Schedules required by the Employee Retirement Income Security Act of 1974, other than the schedule listed above, are omitted because of the absence of the conditions under which they are required.	

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To The AES Corporation Retirement Savings Plan Committee and Participants

Opinion on the Financial Statements

We have audited the accompanying statements of net assets available for benefits of The AES Corporation Retirement Savings Plan (the Plan) as of December 31, 2017 and 2016, and the related statement of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2017 and 2016, and the changes in its net assets available for benefits for the year ended December 31, 2017, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Plan’s management. Our responsibility is to express an opinion on the Plan’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Plan in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Plan’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Supplemental Schedule

The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2017, has been subjected to audit procedures performed in conjunction with the audit of the Plan’s financial statements. The information in the supplemental schedule is the responsibility of the Plan’s management. Our audit procedures included determining whether the information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the information, we evaluated whether such information, including its form and content, is presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

/s/ Ernst & Young LLP

We have served as the Plan's auditor since 2008.

Beginning of year	358,447,737
End of year	\$402,431,874

See accompanying notes to financial statements.

THE AES CORPORATION RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2017 AND 2016, AND FOR THE YEAR ENDED DECEMBER 31, 2017

1. PLAN DESCRIPTION

The AES Corporation Retirement Savings Plan (the “Plan”) was established on April 1, 1989. The following description of the Plan provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan’s provisions.

General — The Plan is a defined contribution plan covering substantially all full-time and part-time employees of The AES Corporation (the “Company” or “AES”) and its participating subsidiaries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). New employees are immediately able to participate in the Plan.

Contributions — All contributions to the Plan are made in cash. Participants may make pre-tax contributions up to 50% (prior to January 1, 2017, up to 20%) of their annual compensation as well as after-tax contributions subject to annual maximum limits determined by the Internal Revenue Service (the “IRS”).

The Company matches up to 5% of each participant’s annual compensation, as defined by the Plan, subject to the annual maximum determined by the IRS. Starting January 1, 2017, the Company makes non-elective contributions equal to 4% of the participant’s compensation, subject to the annual maximum limits determined by the IRS.

If the Company exceeds the midpoint of pre-defined financial metrics, the Company may contribute discretionary profit sharing of up to 1% of the participant’s compensation, at management’s discretion. The Company did not award any profit sharing contributions for the year ended December 31, 2017.

Participant Accounts — Each participant’s account is credited with the participant’s and the employer’s contributions, and the earnings on investments in the participant’s account. The benefit to which a participant is entitled is the vested portion that can be provided from the participant’s account.

Vesting — Participants are immediately vested in their pre-tax, after-tax and matching contributions including earnings thereon. Vesting in employer profit sharing and non-elective contributions is based on the years of credited service. A participant vests 20% per year of service and is fully vested after five years of credited service or upon attainment of normal retirement age.

Notes Receivable from Participants — Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Participants may obtain up to three loans from the Plan in aggregate amounts up to the lesser of (a) \$50,000 or (b) 50% of a participant’s vested account balance. The loans are collateralized by the balance in the participant’s account and bear a fixed interest rate, based on the federal prime lending rate plus 1/2%, determined at the commencement of the loan. Interest on all loans is allocated to the participant’s account from which the loan was funded. Principal and interest are paid ratably through payroll deductions. Interest rates on outstanding loans as of December 31, 2017, ranged from 3.75% to 8.50% with maturities ranging from 2018 to 2027.

Payment of Benefits — Payment of benefits depends on a participant’s vested account balance and the reason for termination.

In the case of termination of employment for reasons other than death, if the value of a participant’s vested balance is: less than \$1,000, the Plan generally makes a cash lump sum distribution;

between \$1,001 and \$5,000, the Plan makes an automatic rollover to an IRA with T. Rowe Price on the participant’s behalf if the participant fails to elect a direct rollover or to receive a cash lump sum payment; and

greater than \$5,000, the participant may elect to (i) receive a lump sum distribution equal to the value of their vested account balance, or (ii) receive benefits in monthly, quarterly, semiannual or annual installments over a period not to exceed the shorter of 25 years or the participant’s life expectancy. Distributions can be made in cash, common stock of AES (to the extent the participant has vested amounts invested in AES common stock), or a combination of both.

In the case of termination of employment due to death, the entire interest in a participant's vested account balance is generally distributed no later than five years after the participant's death if distributions have not already commenced and are distributed at least as rapidly as under the method of distribution being used if distributions have commenced. Forfeitures — At December 31, 2017 and 2016, forfeited nonvested account balances totaled \$492,768 and \$444,678, respectively. Additional forfeitures resulting from nonvested accounts of participants terminated during the year ended December 31, 2017 were \$500,197. During the year ended December 31, 2017, employer contributions were reduced by \$289,200 that was reallocated from forfeited nonvested accounts. Forfeited nonvested accounts were used to pay Plan administration expenses of \$164,845.

Voting Rights — The Plan provides that each participant is entitled to direct the Trustee as to the manner in which voting rights are exercised with respect to shares of employer stock allocated to his or her account. The Trustee does not vote any allocated shares for which timely instructions have not been given by a participant. The Plan provides that voting rights with respect to unallocated shares will be exercised in the same manner and proportion that voting rights are exercised with respect to shares allocated to participants' accounts.

Investments — The Plan is intended to constitute a Section 404(c) plan within the meaning of ERISA Section 404(c) and the regulations issued thereunder. These regulations provide relief from certain fiduciary liability to fiduciaries of individual account plans that (i) provide participants a broad range of investment alternatives and (ii) allow participants to exercise independent control over the investment of the assets in their individual accounts.

Under the terms of the Plan, participants can choose to invest their contributions in AES common stock or various mutual funds. Participants also have the option of establishing a self-directed account which is invested pursuant to their instructions.

Plan Termination — Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

Plan Administration and Related Expenses — The Plan is administered by the AES Corporation Retirement Savings Committee ("Plan Administrator") appointed pursuant to delegated Board authority of the Company's Chief Executive Officer. T. Rowe Price is the Plan Trustee since October 1, 2015. Administrative expenses of the Plan are offset using forfeitures and revenue sharing received from investments in mutual funds and other investment options to T. Rowe Price from record keeping and related services. All remaining administrative, legal, and other expenses of the Plan are paid by the Company, except for certain expenses paid by the Plan participants, such as loan initiation fees.

Plan Amendments — In December 2016, the Plan was amended to increase the maximum percentage of a participant's elective contribution rate from 20% to 50%; provide automatic enrollment for employees hired on or after March 1, 2017; provide a one-time deferral increase of 1% of a participant's compensation, effective on April 1, 2017, for participants contributing 0% as of that date; provide an annual escalation of the elective contribution rate in 1% increments to a maximum of 10%; and change the medium for employer matching contributions and profit sharing from employer stock to cash. This amendment was effective as of January 1, 2017.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States ("U.S. GAAP").

Use of Estimates — The preparation of financial statements in conformity with U.S. GAAP requires the Plan to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein.

Actual results could differ from those estimates.

Payment of Benefits — Benefits are recorded when paid.

Fair Value — Fair value, as defined in the fair value measurement accounting guidance, is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, or exit price. The Plan applies the fair value measurement accounting guidance to determine the fair value of investments. This guidance requires the use of the principal or most advantageous market from the perspective of the reporting entity. Fair value, where available, is based on observable quoted market prices. Where observable prices or inputs are not available, several valuation techniques are applied. The process involves varying levels of judgment, the degree of which is dependent on the price transparency of the instruments or market and the

instruments' complexity.

5

To increase consistency and enhance disclosure of the fair value of financial instruments, the fair value measurement accounting guidance contains a fair value hierarchy to prioritize the inputs used to measure fair value into three categories. A financial instrument's level within the fair value hierarchy is based on the lowest level of input significant to the fair value measurement, where Level 1 is the highest and Level 3 is the lowest. The three levels are defined as follows:

Level 1 — unadjusted quoted prices in active markets accessible by the reporting entity for identical assets or liabilities. Active markets are those in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 — pricing inputs other than quoted market prices included in Level 1 that are based on observable market data, that are directly or indirectly observable for substantially the full term of the asset or liability. These include quoted market prices for similar assets or liabilities, quoted market prices for identical or similar assets in markets that are not active, adjusted quoted market prices, inputs from observable data such as interest rate and yield curves, volatilities or default rates observable at commonly quoted intervals or inputs derived from observable market data by correlation or other means.

Level 3 — pricing inputs that are unobservable, or less observable, from objective sources. Unobservable inputs should only be used to the extent observable inputs are not available. These inputs maintain the concept of an exit price from the perspective of a market participant and should reflect assumptions of other market participants.

The carrying amount of financial assets not measured at fair value on a recurring basis, including participant and employer contributions receivable, receivables for securities sold, and participant loans, approximates their fair value.

Investments and Revenue Recognition — The Plan's investments are stated at fair value. Money market and other mutual funds are stated at their quoted market prices. All Plan investments are actively traded in an open market to support classification of the fair value measurement as Level 1.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's realized and unrealized gains and losses on investments bought and sold as well as those held during the year.

3. INVESTMENTS

All of the Plan's investments are measured at quoted market prices in active markets for identical assets (Level 1). The following table sets forth the Plan's investments by type:

	December 31,	
	2017	2016
The AES Corporation Common Stock	\$57,809,862	\$67,906,416
Money Market Funds	22,500,958	23,164,953
Mutual Funds ⁽¹⁾	277,142,472	219,670,304
Self-Directed Investments	38,625,800	34,633,979
Total investments	\$396,079,092	\$345,375,652

⁽¹⁾ See Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) for the detail of mutual funds held at December 31, 2017.

The Company's stock is traded on the New York Stock Exchange. The Plan's investment in the Company's stock is stated at the closing quoted price. At December 31, 2017 and 2016, the closing quoted price of the Company's common stock was \$10.83 and \$11.62 per share, respectively.

4. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Notes receivable from participants includes receivables from officers and employees of the Company ("the Plan Sponsor"), including the Plan Administrator. Under ERISA rules, these transactions are not prohibited and they qualify as exempt party-in-interest transactions. See Note 1—Plan Description for additional information regarding notes receivable from participants.

In the ordinary course of business, participants invest in various investment options determined by the AES Corporation Retirement Savings Plan Committee. These investment options are based on the recommendations of the Plan's investment advisor, an unrelated party, and include investment options offered by the Plan Trustee. Under ERISA rules, these transactions are not prohibited and they qualify as exempt party-in-interest transactions.

Additionally, at December 31, 2017 and 2016, the Plan held 5,337,937 and 5,843,926 shares, respectively, of AES common stock, the sponsoring employer, with a cost basis of \$55,308,536 and \$60,854,163, respectively.

5. TAX STATUS

The Plan received a determination letter from the IRS dated July 13, 2017, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. Subsequent to receiving this determination by the IRS, the Plan was amended. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. RISKS AND UNCERTAINTIES

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term, and those changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits. The fair value of the Plan's investment in AES's stock as of December 31, 2017 was approximately \$57,809,862, which exposes the Plan to concentration risk.

7. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The Form 5500 is the plan's report of financial condition under ERISA and the Internal Revenue Code. The following is a reconciliation of Net Assets Available for Benefits and Changes in Net Assets Available for Benefits per the financial statements to the Form 5500 as of, and for the years ended, December 31, 2017 and 2016:

	December 31,	
	2017	2016
Statement of Net Assets Available for Benefits:		
Net assets available for benefits as stated in the financial statements	\$402,431,874	\$358,447,737
Less: Benefit claims payable at end of period	—	727
Less: Loan defaults deemed distributions	17,138	—
Net assets available for benefits as stated on Form 5500, at fair value	\$402,414,736	\$358,447,010
Statement of Changes in Net Assets Available for Benefits:		
Increase (Decrease) in net assets per the financial statements	\$43,984,137	\$29,318,121
Add: Benefit claims payable at beginning of period	727	49,027
Less: Benefit claims payable at end of period	—	727
Less: Loan defaults deemed distributions	17,138	—
Net Increase (Decrease) as stated on Form 5500	\$43,967,726	\$29,366,421

8. SUBSEQUENT EVENTS

On January 19, 2018, the Plan was amended to permit the immediate forfeiture of unvested Plan account balances for participants who take a full distribution of the vested portion of their accounts upon termination of employment. These forfeitures are subject to reinstatement if the participant is rehired prior to having a five year period of severance and repays any prior distributions to restore nonvested profit sharing and employer non-elective contributions. The plan was also amended to permit forfeitures to be used to reinstate previously forfeited amounts upon rehiring a participant. In addition, the amendment also limited highly compensated employees to the top-paid twenty percent of employees. This amendment was effective on January 1, 2018.

On March 8th, 2018, the Plan was amended to incorporate new investment options. The following investments were removed from the Plan effective March 21, 2018: BlackRock Basic Value, BlackRock Global Allocation, Columbia Small Cap Value II, Lazard Emerging Markets Portfolio, MFS Research International R6, Vanguard Morgan Growth Admiral and Vanguard Small Cap Growth Index. The following new investments were added to the Plan effective March 22, 2018: Columbia Trust Contrarian Core Fund A, Rothschild U.S. Small/Mild Cap Core CIT, TS&W International Large Cap Equity Trust S, Vanguard Target Retirement 2060 and Vanguard Target Retirement 2065. The AES Common Stock investment option was closed to future contributions effective March 20, 2018.
