127.8 million at January 28, 2017. Average inventory per Michaels store (inclusive of distribution centers, in-transit and inventory for the Company's e-commerce site) decreased 1.9% to \$810,000 at February 3, 2018, from \$826,000 at January 28, 2017. The decrease in average inventory was primarily related to our sourcing initiatives that began in fiscal 2016.

Table of Contents

Cash Flow from Investing Activities

The following table includes capital expenditures paid during the periods presented (in thousands):

	Fiscal Year		
	2017	2016	2015
New and relocated stores and stores not yet opened (1)	\$ 19,419	\$ 22,489	\$ 30,315
Existing stores	35,940	47,290	48,289
Information systems	47,894	27,584	32,228
Corporate and other	24,577	17,099	13,088
	\$ 127,830	\$ 114,462	\$ 123,920

(1) In fiscal 2017, we incurred capital expenditures related to the opening of 29 Michaels stores, including the relocation of 12 stores, and the opening of one Pat Catan's store. In fiscal 2016, we incurred capital expenditures related to the opening of 46 Michaels stores, including the relocation of 14 stores, and the opening of one Aaron Brothers store and four Pat Catan's stores, including the relocation of one Pat Catan's store. In fiscal 2015, we incurred capital expenditures related to the opening of 47 Michaels stores, including the relocation of 17 stores.

We currently estimate that our capital expenditures will be \$160 million to \$170 million in fiscal 2018. We plan to invest in the infrastructure necessary to support the further development of our business. In fiscal 2018, we plan to open approximately 36 new Michaels stores, including approximately 17 relocations.

Term Loan Credit Facility

On January 28, 2013, MSI entered into an amended and restated credit agreement maturing on January 28, 2020 (the "Credit Agreement") to amend various terms of MSI's then existing term loan credit agreement with Deutsche Bank AG New York Branch ("Deutsche Bank") and other lenders. The Credit Agreement, together with the related security, guarantee and other agreements, is referred to as the "Term Loan Credit Facility".

On July 2, 2014, MSI issued an additional \$850.0 million of debt under the Term Loan Credit Facility maturing in 2020 ("Additional Term Loan"). The Additional Term Loan was issued at 99.5% of face value, resulting in an effective interest rate of 4.02%.

On December 28, 2015, MSI voluntarily prepaid \$150.0 million in principal of the Additional Term Loan for an aggregate redemption price (including any unpaid interest) of \$151.0 million.

On September 28, 2016, MSI entered into an amendment with Deutsche Bank and other lenders to amend and restate our Term Loan Credit Facility. The amended and restated credit agreement, together with the related security, guarantee and other agreements, is referred to as the “Amended Term Loan Credit Facility”. The Amended Term Loan Credit Facility matures on January 28, 2023.

As of February 3, 2018, the Amended Term Loan Credit Facility provides for senior secured financing of \$2,232.4 million. MSI has the right under the Amended Term Loan Credit Facility to request additional term loans (a) in the aggregate amount of up to \$750.0 million or (b) at MSI’s election, an amount of additional term loans if the consolidated secured debt ratio (as defined in the Amended Term Loan Credit Facility) is no more than 3.25 to 1.00 on a pro forma basis as of the last day of the most recently ended four quarter period, subject to certain adjustments. The lenders under the Amended Term Loan Credit Facility will not be under any obligation to provide any such additional term loans, and the incurrence of any such additional term loans is subject to customary conditions.

Borrowings under the Amended Term Loan Credit Facility bear interest at a rate per annum, at MSI’s option, of either (a) a margin of 1.75% plus a base rate defined as the highest of (1) the prime rate of Deutsche Bank, (2) the federal funds effective rate plus 0.5%, and (3) the one-month London Interbank Offered Rate (“LIBOR”) plus 1% or (b) a margin of 2.75% plus the applicable LIBOR. The applicable margin is 1.50% for base rate loans and 2.50% for LIBOR loans if our consolidated secured debt ratio is below 1.50:1.00 for the applicable quarter.

Table of Contents

There are no limitations on dividends and certain other restricted payments so long as (a) no event of default shall have occurred and be continuing and (b) immediately after giving pro forma effect to such restricted payment(s) and the application of proceeds therefrom, the consolidated total leverage ratio is less than or equal to 3.75 to 1.00.

MSI must offer to prepay outstanding term loans at 100% of the principal amount, plus any unpaid interest, with the proceeds of certain asset sales or casualty events under certain circumstances. MSI may voluntarily prepay outstanding loans under the Amended Term Loan Credit Facility at any time without premium or penalty other than customary breakage costs with respect to LIBOR loans.

MSI is required to make scheduled quarterly payments equal to 0.25% of the original principal amount of the term loans (subject to adjustments relating to the incurrence of additional term loans) for the first six years and three quarters of the Amended Term Loan Credit Facility, with the balance to be paid on January 28, 2023.

All obligations under the Amended Term Loan Credit Facility are unconditionally guaranteed, jointly and severally, by Michaels Funding, Inc. (“Holdings”) and all of MSI’s existing domestic material subsidiaries and are required to be guaranteed by certain of MSI’s future domestic wholly-owned material subsidiaries (“the Subsidiary Guarantors”). All obligations under the Amended Term Loan Credit Facility, and the guarantees of those obligations, are secured, subject to certain exceptions, by substantially all of the assets of Holdings, MSI and the Subsidiary Guarantors, including:

- a first-priority pledge of MSI’s capital stock and all of the capital stock held directly by MSI and the Subsidiary Guarantors (which pledge, in the case of any foreign subsidiary or foreign subsidiary holding company, is limited to 65% of the voting stock of such foreign subsidiary or foreign subsidiary holding company and 100% of the non-voting stock of such subsidiary);
- a first-priority security interest in, and mortgages on, substantially all other tangible and intangible assets of Holdings, MSI and each Subsidiary Guarantor, including substantially all of MSI’s and the Subsidiary Guarantors owned real property and equipment, but excluding, among other things, the collateral described below; and
- a second-priority security interest in personal property consisting of inventory and related accounts, cash, deposit accounts, all payments received by Holdings, MSI or the Subsidiary Guarantors from credit card clearinghouses and processors or otherwise in respect of all credit card charges and debit card charges for sales of inventory by Holdings, MSI and the Subsidiary Guarantors, and certain related assets and proceeds of the foregoing.

The Amended Term Loan Credit Facility contains a number of negative covenants that are substantially similar to, but more restrictive in certain respects than, those governing the 2020 Senior Subordinated Notes (as defined below), as well as certain other customary representations and warranties, affirmative and negative covenants and events of default. As of February 3, 2018, MSI was in compliance with all covenants.

5.875% Senior Subordinated Notes due 2020

On December 19, 2013, MSI issued \$260.0 million in principal amount of 5.875% senior subordinated notes maturing in 2020 (“2020 Senior Subordinated Notes”). On June 16, 2014, MSI issued an additional \$250.0 million of the 2020 Senior Subordinated Notes at 102% of face value, resulting in an effective interest rate of 5.76%. Interest is payable semi-annually on June 15 and December 15 of each year.

The 2020 Senior Subordinated Notes are guaranteed, jointly and severally, fully and unconditionally, on an unsecured senior subordinated basis, by each of MSI’s subsidiaries that guarantee indebtedness under the Amended Revolving Credit Facility and the Amended Term Loan Credit Facility (collectively defined as the “Senior Secured Credit Facilities”).

The 2020 Senior Subordinated Notes and the related guarantees are MSI’s and the guarantors’ unsecured senior subordinated obligations and are (i) subordinated in right of payment to all of MSI’s and the guarantors’ existing and future senior debt, including the Senior Secured Credit Facilities; (ii) rank equally in right of payment to all of MSI’s and the guarantors’ future senior subordinated debt; (iii) effectively subordinated to all of MSI’s and the guarantors’ existing and

Table of Contents

future secured debt (including the Senior Secured Credit Facilities) to the extent of the value of the assets securing such debt; (iv) rank senior in right of payment to all of the MSI's and the guarantors' existing and future debt and other obligations that are, by their terms, expressly subordinated in right of payment to the 2020 Senior Subordinated Notes; and (v) are structurally subordinated to all obligations of MSI's subsidiaries that are not guarantors of the 2020 Senior Subordinated Notes.

MSI may redeem all or part of the 2020 Senior Subordinated Notes, upon notice, at the redemption prices set forth below (expressed as percentages of the principal amount of the 2020 Senior Subordinated Notes to be redeemed), plus any unpaid interest through the applicable date of redemption, if redeemed during the twelve-month period beginning on December 15 of each of the years indicated below:

Year	Percentage
2017	101.469 %
2018 and thereafter	100.000 %

Upon a change in control, MSI is required to offer to purchase all of the 2020 Senior Subordinated Notes at a price in cash equal to 101% of the aggregate principal amount, plus any unpaid interest. The indenture governing the 2020 Senior Subordinated Notes ("2020 Senior Subordinated Indenture") contains covenants limiting MSI's ability, and the ability of MSI's restricted subsidiaries, to incur or guarantee additional debt, prepay debt that is subordinated to the 2020 Senior Subordinated Notes, issue stock of subsidiaries, make certain investments, loans, advances and acquisitions, create liens on MSI's and such subsidiaries' assets to secure debt, enter into transactions with affiliates, merge or consolidate with another company; and sell or otherwise transfer assets. The covenants also limit MSI's ability, and the ability of MSI's restricted subsidiaries, to pay dividends or distributions on MSI's capital stock or repurchase MSI's capital stock, subject to certain exceptions, including dividends, distributions and repurchases up to an amount in excess of (i) \$100.0 million plus (ii) a basket that builds based on 50% of MSI's consolidated net income (as defined in the 2020 Senior Subordinated Indenture) and certain other amounts, in each case, to the extent such payment capacity is not applied as otherwise permitted under the 2020 Senior Subordinated Indenture and subject to certain conditions. However, there are no limitations on dividends and certain other restricted payments so long as (a) no default shall have occurred and be continuing and (b) immediately after giving pro forma effect to such restricted payment(s) and the application of proceeds therefrom, the consolidated total leverage ratio is less than or equal to 3.25 to 1.00. As of February 3, 2018, the permitted restricted payment amount was \$873.7 million. As of February 3, 2018, MSI was in compliance with all covenants.

Revolving Credit Facility

On September 17, 2012, MSI entered into a second amended and restated credit agreement (the "Credit Agreement") with Wells Fargo Bank, National Association ("Wells Fargo") and other lenders to amend various terms of MSI's then existing senior secured asset-based revolving credit facility. The Credit Agreement, together with related security,

guarantee and other agreements, is referred to as the “Revolving Credit Facility”. On May 27, 2016, MSI entered into an amended and restated credit agreement with Wells Fargo and other lenders to, among other things, increase the availability and extend the maturity date of our Revolving Credit Facility. The amended credit agreement, together with the related security, guarantee and other agreements, is referred to as the “Amended Revolving Credit Facility”.

The Amended Revolving Credit Facility provides for senior secured financing of up to \$850.0 million, subject to a borrowing base. The borrowing base under the Amended Revolving Credit Facility equals the sum of: (i) 90% of eligible credit card receivables, (ii) 85% of eligible trade receivables, (iii) 90% to 92.5% of the appraised value of eligible inventory, plus (iv) 90% to 92.5% of the lesser of (a) the appraised value of eligible inventory supported by letters of credit, and (b) the face amount of the letters of credit, less (v) certain reserves. The Amended Revolving Credit Facility matures in May 2021, subject to a springing maturity date if certain of our outstanding indebtedness has not been repaid, redeemed, refinanced, cash collateralized or if the necessary availability reserves have not been established prior to such time (the “ABL Maturity Date”).

As of February 3, 2018 the borrowing base was \$780.0 million of which MSI had availability of \$716.6 million. Borrowing capacity is available for letters of credit and borrowings on same-day notice. Outstanding standby letters of credit as of February 3, 2018 totaled \$63.4 million.

The Amended Revolving Credit Facility also provides MSI with the right to request up to \$200.0 million of additional commitments. The lenders will not be under any obligation to provide any such additional commitments, and

Table of Contents

any increase in commitments is subject to customary conditions. If we were to request additional commitments, and the lenders were to agree to provide such commitments, the facility size could be increased up to \$1,050.0 million, however, MSI's ability to borrow would still be limited by the borrowing base.

Borrowings under the Amended Revolving Credit Facility bear interest at a rate per annum equal to, at our option, either (a) a base rate determined by reference to the highest of (1) the prime rate of Wells Fargo, (2) the federal funds effective rate plus 0.50% and (3) LIBOR subject to certain adjustments plus 1.00% or (b) LIBOR subject to certain adjustments, in each case plus an applicable margin. The initial applicable margin is (a) 0.25% for prime rate borrowings and 1.25% for LIBOR borrowings. The applicable margin is subject to adjustment each fiscal quarter based on the excess availability under the Amended Revolving Credit Facility. Excess availability is defined as the Loan Cap (as defined below) plus certain unrestricted cash of Holdings, MSI and the Subsidiary Guarantors, less the outstanding credit extensions. Same-day borrowings bear interest at the base rate plus the applicable margin.

MSI is required to pay a commitment fee on the unutilized commitments under the Amended Revolving Credit Facility, which is 0.25% per annum. In addition, MSI must pay customary letter of credit fees and agency fees.

All obligations under the Amended Revolving Credit Facility are unconditionally guaranteed, jointly and severally, by Holdings and the Subsidiary Guarantors. All obligations under the Amended Revolving Credit Facility, and the guarantees of those obligations, are secured, subject to certain exceptions, by substantially all of the assets of Holdings, MSI and the Subsidiary Guarantors, including:

- a first-priority security interest in personal property consisting of inventory and related accounts, cash, deposit accounts, all payments received by Holdings, MSI or the Subsidiary Guarantors from credit card clearinghouses and processors or otherwise in respect of all credit card charges and debit card charges for sales of inventory by Holdings, MSI and the Subsidiary Guarantors, and certain related assets and proceeds of the foregoing;
- a second-priority pledge of all of MSI's capital stock and the capital stock held directly by MSI and the Subsidiary Guarantors (which pledge, in the case of the capital stock of any foreign subsidiary or foreign subsidiary holding company, is limited to 65% of the voting stock of such foreign subsidiary or foreign subsidiary holding company and 100% of the non-voting stock of such subsidiary); and
- a second-priority security interest in, and mortgages on, substantially all other tangible and intangible assets of Holdings, MSI and each Subsidiary Guarantor, including substantially all of MSI's and the Subsidiary Guarantors owned real property and equipment.

If, at any time, the aggregate amount of outstanding loans, unreimbursed letter of credit drawings and undrawn letters of credit under the Amended Revolving Credit Facility exceeds the lesser of (i) the commitment amount and (ii) the borrowing base (the "Loan Cap"), MSI will be required to repay outstanding loans and cash collateralize letters of credit

in an aggregate amount equal to such excess, with no reduction of the commitment amount. If availability under the Amended Revolving Credit Facility is less than the greater of (i) 10.0% of the Loan Cap and (ii) \$50.0 million for five consecutive business days, or, if certain events of default have occurred, MSI will be required to repay outstanding loans and cash collateralize letters of credit with the cash MSI is required to deposit daily in a collection account maintained with the agent under the Amended Revolving Credit Facility. Availability under the Amended Revolving Credit Facility means the Loan Cap minus the outstanding credit extensions. MSI may voluntarily reduce the unutilized portion of the commitment amount and repay outstanding loans at any time without premium or penalty, other than customary breakage costs with respect to LIBOR loans. The principal amount of the loans outstanding is due and payable in full on the ABL Maturity Date.

The covenants limiting dividends and other restricted payments, investments, loans, advances and acquisitions, and prepayments or redemptions of indebtedness, each permit the restricted actions in an unlimited amount, subject to the satisfaction of certain payment conditions, principally that MSI must meet specified excess availability requirements and minimum consolidated fixed charge coverage ratios, to be tested on a pro forma basis as of the date of the restricted action and for the 90-day period preceding such restricted action. Adjusted EBITDA, as defined in the Amended Revolving Credit Facility, is used in the calculation of the consolidated fixed charge coverage ratios.

Table of Contents

From the time when MSI has excess availability less than the greater of (a) 10.0% of the Loan Cap and (b) \$50.0 million, until the time when MSI has excess availability greater than the greater of (a) 10.0% of the Loan Cap and (b) \$50.0 million for 30 consecutive days, the Amended Revolving Credit Facility will require MSI to maintain a consolidated fixed charge coverage ratio of at least 1.0 to 1.0. The Amended Revolving Credit Facility also contains certain customary representations and warranties, affirmative covenants and provisions relating to events of default (including change of control and cross-default to material indebtedness).

The Amended Revolving Credit Facility contains a number of covenants that, among other things and subject to certain exceptions, restrict MSI's ability, and the ability of its restricted subsidiaries, to:

- incur or guarantee additional indebtedness;
- pay dividends on MSI's capital stock or redeem, repurchase or retire MSI's capital stock;
- make investments, loans, advances and acquisitions;
- create restrictions on the payment of dividends or other amounts to MSI from its restricted subsidiaries;
- engage in transactions with MSI's affiliates;
- sell assets, including capital stock of MSI's subsidiaries;
- prepay or redeem indebtedness;
- consolidate or merge; and
- create liens.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K. We do not typically enter into off-balance sheet arrangements, except for arrangements related to operating lease commitments, service contract commitments and trade letters of credit, as disclosed in the contractual obligations table below. Neither we nor our subsidiaries typically guarantee the obligations of unrelated parties.

Table of Contents

Contractual Obligations

As of February 3, 2018, our contractual obligations were as follows (in thousands):

	Payments Due By Fiscal Year				
	Total	Less Than 1 Year	1-3 Years	3-5 Years	More Than 5 Years
Total debt (1)	\$ 2,742,350	\$ 24,900	\$ 559,800	\$ 2,157,650	\$ —
Operating lease commitments (2)	2,207,718	437,812	730,861	500,012	539,033
Interest payments (3)	567,576	128,523	253,816	185,237	—
Other commitments (4)	94,053	87,758	6,295	—	—
	\$ 5,611,697	\$ 678,993	\$ 1,550,772	\$ 2,842,899	\$ 539,033

- (1) Total debt only includes principal payments owed on the 2020 Senior Subordinated Notes and the Amended Term Loan Credit Facility. The amounts shown above do not include unamortized premiums/discounts and deferred debt issuance costs reflected in the Company's consolidated balance sheets since they do not represent contractual obligations.
- (2) Our operating lease commitments generally include non-cancelable leases for property and equipment used in our operations. Excluded from our operating lease commitments are amounts related to insurance, taxes and common area maintenance associated with property and equipment. Such amounts historically represented approximately 34% of the total lease obligation over the previous three fiscal years.
- (3) Debt associated with our Amended Term Loan Credit Facility was \$2,232.4 million at February 3, 2018 and is subject to variable interest rates. The amounts included in interest payments in the table for the Amended Term Loan Credit Facility were based on the indexed interest rate in effect at February 3, 2018. Debt associated with the 2020 Senior Subordinated Notes was \$510.0 million at February 3, 2018 and was subject to fixed interest rates. We had no outstanding borrowings under our Amended Revolving Credit Facility at February 3, 2018. Under our Amended Revolving Credit Facility, we are required to pay a commitment fee of 0.25% per year on the unutilized commitments. The amounts included in interest payments for the Amended Revolving Credit Facility were based on this annual commitment fee.
- (4) Other commitments include trade letters of credit and service contract obligations. Our service contract obligations were calculated based on the time period remaining in the contract or to the earliest possible date of termination, if permitted to be terminated by Michaels upon notice, whichever is shorter.

Non-GAAP Measures

The following table sets forth certain non-GAAP measures used by the Company to manage our performance and measure compliance with certain debt covenants. The Company defines “EBITDA” as net income before interest, income taxes, depreciation and amortization. The Company defines “Adjusted EBITDA” as EBITDA adjusted for certain defined amounts in accordance with the Company’s Amended Term Loan Credit Facility and Amended Revolving Credit Facility (together the “Senior Secured Credit Facilities”).

The Company has presented EBITDA and Adjusted EBITDA to provide investors with additional information to evaluate our operating performance and our ability to service our debt. Adjusted EBITDA is a required calculation under the Company’s Senior Secured Credit Facilities that is used in the calculations of fixed charge coverage and leverage ratios, which, under certain circumstances determine mandatory repayments or maintenance covenants and may restrict the Company’s ability to make certain payments (characterized as restricted payments), investments (including acquisitions) and debt repayments.

As EBITDA and Adjusted EBITDA are not measures of liquidity calculated in accordance with U.S. generally accepted accounting principles (“GAAP”), these measures should not be considered in isolation of, or as substitutes for, net cash provided by operating activities as an indicator of liquidity. Our computation of EBITDA and Adjusted EBITDA may differ from similarly titled measures used by other companies.

Table of Contents

The following table shows a reconciliation of EBITDA and Adjusted EBITDA to net income and net cash provided by operating activities (in thousands):

	Fiscal Year		
	2017	2016	2015
Net cash provided by operating activities	\$ 523,610	\$ 564,417	\$ 504,047
Depreciation and amortization	(118,912)	(115,801)	(114,756)
Share-based compensation	(24,264)	(16,506)	(15,064)
Debt issuance costs amortization	(5,098)	(6,583)	(8,467)
Accretion of long-term debt, net	505	334	150
Deferred income taxes	(4,348)	(4,570)	(8,611)
Losses on early extinguishments of debt and refinancing costs	—	(7,292)	(8,485)
(Losses) gains on disposition of property and equipment	—	(120)	25
Excess tax benefits from share-based compensation	—	10,027	14,507
Changes in assets and liabilities	19,005	(45,747)	(434)
Net income	390,498	378,159	362,912
Interest expense	129,116	126,270	139,405
Income taxes	215,243	203,614	209,208
Depreciation and amortization	118,912	115,801	114,756
Interest income	(1,326)	(820)	(615)
EBITDA	852,443	823,024	825,666
Adjustments:			
Losses on early extinguishments of debt and refinancing costs	—	7,292	8,485
Share-based compensation	24,264	16,506	15,064
Severance costs	1,274	6,113	2,733
Store pre-opening costs	2,999	4,484	4,786
Store remodel costs	1,773	895	4,554
Foreign currency transaction losses	1,486	667	579
Store closing costs	1,382	2,877	(104)
Lamrite integration costs	—	7,390	—
Other (1)	2,920	3,452	4,408
Adjusted EBITDA	\$ 888,541	\$ 872,700	\$ 866,171

(1) Other adjustments primarily relate to items such as moving and relocation expenses, franchise taxes, sign on bonuses and certain legal expenses.

Critical Accounting Policies and Estimates

We have prepared our consolidated financial statements in conformity with U.S. GAAP. These consolidated financial statements include some amounts that are based on our informed judgments and estimates. Our significant accounting policies are discussed in Note 1 to the consolidated financial statements. Our critical accounting policies represent those policies that are subject to judgments and uncertainties. The following discussion addresses our most critical accounting policies, which are those that are both important to the portrayal of our financial condition and results of

operations and that require significant judgment or use of complex estimates.

Merchandise Inventories. Merchandise inventories are valued at the lower of cost or market, with cost determined using a weighted-average method. Cost is calculated based upon the purchase price of an item at the time it is received by us, and also includes the cost of warehousing, handling, purchasing, and importing, as well as inbound and outbound transportation, partially offset by vendor allowances. This net inventory cost is recognized through cost of sales when the inventory is sold. It is impractical for us to assign specific allocated overhead costs and vendor allowances to individual units of inventory. As such, to match net inventory costs against the related revenues, we estimate the net inventory costs to be deferred and recognized each period as the inventory is sold.

We utilize perpetual inventory records to value inventory in our stores. Physical inventory counts are performed in a significant number of stores during each fiscal quarter by a third-party inventory counting service, with substantially all stores open longer than one year subject to at least one count each fiscal year. We adjust our perpetual records based on the results of the physical counts. We maintain a provision for estimated shrinkage based on the actual historical results

Table of Contents

of our physical inventories. We compare our estimates to the actual results of the physical inventory counts as they are taken and adjust the shrink estimates accordingly. A 10% change in our estimated shrinkage reserve would have affected net income by \$1.3 million for fiscal 2017. We also evaluate our merchandise to ensure that the expected net realizable value of the merchandise held at the end of a fiscal period exceeds cost. In the event that the expected net realizable value is less than cost, we reduce the value of that inventory accordingly. A 10% change in our inventory valuation reserve would have affected net income by \$0.6 million in fiscal 2017.

Vendor allowances, which primarily represent volume rebates and cooperative advertising funds, are recorded as a reduction of the cost of the merchandise inventories and a subsequent reduction in cost of sales when the inventory is sold. We generally earn vendor allowances as a percentage of certain merchandise purchases with no minimum purchase requirements.

Goodwill and Other Indefinite-Lived Intangible Assets. We review goodwill and other indefinite-lived intangible assets for impairment each year in the fourth quarter, or more frequently if events occur which indicate the carrying value may not be recoverable. We elected to perform a qualitative assessment for our Michaels-U.S. reporting unit to determine whether it is more likely than not (that is, a likelihood of more than 50 percent) that the fair value of the reporting unit is less than its carrying value, including goodwill. Factors used in our qualitative assessment include, but are not limited to, macroeconomic conditions, industry and market conditions, cost factors, overall financial performance and Company and reporting unit specific events. If, based on our qualitative assessment, we determine that it is more likely than not that the estimated fair value of the reporting unit is less than the carrying amount, including goodwill, we will compare the carrying value of the Michaels-U.S. reporting unit to its fair value. If the carrying amount of the reporting unit exceeds the estimated fair value, we determine the fair value of all assets and liabilities of the reporting unit, including the implied fair value of goodwill. If the carrying amount of the goodwill exceeds the implied fair value, we recognize an impairment charge equal to the difference.

For all other reporting units, we estimated the fair value of each reporting unit using the present value of future cash flows expected to be generated by the reporting units. If the carrying value of the reporting unit or indefinite-lived intangible assets exceeds the estimated fair value, an impairment charge is recorded to write the assets down to their estimated fair value.

We estimate fair value using the present value of future cash flows expected to be generated by the reporting unit using a weighted-average cost of capital, terminal values and updated financial projections. If our actual results are not consistent with the estimates and assumptions used to calculate fair value, we could be required to recognize an impairment. Based on the results of our assessments, no impairments were required for the fiscal periods presented in the consolidated financial statements.

Long-Lived Assets. Long-lived assets other than goodwill and assets with indefinite lives, such as property and equipment and intangible assets subject to amortization, are evaluated for indicators of impairment whenever events or changes in circumstances indicate their carrying amounts may not be recoverable. For store assets, we evaluate the

performance of individual stores for indicators of impairment and underperforming stores are selected for further evaluation to determine whether their carrying amounts are recoverable.

Our initial indicator that store assets are considered to be recoverable is that the estimated undiscounted cash flows for the remaining lease term exceed the carrying value of the assets. If the evaluation indicates that the carrying value of the asset may not be recoverable, the potential impairment is measured based on a projected discounted cash flow method using assumptions about key store variables, including sales, growth rate, gross margin, payroll and other controllable expenses. Furthermore, management considers other factors when evaluating stores for impairment, including the individual store's execution of its operating plan and other local market conditions. If the carrying value exceeds the fair value, an impairment is recorded.

Our evaluation requires consideration of a number of factors including changes in consumer demographics, key store level assumptions and other uncertain future events. Accordingly, our accounting estimates may change from period to period. These factors could cause management to conclude impairment indicators exist and require that tests be performed, which could result in a determination that the value of long-lived assets is impaired, resulting in a write down to fair value.

Table of Contents

Self-Insurance. We have insurance coverage for losses in excess of self-insurance limits for medical claims, general liability and workers' compensation claims. Our liability represents an estimate of the ultimate cost of claims incurred as of the balance sheet dates. The estimated liability is not discounted and is established based upon analysis of historical data and actuarial estimates. While we believe these estimates are reasonable based on the information currently available, if actual trends, including the severity or frequency of claims, medical cost inflation, or fluctuations in premiums differ from our estimates, our results of operations could be impacted. A 10% change in our self-insurance reserves would have affected net income by \$4.2 million in fiscal 2017.

Share-Based Compensation. ASC 718, Stock Compensation ("ASC 718") requires all share-based payments to employees, including grants of employee stock options and restricted shares, to be recognized using the fair value method of accounting. Share-based awards are recognized ratably over the requisite service period. All grants of our stock options have an exercise price equal to the closing market price of our common stock on the date of grant.

We estimate the grant date fair value of stock options using a Black-Scholes valuation model. Assumptions used in the Black-Scholes valuation model include expected volatility of our common stock share price, expected terms of the options, expected dividends and risk-free interest rates. The expected volatility rate is based on our historical and implied volatility as well as implied volatilities from the exchange-traded options on the common stock of a peer group of companies. We utilize historical exercise and post-vesting employment behavior to estimate the expected terms of the options and assume a zero dividend rate. The risk-free interest rate is based on the yields of U.S. Treasury instruments with approximately the same term as the expected life of the stock option award. We update our assumptions quarterly based on historical trends and current market observations. Our forfeiture assumptions are updated semiannually and are estimated based on historical experience and anticipated events.

Income Taxes. Deferred tax assets, including the benefit of net operating loss and tax credit carryforwards, are evaluated based on the guidelines for realization and are reduced by a valuation allowance if it is deemed more likely than not that such assets will not be realized. We consider several factors in evaluating the realizability of our deferred tax assets, including the nature, frequency and severity of recent losses, the remaining years available for carryforward, changes in tax laws, the future profitability of the operations in the jurisdiction, and tax planning strategies. Our judgments and estimates concerning realizability of deferred tax assets could change if any of the evaluation factors change, resulting in an increase or decrease to income tax expense in any period.

We record a liability for uncertain tax positions to the extent a tax position taken or expected to be taken in a tax return does not meet certain recognition or measurement criteria. Considerable management judgment is necessary to assess the inherent uncertainties related to the interpretations of complex tax laws, regulations and taxing authority rulings, as well as to the expiration of statutes of limitations in the numerous and varied jurisdictions in which we operate. Our judgments and estimates may change as a result of evaluation of new information, such as the outcome of tax audits or changes to or further interpretations of tax laws and regulations, resulting in an increase or decrease to income tax expense in any period.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Foreign Currency Risk

We are exposed to fluctuations in exchange rates between the U.S. and Canadian dollar, which is the functional currency of our Canadian subsidiaries. Our sales, costs and expenses of our Canadian subsidiaries, when translated into U.S. dollars, can fluctuate due to exchange rate movement. A 10% increase or decrease in the exchange rate of the Canadian dollar would have increased or decreased net income by approximately \$12 million for fiscal 2017.

Interest Rate Risk

We have market risk exposure arising from changes in interest rates on our Amended Term Loan Credit Facility and our Amended Revolving Credit Facility. See “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations — Liquidity and Capital Resources — Debt” for further detail. The interest rates on our Amended Term Loan Credit Facility and our Amended Revolving Credit Facility will reprice periodically, which will impact our earnings and cash flow. The interest rate on our 2020 Senior Subordinated Notes is fixed. Based on our overall interest rate exposure to variable rate debt outstanding as of February 3, 2018, a 100 basis point change in interest rates would impact income before income taxes by approximately \$22 million for fiscal 2017. A 100 basis point change in

Table of Contents

interest rates would impact the fair value of our long-term fixed rate debt by approximately \$18 million. A change in interest rates would not materially affect the fair value of our variable rate debt as the debt reprices periodically.

Inflation Risk

We do not believe inflation and changing commodity prices have had a material impact on our net sales, income from continuing operations, plans for expansion or other capital expenditures for any year during the three-year period ended February 3, 2018. However, we cannot be sure inflation and changing commodity prices will not have an adverse impact on our operating results, financial condition, plans for expansion or other capital expenditures in future periods.

ITEM 8. CONSOLIDATED FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

See the Index to Consolidated Financial Statements and Supplementary Data on page F-1. The Consolidated Financial Statements and Supplementary Data are included on pages F-2 through F-33 and are incorporated herein by reference.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

Not applicable.

ITEM 9A. CONTROLS AND PROCEDURES.

Included in this Annual Report on Form 10-K are certifications by our Chief Executive Officer and our Chief Financial Officer, which are required in accordance with Rule 13a-14 of the Securities Exchange Act of 1934, as amended. This section includes information concerning the controls and controls evaluation referred to in the certifications. Page F-2 of this Report includes the attestation report of Ernst & Young LLP, our independent registered public accounting firm, regarding its audit of the effectiveness of our internal control over financial reporting. This section should be read in conjunction with the Ernst & Young LLP attestation for a complete understanding of this section.

Evaluation of Disclosure Controls and Procedures

We maintain a set of disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated by the SEC under the Securities Exchange Act of 1934) designed to provide reasonable assurance information, which is required to be timely disclosed, is accumulated and communicated to management in a timely fashion. We note the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

An evaluation was carried out under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls are effective to provide reasonable assurance that information required to be disclosed in the reports that we file or submit under the Securities and Exchange Act of 1934, as amended, is accumulated and communicated to management, including our Chief Executive Officer and our Chief Financial Officer, to allow timely decisions regarding required disclosure and are effective to provide reasonable assurance that such information is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal controls over financial reporting during the quarter ended February 3, 2018 that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

Management Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended. Internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. generally accepted accounting principles, and that receipts and expenditures are being made only in accordance with authorizations of management and directors of the company, and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Due to its inherent limitations, internal control over financial reporting may not prevent or detect misstatements and, even when determined to be effective, can only provide reasonable, not absolute, assurance with respect to financial statement preparation and presentation. Projections of any evaluation of effectiveness to future periods are subject to risk that controls may become inadequate as a result of changes in conditions or deterioration in the degree of compliance.

Management assessed the effectiveness of our internal control over financial reporting as of February 3, 2018. Management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in its Internal Control—Integrated Framework (2013). Management's assessment included the evaluation of such elements as the design and operating effectiveness of financial reporting controls, process documentation, accounting policies and the overall control environment. This assessment is supported by testing and monitoring performed or supervised by our Internal Audit organization.

Based on management's assessment, management has concluded that the Company's internal control over financial reporting was effective as of February 3, 2018. The independent registered public accounting firm, Ernst & Young LLP, issued an attestation report on the effectiveness of our internal control over financial reporting. The Ernst & Young LLP report is included on Page F-2 of this Annual Report on Form 10-K.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders

The Michaels Companies, Inc.

Opinion on Internal Control over Financial Reporting

We have audited The Michaels Companies, Inc.'s internal control over financial reporting as of February 3, 2018, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). In our opinion, The Michaels Companies, Inc. (the Company) maintained, in all material respects, effective internal control over financial reporting as of February 3, 2018, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheets of The Michaels Companies, Inc. as of February 3, 2018 and January 28, 2017, the related consolidated statements of comprehensive income, stockholders' deficit and cash flows for each of the three years in the period ended February 3, 2018, and the related notes and our report dated March 22, 2018 expressed an unqualified opinion thereon.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders

The Michaels Companies, Inc.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of The Michaels Companies, Inc. (the Company) as of February 3, 2018 and January 28, 2017, and the related consolidated statements of comprehensive income, stockholders' deficit and cash flows for each of the three years in the period ended February 3, 2018 and the related notes (collectively referred to as the "consolidated financial statements"). In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company at February 3, 2018 and January 28, 2017, and the results of its operations and its cash flows for each of the three years in the period ended February 3, 2018, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of February 3, 2018, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) and our report dated March 22, 2018 expressed an unqualified opinion thereon.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We are a public accounting firm registered with the PCAOB and required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates

made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ Ernst & Young LLP

We have served as the Company's auditor since 1984.

THE MICHAELS COMPANIES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Business

The Michaels Companies, Inc. owns and operates specialty retail stores in 49 states and Canada featuring arts, crafts, framing, floral, home décor and seasonal merchandise for the hobbyist and do-it-yourself home decorator. All expressions of the “Company”, “us”, “we”, “our”, and all similar expressions are references to The Michaels Companies, Inc. and our consolidated, wholly-owned subsidiaries, unless otherwise expressly stated or the context otherwise requires. Our consolidated financial statements include the accounts of The Michaels Companies, Inc. and our wholly-owned subsidiaries. All intercompany accounts and transactions have been eliminated.

Michaels Stores, Inc. (“MSI”) is headquartered in Irving, Texas and was incorporated in the state of Delaware in 1983. In July 2013, MSI was reorganized into a holding company structure and The Michaels Companies, Inc. incorporated in Delaware in connection with the reorganization.

Fiscal Year

We report on the basis of a 52-week or 53-week fiscal year, which ends on the Saturday closest to January 31. All references to fiscal year mean the year in which that fiscal year began. References to “fiscal 2017” relate to the 53 weeks ended February 3, 2018, references to “fiscal 2016” relate to the 52 weeks ended January 28, 2017 and references to “fiscal 2015” relate to the 52 weeks ended January 30, 2016.

Preferred Shares

The Company’s Board of Directors has authorized the issuance of 50.0 million shares of preferred stock under The Michaels Companies, Inc. Certificate of Incorporation. No preferred shares have been issued as of February 3, 2018.

Share Repurchase Program

In June 2017, the Board of Directors authorized a new share repurchase program for the Company to purchase \$500.0 million of the Company's common stock on the open market. The share repurchase program does not have an expiration date, and the timing and number of repurchase transactions under the program will depend on market conditions, corporate considerations, debt agreements and regulatory requirements. Shares repurchased under the program are held as treasury shares until retired. During fiscal 2017, we repurchased 12.7 million shares under our share repurchase programs for an aggregate amount of \$249.5 million, including \$99.4 million repurchased under our previous authorization. As of February 3, 2018, we had \$350.0 million of availability remaining under our current program.

Foreign Currency

The functional currency of our Canadian operations is the Canadian dollar. Translation adjustments result from translating our Canadian subsidiaries' financial statements into U.S. dollars. Balance sheet accounts are translated at exchange rates in effect at the balance sheet date. Income statement accounts are translated at average exchange rates during the year. Translation adjustments are recorded as a component of accumulated other comprehensive income in our consolidated statements of stockholders' deficit. The translation adjustments recorded in accumulated other comprehensive loss, net of taxes, was a gain of \$10.6 million and \$7.8 million in fiscal 2017 and 2016, respectively, and a loss of \$10.3 million in fiscal 2015. Transaction gains and losses are recorded as a part of other expense (income), net in our consolidated statements of comprehensive income and were immaterial for all periods presented.

Cash and Equivalents

Cash and equivalents are comprised of cash, money market mutual funds and short-term interest bearing securities with original maturities of three months or less. Cash and equivalents also include proceeds due from credit card transactions with settlement terms of less than five days. The carrying amount of cash equivalents approximates fair value due to the short-term maturity of those instruments.

Table of Contents

Merchandise Inventories

Merchandise inventories are valued at the lower of cost or market, with cost determined using a weighted-average method. Cost is calculated based upon the purchase price of an item at the time it is received by us and also includes the cost of warehousing, handling, purchasing, and importing, as well as inbound and outbound transportation, partially offset by vendor allowances. This net inventory cost is recognized through cost of sales when the inventory is sold. It is impractical for us to assign specific allocated overhead costs and vendor allowances to individual units of inventory. As such, to match net inventory costs against the related revenues, we estimate the net inventory costs to be deferred and recognized each period as the inventory is sold.

We utilize perpetual inventory records to value inventory in our stores. Physical inventory counts are performed in a significant number of stores during each fiscal quarter by a third-party inventory counting service, with substantially all stores open longer than one year subject to at least one count each fiscal year. We adjust our perpetual records based on the results of the physical counts. We maintain a provision for estimated shrinkage based on the actual historical results of our physical inventories. We compare our estimates to the actual results of the physical inventory counts as they are taken and adjust the shrink estimates accordingly.

Vendor allowances, which primarily represent volume rebates and cooperative advertising funds, are recorded as a reduction to the cost of the merchandise inventories and a subsequent reduction in cost of sales when the inventory is sold. We generally earn vendor allowances as a percentage of certain merchandise purchases with no minimum purchase requirements. We recognized vendor allowances of \$84.9 million, or 1.6% of net sales, in fiscal 2017, \$83.1 million, or 1.6% of net sales, in fiscal 2016, and \$82.3 million, or 1.7% of net sales, in fiscal 2015.

We routinely identify merchandise that requires some price reduction to accelerate sales of the product. The need for this reduction is generally attributable to clearance of seasonal merchandise or product that is being displaced from its assigned location in the store to make room for new merchandise. Additional stock keeping units ("SKUs") that are candidates for repricing are identified using our perpetual inventory data. In each case, the appropriate repricing is determined centrally at our store support center. Price changes are transmitted electronically to the store and instructions are provided to our stores regarding product placement, signage and display to ensure the product is effectively cleared.

We also evaluate our merchandise to ensure that the expected net realizable value of the merchandise held at the end of a fiscal period exceeds cost. In the event that the expected net realizable value is less than cost, we reduce the value of that inventory accordingly.

Accounts Receivable, net

Accounts receivable consist primarily of trade receivables related to Lamrite's international wholesale business ("Darice") and amounts due from taxing authorities. The Company assesses the collectability of all receivables on an ongoing basis and establishes an allowance for doubtful accounts, if necessary. Factors such as payment terms, historical loss experience and economic conditions are generally considered in determining the allowance for doubtful accounts. The allowance for doubtful accounts was immaterial in fiscal 2017 and fiscal 2016.

Property and Equipment

Property and equipment is recorded at cost. Depreciation is recorded on a straight-line basis over the estimated useful lives of the assets. Amortization of property under capital leases is recorded on a straight-line basis over the lease term and is included in depreciation expense. We expense repairs and maintenance costs as incurred. We capitalize and

Table of Contents

depreciate significant renewals or betterments that substantially extend the life of the asset. Useful lives are generally estimated as follows:

	Years
Buildings	30
Leasehold improvements (a)	10
Fixtures and equipment	8
Computer equipment	5
Capitalized software	5

(a) We amortize leasehold improvements over the lesser of the useful life of the asset or the remaining lease term of the underlying facility.

Capitalized Software Costs

We capitalize certain costs related to the acquisition and development of internal use software that is expected to benefit future periods. These costs are being amortized on a straight-line basis over the estimated useful life, which is generally five years. As of February 3, 2018 and January 28, 2017, we had unamortized capitalized software costs of \$90.0 million and \$81.8 million, respectively. These amounts are included in property and equipment, net in the consolidated balance sheets. Amortization expense related to capitalized software costs totaled \$29.1 million, \$29.9 million and \$31.2 million in fiscal 2017, fiscal 2016 and fiscal 2015, respectively.

Goodwill and Other Indefinite-Lived Intangible Assets

Under the provisions of Accounting Standards Codification (“ASC”) 350, Intangibles—Goodwill and Other, we review goodwill and other indefinite-lived intangible assets for impairment each year in the fourth quarter, or more frequently if events occur which indicate the carrying value may not be recoverable. We performed a qualitative assessment for our Michaels-U.S. reporting unit to determine whether it is more likely than not (that is, a likelihood of more than 50 percent) that the fair value of the reporting unit is less than its carrying value, including goodwill. Factors used in our qualitative assessment include, but are not limited to, macroeconomic conditions, industry and market conditions, cost factors, overall financial performance and Company and reporting unit specific events. For all other reporting units, we estimated the fair value of each reporting unit using the present value of future cash flows expected to be generated using a weighted-average cost of capital, terminal values and updated financial projections for the next five years, all of which are Level 3 fair value inputs. Based on the results of our assessments, no impairments were required for the fiscal periods presented in the consolidated financial statements. If our actual results are not consistent with the estimates and assumptions used to calculate fair value, we could be required to recognize an impairment in a future period.

Long-Lived Assets

Long-lived assets other than goodwill and assets with indefinite lives, such as property and equipment and intangible assets subject to amortization, are evaluated for indicators of impairment whenever events or changes in circumstances indicate their carrying amounts may not be recoverable. Our evaluation compares the carrying value of the assets with their estimated future undiscounted cash flows. If it is determined that an impairment loss has occurred, the loss would be recognized based on the estimated fair value of the assets. Our impairment analysis contains management assumptions about key variables including sales, growth rate, gross margin, payroll and other controllable expenses. If actual results differ from these estimates, we may be exposed to additional impairment losses that may be material. As a result of our impairment review, there were no material impairment charges recorded in the fiscal periods presented in the consolidated financial statements.

Reserve for Closed Facilities

We maintain a reserve for future rental obligations, carrying costs and other closing costs related to closed facilities, which consists primarily of closed and relocated stores. In accordance with ASC 420, Exit or Disposal Cost Obligations, we recognize exit costs for any store closures at the time the store is closed. Such costs are recorded within the cost of sales and occupancy expense line item in our consolidated statements of comprehensive income.

The cost of closing a store or facility is recorded at the estimated fair value of expected cash flows which we calculate as the present value of future rental obligations remaining under the lease (less estimated sublease rental income)

Table of Contents

or the lease termination fee (if an executed termination agreement exists). The determination of the reserves is dependent on our ability to make reasonable estimates of costs to be incurred after closure and of rental income to be received from subleases.

The following is activity related to closed facilities (in thousands):

	Fiscal Year		
	2017	2016	2015
Balance at beginning of fiscal year	\$ 2,254	\$ 915	\$ 3,386
Additions charged to expense	1,382	2,877	1,946
Payment of rent related obligations	(1,606)	(1,538)	(4,417)
Balance at end of fiscal year	\$ 2,030	\$ 2,254	\$ 915

Self-Insurance

We have insurance coverage for losses in excess of self-insurance limits for medical claims, general liability and workers' compensation claims. Our liability represents an estimate of the ultimate cost of claims incurred as of the balance sheet dates. The estimated liability is not discounted and is established based upon analysis of historical data and actuarial estimates. While we believe these estimates are reasonable based on the information currently available, if actual trends, including the severity or frequency of claims, medical cost inflation, or fluctuations in premiums differ from our estimates, our results of operations could be impacted.

Revenue Recognition

Revenue from sales of our merchandise is recognized when the customer takes possession of the merchandise. Revenue is presented net of point-of-sale coupons, discounts and sales taxes collected. Sales related to custom framing are recognized when the order is picked up by the customer. We allow for merchandise to be returned under most circumstances up to 180 days after purchase and provide a reserve for estimated returns. We use historical customer return behavior to estimate our reserve requirements.

We record a gift card liability on the date we issue the gift card to the customer. We record revenue and reduce the gift card liability as the customer redeems the gift card or when the likelihood of redemption by the customer is remote ("gift card breakage"). We estimate gift card breakage based on customers' historical redemption rates and patterns. If actual redemption patterns vary from the Company's estimates or if regulations change, actual gift card breakage may differ from the amounts recorded. Gift card breakage income is recorded in net sales in the consolidated statements of

comprehensive income over the estimated redemption period.

Costs of Sales and Occupancy Expense

The costs of merchandise sales are expensed as the merchandise is sold. Included in our costs of sales are the following:

- purchase price of merchandise, net of vendor allowances and rebates;
- costs associated with our international direct sourcing business;
- inbound freight, inspection costs, duties and import agent commissions;
- warehousing, handling, transportation (including internal transfer costs such as distribution center-to-store freight costs), purchasing and receiving costs; and
- share-based compensation costs for those employees involved in preparing inventory for sale.

Table of Contents

Included in our occupancy expenses are the following costs which are recognized as period costs as described below:

- store expenses such as rent, insurance, taxes, common area maintenance, utilities, repairs and maintenance;
- amortization of store buildings and leasehold improvements;
- store closure costs; and
- store remodel costs.

Rent is recognized on a straight-line basis, including consideration of rent holidays, tenant improvement allowances received from the landlords and applicable rent escalations over the term of the lease. The commencement date of the lease term is the earlier of the date when we become legally obligated for the rent payments or the date when we take possession of the building for construction purposes.

Selling, General and Administrative

Included in selling, general and administrative (“SG&A”) are store personnel costs, store operating expenses, advertising, store depreciation and corporate overhead costs. Advertising costs are expensed in the period in which the advertising first occurs. Advertising costs totaled \$200.1 million, \$194.6 million and \$188.9 million in fiscal 2017, fiscal 2016 and fiscal 2015, respectively.

Store Pre-Opening Costs

We expense all start-up activity costs as incurred. Store pre-opening costs consist primarily of payroll-related costs incurred prior to the store opening.

Income Taxes

We record income tax expense using the liability method and are subject to income tax in many jurisdictions, including the U.S., numerous states and localities, Canada, and other foreign countries. Income taxes payable or receivable are recorded for tax liabilities or refunds reflected on filed, or expected to be filed, tax returns. Deferred income taxes arise from temporary differences between amounts recorded in the consolidated statements of comprehensive income and the tax bases of assets and liabilities measured using enacted tax rates in effect for the years in which the differences are expected to reverse. The effect of a change in tax rates is recognized as income tax expense or benefit in the period of the enactment date. Deferred tax assets, including the benefit of net operating loss and tax credit carryforwards, are evaluated based on the guidelines for realization and are reduced by a valuation allowance if it is deemed more likely than not that such assets will not be realized.

We recognize the income tax benefit from an uncertain tax position when it is more likely than not that, based on technical merits, the position will be sustained upon examination, including resolutions of any related appeals or litigation processes. We recognize accrued interest and penalties related to uncertain tax positions as a component of income tax expense.

Share-Based Compensation

ASC 718, Stock Compensation (“ASC 718”), requires all share-based compensation to employees, including grants of employee stock options and restricted shares, to be recognized using the fair value method of accounting. Share-based awards are recognized ratably over the requisite service period.

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires us to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

Table of Contents

Accounting Pronouncements Recently Adopted

In May 2017, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2017-09, “Compensation – Stock Compensation (Topic 718): Scope of Modification Accounting” (“ASU 2017-09”). ASU 2017-09 provides clarity on when a change to the terms or conditions of a share-based payment award would require an entity to apply modification accounting. We adopted ASU 2017-09 in the fourth quarter of fiscal 2017 and its adoption did not have a material impact to the consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, “Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments” (“ASU 2016-15”). ASU 2016-15 clarifies how companies should present and classify certain cash receipts and cash payments in the statement of cash flows. We adopted ASU 2016-15 in the fourth quarter of fiscal 2017 and its adoption did not have a material impact to the consolidated financial statements.

In March 2016, the FASB issued ASU 2016-09, “Compensation – Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting” (“ASU 2016-09”). ASU 2016-09 identifies areas for simplification involving several aspects of accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, an option to recognize gross stock compensation expense with actual forfeitures recognized as they occur, as well as certain classifications on the statement of cash flows. We adopted the new guidance on a prospective basis in the first quarter of fiscal 2017. As a result of the adoption, we recognized \$3.2 million of excess tax benefits related to share-based compensation in income tax expense for the year ended February 3, 2018. Excess tax benefits were historically recorded in additional paid-in capital. In addition, cash flows related to excess tax benefits are now classified as an operating activity. Cash flows were historically classified as a financing activity. We have elected to continue to estimate forfeitures expected to occur to determine the amount of compensation cost to be recognized each period. None of the other provisions in this amended guidance had a material impact to the consolidated financial statements.

Recent Accounting Pronouncements Not Yet Adopted

In January 2017, the FASB issued ASU 2017-04, “Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment” (“ASU 2017-04”). ASU 2017-04 simplifies the measurement of goodwill impairment by removing the second step of the goodwill impairment test, which requires the determination of the fair value of individual assets and liabilities of a reporting unit. Under ASU 2017-04, goodwill impairment is to be measured as the amount by which a reporting unit’s carrying value exceeds its fair value with the loss recognized not to exceed the total amount of goodwill allocated to the reporting unit. ASU 2017-04 is effective for fiscal years beginning after December 15, 2019, with early adoption permitted for interim or annual goodwill impairment tests performed after January 1, 2017. The standard is to be applied on a prospective basis. We do not anticipate a material impact to the consolidated financial statements once implemented.

In February 2016, the FASB issued ASU 2016-02, "Leases (Topic 842)" ("ASU 2016-02"). Under ASU 2016-02, an entity will be required to recognize right-of-use assets and lease liabilities on its balance sheet and disclose key information about leasing arrangements. ASU 2016-02 offers specific accounting guidance for a lessee, a lessor and sale and leaseback transactions. Lessees and lessors are required to disclose qualitative and quantitative information about leasing arrangements to enable a user of the financial statements to assess the amount, timing and uncertainty of cash flows arising from leases. ASU 2016-02 is effective for annual reporting periods beginning after December 15, 2018, including interim periods within that reporting period, with early adoption permitted. We expect to adopt this standard using a modified retrospective approach. We are currently evaluating the impact that ASU 2016-02 will have on the consolidated financial statements. We believe the most significant impact relates to our accounting for real estate leases, which will be recorded as right-of-use assets and lease liabilities on our balance sheet upon adoption.

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers" ("ASU 2014-09"). ASU 2014-09 supersedes the revenue recognition requirements in "Revenue Recognition (Topic 605)", and requires entities to recognize revenue in a way that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. In March 2016, the FASB issued ASU No. 2016-08, "Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net)" which is intended to improve the operability and understandability

Table of Contents

of the implementation guidance on principal versus agent considerations. In April 2016, the FASB issued ASU No. 2016-10, “Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing” which provides further guidance on identifying performance obligations and improves the operability and understandability of the licensing implementation guidance. In May 2016, the FASB issued ASU No. 2016-12, “Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients” which narrowly amended the revenue recognition guidance regarding collectability, noncash consideration, presentation of sales tax and transition. The guidance under these standards is effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. We have concluded our assessment of the new standard and will be adopting the provisions of ASU 2014-09 in the first quarter of 2018 utilizing the modified retrospective transition method. The adoption of the new standard will not have a material impact to the consolidated financial statements.

2. FAIR VALUE MEASUREMENTS

As defined in ASC 820, Fair Value Measurements (“ASC 820”), fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 establishes a three-level valuation hierarchy for fair value measurements. These valuation techniques are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect less transparent active market data, as well as internal assumptions. These two types of inputs create the following fair value hierarchy:

- Level 1—Quoted prices for identical instruments in active markets;
- Level 2—Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose significant inputs are observable; and
- Level 3—Instruments with significant unobservable inputs.

Impairment losses related to store-level property and equipment are calculated using significant unobservable inputs including the present value of future cash flows expected to be generated using a risk-adjusted weighted-average cost of capital and comparable store sales growth assumptions, and therefore are classified as a Level 3 measurement in the fair value hierarchy.

The carrying value of cash and cash equivalents, accounts receivable and accounts payable approximates their estimated fair values due to the short maturities of these instruments.

Edgar Filing: Michaels Companies, Inc. - Form 10-K

The table below provides the fair values of our Amended Term Loan Credit Facility and our 2020 Senior Subordinated Notes (as defined in Note 7) as of February 3, 2018 and January 28, 2017. The fair values of our Amended Term Loan Credit Facility and our 2020 Senior Subordinated Notes were determined based on quoted market prices which are considered Level 1 inputs within the fair value hierarchy.

	February 3, 2018	January 28, 2017
	(in thousands)	
Term loan credit facility	\$ 2,246,302	\$ 2,266,304
Senior subordinated notes	518,288	526,575

3. PROPERTY AND EQUIPMENT, NET

Property and equipment consists of the following (in thousands):

	February 3, 2018	January 28, 2017
Buildings and leasehold improvements	\$ 532,045	\$ 514,937
Fixtures and equipment	826,066	764,498
Capitalized software	182,456	154,422
Construction in progress	53,116	54,279
	1,593,683	1,488,136
Less accumulated depreciation and amortization	(1,173,663)	(1,074,972)
	\$ 420,020	\$ 413,164

4. ACQUISITION

On February 2, 2016, we acquired Lamrite for \$150.0 million, prior to certain purchase price adjustments, utilizing our cash on hand. Lamrite operates an international wholesale business under the Darice brand name and 36 arts and crafts retail stores (32 as of the acquisition date), located primarily in Ohio and the surrounding states, under the Pat Catan's brand name. We incurred integration related costs of \$7.4 million during fiscal 2016. These expenses have been included in SG&A in the consolidated statements of comprehensive income.

The acquisition was accounted for using the purchase method of accounting in accordance with ASC 805, Business Combinations. The acquisition resulted in goodwill primarily related to the expected benefits resulting from enhancements to our private brand development capabilities, direct sourcing initiatives and business-to-business capabilities, as well as the value of the existing Lamrite workforce.

The fair values of the intangible assets acquired were primarily determined by using the income approach. The income approach indicates value for a subject based on the present value of cash flows expected to be generated by the asset. Projected cash flows are discounted at a market rate of return that reflects the relative risk of achieving the cash flows and the time value of money. The fair value of inventory was determined based on the estimated selling price of the inventory less the expected costs of selling efforts and a reasonable profit margin.

The following table summarizes the cash consideration for the acquisition of Lamrite (in thousands):

Purchase contract amount	\$ 150,000
Additional consideration to Lamrite shareholders for taxes	6,500
Working capital and other adjustments	(3,090)
Total purchase consideration	\$ 153,410

F-15

Table of Contents

The following table summarizes the fair values of the assets acquired and liabilities assumed from the acquisition of Lamrite as of February 2, 2016 (in thousands):

Cash and cash equivalents	\$ 2,310
Trade accounts receivable	22,254
Merchandise inventory	83,700
Other current assets	1,202
Property, plant and equipment	25,367
Net favorable leases	2,450
Intangible assets (1)	21,800
Other assets	306
Current liabilities (2)	(30,490)
Other long-term liabilities	(273)
Fair value of net assets acquired	128,626
Goodwill	24,784
Total purchase consideration	\$ 153,410

-
- (1) Includes customer relationships, trade and brand names and proprietary product designs. Intangible assets include \$9.4 million of assets that are being amortized over a range of 6 to 18 years.
- (2) Includes accounts payable, accrued expenses, accrued payroll and accrued taxes.

Since the date of acquisition, the results of Lamrite's operations have been included in the Company's results of operations. The Company has not presented pro forma financial information for prior periods because the impact on our previously reported consolidated financial statements would not have been material.

5. GOODWILL AND INTANGIBLE ASSETS

The gross carrying amounts and accumulated amortization of our intangible assets, including amounts acquired in the Lamrite acquisition (see Note 4), for the years ended February 3, 2018 and January 28, 2017 were as follows (in thousands):

As of February 3, 2018				
Weighted Average Remaining Amortization				
Period	Period	Gross Carrying	Accumulated	Net Carrying

Edgar Filing: Michaels Companies, Inc. - Form 10-K

	(in years)(in years)	Amount	Amortization	Value
Definite-lived intangible assets:				
Customer relationships	16-18 5.94	\$ 5,600	\$ (1,278)	\$ 4,322
Proprietary product designs	7 5.00	3,400	(1,750)	1,650
Other intangible assets	2-23 10.62	4,229	(2,157)	2,072
		13,229	(5,185)	8,044
Indefinite-lived intangible assets:				
Tradenames		13,725		13,725
Total intangible assets		\$ 26,954	\$ (5,185)	\$ 21,769

F-16

Table of Contents

	As of January 28, 2017			
	Weighted			
	Average			
	Remaining			
	Amortization	Gross	Accumulated	Net
	Period	Carrying	Amortization	Carrying
	(in	Amount	Amortization	Value
	years)(in years)			
Definite-lived intangible assets:				
Customer relationships	16-18 6.93	\$ 5,600	\$ (637)	\$ 4,963
Proprietary product designs	7 6.00	3,400	(976)	2,424
Other intangible assets	2-23 9.77	4,229	(1,639)	2,590
		13,229	(3,252)	9,977
Indefinite-lived intangible assets:				
Tradenames		13,725		13,725
Total intangible assets		\$ 26,954	\$ (3,252)	\$ 23,702

In fiscal 2017 and fiscal 2016, we recognized amortization expense of \$1.9 million and \$2.4 million, respectively, related to definite-lived intangible assets. Amortization expense was immaterial in fiscal 2015. As of February 3, 2018, the amortization expense related to our definite-lived intangible assets for the next five years will be approximately \$1.0 million to \$2.0 million each year.

As of February 3, 2018, goodwill totaled \$119.1 million, including \$94.3 million related to Michaels-U.S. and \$24.8 million related to the acquisition of Lamrite on February 2, 2016.

6. ACCRUED LIABILITIES AND OTHER

Accrued liabilities and other consists of the following (in thousands):

	February 3, 2018	January 28, 2017
Accrued payroll	\$ 78,822	\$ 68,118
Self-insurance	75,519	77,317
Property, sales and use taxes	70,643	89,655
Gift card liability	56,729	49,869
Accrued and straight-line rent	21,964	23,396

Edgar Filing: Michaels Companies, Inc. - Form 10-K

Accrued interest	6,753	18,793
Other	60,027	70,349
	\$ 370,457	\$ 397,497

7. DEBT

Long-term debt consists of the following (in thousands):

	Interest Rate	February 3, 2018	January 28, 2017
Term loan credit facility	Variable	\$ 2,232,350	\$ 2,263,475
Senior subordinated notes	5.875 %	510,000	510,000
Total debt		2,742,350	2,773,475
Less unamortized discount/premium and debt costs		(15,686)	(19,163)
Total debt, net		2,726,664	2,754,312
Less current portion		(24,900)	(31,125)
Long-term debt		\$ 2,701,764	\$ 2,723,187

Table of Contents

The aggregate amount of scheduled maturities of debt for the next five years and thereafter is as follows (in thousands):

Fiscal Year	
2018	\$ 24,900
2019	24,900
2020	534,900
2021	18,675
2022	2,138,975
Total debt payments	\$ 2,742,350

As of February 3, 2018 and January 28, 2017, the weighted-average interest rate of the variable debt was 4.32% and 3.75%, respectively. Cash paid for interest totaled \$137.6 million, \$113.3 million and \$129.3 million in fiscal 2017, fiscal 2016 and fiscal 2015, respectively.

As of February 3, 2018, net debt issuance costs totaled \$20.3 million. We amortize debt issuance costs using the straight-line method over the terms of the respective debt agreements (which range from five to seven years). Amortization expense related to debt issuance costs is recorded in interest expense in the accompanying consolidated statements of comprehensive income. The straight-line method produces results materially consistent with the effective interest method. Our expected amortization expense related to the debt issuance costs for each of the next five years and thereafter is as follows (in thousands):

Fiscal Year	
2018	\$ 5,098
2019	5,098
2020	4,965
2021	2,752
2022	2,380
Total amortization expense	\$ 20,293

Term Loan Credit Facility

On January 28, 2013, MSI entered into an amended and restated credit agreement maturing on January 28, 2020 (the “Credit Agreement”) to amend various terms of MSI’s then existing term loan credit agreement with Deutsche Bank AG New York Branch (“Deutsche Bank”) and other lenders. The Credit Agreement, together with the related security, guarantee and other agreements, is referred to as the “Term Loan Credit Facility”.

On July 2, 2014, MSI issued an additional \$850.0 million of debt under the Term Loan Credit Facility maturing in 2020 (“Additional Term Loan”). The Additional Term Loan was issued at 99.5% of face value, resulting in an effective interest rate of 4.02%.

On December 28, 2015, MSI voluntarily prepaid \$150.0 million in principal of the Additional Term Loan for an aggregate redemption price (including any unpaid interest) of \$151.0 million.

On September 28, 2016, MSI entered into an amendment with Deutsche Bank and other lenders to amend and restate our Term Loan Credit Facility. The amended and restated credit agreement, together with the related security, guarantee and other agreements, is referred to as the “Amended Term Loan Credit Facility”. The Amended Term Loan Credit Facility matures on January 28, 2023.

As of February 3, 2018, the Amended Term Loan Credit Facility provides for senior secured financing of \$2,232.4 million. MSI has the right under the Amended Term Loan Credit Facility to request additional term loans (a) in the aggregate amount of up to \$750.0 million or (b) at MSI’s election, an amount of additional term loans if the consolidated secured debt ratio (as defined in the Amended Term Loan Credit Facility) is no more than 3.25 to 1.00 on a pro forma basis as of the last day of the most recently ended four quarter period, subject to certain adjustments. The lenders under the Amended Term Loan Credit Facility will not be under any obligation to provide any such additional term loans, and the incurrence of any such additional term loans is subject to customary conditions.

Table of Contents

Borrowings under the Amended Term Loan Credit Facility bear interest at a rate per annum, at MSI's option, of either (a) a margin of 1.75% plus a base rate defined as the highest of (1) the prime rate of Deutsche Bank, (2) the federal funds effective rate plus 0.5%, and (3) the one-month London Interbank Offered Rate ("LIBOR") plus 1% or (b) a margin of 2.75% plus the applicable LIBOR. The applicable margin is 1.50% for base rate loans and 2.50% for LIBOR loans if our consolidated secured debt ratio is below 1.50:1.00 for the applicable quarter.

There are no limitations on dividends and certain other restricted payments so long as (a) no event of default shall have occurred and be continuing and (b) immediately after giving pro forma effect to such restricted payment(s) and the application of proceeds therefrom, the consolidated total leverage ratio is less than or equal to 3.75 to 1.00.

MSI must offer to prepay outstanding term loans at 100% of the principal amount, plus any unpaid interest, with the proceeds of certain asset sales or casualty events under certain circumstances. MSI may voluntarily prepay outstanding loans under the Amended Term Loan Credit Facility at any time without premium or penalty other than customary breakage costs with respect to LIBOR loans.

MSI is required to make scheduled quarterly payments equal to 0.25% of the original principal amount of the term loans (subject to adjustments relating to the incurrence of additional term loans) for the first six years and three quarters of the Amended Term Loan Credit Facility, with the balance to be paid on January 28, 2023.

All obligations under the Amended Term Loan Credit Facility are unconditionally guaranteed, jointly and severally, by Michaels Funding, Inc. ("Holdings") and all of MSI's existing domestic material subsidiaries and are required to be guaranteed by certain of MSI's future domestic wholly-owned material subsidiaries ("the Subsidiary Guarantors"). All obligations under the Amended Term Loan Credit Facility, and the guarantees of those obligations, are secured, subject to certain exceptions, by substantially all of the assets of Holdings, MSI and the Subsidiary Guarantors, including:

- a first-priority pledge of MSI's capital stock and all of the capital stock held directly by MSI and the Subsidiary Guarantors (which pledge, in the case of any foreign subsidiary or foreign subsidiary holding company, is limited to 65% of the voting stock of such foreign subsidiary or subsidiary holding company and 100% of the non-voting stock of such subsidiary);
- a first-priority security interest in, and mortgages on, substantially all other tangible and intangible assets of Holdings, MSI and each Subsidiary Guarantor, including substantially all of MSI's and the Subsidiary Guarantors owned real property and equipment, but excluding, among other things, the collateral described below; and
- a second-priority security interest in personal property consisting of inventory and related accounts, cash, deposit accounts, all payments received by Holdings, MSI or the Subsidiary Guarantors from credit card clearinghouses and

processors or otherwise in respect of all credit card charges and debit card charges for sales of inventory by Holdings, MSI and the Subsidiary Guarantors, and certain related assets and proceeds of the foregoing.

The Amended Term Loan Credit Facility contains a number of negative covenants that are substantially similar to, but more restrictive in certain respects than, those governing the 2020 Senior Subordinated Notes (as defined below), as well as certain other customary representations and warranties, affirmative and negative covenants and events of default. As of February 3, 2018, MSI was in compliance with all covenants.

As of February 3, 2018, net debt issuance costs totaled \$11.9 million and are being amortized as interest expense over the life of the Amended Term Loan Credit Facility. Debt issuance costs related to this facility are reflected as a reduction from the carrying value of debt in the consolidated balance sheets. As a result of the \$150.0 million Additional Term Loan prepayment on December 28, 2015, MSI recorded a loss on the early extinguishment of debt of \$2.4 million. As a result of the amendment of our Term Loan Credit Facility on September 28, 2016, MSI recorded a loss on the early extinguishment of debt of \$6.9 million.

5.875% Senior Subordinated Notes due 2020

On December 19, 2013, MSI issued \$260.0 million in principal amount of 5.875% senior subordinated notes maturing in 2020 ("2020 Senior Subordinated Notes"). On June 16, 2014, MSI issued an additional \$250.0 million of the

Table of Contents

2020 Senior Subordinated Notes at 102% of face value, resulting in an effective interest rate of 5.76%. Interest is payable semi-annually on June 15 and December 15 of each year.

The 2020 Senior Subordinated Notes are guaranteed, jointly and severally, fully and unconditionally, on an unsecured senior subordinated basis, by each of MSI's subsidiaries that guarantee indebtedness under the Amended Revolving Credit Facility and the Amended Term Loan Credit Facility (collectively defined as the "Senior Secured Credit Facilities").

The 2020 Senior Subordinated Notes and the related guarantees are MSI's and the guarantors' unsecured senior subordinated obligations and are (i) subordinated in right of payment to all of MSI's and the guarantors' existing and future senior debt, including the Senior Secured Credit Facilities; (ii) rank equally in right of payment to all of MSI's and the guarantors' future senior subordinated debt; (iii) effectively subordinated to all of MSI's and the guarantors' existing and future secured debt (including the Senior Secured Credit Facilities) to the extent of the value of the assets securing such debt; (iv) rank senior in right of payment to all of the MSI's and the guarantors' existing and future debt and other obligations that are, by their terms, expressly subordinated in right of payment to the 2020 Senior Subordinated Notes; and (v) are structurally subordinated to all obligations of MSI's subsidiaries that are not guarantors of the 2020 Senior Subordinated Notes.

MSI may redeem all or part of the 2020 Senior Subordinated Notes, upon notice, at the redemption prices set forth below (expressed as percentages of the principal amount of the 2020 Senior Subordinated Notes to be redeemed), plus any unpaid interest through the applicable date of redemption, if redeemed during the twelve-month period beginning on December 15 of each of the years indicated below:

Year	Percentage
2017	101.469 %
2018 and thereafter	100.000 %

Upon a change in control, MSI is required to offer to purchase all of the 2020 Senior Subordinated Notes at a price in cash equal to 101% of the aggregate principal amount, plus any unpaid interest. The indenture governing the 2020 Senior Subordinated Notes ("2020 Senior Subordinated Indenture") contains covenants limiting MSI's ability, and the ability of MSI's restricted subsidiaries, to incur or guarantee additional debt, prepay debt that is subordinated to the 2020 Senior Subordinated Notes, issue stock of subsidiaries, make certain investments, loans, advances and acquisitions, create liens on MSI's and such subsidiaries' assets to secure debt, enter into transactions with affiliates, merge or consolidate with another company; and sell or otherwise transfer assets. The covenants also limit MSI's ability, and the ability of MSI's restricted subsidiaries, to pay dividends or distributions on MSI's capital stock or repurchase MSI's capital stock, subject to certain exceptions, including dividends, distributions and repurchases up to an amount in excess of (i) \$100.0 million plus (ii) a basket that builds based on 50% of MSI's consolidated net income (as defined in the 2020 Senior Subordinated Indenture) and certain other amounts, in each case, to the extent such

payment capacity is not applied as otherwise permitted under the 2020 Senior Subordinated Indenture and subject to certain conditions. However, there are no limitations on dividends and certain other restricted payments so long as (a) no default shall have occurred and be continuing and (b) immediately after giving pro forma effect to such restricted payment(s) and the application of proceeds therefrom, the consolidated total leverage ratio is less than or equal to 3.25 to 1.00. As of February 3, 2018, the permitted restricted payment amount was \$873.7 million. As of February 3, 2018, MSI was in compliance with all covenants.

As of February 3, 2018, net debt issuance costs totaled \$4.7 million and are being amortized as interest expense over the life of the 2020 Senior Subordinated Notes. Debt issuance costs related to these notes are reflected as a reduction from the carrying value of debt in the consolidated balance sheets.

Revolving Credit Facility

On September 17, 2012, MSI entered into a second amended and restated credit agreement (the “Credit Agreement”) with Wells Fargo Bank, National Association (“Wells Fargo”) and other lenders to amend various terms of MSI’s then existing senior secured asset-based revolving credit facility. The Credit Agreement, together with related security, guarantee and other agreements, is referred to as the “Revolving Credit Facility”. On May 27, 2016, MSI entered into an amended and restated credit agreement with Wells Fargo and other lenders to, among other things, increase the availability and extend the maturity date of our Revolving Credit Facility. The amended credit agreement, together with the related security, guarantee and other agreements, is referred to as the “Amended Revolving Credit Facility”.

Table of Contents

The Amended Revolving Credit Facility provides for senior secured financing of up to \$850.0 million, subject to a borrowing base. The borrowing base under the Amended Revolving Credit Facility equals the sum of: (i) 90% of eligible credit card receivables, (ii) 85% of eligible trade receivables, (iii) 90% to 92.5% of the appraised value of eligible inventory, plus (iv) 90% to 92.5% of the lesser of (a) the appraised value of eligible inventory supported by letters of credit, and (b) the face amount of the letters of credit, less (v) certain reserves. The Amended Revolving Credit Facility matures in May 2021, subject to a springing maturity date if certain of our outstanding indebtedness has not been repaid, redeemed, refinanced, cash collateralized or if the necessary availability reserves have not been established prior to such time (the “ABL Maturity Date”).

As of February 3, 2018, the borrowing base was \$780.0 million of which MSI had availability of \$716.6 million. Borrowing capacity is available for letters of credit and borrowings on same-day notice. Outstanding standby letters of credit as of February 3, 2018 totaled \$63.4 million.

The Amended Revolving Credit Facility also provides MSI with the right to request up to \$200.0 million of additional commitments. The lenders will not be under any obligation to provide any such additional commitments, and any increase in commitments is subject to customary conditions. If we were to request additional commitments, and the lenders were to agree to provide such commitments, the facility size could be increased up to \$1,050.0 million, however, MSI’s ability to borrow would still be limited by the borrowing base.

Borrowings under the Amended Revolving Credit Facility bear interest at a rate per annum equal to, at our option, either (a) a base rate determined by reference to the highest of (1) the prime rate of Wells Fargo, (2) the federal funds effective rate plus 0.50% and (3) LIBOR subject to certain adjustments plus 1.00% or (b) LIBOR subject to certain adjustments, in each case plus an applicable margin. The initial applicable margin is (a) 0.25% for prime rate borrowings and 1.25% for LIBOR borrowings. The applicable margin is subject to adjustment each fiscal quarter based on the excess availability under the Amended Revolving Credit Facility. Excess availability is defined as the Loan Cap (as defined below) plus certain unrestricted cash of Holdings, MSI and the Subsidiary Guarantors, less the outstanding credit extensions. Same-day borrowings bear interest at the base rate plus the applicable margin.

MSI is required to pay a commitment fee on the unutilized commitments under the Amended Revolving Credit Facility, which is 0.25% per annum. In addition, MSI must pay customary letter of credit fees and agency fees.

All obligations under the Amended Revolving Credit Facility are unconditionally guaranteed, jointly and severally, by Holdings and the Subsidiary Guarantors. All obligations under the Amended Revolving Credit Facility, and the guarantees of those obligations, are secured, subject to certain exceptions, by substantially all of the assets of Holdings, MSI and the Subsidiary Guarantors, including:

a first-priority security interest in personal property consisting of inventory and related accounts, cash, deposit accounts, all payments received by Holdings, MSI or the Subsidiary Guarantors from credit card clearinghouses and processors or otherwise in respect of all credit card charges and debit card charges for sales of inventory by Holdings, MSI and the Subsidiary Guarantors, and certain related assets and proceeds of the foregoing;

- a second-priority pledge of all of MSI's capital stock and the capital stock held directly by MSI and the Subsidiary Guarantors (which pledge, in the case of the capital stock of any foreign subsidiary or foreign subsidiary holding company, is limited to 65% of the voting stock of such foreign subsidiary or foreign subsidiary holding company and 100% of the non-voting stock of such subsidiary); and
- a second-priority security interest in, and mortgages on, substantially all other tangible and intangible assets of Holdings, MSI and each Subsidiary Guarantor, including substantially all of MSI's and the Subsidiary Guarantors owned real property and equipment.

If, at any time, the aggregate amount of outstanding loans, unreimbursed letter of credit drawings and undrawn letters of credit under the Amended Revolving Credit Facility exceeds the lesser of (i) the commitment amount and (ii) the borrowing base (the "Loan Cap"), MSI will be required to repay outstanding loans and cash collateralize letters of credit in an aggregate amount equal to such excess, with no reduction of the commitment amount. If availability under the Amended Revolving Credit Facility is less than the greater of (i) 10.0% of the Loan Cap and (ii) \$50.0 million for five consecutive business days, or, if certain events of default have occurred, MSI will be required to repay outstanding loans

Table of Contents

and cash collateralize letters of credit with the cash MSI is required to deposit daily in a collection account maintained with the agent under the Amended Revolving Credit Facility. Availability under the Amended Revolving Credit Facility means the Loan Cap minus the outstanding credit extensions. MSI may voluntarily reduce the unutilized portion of the commitment amount and repay outstanding loans at any time without premium or penalty, other than customary breakage costs with respect to LIBOR loans. The principal amount of the loans outstanding is due and payable in full on the ABL Maturity Date.

The covenants limiting dividends and other restricted payments, investments, loans, advances and acquisitions, and prepayments or redemptions of indebtedness, each permit the restricted actions in an unlimited amount, subject to the satisfaction of certain payment conditions, principally that MSI must meet specified excess availability requirements and minimum consolidated fixed charge coverage ratios, to be tested on a pro forma basis as of the date of the restricted action and for the 90-day period preceding such restricted action. Adjusted EBITDA, as defined in the Amended Revolving Credit Facility, is used in the calculation of the consolidated fixed charge coverage ratios.

From the time when MSI has excess availability less than the greater of (a) 10.0% of the Loan Cap and (b) \$50.0 million, until the time when MSI has excess availability greater than the greater of (a) 10.0% of the Loan Cap and (b) \$50.0 million for 30 consecutive days, the Amended Revolving Credit Facility will require MSI to maintain a consolidated fixed charge coverage ratio of at least 1.0 to 1.0. The Amended Revolving Credit Facility also contains certain customary representations and warranties, affirmative covenants and provisions relating to events of default (including change of control and cross-default to material indebtedness).

The Amended Revolving Credit Facility contains a number of covenants that, among other things and subject to certain exceptions, restrict MSI's ability, and the ability of its restricted subsidiaries, to:

- incur or guarantee additional indebtedness;
- pay dividends on MSI's capital stock or redeem, repurchase or retire MSI's capital stock;
- make investments, loans, advances and acquisitions;
- create restrictions on the payment of dividends or other amounts to MSI from its restricted subsidiaries;
- engage in transactions with MSI's affiliates;
- sell assets, including capital stock of MSI's subsidiaries;

- prepay or redeem indebtedness;
- consolidate or merge; and
- create liens.

As of February 3, 2018, net debt issuance costs totaled \$3.7 million and are being amortized as interest expense over the life of the Amended Revolving Credit Facility. Debt issuance costs related to this facility are reflected as an asset within the consolidated balance sheets. As a result of the refinancing of our Restated Revolving Credit Facility on May 27, 2016, MSI recorded a loss on the early extinguishment of debt of \$0.4 million related to the write-off of net debt issuance costs.

PIK Toggle Notes

On July 29, 2013, Michaels FinCo Holdings, LLC (“FinCo Holdings”) and Michaels FinCo, Inc. (“FinCo Inc.”) issued \$800.0 million aggregate principal amount of 7.50%/8.25% PIK Toggle Notes due 2018 (“PIK Notes”) in a private transaction. On July 2, 2014, the Company completed an IPO and received net proceeds totaling \$445.7 million. The net proceeds were used to redeem \$439.1 million of the outstanding PIK Notes and to pay other expenses of the offering. The aggregate redemption price (including redemption premium and any unpaid interest) was \$473.5 million. On December 10, 2014, the Company redeemed \$180.0 million of the PIK Notes for an aggregate redemption price (including redemption premium and any unpaid interest) of \$188.4 million.

Table of Contents

On May 6, 2015, the Company redeemed the remaining \$180.9 million of the PIK Notes for an aggregate redemption price (including redemption premium and any unpaid interest) of \$188.0 million. This final payment retired the PIK Notes and discharged the obligations under the indenture governing the PIK Notes.

In fiscal 2015, we recorded a loss on the early extinguishment of debt of \$6.1 million related to the redemption of the PIK Notes. The \$6.1 million loss consisted of a \$3.6 million redemption premium and a \$2.5 million charge to write off debt issuance costs.

8. LEASES

We operate stores and use distribution centers, office facilities and equipment that are generally leased under non-cancelable operating leases, the majority of which provide for renewal options. Future minimum annual rental commitments for all non-cancelable operating leases as of February 3, 2018 are as follows (in thousands):

Fiscal Year	
2018	\$ 437,812
2019	393,738
2020	337,123
2021	280,952
2022	219,060
Thereafter	539,033
Total minimum rental commitments	\$ 2,207,718

Rent expense applicable to non-cancelable operating leases was \$425.5 million, \$416.2 million and \$388.1 million in fiscal 2017, fiscal 2016 and fiscal 2015, respectively.

9. INCOME TAXES

The reconciliation of income tax expense computed at the U.S. federal statutory tax rate to income tax expense reported in our consolidated statements of comprehensive income is as follows (in thousands):

Fiscal Year

Edgar Filing: Michaels Companies, Inc. - Form 10-K

	2017			2016			2015		
Income taxes at statutory rate	\$ 204,256	33.7	%	\$ 203,621	35.0	%	\$ 200,242	35.0	%
State income taxes, net of federal benefit	18,224	3.0		10,665	1.8		19,131	3.3	
Foreign tax rate differential	(31,570)	(5.2)		(8,820)	(1.5)		(2,583)	(0.4)	
Enactment of Tax Act	14,557	2.4		—	—		—	—	
Other	9,776	1.6		(1,852)	(0.3)		(7,582)	(1.3)	
Total	\$ 215,243	35.5	%	\$ 203,614	35.0	%	\$ 209,208	36.6	%

On December 22, 2017, the Tax Cuts and Jobs Act (the “Tax Act”) was enacted in the U.S. The Tax Act includes a number of changes to U.S. tax laws that impact the Company, including the reduction of the federal statutory tax rate from 35% to 21% effective January 1, 2018. As a result of the Tax Act, we recorded an \$8.5 million charge in fiscal 2017. The charge consists of provisional adjustments of \$10.8 million related to repatriation taxes for accumulated earnings of foreign subsidiaries and \$3.8 million related to the revaluation of net deferred tax assets, partially offset by a \$6.1 million benefit due to the decrease in the federal statutory tax rate. The U.S. Treasury is expected to issue additional regulations and guidance in connection with the Tax Act, which may alter interpretations of the new tax law and could materially change our estimated provisional adjustments.

In addition, the Tax Act subjects us to a tax on global intangible low-taxed income (“GILTI”) related to certain foreign subsidiaries. Given the complexity of the GILTI tax regulations, we are still evaluating the impact of its provisions and have not reflected any adjustments related to the GILTI tax in our financial statements for the year ended February 3, 2018.

Table of Contents

The components of our income tax expense are as follows (in thousands):

	Fiscal Year		
	2017	2016	2015
Current:			
Federal	\$ 186,784	\$ 171,934	\$ 164,384
State	26,434	15,970	27,167
Foreign	(2,027)	8,487	9,746
Total current income tax expense	211,191	196,391	201,297
Deferred:			
Federal	3,961	4,055	6,300
State	(966)	1,139	2,762
Foreign	1,057	2,029	(1,151)
Total deferred income tax expense	4,052	7,223	7,911
Income taxes	\$ 215,243	\$ 203,614	\$ 209,208

The pretax income from foreign operations for fiscal 2017, fiscal 2016 and fiscal 2015 totaled \$119.9 million, \$48.2 million and \$33.2 million, respectively.

Significant components of deferred income tax assets and liabilities are as follows (in thousands):

	February 3, 2018	January 28, 2017
Deferred income tax assets:		
Accrued liabilities	\$ 12,378	\$ 18,811
Self-insurance	14,740	24,602
Deferred rent	14,108	18,714
Gift cards	8,392	8,985
Share-based compensation	7,119	9,765
Original issue discount	2,829	8,845
State income taxes	5,033	4,077
State and foreign net operating losses	6,247	4,615
Other	1,902	2,294
Total gross deferred income tax assets	72,748	100,708
Valuation allowance	(2,640)	(3,689)
Total deferred income tax assets, net of valuation allowance	70,108	97,019
Deferred income tax liabilities:		

Edgar Filing: Michaels Companies, Inc. - Form 10-K

Property and equipment	(25,398)	(37,895)
Merchandise inventories	(8,447)	(8,152)
Cancellation of debt	(4,783)	(15,143)
Total deferred income tax liabilities	(38,628)	(61,190)
Net deferred income tax assets	\$ 31,480	\$ 35,829

A valuation allowance is recorded to reduce the carrying amounts of deferred tax assets unless it is more likely than not that such assets will be realized. In evaluating our ability to realize our deferred tax assets we considered sources of future taxable income, including future reversals of existing taxable temporary differences, forecast of future profitability and tax-planning strategies.

At February 3, 2018, we had state net operating loss carryforwards to reduce future taxable income of \$6.2 million, net of federal tax benefits, expiring at various dates between fiscal 2018 and fiscal 2037. Cash paid for income taxes totaled \$181.3 million, \$162.4 million and \$154.9 million in fiscal 2017, fiscal 2016 and fiscal 2015, respectively.

Table of Contents

Unrecognized Tax Benefits

We operate in a number of tax jurisdictions and are subject to examination of our income tax returns by tax authorities in those jurisdictions who may challenge any item on these tax returns. Because the tax matters challenged by tax authorities are typically complex, the ultimate outcome of these challenges is uncertain. In accordance with ASC 740, Income Taxes, we recognize these tax benefits in our consolidated financial statements only after determining that it is more likely than not that the tax benefits will be sustained.

A reconciliation of gross unrecognized tax benefits from the end of fiscal 2016 through the end of fiscal 2017 is as follows (in thousands):

Balance at beginning of year	\$ 34,889
Additions related to the current year	9,916
Additions related to prior years	5,014
Reductions related to prior years	(167)
Settlement of tax positions	(112)
Expiration of applicable statute of limitations	(2,646)
Balance at end of year	\$ 46,894

Included in the balance of unrecognized tax benefits at February 3, 2018 is \$25.4 million which, if recognized, would affect income tax expense. We do not expect any material changes to our liability for uncertain tax positions during the next 12 months. At February 3, 2018 and January 28, 2017, the total amount of interest accrued within the tax liability was \$3.0 million and \$2.1 million, respectively. There was no material interest or penalty expense recognized in the consolidated statements of comprehensive income in fiscal 2017, fiscal 2016 or fiscal 2015.

Our income tax returns are subject to examination by taxing authorities in the jurisdictions in which we operate. The periods subject to examination for our federal returns are fiscal 2013 to fiscal 2016 and fiscal 2010 to fiscal 2016 for our Canadian returns. State income tax returns are generally subject to examination for a period of three to five years after filing. We have various state income tax returns in the process of examination, appeals or settlements. Our income tax returns for fiscal 2011 and fiscal 2012 are currently under examination by the Canadian tax authorities. Our federal returns for fiscal 2013 and fiscal 2014 are currently under examination by the Internal Revenue Service. We are not aware of any issues which would result in a material assessment of net tax obligations.

10. SHARE-BASED COMPENSATION

The Michaels Companies, Inc. Second Amended and Restated 2014 Omnibus Long-Term Incentive Plan provides for the grant of share-based awards for up to 28.6 million shares of common stock. As of February 3, 2018, there were 10.4 million shares of common stock remaining available for grant. Generally, awards vest ratably over four or five years and expire eight to ten years from the grant date. As of February 3, 2018, unrecognized compensation cost for all unvested share-based awards totaled \$58.7 million and is expected to be recognized over a weighted-average period of 2.6 years. Share-based compensation expense totaled \$24.3 million in fiscal 2017, \$16.5 million in fiscal 2016 and \$15.1 million in fiscal 2015 and is recorded in cost of sales and occupancy expense and SG&A in the consolidated statements of comprehensive income.

Table of Contents

Stock Options

The fair value of each stock option is estimated using the Black-Scholes option pricing model. The following table presents the weighted-average assumptions used during fiscal years 2017, 2016 and 2015:

	Fiscal Year					
	2017		2016		2015	
Risk-free interest rates (1)	1.7	%	1.1	%	1.2	%
Expected dividend yield	0.0	%	0.0	%	0.0	%
Expected volatility (2)	29.9	%	29.8	%	29.7	%
Expected life of options in years (3)	4.1		4.1		4.0	

-
- (1) Based on interest rates for U.S. Treasury instruments with terms consistent with the expected lives of the awards.
(2) We considered our historical and implied volatility as well as the implied volatilities for exchange-traded options of a peer group of companies.
(3) Expected lives were based on an analysis of historical exercise and post-vesting employment termination.

The stock option activity during the fiscal year ended February 3, 2018 was as follows:

	Number of Shares (in thousands)	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value (in thousands)
Outstanding at beginning of year	7,662	\$ 17.94		
Granted	2,134	22.05		
Exercised	(1,366)	12.11		
Expired/Forfeited	(454)	21.92		
Outstanding at end of year	7,976	19.81	6.8	\$ 51,205
Shares exercisable at end of year	3,492	\$ 17.09	5.1	\$ 31,872

The total grant date fair value of options that vested during fiscal 2017, fiscal 2016 and fiscal 2015 was \$8.3 million, \$7.4 million and \$7.3 million, respectively. The intrinsic value for options that vested during fiscal 2017, fiscal 2016 and fiscal 2015 was \$5.4 million, \$13.1 million and \$18.1 million, respectively. The intrinsic value for options exercised was \$15.7 million in fiscal 2017, \$30.8 million in fiscal 2016 and \$65.6 million in fiscal 2015. As of the beginning of fiscal 2017, there were 4.4 million nonvested options with a weighted-average fair value of \$5.50 per share. As of the end of fiscal 2017, there were 4.5 million nonvested options with a weighted-average fair value of

\$5.77 per share. The weighted-average fair value of options granted during fiscal 2017, fiscal 2016 and fiscal 2015 was \$5.88, \$6.27 and \$6.01, respectively. During fiscal 2017, there were 1.6 million options that vested and 0.5 million options that were cancelled with a weighted-average fair value of \$5.22 and \$5.66 per share, respectively.

Restricted Shares

The Company issues restricted shares to certain key employees and its Board of Directors. Generally, restricted shares awarded to employees vest ratably over four or five years. Restricted shares awarded to Board of Director members vest ratably over one year. Compensation expense is recorded for all restricted stock awards and restricted stock units based on the amortization of the fair market value at the date of grant over the vesting period.

F-26

Table of Contents

Restricted stock award activity during the fiscal year ended February 3, 2018 was as follows:

	Number of Shares (in thousands)	Weighted-Average Fair Value
Outstanding at beginning of year	964	\$ 21.58
Vested	(357)	21.21
Forfeited	(86)	22.34
Outstanding at end of year	521	\$ 22.84

Restricted stock unit activity during the fiscal year ended February 3, 2018 was as follows:

	Number of Shares (in thousands)	Weighted-Average Fair Value
Outstanding at beginning of year	802	\$ 23.91
Granted	983	22.19
Vested	(207)	23.88
Forfeited	(118)	23.24
Outstanding at end of year	1,460	\$ 22.81

11. EARNINGS PER SHARE

The Company's unvested restricted stock awards contain non-forfeitable rights to dividends and meet the criteria of a participating security as defined by ASC 260, "Earnings Per Share". In applying the two-class method, net income is allocated to both common and participating securities based on their respective weighted-average shares outstanding for the period. Basic earnings per share is computed by dividing net income allocated to common shareholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share is computed by dividing income available to common shareholders by the weighted-average common shares outstanding plus the potential dilutive impact from the exercise of stock options and restricted stock units. Common equivalent shares are excluded from the computation if their effect is anti-dilutive. There were 5.5 million, 2.3 million and 0.8 million anti-dilutive shares in fiscal 2017, fiscal 2016 and fiscal 2015, respectively.

The following table sets forth the computation of basic and diluted earnings per share (in thousands, except per share data):

	Fiscal Year		
	2017	2016	2015
Basic earnings per common share:			
Net income	\$ 390,498	\$ 378,159	\$ 362,912
Less income related to unvested restricted shares	(1,519)	(2,323)	(1,900)
Income available to common shareholders - Basic	\$ 388,979	\$ 375,836	\$ 361,012
Weighted-average common shares outstanding - Basic	184,281	204,735	206,845
Basic earnings per common share	\$ 2.11	\$ 1.84	\$ 1.75
Diluted earnings per common share:			
Net income	\$ 390,498	\$ 378,159	\$ 362,912
Less income related to unvested restricted shares	(1,508)	(2,305)	(1,877)
Income available to common shareholders - Diluted	\$ 388,990	\$ 375,854	\$ 361,035
Weighted-average common shares outstanding - Basic	184,281	204,735	206,845
Effect of dilutive stock options and restricted stock units	1,285	1,619	2,501
Weighted-average common shares outstanding - Diluted	185,566	206,354	209,346
Diluted earnings per common share	\$ 2.10	\$ 1.82	\$ 1.72

12. SEGMENTS AND GEOGRAPHIC INFORMATION

We consider Michaels-U.S., Michaels-Canada, Aaron Brothers, Pat Catan's and Darice to be our operating segments for purposes of determining reportable segments based on the criteria of ASC 280, Segment Reporting ("ASC 280"). We determined that Michaels-U.S., Michaels-Canada, Aaron Brothers and Pat Catan's have similar economic characteristics and meet the aggregation criteria set forth in ASC 280. Therefore, we combine these operating segments into one reporting segment. Darice does not meet the materiality criteria in ASC 280 and, therefore, is not disclosed as a reportable segment. Our chief operating decision makers evaluate historical operating performance and forecast future periods' operating performance based on operating income.

Our net sales by country and sales by product category are as follows (in thousands):

	Fiscal Year		
	2017	2016	2015
Net Sales:			
United States	\$ 4,856,275	\$ 4,736,578	\$ 4,473,454
Canada	505,685	460,714	439,328
Total	\$ 5,361,960	\$ 5,197,292	\$ 4,912,782
Sales by Product Category:			
General crafts	\$ 2,670,721	\$ 2,630,398	\$ 2,487,288
Home décor and seasonal	1,177,069	1,088,989	1,003,436
Framing	891,010	903,143	927,588
Papercrafting	623,160	574,762	494,470
Total	\$ 5,361,960	\$ 5,197,292	\$ 4,912,782

Our total assets by country are as follows (in thousands):

	Fiscal Year	
	2017	2016
Total Assets:		
United States	\$ 2,145,244	\$ 1,969,889
Canada	154,971	177,751
Total	\$ 2,300,215	\$ 2,147,640

We present assets based on their geographic location. Certain assets located in the U.S. are also used to support our Canadian operations but are not allocated to Canada.

13. CONTINGENCIES

Rea Claim

On September 15, 2011, MSI was served with a lawsuit filed in the California Superior Court in and for the County of Orange (“Superior Court”) by four former store managers as a class action proceeding on behalf of themselves and certain former and current store managers employed by MSI in California. The lawsuit alleged that MSI improperly classified its store managers as exempt employees and as such failed to pay all wages, overtime and waiting time penalties and failed to provide accurate wage statements. The lawsuit also alleged that the foregoing conduct was in breach of various laws, including California’s unfair competition law. On December 3, 2013, the Superior Court entered an order certifying a class of approximately 200 members. MSI successfully removed the case to the U.S. District Court for the Central District of California and on May 8, 2014, the class was decertified. The four named plaintiffs’ claims have been resolved. In addition, the individual claims of 25 former class members and a separate representative action brought on behalf of store managers throughout the state were settled in December 2017. The resolution of the lawsuits did not have a material effect on our consolidated financial statements.

F-28

Table of Contents

Fair Credit Reporting Claim

On December 11, 2014, MSI was served with a lawsuit, *Christina Graham v. Michaels Stores, Inc.*, filed in the U.S. District Court for the District of New Jersey by a former employee. The lawsuit is a purported class action, bringing plaintiff's individual claims, as well as claims on behalf of a putative class of applicants who applied for employment with Michaels through an online application, and on whom a background check for employment was procured. The lawsuit alleges that MSI violated the Fair Credit Reporting Act ("FCRA") and the New Jersey Fair Credit Reporting Act by failing to provide the proper disclosure and obtain the proper authorization to conduct background checks. Since the initial filing, another named plaintiff joined the lawsuit, which was amended in February 2015, *Christina Graham and Gary Anderson v. Michaels Stores, Inc.*, with substantially similar allegations. The plaintiffs seek statutory and punitive damages as well as attorneys' fees and costs.

Following the filing of the Graham case in New Jersey, five additional purported class action lawsuits with six plaintiffs were filed, *Michele Castro and Janice Bercut v. Michaels Stores, Inc.*, in the U.S. District Court for the Northern District of Texas, *Michelle Bercut v. Michaels Stores, Inc.* in the Superior Court of California for Sonoma County, *Raini Burnside v. Michaels Stores, Inc.*, in the U.S. District Court for the Western District of Missouri, *Sue Gettings v. Michaels Stores, Inc.*, in the U.S. District Court for the Southern District of New York, and *Barbara Horton v. Michaels Stores, Inc.*, in the U.S. District Court for the Central District of California. All of the plaintiffs alleged violations of the FCRA. In addition, the Castro, Horton and Janice Bercut lawsuits also alleged violations of California's unfair competition law. The Burnside, Horton and Gettings lawsuits, as well as the claims by Michele Castro, have been dismissed. The Graham, Janice Bercut and Michelle Bercut lawsuits were transferred for centralized pretrial proceedings to the District of New Jersey. On January 24, 2017, the Company's motion to dismiss for lack of standing was granted, and the court declined to rule on the merits of plaintiffs' claims. The dismissal order was stayed for 30 days to allow the plaintiffs to amend their complaints. Because there were no amendments filed, two of the three centralized cases were dismissed and subsequently appealed to the U.S. Court of Appeals for the Third Circuit, and the remaining case (Michelle Bercut) was remanded to California Superior Court. We reached a tentative settlement on all pending lawsuits and a preliminary fairness hearing is scheduled for April 2018. We do not believe the resolution of the lawsuits will have a material effect on our consolidated financial statements.

Data Security Incident

Five putative class actions were filed against MSI relating to the January 2014 data breach. The plaintiffs generally alleged that MSI failed to secure and safeguard customers' private information including credit and debit card information, and as such, breached an implied contract and violated the Illinois Consumer Fraud Act (and other states' similar laws). The plaintiffs were seeking damages including declaratory relief, actual damages, punitive damages, statutory damages, attorneys' fees, litigation costs, remedial action, pre and post judgment interest, and other relief as available. The cases were as follows: *Christina Moyer v. Michaels Stores, Inc.*, was filed on January 27, 2014; *Michael and Jessica Gouwens v. Michaels Stores, Inc.*, was filed on January 29, 2014; *Nancy Maize and Jessica Gordon v. Michaels Stores, Inc.*, was filed on February 21, 2014; and *Daniel Ripes v. Michaels Stores, Inc.*, was filed on March 14, 2014. These four cases were filed in the U.S. District Court for the Northern District of Illinois, Eastern Division. On March 18, 2014, an additional putative class action was filed in the U.S. District Court for the Eastern District of New York, *Mary Jane Whalen v. Michaels Stores, Inc.*, but was voluntarily dismissed by the plaintiff on April 11, 2014 without prejudice to her right to re file a complaint. On April 16, 2014, an order was entered consolidating the Illinois actions. On July 14, 2014, the Company's motion to dismiss the consolidated complaint was granted.

On December 2, 2014, Whalen filed a new lawsuit against MSI related to the data breach in the U.S. District Court for the Eastern District of New York, Mary Jane Whalen v. Michaels Stores, Inc., seeking damages including declaratory relief, monetary damages, statutory damages, punitive damages, attorneys' fees and costs, injunctive relief, pre and post judgment interest, and other relief as available. The Company filed a motion to dismiss which was granted on December 28, 2015, and judgment was entered in favor of the Company on January 8, 2016. Plaintiff appealed the judgment to the U.S. Court of Appeals for the Second Circuit and on May 2, 2017, the Second Circuit affirmed the dismissal and Whalen did not appeal further, thereby concluding the matter.

Consumer Product Safety Commission Claim

On April 21, 2015, the U.S. Department of Justice, on behalf of the Consumer Product Safety Commission (the "CPSC"), filed a complaint against MSI and Michaels Stores Procurement Company, Inc. ("MSPC") in the U.S. District

F-29

Table of Contents

Court for the Northern District of Texas. The complaint sought civil penalties for an alleged failure to timely report a potential product safety hazard to the CPSC related to the breakage of certain glass vases. The original complaint also alleged that the report contained a material misrepresentation and sought injunctive relief requiring MSI and MSPC to, among other things, establish internal recordkeeping and compliance monitoring systems. On April 4, 2017, the CPSC filed an amended complaint eliminating their misrepresentation claim. MSI and MSPC reached a settlement with the CPSC to resolve all claims, which was entered by the court as a consent decree on February 9, 2018. The resolution of the lawsuit did not have a material effect on our consolidated financial statements.

General

In addition to the litigation discussed above, we are now, and may be in the future, involved in various other lawsuits, claims and proceedings incident to the ordinary course of business. The results of litigation are inherently unpredictable. Any claims against us, whether meritorious or not, could be time consuming, result in costly litigation, require significant amounts of management time and result in diversion of significant resources.

14. RETIREMENT PLANS

We sponsor a 401(k) Savings Plan for our eligible employees and certain of our subsidiaries. Participation in the 401(k) Savings Plan is voluntary and available to any employee who is at least 21 years of age and has completed three months of full-time service or one year of part-time service. Participants may elect to contribute up to 80% of their compensation on a pre-tax basis and up to 10% on an after-tax basis. In accordance with the provisions of the 401(k) Savings Plan, we make a matching cash contribution to the account of each participant in an amount equal to 50% of the participant's pre-tax contributions that do not exceed 6% of the participant's compensation for the year. Matching contributions vest to the participants based on years of service, with 100% vesting after three years. Our matching contribution expense was \$4.7 million, \$4.4 million, and \$4.8 million in fiscal 2017, fiscal 2016 and fiscal 2015, respectively.

During fiscal 2016, the Company established a nonqualified deferred compensation plan for certain executives and other highly compensated employees. The deferred compensation plan provides participants with the opportunity to defer up to 75% of their base salary and up to 100% of their annual earned bonus. Participants are 100% vested in these deferrals and the associated investment returns. The Company does not currently make any matching cash contributions to the participant accounts. There were no significant assets or liabilities related to the deferred compensation plan in the consolidated balance sheet as of February 3, 2018.

15. RELATED PARTY TRANSACTIONS

Affiliates of, or funds advised by, Bain Capital Partners, LLC ("Bain Capital") and The Blackstone Group L.P. ("The Blackstone Group", together with Bain Capital and their applicable affiliates, the "Sponsors") owned approximately 40% of our outstanding common stock as of February 3, 2018.

The Blackstone Group owns a majority equity position in RGIS, a vendor we utilize to count our store inventory. Payments associated with this vendor totaled \$6.3 million, \$6.0 million and \$5.9 million during fiscal 2017, fiscal 2016 and fiscal 2015, respectively, and are included in SG&A in the consolidated statements of comprehensive income.

The Blackstone Group owns a majority equity position in Excel Trust, Inc., Blackstone Real Estate DDR Retail Holdings III, LLC and Blackstone Real Estate RC Retail Holdings, LLC, vendors we utilize to lease certain properties. Payments associated with these vendors during fiscal 2017, fiscal 2016 and fiscal 2015 were \$7.2 million, \$5.2 million and \$3.5 million, respectively. These expenses are included in cost of sales and occupancy expense in the consolidated statements of comprehensive income.

Certain affiliates of The Blackstone Group have significant influence over US Xpress Enterprises, Inc., a vendor we utilize for transportation services. Payments associated with this vendor during fiscal 2017 were \$1.5 million. Payments associated with this vendor during fiscal 2016 and fiscal 2015 were \$1.1 million. These expenses are recognized in cost of sales and occupancy expense in the consolidated statements of comprehensive income as the sales are incurred.

Three of our current directors, Joshua Bekenstein, Ryan Cotton and Peter F. Wallace, are affiliates of Bain Capital or The Blackstone Group. As such, some or all of such directors may have an indirect material interest in payments with

Table of Contents

respect to debt securities of the Company that have been purchased by affiliates of Bain Capital and The Blackstone Group. As of February 3, 2018, affiliates of The Blackstone Group held \$99.8 million of our Amended Term Loan Credit Facility.

16. CONDENSED CONSOLIDATED FINANCIAL INFORMATION

Our debt covenants restrict MSI, and certain subsidiaries of MSI, from various activities including the incurrence of additional debt, payment of dividends and the repurchase of MSI's capital stock (subject to certain exceptions), among other things. The following condensed consolidated financial information represents the financial information of MSI and its wholly-owned subsidiaries subject to these restrictions. The information is presented in accordance with the requirements of Rule 12-04 under the SEC's Regulation S-X.

17. SUBSEQUENT EVENT

In March 2018, we completed our strategic review of the Aaron Brothers business and have adopted a plan to close all 94 full-size Aaron Brothers stores (the “Plan”) and reposition our Aaron Brothers brand as a store-within-a-store, providing custom framing services in all Michaels stores. We expect the closure process to be substantially completed by July 31, 2018. As a result, we expect the fiscal 2018 after-tax cost of implementing the Plan to be in the range of \$37 million to \$42 million, consisting primarily of costs associated with the termination of the remaining lease obligations, the write-off of fixed assets and employee-related expenses. In fiscal 2017, Aaron Brothers net sales totaled approximately \$110 million and had no material impact on the Company’s operating income. The Plan does not meet the criteria for treatment as a discontinued operation.

18. QUARTERLY RESULTS OF OPERATIONS (UNAUDITED)

Unaudited quarterly results of operations for fiscal 2017 and fiscal 2016 were as follows (in thousands, except per share data):

	Fiscal 2017			
	First Quarter	Second Quarter	Third Quarter	Fourth Quarter(1)
Net sales	\$ 1,158,563	\$ 1,072,593	\$ 1,240,196	\$ 1,890,608
