FORM 10-Q

(Mark One)

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2017

OR

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from ____ to ____

Commission file number 001-00035
GENERAL ELECTRIC COMPANY
(Exact name of registrant as specified in its charter)

New York 14-0689340
(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

41 Farnsworth Street, Boston, MA 02210
(Address of principal executive offices) (Zip Code)

(Registrant's telephone number, including area code) (617) 443-3000

(Former name, former address and former fiscal year,
if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer ☐ Accelerated filer ☐
Non-accelerated filer ☐ Smaller reporting company ☐

Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the

Exchange Act. "

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes " No ☒

There were 8,657,946,000 shares of common stock with a par value of \$0.06 per share outstanding at June 30, 2017.

FORWARD LOOKING STATEMENTS

FORWARD LOOKING STATEMENTS

This document contains "forward-looking statements" - that is, statements related to future, not past, events. In this context, forward-looking statements often address our expected future business and financial performance and financial condition, and often contain words such as "expect," "anticipate," "intend," "plan," "believe," "seek," "see," "will," "would," "estimate," "forecast" or "target."

Forward-looking statements by their nature address matters that are, to different degrees, uncertain, such as statements about the completion of our announced plan to reduce the size of our financial services businesses, including expected cash and non-cash charges associated with this plan and earnings per share of GE Capital Global Holdings, LLC's (GE Capital) retained businesses (Verticals); expected income and Industrial operating profit; earnings per share, including our 2018 target and the impact of the new revenue recognition accounting standard; revenues; organic growth; growth and productivity associated with our Digital and Additive businesses; margins; cost structure and plans to reduce costs; restructuring charges; transaction-related synergies and gains; cash flows, including the impact of working capital, contract assets and pension funding contributions; returns on capital and investment; capital expenditures; capital allocation, including dividends, share repurchases and acquisitions; or capital structure, including leverage.

For us, particular uncertainties that could cause our actual results to be materially different than those expressed in our forward-looking statements include:

- the strategy and portfolio review being undertaken by our new chief executive officer;
- our ability to reduce costs as we execute our announced plan to reduce the size of our financial services businesses;
- changes in law, economic and financial conditions, including interest and exchange rate volatility, commodity and equity prices and the value of financial assets;
- the impact of conditions in the financial and credit markets on the availability and cost of GE Capital funding, and GE Capital's exposure to counterparties;
- pending and future mortgage loan repurchase claims, other litigation claims and the U.S. Department of Justice's investigation under the Financial Institutions Reform, Recovery and Enforcement Act of 1989 and other investigations in connection with WMC, which may affect our estimates of liability, including possible loss estimates;
- our ability to maintain our current credit rating and the impact on our funding costs and competitive position if we do not do so;
- our ability to convert Industrial earnings into cash and the amount and timing of our cash flows and earnings, which may be impacted by long-term services agreement dynamics, and other conditions, all of which may affect our ability to pay our quarterly dividend at the planned level or to repurchase shares at planned levels;
- GE Capital's ability to pay dividends to GE at the planned level, which may be affected by GE Capital's cash flows and earnings, claims and investigations relating to WMC, charges that may be required in connection with GE Capital's run-off insurance operations, and other factors;
- our ability to launch new products in a cost-effective manner;
- our ability to increase margins through restructuring and other cost reduction measures;
- our ability to convert pre-order commitments/wins into orders/bookings;
- the price we realize on orders/bookings since commitments/wins are stated at list prices;
- customer actions or developments such as early aircraft retirements or reduced energy demand, changes in economic conditions, including oil prices, and other factors that may affect the level of demand and financial performance of the major industries and customers we serve;
- the impact of regulation and regulatory, investigative and legal proceedings and legal compliance risks, including the impact of Alstom investigative and legal proceedings;
- our capital allocation plans, as such plans may change including with respect to the timing and size of share repurchases, acquisitions, joint ventures, dispositions and other strategic actions;
- our success in completing, including obtaining regulatory approvals and satisfying other closing conditions for, announced transactions, such as our announced plans and transactions to reduce the size of our financial services

businesses and to sell our Water and Industrial Solutions businesses;
• our success in integrating acquired businesses and operating joint ventures, including Baker Hughes;
• our ability to realize revenue and cost synergies from announced transactions, acquired businesses and joint ventures, including Alstom and Baker Hughes;
• the impact of potential information technology or data security breaches; and
• the other factors that are described in “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2016.

These or other uncertainties may cause our actual future results to be materially different than those expressed in our forward-looking statements. We do not undertake to update our forward-looking statements. This document includes certain forward-looking projected financial information that is based on current estimates and forecasts. Actual results could differ materially.

MD&A

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (MD&A)

PRESENTATION

The consolidated financial statements of General Electric Company (the Company) combine the industrial manufacturing and services businesses of General Electric Company (GE) with the financial services businesses of GE Capital Global Holdings, LLC (GE Capital or Financial Services) and its predecessor, General Electric Capital Corporation.

We believe that investors will gain a better understanding of our company if they understand how we measure and talk about our results. Because of the diversity in our businesses, we present our financial statements in a three-column format, which allows investors to see our industrial operations separately from our Financial Services operations. We believe that this provides useful information to investors. When used in this report, unless otherwise indicated by the context, we use the terms to mean the following:

General Electric or the Company – the parent company, General Electric Company.

GE – the adding together of all affiliates except GE Capital, whose continuing operations are presented on a one-line basis, giving effect to the elimination of transactions among such affiliates. As GE presents the continuing operations of GE Capital on a one-line basis, certain intercompany profits resulting from transactions between GE and GE Capital have been eliminated at the GE level. We present the results of GE in the center column of our consolidated statements of earnings, financial position and cash flows. An example of a GE metric is GE cash from operating activities (GE CFOA).

General Electric Capital Corporation or GECC – predecessor to GE Capital Global Holdings, LLC.

GE Capital Global Holdings, LLC or GECGH – successor of GECC.

GE Capital or Financial Services – refers to GECGH, or its predecessor GECC, and is the adding together of all affiliates of GE Capital giving effect to the elimination of transactions among such affiliates. We present the results of GE Capital in the right-side column of our consolidated statements of earnings, financial position and cash flows.

GE consolidated – the adding together of GE and GE Capital, giving effect to the elimination of transactions between the two. We present the results of GE consolidated in the left-side column of our consolidated statements of earnings, financial position and cash flows.

Industrial – GE excluding the continuing operations of GE Capital. We believe that this provides investors with a view as to the results of our industrial businesses and corporate items. An example of an Industrial metric is Industrial CFOA (Non-GAAP), which is GE CFOA excluding the effects of dividends from GE Capital.

Industrial segment – the sum of our seven industrial reporting segments, without giving effect to the elimination of transactions among such segments and between these segments and our Financial Services segment. This provides investors with a view as to the results of our industrial segments, without inter-segment eliminations and corporate items. An example of an industrial segment metric is industrial segment revenue growth.

Total segment – the sum of our seven industrial segments and one financial services segment, without giving effect to the elimination of transactions between such segments. This provides investors with a view as to the results of all of our segments, without inter-segment eliminations and corporate items.

Verticals or GE Capital Verticals – the adding together of GE Capital businesses that we expect to retain, principally its vertical financing businesses—GE Capital Aviation Services (GECAS), Energy Financial Services (EFS) and Industrial Finance (which includes Healthcare Equipment Finance, Working Capital Solutions and Industrial Financing Solutions)—that relate to the Company's core industrial domain and other operations, including our run-off insurance activities, and allocated corporate costs.

We integrate acquisitions as quickly as possible. Revenues and earnings from the date we complete the acquisition through the end of the fourth quarter following the acquisition are considered the acquisition effect of such businesses.

Discussion of GE Capital's total assets includes deferred income tax liabilities, which are presented within assets for purposes of our consolidated statement of financial position presentations for this filing.

Amounts reported in billions in graphs within this report are computed based on the amounts in millions. As a result, the sum of the components reported in billions may not equal the total amount reported in billions due to rounding. Certain columns and rows within the tables may not add due to the use of rounded numbers. Percentages presented are calculated from the underlying numbers in millions.

4 2017 2Q FORM 10-Q

MD&A

Discussions throughout this MD&A are based on continuing operations unless otherwise noted.

The MD&A should be read in conjunction with the Financial Statements and Notes to the consolidated financial statements.

OTHER TERMS USED BY GE

Backlog – unfilled customer orders for products and product services (expected life of contract sales for product services).

Continuing earnings – unless otherwise indicated, we refer to the caption “earnings from continuing operations attributable to GE common shareowners” as continuing earnings or simply as earnings.

Continuing earnings per share (EPS) – unless otherwise indicated, when we refer to continuing earnings per share, it is the diluted per-share amount of “earnings from continuing operations attributable to GE common shareowners”.

Digital revenues – revenues related to internally developed software and associated hardware, including PrediX[™] and software solutions that improve our customers’ asset performance. In 2016, we reassessed the span of our digital product offerings, which now excludes software-enabled product upgrades. These revenues are largely generated from our operating businesses and are included in their segment results. Revenues of "Non-GE Verticals" refer to GE Digital revenues from customers operating in industries where GE does not have a presence.

Equipment leased to others (ELTO) – rental equipment we own that is available to rent and is stated at cost less accumulated depreciation.

GE Capital Exit Plan – our plan, announced on April 10, 2015, to reduce the size of our financial services businesses through the sale of most of the assets of GE Capital, and to focus on continued investment and growth in our industrial businesses.

Industrial margin – GE revenues and other income excluding GE Capital earnings (loss) from continuing operations (Industrial revenues) minus GE total costs and expenses less GE interest and other financial charges divided by Industrial revenues.

Industrial operating profit margin (Non-GAAP) – Industrial segment profit plus corporate items and eliminations (excluding gains, restructuring, and non-operating pension cost) divided by industrial segment revenues plus corporate items and eliminations (excluding gains and GE-GE Capital eliminations).

Industrial segment gross margin - industrial segment sales less industrial segment cost of sales divided by sales.

Net earnings – unless otherwise indicated, we refer to the caption “net earnings attributable to GE common shareowners” as net earnings.

Net earnings per share (EPS) – unless otherwise indicated, when we refer to net earnings per share, it is the diluted per-share amount of “net earnings attributable to GE common shareowners”.

Non-operating pension cost (Non-GAAP) – comprises the expected return on plan assets, interest cost on benefit obligations and net actuarial gain (loss) amortization for our principal pension plans.

Operating earnings (Non-GAAP) – GE earnings from continuing operations attributable to common shareowners excluding the impact of non-operating pension costs.

Operating earnings per share (Non-GAAP) – unless otherwise indicated, when we refer to operating earnings per share, it is the diluted per-share amount of “operating earnings”.

Operating pension cost (Non-GAAP) – comprises the service cost of benefits earned, prior service cost amortization and curtailment gain (loss) for our principal pension plans.

Organic revenues (Non-GAAP) – revenues excluding the effects of acquisitions, dispositions and translational foreign currency exchange.

Product services – for purposes of the financial statement display of sales and costs of sales in our Statement of Earnings, “goods” is required by SEC regulations to include all sales of tangible products, and “services” must include all other sales, including other services activities. In our MD&A section of this report, we refer to sales under product

services agreements and sales of both goods (such as spare parts and equipment upgrades) and related services (such as monitoring, maintenance and repairs) as sales of “product services,” which is an important part of our operations. We refer to “product services” simply as “services” within the MD&A.

Product services agreements – contractual commitments, with multiple-year terms, to provide specified services for products in our Power, Renewable Energy, Oil & Gas, Aviation and Transportation installed base – for example, monitoring, maintenance, service and spare parts for a gas turbine/generator set installed in a customer’s power plant.

Revenues – unless otherwise indicated, we refer to captions such as “revenues and other income” simply as revenues.

Segment profit – refers to the operating profit of the industrial segments and the net earnings of the Financial Services segment. See the Segment Operations section within the MD&A for a description of the basis for segment profits.

MD&A

NON-GAAP FINANCIAL MEASURES

In the accompanying analysis of financial information, we sometimes use information derived from consolidated financial data but not presented in our financial statements prepared in accordance with U.S. generally accepted accounting principles (GAAP). Certain of these data are considered “non-GAAP financial measures” under the U.S. Securities and Exchange Commission (SEC) rules. Specifically, we have referred, in various sections of this report, to:

Industrial segment organic revenues

Operating and non-operating pension cost

Adjusted corporate costs (operating)

Industrial operating earnings and GE Capital earnings (loss) from continuing operations and EPS

Industrial operating + Verticals earnings and EPS

Industrial operating profit and operating profit margin (excluding certain items)

Industrial cash flows from operating activities (Industrial CFOA) and Industrial CFOA excluding deal taxes and GE Pension Plan funding

The reasons we use these non-GAAP financial measures and the reconciliations to their most directly comparable GAAP financial measures are included in the Supplemental Information section within the MD&A. Non-GAAP financial measures referred to in this report are either labeled as “non-GAAP” or designated as such with an asterisk (*).

MD&A

OUR OPERATING SEGMENTS

We are a global digital industrial company, transforming industry with software-defined machines and solutions that are connected, responsive and predictive, with products and services ranging from aircraft engines, locomotives, power generation and oil and gas production equipment to medical imaging, financing and industrial products. Operational and financial overviews for our operating segments are provided in the “Segment Operations” section within this MD&A.

OUR INDUSTRIAL OPERATING SEGMENTS

Power ^(a)	Aviation	Energy Connections & Lighting ^(a)
Renewable Energy	Healthcare	
Oil & Gas	Transportation	

OUR FINANCIAL SERVICES OPERATING SEGMENT

Capital

Beginning in the third quarter of 2017, the Energy Connections business within the Energy Connections & (a)Lighting segment is expected to be combined with the Power segment and presented as one reporting segment called Power.

CORPORATE INFORMATION

GE’s Internet address at www.ge.com, Investor Relations website at www.ge.com/investor-relations and our corporate blog at www.gereports.com, as well as GE’s Facebook page and Twitter accounts and other social media, including @GE_Reports, contain a significant amount of information about GE, including financial and other information for investors. GE encourages investors to visit these websites from time to time, as information is updated and new information is posted.

MD&A CONSOLIDATED RESULTS

CONSOLIDATED RESULTS

2017 SIGNIFICANT DEVELOPMENTS

On June 12, 2017, we announced that Jeffrey R. Immelt will retire as Chief Executive Officer (CEO) on July 31, 2017 and that John L. Flannery has been appointed to succeed Mr. Immelt as CEO effective August 1, 2017. Mr. Flannery will also join the Board of Directors on that date. Mr. Immelt will remain Chairman of the Board for a transition period through December 31, 2017, at which point Mr. Flannery will succeed Mr. Immelt as Chairman, effective January 1, 2018.

During the second quarter of 2017, GE completed issuances of €8,000 million senior unsecured debt, composed of €1,750 million of 0.375% Notes due 2022, €2,000 million of 0.875% Notes due 2025, €2,250 million of 1.50% Notes due 2029 and €2,000 million of 2.125% Notes due 2037.

2017 SIGNIFICANT TRANSACTIONS

On January 10, 2017, we completed the acquisition of ServiceMax, a leader in cloud-based field service management (FSM) solutions, for \$0.9 billion, net of cash acquired. This acquisition is expected to provide enhanced capabilities to advance our Industrial Internet vision, enabling customers to immediately gain more value from their assets and find greater efficiency in their field service processes.

On April 20, 2017, we completed the acquisition of LM Wind Power, one of the world's largest wind turbine blade manufacturers for approximately \$1.6 billion, net of cash acquired.

On July 3, 2017, we completed the transaction to create Baker Hughes, a GE company (BHGE). Under the terms of the deal, which we announced in October 2016, we combined our Oil & Gas business and Baker Hughes Incorporated (Baker Hughes) to create a new company in which GE holds a 62.5% interest and former Baker Hughes shareholders hold a 37.5% interest. Baker Hughes shareholders also received a cash dividend funded by a \$7.4 billion cash contribution from GE. The completion of the transaction followed the approval of Baker Hughes shareholders, regulatory approvals and other customary closing conditions.

In October 2016, we announced our plan to sell our Water & Process Technologies business. In March 2017, we announced an agreement to sell the business for approximately \$3.4 billion to Suez Environnement S.A. (Suez), a French-based utility company operating primarily in the water treatment and waste management sectors. The deal is expected to close in the second half of 2017, subject to customary closing conditions and regulatory approval.

In the first quarter of 2017, we classified our Industrial Solutions business within our Energy Connections & Lighting segment as held for sale. We expect to complete the sale of the business by the end of the first quarter of 2018.

MD&A CONSOLIDATED RESULTS

CONSOLIDATED RESULTS

THREE AND SIX MONTHS ENDED JUNE 30

(Dollars in billions)

REVENUES INDUSTRIAL AND FINANCIAL SERVICES REVENUES

COMMENTARY: 2017 - 2016

THREE MONTHS

Consolidated revenues decreased \$3.9 billion, or 12%.

Industrial revenues decreased \$3.6 billion, or 12%, due to a decrease at Corporate of \$3.0 billion as the prior year included a pre-tax gain of \$3.1 billion from the sale of our Appliances business to Haier in the second quarter of 2016. The additional decrease in industrial revenues was due to a decrease in industrial segment revenues of approximately \$0.6 billion, or 2%, as the net effects of dispositions of \$1.2 billion and the effects of a stronger U.S. dollar of \$0.2 billion were partially offset by organic revenue* increases of \$0.6 billion and the net effects of acquisitions of \$0.2 billion. In the second quarter of 2016, the net effects of acquisitions increased industrial revenues \$3.2 billion while the net effects of dispositions and a stronger U.S. dollar decreased industrial revenues \$1.1 billion and \$0.1 billion, respectively.

Financial Services revenues decreased \$0.3 billion, or 12%, primarily due to higher impairments, organic revenue declines and lower gains.

SIX MONTHS

Consolidated revenues decreased \$4.1 billion, or 7%.

Industrial revenues decreased \$3.6 billion, or 6%, due to a decrease at Corporate of \$3.2 billion as the prior year included a pre-tax gain of \$3.1 billion from the sale of our Appliances business to Haier in the second quarter of 2016. The additional decrease in industrial revenues was due to a decrease in industrial segment revenues of approximately \$0.4 billion, or 1%, as the net effects of dispositions of \$2.8 billion and the effects of a stronger U.S. dollar of \$0.3 billion were partially offset by organic revenue* increases of \$2.3 billion and the net effects of acquisitions of \$0.3 billion. In the first six months of 2016, the net effects of acquisitions increased industrial revenues \$6.0 billion while the net effects of dispositions and a stronger U.S. dollar decreased industrial revenues \$1.6 billion and \$0.7 billion, respectively.

Financial Services revenues decreased \$0.5 billion, or 9%, primarily due to organic revenue declines, lower gains and higher impairments.

*Non-GAAP Financial Measure

2017 2Q FORM 10-Q 11

MD&A CONSOLIDATED RESULTS

THREE AND SIX MONTHS ENDED JUNE 30

(Dollars in billions; attributable to GE common shareowners)

CONTINUING EARNINGS OPERATING EARNINGS*

COMMENTARY: 2017 - 2016

THREE MONTHS

Consolidated continuing earnings decreased \$2.0 billion.

Industrial earnings decreased \$2.7 billion, or 54%, due to decreased Corporate gains of \$3.1 billion as the prior year included a pre-tax gain of \$3.1 billion from the sale of our Appliances business to Haier in the second quarter of 2016, partially offset by decreased restructuring and other costs of \$0.6 billion. In addition, industrial segment profit decreased \$0.2 billion, or 4%, due to the net effects of dispositions of \$0.1 billion and organic operating decreases of \$0.1 billion.

Interest and other financial charges decreased \$0.1 billion while the provision for income taxes increased \$0.4 billion. The net effect of acquisitions on our consolidated operating earnings was an insignificant amount in the second quarter of 2017 and a decrease of \$0.1 billion in the second quarter of 2016. The net effect of dispositions was a decrease of \$2.4 billion in the second quarter of 2017 and a gain of \$1.9 billion in the second quarter of 2016.

Foreign exchange adversely affected industrial operating earnings by \$0.1 billion as a result of both translational and transactional impacts related to remeasurement and mark-to-market charges on open hedges.

Financial Services losses decreased \$0.4 billion, or 71%, primarily due to lower treasury and headquarters operation expenses associated with the GE Capital Exit Plan.

Earnings per share amounts for the second quarter of 2017 were positively impacted by the reduction in number of outstanding common shares compared to the second quarter of 2016. The average number of shares outstanding used to calculate second quarter 2017 earnings per share was 5% lower than in the second quarter of 2016 as a result of previously disclosed actions, primarily ongoing share buyback activities over the last 12 months funded in large part by dividends from GE Capital.

SIX MONTHS

Consolidated continuing earnings decreased \$1.4 billion.

Industrial earnings decreased \$2.9 billion, or 42%, due to decreased Corporate gains of \$3.2 billion as the prior year included a pre-tax gain of \$3.1 billion from the sale of our Appliances business to Haier in the second quarter of 2016, partially offset by decreased restructuring and other costs of \$0.3 billion and an increase in industrial segment profit of \$0.1 billion, or 2%, as organic operating increases of \$0.4 billion were partially offset by the net effects of dispositions of \$0.2 billion.

Interest and other financial charges decreased \$0.2 billion while the provision for income taxes increased \$0.4 billion. The net effect of acquisitions on our consolidated operating earnings was a decrease of \$0.1 billion in 2017 and \$0.2 billion in 2016. The net effect of dispositions on consolidated net earnings was a decrease of \$2.6 billion in 2017 and a gain of \$1.9 billion in 2016.

Foreign exchange adversely affected industrial operating earnings by \$0.2 billion as a result of both translational and transactional impacts related to remeasurement and mark-to-market charges on open hedges.

Edgar Filing: GENERAL ELECTRIC CO - Form 10-Q

Financial Services losses decreased \$1.3 billion, or 85% primarily due to lower treasury and headquarters operation expenses, lower preferred dividend expenses associated with the January 2016 preferred equity exchange, and lower restructuring expenses associated with the GE Capital Exit Plan.

Earnings per share amounts for 2017 were positively impacted by the reduction in number of outstanding common shares compared to 2016. The average number of shares outstanding used to calculate 2017 earnings per share was 5% lower than in 2016 as a result of previously disclosed actions, primarily ongoing share buyback activities over the last 12 months funded in large part by dividends from GE Capital.

Beginning in the third quarter of 2017, the Energy Connections business within the Energy Connections & (a)Lighting segment is expected to be combined with the Power segment and presented as one reporting segment called Power.

2017 2Q FORM 10-Q 13

MD&A SEGMENT OPERATIONS

REVENUES AND PROFIT

Segment revenues include revenues and other income related to the segment.

Segment profit is determined based on internal performance measures used by the Chief Executive Officer (CEO) to assess the performance of each business in a given period. In connection with that assessment, the CEO may exclude matters, such as charges for restructuring, rationalization and other similar expenses, acquisition costs and other related charges, technology and product development costs, certain gains and losses from acquisitions or dispositions, and litigation settlements or other charges, for which responsibility preceded the current management team. See the Corporate Items and Eliminations section within this MD&A for additional information about costs excluded from segment profit.

Segment profit excludes results reported as discontinued operations and material accounting changes. Segment profit also excludes the portion of earnings or loss attributable to noncontrolling interests of consolidated subsidiaries, and as such only includes the portion of earnings or loss attributable to our share of the consolidated earnings or loss of consolidated subsidiaries.

Segment profit excludes or includes interest and other financial charges, income taxes, and preferred stock dividends according to how a particular segment's management is measured:

- Interest and other financial charges, income taxes and GE preferred stock dividends are excluded in determining segment profit (which we sometimes refer to as "operating profit") for the industrial segments.

- Interest and other financial charges, income taxes and GE Capital preferred stock dividends are included in determining segment profit (which we sometimes refer to as "net earnings") for the Capital segment.

Certain corporate costs, such as shared services, employee benefits, and information technology, are allocated to our segments based on usage. A portion of the remaining corporate costs is allocated based on each segment's relative net cost of operations.

With respect to the segment revenue and profit walks, the overall effect of foreign exchange is included within multiple captions as follows:

- The translational foreign exchange impact is included within Foreign Exchange.

- The transactional impact of foreign exchange hedging is included in operating cost within Productivity and in other income within Other.

SIGNIFICANT SEGMENT DEVELOPMENTS

SALE OF APPLIANCES

On January 15, 2016, we announced the signing of an agreement to sell our Appliances business to Haier. On June 6, 2016, we completed the sale for proceeds of \$5.6 billion (including \$0.8 billion from the sale of receivables originated in our Appliances business and sold from GE Capital to Haier) and recognized an after-tax gain of \$1.8 billion in 2016. For the three and six months ended June 30, 2016, Appliances contributed revenues of \$1.1 billion and \$2.6 billion and an operating profit of \$0.1 billion and \$0.3 billion, respectively.

(Dollars in billions)

INDUSTRIAL SEGMENT EQUIPMENT
& SERVICES REVENUES

INDUSTRIAL SEGMENT PROFIT

Services Equipment

2017 – 2016 COMMENTARY: THREE MONTHS ENDED JUNE 30

Industrial segment revenues decreased \$0.6 billion, or 2%, driven by decreases at Energy Connections & Lighting primarily due to the sale of the Appliances business in the second quarter of 2016, Transportation, and Oil & Gas primarily due to market conditions, and an unfavorable foreign exchange impact, partially offset by increases at Renewable Energy, Power and Healthcare.

Industrial segment profit decreased \$0.2 billion, or 4%, driven primarily by lower earnings at Oil & Gas, Power, and Transportation, as well as the effects of the sale of Appliances in the second quarter of 2016, partially offset by higher earnings at Aviation.

Industrial segment margin decreased 30 bps to 14.1% in 2017 from 14.4% in 2016 driven by the effects of price and business mix, partially offset by positive cost productivity. The decrease in industrial segment margin reflects decreases at Oil & Gas, Transportation, Power and the sale of Appliances in the second quarter of 2016, offset by increases at Aviation, Renewable Energy and Healthcare.

2017 – 2016 COMMENTARY: SIX MONTHS ENDED JUNE 30

Industrial segment revenues decreased \$0.4 billion, or 1%, driven by decreases at Energy Connections & Lighting primarily due to the sale of the Appliances business in the second quarter of 2016, Oil & Gas primarily due to market conditions, and Transportation, and an unfavorable foreign exchange impact, partially offset by increases at Power, Renewable Energy, Aviation and Healthcare.

Industrial segment profit increased \$0.1 billion, or 2%, driven primarily by higher earnings at Aviation and Power, partially offset by lower earnings at Oil & Gas as well as an unfavorable foreign exchange impact and the effects of the sale of Appliances in the second quarter of 2016.

Industrial segment margin increased 40 bps to 14.0% in 2017 from 13.6% in 2016 driven by positive cost productivity, partially offset by negative business mix. The increase in industrial segment margin reflects increases at Aviation, Renewable Energy and Healthcare, offset by decreases at Oil & Gas, Transportation, Power and the sale of Appliances in the second quarter of 2016.

COMMENTARY: 2017 - 2016

Segment revenues up \$0.3 billion (5%);

Segment profit down \$(0.1) billion (10%):

The increase in revenues was driven by higher equipment volume, primarily at Gas Power Systems as a result of extended scope including higher balance of plant as well as six more Heat Recovery Steam Generator shipments than in the prior year, partially offset by five fewer gas turbine shipments and lower prices.

The decrease in profit was due to lower prices, an unfavorable business mix due to higher equipment volume versus services volume and negative variable cost productivity, partially offset by positive base cost productivity and higher overall volume.

Segment revenues up \$1.2 billion (10%);

Segment profit up \$0.1 billion (7%):

The increase in revenues was driven by higher equipment volume, primarily at Gas Power Systems as a result of extended scope including higher balance of plant as well as two more gas turbine shipments and 29 more Heat Recovery Steam Generator shipments than in the prior year. Revenue also increased due to increased other income including a reduction in foreign exchange transactional losses, partially offset by lower prices and the effects of a stronger U.S. dollar versus the euro.

The increase in profit was due to positive base cost productivity on higher volume as well as increased other income including a reduction in foreign exchange transactional losses, partially offset by an unfavorable business mix due to higher equipment volume versus services volume, negative variable cost productivity and lower prices.

COMMENTARY: 2017 - 2016

Segment revenues up \$0.4 billion (17%);

Segment profit up 25%:

The increase in revenues was primarily driven by higher volume due to higher equipment sales at Hydro and increased repowering projects at Onshore Wind. In addition, while there were 99 fewer wind turbine shipments than in the prior year, megawatts shipped increased by 8%. Revenue also increased due to increased other income including a reduction in foreign exchange transactional losses.

The increase in profit was due to material deflation and increased other income including a reduction in foreign exchange transactional losses. These increases were partially offset by negative cost productivity.

Segment revenues up \$0.7 billion (20%);

Segment profit up \$0.1 billion (27%):

The increase in revenues was primarily driven by higher volume due to higher equipment sales at Hydro and increased repowering projects at Onshore Wind. In addition, while there were 200 fewer wind turbine shipments than in the prior year, megawatts shipped increased by 4%. Revenue also increased due to the effects of a weaker U.S. dollar versus the Brazilian real and increased other income including a reduction in foreign exchange transactional losses, partially offset by lower prices.

The increase in profit was due to material deflation and increased other income including a reduction in foreign exchange transactional losses. These increases were partially offset by negative cost productivity and lower prices.

COMMENTARY: 2017 - 2016

Segment revenues down \$0.1 billion (3%);

Segment profit down \$0.2 billion (52%);

The decrease in revenues was primarily driven by negative market conditions which resulted in lower prices as well as lower equipment volume primarily in Subsea & Drilling.

The decrease in operating profit was primarily market driven resulting in lower prices. Despite the effects of restructuring actions, profit decreased due to negative variable cost productivity. These decreases were partially offset by material deflation and increased other income including a reduction in foreign exchange transactional losses.

Segment revenues down \$0.4 billion (6%);

Segment profit down \$0.3 billion (43%);

The decrease in revenues was primarily driven by negative market conditions that resulted in lower equipment volume in Subsea & Drilling and Turbomachinery & Process Solutions. Revenues also decreased due to lower prices and the

effects of a stronger U.S. dollar versus the euro and the pound sterling, partially offset by increased other income including a reduction in foreign exchange transactional losses.

The decrease in operating profit was primarily market driven resulting in lower prices. Despite the effects of restructuring actions and an increase in earnings in our long-term service contracts, profit decreased due to negative variable cost productivity. These decreases were partially offset by material deflation and increased other income including a reduction in foreign exchange transactional losses.

COMMENTARY: 2017 - 2016

Segment revenues flat;

Segment profit up \$0.1 billion (11%);

Revenues remained flat as an increase in services volume including an increase in the commercial spares shipment rate, was offset by a decrease in equipment volume. Equipment volume decreased primarily due to 73 fewer Commercial engine shipments and 14 fewer Military engine shipments, partially offset by higher valued commercial shipments including 82 more LEAP engine shipments than in the prior year.

The increase in profit was mainly driven by positive cost productivity which more than offset negative LEAP margin impact.

Segment revenues up \$0.6 billion (4%);

Segment profit up \$0.3 billion (11%);

•

The increase in revenues was primarily due to higher services volume including an increase in the commercial spares shipment rate as well as military spare parts shipments, and higher prices. Equipment revenue decreased primarily due to 119 fewer Commercial engine shipments and 45 fewer Military engine shipments, partially offset by higher valued commercial shipments including 163 more LEAP engine shipments than in the prior year.

The increase in profit was mainly driven by positive cost productivity, higher services volume and higher prices for Commercial Engines & Services, partially offset by unfavorable business mix due to negative LEAP margin impact.

SIGNIFICANT TRENDS & DEVELOPMENTS

As of March 30, 2017, GE Capital's non-US activities are no longer subject to consolidated supervision by the U.K.'s Prudential Regulation Authority (PRA). This completes GE Capital's global exit from consolidated supervision, having had its designation as a Systemically Important Financial Institution (SIFI) removed in June 2016.

GE Capital paid common dividends of \$2.0 billion and \$4.0 billion to GE in the three months and six months ended June 30, 2017, respectively.

We test future policy benefit reserves associated with our run-off insurance activities for premium deficiencies annually. We have recently experienced elevated claim experience for a portion of our long-term care insurance products, which may result in a deficiency in reserves plus future premiums compared to future benefit payments. Should such a deficiency exist, we would record a charge to earnings in the second half of 2017 upon completion of this review. See Note 11 of the consolidated financial statements for further information.

30 2017 2Q FORM 10-Q

SEGMENT
MD&A OPERATIONS
| CAPITAL

COMMENTARY:
2017 - 2016

THREE MONTHS

Capital revenues decreased \$0.3 billion, or 12%, primarily due to higher impairments, organic revenue declines, and lower gains.

Capital losses decreased \$0.4 billion, or 71%, primarily due to lower treasury and headquarters operation expenses associated with the GE Capital Exit plan.

- Within Capital, Verticals net earnings increased \$0.1 billion, or 20%, due to core increases (\$0.1 billion), partially offset by lower gains.

- Other Capital losses decreased \$0.3 billion, or 32%, primarily associated with the GE Capital Exit Plan as follows:

- Lower headquarters operation expenses of \$0.2 billion

- Lower treasury operation expenses of \$0.1 billion reflecting lower excess interest expense, including costs associated with the May 2016 debt tender and derivative activities that reduce or eliminate interest rate, currency or market risk between financial assets and liabilities.

SIX MONTHS

Capital revenues decreased \$0.5 billion, or 9%, primarily due to organic revenue declines, lower gains and higher impairments.

Capital losses decreased \$1.3 billion, or 85%, primarily due to lower treasury and headquarters operation expenses, lower preferred dividend expenses, and lower restructuring expenses associated with the GE Capital Exit Plan.

- Within Capital, Verticals net earnings increased \$0.1 billion, or 14%, due to core increases (\$0.2 billion) and lower impairments (\$0.1 billion), partially offset by lower gains (\$0.1 billion).

- Other Capital losses decreased \$1.1 billion, or 47%, primarily associated with the GE Capital Exit Plan as follows:

- Lower treasury operation expenses of \$0.5 billion reflecting lower excess interest expense, including costs associated with the February and May 2016 debt tenders and derivative activities that reduce or eliminate interest rate, currency or market risk between financial assets and liabilities.

- Lower headquarters operation expenses of \$0.4 billion.

- Lower preferred dividend expenses of \$0.2 billion associated with the January 2016 preferred equity exchange.

2017 - 2016 COMMENTARY: THREE MONTHS ENDED JUNE 30

Revenues and other income decreased \$3.0 billion, primarily as a result of:

- \$3.1 billion of lower gains due to the nonrecurrence of the sale of our Appliances business to Haier in the second quarter of 2016.

Operating costs increased \$2.6 billion, primarily as a result of:

- \$3.1 billion of lower gains due to the nonrecurrence of the sale of our Appliances business to Haier in the second quarter of 2016, and

- \$0.1 billion of higher costs associated with our principal retirement plans, including the effects of lower discount rates.

These increases to operating costs were partially offset by the following:

- \$0.5 billion of lower restructuring and other charges, and

- \$0.1 billion of lower corporate structural costs.

*Non-GAAP Financial Measure

32 2017 2Q FORM 10-Q

CORPORATE
MD&A ITEMS AND
ELIMINATIONS

2017 - 2016 COMMENTARY: SIX MONTHS ENDED JUNE 30

Revenues and other income decreased \$3.2 billion, primarily as a result of:

\$3.2 billion of lower gains due to the nonrecurrence of a \$3.1 billion gain from the sale of our Appliances business to Haier in the second quarter of 2016 and a \$0.1 billion gain from the sale of two floors in 30 Rockefeller Plaza, New York City in the first quarter of 2016.

Operating costs increased \$3.0 billion, primarily as a result of:

\$3.2 billion of lower gains due to the nonrecurrence of a \$3.1 billion gain from the sale of our Appliances business to Haier in the second quarter of 2016 and a \$0.1 billion gain from the sale of two floors in 30 Rockefeller Plaza, New York City in the first quarter of 2016, and
\$0.1 billion of higher costs associated with our principal retirement plans, including the effects of lower discount rates.

These increases to operating costs were partially offset by the following:

\$0.2 billion of lower corporate structural costs, and
\$0.1 billion of lower restructuring and other charges.

RESTRUCTURING

Restructuring actions are an essential component of our cost improvement efforts to both existing operations and those recently acquired. Restructuring and other charges relate primarily to workforce reductions, facility exit costs associated with the consolidation of sales, service and manufacturing facilities, the integration of recent acquisitions, including Alstom, and other asset write-downs. We continue to closely monitor the economic environment and may undertake further restructuring actions to more closely align our cost structure with earnings and cost reduction goals.

RESTRUCTURING & OTHER CHARGES

Other	—	0.1	0.1	0.2
Total	\$0.7	\$1.2	\$1.7	\$1.9

2017 - 2016 COMMENTARY: THREE MONTHS ENDED JUNE 30

For the three months ended June 30, 2017, restructuring and other charges were \$0.7 billion of which approximately \$0.4 billion was reported in cost of products/services and \$0.3 billion was reported in selling, general and administrative expenses (SG&A). These activities were primarily at Corporate, Oil & Gas and Renewable Energy. Cash expenditures for restructuring and other charges were approximately \$0.4 billion for three months ended June 30, 2017.

Edgar Filing: GENERAL ELECTRIC CO - Form 10-Q

For the three months ended June 30, 2016, restructuring and other charges were \$1.2 billion of which approximately \$0.8 billion was reported in cost of products/services and \$0.4 billion was reported in SG&A. These activities were primarily at Oil & Gas, Power and Healthcare. Cash expenditures for restructuring and other charges were approximately \$0.3 billion for the three months ended June 30, 2016.

2017 - 2016 COMMENTARY: SIX MONTHS ENDED JUNE 30

For the six months ended June 30, 2017, restructuring and other charges were \$1.7 billion of which approximately \$1.1 billion was reported in cost of products/services and \$0.6 billion was reported in SG&A. These activities were primarily at Power, Corporate and Energy Connections & Lighting. Cash expenditures for restructuring and other charges were approximately \$1.0 billion for six months ended June 30, 2017.

For the six months ended June 30, 2016, restructuring and other charges were \$1.9 billion of which approximately \$1.2 billion was reported in cost of products/services and \$0.6 billion was reported in SG&A. These activities were primarily at Oil & Gas, Power and Healthcare. Cash expenditures for restructuring and other charges were approximately \$0.7 billion for the six months ended June 30, 2016.

MD&A CONSOLIDATED
INFORMATION

OTHER CONSOLIDATED INFORMATION

INCOME TAXES

GE pays the income taxes it owes in every country it does business. Many factors impact our income tax expense and cash tax payments. The most significant factor is that we conduct business in approximately 180 countries and more than half of our revenue is earned outside the U.S., often in countries with lower tax rates than in the U.S. We reinvest most of our foreign earnings overseas to be able to fund our active non-U.S. business operations. Our tax liability is also affected by U.S. and foreign tax incentives designed to encourage certain investments, such as research and development, and by acquisitions, dispositions and tax law changes. Finally, our tax returns are routinely audited, and settlements of issues raised in these audits sometimes affect our tax rates.

GE and GE Capital file a consolidated U.S. federal income tax return. This enables GE and GE Capital to use tax deductions and credits of one member of the group to reduce the tax that otherwise would have been payable by another member of the group. The effective tax rate reflects the benefit of these tax reductions in the consolidated return. GE makes cash payments to GE Capital for tax reductions and GE Capital pays for tax increases at the time GE's tax payments are due.

See Other Consolidated Information - Income Taxes section and Critical Accounting Estimates - Income Taxes section within MD&A in our Annual Report on Form 10-K for the year ended December 31, 2016 for further information on income taxes.

CONSOLIDATED – THREE AND SIX MONTHS ENDED JUNE 30

(Dollars in billions)

PROVISION (BENEFIT) FOR INCOME TAXES

2017 – 2016 COMMENTARY: THREE MONTHS ENDED JUNE 30

- The consolidated income tax rate was 1% and 12% for the quarters ended June 30, 2017 and 2016, respectively.
 - The second quarter 2017 consolidated tax rate reflects a 104% tax rate on \$0.2 billion of pre-tax loss at GE Capital and a 13% tax rate on \$1.7 billion of pre-tax income at GE.
 - The second quarter 2016 consolidated tax rate reflects a 27% tax rate on \$0.6 billion of pre-tax loss at GE Capital and a 14% tax rate on \$4.4 billion of pre-tax income at GE.
 - The consolidated tax provision includes \$0.2 billion and \$0.6 billion for GE (excluding GE Capital) for the second quarters of 2017 and 2016, respectively.
- Consolidated income tax expense was insignificant in the second quarter of 2017 and \$0.5 billion for the second quarter of 2016. The decrease in tax expense is primarily due to the decrease in pre-tax income taxed at above the average tax rate primarily from the non-repeat of the Appliances disposition and a larger benefit from global activities, partially offset by a smaller adjustment in the second quarter of 2017 compared to the second quarter of 2016 to bring the tax rate in-line with the lower projected full-year rate and the non-repeat of deductible stock loss.

OTHER
MD&A CONSOLIDATED
INFORMATION

2017 – 2016 COMMENTARY: SIX MONTHS ENDED JUNE 30

• The consolidated tax rate was 1% in the first six months of 2017 compared to 7% in the first six months of 2016. The first six months of 2017 consolidated tax rate reflects a 99% tax rate on \$0.3 billion of pre-tax loss at GE Capital and a 14% tax rate on \$2.7 billion of pre-tax income at GE.

• The first six months of 2016 consolidated tax rate reflects a 32% tax rate on \$1.6 billion of pre-tax loss at GE Capital and a 14% tax rate on \$5.6 billion of pre-tax income at GE.

• The consolidated tax provision includes \$0.4 billion and \$0.8 billion for GE (excluding GE Capital) for the first six months of 2017 and 2016, respectively.

Consolidated income tax expense was insignificant for the first six months of 2017 compared to \$0.3 billion for the first six months of 2016. The decrease in tax expense is primarily due to the decrease in pre-tax income taxed at above the average tax rate primarily from the non-repeat of the Appliances disposition and a larger benefit from global activities. This decrease was partially offset by the adjustment to increase the 2017 year-to-date rate to be in-line with the higher projected full-year rate compared to the decrease in the 2016 year-to-date rate to be in-line with the lower projected full-year rate and the non-repeat of deductible stock loss.

The effective tax rate in future periods is expected to increase as a result of changes in our income profile due to changes in GE Capital earnings as we continue to execute on the GE Capital Exit Plan. We expect the GE effective tax rate excluding GE Capital earnings to be approximately 10% for the full year of 2017.

See Note 13 to the consolidated financial statements for additional information related to income taxes.

BENEFITS FROM GLOBAL OPERATIONS

Our consolidated income tax provision is reduced because of the benefits of lower-taxed global operations. There is a benefit from global operations as non-U.S. income is subject to local country tax rates that are significantly below the 35% U.S. statutory rate. These non-U.S. earnings have been indefinitely reinvested outside the U.S. and are not subject to current U.S. income tax. Most of these earnings have been reinvested in active non-U.S. business operations and we do not intend to repatriate these earnings to fund U.S. operations. The rate of tax on our indefinitely reinvested non-U.S. earnings is below the 35% U.S. statutory tax rate because we have significant business operations subject to tax in countries where the tax on that income is lower than the U.S. statutory rate and because GE funds certain non-U.S. operations through foreign companies that are subject to low foreign taxes.

A substantial portion of the benefit related to business operations subject to tax in countries where the tax on that income is lower than the U.S. statutory rate is derived from our GECAS aircraft leasing operations located in Ireland where the earnings are taxed at 12.5%, from our Power operations located in Switzerland and Hungary where the earnings are taxed at between 9% and 18.6%, and our Healthcare operations in Europe where tax deductions are allowed for certain intangible assets and earnings are taxed below the U.S. statutory rate.

We expect our ability to benefit from non-U.S. income taxed at less than the U.S. rate to continue, subject to changes in U.S. or foreign law. In addition, since this benefit depends on management's intention to indefinitely reinvest amounts outside the U.S., our tax provision will increase to the extent we no longer indefinitely reinvest foreign earnings.

DISCONTINUED OPERATIONS

Discontinued operations primarily relate to our financial services businesses as a result of the GE Capital Exit Plan and includes our U.S. mortgage business (WMC). All of these operations were previously reported in the Capital segment.

See Notes 2 and 18 to the consolidated financial statements for additional information related to discontinued operations.

36 2017 2Q FORM 10-Q

STATEMENT
OF
MD&A FINANCIAL
POSITION

STATEMENT OF FINANCIAL POSITION

Because GE and GE Capital share certain significant elements of their Statements of Financial Position, the following discussion addresses significant captions in the consolidated statement. Within the following discussions, however, we distinguish between GE and GE Capital activities in order to permit meaningful analysis of each individual consolidating statement.

MAJOR CHANGES IN OUR FINANCIAL POSITION FOR THE SIX MONTHS ENDED
JUNE 30, 2017

Cash and equivalents decreased \$4.1 billion. GE Cash and equivalents increased \$3.7 billion due to the issuance of long-term debt, primarily to fund acquisitions, of \$8.6 billion, long-term intercompany loans from GE Capital of \$4.1 billion and common dividends from GE Capital of \$4.0 billion. The increase was partially offset by payments of dividends to shareowners of \$4.2 billion, treasury stock net purchases of \$2.7 billion (cash basis), business acquisitions of \$2.6 billion, net PP&E additions of \$1.4 billion, the settlement of the remaining portion of a 2016 short-term loan from GE Capital of \$1.3 billion and cash used for industrial operating activities of \$0.4 billion. GE Capital Cash and equivalents decreased \$7.8 billion primarily driven by \$13.0 billion net repayments of debt, \$4.2 billion in payments of dividends to shareowners, long-term intercompany loans to GE of \$4.1 billion, partially offset by \$5.0 billion in maturities of liquidity investments, \$2.8 billion in net collections of financing receivables, \$2.2 billion related to cash collections from discontinued operations, \$1.8 billion of proceeds from borrowings assumed by the buyer in a business disposition and \$1.3 billion settlement of the remaining portion of a 2016 short-term loan to GE. See the Statement of Cash Flows section for additional information.

Investment securities decreased \$4.3 billion, primarily due to maturities of liquidity portfolio investments at GE Capital. See Note 3 to the consolidated financial statements for additional information.

Contract assets increased \$3.8 billion, primarily due to adjustments driven by lower forecasted cost to complete the contracts and timing of billings relative to revenue recognition on our long-term equipment and service contracts.

Assets of businesses held for sale increased \$2.4 billion, primarily due to the classification of our Industrial Solutions business, within our Energy Connections & Lighting segment, as held for sale in the first quarter of 2017. See Note 2 to the consolidated financial statements for additional information.

Assets of discontinued operations decreased \$7.0 billion, primarily due to the disposition of businesses at GE Capital. See Note 2 to the consolidated financial statements for additional information.

Borrowings decreased \$1.8 billion, primarily due to net repayment of debt at GE Capital of \$13.0 billion, partially offset by the issuance of long-term debt at GE of \$8.6 billion, primarily to fund acquisitions, and the effects of currency exchange of \$2.5 billion. See Note 10 to the consolidated financial statements for additional information.

Liabilities of discontinued operations decreased \$3.2 billion, primarily driven by the disposition of businesses at GE Capital. See Note 2 to the consolidated financial statements for additional information.

Common stock held in treasury increased \$2.6 billion, primarily due to treasury stock purchases of \$3.6 billion (book basis), partially offset by treasury stock issuances of \$1.0 billion.

FINANCIAL
RESOURCES
AND
LIQUIDITY

FINANCIAL RESOURCES AND LIQUIDITY

LIQUIDITY AND BORROWINGS

We maintain a strong focus on liquidity. At both GE and GE Capital we manage our liquidity to help provide access to sufficient funding to meet our business needs and financial obligations throughout business cycles.

Our liquidity and borrowing plans for GE and GE Capital are established within the context of our annual financial and strategic planning processes. At GE, our liquidity and funding plans take into account the liquidity necessary to fund our operating commitments, which include primarily purchase obligations for inventory and equipment, payroll and general expenses (including pension funding). We also take into account our capital allocation and growth objectives, including paying dividends, repurchasing shares, investing in research and development and acquiring industrial businesses. At GE, we rely primarily on cash generated through our operating activities, any dividend payments from GE Capital, and also have historically maintained a commercial paper program, with a balance of \$2 billion at June 30, 2017, that we regularly use to fund operations in the U.S., principally within the quarters. In addition, as part of our liquidity management process, GE and GE Capital may periodically enter into short-term intercompany loans which are repaid within the same quarter.

As part of GE's previously formulated and communicated plan to incur new long-term debt primarily to fund acquisitions, during the second quarter of 2017, GE completed issuances of €8,000 million senior unsecured debt, composed of €1,750 million of 0.375% Notes due 2022, €2,000 million of 0.875% Notes due 2025, €2,250 million of 1.50% Notes due 2029 and €2,000 million of 2.125% Notes due 2037. During the first quarter of 2017, GE and GE Capital entered into a series of intercompany loans totaling \$4.1 billion, which utilized a portion of GE Capital's excess unsecured term debt. Such intercompany loans collectively have a weighted average interest rate and term of 3.6% and approximately 15 years, respectively. The remaining \$1.3 billion short-term intercompany loan balance at December 31, 2016 was paid by GE in January 2017.

Based on asset and liability management actions we have taken, GE Capital does not plan to issue any incremental GE Capital senior unsecured term debt until 2019. GE Capital's global commercial paper balance totaled \$5.0 billion at June 30, 2017. GE Capital mainly relies on excess cash positions, cash generated through dispositions, and the cash flow from our Verticals to fund our debt maturities, including the current portion of long-term debt (\$17.8 billion at June 30, 2017), and our operating and interest costs. GE Capital's liquidity position is targeted to meet its obligations under both normal and stressed conditions. We expect to maintain an elevated liquidity position as we generate cash from asset sales, returning to more normalized levels in 2019. During this period we expect to continue to have excess interest costs as asset sales have outpaced our debt maturities. While we maintain elevated liquidity levels, we may engage in liability management actions, such as buying back debt, based on market and economic conditions in order to reduce our excess interest costs.

We maintain a detailed liquidity policy for GE Capital that defines GE Capital's liquidity risk tolerance under stress based on its liquidity sources, and a comprehensive framework for managing liquidity risk including metrics to identify and monitor liquidity risk and procedures to escalate and address potential issues.

In 2015, senior unsecured notes and commercial paper were assumed by GE upon its merger with GE Capital resulting in an intercompany receivable and payable between GE and GE Capital. On the GE balance sheet, assumed debt is presented within borrowings with an offsetting receivable from GE Capital and on the GE Capital balance

Edgar Filing: GENERAL ELECTRIC CO - Form 10-Q

sheet, this is reflected as an intercompany payable to GE within borrowings. The intercompany receivable and payable are further reduced by certain intercompany loans from GE Capital to GE, which bear the right of offset against amounts owed under the assumed debt agreement (see Note 10 for additional information). The following table illustrates total GE and GE Capital external debt and debt assumed by GE as of June 30, 2017.

June 30, 2017 (in billions)	GE	GE Capital	Consolidated(a)
External debt	\$81.9	\$54.7	\$ 134.4
Debt assumed by GE from GE Capital	(52.3)	52.3	—
Intercompany loans	4.1	(4.1)	—
Total intercompany payable (receivable) between GE and GE Capital	(48.2)	48.2	—
Debt adjusted for assumed debt and intercompany loans	\$33.7	\$102.9	\$ 134.4
(a) Includes \$2.2 billion elimination of other intercompany borrowings between GE and GE Capital.			

38 2017 2Q FORM 10-Q

FINANCIAL
RESOURCES
MD&A AND
LIQUIDITY

LIQUIDITY SOURCES

In addition to GE cash of \$14.2 billion at June 30, 2017, GE Capital maintained liquidity sources of \$36.9 billion that consisted of cash and equivalents of \$29.8 billion, high-quality investments of \$6.5 billion and cash and equivalents of \$0.5 billion classified as discontinued operations. Additionally, at June 30, 2017, GE has \$20.0 billion of committed unused credit lines extended by 36 banks in a syndicated credit facility agreement, as well as \$5.2 billion of committed operating lines extended by nine banks. GE Capital has the right to compel GE to borrow under these credit lines and transfer the proceeds as loans to GE Capital.

CASH AND EQUIVALENTS

(In billions)	June 30, 2017	June 30, 2017
---------------	------------------	------------------

GE(a)	\$ 14.2	U.S.	\$ 9.8
-------	---------	------	--------

GE Capital(b)	29.8	Non-U.S.(c)	34.3
---------------	------	-------------	------

(a) At June 30, 2017, \$4.4 billion of GE cash and equivalents was held in countries with currency controls that may restrict the transfer of funds to the U.S. or limit our ability to transfer funds to the U.S. without incurring substantial costs. These funds are available to fund operations and growth in these countries and we do not currently anticipate a need to transfer these funds to the U.S.

(b) At June 30, 2017, GE Capital cash and equivalents of about \$0.4 billion were primarily in insurance entities and were subject to regulatory restrictions.

(c) Of this amount at June 30, 2017, \$4.8 billion is held outside of the U.S. and is available to fund operations and other growth of non-U.S. subsidiaries; it is also available to fund our needs in the U.S. on a short-term basis through short-term loans, without being subject to U.S. tax. Under the Internal Revenue Code, these loans are permitted to be outstanding for 30 days or less and the total of all such loans is required to be outstanding for less than 60 days during the year. If we were to repatriate this cash, we would be subject to additional U.S. income taxes and foreign withholding taxes.

COMMERCIAL PAPER

(In billions)	GE	GE Capital
Average commercial paper borrowings during the second quarter of 2017	\$16.0	\$ 5.0
Maximum commercial paper borrowings outstanding during the second quarter of 2017	19.6	5.1

GE Capital commercial paper maturities have historically been funded principally through new commercial paper issuances and at GE are substantially repaid before quarter-end using indefinitely reinvested overseas cash, which as discussed above, is available for use in the U.S. on a short-term basis without being subject to U.S. tax.

We securitize financial assets as an alternative source of funding. At June 30, 2017, consolidated non-recourse securitization borrowings were \$0.7 billion.

FOREIGN CURRENCY

As a result of our global operations, we generate and incur a significant portion of our revenues and expenses in currencies other than the U.S. dollar. Such principal currencies are euro, the pound sterling, the Brazilian real and the Chinese renminbi. The results of operating entities reported in currencies other than U.S. dollar are translated to the U.S. dollar at the applicable exchange rate for inclusion in the financial statements. We use a number of techniques to manage the effects of currency exchange, including selective borrowings in local currencies and selective hedging of significant cross-currency transactions. The foreign currency effect arising from operating activities outside of the U.S., including the remeasurement of derivatives, can result in significant transactional foreign currency fluctuations at points in time, but will generally be offset as the underlying hedged item is recognized in earnings. The effects of foreign currency fluctuations, decreased net earnings by \$0.1 billion for the six months ended June 30, 2017.

See Notes 16 and 21 to the consolidated financial statements for further information about our risk exposures, our use of derivatives, and the effects of this activity on our financial statements.

STATEMENT OF CASH FLOWS - SIX MONTHS ENDED JUNE 30, 2017 VERSUS 2016

CONSOLIDATED CASH FLOWS

We evaluate our cash flow performance by reviewing our industrial (non-GE Capital) businesses and GE Capital businesses separately. Cash from operating activities (CFOA) is the principal source of cash generation for our industrial businesses.

GE CASH FLOWS – SIX MONTHS ENDED JUNE 30
(in billions)

OPERATING	INVESTING	FINANCING
CASH	CASH	CASH
FLows	FLows	FLows

2016 2017 2016 2017 2016 2017

With respect to GE CFOA, we believe that it is useful to supplement our GE Statement of Cash Flows and to examine in a broader context the business activities that provide and require cash.

The most significant source of cash in GE CFOA is customer-related activities, the largest of which is collecting cash resulting from product or services sales. The most significant operating use of cash is to pay our suppliers, employees, tax authorities and others for a wide range of material and services. Dividends from GE Capital represent the distribution of a portion of GE Capital retained earnings, and are distinct from cash from continuing operations within the GE Capital businesses.

All other operating activities reflect cash sources and uses as well as non-cash adjustments to net income including those related to taxes, interest, pension, contract assets and gains (losses) on principal business dispositions. See Note 21 to the consolidated financial statements for further information.

See the Intercompany Transactions between GE and GE Capital section within the MD&A and Notes 4 and 19 to the consolidated financial statements for further information regarding certain transactions affecting our consolidated Statement of Cash Flows.

FINANCIAL
RESOURCES
MD&A AND
LIQUIDITY

2017 – 2016 COMMENTARY

GE cash from operating activities decreased \$7.2 billion primarily due to the following:

• GE Capital paid common dividends to GE totaling \$4.0 billion in 2017 compared to \$11.0 billion in 2016.

• Cash used for industrial operating activities amounted to \$0.4 billion and \$0.2 billion in 2017 and 2016, respectively, primarily due to the following:

• Net income plus depreciation and deferred income taxes of \$3.4 billion in 2017 compared to \$6.6 billion in 2016, which included an after-tax gain of \$1.8 billion from the sale of Appliances.

• Cash used for working capital of \$0.6 billion and \$1.9 billion in 2017 and 2016, respectively. The decrease was primarily due to reduction in inventory build, partially offset by an increase in cash used for accounts payable.

• An increase in contract assets of \$3.2 billion and \$2.4 billion in 2017 and 2016, respectively, primarily due to adjustments driven by lower forecasted cost to complete the contracts and timing of billings relative to revenue recognition on our long-term equipment and service contracts.

• See Note 21 to the consolidated financial statements for further information regarding cash sources and uses as well as non-cash adjustments to net income reported as All other operating activities.

GE cash used for investing activities increased \$6.9 billion primarily due to the following:

• Business acquisition activities of \$2.6 billion, primarily driven by the acquisition of LM Wind Power for \$1.6 billion (net of cash acquired) and ServiceMax for \$0.9 billion (net of cash acquired) in 2017.

• The sale of our Appliances business for proceeds of \$4.8 billion in 2016.

• This is partially offset by the funding of a joint venture at our Aviation business of \$0.3 billion in 2016.

GE cash from financing activities increased \$17.8 billion primarily due to the following:

• Net repurchases of GE treasury shares of \$2.7 billion and \$14.3 billion in 2017 and 2016, respectively.

• A net increase in borrowings of \$11.7 billion in 2017, mainly driven by the issuance of long-term debt of \$8.6 billion, primarily to fund acquisitions, and long-term loans from GE Capital to GE of \$4.1 billion, partially offset by the settlement of the remaining portion of a 2016 short-term loan from GE Capital to GE of \$1.3 billion, compared to a net increase in borrowings of \$5.5 billion in 2016, primarily driven by a short-term loan from GE Capital to GE of \$5.0 billion.

MD&A AND
LIQUIDITY

2017 – 2016 COMMENTARY-CONTINUING OPERATIONS:

GE Capital cash from operating activities-continuing operations increased \$1.5 billion primarily due to the following:
• Lower income tax payments of \$1.1 billion and a general increase in cash generated from earnings of continuing operations.

• These increases were partially offset by a net decrease in cash collateral received from counterparties on derivative contracts of \$0.5 billion.

GE Capital cash from investing activities-continuing operations decreased \$29.5 billion primarily due to the following:

• Net proceeds from the sales of our discontinued operations of \$0.8 billion in 2017 compared to \$42.9 billion in 2016.

• Investments and maturities of \$6.8 billion related to interest bearing deposits reflecting maturities of \$10.4 billion and investments of \$3.6 billion in 2016.

• Net cash received from derivative settlements of \$0.1 billion in 2017 compared to \$1.0 billion in 2016.

• These decreases were partially offset by the following increases:

• Investment securities of \$10.7 billion related to investments of \$5.7 billion in 2016 and maturities of \$5.0 billion in 2017.

• Long-term loans from GE Capital to GE of \$4.1 billion, partially offset by the settlement of the remaining portion of a 2016 short-term loan from GE Capital to GE of \$1.3 billion in 2017 compared to a short-term loan from GE Capital to GE of \$5.0 billion in 2016.

• Higher net collections of financing receivables of \$1.6 billion in 2017.

• A general reduction in funding related to discontinued operations.

GE Capital cash used for financing activities-continuing operations decreased \$37.9 billion primarily due to the following:

• Lower net repayments of borrowings of \$13.0 billion compared to \$44.5 billion in 2016.

• GE Capital paid common dividends to GE totaling \$4.0 billion compared to \$11.0 billion in 2016.

2017 – 2016 COMMENTARY-DISCONTINUED OPERATIONS:

GE Capital cash used for operating activities-discontinued operations decreased \$4.0 billion primarily due to the following:

• Lower cash paid for income taxes in 2017.

GE Capital cash used for investing activities-discontinued operations decreased \$8.7 billion primarily due to the following:

• The sale of bank deposits of \$16.5 billion resulting in net cash paid in conjunction with the sale of GE Capital Bank's U.S. online deposit platform during 2016.

Reduction in funding from continuing operations (primarily our treasury operations).

Sale of bank deposits for \$0.5 billion resulting in net cash paid related to our Consumer platform during 2017.

42 2017 2Q FORM 10-Q

FINANCIAL
RESOURCES
MD&A AND
LIQUIDITY

GE Capital cash from financing activities-discontinued operations increased \$2.6 billion primarily due to the following:

- Debt issued of \$1.8 billion by a discontinued business sold during the first quarter of 2017.
- Lower repayment of borrowings and bank deposit activity of \$0.7 billion.

INTERCOMPANY TRANSACTIONS BETWEEN GE AND GE CAPITAL

We are repositioning GE to be the world's best infrastructure and technology company, with a smaller financial services division. Our focus is on driving infrastructure leadership, investing in innovation and achieving a culture of simplification to better serve our customers around the world. Over the last decade, we have made significant strides in transforming our portfolio and focusing on our industrial leadership. We have grown our infrastructure platforms with major portfolio moves, investing in adjacencies and pursuing opportunities that are closely related to our core.

In parallel, we have made a concentrated effort to reduce the size of our GE Capital business and align its growth with Industrial earnings. As a result, GE Capital Verticals are now focused on investing financial, human and intellectual capital to promote growth for our industrial businesses and their customers. GE Capital accomplishes this in part through related party transactions with GE that are made on an arms-length basis and are reported in the respective GE and GE Capital columns of our financial statements, but are eliminated in deriving our consolidated financial statements. These transactions include, but are not limited to, the following:

- GE Capital dividends to GE,
- GE Capital working capital solutions to optimize GE cash management,
- GE Capital enabled GE industrial orders, and
- Aircraft engines, power equipment, renewable energy equipment and healthcare equipment manufactured by GE that are installed on GE Capital investments, including leased equipment.

In addition to the above transactions that primarily enable growth for the GE businesses, there are routine related party transactions, which include, but are not limited to, the following:

- Expenses related to parent-subsidiary pension plans,
- Buildings and equipment leased between GE and GE Capital, including sale-leaseback transactions,
- Information technology (IT) and other services sold to GE Capital by GE
- Settlements of tax liabilities, and
- Various investments, loans and allocations of GE corporate overhead costs.

CASH FLOWS

GE Capital paid \$4.0 billion and \$11.0 billion of common dividends to GE in the six months ended June 30, 2017 and 2016, respectively.

In order to manage credit exposure, GE sells current receivables to GE Capital and other third parties in part to fund the growth of our industrial businesses. These transactions can result in cash generation or cash use. During any given period, GE receives cash from the sale of receivables to GE Capital and other third parties. GE also leverages GE Capital for its expertise in receivables collection services and sales of receivables to GE Capital are made on an arm's length basis. The incremental amount of cash received from sales of receivables represents the cash generated or used

in the period relating to this activity. The effect of cash generated in GE CFOA from current receivables sold to GE Capital, including current receivables subsequently sold to third parties, decreased GE's CFOA by \$2.5 billion and \$2.0 billion in the six months ended June 30, 2017 and 2016, respectively.

As of June 30, 2017, GE Capital had approximately \$10.6 billion recorded on its balance sheet related to current receivables purchased from GE. Of these amounts, approximately half had been sold by GE to GE Capital with recourse (i.e., the GE business retains the risk of default). The evaluation of whether recourse transactions qualify for accounting derecognition is based, in part, upon the legal jurisdiction of the sale; as such, the majority of recourse transactions outside the U.S. qualify for sale treatment. Claims by GE Capital on receivables sold with recourse to GE have not been significant for the six months ended June 30, 2017 and 2016.

In December 2016, GE Capital entered into a Receivables Facility with members of a bank group, designed to provide extra liquidity to GE. The Receivables Facility allows us to sell eligible current receivables on a non-recourse basis for cash and a deferred purchase price to members of the bank group. The purchase commitment of the bank group remains at \$3.0 billion at June 30, 2017. See Note 4 to the consolidated financial statements for further information.

FINANCIAL
RESOURCES
MD&A AND
LIQUIDITY

ENABLED ORDERS

Enabled orders represent the act of introducing, elevating and influencing customers and prospects that result in an industrial sale, potentially coupled with programmatic captive financing or driving incremental products or services across the GE Store. During the six months ended June 30, 2017 and 2016, GE Capital enabled \$6.1 billion and \$4.0 billion of GE industrial orders, respectively. 2017 orders are primarily with our Power (\$2.7 billion), Renewable Energy (\$1.9 billion), Healthcare (\$0.6 billion) and Oil & Gas (\$0.5 billion) and businesses.

AVIATION

During the six months ended June 30, 2017 and 2016, GE Capital acquired 22 aircraft (list price totaling \$3.1 billion) and 19 aircraft (list price totaling \$2.2 billion), respectively, from third parties that will be leased to others, which are powered by engines that were manufactured by GE Aviation and affiliates. Additionally, GE Capital had \$1.5 billion of net book value of engines, originally manufactured by GE Aviation and affiliates and subsequently leased back to GE Aviation and affiliates at both June 30, 2017 and December 31, 2016.

POWER, RENEWABLE ENERGY AND AVIATION

GE leverages GE Capital for its expertise in structuring long-term financing arrangements with certain Power, Renewable Energy and Aviation customers for the purchase of equipment, upgrades and long-term service contracts. These arrangements are made on an arm's length basis and fair value adjustments are recognized within the results of our Power, Renewable Energy and Aviation segments. Any associated deferred income recorded by GE Capital is eliminated in our consolidated results. In relation to these arrangements, GE Capital had approximately \$2.1 billion and \$1.9 billion of long-term financing receivables outstanding, net of deferred income of approximately \$0.3 billion and \$0.3 billion reported on its balance sheet at June 30, 2017 and December 31, 2016, respectively. The effect of cash generated in GE CFOA from long-term financing arrangements with GE Capital increased GE's CFOA by \$0.3 billion and \$0.5 billion in the six months ended June 30, 2017 and 2016, respectively.

PENSIONS

GE Capital is a member of certain GE Pension Plans. As a result of the GE Capital Exit Plan, GE Capital will have additional funding obligations for these pension plans. These obligations do not relate to the Verticals and are recognized as an expense in GE Capital's other continuing operations when they become probable and estimable. The additional funding obligations recognized by GE Capital were \$0.1 billion and \$0.3 billion for the three and six months ended June 30, 2017, respectively, and \$0.1 billion and \$0.3 billion for the three and six months ended June 30, 2016, respectively.

Certain of this additional funding is recorded as a contra pension expense for GE because GE's related future pension obligations will be paid by GE Capital. For certain other pension plan funding obligations triggered by the GE Capital Exit Plan, GE agreed to assume the funding obligation that would have been triggered by GE Capital at the date of exit from the plan in exchange for an assumption fee that GE recorded as Other income. There was no cash transferred to GE for the assumption of these GE Capital funding obligations for the three and six months ended June 30, 2017. The total cash transferred for similar funding obligations assumed by GE from GE Capital for the three and six months ended June 30, 2016 were zero and \$0.1 billion, respectively.

On a consolidated basis, the additional required pension funding and any related assumption fees do not affect current period earnings. Any additional required pension funding will be reflected as a reduction of the pension liability when paid.

GE GUARANTEE OF GE CAPITAL THIRD-PARTY TRANSACTIONS

In certain instances, GE provides guarantees to GE Capital transactions with third parties primarily in connection with enabled orders. In order to meet its underwriting criteria, GE Capital may obtain a direct guarantee from GE related to the performance of the third party. GE guarantees can take many forms and may include, but not be limited to, direct performance or payment guarantees, return on investment guarantees, asset value guarantees and loss pool arrangements. As of June 30, 2017, GE had outstanding guarantees to GE Capital on \$1.3 billion of funded exposure and \$0.1 billion of unfunded commitments. The recorded amount of these contingent liabilities was \$0.1 billion as of June 30, 2017 and is dependent upon individual transaction level defaults, losses and/or returns.

GE GUARANTEE OF CERTAIN GE CAPITAL DEBT

GE provides implicit and explicit support to GE Capital through commitments, capital contributions and operating support. As previously discussed, debt assumed by GE from GE Capital in connection with the merger of GE Capital into GE was \$52.3 billion, and GE guaranteed \$44.1 billion of GE Capital debt at June 30, 2017. See Notes 10 and 20 to the consolidated financial statements for additional information.

CRITICAL
MD&A ACCOUNTING
ESTIMATES

CRITICAL ACCOUNTING ESTIMATES

We utilized significant estimates in the preparation of the second quarter financial statements.

Please refer to the Critical Accounting Estimates section within MD&A and Note 1, Basis of Presentation and Summary of Significant Accounting Policies, to the consolidated financial statements of our Form 10-K Report filed on February 24, 2017, for a discussion of our accounting policies and the critical accounting estimates we use to: recognize revenue on long-term product services agreements; assess the recoverability of assets such as financing receivables and goodwill; determine the fair value of financial assets; and determine our provision for income taxes and recoverability of deferred tax assets.

2017 2Q FORM 10-Q 45

MD&A OTHER ITEMS

OTHER ITEMS

NEW ACCOUNTING STANDARDS

ASU NO. 2016-16, ACCOUNTING FOR INCOME TAXES: INTRA-ENTITY TRANSFERS OF ASSETS OTHER THAN INVENTORY

In October 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2016-16, Accounting for Income Taxes: Intra-Entity Asset Transfers of Assets Other than Inventory. The ASU eliminates the deferral of the tax effects of intra-entity asset transfers other than inventory. As a result, the tax expense from the intercompany sale of assets, other than inventory, and associated changes to deferred taxes will be recognized when the sale occurs even though the pre-tax effects of the transaction have not been recognized. The effect of the adoption of the standard will depend on the nature and amount of future transactions.

ASU NO. 2016-02, LEASES

In February 2016, the FASB issued ASU No. 2016-02, Leases. The new standard establishes a right-of-use (ROU) model that requires a lessee to record a ROU asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition. Similarly, lessors will be required to classify leases as sales-type, finance or operating, with classification affecting the pattern of income recognition. Classification for both lessees and lessors will be based on an assessment of whether risks and rewards as well as substantive control have been transferred through a lease contract. The new standard is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years, with early adoption permitted. A modified retrospective transition approach is required for leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements, with certain practical expedients available. While we continue to evaluate the effect of the standard on our ongoing financial reporting, we anticipate that the adoption of the ASU may materially affect our Statement of Financial Position.

ASU NO. 2014-09, REVENUE FROM CONTRACTS WITH CUSTOMERS

In May 2014, the FASB issued a new comprehensive set of revenue recognition principles (ASU No. 2014-09, Revenue from Contracts with Customers) that supersedes most existing U.S. GAAP revenue recognition guidance (including ASC 605-35, Revenue Recognition- Construction-Type and Production-Type Contracts). The new standard will become effective for annual reporting periods beginning after December 15, 2017. We will adopt the standard on January 1, 2018, will apply it retrospectively to all periods presented and will elect the practical expedient for contract modifications. We chose to adopt retrospectively because we believe that it is the most helpful to our investors. When we adopt the standard in 2018 we will provide investors with a consistent view of historical trends, as 2016 and 2017 will be on a basis consistent with 2018.

Please refer to the Other Items - New Accounting Standards section within MD&A in our Annual Report on Form 10-K for the year ended December 31, 2016, for incremental discussion of the expected financial statement effects of the adoption of the standard, including an initial estimate of the non-cash charge to our January 1, 2016 retained earnings, the estimated change to our 2016 reported earnings per share and the expected impact to 2018 earnings per share. These estimates are based on many variables, which are subject to change. As we continue to work through the implementation effort required to adopt the standard, we will continue to refine these initial estimates.

MD&A OTHER ITEMS

GE DIGITAL

GE Digital's activities are focused on assisting in the market development of our digital product offerings through software design, fulfillment and product management, while also interfacing with our customers. Digital revenues include internally developed software and associated hardware, including Predix and software solutions that improve our customers' asset performance. These revenues are largely generated from our operating businesses and are included in their segment results.

Revenues were \$1.0 billion for the three months ended June 30, 2017, an increase of \$0.1 billion or 12%, compared to revenues of \$0.9 billion for the three months ended June 30, 2016. Revenues were \$1.9 billion for the six months ended June 30, 2017, an increase of \$0.2 billion or 14%, compared to revenues of \$1.7 billion for the six months ended June 30, 2016. These increases were principally driven by Power and Non-GE Verticals.

Orders were \$1.3 billion for the three months ended June 30, 2017, an increase of \$0.4 billion or 39%, compared to orders of \$1.0 billion for the three months ended June 30, 2016. Orders were \$2.3 billion for the six months ended June 30, 2017, an increase of \$0.4 billion or 24%, compared to orders of \$1.9 billion for the six months ended June 30, 2016. These increases were principally driven by Power and Oil & Gas.

MD&A OTHER ITEMS

IRAN THREAT REDUCTION AND SYRIA HUMAN RIGHTS ACT OF 2012

The Company is making the following disclosure pursuant to Section 13(r) of the Securities Exchange Act of 1934. Under Section 13(r) of the Securities Exchange Act of 1934, enacted in 2012, GE is required to disclose in its periodic reports if it or any of its affiliates knowingly engaged in business activities relating to Iran, even if those activities are conducted in accordance with authorizations subsequently issued by the U.S. Government. Reportable activities include investments that significantly enhance Iran's ability to develop petroleum resources valued at \$20 million or more in the aggregate during a twelve-month period. Reporting is also required for transactions related to Iran's domestic production of refined petroleum products or Iran's ability to import refined petroleum products valued at \$5 million or more in the aggregate during a twelve-month period.

In January 2016, the U.S. Department of Treasury's Office of Foreign Assets Control (OFAC) issued General License H authorizing U.S.-owned or controlled foreign entities to engage in transactions with Iran if these entities meet the requirements of the general license. Pursuant to this authorization, a non-U.S. affiliate of GE's Oil & Gas business received five purchase orders during the second quarter of 2017 for the sale of goods pursuant to General License H that could potentially enhance Iran's ability to develop petroleum resources. The purchase orders cover the sale of pumps and spare parts for gas turbine equipment for ultimate end use by Iranian companies in oil and gas production projects in Iran. These purchase orders are valued at €5.0 million (\$5.7 million), €1.6 million (\$1.7 million), €0.3 million (\$0.4 million), €0.2 million (\$0.2 million), and €0.1 million (\$0.1 million). This non-US affiliate did not recognize any revenue or profit during the quarter ending June 30, 2017 for these or any previously reported transactions.

A second non-U.S. affiliate of GE's Oil & Gas business also booked a modification of a previously reported contract to add additional scope valued at €0.1 million (\$0.1 million). The contract covered technical services related to the commissioning of centrifugal and gas compressors. The non-US affiliate also received one purchase order during the second quarter of 2017 for the sale of spare parts that could potentially enhance Iran's ability to develop petroleum resources valued at €0.3 million (\$0.4 million). This non-US affiliate attributed €0.1 million (\$0.1 million) in gross revenues and €0.1 million (\$0.1 million) in net profits to these transactions during the quarter ending June 30, 2017.

A non-U.S. affiliate of GE's Power business received four purchase orders pursuant to General License H valued at €6.0 million (\$6.7 million), €2.5 million (\$2.8 million), €0.1 million (\$0.1 million), and less than €0.1 million (less than \$0.1 million) during the second quarter of 2017. The purchase orders cover the sale of spare parts, rotors, and generators to an Iranian customer that could contribute to the maintenance or expansion of Iran's domestic production of petrochemical products. This non-US affiliate did not recognize revenue or profit associated with these or previously reported transactions during the quarter ending June 30, 2017.

All of these non-U.S. affiliates intend to continue the activities described above.

For additional information on business activities related to Iran, please refer to the Other Items section within MD&A in our our Form 10-Q for the quarter ended March 31, 2017.

48 2017 2Q FORM 10-Q

MD&A SUPPLEMENTAL
INFORMATION

SUPPLEMENTAL INFORMATION

FINANCIAL MEASURES THAT SUPPLEMENT U.S. GENERALLY ACCEPTED ACCOUNTING PRINCIPLES
MEASURES (NON-GAAP FINANCIAL MEASURES)

In the accompanying analysis of financial information, we sometimes use information derived from consolidated financial data but not presented in our financial statements prepared in accordance with GAAP. Certain of these data are considered “non-GAAP financial measures” under SEC rules. Specifically, we have referred, in various sections of this report, to:

- Industrial segment organic revenues
- Operating and non-operating pension cost
- Adjusted corporate costs (operating)
- Industrial operating earnings and GE Capital earnings (loss) from continuing operations and EPS
- Industrial operating + Verticals earnings and EPS
- Industrial operating profit and operating profit margin (excluding certain items)
- Industrial cash flows from operating activities (Industrial CFOA) and Industrial CFOA excluding deal taxes and GE Pension Plan funding

The reasons we use these non-GAAP financial measures and the reconciliations to their most directly comparable GAAP financial measures follow.

MD&A SUPPLEMENTAL
INFORMATION

INDUSTRIAL SEGMENT ORGANIC REVENUES

(In millions)	Three months ended June 30			Six months ended June 30		
	2017	2016	V%	2017	2016	V%
Industrial segment revenues (GAAP)	\$28,047	\$28,630	(2)%	\$54,063	\$54,499	(1)%
Adjustments:						
Acquisitions	218	14		349	16	
Business dispositions	—	1,239		10	2,795	
Currency exchange rates	(162)	—		(270)	—	
Industrial segment organic revenues (Non-GAAP)	\$27,992	\$27,376	2%	\$53,973	\$51,688	4%

Organic revenue growth measures revenue growth excluding the effects of acquisitions, business dispositions and currency exchange rates. We believe that this measure provides management and investors with a more complete understanding of underlying operating results and trends of established, ongoing operations by excluding the effect of acquisitions, dispositions and currency exchange, which activities are subject to volatility and can obscure underlying trends. We also believe that presenting organic revenue growth separately for our industrial businesses provides management and investors with useful information about the trends of our industrial businesses and enables a more direct comparison to other non-financial businesses and companies. Management recognizes that the term "organic revenue growth" may be interpreted differently by other companies and under different circumstances. Although this may have an effect on comparability of absolute percentage growth from company to company, we believe that these measures are useful in assessing trends of the respective businesses or companies and may therefore be a useful tool in assessing period-to-period performance trends.

OPERATING AND NON-OPERATING PENSION COST

(In millions)	Three months ended June 30		Six months ended June 30	
	2017	2016	2017	2016
Service cost for benefits earned	\$254	\$291	\$543	\$606
Prior service cost amortization	72	76	145	152
Curtailment loss (gain)	—	(1)	43	(1)
Operating pension cost (Non-GAAP)	326	366	731	757
Expected return on plan assets	(849)	(836)	(1,698)	(1,670)
Interest cost on benefit obligations	712	735	1,429	1,469
Net actuarial loss amortization	697	612	1,407	1,224
Non-operating pension cost (Non-GAAP)	560	511	1,138	1,023
Total principal pension plans cost (GAAP)	\$886	\$877	\$1,869	\$1,780

We have provided the operating and non-operating components of cost for our principal pension plans. Operating pension cost comprise the service cost of benefits earned, prior service cost amortization and curtailment loss (gain) for our principal pension plans. Non-operating pension cost comprise the expected return on plan assets, interest cost on benefit obligations and net actuarial loss amortization for our principal pension plans. We believe that the operating components of pension cost better reflects the ongoing service-related cost of providing pension benefits to our

employees. We believe that the operating and non-operating components of cost for our principal pension plans, considered along with the corresponding GAAP measure, provide management and investors with additional information for comparison of our pension plan cost and operating results with the pension plan cost and operating results of other companies.

50 2017 2Q FORM 10-Q

MD&A SUPPLEMENTAL
INFORMATION

ADJUSTED CORPORATE COSTS (OPERATING)

(In millions)	Three months ended June 30		Six months ended June 30	
	2017	2016	2017	2016
Total Corporate Items and Eliminations (GAAP)	\$ (1,583)	\$ 974	\$ (3,592)	\$ (597)
Less: non-operating pension cost (Non-GAAP)	(560)	(511)	(1,138)	(1,023)
Total Corporate costs (operating) (Non-GAAP)	\$ (1,023)	\$ 1,485	\$ (2,454)	\$ 426
Less: restructuring and other charges	(709)	(1,188)	(1,728)	(1,874)
Less: gains (losses) on disposals	—	3,129	2	3,188
Adjusted total corporate costs (operating) (Non-GAAP)	\$ (314)	\$ (456)	\$ (728)	\$ (887)

Operating corporate costs exclude non-service-related pension costs of our principal pension plans, which comprise interest costs, expected return on plan assets and amortization of actuarial gains/losses. Service cost, prior service cost and curtailment loss components of our principal pension plans are included in operating corporate costs. We believe that these components of pension cost better reflect the ongoing service-related costs of providing pension benefits to our employees. Accordingly, we believe that our measure of operating corporate costs provides management and investors with a useful measure of the operational costs incurred outside of our businesses. We believe that this measure, considered along with the corresponding GAAP measure, provides management and investors with additional information for comparison of our operating corporate costs to the operating corporate costs of other companies.

We also believe that adjusting operating corporate costs to exclude the effects of items that are not closely associated with ongoing corporate operations, such as earnings of previously divested businesses, gains and losses on disposed and held for sale businesses, and restructuring and other charges, provides management and investors with a meaningful measure that increases the period-to-period comparability of our ongoing corporate costs.

INDUSTRIAL OPERATING EARNINGS AND GE CAPITAL EARNINGS (LOSS) FROM CONTINUING
OPERATIONS AND EPS

(Dollars in millions; except per-share amounts)	Three months ended June 30			Six months ended June 30		
	2017	2016	V%	2017	2016	V%
Consolidated earnings (loss) from continuing operations attributable to GE common shareowners (GAAP)	\$ 1,338	\$ 3,300	(59)%	\$ 2,196	\$ 3,548	(38)%
Non-operating pension cost	560	511		1,138	1,023	
Tax effect on non-operating pension cost(a)	(196)	(179)		(398)	(358)	
Adjustment: non-operating pension cost (net of tax)	364	332		740	665	
Operating earnings (loss) (Non-GAAP)	1,702	3,632	(53)%	2,936	4,213	(30)%
Less: GE Capital earnings (loss) from continuing operations attributable to GE common shareowners	(172)	(600)		(219)	(1,492)	
Industrial operating earnings (loss) (Non-GAAP)	\$ 1,873	\$ 4,232	(56)%	\$ 3,155	\$ 5,705	(45)%
Earnings (loss) per share (EPS) – diluted(b)						
Consolidated EPS from continuing operations attributable to GE common shareowners (GAAP)	\$ 0.15	\$ 0.36	(58)%	\$ 0.25	\$ 0.38	(34)%
Adjustment: non-operating pension cost (net of tax)	0.04	0.04		0.08	0.07	

Edgar Filing: GENERAL ELECTRIC CO - Form 10-Q

Operating EPS (Non-GAAP)	0.19	0.39	(51)%	0.33	0.45	(27)%
Less: GE Capital EPS from continuing operations attributable to GE common shareowners (GAAP)	(0.02)	(0.07)	71 %	(0.02)	(0.16)	88 %
Industrial operating EPS (Non-GAAP)	\$0.21	\$0.46	(54)%	\$0.36	\$0.61	(41)%

(a) The tax effect on non-operating pension cost was calculated using a 35% U.S. federal statutory tax rate, based on its applicability to such cost.

(b) Earnings per share amounts are computed independently. As a result, the sum of per-share amounts may not equal the total.

Operating earnings (loss) excludes non-service related pension cost of our principal pension plans, comprising interest cost, expected return on plan assets and amortization of actuarial gains/losses. The service cost, prior service cost and curtailment loss components of our principal pension plans are included in operating earnings. We believe that these components of pension cost better reflect the ongoing service-related cost of providing pension benefits to our employees. As such, we believe that our measure of operating earnings (loss) provides management and investors with a useful measure of the operational results of our business. Other components of GAAP pension cost are mainly driven by capital allocation decisions and market performance, and we manage these separately from the operational performance of our businesses. Neither GAAP nor operating pension cost are necessarily indicative of the current or future cash flow requirements related to our pension plans. We believe that this measure, considered along with the corresponding GAAP measure, provides management and investors with additional information for comparison of our operating results to the operating results of other companies. We also believe that presenting operating earnings separately for our industrial businesses provides management and investors with useful information about the relative size of our industrial and financial services businesses in relation to the total company.

2017 2Q FORM 10-Q 51

MD&A SUPPLEMENTAL
INFORMATION

INDUSTRIAL OPERATING + VERTICALS EARNINGS AND EPS

	Three months ended June 30			Six months ended June 30		
(Dollars in millions; except per-share amounts)	2017	2016	V%	2017	2016	V%
GE Capital earnings (loss) from continuing operations attributable to GE common shareowners (GAAP)	\$(172)	\$(600)	71 %	\$(219)	\$(1,492)	85 %
Less: GE Capital other continuing earnings (loss) (Other Capital)(a)	(716)	(1,051)		(1,298)	(2,440)	
Verticals earnings(b)	544	452	20 %	1,079	948	14 %
Industrial operating earnings (Non-GAAP)	1,873	4,232	(56)%	3,155	5,705	(45)%
Industrial operating earnings + Verticals earnings (Non-GAAP)	\$2,418	\$4,684	(48)%	\$4,234	\$6,653	(36)%
Earnings (loss) per share (EPS) - diluted(c)						
GE Capital EPS from continuing operations attributable to GE common shareowners	\$(0.02)	\$(0.07)	71 %	\$(0.02)	\$(0.16)	88 %
Less: GE Capital other continuing EPS (Other Capital)	(0.08)	(0.11)		(0.15)	(0.26)	
Verticals EPS	\$0.06	\$0.05	20 %	\$0.12	\$0.10	20 %
Industrial operating EPS (Non-GAAP)	0.21	0.46	(54)%	0.36	0.61	(41)%
Industrial operating + Verticals EPS (Non-GAAP)	\$0.28	\$0.51	(45)%	\$0.48	\$0.72	(33)%
Consolidated EPS from continuing operations attributable to GE common shareowners (GAAP)	\$0.15	\$0.36	(58)%	\$0.25	\$0.38	(34)%
Less: non-operating pension cost (net of tax)	(0.04)	(0.04)		(0.08)	(0.07)	
Less: Other Capital	(0.08)	(0.11)		(0.15)	(0.26)	
Industrial operating + Verticals EPS (Non-GAAP)	\$0.28	\$0.51	(45)%	\$0.48	\$0.71	(32)%

(a) Includes interest on non-Verticals borrowings, restructuring costs and allocations of GE and GE Capital headquarters costs in excess of those allocated to the Verticals.

Verticals include businesses expected to be retained (GECAS, Energy Financial Services, Industrial Finance, and (b)run-off insurance activities), including allocated corporate after-tax costs of \$25 million in both the three months ended June 30, 2017 and 2016, and \$50 million in both the six months ended June 30, 2017 and 2016.

(c) Earnings per share amounts are computed independently. As a result, the sum of per-share amounts may not equal the total.

As described above, Verticals represents the GE Capital businesses that we expect to retain. We believe that presenting Industrial operating + Verticals earnings-per-share amounts provides management and investors with a useful measure to evaluate the performance of the businesses we expect to retain after the disposition of most of our financial services business.

MD&A SUPPLEMENTAL
INFORMATION

INDUSTRIAL OPERATING PROFIT AND OPERATING PROFIT MARGIN (EXCLUDING CERTAIN ITEMS)

	Three months ended June 30		Six months ended June 30	
(Dollars in millions)	2017	2016	2017	2016
Revenues				
GE total revenues and other income	\$27,421	\$30,604	\$52,902	\$55,210
Less: GE Capital earnings (loss) from continuing operations	(172)	(600)	(219)	(1,492)
GE revenues and other income excluding GE Capital earnings (loss)	27,593	31,204	53,121	56,702
(Industrial revenues) (GAAP)				
Less: gains on disposals	—	3,129	2	3,188
Adjusted Industrial revenues (Non-GAAP)	\$27,593	\$28,075	\$53,119	\$53,515
Costs				
GE total costs and expenses	\$25,883	\$26,756	\$50,441	\$51,069
Less: GE interest and other financial charges	637	567	1,200	1,007
Industrial costs excluding interest and other financial charges (GAAP)	25,247	26,189	49,241	50,062
Less: non-operating pension cost	560	511	1,138	1,023
Less: restructuring and other charges	709	1,188	1,728	1,874
Less: noncontrolling interests	18	82	96	199
Adjusted Industrial costs (Non-GAAP)	\$23,960	\$24,408	\$46,278	\$46,965
Industrial profit (GAAP)	2,346	5,015	3,881	6,640
Industrial margins (GAAP)	8.5	% 16.1	% 7.3	% 11.7
Industrial operating profit (Non-GAAP)	\$3,633	3,667	\$6,842	\$6,550
Industrial operating profit margins (Non-GAAP)	13.2	% 13.1	% 12.9	% 12.2

We have presented our Industrial operating profit and operating profit margin excluding gains, non-operating pension cost, restructuring and other charges and noncontrolling interests. We believe that Industrial operating profit and operating profit margin adjusted for these items are meaningful measures because they increase the comparability of period-to-period results.

MD&A SUPPLEMENTAL
INFORMATIONINDUSTRIAL CASH FLOWS FROM OPERATING ACTIVITIES (INDUSTRIAL CFOA) AND
INDUSTRIAL CFOA EXCLUDING DEAL TAXES AND GE PENSION PLAN FUNDING

(In millions)	Six months ended June 30		
	2017	2016	V%
Cash from GE's operating activities (continuing operations), as reported (GAAP)	\$3,585	\$10,767	(67)%
Adjustments: dividends from GE Capital	4,016	11,000	
Industrial CFOA (Non-GAAP)	\$(431)	\$(233)	(85)%
Adjustments:			
Deal taxes	51	700	
GE Pension Plan funding	217	—	
Industrial CFOA excluding deal taxes and GE Pension Plan funding (Non-GAAP)	\$(163)	\$467	U

We define “Industrial CFOA” as GE’s cash from operating activities (continuing operations) less the amount of dividends received by GE from GE Capital. This reflects the effects of intercompany transactions, which include, but are not limited to, the following: GE Capital working capital solutions to optimize GE cash management; GE Capital enabled GE industrial orders; aircraft engines, power equipment, renewable energy equipment and healthcare equipment manufactured by GE that are installed on GE Capital investments, including leased equipment; expenses related to parent-subsidary pension plans; buildings and equipment leased between GE and GE Capital, including sale-leaseback transactions; information technology (IT) and other services sold to GE Capital by GE; and various investments, loans and allocations of GE corporate overhead costs.

We believe that investors may find it useful to compare GE's operating cash flows without the effect of GE Capital dividends, since these dividends are not representative of the operating cash flows of our industrial businesses and can vary from period-to-period based upon the results of the financial services businesses. We also believe that investors may find it useful to compare Industrial CFOA excluding the effects of deal taxes paid related to the 2016 Appliances sale, the 2017 Baker Hughes transaction and contributions to our GE Pension Plan. Management recognizes that these measures may not be comparable to cash flow results of companies which contain both industrial and financial services businesses, but believes that this comparison is aided by the provision of additional information about the amounts of dividends paid by our financial services business and the separate presentation in our financial statements of the GE Capital cash flows. We believe that our measure of Industrial CFOA and Industrial CFOA excluding deal-related taxes and GE Pension Plan contributions provides management and investors with useful measures to compare the capacity of our industrial operations to generate operating cash flow with the operating cash flow of other non-financial businesses and companies and as such provides useful measures to supplement the reported GAAP CFOA measure.

OTHER

CONTROLS AND PROCEDURES

Under the direction of our Chief Executive Officer and Chief Financial Officer, we evaluated our disclosure controls and procedures and internal control over financial reporting and concluded that (i) our disclosure controls and procedures were effective as of June 30, 2017, and (ii) no change in internal control over financial reporting occurred during the quarter ended June 30, 2017, that has materially affected, or is reasonably likely to materially affect, such internal control over financial reporting.

OTHER FINANCIAL DATA

PURCHASES OF EQUITY SECURITIES BY THE ISSUER AND AFFILIATED PURCHASERS

Period	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of our share repurchase program(a)	Approximate dollar value of shares that may yet be purchased under our share repurchase program(a)
(Shares in thousands)				
2017				
April	32,144	\$ 29.93	32,144	
May	5,036	27.91	5,036	
June	5,328	28.67	5,328	
Total	42,508	\$ 29.53	42,508	\$21.1 billion

Shares were repurchased through the 2015 GE Share Repurchase Program (the Program). As of June 30, 2017, we were authorized to repurchase up to \$50.0 billion of our common stock through 2018 and we had repurchased a total of approximately \$28.9 billion under the Program. The Program is flexible and shares will be acquired with a combination of borrowings and free cash flow from the public markets and other sources, including GE Stock Direct, a stock purchase plan that is available to the public.

LEGAL PROCEEDINGS

LEGAL PROCEEDINGS

The following information supplements and amends our discussion set forth under “Legal Proceedings” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2016 and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2017.

WMC. There are 11 lawsuits in which our discontinued U.S. mortgage business, WMC, is a party. The adverse parties in 10 of these cases are securitization trustees or parties claiming to act on their behalf. While the alleged claims for relief vary from case to case, the complaints and counterclaims in these actions generally assert claims for breach of contract, indemnification, and/or declaratory judgment, and seek specific performance (repurchase) and/or monetary damages. Beginning in the fourth quarter 2013, WMC entered into settlements that reduced its exposure on claims asserted in certain securitizations, and the claim amounts reported herein reflect the effect of these settlements.

Five WMC cases are pending in the United States District Court for the District of Connecticut. Four of these cases were initiated in 2012, and one was initiated in the third quarter 2013. Deutsche Bank National Trust Company (Deutsche Bank) is the adverse party in four cases, and Law Debenture Trust Company of New York (Law Debenture) is the adverse party in one case. The Deutsche Bank complaints assert claims on approximately \$4,300 million of mortgage loans and seek to recover damages in excess of approximately \$1,800 million. The Law Debenture complaint asserts claims on approximately \$800 million of mortgage loans, and alleges losses on these loans in excess of approximately \$425 million. In September 2016, WMC and Deutsche Bank agreed to settle all claims arising out of the four securitizations at issue in the Connecticut lawsuits, subject to judicial approvals. In October 2016, Deutsche Bank filed petitions for instruction in California state court seeking judicial instructions that Deutsche Bank’s entry into the settlement agreements was a reasonable exercise of its discretion and approving the distribution of settlement proceeds pursuant to the terms of each trust’s governing documents. No bondholder in any of these securitizations has objected to the proposed settlements. On July 17, 2017, the court entered a judgment and order granting Deutsche Bank’s petitions. The period to file an appeal will expire, at the latest, 120 days after entry of judgment.

Four cases are pending against WMC in New York State Supreme Court, all of which were initiated by securitization trustees or securities administrators. These cases involve, in the aggregate, claims involving approximately \$4,559 million of mortgage loans. One of these lawsuits was initiated by Deutsche Bank in the second quarter 2013 and names as defendants WMC and Barclays Bank PLC. It involves claims against WMC on approximately \$1,000 million of mortgage loans and does not specify the amount of damages sought. In September 2016, WMC and Deutsche Bank agreed to settle all claims arising out of the two securitizations at issue in this lawsuit, subject to judicial approvals. In October 2016, Deutsche Bank filed petitions for instruction in California state court seeking judicial instructions that Deutsche Bank’s entry into the settlement agreements was a reasonable exercise of its discretion and approving the distribution of settlement proceeds pursuant to the terms of each trust’s governing documents. On March 30 and April 2, 2017, bondholders in these two securitizations filed objections to the proposed settlements. The court set an initial hearing on these objections for July 27, 2017. The second case, in which the plaintiff is The Bank of New York Mellon (BNY), was initiated in the fourth quarter 2012 and names as defendants WMC, J.P. Morgan Mortgage Acquisition Corporation and JPMorgan Chase Bank, N.A. BNY asserts claims on approximately \$1,300 million of mortgage loans, and seeks to recover damages in excess of \$650 million. In the second quarter, WMC and J.P. Morgan reached an agreement with the securitization trustee to settle this case, subject to court approval, and the trustee filed an action in Minnesota state court seeking such approval on July 11, 2017. The court has set an initial hearing in this matter for September 11, 2017. The third case was initiated by BNY in November 2013 and names as defendants WMC, J.P. Morgan Mortgage Acquisition Corporation and JPMorgan Chase Bank, N.A. In this case, BNY asserts claims on approximately \$1,300 million of mortgage loans, and seeks to

recover damages in excess of \$600 million. On September 18, 2015, the court granted defendants' motion to dismiss this case on statute of limitations grounds, and the plaintiff filed a notice of appeal on October 21, 2015. On May 11, 2017, the intermediate appellate court affirmed the dismissal of WMC, and the plaintiff is seeking leave to appeal this decision to the New York Court of Appeals. The fourth case was filed in October 2014 and names as defendants WMC, J.P. Morgan Mortgage Acquisition Corporation and JPMorgan Chase Bank, N.A. The plaintiff, BNY, asserts claims on approximately \$959 million of mortgage loans and seeks to recover damages in excess of \$475 million. On September 7, 2016, the court granted WMC's motion to dismiss this case on statute of limitations grounds, and an appeal from this decision is pending in the intermediate appellate court.

One case is pending against WMC in the United States District Court for the Southern District of New York. The case was initiated by the Federal Housing Finance Agency (FHFA) in the fourth quarter 2012. In the second quarter 2013, Deutsche Bank, in its role as securitization trustee, intervened as a plaintiff and filed a complaint relating to approximately \$1,300 million of loans and alleging losses in excess of approximately \$100 million. In December 2013, the District Court issued an order denying WMC's motion to dismiss but, on its own motion, ordered re-briefing on several issues raised by WMC's motion to dismiss in February 2015. On July 10, 2015, the District Court entered an order dismissing the lawsuit as time-barred under the applicable statute of limitations. Deutsche Bank filed a notice of appeal from this order of dismissal on August 13, 2015, and the United States Court of Appeals for the Second Circuit heard oral argument on June 10, 2016. In September 2016, WMC and Deutsche Bank agreed to settle all claims arising out of the securitization at issue in this lawsuit, subject to judicial approval. In October 2016, Deutsche Bank filed a petition for instruction in California state court seeking judicial instructions that Deutsche Bank's entry into the settlement agreement was a reasonable exercise of its discretion and approving the distribution of settlement proceeds pursuant to the terms of the trust's governing documents. No bondholder in this securitization has objected to the proposed settlement. On July 17, 2017, the court entered a judgment and order granting Deutsche Bank's petition. The period to file an appeal will expire, at the latest, 120 days after entry of judgment.

LEGAL PROCEEDINGS

The amounts of the claims at issue in these cases (discussed above) reflect the purchase price or unpaid principal balances of the mortgage loans at issue at the time of purchase and do not give effect to pay downs, accrued interest or fees, or potential recoveries based upon the underlying collateral. All of the mortgage loans involved in these lawsuits are included in WMC's reported claims at June 30, 2017. See Note 18 to the consolidated financial statements for additional information.

On January 23, 2017, the ResCap Liquidating Trust, as successor to Residential Funding Company, LLC (RFC), filed a lawsuit seeking unspecified damages against WMC in the United States District Court for the District of Minnesota arising from alleged breaches in representations and warranties made by WMC in connection with the sale of approximately \$840 million in loans to RFC over a period of time preceding RFC's filing for bankruptcy protection in May 2012.

In December 2015, we learned that, as part of continuing industry-wide investigation of subprime mortgages, the Civil Division of the U.S. Department of Justice is investigating potential violations of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA) by WMC and its affiliates arising out of the origination, purchase or sale of residential mortgage loans between January 1, 2005 and December 31, 2007. The Justice Department subsequently issued subpoenas to WMC and GE Capital, and we are cooperating with the Justice Department's investigation, including providing documents and witnesses for interviews.

Alstom legacy matters. In connection with our acquisition of Alstom's Thermal, Renewables and Grid businesses in November 2015, we are subject to legacy legal proceedings and legal compliance risks that relate to claimed anti-competitive conduct or improper payments by Alstom in the pre-acquisition period. See Note 18 to the consolidated financial statements for additional information.

EC merger notification objections. In July 2017, the European Commission (EC) issued a statement of objections with its preliminary conclusion that GE provided incorrect or misleading information about its research and development activities regarding high-power offshore wind turbines during the EC's review of GE's planned acquisition of LM Wind. If the EC concludes that GE's alleged violation of the merger notification rules was intentional or negligent, it could impose a fine of up to 1% of GE's annual revenues. We are cooperating with the EC's investigation.

Total liabilities, redeemable noncontrolling interests and equity	\$355,473	\$ 365,183	

Our consolidated assets at June 30, 2017 included total assets of \$5,851 million of certain variable interest entities (VIEs) that can only be used to settle the liabilities of those VIEs. These assets included current receivables and net financing receivables of \$1,445 million and investment securities of \$1,004 million within continuing operations (a) and assets of discontinued operations of \$285 million. Our consolidated liabilities at June 30, 2017 included liabilities of certain VIEs for which the VIE creditors do not have recourse to GE. These liabilities included non-recourse borrowings of consolidated securitization entities (CSEs) of \$(682) million within continuing operations. See Note 17.

(b) The sum of accumulated other comprehensive income (loss) (AOCI) attributable to the Company was \$(15,454) million and \$(18,598) million at June 30, 2017 and December 31, 2016, respectively.

(c) Included AOCI attributable to noncontrolling interests of \$(271) million and \$(278) million at June 30, 2017 and December 31, 2016, respectively.

Amounts may not add due to rounding.

See accompanying notes.

(a) Represents the adding together of all affiliated companies except GE Capital, which is presented on a one-line basis.

(b) Represents GE Capital earnings/loss from continuing operations attributable to the Company, net of GE Capital dividends paid to GE.

Amounts may not add due to rounding.

In the consolidating data on this page, “GE” means the basis of consolidation as described in Note 1 to the consolidated financial statements; “GE Capital” means GE Capital Global Holdings, LLC (GECGH) or its predecessor General Electric Capital Corporation (GECC) and all of their affiliates and associated companies. Separate information is shown for “GE” and “Financial Services (GE Capital).” Transactions between GE and GE Capital have been eliminated from the “Consolidated” columns and are discussed in Note 19.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

The accompanying consolidated financial statements represent the consolidation of General Electric Company (the Company) and all companies that we directly or indirectly control, either through majority ownership or otherwise. See Note 1 to the consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2016 that discusses our consolidation and financial statement presentation. As used in this report on Form 10-Q (Report), “GE” represents the adding together of all affiliated companies except GE Capital (GE Capital or Financial Services), whose continuing operations are presented on a one-line basis; GE Capital consists of General Capital Global Holdings, LLC (GECGH) and all of its affiliates; and “Consolidated” represents the adding together of GE and GE Capital with the effects of transactions between the two eliminated. Unless otherwise indicated, we refer to the caption revenues and other income simply as “revenues” throughout this Form 10-Q.

We have reclassified certain prior-period amounts to conform to the current-period presentation. Certain columns and rows may not add due to the use of rounded numbers. Percentages presented are calculated from the underlying numbers in millions. Unless otherwise indicated, information in these notes to the consolidated financial statements relates to continuing operations.

INTERIM PERIOD PRESENTATION

The consolidated financial statements and notes thereto are unaudited. These statements include all adjustments (consisting of normal recurring accruals) that we considered necessary to present a fair statement of our results of operations, financial position and cash flows. The results reported in these consolidated financial statements should not be regarded as necessarily indicative of results that may be expected for the entire year. It is suggested that these consolidated financial statements be read in conjunction with the financial statements and notes thereto included in our consolidated financial statements of our Annual Report on Form 10-K for the year ended December 31, 2016.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Please refer to Note 1, Basis of Presentation and Summary of Significant Accounting Policies, to the consolidated financial statements of our 2016 Form 10-K Report for the discussion of our significant accounting policies.

ACCOUNTING CHANGES

On January 1, 2017, we adopted ASU 2015-11, Simplifying the Measurement of Inventory, which was intended to simplify the subsequent measurement of inventory held by an entity not measured using last-in, first-out (LIFO) or retail inventory method. The amendments eliminated the requirement that entities consider the replacement cost of inventory and the net realizable value less a normal profit margin, which was historically used to establish a floor and ceiling for an assessment of market value. The adoption of this standard was immaterial to our financial statements.

On September 30, 2016, we adopted ASU 2016-09, Improvements to Employee Share-Based Payment Accounting, which was intended to simplify several aspects of the accounting for employee share-based payment transactions

including the accounting for income taxes, forfeitures, and statutory tax withholding requirements, as well as classification in the statement of cash flows.

We adopted the standard on a prospective basis with the effect of adoption reflected for the interim periods after the year beginning January 1, 2016 as required by the standard. The primary effects of adoption were the recognition of excess tax benefits in our provision for income taxes rather than paid-in capital and the reclassification of cash flows related to excess tax benefits from a financing activity to an operating activity for the periods beginning January 1, 2016. We will continue to estimate the number of awards that are expected to vest in our determination of the related periodic compensation cost.

As a result of the adoption, our provision for income taxes decreased by \$41 million and \$97 million for the three and nine months ended September 30, 2016, respectively for the excess tax benefits related to share-based payments in its provision for income taxes. Application of the cash flow presentation requirements from January 1, 2016, resulted in an increase in cash from operating activities and an offsetting decrease in cash from financing activities of \$59 million and \$137 million for the three and nine months ended September 30, 2016, respectively.

Additionally, as the adoption of the standard was reflected as of the beginning of 2016, the benefit for income taxes increased \$19 million and \$56 million for the three and six months ended June 30, 2016, respectively, and cash flow from operating activities increased by \$78 million with an offsetting decrease in cash from financing activities for the six months ended June 30, 2016.

NOTE 2. BUSINESSES HELD FOR SALE AND DISCONTINUED OPERATIONS

ASSETS AND LIABILITIES OF BUSINESSES HELD FOR SALE

In the first quarter of 2017, we classified our Industrial Solutions business within our Energy Connections & Lighting segment with assets of \$2,120 million and liabilities of \$546 million, as held for sale. We expect to complete the sale of the business by the end of the first quarter of 2018.

In the fourth quarter of 2016, we classified our Water business within our Power segment with assets of \$1,696 million and liabilities of \$648 million, as held for sale. In March 2017, we signed an agreement with Suez Environnement S.A. (Suez) to sell the business for \$3,415 million. The deal is expected to close in the second half of 2017, subject to customary closing conditions and regulatory approval.

FINANCIAL INFORMATION FOR ASSETS AND LIABILITIES OF BUSINESSES HELD FOR SALE

Liabilities of businesses held for sale	\$ 1,195	\$ 656

Included transactions in our industrial businesses that were made on an arms-length basis with GE Capital, consisting of GE customer receivables sold to GE Capital of \$280 million and \$117 million at June 30, 2017 and (a) December 31, 2016, respectively. These intercompany balances included within our held for sale businesses are reported in the GE and GE Capital columns of our financial statements, but are eliminated in deriving our consolidated financial statements.

DISCONTINUED OPERATIONS

Discontinued operations primarily relate to our financial services businesses as a result of the GE Capital Exit Plan and includes our U.S. mortgage business (WMC). All of these operations were previously reported in the Capital

segment. Results of operations, financial position and cash flows for these businesses are separately reported as discontinued operations for all periods presented.

We have entered into Transitional Service Agreements (TSA) with and provided certain indemnifications to buyers of GE Capital's assets. Under the TSAs, GE Capital provides various services for terms generally between 12 and 24 months and receives a level of cost reimbursement from the buyers. See Note 18 for further information about indemnifications.

(a) Includes \$162 million and \$137 million of investment securities held by GE at June 30, 2017 and December 31, 2016, respectively, of which \$107 million and \$86 million are equity securities.

(b) Estimated fair values include \$75 million and \$17 million of trading securities at June 30, 2017 and December 31, 2016, respectively. Net unrealized gains (losses) recorded to earnings related to these securities were \$29 million and an insignificant amount for the three months ended and \$29 million and \$(2) million for the six months ended June 30, 2017 and 2016, respectively.

Investments with a fair value of \$4,206 million and \$4,406 million were classified within Level 3 (significant inputs to the valuation model are unobservable) at June 30, 2017 and December 31, 2016, respectively. The remaining investments are substantially all classified within Level 2 (determined based on significant observable inputs). During the six months ended June 30, 2017 and 2016, there were no significant transfers into or out of Level 3.

Unrealized losses are not indicative of the amount of credit loss that would be recognized and at June 30, 2017 are primarily due to increases in market yields subsequent to our purchase of the securities. We presently do not intend to sell the vast majority of our debt securities that are in an unrealized loss position and believe that it is not more likely than not that we will be required to sell the vast majority of these securities before anticipated recovery of our amortized cost. The methodologies and significant inputs used to measure the amount of credit loss for our investment securities during 2017 have not changed.

2017 2Q FORM 10-Q 73

NOTES TO
FINANCIAL STATEMENTS CONSOLIDATED
FINANCIAL
STATEMENTS

Total pre-tax, other-than-temporary impairments on investment securities recognized in earnings were an insignificant amount and \$18 million for the six months ended June 30, 2017 and 2016, respectively.

CONTRACTUAL MATURITIES OF INVESTMENT
IN AVAILABLE-FOR-SALE DEBT SECURITIES
(EXCLUDING MORTGAGE AND ASSET-BACKED
SECURITIES)

(In millions)	Amortized cost	Estimated fair value
Due		
Within one year	\$ 5,902	\$ 5,900
After one year through five years	4,255	4,449
After five years through ten years	5,209	5,704
After ten years	17,468	20,890

We expect actual maturities to differ from contractual maturities because borrowers have the right to call or prepay certain obligations.

Although we generally do not have the intent to sell any specific securities at the end of the period, in the ordinary course of managing our investment securities portfolio, we may sell securities prior to their maturities for a variety of reasons, including diversification, credit quality, yield and liquidity requirements and the funding of claims and obligations to policyholders. Gross realized gains on available-for-sale investment securities were \$37 million and \$36 million, and gross realized losses were \$(2) million and \$(11) million in the three months ended June 30, 2017 and 2016, respectively. Gross realized gains on available-for-sale investment securities were \$143 million and \$42 million, and gross realized losses were \$(4) million and \$(40) million in the six months ended June 30, 2017 and 2016, respectively.

Proceeds from investment securities sales and early redemptions by issuers totaled \$701 million and \$624 million in the three months ended June 30, 2017 and 2016, respectively primarily from sales of U.S. Corporate and Mortgage and asset-backed securities and \$1,774 million and \$868 million in the six months ended June 30, 2017 and 2016, respectively primarily from sales of Government and agencies and U.S. corporate securities.

NOTE 4. CURRENT RECEIVABLES

	Consolidated(a)(b)		GE(c)	
(In millions)	June 30, 2017	December 31, 2016	June 30, 2017	December 31, 2016
Current receivables	\$22,407	\$ 24,935	\$12,647	\$13,562
Allowance for losses	(960)	(858)	(949)	(847)
Total	\$21,447	\$ 24,076	\$11,697	\$12,715

(a) Included GE industrial customer receivables sold to a GE Capital affiliate and recorded on GE Capital's balance sheet of \$10,599 million and \$12,304 million at June 30, 2017 and December 31, 2016, respectively. The

consolidated total included a deferred purchase price receivable of \$374 million and \$483 million at June 30, 2017 and December 31, 2016, respectively, related to our Receivables Facility.

- (b) In order to manage the credit exposure, the Company sells additional current receivables to third parties outside the Receivables Facility, substantially all of which are serviced by the Company. The outstanding balance of these current receivables was \$2,532 million and \$3,821 million at June 30, 2017 and December 31, 2016, respectively. Of these balances, \$1,187 million and \$2,504 million was sold by GE to GE Capital prior to the sale to third parties at June 30, 2017 and December 31, 2016, respectively. At June 30, 2017 and December 31, 2016, our maximum exposure to loss under the limited recourse arrangements is \$143 million and \$215 million, respectively.
- (c) GE current receivables balances at June 30, 2017 and December 31, 2016, before allowance for losses, included \$7,955 million and \$8,927 million, respectively, from sales of goods and services to customers. The remainder of the balances primarily relates to supplier advances, revenue sharing programs and other non-income based tax receivables.

RECEIVABLES FACILITY

The Company has a \$3,000 million revolving Receivables Facility under which receivables are sold directly to third-party purchasers. The third-party purchasers have no recourse to other assets of the Company in the event of non-payment by the debtors. Where the purchasing entity is a bank multi-seller commercial paper conduit, assets transferred by other parties to that entity form a majority of the entity's assets. Upon sale of the receivables, we receive proceeds of cash and a deferred purchase price (DPP). The DPP is an interest in specified assets of the purchasers (the receivables sold by GE Capital) that entitles GE Capital to the residual cash flows of those specified assets.

NOTES TO
FINANCIAL STATEMENTS CONSOLIDATED
FINANCIAL
STATEMENTS

During the six months ended June 30, 2017, GE Industrial sold current receivables of \$9,667 million to GE Capital, which GE Capital sold immediately to third parties under the Receivables Facility. GE Capital continues to service the current receivables for the purchasers. The Company received total cash collections of \$9,309 million on previously sold current receivables owed to the purchasing entities. The purchasing entities reinvested \$8,036 million of those collections to purchase newly originated current receivables from the Company and paid \$297 million to reduce their DPP obligation to the Company.

During the six months ended June 30, 2017, GE Industrial recognized a loss of \$64 million resulting from time value discount on the sale of these receivables to GE Capital. GE Capital recovered substantially all of this loss on the sale of the receivables to third party purchasers.

At June 30, 2017, GE Capital, under the Receivables Facility, serviced \$2,933 million of transferred receivables that remain outstanding.

Given the short-term nature of the underlying receivables, discount rates and prepayments are not factors in determining the value of the DPP. Collections on the DPP are presented within Cash flows from operating activities in the consolidated column in the Statement of Cash Flows. As the performance of the transferred current receivables is similar to the performance of our other current receivables, delinquencies are not expected to be significant.

	24,764	26,099
Allowance for losses	(68)	(58)
Financing receivables – net	\$ 24,696	\$ 26,041

We manage our financing receivables portfolio using delinquency and nonaccrual data as key performance indicators. At June 30, 2017, \$752 million (3.0%), \$351 million (1.4%) and \$425 million (1.7%) of financing receivables were over 30 days past due, over 90 days past due and on nonaccrual, respectively. Of the \$425 million of nonaccrual financing receivables at June 30, 2017, the vast majority are secured by collateral and \$290 million are currently paying in accordance with the contractual terms. At December 31, 2016, \$811 million (3.1%), \$407 million (1.6%) and \$322 million (1.2%) of financing receivables were over 30 days past due, over 90 days past due and on nonaccrual, respectively.

The recorded investment in impaired loans at June 30, 2017 and December 31, 2016 was \$387 million and \$262 million, respectively. The method used to measure impairment for these loans is primarily based on collateral value. At June 30, 2017, troubled debt restructurings included in impaired loans were \$150 million.

Consolidated depreciation and amortization on property, plant and equipment was \$1,125 million and \$1,294 million in the three months ended June 30, 2017 and 2016, respectively and \$2,318 million and \$2,505 million in the six months ended June 30, 2017 and 2016, respectively.

NOTE 8. ACQUISITIONS, GOODWILL AND OTHER INTANGIBLE ASSETS

ACQUISITIONS

On October 11, 2016, we announced a plan to acquire LM Wind Power, the Danish maker of rotor blades for approximately \$1,700 million. The transaction closed on April 20, 2017. The preliminary purchase price allocation resulted in goodwill of approximately \$1,200 million and amortizable intangible assets of approximately \$200 million. The allocation of the purchase price will be finalized upon completion of post-closing procedures.

In the first quarter of 2017, we acquired the remaining 96% of ServiceMax, a leader in cloud-based field service management solutions, for \$866 million, net of cash acquired of \$91 million. Upon gaining control, we fair valued the business including our previously held 4% equity interest. The preliminary purchase price allocation resulted in goodwill of approximately \$670 million and amortizable intangible assets of approximately \$280 million. The allocation of the purchase price will be finalized upon completion of post-closing procedures.

On May 10, 2016, we announced the pending acquisition of the heat recovery steam generator (HRSG) business from Doosan Engineering & Construction (Doosan) for \$250 million. On August 16, 2016, we closed on 80% of the HRSG business for approximately \$220 million. On May 23, 2017, we closed an additional 15% of the remaining HRSG business for approximately \$35 million. The remaining 5% of the HRSG business continues to be subject to local regulatory requirements. The preliminary purchase price allocation resulted in goodwill of approximately \$170 million and amortizable intangible assets of approximately \$35 million. The allocation of the purchase price will be finalized upon completion of post-closing procedures.

BAKER HUGHES

On July 3, 2017, GE completed the previously announced combination of GE's Oil & Gas business (GE Oil & Gas) with Baker Hughes Incorporated (Baker Hughes). As part of the transaction, GE contributed GE Oil & Gas and \$7,400 million in cash in exchange for 62.5% of the ownership interest in the new combined company. The operating assets of the new combined company are held through a partnership named Baker Hughes, a GE company, LLC (BHGE LLC). GE holds a 62.5% economic interest in this partnership, and Baker Hughes' former shareholders hold a 37.5% interest through a newly NYSE listed corporation, Baker Hughes, a GE company (BHGE), which controls the partnership. In turn, GE holds a controlling, 62.5% voting interest in BHGE through Class B Common Stock in

BHGE, which grants voting rights but no economic rights. Baker Hughes' former shareholders received one share of BHGE Class A Common Stock and a special one-time cash dividend of \$17.50 per share at closing. Total consideration was \$24,778 million, including the \$7,400 million cash contribution.

The Baker Hughes transaction will be accounted for as a business combination, using the acquisition method. The net assets of Baker Hughes' contributed businesses will be recorded at their estimated fair value, and GE Oil & Gas will continue at its historical or carryover basis. We will record noncontrolling interest for the 37.5% interest in the combined company of the holders of BHGE's Class A Common Stock at fair value for the portion attributable to the net assets we acquired, and at our historical cost for the portion attributable to GE Oil & Gas.

Due to the limited time since the acquisition date and limitations on the access to Baker Hughes information prior to close, the initial accounting for the business combination is not yet complete, and we are not yet able to provide amounts recognized as of the acquisition date for major classes of assets and liabilities acquired or the supplemental pro forma revenue and earnings of the combined entity. We will include disclosure of our preliminary estimates in our Quarterly Report on Form 10-Q for the nine months ended September 30, 2017.

During the three and six months ended June 30, 2017, acquisition costs of \$59 million and \$110 million, respectively, were expensed as incurred and were reported as selling, general and administrative expenses.

Non-recourse borrowings of consolidated securitization entities(f)	\$682	\$ 417
Total borrowings	\$134,402	\$ 136,210

(a) Excluding assumed debt of GE Capital, the total amount of GE borrowings was \$33,725 million and \$20,512 million at June 30, 2017 and December 31, 2016, respectively.

Included \$1,781 million and \$2,665 million of funding secured by aircraft and other collateral at June 30, 2017 and (b)December 31, 2016, respectively, of which \$591 million and \$1,419 million is non-recourse to GE Capital at June 30, 2017 and December 31, 2016, respectively.

Included a reduction of zero and \$1,329 million for short-term intercompany loans from GE Capital to GE at June 30, 2017 and December 31, 2016, respectively, which bear the right of offset against amounts owed under the (c) assumed debt agreement. Excluding intercompany loans, total short-term assumed debt was \$11,923 million and \$13,024 million at June 30, 2017 and December 31, 2016, respectively. The remaining short-term loan balance was paid in January 2017.

Included a reduction of \$4,075 million and zero for long-term intercompany loans from GE Capital to GE at June 30, 2017 and December 31, 2016, respectively, which bear the right of offset against amounts owed under the (d) assumed debt agreement. Excluding intercompany loans, total long-term assumed debt was \$40,368 million and \$47,084 million at June 30, 2017 and December 31, 2016, respectively. The \$4,075 million of intercompany loans collectively have a weighted average interest rate of 3.6% and term of approximately 15 years.

Comprises subordinated debentures which constitute the sole assets of trusts that have issued trust preferred (e) securities and where GE owns 100% of the common securities of the trusts. Obligations associated with these trusts are unconditionally guaranteed by GE.

(f) Included \$528 million and \$320 million of current portion of long-term borrowings at June 30, 2017 and December 31, 2016, respectively. See Note 17.

During the second quarter of 2017, GE completed issuances of €8,000 million senior unsecured debt, composed of €1,750 million of 0.375% Notes due 2022, €2,000 million of 0.875% Notes due 2025, €2,250 million of 1.50% Notes due 2029 and €2,000 million of 2.125% Notes due 2037.

FINANCIAL STATEMENTS

NOTES TO
CONSOLIDATED
FINANCIAL
STATEMENTS

On April 10, 2015, GE provided a full and unconditional guarantee on the payment of the principal and interest on all tradable senior and subordinated outstanding long-term debt securities and all commercial paper issued or guaranteed by GE Capital. \$92,537 million of such debt was assumed by GE on December 2, 2015 upon its merger with GE Capital resulting in an intercompany payable to GE. At June 30, 2017, the Guarantee applies to \$44,077 million of GE Capital debt.

See Notes 16 and 21 for additional information about borrowings and associated swaps.

NOTE 11. INVESTMENT CONTRACTS, INSURANCE LIABILITIES AND INSURANCE ANNUITY BENEFITS

Insurance and investment contract liabilities comprise mainly obligations to policyholders and annuitants in our run-off insurance activities.

(In millions)	June 30, December 31, 2017 2016	
Future policy benefit reserves(a)	\$ 19,105	\$ 18,741
Investment contracts	2,671	2,813
Other(b)	5,241	4,992
	27,016	26,546
Eliminations	(545)	(460)
Total	\$ 26,471	\$ 26,086

The future policy benefit reserve is subject to an annual review to determine its adequacy. Should the liability for (a) future policy benefits plus the present value of expected future gross premiums be insufficient to provide for the present value of expected future policy benefits and expenses, a premium deficiency would be recorded. (b) Substantially all unpaid claims and claims adjustment expenses and unearned premiums.

See Notes 1 and 11 of the consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2016 for further information.

NOTE 12. POSTRETIREMENT BENEFIT PLANS

We sponsor a number of pension and retiree health and life insurance benefit plans. Principal pension plans are the GE Pension Plan and the GE Supplementary Pension Plan. Principal retiree benefit plans provide health and life insurance benefits to certain eligible participants and these participants share in the cost of the healthcare benefits. Other pension plans include the U.S. and non-U.S. pension plans with pension assets or obligations greater than \$50 million. Smaller pension plans and other retiree benefit plans are not material individually or in the aggregate.

2017 2Q FORM 10-Q 81

NOTES TO
FINANCIAL STATEMENTS CONSOLIDATED
FINANCIAL
STATEMENTS

NOTE 13. INCOME TAXES

Our effective income tax rates were 1.3% and 7.0% during the six months ended 2017 and 2016, respectively. The rate for 2017 benefited from the tax difference on global activities and U.S. business credits and for 2016 from a deductible stock loss and U.S. business credits. In the six months ended 2017, these decreases were partially offset by an adjustment to bring the six-month tax rate in line with the higher expected full-year rate. In the six months ended 2016, there was a further decrease to bring the six-month tax rate in line with the lower expected full-year rate.

In the ordinary course of business, there is inherent uncertainty in quantifying our income tax positions. We assess our income tax positions and record tax benefits for all years subject to examination based upon management's evaluation of the facts, circumstances, and information available at the reporting date.

UNRECOGNIZED TAX BENEFITS

(In millions)	June 30, 2017	December 31, 2016
Unrecognized tax benefits	\$4,760	\$ 4,692
Portion that, if recognized, would reduce tax expense and effective tax rate(a)	2,894	2,886
Accrued interest on unrecognized tax benefits	682	615
Accrued penalties on unrecognized tax benefits	119	118
Reasonably possible reduction to the balance of unrecognized tax benefits in succeeding 12 months	0-600	0-600
Portion that, if recognized, would reduce tax expense and effective tax rate(a)	0-500	0-500
(a) Some portion of such reduction may be reported as discontinued operations.		

The Internal Revenue Service (IRS) is currently auditing our consolidated U.S. income tax returns for 2012-2013. In addition, certain other U.S. tax deficiency issues and refund claims for previous years are still unresolved. It is reasonably possible that a portion of the unresolved items could be resolved during the next 12 months, which could result in a decrease in our balance of "unrecognized tax benefits" - that is, the aggregate tax effect of differences between tax return positions and the benefits recognized in our financial statements. We believe that there are no other jurisdictions in which the outcome of unresolved issues or claims is likely to be material to our results of operations, financial position or cash flows. We further believe that we have made adequate provision for all income tax uncertainties.

Other (including AOCI)(a)(b)	(3)	39	(10)	(40)
Ending balance at June 30	\$1,634	\$1,693	\$1,634	\$1,693

(a) Includes research & development partner funding arrangements and acquisitions.

2016 included \$(123) million for deconsolidation of investment funds managed by GE Asset Management

(b)(GEAM) upon the adoption of ASU 2015-02, Amendments to the Consolidation Analysis, and prior to the July 1, 2016 sale of GEAM.

REDEEMABLE NONCONTROLLING INTERESTS

Redeemable noncontrolling interests presented in our statement of financial position include common shares issued by our affiliates that are redeemable at the option of the holder of those interests.

As part of the Alstom acquisition, we formed three joint ventures with Alstom in grid technology, renewable energy, and global nuclear and French steam power. Noncontrolling interests in these joint ventures hold certain redemption rights. These joint ventures and the associated redemption rights are discussed in Note 8 of our Annual Report on Form 10-K for the fiscal year ended December 31, 2016. Our retained earnings is adjusted for subsequent changes in the redemption value of the noncontrolling interest in these entities to the extent that the redemption value exceeds the carrying amount of the noncontrolling interest.

CHANGES TO REDEEMABLE NONCONTROLLING INTERESTS

	Three months ended June 30		Six months ended June 30	
(In millions)	2017	2016	2017	2016
Beginning balance	\$3,054	\$3,036	\$3,025	\$2,972
Net earnings (loss)	(28)	(86)	(109)	(139)
Dividends	—	—	(11)	(9)
Redemption value adjustment	43	79	114	110
Other	125	42	173	135
Ending balance at June 30(a)	\$3,193	\$3,070	\$3,193	\$3,070

(a) Included \$2,894 million and \$2,950 million related to the Alstom joint ventures at June 30, 2017 and 2016, respectively.

OTHER

Dividends from GE Capital to GE totaled \$2,105 million, including cash dividends of \$2,016 million, and \$3,500 million in the three months ended June 30, 2017 and 2016, respectively and \$4,105 million, including cash dividends of \$4,016 million, and \$11,000 million in the six months ended June 30, 2017 and 2016, respectively. Dividends on GE preferred stock totaled \$182 million, including cash dividends of \$147 million and \$152 million, including cash dividends of \$120 million in the three months ended June 30, 2017 and 2016, respectively, and \$216 million, including cash dividends of \$147 million and \$441 million, including cash dividends of \$185 million in the six months ended June 30, 2017 and 2016, respectively. Dividends on GE preferred stock are payable semi-annually, in June and December, and accretion is recorded on a quarterly basis.

Our unvested restricted stock unit awards that contain non-forfeitable rights to dividends or dividend equivalents are considered participating securities. For the three months ended June 30, 2017 pursuant to the two-class method, as a result of excess dividends in respect to the current period earnings, losses were not allocated to the participating securities. For the three months ended June 30, 2016, participating securities are included in the computation of earnings per share pursuant to the two-class method and the application of this treatment had an insignificant effect. For the six months ended June 30, 2017 and 2016, pursuant to the two-class method, as a result of excess dividends in respect to the current period earnings, losses were not allocated to the participating securities.

(b) Included an insignificant amount of dividend equivalents in each of the periods presented.

86 2017 2Q FORM 10-Q

NOTES TO
FINANCIAL STATEMENTS
CONSOLIDATED
FINANCIAL
STATEMENTS

For the three months ended June 30, 2017 and 2016, approximately 33 million and 25 million of outstanding stock awards were not included in the computation of diluted earnings per share because their effect was antidilutive. For the six months ended June 30, 2017 and 2016, approximately 26 million and 28 million of outstanding stock awards were not included in the computation of diluted earnings per share because their effect was antidilutive.

Earnings per share amounts are computed independently for earnings from continuing operations, loss from discontinued operations and net earnings. As a result, the sum of per-share amounts from continuing operations and discontinued operations may not equal the total per-share amounts for net earnings.

NOTE 16. FINANCIAL INSTRUMENTS

The following table provides information about assets and liabilities not carried at fair value. The table excludes finance leases and non-financial assets and liabilities. Substantially all of the assets discussed below are considered to be Level 3. The vast majority of our liabilities' fair value can be determined based on significant observable inputs and thus considered Level 2. Few of the instruments are actively traded and their fair values must often be determined using financial models. Realization of the fair value of these instruments depends upon market forces beyond our control, including marketplace liquidity.

(In millions)	June 30, 2017		December 31, 2016	
	Carrying amount (net)	Estimated fair value	Carrying amount (net)	Estimated fair value
GE				
Assets				
Investments and notes receivable	\$ 1,305	\$ 1,355	\$ 1,526	\$ 1,595
Liabilities				
Borrowings(a)(b)	29,650	30,455	19,184	19,923
Borrowings (debt assumed)(a)(c)	52,291	59,603	60,109	66,998
GE Capital				
Assets				
Loans	19,740	19,774	21,060	20,830

DERIVATIVES AND HEDGING

FORMS OF HEDGING

In this section we explain the hedging methods we use and their effects on our financial statements.

Cash flow hedges – We use cash flow hedging primarily to reduce or eliminate the effects of foreign exchange rate changes on purchase and sale contracts in our industrial businesses and to convert foreign currency debt that we have issued in our financial services business back to our functional currency.

As part of our ongoing effort to reduce borrowings, we may repurchase debt that was in a cash flow hedge accounting relationship. At the time of determining that the debt cash flows are probable of not occurring any related OCI will be released to earnings.

FINANCIAL STATEMENT EFFECTS - CASH FLOW HEDGES

	Three months ended June 30		Six months ended June 30	
(In millions)	2017	2016	2017	2016
Balance sheet changes				
Fair value of derivatives increase (decrease)	\$34	\$11	\$56	\$(45)
Shareowners' equity (increase) decrease	(34)	(12)	(56)	45
Earnings (loss) related to ineffectiveness	—	—	—	1
Earnings (loss) effect of derivatives(a)	65	14	64	(71)
(a) Offsets earnings effect of the hedged forecasted transaction				

Fair value hedges – These derivatives are used to hedge the effects of interest rate and currency exchange rate changes on debt that we have issued.

FINANCIAL STATEMENT EFFECTS - FAIR VALUE HEDGES

	Three months ended June 30		Six months ended June 30	
(In millions)	2017	2016	2017	2016
Balance sheet changes				
Fair value of derivative increase (decrease)	\$(57)	\$888	\$(282)	\$2,610
Adjustment to carrying amount of hedged debt (increase) decrease	2	(933)	164	(2,688)
Earnings (loss) related to hedge ineffectiveness	(56)	(46)	(118)	(77)

Edgar Filing: GENERAL ELECTRIC CO - Form 10-Q

Net investment hedges – We invest in foreign operations that conduct their financial services activities in currencies other than the US dollar. We hedge the currency risk associated with those investments primarily using short-term currency exchange contracts under which we receive US dollars and pay foreign currency and non-derivative instruments such as debt denominated in a foreign currency.

FINANCIAL STATEMENT EFFECTS - NET INVESTMENT HEDGES

	Three months ended June 30		Six months ended June 30	
(In millions)	2017	2016	2017	2016
Balance sheet changes

FINANCIAL STATEMENTS

NOTES TO
CONSOLIDATED
FINANCIAL
STATEMENTS

Economic Hedges - These derivatives are not designated as hedges from an accounting standpoint (and therefore we do not apply hedge accounting to the relationship) but otherwise serve the same economic purpose as other hedging arrangements. We use economic hedges when we have exposures to currency exchange risk for which we are unable to meet the requirements for hedge accounting or when changes in the carrying amount of the hedged item are already recorded in earnings in the same period as the derivative making hedge accounting unnecessary. Even though the derivative is an effective economic hedge, there may be a net effect on earnings in each period due to differences in the timing of earnings recognition between the derivative and the hedged item.

FINANCIAL STATEMENT EFFECTS - ECONOMIC HEDGES

(In millions)	Three months ended June 30		Six months ended June 30	
	2017	2016	2017	2016
Balance sheet changes				
Change in fair value of economic hedge increase (decrease)	\$979	\$157	\$641	\$(122)
Change in carrying amount of item being hedged increase (decrease)	(1,180)	(286)	(956)	(198)
Earnings (loss) effect of economic hedges(a)	(200)	(130)	(315)	(321)
(a) Offset by the future earnings effects of economically hedged item.				

NOTIONAL AMOUNT OF DERIVATIVES

The notional amount of a derivative is the number of units of the underlying (for example, the notional principal amount of the debt in an interest rate swap). The notional amount is used to compute interest or other payment streams to be made under the contract and is a measure of our level of activity. We generally disclose derivative notional amounts on a gross basis. A substantial majority of the outstanding notional amount of \$173 billion at June 30, 2017 is related to managing interest rate and currency risk between financial assets and liabilities in our financial services business. The remaining derivative notional amount primarily relates to hedges of anticipated sales and purchases in foreign currency, commodity purchases and contractual terms in contracts that are considered embedded derivatives.

The table below provides additional information about how derivatives are reflected in our financial statements.

CARRYING AMOUNTS RELATED TO DERIVATIVES

(In millions)	June 30, December 31,	
	2017	2016
Derivative assets	\$4,077	\$ 5,467
Derivative liabilities	(2,511)	(4,883)

EFFECTS OF DERIVATIVES ON EARNINGS

All derivatives are marked to fair value on our balance sheet, whether they are designated in a hedging relationship for accounting purposes or are used as economic hedges.

(In millions)	Three months ended June 30			Six months ended June 30		
	Effect on hedging instrument	Effect on underlying earnings	Effect on earnings	Effect on hedging instrument	Effect on underlying earnings	Effect on earnings
2017						
Cash flow hedges	\$34	\$ (34)	\$ —	\$56	\$ (56)	\$ —
Fair value hedges	(57)	2	(56)	(282)	164	(118)
Net investment hedges(a)	(487)	490	3	(1,050)	1,063	13
Economic hedges(b)	979	(1,180)	(200)	641	(956)	(315)
Total			\$ (253)			\$ (420)
2016						
Cash flow hedges	\$11	\$ (12)	\$ —	\$(45)	\$ 45	\$ 1
Fair value hedges	888	(933)	(46)	2,610	(2,688)	(77)
Net investment hedges(a)	(604)	609	5	(2)	40	37
Economic hedges(b)	157	(286)	(130)	(122)	(198)	(321)
Total			\$ (171)			\$ (360)

The amounts in the table above generally do not include associated derivative accruals in income or expense.

(a) Both derivatives and non-derivatives hedging instruments are included.

(b) Net effect is substantially offset by the change in fair value of the hedged item that will affect earnings in future periods.

See Note 14 for additional information about changes in shareowners' equity related to hedging and amounts released to earnings.

See Note 21 for other supplemental information about derivatives and hedging.

NOTE 17. VARIABLE INTEREST ENTITIES

A VIE is an entity that has one of three characteristics: (1) it is controlled by someone other than its shareowners or partners, (2) its shareowners or partners are not economically exposed to the entity's earnings (for example, they are protected against losses), or (3) it was thinly capitalized when it was formed.

In the normal course of business we become involved with VIEs either because we help create them or we invest in them. Our VIEs either provide goods and services to customers or provide financing to third parties for the purchase

of GE goods and services. If we control the VIE, we consolidate it and provide disclosure below. However, if the VIE is a business and use of its assets is not limited to settling its liabilities, ongoing disclosures are not required.

CONSOLIDATED VARIABLE INTEREST ENTITIES

Our most significant consolidated VIEs are the three joint ventures that were formed as part of the Alstom acquisition. These joint ventures include grid technology, renewable energy, and global nuclear and French steam power and have combined assets, liabilities and redeemable non-controlling interest as of June 30, 2017 and December 31, 2016 of \$16,193 million, \$9,006 million and \$2,894 million and \$14,460 million, \$9,922 million and \$2,709 million, respectively. These joint ventures are considered VIEs because the equity held by Alstom does not participate fully in the earnings of the ventures due to contractual features allowing Alstom to sell their interests back to GE. We consolidate these ventures because we control all their significant activities. These joint ventures are in all other respects regular businesses and are therefore exempt from ongoing disclosure requirements for consolidated VIEs provided below.

The table below provides information about consolidated VIEs that are subject to ongoing disclosure requirements. Substantially all of these entities were created to help our customers finance the purchase of GE goods and services or to purchase GE customer notes receivable arising from sales of GE goods and services. These entities have no features that could expose us to losses that could significantly exceed the difference between the consolidated assets and liabilities.

Total	\$458	\$1,779	\$2,316	\$4,553

(a) Two funding vehicles established to purchase customer notes receivable from GE, one of which is partially funded by third-party debt.

Total revenues from our consolidated VIEs were \$256 million and \$439 million for the three months ended June 30, 2017 and 2016, respectively and \$508 million and \$794 million in the six months ended June 30, 2017 and 2016, respectively. Related expenses consisted primarily of cost of goods and services of \$83 million and \$257 million for the three months ended June 30, 2017 and 2016, respectively and \$178 million and \$601 million in the six months ended June 30, 2017 and 2016, respectively.

Where we provide servicing for third-party investors, we are contractually permitted to commingle cash collected from customers on financing receivables sold to third-party investors with our own cash prior to payment to

third-party investors, provided our short-term credit rating does not fall below A-1/P1. These third-party investors also owe us amounts for purchased financial assets and scheduled interest and principal payments. At June 30, 2017 and December 31, 2016, the amounts of commingled cash owed to the third-party investors were \$1,123 million and \$1,117 million, respectively, and the amounts owed to us by third-party investors were \$10 million and \$5 million, respectively.

UNCONSOLIDATED VARIABLE INTEREST ENTITIES

We become involved with unconsolidated VIEs primarily through assisting in the formation and financing of the entity. We do not consolidate these entities because we do not have power over decisions that significantly affect their economic performance. Our investments in unconsolidated VIEs, at June 30, 2017 and December 31, 2016 were \$6,210 million and \$6,346 million, respectively. Substantially all of these investments are held by Energy Financial Services. Obligations to make additional investments in these entities are not significant.

FINANCIAL STATEMENTS
NOTES TO
CONSOLIDATED
FINANCIAL
STATEMENTS

NOTE 18. COMMITMENTS, GUARANTEES, PRODUCT WARRANTIES AND OTHER LOSS
CONTINGENCIES

COMMITMENTS

The GE Capital Aviation Services (GECAS) business in GE Capital had placed multiple-year orders for various Boeing, Airbus and other aircraft manufacturers with list prices approximating \$39,374 million and secondary orders with airlines for used aircraft of approximately \$1,894 million at June 30, 2017. In our Aviation segment, we had committed to provide financing assistance of \$1,911 million of future customer acquisitions of aircraft equipped with our engines.

GUARANTEES

Our guarantees are provided in the ordinary course of business. We underwrite these guarantees considering economic, liquidity and credit risk of the counterparty. We believe that the likelihood is remote that any such arrangements could have a significant adverse effect on our financial position, results of operations or liquidity. We record liabilities for guarantees at estimated fair value, generally the amount of the premium received, or if we do not receive a premium, the amount based on appraisal, observed market values or discounted cash flows. Any associated expected recoveries from third parties are recorded as other receivables, not netted against the liabilities.

At June 30, 2017, we were committed under the following guarantee arrangements beyond those provided on behalf of VIEs. See Note 17.

Credit Support. We have provided \$2,282 million of credit support on behalf of certain customers or associated companies, predominantly joint ventures and partnerships, using arrangements such as standby letters of credit and performance guarantees. These arrangements enable these customers and associated companies to execute transactions or obtain desired financing arrangements with third parties. Should the customer or associated company fail to perform under the terms of the transaction or financing arrangement, we would be required to perform on their behalf. Under most such arrangements, our guarantee is secured, usually by the asset being purchased or financed, or possibly by certain other assets of the customer or associated company. The length of these credit support arrangements parallels the length of the related financing arrangements or transactions. The liability for such credit support was \$44 million at June 30, 2017.

Indemnification Agreements – Continuing Operations. We have agreements that require us to fund up to \$210 million at June 30, 2017 under residual value guarantees on a variety of leased equipment. Under most of our residual value guarantees, our commitment is secured by the leased asset. The liability for these indemnification agreements was \$7 million at June 30, 2017.

At June 30, 2017, we also had \$1,051 million of other indemnification commitments, substantially all of which relate to representations and warranties in sales of businesses or assets. The liability for these indemnification commitments was \$234 million at June 30, 2017.

Indemnification Agreements – Discontinued Operations. At June 30, 2017, we provided specific indemnifications to buyers of GE Capital's assets that amounted to \$2,611 million, for which we have recognized related liabilities of \$305 million. In addition, in connection with the 2015 public offering and sale of our North American Retail Finance

business, Synchrony Financial, GE Capital indemnified Synchrony Financial and its directors, officers, and employees against the liabilities of GECC's businesses other than historical liabilities of the businesses that are part of Synchrony Financial's ongoing operations.

Contingent Consideration. These are agreements to provide additional consideration to a buyer or seller in a business combination if contractually specified conditions related to the acquisition or disposition are achieved. Amount of contingent consideration was insignificant at June 30, 2017.

PRODUCT WARRANTIES

We provide for estimated product warranty expenses when we sell the related products. Because warranty estimates are forecasts that are based on the best available information – mostly historical claims experience – claims costs may differ from amounts provided. An analysis of changes in the liability for product warranties follows.

OTHER LOSS CONTINGENCIES

LEGAL MATTERS

WMC. During the fourth quarter of 2007, we completed the sale of WMC, our U.S. mortgage business. WMC substantially discontinued all new loan originations by the second quarter of 2007, and is not a loan servicer. In connection with the sale, WMC retained certain representation and warranty obligations related to loans sold to third parties prior to the disposal of the business and contractual obligations to repurchase previously sold loans that had an early payment default. All claims received by WMC for early payment default have either been resolved or are no longer being pursued.

The remaining active claims have been brought by securitization trustees or administrators seeking recovery from WMC for alleged breaches of representations and warranties on mortgage loans that serve as collateral for residential mortgage-backed securities (RMBS). At June 30, 2017, such claims consisted of \$1,019 million of individual claims generally submitted before the filing of a lawsuit (compared to \$1,060 million at December 31, 2016) and \$5,435 million of additional claims asserted against WMC in litigation without making a prior claim (Litigation Claims) (compared to \$5,456 million at December 31, 2016). The total amount of these claims, \$6,454 million, reflects the purchase price or unpaid principal balances of the loans at the time of purchase and does not give effect to pay downs or potential recoveries based upon the underlying collateral, which in many cases are substantial, nor to accrued interest or fees. WMC believes that repurchase claims brought based upon representations and warranties made more than six years before WMC was notified of the claim would be disallowed in legal proceedings under applicable law and the June 11, 2015 decision of the New York Court of Appeals in *ACE Securities Corp. v. DB Structured Products, Inc.*, on the statute of limitations period governing such claims.

Reserves related to repurchase claims made against WMC were \$636 million at June 30, 2017, reflecting a net increase to reserves in the six months ended June 30, 2017 of \$10 million. The reserve estimate takes into account recent settlement activity and is based upon WMC's evaluation of the remaining exposures as a percentage of estimated lifetime mortgage loan losses within the pool of loans supporting each securitization for which timely claims have been asserted in litigation against WMC. Settlements in prior periods reduced WMC's exposure on claims asserted in certain securitizations and the claim amounts reported above give effect to these settlements.

ROLLFORWARD OF THE RESERVE

Edgar Filing: GENERAL ELECTRIC CO - Form 10-Q

	Three months ended June 30		Six months ended June 30	
(In millions)	2017	2016	2017	2016
Balance, beginning of period	\$626	\$833	\$626	\$875
Provision	10	27	10	84
Claim resolutions / rescissions	—	—	—	(99)
Balance, end of period	\$636	\$860	\$636	\$860

Given the significant litigation activity and WMC's continuing efforts to resolve the lawsuits involving claims made against WMC, it is difficult to assess whether future losses will be consistent with WMC's past experience. Adverse changes to WMC's assumptions supporting the reserve may result in an increase to these reserves. WMC estimates a range of reasonably possible loss from \$0 to approximately \$500 million over its recorded reserve at June 30, 2017. This estimate involves significant judgment and may not reflect the range of uncertainties and unpredictable outcomes inherent in litigation, including the matters discussed in Legal Proceedings and potential changes in WMC's legal strategy. This estimate excludes any possible loss associated with an adverse court decision on the applicable statute of limitations or an adverse outcome in the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA) investigation discussed in Legal Proceedings, as WMC is unable at this time to develop such a meaningful estimate.

FINANCIAL STATEMENTS
NOTES TO
CONSOLIDATED
FINANCIAL
STATEMENTS

At June 30, 2017, there were 10 lawsuits involving claims made against WMC arising from alleged breaches of representations and warranties on mortgage loans included in 11 securitizations. The adverse parties in these cases are securitization trustees or parties claiming to act on their behalf. As discussed in Legal Proceedings, five of these lawsuits are the subject of settlement agreements approved by a California state court. On January 23, 2017, the ResCap Liquidating Trust, as successor to Residential Funding Company, LLC (RFC), filed a lawsuit against WMC in the United States District Court for the District of Minnesota arising from alleged breaches in representations and warranties made by WMC in connection with the sale of approximately \$840 million in loans to RFC over a period of time preceding RFC's filing for bankruptcy protection in May 2012. Although the alleged claims for relief vary from case to case, the complaints and counterclaims in these actions generally assert claims for breach of contract, indemnification, and/or declaratory judgment, and seek specific performance (repurchase of defective mortgage loan) and/or money damages. Adverse court decisions, including in cases not involving WMC, could result in new claims and lawsuits on additional loans. However, WMC continues to believe that it has defenses to the claims asserted in litigation, including, for example, based on causation and materiality requirements and applicable statutes of limitations. It is not possible to predict the outcome or impact of these defenses and other factors, any of which could materially affect the amount of any loss ultimately incurred by WMC on these claims.

WMC has also received indemnification demands, nearly all of which are unspecified, from depositors/underwriters/sponsors of RMBS or securitization trustees in connection with actual or potential claims concerning alleged misrepresentations in the securitization offering documents to which WMC is not a party, mortgage loan repurchase claims made against RMBS sponsors or other claims involving alleged defects in loans sold by WMC. WMC believes that it has defenses to these demands.

To the extent WMC is required to repurchase loans, WMC's loss also would be affected by several factors, including pay downs, accrued interest and fees, and the value of the underlying collateral. The reserve and estimate of possible loss reflect judgment, based on currently available information, and a number of assumptions, including economic conditions, claim and settlement activity, pending and threatened litigation, court decisions regarding WMC's legal defenses, indemnification demands, government activity, and other variables in the mortgage industry. Actual losses arising from claims against WMC could exceed these amounts and additional claims and lawsuits could result if actual claim rates, governmental actions, litigation and indemnification activity, adverse court decisions, actual settlement rates or losses WMC incurs on repurchased loans differ from its assumptions.

Alstom legacy matters. On November 2, 2015, we acquired the Thermal, Renewables and Grid businesses from Alstom. Prior to the acquisition, the seller was the subject of two significant cases involving anti-competitive activities and improper payments: (1) in January 2007, Alstom was fined €65 million by the European Commission for participating in a gas insulated switchgear cartel that operated from 1988 to 2004 (that fine was later reduced to €59 million), and (2) in December 2014, Alstom pled guilty in the United States to multiple violations of the Foreign Corrupt Practices Act and paid a criminal penalty of \$772 million. As part of GE's accounting for the acquisition, we established a reserve amounting to \$858 million for legal and compliance matters related to the legacy business practices that were the subject of these and related cases in various jurisdictions.

Regardless of jurisdiction, the allegations relate to claimed anti-competitive conduct or improper payments in the pre-acquisition period as the source of legal violations and/or damages. Given the significant litigation and compliance activity related to these matters and our ongoing efforts to resolve them, it is difficult to assess whether the disbursements will ultimately be consistent with the reserve established. The estimation of this reserve involved significant judgment and may not reflect the full range of uncertainties and unpredictable outcomes inherent in

litigation and investigations of this nature. Damages sought may include disgorgement of profits on the underlying business transactions, fines and/or penalties, interest, or other forms of resolution. Factors that can affect the ultimate amount of losses associated with these matters include the way cooperation is assessed and valued, prosecutorial discretion in the determination of damages, formulas for determining fines and penalties, the duration and amount of legal and investigative resources applied, and political and social influences within each jurisdiction, among other considerations. Actual losses arising from claims in these matters could exceed the amount provided. At this time, we are unable to develop a meaningful estimate of the range of reasonably possible additional losses for this exposure.

ENVIRONMENTAL MATTERS

Our operations, like operations of other companies engaged in similar businesses, involve the use, disposal and cleanup of substances regulated under environmental protection laws. We are involved in numerous remediation actions to clean up hazardous wastes as required by federal and state laws. Liabilities for remediation costs exclude possible insurance recoveries and, when dates and amounts of such costs are not known, are not discounted. When there appears to be a range of possible costs with equal likelihood, liabilities are based on the low end of such range. It is reasonably possible that our environmental remediation exposure will exceed amounts accrued. However, due to uncertainties about the status of laws, regulations, technology and information related to individual sites, such amounts are not reasonably estimable. For further information, see our Annual Report on Form 10-K for the fiscal year ended December 31, 2016.

NOTE 19. INTERCOMPANY TRANSACTIONS

Transactions between related companies are made on an arms-length basis and are reported in the respective GE and GE Capital columns of our financial statements, but are eliminated in deriving our consolidated financial statements. These transactions include, but are not limited to, the following:

• GE Capital dividends to GE,
• GE Capital working capital solutions to optimize GE cash management,
• GE Capital enabled GE industrial orders, and
• Aircraft engines, power equipment, renewable energy equipment and healthcare equipment manufactured by GE that are installed on GE Capital investments, including leased equipment.

In addition to the above transactions that primarily enable growth for the GE businesses, there are routine related party transactions, which include, but are not limited to, the following:

• Expenses related to parent-subsidary pension plans,
• Buildings and equipment leased between GE and GE Capital, including sale-leaseback transactions,
• Information technology (IT) and other services sold to GE Capital by GE
• Settlements of tax liabilities, and
• Various investments, loans and allocations of GE corporate overhead costs.

Presented below is a walk of intercompany eliminations from the combined GE and GE Capital totals to the consolidated cash flows from continuing operations.

NOTE 20. GUARANTOR FINANCIAL INFORMATION

GUARANTOR AND NON-GUARANTOR CONDENSED CONSOLIDATING FINANCIAL INFORMATION

On October 26, 2015, GE Capital International Funding Company Unlimited Company, formerly GE Capital International Funding Company (the Issuer), then a finance subsidiary of General Electric Capital Corporation, settled its previously announced private offers to exchange (the Exchange Offers) the Issuer's new senior unsecured notes for certain outstanding debt securities of General Electric Capital Corporation.

The new notes that were issued were fully and unconditionally, jointly and severally guaranteed by both the Company and GE Capital International Holdings Limited (GECIHL) (each a Guarantor, and together, the Guarantors).

Under the terms of a registration rights agreement entered into in connection with the Exchange Offers, the Issuer and the Company agreed to file a registration statement with the U.S. Securities and Exchange Commission (SEC) for an offer to exchange new senior notes of the Issuer registered with the SEC and guaranteed by the Guarantors for certain of the Issuer's outstanding unregistered senior notes. This exchange was completed in July 2016.

PRESENTATION

In connection with the registration of the senior notes, the Company is required to provide certain financial information regarding the Issuer and the Guarantors of the registered securities. Included are the Condensed Consolidating Statements of Earnings and Comprehensive Income for the three months ended June 30, 2017 and 2016 and six months ended June 30, 2017 and 2016, Condensed Consolidating Statements of Financial Position as of June 30, 2017 and December 31, 2016 and Condensed Consolidating Statements of Cash Flows for the six months ended June 30, 2017 and 2016 for:

- General Electric Company (the Parent Company Guarantor) - prepared with investments in subsidiaries accounted for under the equity method of accounting and excluding any inter-segment eliminations;
- GE Capital International Funding Company Unlimited Company (the Subsidiary Issuer) – finance subsidiary for debt;
- GE Capital International Holdings Limited (GECIHL) (the Subsidiary Guarantor) - prepared with investments in non-guarantor subsidiaries accounted for under the equity method of accounting;
- Non-Guarantor Subsidiaries - prepared on an aggregated basis excluding any elimination or consolidation adjustments and includes predominantly all non-cash adjustments for cash flows;
- Consolidating Adjustments - adjusting entries necessary to consolidate the Parent Company Guarantor with the Subsidiary Issuer, the Subsidiary Guarantor and Non-Guarantor Subsidiaries; and
- Consolidated - prepared on a consolidated basis.

NOTE 21. SUPPLEMENTAL INFORMATION

CASH FLOWS INFORMATION

Amounts reported in the "All other operating activities" line in the Statement of Cash Flows reflect cash sources and uses as well as non-cash adjustments to net income including those related to taxes, interest, pension, contract assets and gains (losses) on principal business dispositions. Certain supplemental information related to our cash flows is shown below.

(In millions)	Six months ended June 30	
	2017	2016
GE		
All other operating activities		
(Gains) losses on purchases and sales of business interests	\$(42)	\$(3,140)
Contract assets (net)(a)	(3,202)	(2,431)
Income taxes(b)	(709)	(1,184)
Interest charges(c)	353	182
Principal pension plans(d)	1,542	1,680
Other	(1,122)	(114)
	\$(3,180)	\$(5,007)
Net dispositions (purchases) of GE shares for treasury		
Open market purchases under share repurchase program	\$(3,344)	\$(14,244)
Other purchases	—	(776)
Dispositions	612	726
	\$(2,732)	\$(14,292)

(a) Contract assets are presented net of related billings in excess of revenues on our long-term product service agreements. See Note 9.

(b) Reflected the effects of current tax expense (benefit) of \$583 million and \$500 million and net cash paid during the year for income taxes of \$(1,292) million and \$(1,684) million for the six months ended June 30, 2017 and 2016, respectively. Cash flows effects of deferred tax provisions (benefits) are shown separately within cash flows from operating activities.

(c) Reflected the effects of interest expense of \$1,200 million and \$1,007 million and cash paid for interest of \$(848) million and \$(825) million for the six months ended June 30, 2017 and 2016, respectively.

(d) Reflected the effects of pension costs of \$1,869 million and \$1,780 million and employer contributions of \$(327) million and \$(100) million for the six months ended June 30, 2017 and 2016, respectively. See Note 12.

DERIVATIVES AND HEDGING

See Note 16 for the primary information related to our derivatives and hedging activity. This section provides certain supplemental information about this topic.

Changes in the fair value of derivatives are recorded in a separate component of equity (referred to below as Accumulated Other Comprehensive Income, or AOCI) and are recorded in earnings in the period in which the hedged transaction occurs. The table below summarizes this activity by hedging instrument.

102 2017 2Q FORM 10-Q

STATEMENTS

FAIR VALUE OF DERIVATIVES

(In millions)	June 30, 2017		December 31, 2016	
	Assets	Liabilities	Assets	Liabilities
Derivatives accounted for as hedges				
Interest rate contracts	\$2,728	\$ 109	\$3,106	\$ 210
Currency exchange contracts	62	160	402	624
Other contracts	—	—	—	—
	2,790	269	3,508	834
Derivatives not accounted for as hedges				
Interest rate contracts	58	10	62	20
Currency exchange contracts	1,132	2,199	1,778	4,011
Other contracts	97	34	119	17
	1,287	2,242	1,958	4,048
Gross derivatives recognized in statement of financial position				
Gross derivatives	4,077	2,511	5,467	4,883
Gross accrued interest	470	(13)	768	(24)
	4,547	2,497	6,234	4,859
Amounts offset in statement of financial position				
Netting adjustments(a)	(1,606)	(1,605)	(3,097)	(3,094)
Cash collateral(b)	(2,059)	(462)	(2,025)	(1,355)
	(3,665)	(2,066)	(5,121)	(4,449)
Net derivatives recognized in statement of financial position				
Net derivatives	882	431	1,113	410
Amounts not offset in statement of financial position				
Securities held as collateral(c)	(432)	—	(442)	—
Net amount	\$450	\$ 431	\$671	\$ 410

Derivatives are classified in the captions "All other assets" and "All other liabilities" and the related accrued interest is classified in "Other GE Capital receivables" and "All other liabilities" in our Statement of Financial Position.

The netting of derivative receivables and payables is permitted when a legally enforceable master netting agreement exists. Amounts include fair value adjustments related to our own and counterparty non-performance risk. At June 30, 2017 and December 31, 2016, the cumulative adjustment for non-performance risk was \$(1) million and \$(3) million, respectively.

(b) Excluded excess cash collateral received and posted of \$284 million and \$142 million at June 30, 2017, respectively, and \$6 million and \$177 million at December 31, 2016, respectively.

(c) Excluded excess securities collateral received of \$68 million and zero at June 30, 2017 and December 31, 2016, respectively.

FINANCIAL STATEMENTS CONSOLIDATED
FINANCIAL
STATEMENTS

CASH FLOW HEDGE ACTIVITY

	Gain (loss) recognized in AOCI for the three months ended June 30		Gain (loss) reclassified from AOCI into earnings for the three months ended June 30	
(In millions)	2017	2016	2017	2016
Interest rate contracts	\$ 3	\$ 12	\$(6)	\$(26)
Currency exchange contracts	32	1	71	40
Commodity contracts	(2)	(1)	—	(1)
Total(a)	\$ 34	\$ 12	\$ 65	\$ 14

CASH FLOW HEDGE ACTIVITY

	Gain (loss) recognized in AOCI for the six months ended June 30		Gain (loss) reclassified from AOCI into earnings for the six months ended June 30	
(In millions)	2017	2016	2017	2016
Interest rate contracts	\$ 2	\$ 31	\$(15)	\$(55)
Currency exchange contracts	54	(77)	79	(13)
Commodity contracts	—	—	—	(3)
Total(a)	\$ 56	\$ (45)	\$ 64	\$(71)

(a) Gain (loss) is recorded in "GE Capital revenues from services", "Interest and other financial charges", and "Other costs and expenses" in our Statement of Earnings when reclassified.

The total pre-tax amount in AOCI related to cash flow hedges of forecasted transactions was a \$41 million gain at June 30, 2017. We expect to transfer \$18 million loss to earnings as an expense in the next 12 months contemporaneously with the earnings effects of the related forecasted transactions. In both the six months ended 2017 and 2016, we recognized insignificant gains and losses related to hedged forecasted transactions and firm commitments that did not occur by the end of the originally specified period. At June 30, 2017 and 2016, the maximum term of derivative instruments that hedge forecasted transactions was 15 years and 16 years, respectively. See Note 14 for additional information about reclassifications out of AOCI.

For cash flow hedges, the amount of ineffectiveness in the hedging relationship and amount of the changes in fair value of the derivatives that are not included in the measurement of ineffectiveness were insignificant for each reporting period.

COUNTERPARTY CREDIT RISK

Fair values of our derivatives can change significantly from period to period based on, among other factors, market movements and changes in our positions. We manage counterparty credit risk (the risk that counterparties will default and not make payments to us according to the terms of our agreements) on an individual counterparty basis. Where we have agreed to netting of derivative exposures with a counterparty, we net our exposures with that counterparty and apply the value of collateral posted to us to determine the exposure. We actively monitor these net exposures against defined limits and take appropriate actions in response, including requiring additional collateral.

As discussed above, we have provisions in certain of our master agreements that require counterparties to post collateral (typically, cash or U.S. Treasury securities) when our receivable due from the counterparties, measured at current market value, exceeds a specified limit. The fair value of such collateral was \$2,491 million at June 30, 2017, of which \$2,059 million was cash and \$432 million was in the form of securities held by a custodian for our benefit. Under certain of these same agreements, we post collateral to our counterparties for our derivative obligations, the fair value of which was \$462 million at June 30, 2017. At June 30, 2017, our exposure to counterparties (including accrued interest), net of collateral we hold, was \$320 million. This excludes exposure related to embedded derivatives.

Additionally, our master agreements typically contain mutual downgrade provisions that provide the ability of each party to require termination if the long-term credit rating of the counterparty were to fall below A-/A3 or other ratings levels agreed upon with the counterparty. In certain of these master agreements, each party also has the ability to require termination if the short-term rating of the counterparty were to fall below A-1/P-1. Our master agreements also typically contain provisions that provide termination rights upon the occurrence of certain other events, such as a bankruptcy or events of default by one of the parties. If an agreement was terminated under any of these circumstances, the termination amount payable would be determined on a net basis and could also take into account any collateral posted. The net amount of our derivative liability, after consideration of collateral posted by us and outstanding interest payments was \$367 million at June 30, 2017. This excludes exposure related to embedded derivatives.
