ITEM 7. FINANCIAL STATEMENTS AND EXHIBITS.

(c) Exhibits

Exhibit 99(a) - Press Release issued April 24, 2003 regarding earnings for the quarter ended March 31, 2003

ITEM 9. REGULATION FD DISCLOSURE

This Current Report on Form 8-K and the press release incorporated by reference herein are furnished by National Fuel Gas Company (the "Company") pursuant to Item 9 and Item 12 of Form 8-K.

On April 24, 2003, the Company issued a press release regarding its earnings for the quarter ended March 31, 2003. A copy of this press release is hereby incorporated by reference and furnished as part of this Current Report as Exhibit 99(a).

Neither the furnishing of the press release as an exhibit to this Current Report nor the inclusion in such press release of a reference to the Company's internet address shall, under any circumstances, be deemed to incorporate the information available at such internet address into this Current Report. The information available at the Company's internet address is not part of this Current Report or any other report filed or furnished by the Company with the Securities and Exchange Commission.

In addition to financial measures calculated in accordance with generally accepted accounting principles in the United States ("GAAP"), the press release contains non-GAAP financial measures that exclude certain profit and loss items described in the press release. The Company believes that such non-GAAP financial measures are useful to investors because they provide an alternative method for assessing the Company's operating results in a manner that is focused on the performance of the Company's ongoing operations. The Company's management uses these non-GAAP financial measures for the same purpose, and for planning and forecasting purposes. The presentation of these additional measures is not meant to be considered a substitute for financial measures prepared in accordance with GAAP.

The Company held a public conference call on April 25, 2003. During the course of that call, the Company projected third quarter earnings for fiscal 2003 to be within the range of \$0.28 to \$0.33 per share.* Also during the course of the conference call, the Company indicated that the sensitivity of its projected fiscal 2003 earnings to changes in natural gas and oil prices from the Company's stated assumptions is as follows: for every \$0.25/MCF change in the weighted average price of natural gas for the year received by Seneca, the Company's earnings per diluted share would move in the same direction by about \$0.03 per diluted share, and for every \$1.00/BBL change in the weighted average price of oil for the year received by Seneca, the Company's earnings per diluted share would move in the same direction by about \$0.03 per diluted share.* These sensitivity figures are calculated on the basis of hedge transactions currently in place, and may change as Seneca enters into additional hedge transactions.* The sensitivity figures do not take into account any potential impact of natural gas and oil price changes on the valuation of the Company's natural gas and oil reserves.*

* Certain statements contained herein or incorporated by reference from the press release, including statements regarding earnings projections and statements designated with an asterisk ("*"), are "forward-looking statements" as defined by the Private Securities Litigation Reform Act of 1995. There is no assurance that the Company's projections will in fact be achieved nor do these projections reflect any acquisitions or divestitures that may occur during fiscal 2003. While the Company's expectations, beliefs and projections are expressed in good faith and are believed to have a reasonable basis, actual results may differ materially from those in the forward-looking statement. Furthermore, each forward-looking statement speaks only as of the date on which it is made, and the Company undertakes no obligation to update the statement to reflect events or circumstances after the date on which it is made or to reflect the occurrence of unanticipated events. In addition to other factors, the following are important factors that could cause actual results to differ materially from those discussed in the forward-looking statements: changes in economic conditions, including economic disruptions caused by terrorist activities or acts of war; changes in demographic patterns or weather conditions; changes in the availability and/or price of natural gas and oil; inability to obtain new customers or retain existing ones; significant changes in competitive factors affecting the Company; governmental/regulatory actions, initiatives and proceedings, including those affecting acquisitions, financings, allowed rates of return, industry and rate structure, franchise renewal, and environmental/safety requirements; unanticipated impacts of restructuring initiatives in the natural gas and electric industries; significant changes from expectations in actual capital expenditures and operating expenses and unanticipated project delays or changes in project costs; the nature and projected profitability of pending and potential projects and other investments; occurrences affecting the Company's ability to obtain funds from operations, debt or equity to finance needed capital expenditures and other investments; uncertainty of oil and gas reserve estimates; ability to successfully identify and finance oil and gas property acquisitions and ability to operate and integrate existing and any subsequently acquired business or properties; ability to successfully identify, drill for and produce economically viable natural gas and oil reserves; significant changes from expectations in the Company's actual production levels for natural gas or oil; changes in the availability and/or price of derivative financial instruments; changes in the price of natural gas or oil and the effect of such changes on

the accounting treatment or valuation of financial instruments or the Company's natural gas and oil reserves; inability of the various counterparties to meet their obligations with respect to the Company's financial instruments; regarding foreign operations, changes in trade and monetary policies inflation and exchange rates, taxes, operating conditions, laws and regulations related to foreign operations, and political and governmental changes; significant changes in tax rates or policies or in rates of inflation or interest; significant changes in the Company's relationship with its employees and contractors and the potential adverse effects if labor disputes, grievances or shortages were to occur; changes in accounting principles or the application of such principles to the Company; changes in laws and regulations to which the Company is subject, including tax, environmental, safety and employment laws and regulations; or the cost and effects of legal and administrative claims against the Company. The Company disclaims any obligation to update any forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
