EL PASO CORPORATION ANNOUNCES CLOSINGS OF \$1.2-BILLION FINANCING AND \$500-MILLION ASSET SALE

HOUSTON, TEXAS, MARCH 13, 2003--El Paso Corporation (NYSE:EP) today announced that it completed a major financing and closed the sale of its Mid-Continent natural gas and oil reserves to Chesapeake Energy Corporation (NYSE:CHK).

Today, El Paso closed a \$1.2-billion two-year secured loan and used the proceeds to retire the approximately \$825-million net balance of the Trinity River financing. This is an important step to simplify El Paso's balance sheet and provide the company with significant additional flexibility and liquidity. As previously disclosed, the cash generated from the assets that had supported Trinity River was restricted so that El Paso did not have full access to these funds. The new \$1.2-billion loan has scheduled maturities of \$300 million in June 2004, \$300 million in September 2004, and the \$600-million balance in March 2005. It is secured by a portion of the production properties that previously supported Trinity River. The loan was upsized to \$1.2 billion from an originally planned \$1 billion.

With the sale of the Mid-Continent properties for \$500 million, El Paso has now signed agreements for or closed approximately 45 percent, or \$1.5 billion, of the \$3.4 billion of non-core asset sales the company expects in 2003. The asset sales and financing activities support El Paso's previously announced 2003 five-point business plan, which includes exiting non-core businesses quickly but prudently and strengthening and simplifying the balance sheet while maximizing liquidity.

El Paso will use the net proceeds from these transactions along with cash on hand to retire the \$1-billion Limestone Electron notes on the scheduled Monday, March 17, 2003 maturity.

El Paso Corporation is the leading provider of natural gas services and the largest pipeline company in North America. The company has core businesses in production, pipelines, midstream services, and power. El Paso Corporation, rich in assets and fully integrated across the natural gas value chain, is committed to developing new supplies and technologies to deliver energy. Reform Act of 1995. The company has made every reasonable effort to ensure that the information and assumptions on which these statements and projections are based are current, reasonable, and complete. However, a variety of factors could cause actual results to differ materially from the projections, anticipated results or other expectations expressed in this release, including, without limitation, our ability to attract and retain qualified members of the Board of Directors; the successful recruitment and retention of a qualified CEO; the successful implementation of the 2003 operational and financial plan; actions by the credit rating agencies; the successful close of financing transactions; our ability to successfully exit the energy trading business; our ability to divest of certain non-core assets; changes in commodity prices for oil, natural gas, and power; general economic and weather conditions in geographic regions or markets served by El Paso Corporation and its affiliates, or where operations of the company and its affiliates are located; the uncertainties associated with governmental regulation; political and currency risks associated with international operations of the company and its affiliates; inability to realize anticipated synergies and cost savings associated with restructurings and divestitures on a timely basis; difficulty in integration of the operations of previously acquired companies, competition, and other factors described in the company's (and its affiliates') Securities and Exchange Commission filings. While the company makes these statements and projections in good faith, neither the company nor its management can guarantee that anticipated future results will be achieved. Reference must be made to those filings for additional important factors that may affect actual results.
