### BHP ESTABLISHES ON MARKET SHARE BUY BACK PROGRAM

BHP Limited (BHP) today announced it would implement an on-market buyback program for the purchase of up to 90 million of its shares (approximately five per cent of issued capital).

The share buyback is in accordance with BHP's capital management disciplines to return funds to shareholders when capital and debt servicing requirements are met.

BHP Managing Director and CEO Paul Anderson said the share buyback is integral to the Company's approach to capital management.

"The Company's strong cash flow position, combined with our cost reduction program, asset sales and the rapid reduction in debt over the past 18 months, provides the opportunity for BHP to deliver on this component of its shareholder proposition," he said.

"The share buyback also supplements other BHP capital management initiatives, including debt reduction and lengthening of the debt maturity profile."

BHP will conduct the purchase of its shares on-market, and as such, individual shareholders are not required to take any action. No time period has been set for the share buyback.

The shares will be purchased opportunistically, subject to market conditions, debt levels and the operating environment, and subsequently cancelled.

BHP Chief Financial Officer Chip Goodyear said the on-market share buyback would provide the Company with substantial flexibility in terms of the timing and number of shares purchased.

"The share buyback is linked to the Company's operating and financial strategy and will be funded from cash flows which are in excess of those required for capital investment and repayment of debt," he said.

"The strength of BHP's cash flow means that it can accommodate an increased capital expenditure program in FY2001 of a projected A\$3.5 billion and exceed its targeted EBITDA interest coverage and book gearing levels of 8.0 times and 40 to 45 per cent respectively."
