TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to

Edgar Filing: WADDELL & REED FINANCIAL INC - Form 10-Q

Commission file number 001-13913

WADDELL & REED FINANCIAL, INC.

(Exact name of registrant as specified in its charter)

Delaware	51-0261715
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)

6300 Lamar Avenue

Overland Park, Kansas 66202

(Address, including zip code, of Registrant's principal executive offices)

(913) 236-2000

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No .

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No .

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	Accelerated filer
Non-accelerated filer	Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined by Rule 12b-2 of the Exchange Act).
Yes ☐ No ☒

Shares outstanding of each of the registrant's classes of common stock as of the latest practicable date:

Class	Outstanding as of October 26, 2018
Class A common stock, \$.01 par value	78,318,708

WADDELL & REED FINANCIAL, INC.

NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. Description of Business and Significant Accounting Policies

Waddell & Reed Financial, Inc. and Subsidiaries

Waddell & Reed Financial, Inc. (hereinafter referred to as the “Company,” “we,” “our” or “us”) is a holding company, incorporated in the state of Delaware in 1981, that conducts business through its subsidiaries. Founded in 1937, we are one of the oldest mutual fund complexes in the United States, having introduced the Waddell & Reed Advisors group of mutual funds (the “Advisors Funds”) in 1940. Over time, we added additional mutual funds: Ivy Funds (the “Ivy Funds”); Ivy Variable Insurance Portfolios, our variable product offering (“Ivy VIP”); InvestEd Portfolios, our 529 college savings plan (“InvestEd”); and the Ivy High Income Opportunities Fund, a closed-end mutual fund (“IVH”). In 2016, we introduced the Ivy NextShares® exchange-traded managed funds (“Ivy NextShares”) (collectively, Ivy Funds, Ivy VIP, InvestEd, IVH, and Ivy NextShares are referred to as the “Funds”). On February 26, 2018, we completed the merger of Advisor Funds into Ivy Funds with substantially similar objectives and strategies. As of September 30, 2018, we had \$79.5 billion in assets under management.

We derive our revenues from providing investment management and advisory services, investment product underwriting and distribution, and shareholder services administration to the Funds and institutional and separately managed accounts. Investment management and/or advisory fees are based on the amount of average assets under management and are affected by sales levels, financial market conditions, redemptions and the composition of assets. Our underwriting and distribution revenues consist of fees earned on fee based asset allocation programs and related advisory services, asset based service and distribution fees promulgated under the 1940 Act (“Rule 12b-1”), distribution fees on certain variable products, and commissions derived from sales of investment and insurance products. The products sold have various commission structures and the revenues received from those sales vary based on the type and dollar amount sold. Shareholder service fee revenue includes transfer agency fees, custodian fees from retirement plan accounts, portfolio accounting and administration fees, and is earned based on assets under management or number of client accounts. Our major expenses are for commissions, employee compensation, field services, dealer services, information technology, occupancy and marketing and advertising.

Basis of Presentation

We have prepared the accompanying unaudited consolidated financial statements pursuant to the rules and regulations of the SEC. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to such rules and regulations, although we believe that the disclosures are adequate to enable a reasonable understanding of the information presented. The information in this Quarterly Report on Form 10-Q should be read in conjunction with Part I, Item 2 “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and our audited financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2017 (the “2017 Form 10-K”). Certain amounts in the prior year’s financial statements have been reclassified for consistent presentation.

The accompanying unaudited consolidated financial statements are prepared consistent with the accounting policies described in Note 1 to the consolidated financial statements included in our 2017 Form 10-K with the exception of the adoption of Accounting Standards Update (“ASU”) 2014-09, “Revenue from Contracts from Customers,” ASU 2016-01, “Recognition and Measurement of Financial Assets and Financial Liabilities,” ASU 2016-18, “Statement of Cash Flows: Restricted Cash,” ASU 2017-07, “Compensation-Retirement Benefits: Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost,” and ASU 2018-02, “Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income,” which all became effective January 1, 2018.

Table of contents

The implementation of ASU 2014-09 did not have a material impact on the measurement or recognition of revenue from prior periods. See Note 3 – Revenue Recognition, for additional accounting policy information and the additional disclosures required by this ASU. Upon adoption of ASU 2016-01, we reclassified net unrealized holding gains, net of taxes, related to our available for sale investment portfolio from accumulated other comprehensive income to retained earnings. See consolidated statement of stockholders' equity and redeemable noncontrolling interests for the financial statement reclassification impact of adopting this ASU. Upon adoption of ASU 2016-18, the Cash and cash equivalents – restricted financial statement line item was included as a component of cash and cash equivalents on the Company's consolidated statements of cash flows for all periods presented. The adoption of ASU 2017-07 changed the income statement presentation of our noncontributory retirement plan that covers substantially all employees and certain vested employees of our former parent company (the "Pension Plan") by requiring separation between operating expense (service cost component) and non-operating expense (all other components, including interest cost, amortization of prior service cost, mark-to-market gains and losses, curtailments and settlements, etc.). In addition, only the service cost component is eligible for capitalization as part of an asset. The adoption of this ASU had no effect on our net income because it only impacted the classification of certain information on the consolidated statements of income. An amendment to freeze the Pension Plan was approved effective September 30, 2017; therefore, after September 30, 2017, we no longer incur service costs. The service cost component of net periodic benefit cost was recognized in compensation and related costs through September 30, 2017. The other components of net periodic cost were reclassified to investment and other income (loss) on a retrospective basis. Upon early adoption of ASU 2018-02 tax effects that were stranded in other comprehensive income due to the Tax Reform Act were reclassified from accumulated other comprehensive income to retained earnings. The adoption of this ASU did not have a material impact on our consolidated financial statements and related disclosures. See consolidated statement of stockholders' equity and redeemable noncontrolling interests for the financial statement reclassification impact of adopting this ASU.

Additionally, during the first quarter of 2018, we changed the presentation of certain line items in the consolidated statements of income that were intended to improve the transparency of the Company's financial statements through clearer alignment of operating expenses with financial statement captions. Specifically, the Company revised its accounting policy related to the reporting of indirect underwriting and distribution expenses in the former underwriting and distribution caption and certain expenses historically reported as general and administrative. Expenses previously recorded as Underwriting and distribution expenses were retrospectively reclassified into (a) the following existing operating expense captions: Compensation and benefits and General and administrative, and (b) the following newly created operating expense captions: Distribution, Technology, Occupancy, and Marketing and advertising. Certain expenses historically reported as general and administrative were retrospectively reclassified into the following newly created operating expense captions: Technology, Occupancy, and Marketing and advertising. The Company considered the change in policy to be preferable and did not consider the change to be material to its consolidated financial statements. These changes were applied retrospectively to all periods presented and did not affect net income attributable to the Company.

In our opinion, the accompanying unaudited consolidated financial statements reflect all adjustments (consisting of only a normal and recurring nature) necessary to present fairly our financial position at September 30, 2018 and the results of operations and cash flows for the nine months ended September 30, 2018 and 2017 in conformity with

accounting principles generally accepted in the United States.

Table of contents

2.New Accounting Guidance

In February 2016, the Financial Accounting Standards Board (“FASB”) issued ASU 2016-02, Leases, which increases transparency and comparability among organizations by establishing a right-of-use model that requires a lessee to record a right-of-use asset and a lease liability on the balance sheet with additional disclosures of key information about leasing arrangements. This ASU is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early adoption is permitted and certain practical expedients are available. The Company will adopt the provisions of this guidance on January 1, 2019. We expect to elect the ‘package of practical expedients’, which allows us not to reassess under the new standard our prior conclusions about lease identification, lease classification and initial direct costs. We also expect to elect a practical expedient to use hindsight in determining the lease term and in assessing impairment of the entity’s right-of-use assets. Additionally, we currently expect to elect the short-term lease recognition exemption for all leases that qualify. This means, for those leases that qualify, we will not recognize right-of-use assets or lease liabilities, and this includes not recognizing right-of-use assets or lease liabilities for existing short-term leases of those assets in transition. The Company has identified its population of impacted leases and continues to evaluate the impact that the ASU will have on its consolidated financial statements and related disclosures. While we continue to assess all of the effects of adoption, we currently believe the most significant effects on our financial statements relate to the recognition of new right-of-use assets and lease liabilities on our balance sheet for our real estate operating leases and providing new disclosures about our leasing activities.

In June 2018, FASB issued ASU 2018-07, Compensation – Stock Compensation: Improvements to Nonemployee Share-Based Payment Accounting, which simplifies the accounting for share-based payments granted to nonemployees by aligning the accounting with the requirements for employee share-based compensation. This ASU is effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2018, with early adoption permitted. The Company will adopt the provisions of this guidance on January 1, 2019. We have concluded that the adoption of this ASU will have an immaterial impact on our consolidated financial statements and related disclosures.

In August 2018, FASB issued ASU 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement, which eliminates certain disclosure requirements for fair value measurements, requires entities to disclose new information, and modifies existing disclosure requirements. This ASU is effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2019, with early adoption permitted. We are evaluating the impact the adoption of this ASU will have on our consolidated financial statements and related disclosures.

In August 2018, FASB issued ASU 2018-14, Compensation – Retirement Benefits – Defined Benefit Plans – General (Subtopic 715-20): Disclosure Framework – Changes to the Disclosure Requirements for Defined Benefit Plans, which removes certain disclosures that are not considered cost beneficial, clarifies certain required disclosures and adds

additional disclosures. This ASU is effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2020, with early adoption permitted. We are evaluating the impact the adoption of this ASU will have on our consolidated financial statements and related disclosures.

In August 2018, FASB issued ASU 2018-15, Intangibles – Goodwill and Other – Internal-Use Software (Subtopic 350-40): Customer’s Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement that is a Service Contract, which aligns the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software (and hosting arrangements that include an internal-use software license). This ASU is effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2019, with early adoption permitted. We are evaluating the impact the adoption of this ASU will have on our consolidated financial statements and related disclosures.

3.Revenue Recognition

As of January 1, 2018, the Company adopted ASU 2014-09, “Revenue from Contracts with Customers” and all subsequent ASUs that modified Accounting Standards Codification (“ASC”) 606, “Revenue from Contracts with Customers.” The Company elected to apply the standard utilizing the cumulative effect approach. The implementation of the new standard did not have a material impact on the measurement or recognition of revenue.

Table of contents

Investment Management and Advisory Fees

We recognize investment management fees as earned over the period in which investment management services are provided. While our investment management contracts are long-term in nature, the performance obligations are generally satisfied daily or monthly based on assets under management. We calculate investment management fees from the Funds daily based upon average daily net assets under management in accordance with investment management agreements between the Funds and the Company. The majority of investment and/or advisory fees earned from institutional and separate accounts are calculated either monthly or quarterly based upon an average of net assets under management in accordance with such investment management agreements. The Company may waive certain fees for investment management services at its discretion, or in accordance with contractual expense limitations, and these waivers are reflected as a reduction to investment management fees on the consolidated statements of income.

The Company has contractual arrangements with third parties to provide subadvisory services. Investment advisory fees are recorded gross of any subadvisory payments and are included in investment management fees based on management's determination that the Company is acting in the capacity of principal service provider with respect to its relationship with the Funds. Any corresponding fees paid to subadvisors are included in operating expenses.

Underwriting, Distribution and Shareholder Service Fees

Fee based asset allocation revenues are calculated monthly based upon average daily net assets under management. For certain types of investment products, primarily variable annuities, distribution revenues are generally calculated based upon average daily net assets under management. Fees collected from independent financial advisors associated with Waddell & Reed, Inc. for various services are recorded in underwriting and distribution fees on a gross basis, as the Company is the principal in these arrangements.

Under a Rule 12b-1 service plan, the Funds may charge a maximum fee of 0.25% of the average daily net assets under management for Ivy Funds Class C, E and Y shares for expenses paid to broker-dealers and other sales professionals in connection with providing ongoing services to the Funds' shareholders and/or maintaining the Funds' shareholder accounts, with the exception of the Funds' Class R shares, for which the maximum fee is 0.50%. The Funds' Class C shares may charge a maximum of 0.75% of the average daily net assets under management under a Rule 12b-1 distribution plan to broker-dealers and other sales professionals for their services in connection with distributing shares of that class. The Funds' Class A shares may charge a maximum fee of 0.25% of the average daily net assets under management under a Rule 12b-1 service and distribution plan for expenses detailed previously. The Rule 12b-1 plans are subject to annual approval by the Funds' board of trustees, including a majority of the disinterested members,

by votes cast in person at a meeting called for the purpose of voting on such approval. All Funds may terminate the service and distribution plans at any time with approval of fund trustees or portfolio shareholders (a majority of either) without penalty.

Underwriting and distribution commission revenues resulting from the sale of investment products are recorded upon satisfaction of performance obligations, which occurs on the trade date. When a client purchases Class A or Class E shares (front-end load), the client pays an initial sales charge of up to 5.75% of the amount invested. The sales charge for Class A or Class E shares typically declines as the investment amount increases. In addition, investors may combine their purchases of all fund shares to qualify for a reduced sales charge. When a client invests in a fee-based asset allocation product, Class I or Y shares are purchased at net asset value, and we do not charge an initial sales charge.

Underwriting and distribution revenues resulting from payments from independent financial advisors for office space, compliance oversight and affiliation fees are earned over the period in which the service is provided, which is generally monthly and is based on a fee schedule.

Table of contents

Shareholder service fee revenue primarily includes transfer agency fees, custodian fees from retirement plan accounts, and portfolio accounting and administration fees. Transfer agency fees and portfolio accounting and administration fees are asset based revenues or account based revenues, while custodian fees from retirement plan accounts are based on the number of client accounts. Custodian fees, transfer agency fees and portfolio accounting and administration fees are earned upon completion of the service when all performance obligations have been satisfied.

All revenue recognized in the consolidated statements of income is considered to be revenue from contracts with customers. The vast majority of revenue is determined based on average assets and is earned daily or monthly or is transactional and is earned on the trade date. As such, revenue from remaining performance obligations is not significant. The following table depicts the disaggregation of revenue by product and distribution channel:

	Three months ended September 30, 2018 (in thousands)	Three months ended September 30, 2017	Nine months ended September 30, 2018 (in thousands)	Nine months ended September 30, 2017

	\$ 266,259	176	(1,237)	265,198

A summary of available for sale investment securities with fair values below carrying values at September 30, 2018 and December 31, 2017 is as follows:

	Less than 12 months		12 months or longer		Total	
	Fair value	Unrealized losses	Fair value	Unrealized losses	Fair value	Unrealized losses
September 30, 2018	(in thousands)					
Corporate bonds	\$ 55,682	(293)	112,246	(1,210)	167,928	(1,503)

Edgar Filing: WADDELL & REED FINANCIAL INC - Form 10-Q

U.S. Treasury bills	5,920	(16)	19,525	(488)	25,445	(504)
	\$ 61,602	(309)	131,771	(1,698)	193,373	(2,007)

	Less than 12 months		12 months or longer		Total	
	Fair value	Unrealized losses	Fair value	Unrealized losses	Fair value	Unrealized losses
December 31, 2017	(in thousands)					
Certificates of deposit	\$ 2,998	(2)	—	—	2,998	(2)
Corporate bonds	192,409	(995)	—	—	192,409	(995)
U.S. Treasury bills	19,779	(240)	—	—	19,779	(240)
	\$ 215,186	(1,237)	—	—	215,186	(1,237)

The Company's investment portfolio included 46 securities, having an aggregate fair value of \$193.4 million, which were in an unrealized loss position at September 30, 2018, compared to 53 securities, with an aggregate fair value of \$215.2 million at December 31, 2017.

The Company evaluated all of the available for sale securities in an unrealized loss position at September 30, 2018 and December 31, 2017, and concluded no other-than-temporary impairment existed at September 30, 2018 or December 31, 2017. The unrealized losses in the Company's investment portfolio at September 30, 2018 were primarily caused by changes in interest rates. At this time, the Company does not intend to sell, and does not believe it will be required to sell these securities before recovery of their amortized cost.

Table of contents

Sponsored Funds

The Company has classified its equity investments in the Ivy Funds as equity method investments (when the Company owns between 20% and 50% of the fund) or equity securities (when the Company owns less than 20% of the fund). These entities do not meet the criteria of a variable interest entity (“VIE”) and are considered to be voting interest entities (“VOE”). The Company has determined the Ivy Funds are VOEs because the structure of the investment products is such that the voting rights held by the equity holders provide for equality among equity investors.

Sponsored Privately Offered Funds

The Company holds an interest in a privately offered fund structured in the form of a limited liability company. The members of this entity have the substantive ability to remove the Company as managing member or dissolve the entity upon a simple majority vote. This entity does not meet the criteria of a VIE and is considered to be a VOE.

Consolidated Sponsored Funds

The following table details the balances related to consolidated sponsored funds at September 30, 2018, and at December 31, 2017, as well as the Company’s net interest in these funds:

	September 30, 2018	December 31, 2017
	(in thousands)	
Cash	\$ 77,480	8,472
Investments	67,634	139,086
Other assets	2,661	1,588
Other liabilities	(1,125)	(1,040)
Redeemable noncontrolling interests	(16,133)	(14,509)
Net interest in consolidated sponsored funds	\$ 130,517	133,597

During the three months ended September 30, 2018, we consolidated an Ivy Fund, Ivy NextShares and Ivy Global Investors Funds in which we provided initial seed capital at the time of the funds’ formation. In May, we started the

process of liquidating the Ivy Global Investors Société d'Investissement à Capital Variable and its Ivy Global Investors sub-funds, including converting the investments held by the sub-funds to cash. When we no longer have a controlling financial interest in a sponsored fund, it is deconsolidated from our consolidated financial statements.

Fair Value

Accounting standards establish a framework for measuring fair value and a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of the asset. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset. An individual investment's fair value measurement is assigned a level based upon the observability of the inputs that are significant to the overall valuation. The three-level hierarchy of inputs is summarized as follows:

- Level 1 – Investments are valued using quoted prices in active markets for identical securities.
- Level 2 – Investments are valued using other significant observable inputs, including quoted prices in active markets for similar securities.
- Level 3 – Investments are valued using significant unobservable inputs, including the Company's own assumptions in determining the fair value of investments.

Table of contents

Assets classified as Level 2 can have a variety of observable inputs. These observable inputs are collected and utilized, primarily by an independent pricing service, in different evaluated pricing approaches depending upon the specific asset to determine a value. The carrying amounts of certificates of deposit and commercial paper are measured at amortized cost, which approximates fair value due to the short-time between purchase and expected maturity of the investments. Depending on the nature of the inputs, these investments are generally classified as Level 1 or 2 within the fair value hierarchy. U.S. Treasury bills are valued upon quoted market prices for similar assets in active markets, quoted prices for identical or similar assets that are not active and inputs other than quoted prices that are observable or corroborated by observable market data. The fair value of corporate bonds is measured using various techniques, which consider recently executed transactions in securities of the issuer or comparable issuers, market price quotations (where observable), bond spreads and fundamental data relating to the issuer. The fair value of equity derivatives is measured based on active market broker quotes, evaluated broker quotes and evaluated prices from vendors.

The following tables summarize our investment securities as of September 30, 2018 and December 31, 2017 that are recognized in our consolidated balance sheets using fair value measurements based on the differing levels of inputs.

- (1) Cash equivalents include highly liquid investments with original maturities of 90 days or less. Cash investments in actively traded money market funds are measured at NAV and are classified as Level 1. Cash investments in commercial paper are measured at cost, which approximates fair value because of the short time between purchase of the instrument and its expected realization, and are classified as Level 2.
- (2) Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the consolidated balance sheets.
- (3) Substantially all of the Company's equity method investments are investment companies that record their underlying investments at fair value.

Table of contents

The following table summarizes the activity of investments categorized as Level 3 for the nine months ended September 30, 2018:

	For the nine months ended September 30, 2018 (in thousands)
Level 3 assets at December 31, 2017	\$ —
Additions	419
Valuation change	(63)
Redemptions	(317)
Level 3 assets at September 30, 2018	\$ 39

5. Derivative Financial Instruments

The Company has in place an economic hedge program that uses total return swap contracts to hedge market risk related to its investments in certain sponsored funds. Certain of the consolidated sponsored funds may utilize derivative financial instruments within their portfolios in pursuit of their stated investment objectives. We do not hedge for speculative purposes.

Excluding derivative financial instruments held in certain consolidated sponsored funds, the Company was party to five total return swap contracts with a combined notional value of \$198.4 million and six total return swap contracts with a combined notional value of \$213.9 million as of September 30, 2018 and December 31, 2017, respectively. These derivative financial instruments are not designated as hedges for accounting purposes. Changes in fair value of the total return swap contracts are recognized in investment and other income on the Company's consolidated statements of income.

The Company posted \$6.4 million and \$9.7 million in cash collateral with the counterparties of the total return swap contracts as of September 30, 2018 and December 31, 2017, respectively. The cash collateral is included in Customers and other receivables on the Company's consolidated balance sheet. The Company does not record its fair value in derivative transactions against the posted collateral.

The following table presents the fair value of the derivative financial instruments, excluding derivative financial instruments held in certain consolidated sponsored funds as of September 30, 2018 and December 31, 2017 and is calculated based on Level 2 inputs:

The following table presents the fair value of the derivative financial instruments, excluding The following table presents the fair value of the derivative financial instruments, excluding derivative financial instruments held in certain consolidated sponsored funds as of September 30, 2018 and December 31, 2017 and is calculated based on Level 2 inputs:

		September 30, 2018	December 31, 2017
	Balance sheet location	Fair value (in thousands)	Fair value
	Other current liabilities		
Total return swap contracts		\$ 550	1,093

Table of contents

The following is a summary of net losses recognized in income for the three and nine months ended September 30, 2018 and September 30, 2017:

	Income statement location	Three months ended September 30,		Nine months ended September 30,	
		2018	2017	2018	2017
		(in thousands)		(in thousands)	
Total return swap contracts	Investment and other income	\$ (6,769)	(8,855)	\$ (7,313)	(27,321)

6. Goodwill and Identifiable Intangible Assets

Goodwill represents the excess of purchase price over the tangible assets and identifiable intangible assets of an acquired business. Our goodwill is not deductible for tax purposes. Goodwill and identifiable intangible assets (all considered indefinite lived) at September 30, 2018 and December 31, 2017 are as follows:

	September 30, 2018	December 31, 2017
	(in thousands)	
Goodwill	\$ 106,970	106,970
Mutual fund management advisory contracts	38,699	38,699
Mutual fund management subadvisory contract	—	1,200
Other	200	200
Total identifiable intangible assets	38,899	40,099
Total	\$ 145,869	147,069

7. Indebtedness

Debt is reported at its carrying amount in the consolidated balance sheet. The fair value of the Company's senior unsecured note maturing January 13, 2021 is \$98.4 million at September 30, 2018 compared to the carrying value net of debt issuance costs of \$94.8 million, which is listed under long-term debt in the consolidated balance sheet. Fair value is calculated based on Level 2 inputs.

8. Income Tax Uncertainties

In the accompanying consolidated balance sheet, unrecognized tax benefits that are not expected to be settled within the next 12 months are included in other liabilities; unrecognized tax benefits that are expected to be settled within the next 12 months are included in income taxes payable; unrecognized tax benefits that reduce a net operating loss, similar tax loss, or tax credit carryforward are presented as a reduction to non-current deferred income taxes. As of September 30, 2018 and December 31, 2017, the Company's consolidated balance sheet included unrecognized tax benefits, including penalties and interest, of \$2.9 million (\$2.5 million net of federal benefit) and \$10.9 million (\$8.9 million net of federal benefit), respectively, that if recognized, would impact the Company's effective tax rate. The Company finalized a voluntary disclosure agreement with a state tax jurisdiction in June 2018, which reduced unrecognized tax benefits by \$9.3 million (\$7.6 million net of federal benefit).

The Company's accounting policy with respect to interest and penalties related to income tax uncertainties is to classify these amounts as income taxes. The total amount of penalties and interest, net of federal impact, related to income tax uncertainties recognized in the statement of income for the nine month period ended September 30, 2018 was a benefit of \$2.7 million. The total amount of accrued penalties and interest related to uncertain tax positions recognized in the consolidated balance sheet at September 30, 2018 and December 31, 2017 is \$0.8 million (\$0.7 million net of federal benefit) and \$4.0 million (\$3.5 million net of federal benefit), respectively.

In the ordinary course of business, many transactions occur for which the ultimate tax outcome is uncertain. In addition, respective tax authorities periodically audit our income tax returns. These audits examine our significant tax filing positions, including the timing and amounts of deductions and the allocation of income among tax jurisdictions. The Company is currently under audit in a state jurisdiction in which it operates. The Company expects to settle the audit in this jurisdiction within the next 12-month period. The Company's liability for unrecognized tax benefits, including

Table of contents

penalties and interest, is not expected to decrease significantly upon settlement of this audit. Additionally, such settlement is not anticipated to have a significant impact on the results of operations.

The 2015, 2016, and 2017 federal income tax returns are open tax years that remain subject to potential future audit. State income tax returns for all years after 2013 and, in certain states, income tax returns for 2013, are subject to potential future audit by tax authorities in the Company's major state tax jurisdictions.

9. Pension Plan and Postretirement Benefits Other Than Pension

Benefits payable under the Pension Plan are based on employees' years of service and compensation during the final 10 years of employment. On July 26, 2017, the Compensation Committee of the Company's Board of Directors approved an amendment to freeze the Pension Plan effective September 30, 2017. After September 30, 2017, participants in the Pension Plan do not accrue additional benefits for future service or compensation. Participants retain benefits accumulated as of September 30, 2017 in accordance with the terms of the Pension Plan. During the third quarter of 2018, we contributed \$4.0 million to the Pension Plan.

We also sponsor an unfunded defined benefit postretirement medical plan that previously covered substantially all employees, as well as independent financial advisors associated with Waddell & Reed, Inc. The medical plan is contributory with participant contributions adjusted annually. The medical plan does not provide for benefits after age 65 with the exception of a small group of employees that were grandfathered when this plan was established. During the third quarter of 2016, the Company amended this plan to discontinue the availability of coverage for any individuals who retire after December 31, 2016.

The components of net periodic pension and other postretirement costs related to these plans were as follows:

Pension Benefits Three months ended September 30, 2018	Other Postretirement Benefits Three months ended September 30, 2018	Pension Benefits Nine months ended September 30, 2018	Other Postretirement Benefits Nine months ended September 30, 2018
2017	2017	2017	2017

10.Stockholders' Equity

Earnings per Share

The components of basic and diluted earnings per share were as follows:

	Three months ended September 30, 2018		Nine months ended September 30, 2018	
	2017		2017	
	(in thousands, except per share amounts)			
Net income attributable to Waddell & Reed Financial, Inc.	\$ 46,305	53,582	\$ 137,120	111,515
Weighted average shares outstanding, basic and diluted	79,595	83,476	81,372	83,719
Earnings per share, basic and diluted	\$ 0.58	0.64	\$ 1.69	1.33

Dividends

On July 24, 2018, the Board of Directors approved a dividend on our Class A common stock in the amount of \$0.25 per share to stockholders of record on October 11, 2018. The total dividend paid on November 1, 2018 was \$19.7 million and was included in other current liabilities as of September 30, 2018.

Common Stock Repurchases

The Board of Directors has authorized the repurchase of our Class A common stock in the open market and/or private purchases. The acquired shares may be used for corporate purposes, including issuing shares to employees in our stock-based compensation programs.

There were 1,424,612 shares and 190,056 shares repurchased in the open market or privately during the three months ended September 30, 2018 and 2017, respectively, which includes 225 shares and 56 shares, respectively, repurchased from employees who tendered shares to cover income tax withholdings with respect to vesting of stock awards during these two reporting periods. There were 4,519,546 shares and 904,410 shares repurchased in the open market or privately during the nine months ended September 30, 2018 and 2017, respectively, which includes 630,159 shares and 239,410 shares, respectively, repurchased from employees who tendered shares to cover income tax withholdings with respect to the vesting of stock awards during each of these two reporting periods.

11.Contingencies

The Company is involved from time to time in various legal proceedings, regulatory investigations and claims incident to the normal conduct of business, which may include proceedings that are specific to us and others generally applicable to business practices within the industries in which we operate. A substantial legal liability or a significant regulatory action against us could have an adverse effect on our business, financial condition and on the results of operations in a particular quarter or year.

The Company establishes reserves for litigation and similar matters when those matters present material loss contingencies that management determines to be both probable and reasonably estimable in accordance with ASC 450, "Contingencies." These amounts are not reduced by amounts that may be recovered under insurance or claims against third parties, but undiscounted receivables from insurers or other third parties may be accrued separately. The Company regularly revises such accruals in light of new information. The Company discloses the nature of the contingency when management believes it is reasonably possible the outcome may be significant to the Company's consolidated financial statements and, where feasible, an estimate of the possible loss. For purposes of our litigation contingency disclosures, "significant" includes material matters as well as other items that management believes should be disclosed. Management's judgment is required related to contingent liabilities because the outcomes are difficult to predict.

Shareholder Derivative Litigation

In an action filed on April 18, 2016 in the District Court of Johnson County, Kansas, Hieu Phan v. Ivy Investment Management Company, et al. (Case No. I6CV02338 Div. 4), plaintiff filed a putative derivative action on behalf of the nominal defendant, a mutual fund trust affiliated with the Company, alleging breach of fiduciary duty and breach of contract claims relating to an investment held in the affiliated mutual fund by the Company's registered investment adviser subsidiary. On behalf of the nominal defendant trust, plaintiff filed claims against the Company's registered investment adviser subsidiary and current and retired trustees of the trust seeking monetary damages and demanding a jury trial. While the Company denies that any of its subsidiaries breached their fiduciary duties to, or committed a breach of the investment management agreement with, the nominal defendant trust, the parties to the litigation reached a settlement. The February 14, 2018 settlement agreement provided a full release for the benefit of defendants and for the payment of \$19.9 million (less \$6.1 million for attorney's fees plus nominal costs associated with notice to shareholders), recoverable to the Company through insurance, to the affiliated mutual fund for the benefit of its shareholders. On July 30, 2018, the court entered an order granting final approval of the settlement.

401(k) Plan Class Action Litigation

In an action filed on June 23, 2017 and amended on June 26, 2017 in the U.S. District Court for the District of Kansas, Schapker v. Waddell & Reed Financial, Inc., et al, (Case No. 17-2365 D. Kan.), Stacy Schapker, a participant in the Company's 401(k) and Thrift Plan, as amended and restated (the "401(k) Plan"), filed a lawsuit against the Company, the Company's Board of Directors, the Administrative Committee of the 401(k) Plan, and unnamed Jane and John Doe Defendants 1-25. On August 7, 2017, plaintiff filed a second amended complaint, which was filed on behalf of the 401(k) Plan and a proposed class of 401(k) Plan participants, purports to assert claims for breach of fiduciary duty and prohibited transactions under the Employee Retirement Income Security Act of 1974, as amended ("ERISA") based on the 401(k) Plan's offering of investments managed by the Company or its affiliates during a proposed class period of June 23, 2011 to present. The second amended complaint dismissed the Company's Board of Directors as a defendant

Table of contents

and named as defendants the Company, the Compensation Committee of the Company's Board of Directors, the Administrative Committee of the 401(k) Plan, and the individuals who served on those committees during the proposed class period. Following the denial of their motion to dismiss, on March 8, 2018, defendants filed their answer and defenses to plaintiff's second amended complaint. On April 23, 2018, the court entered an initial scheduling order, ordering the parties to complete mediation by August 31, 2018. While the Company and the other defendants deny any and all liability with respect to the claims, the parties have reached an agreement in principle to settle the litigation. The parties are finalizing the terms of the proposed settlement, which will be subject to preliminary and final court approval. The payment contemplated by the proposed settlement is recoverable to the Company through insurance. The Company has recorded a liability and offsetting receivable from insurance, as reflected in the Company's consolidated balance sheet.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the unaudited consolidated financial statements and notes to the unaudited consolidated financial statements included elsewhere in this report. Unless otherwise indicated or the context otherwise requires all references to the "Company," "we," "our" or "is" refer to Waddell & Reed Financial, Inc. and its consolidated subsidiaries.

This Quarterly Report on Form 10-Q contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which reflect the current views and assumptions of management with respect to future events regarding our business and industry in general. These forward-looking statements include all statements, other than statements of historical fact, regarding our financial position, business strategy and other plans and objectives for future operations, including statements with respect to revenues and earnings, the amount and composition of assets under management, distribution sources, expense levels, redemption rates, stock repurchases and the financial markets and other conditions. These statements are generally identified by the use of such words as "may," "could," "should," "would," "believe," "anticipate," "forecast," "estimate," "expect," "intend," "plan," "project," "outlook," "will," "potential" and similar statements of forward-looking nature. Readers are cautioned that any forward-looking information provided by us or on our behalf is not a guarantee of future performance. Actual results may differ materially from those contained in these forward-looking statements as a result of various factors, including but not limited to those discussed below. If one or more events related to these or other risks, contingencies or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results may differ materially from those forecasted or expected. Certain important factors that could cause actual results to differ materially from our expectations are disclosed in the "Risk Factors" section of our Annual Report on Form 10-K for the year ended December 31, 2017, which include, without limitation:

- The loss of existing distribution relationships or inability to access new distribution relationships;
- A reduction in assets under our management on short notice, through increased redemptions in our distribution channels or our Funds, particularly those Funds with a high concentration of assets, or investors terminating their relationship with us or shifting their funds to other types of accounts with different rate structures;
- The adverse ruling or resolution of any litigation, regulatory investigations and proceedings, or securities arbitrations by a federal or state court or regulatory body;
- Changes in our business model, operations and procedures, including our methods of distributing our proprietary products, as a result of evolving fiduciary standards;

- The introduction of legislative or regulatory proposals or judicial rulings that change the independent contractor classification of our financial advisors at the federal or state level for employment tax or other employee benefit purposes;
- A decline in the securities markets or in the relative investment performance of our Funds and other investment portfolios and products as compared to competing funds;
- Our inability to reduce expenses rapidly enough to align with declines in our revenues due to various factors, including fee pressure, the level of our assets under management or our business environment;
- Non-compliance with applicable laws or regulations and changes in current legal, regulatory, accounting, tax or compliance requirements or governmental policies;
- Our inability to attract and retain senior executive management and other key personnel to conduct our business;
- A failure in, or breach of, our operational or security systems or our technology infrastructure, or those of third parties on which we rely; and
- Our inability to implement new information technology and systems, or our inability to complete such implementation in a timely or cost effective manner.

Table of contents

The foregoing factors should not be construed as exhaustive and should be read together with other cautionary statements included in this and other reports and filings we make with the Securities and Exchange Commission (the “SEC”), including the information in Item 1 “Business” and Item 1A “Risk Factors” of Part I and Item 7 “Management’s Discussion and Analysis of Financial Condition and Results of Operations” of Part II to our Annual Report on Form 10-K for the year ended December 31, 2017 and as updated in our quarterly reports on Form 10-Q for the year ending December 31, 2018. All forward-looking statements speak only as of the date on which they are made and we undertake no duty to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except to the extent required by law.

Overview

We are one of the oldest mutual fund and asset management firms in the country, with expertise in a broad range of investment styles and across a variety of market environments. Our earnings and cash flows are heavily dependent on financial market conditions and client activity. Significant increases or decreases in the various securities markets can have a material impact on our results of operations, financial condition and cash flows.

Our products are distributed through our unaffiliated channel, or through our broker-dealer channel by Waddell and Reed, Inc. (“W&R”) independent financial advisors. Through our institutional channel, we distribute an array of investment styles to a variety of clients.

Through our unaffiliated channel, we distribute mutual funds through broker-dealers, retirement platforms and registered investment advisers through a team of external and internal wholesalers, as well as a team dedicated to home office relationship coverage.

We manage assets in a variety of investment styles for a variety of types of institutions. The largest percentage client type is other asset managers that hire us to act as subadviser for their branded products; they are typically domestic and foreign distributors of investment products who lack scale or the track record to manage internally, or choose to market multi-manager styles. Our diverse client list also includes pension funds, Taft Hartley plans and endowments.

In our broker-dealer channel, 1,074 independent financial advisors associated with W&R and 351 licensed advisor associates, who operate out of offices located throughout the United States, provide financial advice for retirement, education funding, estate planning and other financial needs for clients.

Operating Results

- Net income attributable to Waddell & Reed Financial, Inc. for the third quarter 2018 was \$46.3 million, or \$0.58 per diluted share, compared to \$53.6 million, or \$0.64 per diluted share, during the third quarter of 2017.
- Revenues of \$295.1 million during the third quarter of 2018 increased 2% compared to the third quarter of 2017. Operating expenses of \$235.6 million during the third quarter of 2018 were unchanged compared to the same quarter in 2017. The operating margin was 20.2% during the third quarter of 2018, compared to 18.6% during the third quarter of 2017.
- Funds showed continued improvement across the 1, 3 and 5-year Lipper and Morningstar rankings.
- Effective July 31, 2018, the Company implemented fee reductions in selected mutual funds. This was a result of a comprehensive analysis of industry pricing and a commitment to remain competitive.
- Average trailing 12-month productivity per advisor increased to \$350 thousand in the third quarter of 2018 compared to \$240 thousand in the third quarter of 2017, as we continue to focus our advisory programs on high performing financial advisors.
- During the third quarter of 2018, we returned \$48.4 million of capital to stockholders through dividends and share repurchases, compared to \$42.1 million in the same period in 2017. We repurchased 1,424,612 shares during the third quarter of 2018 at a weighted average share price of \$19.91.
- Our balance sheet remains solid and we ended the third quarter of 2018 with cash and investments of \$843.3

Table of contents

million, excluding redeemable noncontrolling interests in consolidated sponsored funds.

Assets Under Management

During the third quarter of 2018, assets under management increased 1% to \$79.5 billion from \$78.7 billion at June 30, 2018 due to market appreciation of \$2.9 billion, partially offset by net outflows of \$2.0 billion.

Table of contents

Assets Under Administration

Assets under administration (“AUA”) include assets for which our broker-dealer provides administrative services, such as client assets invested in other companies’ products that we offer outside of our fee-based asset allocation programs. These assets include those held in clients’ brokerage accounts. AUA are presented below.

(in millions)	September 30, 2018	September 30, 2017
AUA		
Advisory assets	\$ 23,653	20,734
Non-advisory assets	34,468	34,856
Total assets under administration	\$ 58,121	55,590
(in millions)	Three months ended September 30, 2018	Three months ended September 30, 2017
Net new advisory assets (1)	\$ (87)	420
Net new non-advisory assets (1), (2)	(931)	(965)
Total net new assets (1), (2)	\$ (1,018)	(545)
Annualized advisory AUA growth (3)	(1.5)	% 8.6
Annualized AUA growth (3)	(7.1)	% (4.0)
(in millions)	Nine months ended September 30, 2018	Nine months ended September 30, 2017
Net new advisory assets (1)	\$ 620	342
Net new non-advisory assets (1), (2)	(2,831)	(2,526)
Total net new assets (1), (2)	\$ (2,210)	(2,184)
Annualized advisory AUA growth (3)	3.8	% 2.5
Annualized AUA growth (3)	(5.2)	% (5.6)
Advisor count	September 30, 2018 1,074	September 30, 2017 1,481
	\$ 350	240

Average trailing 12-month production per advisor (4) (in thousands)

Advisor associate count	351	262
-------------------------	-----	-----

- (1) Net new assets is calculated as total client deposits and net transfers less client withdrawals.
- (2) Excludes activity related to products held outside of our broker-dealer platform. These assets represent less than 10% of total AUA.
- (3) Annualized growth is calculated as annualized net new assets divided by beginning assets under administration.
- (4) Production per advisor is calculated as trailing 12-month Total Underwriting and distributions fees less “other” underwriting and distribution fees divided by the average number of advisors. “Other” underwriting and distribution fees predominantly include fees paid by independent advisors for programs and services.

Table of contents

Results of Operations — Three and Nine Months Ended September 30, 2018 as Compared with Three and Nine Months Ended September 30, 2017

Total Revenues

Total revenues increased 2% to \$295.1 million for the three months ended September 30, 2018 compared to the three months ended September 30, 2017. For the nine months ended September 30, 2018, total revenues increased \$25.4 million, or 3%, compared to the same period in the prior year.

Investment Management Fee Revenues

Investment management fee revenues for the third quarter of 2018 decreased \$4.8 million, or 4%, from the third quarter of 2017. For the nine month period ended September 30, 2018, investment management fee revenues decreased \$2.1 million, or 1%, compared to the same period in 2017. Decreases in investment management fees for both comparative periods were due to an increase in fees waivers related to fee reductions in selected mutual funds implemented as of July 31, 2018, as well as the impact of fund mergers in previous periods. In the fourth quarter of 2017, nine Advisors Funds were merged into Ivy Funds with substantially similar objectives and strategies. The remaining 11 Advisor Funds were merged into Ivy Funds on February 26, 2018.

The following table summarizes investment management fee revenues, related average assets under management, fee waivers and investment management fee rates for the three and nine months ended September 30, 2018 and 2017.

	Three months ended September 30,		Variance

Institutional investment management fees (net)	\$	17,192		18,900	(9)	%
Institutional average assets (in millions)		5,806		7,289	(20)	%
Institutional management fee rate (net)		0.4055	%	0.3722	%	

Revenues from investment management services provided to our affiliated mutual funds, which are distributed through the unaffiliated and broker-dealer channels, decreased 3% in the third quarter of 2018 compared to the third quarter of 2017 primarily due to an increase in fee waivers related to fee reductions in selected mutual funds that were implemented as of July 31, 2018. Fee waivers are recorded as an offset to investment management fees up to the amount of fees earned. Fee waivers increased during the nine months ended September 30, 2018 compared to the same period in 2017 due to the Advisors Funds mergers, the inclusion of common fund expenses that were previously not reimbursed and fee reductions in selected mutual funds. The change in fee waivers was partially offset by increased investment management fees due to slightly higher average assets.

Institutional account revenues in the third quarter of 2018 decreased \$0.5 million compared to the third quarter of 2017 due to a 23% decrease in average assets under management, partially offset by an increase in the average management fee rate. For the nine month period ended September 30, 2018, institutional account revenues decreased \$1.7 million, compared to the same period in 2017 primarily due to a 20% decrease in average assets under management, partially offset by an increase in the average management fee rate.

	Annualized long-term redemption rates (excludes money market redemptions)							
	Three months ended				Nine months ended			
	September 30,		September 30,		September 30,		September 30,	
	2018	2017	2018	2017	2018	2017	2018	2017
Unaffiliated channel	31.8	%	33.0	%	34.1	%	40.8	%
Institutional channel	40.8	%	67.3	%	64.3	%	53.7	%
Broker-Dealer channel	12.9	%	16.4	%	14.1	%	15.4	%
Total	22.1	%	27.1	%	25.5	%	28.5	%

The decreased long-term redemption rate for the nine months ended September 30, 2018 in the unaffiliated channel was driven primarily by improved redemption rates in the Ivy Asset Strategy Fund and the Ivy VIP Asset Strategy Fund (the “Asset Strategy funds”). Redemptions in the Asset Strategy funds represented approximately 9% of the unaffiliated channel’s redemptions for the nine months ended September 30, 2018, reduced from 21% in the nine months ended September 30, 2017. The decreased long-term redemption rate for the third quarter of 2018 as compared to the same period in 2017 in the institutional channel was due to larger client redemptions in the third quarter of 2017, primarily in our Core Equity strategy. The increased long-term redemption rate for the nine months ended September 30, 2018 in the institutional channel was due to larger client redemptions than the comparative period primarily from our Core Equity and Large Cap Growth strategies. Additionally, we have been notified of approximately \$1.0 billion of redemptions in our institutional channel for the fourth quarter of 2018, of which \$0.6 billion has been redeemed in October 2018. The redemptions are a result of a variety of factors including performance, a move to passive and personnel turnover. The decreased redemption rate in the broker-dealer channel for the three months ended September 30, 2018 reflects a reduction in redemption rates in this channel after the 2017 launch of the MAP Navigator product. Prolonged redemptions in any of our distribution channels could negatively affect revenues in future periods.

Our overall current year-to-date annualized redemption rate of 25.5% is slightly higher than the current year-to-date industry average of approximately 23.0%, based on data from the Investment Company Institute.

Underwriting and distribution revenues earned in the third quarter of 2018 increased by \$11.4 million, or 9%, compared to the third quarter of 2017, primarily driven by an increase in fee-based asset allocation product revenues of \$8.4 million in the broker-dealer channel, partially offset by a decrease in Rule 12b-1 asset-based service and distribution fees across both channels. Fee-based asset allocation product revenues increased primarily due to an increase in fee-based asset allocation assets of \$3.2 billion, or 16%, while Rule 12b-1 asset-based service and distribution fees decreased due to a decrease in average mutual fund assets under management for which we earn Rule 12b-1 revenues. Additionally, other revenues increased \$4.7 million in the third quarter of 2018 compared to the third quarter of 2017 primarily due to an increase in payments received from independent financial advisors for services.

For the nine months ended September 30, 2018, underwriting and distribution revenues increased by \$29.7 million, or 8%, compared to the nine months ended September 30, 2017, primarily driven by an increase in fee-based asset allocation product revenues of \$25.4 million in the broker-dealer channel, partially offset by a decrease in Rule 12b-1 asset-based service and distribution fees across both channels. Fee-based asset allocation product revenues increased primarily due to an increase in fee-based asset allocation assets of \$3.2 billion, or 17%, while Rule 12b-1 asset-based service and distribution fees decreased due to a decrease in average mutual fund assets under management for which we earn Rule 12b-1 revenues. Additionally, other revenues increased \$11.4 million in the nine months ended September 30, 2018 compared to the same period in 2017 primarily due to an increase in payments received from independent financial advisors for services.

Shareholder Service Fee Revenue

During the third quarter of 2018, shareholder service fee revenue decreased slightly compared to the third quarter of 2017 primarily due to a decrease in the number of accounts and decreased Fund administrative and accounting service fees due to the fund mergers in October 2017 and February 2018. These decreases were partially offset by increases in asset based services fees, due to an increase in assets, and custodian fees due to a change in fees that now includes broker-dealer advisory accounts.

During the nine months ended September 30, 2018, shareholder service fee revenue decreased \$2.2 million, or 3%, compared to the nine months ended September 30, 2017. Fund service fees decreased \$3.7 million, or 14%, primarily due to a decrease in the number of accounts as a result of the share class conversion. Fund administrative and accounting service fees decreased \$1.2 million, or 12%, due to the fund mergers in October 2017 and February 2018. Partially offsetting the decreases, custodian fees increased \$1.2 million, or 26%, primarily due to a change in custodian fees that now includes broker-dealer advisory accounts. Service fees based on assets also increased \$1.1 million, or 4%, due an increase in assets under management.

Total Operating Expenses

Operating expenses for the third quarter of 2018 were relatively unchanged compared to the third quarter of 2017. For the nine months ended September 30, 2018, operating expenses increased \$5.7 million, or 1%, compared to the first nine months of 2017, primarily due to increased distribution and depreciation expenses, partially offset by decreases in compensation and benefits and general and administrative costs. In August 2017, we announced a cost reduction plan which we plan to complete by 2019.

Intangible asset impairment	1,200	1,500	(20)	%
Total operating expenses	\$ 710,422	704,689	1	%

Distribution expenses for the third quarter of 2018 increased by \$9.7 million, or 9%, compared to the third quarter of 2017. Expenses in the broker-dealer channel increased \$13.4 million, or 18%, primarily due to higher commissions paid to independent financial advisors under the new commission structure that became effective on January 1, 2018 and higher commissions on our asset-based advisory products due to advisory asset growth. Distribution expenses in the unaffiliated channel decreased by \$3.7 million due to a decrease in average mutual fund assets under management

for which we pay Rule 12b-1 commissions to third party distributors.

For the nine months ended September 30, 2018, distribution expenses increased by \$21.0 million, or 6%, compared to the first nine months of 2017. Expenses in the broker-dealer channel increased \$32.5 million, or 14%, primarily due to higher commissions paid to independent financial advisors under the new commission structure that became effective on January 1, 2018 and higher commissions on our asset-based advisory products due to advisory asset growth. Distribution expenses in the unaffiliated channel decreased by \$11.5 million due to a decrease in average mutual fund assets under management for which we pay Rule 12b-1 commissions to third party distributors.

Compensation and benefits during the third quarter of 2018 decreased \$5.1 million, or 7%, compared to the third quarter of 2017. The decrease is primarily due to a \$3.0 million decrease in pension expense as a result of the Pension Plan freeze as of September 30, 2017, a \$2.1 million decrease due to a discretionary 401(k) contribution in 2017 and a \$1.3 million decrease related to share-based compensation primarily driven by changes in the Company's share price. Partially offsetting these decreases was a \$1.3 million increase in base compensation from merit increases.

For the nine months ended September 30, 2018, compensation and benefits decreased \$2.8 million, or 1%, compared to the nine months ended September 30, 2017. The decrease is primarily due to a \$8.4 million decrease in pension expense as a result of the Pension Plan freeze and a \$2.1 million decrease due to a discretionary 401(k) contribution in 2017. Partially offsetting these decreases was a combined \$8.3 million increase in base compensation from merit increases and the 2017 change in field leader compensation structure, resulting in that compensation being recorded in the compensation

Table of contents

and benefits line as opposed to distribution expense.

General and administrative expenses in the third quarter of 2018 decreased \$5.8 million, compared to the third quarter of 2017. The decrease was mainly due to a decrease in legal and consulting costs due to the completion of certain projects, a decrease in temporary staff expense and a decrease in fund expenses related to prior year fund launches and fund mergers. For the nine months ended September 30, 2018, general and administrative expenses decreased \$12.6 million, compared to the same period in 2017. The decrease was mainly due to a decrease in legal and consulting costs due to the completion of certain projects, a decrease in temporary staff expense and a decrease in fund expenses due to fund launches and fund mergers in the prior year.

Occupancy and Marketing and advertising costs decreased a combined \$1.2 million in the third quarter of 2018 compared to the third quarter of 2017 and decreased a combined \$3.3 million in the nine months ended September 30, 2018 compared to the same period in 2017. For both comparative periods, costs decreased primarily due to lower office space rent as a result of fewer field office leased locations and less advertising spend as we continue to evolve our broker-dealer market structure.

Depreciation increased for both comparative periods primarily due to a charge of \$2.4 million in the third quarter of 2018 to adjust the useful life on certain internally developed software assets.

Subadvisory fees are paid to other asset managers for providing advisory services for certain mutual fund portfolios, and subadvised products generally have a lower operating margin.

Subadvisory expenses increased \$0.2 million in the third quarter of 2018 compared to the third quarter of 2017 due to an increase in subadvised average assets of 8%. Quarterly subadvised average assets under management at September 30, 2018 were \$5.8 billion compared to \$5.3 billion at September 30, 2017. Subadvisory expenses increased \$1.7 million for the nine months ended September 30, 2018 compared to the same period in 2017, due to an increase in subadvised average assets of 12%. Year-to-date subadvised average assets under management at September 30, 2018 were \$5.8 billion compared to \$5.1 billion at September 30, 2017. The increase in subadvised average assets for both comparative periods is primarily due to the launch of Ivy Proshares in April of 2017 and the introduction of the Wilshire Global Allocation Fund in May of 2017.

Investment and Other Income

Investment and other income was \$1.7 million for the three months ended September 30, 2018 compared to \$33.3 million for the same period in 2017. In the third quarter of 2018, we recognized \$3.8 million in dividend, capital gain distributions and interest income. The third quarter of 2018 also included \$3.1 million of net losses related to our seed capital investments and associated hedges, \$0.6 million in mark-to-market pension gains and \$0.4 million of gains attributable to noncontrolling interests in sponsored funds for the period in which the Company held majority ownership. During the third quarter of 2017, we recognized \$3.3 million in dividend and interest income and gains on the sales of sponsored funds held as available for sale, \$1.9 million of net gains related to our seed capital investments and associated hedges and \$2.0 million of gains attributable to noncontrolling interests in sponsored funds for the period in which the Company held majority ownership. The third quarter of 2017 also included net gains of \$25.1 million related to the freeze of our Pension Plan on September 30, 2017.

Investment and other income was \$5.4 million for the nine months ended September 30, 2018 compared to \$39.3 million for the same period in 2017. For the nine months ended September 30, 2018, we recognized \$11.3 million in dividend, capital gain distributions and interest income. The first nine months of 2018 also included \$8.6 million of net losses related to our seed capital investments and associated hedges, \$1.7 million in mark-to-market pension gains and \$0.7 million of gains attributable to noncontrolling interests in sponsored funds for the period in which the Company held majority ownership. During the nine months ended September 30, 2017, we recognized \$6.1 million in dividend and interest income and gains on the sales of sponsored funds held as available for sale, \$0.6 million of net gains related to our seed capital investments and associated hedges and \$4.2 million of gains attributable to noncontrolling interests in sponsored funds for the period in which the Company held majority ownership. The first nine months of 2017 also included net gains of \$25.1 million related to the freeze of our Pension Plan on September 30, 2017.

As a result of the change of accounting method for the Pension Plan enacted in the fourth quarter of 2017, the Company's pension liability will be marked-to-market in the fourth quarter of 2018.

Table of contents

Interest Expense

Interest expense was \$1.6 million and \$2.8 million in the third quarter of 2018 and 2017, respectively. Interest expense was \$4.9 million and \$8.4 million for the nine months ended September 30, 2018, and September 30, 2017, respectively. The majority of our interest expense is fixed based on our Series A and Series B senior unsecured notes. The \$95.0 million Series A senior unsecured notes were repaid upon maturity in January 2018. As a result, interest expense declined in both comparative periods, and we anticipate \$4.8 million in annualized interest expense savings.

Taxes

The following table reconciles the statutory federal income tax rate with our effective income tax rate from continuing operations for the three and nine months ended September 30, 2018 and 2017.

	Three months ended September 30,				Nine months ended September 30,			
	2018	%	2017	%	2018	%	2017	%
Statutory federal income tax rate	21.0	%	35.0	%	21.0	%	35.0	%
State income taxes, net of federal tax benefit	2.7		2.4		2.8		2.3	
Effects of U.S. tax rate decrease	(1.7)		—		(0.6)		—	
Share-based compensation	(0.4)		(1.0)		2.3		3.9	
Uncertain tax positions	0.4		(1.0)		(2.9)		(0.2)	
Other items	—		(0.4)		0.6		(1.3)	
Effective income tax rate	22.0	%	35.0	%	23.2	%	39.7	%

Our effective income tax rate was 22.0% and 23.2% for the three and nine months ended September 30, 2018, as compared to 35.0% and 39.7% for the same periods in 2017. The effective tax rate in 2018 was lower primarily due to the federal statutory tax rate decrease from 35% to 21% effective January 1, 2018.

The enactment of the Tax Cuts and Jobs Act (the “Tax Reform Act”) on December 22, 2017 significantly revised the U.S. Corporate income tax system. As a result of the Tax Reform Act, the Company recorded a one-time charge of \$5.4 million in the fourth quarter of 2017 to measure our net deferred tax assets at the reduced federal statutory rate. According to guidance from Staff Accounting Bulletin 118, the Company recognized a provisional tax impact related to the revaluation of deferred tax assets and liabilities and included those amounts in its consolidated financial statements for the year ended December 31, 2017. In the third quarter of 2018, we finalized our 2017 U.S. corporate income tax return and revised provisional adjustments made to our net deferred tax asset. Accordingly, we recorded a discrete tax benefit of \$1.0 million in the three months ended September 30, 2018, which decreased the three and nine month effective tax rate by 1.7% and 0.6%, respectively. The Company now considers its accounting for the income tax effects of the Tax Reform Act to be complete.

Other factors affecting the rate for the nine month comparison period included the reversal of previously recorded uncertain tax expense upon the completion of a voluntary disclosure agreement with a state tax jurisdiction during 2018, which decreased the rate by 3.6%. The tax impact of share-based compensation created a tax shortfall in both years, but the impact was greater in 2017 mostly due to a larger differential between grant date and vest date prices on restricted stock awards at vesting, which decreased the rate 2.7% and was partially offset by a lesser benefit on unvested restricted stock dividend payments in 2018.

The Company expects continued volatility in its effective tax rate in 2019 as the tax effects of share-based compensation will be impacted by market fluctuations in our stock price. Based on current estimates, the Company expects a tax shortfall from share-based payments of \$1.5 to \$2.0 million in 2019, primarily in the second quarter. The Company expects its future effective tax rate, exclusive of the effects of share-based payments, federal and state tax incentives, unanticipated state tax legislative changes, and unanticipated fluctuations in earnings to range from 23% to 25%.

Table of contents

Liquidity and Capital Resources

Our operations provide much of the cash necessary to fund our priorities, as follows:

- Repurchase our stock
- Pay dividends
- Finance internal growth

As part of our regular assessment of the return of capital to stockholders, we implemented a revised capital return policy in the fourth quarter of 2017 that is designed to provide greater financial flexibility to invest in our business, support ongoing operations and maintain a strong balance sheet, while continuing to provide a very competitive return to stockholders. The components of the capital return policy are described below.

Repurchase Our Stock

We repurchased 4,519,546 shares and 904,410 shares of our Class A common stock in the open market or privately during the nine months ended September 30, 2018 and 2017, respectively, resulting in share repurchases of \$89.0 million and \$15.6 million, respectively.

In connection with our existing capital return policy, we intend to complete the repurchase of \$250 million of our Class A common stock through late 2019, which is inclusive of buybacks to offset dilution of our equity grants. We continue to engage in an opportunistic share repurchase plan to fulfill the targeted buybacks. We have repurchased \$109.1 million of our Class A common stock since the announcement of this program in the fourth quarter of 2017 at a weighted average share price of \$20.00.

Pay Dividends

We paid quarterly dividends on our Class A common stock that resulted in financing cash outflows of \$61.5 million and \$115.7 million for the first nine months of 2018 and 2017, respectively.

The Board of Directors approved a dividend on our Class A common stock of \$0.25 per share that was paid on November 1, 2018 to stockholders of record on October 11, 2018.

Finance Internal Growth

We continue to invest in our broker-dealer by offering home office resources, wholesaling efforts and enhanced technology tools, including the modernization of our brokerage and product platform. We use cash to fund growth in our distribution channels. Our unaffiliated channel requires cash outlays for wholesaler commissions and commissions to third parties on deferred load product sales. We also provide seed money for new products to further enhance our product offerings and distribution efforts.

Operating Cash Flows

Cash from operations increased \$275.9 million for the nine months ended September 30, 2018 compared to the nine months ended September 30, 2017. The increase is primarily due to an increase in cash generated from investment activity of \$239.3 million and an increase in net income of \$22.8 million.

The payable to investment companies for securities, payable to customers and other receivables accounts can fluctuate significantly based on trading activity at the end of a reporting period. Changes in these accounts resulted in variances within cash from operations on the statement of cash flows; however, there is no impact to the Company's liquidity and operations for the variances in these accounts.

Investing Cash Flows

Cash from investing activities increased \$241.6 million for the nine months ended September 30, 2018 compared to the nine months ended September 30, 2017 primarily due to a decrease of \$234.7 million in the purchases of available for sale and equity method securities.

Table of contents

Financing Cash Flows

The repayment of our \$95.0 million Series A senior unsecured notes in January of 2018, stock repurchases of \$88.2 million and dividends of \$61.5 million accounted for the majority of our financing cash outflows in the first nine months of 2018. Dividends of \$115.7 million and stock repurchases of \$15.6 million accounted for the majority of our financing cash outflows in the first nine months of 2017. Future financing cash outflows will be affected by the new capital return policy.

Future Capital Requirements

Management believes its available cash, marketable securities and expected cash flow from operations will be sufficient to fund its short-term operating and capital requirements during 2018. Expected short term uses of cash include dividend payments, repurchases of our Class A common stock, interest on indebtedness, income tax payments, seed money for new products, ongoing technology enhancements, capital expenditures, and collateral funding for margin accounts established to support derivative positions, and could include strategic acquisitions.

Expected long term capital requirements include interest on indebtedness and maturities of outstanding debt, operating leases and purchase obligations. Other possible long-term discretionary uses of cash could include capital expenditures for enhancement of technology infrastructure, strategic acquisitions, payment of dividends, seed money for new products, and repurchases of our Class A common stock.

Critical Accounting Policies and Estimates

There have been no material changes in the critical accounting policies and estimates disclosed in the “Critical Accounting Policies and Estimates” section of our 2017 Form 10-K, except for the removal of the Pension and Other Postretirement Benefits critical accounting policy due to an amendment to freeze the Pension Plan effective September 30, 2017, which reduced the number of significant accounting estimates related to the Pension Plan in 2018 and future years.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are primarily exposed to market risk associated with unfavorable movements in interest rates and securities prices. The Company has had no material changes in its market risk policies or its market risk sensitive instruments and positions since December 31, 2017. As further described in Note 5 to the unaudited consolidated financial statements, the Company has an economic hedge program that uses total return swap contracts to hedge market risk related to its investments in sponsored funds.

Item 4. Controls and Procedures

The Company maintains a system of disclosure controls and procedures that is designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms and that such information is accumulated and communicated to the Company’s management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. The Company’s Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of the Company’s disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Exchange Act) as of September 30, 2018, have concluded that the Company’s disclosure controls and procedures were effective as of September 30, 2018.

The Company’s internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f) and 15d-15(f)) is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. There were no changes in the Company’s internal control over financial reporting that occurred during the fiscal quarter ended September 30, 2018 that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial

Table of contents

reporting. However, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

Part II. Other Information

Item 1. Legal Proceedings

See Part I, Item 1, Notes to the Unaudited Consolidated Financial Statements, Note 11 – Contingencies, of this Quarterly Report on Form 10-Q.

Item 1A. Risk Factors

Except as noted below, there have been no material changes to the Company's Risk Factors from those previously reported in the Company's 2017 Form 10-K.

In March 2018, the U.S. Court of Appeals for the Fifth Circuit vacated the DOL Fiduciary Rule. Although the DOL Fiduciary Rule has been vacated, other regulators have enacted or proposed other fiduciary standards that could require modifications to our distribution activities and may impact our ability to service clients or engage in certain types of distribution or other business activities.

In April 2018, the SEC proposed its own fiduciary rule that would impose a new standard of care on broker-dealers when making recommendations to both retirement and non-retirement accounts. In addition, various states have also implemented or proposed new fiduciary requirements.

Specific references in the Risk Factors reported in the Company's 2017 Form 10-K regarding the impact the DOL Fiduciary Rule may have on the Company should be read to refer generally to "new fiduciary standards", which would include any fiduciary standards imposed by the DOL, the SEC or any states.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table sets forth certain information about the shares of Class A common stock we repurchased during the third quarter of 2018.

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Number (or Approximate Dollar Value) of Shares That May Yet Be Purchased Under The Program	
July 1 - July 31	597,487	\$ 18.97	597,487	n/a	(1)
Aug 1 - Aug 31	360,225	20.51	360,000	n/a	(1)
Sep 1 - Sep 30	466,900	20.66	466,900	n/a	(1)
Total	1,424,612	\$ 19.91	1,424,387		

- (1) On August 31, 1998, we announced that our Board of Directors approved a program to repurchase shares of our Class A common stock on the open market. Under the repurchase program, we are authorized to repurchase, in any seven-day period, the greater of (i) 3% of our outstanding Class A common stock or (ii) \$50 million of our Class A common stock. We may repurchase our Class A common stock in privately negotiated transactions or through the New York Stock Exchange, other national or regional market systems, electronic communication networks or alternative trading systems. Our stock repurchase program does not have an expiration date or an aggregate maximum number or dollar value of shares that may be repurchased. Our Board of Directors reviewed and ratified the stock repurchase program in October 2012. During the third quarter of 2018, 225 shares were purchased in connection with funding employee income tax withholding obligations arising from the vesting of restricted shares.

In connection with our existing capital return policy, we intend to complete the repurchase of \$250 million of our Class A common stock through late 2019, which is inclusive of buybacks to offset dilution of our equity grants. We continue to engage in an opportunistic share repurchase plan to fulfill the targeted buybacks.
