Note - reflects 6,414 net transfers from "add-on" status to "stand-alone" status during the quarter			

Our total active membership fees in force increased approximately 8% during the last four quarters and continues our 13 year trend of increasing our membership fees in force. The membership persistency rate (defined as the number of memberships in force at the end of a 12 month period as a percentage of the total of memberships in force at the beginning of such period, plus new memberships sold during such period) was 71.1% for the 12 months ending March 31, 2006.

Our first quarter 2006 corporate finance focus has again been primarily on share repurchases. During the 1st quarter, we returned \$16.2 million to shareholders through the repurchase of 448,407 shares of common stock, including our odd-lot repurchase program, at an average per share price of \$36.05 and also paid \$4.6 million in dividends. We believe the flexibility to repurchase shares, pay a dividend, or both enables us to maximize the long-term per share value of our common stock, by making a decision to repurchase shares or pay a dividend or both based on market conditions and our cash position. We are fortunate to have a business model that allows us to grow and still produce excess cash. We think

of our shareholders as long-term partners. Our goal is to use every excess dollar of cash to improve the value of each share. Since April 1999, we have returned \$238.7 million to shareholders through the purchase of 9.9 million shares, average price of \$24.20 per share, and \$17.1 million in dividends for a combined total of \$255.8 million representing more than 115 percent of our net earnings during the same timeframe.

We anticipate announcing our 2006 first quarter financial results on April 24, 2006 after the market closes and hosting a conference call to discuss such results on April 26, 2006.

The forward-looking statements contained herein are based on certain assumptions that may not be correct. They are subject to risks and uncertainties incident to our business that could cause actual results to differ materially from those described in the forward-looking statements. These risks and uncertainties are described in the reports and statements filed by us with the Securities and Exchange Commission, including (among others) those listed in our Form 10-K, Form 10-Q and Form 8-K, and include the risks that our membership persistency or renewal rates may decline, that we may not be able to continue to grow our memberships and earnings, that we are dependent on the continued active participation of our principal executive officer, that pending or future litigation may have a material adverse effect on us if resolved unfavorably to us, that we could be adversely affected by regulatory developments, that competition could adversely affect us, that we are substantially dependent on our marketing force, that our stock price may be affected by short sellers, that we have been unable to increase our employee group membership sales and that our active premium in force is not indicative of future revenue as a result of changes in active memberships from cancellations and additional membership sales. Please refer to pages 14 and 15 of our 2005 Form 10-K for a more complete description of these risks. We undertake no duty to update any of the forward-looking statements in this release.
