PART I - FINANCIAL INFORMATION

ITEM 1. FINANCIAL STATEMENTS (UNAUDITED)

This Quarterly Report on Form 10-QSB includes financial statements, which have not been reviewed by an independent public accountant under Item 310(b) of Regulation S-B. The Company discontinued its engagement of Arthur Andersen LLP on June 7, 2002, and is still in the process of retaining a new independent public accountant as of the date this Form 10-QSB was filed. The Company expects to engage a new public accountant, which will review the financial statements contained in this Form 10-QSB after it has been engaged. Upon completion of the review, if there is a change in these financial statements, the Company will file an amended report on Form 10-QSB containing the reviewed financial statements, a discussion of any material changes from the unreviewed financial statements and any other section of the Form 10-QSB that is amended to reflect any changes in the financial statements.

OnCourse Technologies, Inc. and Subsidiaries

Consolidated Notes to Financial Statements
For the Nine Months Ended September 30, 2002 and 2001 (Unaudited)

(1) Basis of Presentation-

The accompanying unaudited condensed consolidated financial statements of OnCourse Technologies, Inc. (the "Company") have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission.

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All intercompany transactions and accounts have been eliminated in consolidation.

The information furnished herein reflects all adjustments and accruals that management believes are necessary to fairly state the operating results for

Edgar Filing: ONCOURSE TECHNOLOGIES INC - Form 10QSB

the respective periods. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with generally accepted accounting principles have been omitted pursuant to such rules and regulations of the Securities and Exchange Commission under item 310 of Regulation S-B. The notes to the condensed financial statements should be read in conjunction with the notes to the consolidated financials contained in the Company's Form 10-KSB for the year ended December 31, 2001. The Company's management believes that the disclosures are sufficient for interim financial reporting purposes. The results of operations for any interim period are not necessarily indicative of the results for the year.

(2) Liquidity-

The Company has incurred losses over the last three years and has negative working capital. Based upon its current plans, the Company believes it has the ability to raise sufficient equity and debt funds to meet its operating expenses and capital requirements through fiscal year 2002 and into fiscal year 2003. There is no assurance that such additional funds will be available on acceptable terms, if at all. Should the plans contemplated by management not be consummated, the Company may have to seek alternative sources of capital, borrow under its line of credit or reevaluate its operating plans.

(3) Summary of Significant Accounting Policies-

(a) Revenue Recognition-

Revenue from product sales and related training is recognized upon customer acceptance and delivery of the product and training services performed provided that no significant contractual obligations remain. Customer acceptance is realized after either the customer pays for the software or upon receiving a document from the customer stating that the product has been accepted by the customer. Included in deferred revenues as of September 30, 2002 and December 31, 2001 is approximately \$786,000 and \$709,000, respectively, of products, which have been delivered and invoiced, but for which the Company has not been notified of customer acceptance and training services invoiced but not yet performed.

Revenues also include separate maintenance fees whereby the Company provides ongoing customer support and product upgrades. Such contracts are reflected as deferred revenue and amortized ratably over the term of the maintenance period ranging from 12 to 60 months, which begins after the expiration of free support included with the initial purchase of the software for some of the Company's products.

(b) Software Development Costs-

Software development costs incurred in the research and development of new software products and enhancements to existing software products are expensed as incurred until technological feasibility of the product is established. From the time technological feasibility is established until the product is released, all software costs are capitalized. In addition, capitalized software includes software acquired in the acquisition of a subsidiary. Capitalized costs are reported at the lower of unamortized costs or net realizable value. The costs are amortized over the greater of

Edgar Filing: ONCOURSE TECHNOLOGIES INC - Form 10QSB

the amount computed using (a) the ratio that current gross revenues for the product bear to the total of current and anticipated future gross revenues for that product or (b) the straight-line method over the remaining estimated economic life of the product. During the three and nine months ended September 30, 2002 and 2001, the Company amortized the capital software costs straight-line over either three or five years.

Costs incurred up to technological feasibility are considered research and development costs. These costs are expensed as incurred. Research and development costs were approximately \$51,000 and \$71,000 for the three months ended September 30, 2002 and 2001, respectively. Research and development costs were approximately \$197,000 and \$232,000 for the nine months ended September 30, 2002 and 2001, respectively.

Computer software development costs capitalized in the three months ended September 30, 2002 and 2001 were approximately \$392,000 and \$333,000, respectively. Computer software development costs capitalized in the nine months ended September 30, 2002 and 2001 were approximately \$1,047,000 and \$979,000, respectively. Amortization expense for the three months ended September 30, 2002 and 2001 of approximately \$369,000 and \$301,000, respectively, is included in cost of sales in the consolidated statements of operations. Amortization expense for the nine months ended September 30, 2002 and 2001 was approximately \$1,071,000 and \$832,000, respectively.

(c) Goodwill and Other Intangibles-

In June 2001, the Financial Accounting Standards Board issued Statements of Financial Accounting Standards No. 141 "Business Combinations" and No. 142 "Goodwill and Other Intangible Assets" effective for fiscal years beginning after December 31, 2001. Under the new rules goodwill and intangible assets deemed to have indefinite lives will no longer be amortized but will be subject to periodic impairment tests in accordance with the Statements. Other intangible assets will continue to be amortized over their useful lives. The statement also requires business combinations initiated after June 30, 2001 to be accounted for using the purchase method of accounting, and broadens the criteria for recording intangible assets separate from goodwill.

Effective January 1, 2002, the amortization of goodwill and intangible assets with indefinite lives was discontinued. The Company anticipates that the application of the nonamortization provisions will increase 2002 net income approximately \$1,187,000 (\$0.07 per diluted share) per year compared to fiscal 2001. During 2002, the Company will perform the first of the required impairment tests of goodwill and indefinite lived intangible assets as of January 1, 2002. The Company has not yet determined what effect these tests will have on net income and the financial position of the Company.

Goodwill consisting of excess of cost over fair value of the assets acquired in previous acquisitions was amortized on a straight-line basis over seven years for the three and nine months ended September 30, 2001. Goodwill net of accumulated amortization expense was approximately \$5,721,000 and \$5,978,000 as of September 30, 2002 and December 31, 2001, respectively. Goodwill amortization for the three months ended September 30, 2002 and 2001 was approximately \$0 and \$296,000, respectively. Goodwill amortization for the nine months ended September 30, 2002 and 2001 was approximately \$0 and \$891,000, respectively.

The purchase price allocation relating to the assets acquired in the

Edgar Filing: ONCOURSE TECHNOLOGIES INC - Form 10QSB

January 31, 2000 acquisition of TekSoft, Inc. ("TekSoft") resulted in several intangible assets: \$220,000 for Assembled Workforce, \$550,000 for Trade Names and \$600,000 for Distribution Network. The amortization of the Assembled Workforce was discontinued in 2002 in accordance with the Statements of Financial Accounting Standards No. 141 "Business Combinations" and No. 142 "Goodwill and Other Intangible Assets" effective for the fiscal years beginning after December 31, 2001. The amortization of the Assembled Workforce, which was provided utilizing the straight-line method over the estimated useful life of seven years for the three and nine months ended September 30, 2001, was discontinued as of January 1, 2002. The amortization for Distribution Network and Trade Names continues in 2002 and is provided utilizing the straight-line method over the estimated useful life of seven years and fifteen years, respectively. Total amortization expense relating to Assembled Workforce was approximately \$0 and \$8,000 for the three months ended September 30, 2002 and 2001, respectively. The total amortization expense relating to Assembled Workforce was approximately \$0 and \$24,000 for the nine months ended September 30, 2002 and 2001, respectively. Total amortization expense relating to Distribution Network and Trade Names was approximately \$31,000 for each of the three months ended September 30, 2002 and 2001 and \$92,000 for each of the nine months ended September 30, 2002 and 2001.

(4) Long-Lived Assets-

In August 2001, the FASB issued SFAS No. 144, "Accounting for Impairment or Disposal of Long-Lived Assets" (SFAS 144). SFAS 144 establishes a single accounting model for long-lived assets to be disposed of by sale and provides additional implementation guidance for assets to be held and used and assets to be disposed of other than by sale. There will be no financial implication related to the adoption of SFAS 144, and the guidance will be applied on a prospective basis. The Company adopted the statement effective January 1, 2002.

(5) Notes Receivable from Shareholder-

In March 2002, a shareholder paid the Company the outstanding note receivable and accrued interest.

(6) Notes Payable to Shareholders and Employees-

In July 2002, the Company issued a \$75,000 demand note payable to two officers of the Company. The note has an interest rate of 8% and principle and interest are due sixty days after a written request for payment by the note holders. As security to the note holders, the Company agreed to issue 300,000 shares of its Common Stock in the event that the Company defaulted on the note.

In June 2002, the Company issued a \$150,000 demand note payable to two officers of the Company. The note has an interest rate of 8% and principle and interest are due sixty days after a written request for payment by the note holders. As security to the note holders, the Company agreed to issue 600,000 shares of its Common Stock in the event that the Company defaulted on the note.

In March 2002, approximately \$80,700 in notes payables to former shareholders of TekSoft were renegotiated to interest only notes through December 31, 2003. The interest rate on the notes was reduced from 16.5% to a floating rate of prime plus 2.0%. The note holders have the option after January 1, 2003 to convert the note to a three-year note at a fixed

Edgar Filing: ONCOURSE TECHNOLOGIES INC - Form 10QSB

rate of interest of prime plus 2.0% at the time of conversion. As of September 30, 2002, the balance of these notes was approximately \$80,700 at an interest rate of 6.75%.

As of March 31, 2002, the Company had several notes payable and loans to the former shareholders and employees of TekSoft. The notes had interest rates of 16.5% and were payable monthly and matured at various dates through April 2002. These notes are secured by substantially all of TekSoft's property and equipment. One of the notes was paid in full in April 2002 and another was paid in full in May 2002. The balance of the remaining note as of September 30, 2002 was approximately \$34,000 with the due date extended on a month-to-month basis.

In February 2002, the Company paid the remaining principal on a \$5,000 interest bearing demand note payable to one of its shareholders. The Company accrued interest expense on this note at 7% per year. Interest has not been paid since its inception and is accrued as of September 30, 2002.

(7) Debt - -----

In August 2002, the Company signed a \$300,000 term note with a non-related company that has a maturity date of September 15, 2004. The debt has monthly principal and interest payments of \$13,510.13 commencing on October 15, 2002 and is due on the fifteenth day of each month thereafter until paid in full. The interest rate is 7%. The debt is secured by all of the assets of the Company.

In May 2002, the Company and its bank added an additional line of credit agreement, which provides for borrowings up to \$100,000 through August 12, 2002. In August 2002, the bank further extended the maturity date to November 12, 2002. The revolving line of credit is limited to a borrowing base calculated as a specific percentage of qualifying accounts receivable, property and equipment and net capitalized software. The interest rate for the revolving line of credit is at prime plus 1.5%. The debt facility is secured by all of the assets of the Company. Borrowings under this line of credit facility were \$89,000 as of September 30, 2002 (See Note 10).

In March 2002, the Company and its bank agreed to extend the maturity date on the \$250,000 line of credit from March 13, 2002 to May 13, 2002. In May 2002, the bank further extended the maturity date to January 31, 2003. Borrowings under this line of credit facility were \$250,000 as of September 30, 2002.

(8) Shareholders' Equity - -----

In September 2002, the Company offered and issued 19,875 shares of Company common stock, 19,875 Class A stock purchase warrants and 19,875 Class B stock purchase warrants as payment of \$9,938 in professional services to a vendor. The warrants were issued with initial estimated values (based on Black-Scholes valuation model) ranging from \$0.10 to \$0.18 for each Class A warrant and from \$0.11 to \$0.20 for each Class B warrant and expire in 2005 and 2007, respectively. Each warrant represents the right to purchase one share of the Company's common stock at an exercise price ranging from \$0.75 to \$1.00 per share.

On September 30, 1999, the Company acquired Cimtronics, Inc. for 153,846 shares to the former shareholders of Cimtronics. In addition, under the terms specified in the purchase agreement, the former shareholders of

Edgar Filing: ONCOURSE TECHNOLOGIES INC - Form 10QSB

Cimtronics may receive up to 153,846 additional shares over the five years ending September 30, 2004 based on net income, as defined in the agreement. During the nine months ended September 30, 2002, an additional 60,127 shares were earned under this agreement at an approximate value of \$0.13 per share. An additional \$7,756 was allocated to goodwill. As of September 30, 2002, all of the 153,846 of contingent shares have been earned and issued.

In June 2002, the Company offered and issued 14,113 shares of Company common stock, 14,113 Class A stock purchase warrants and 14,113 Class B stock purchase warrants as payment of \$7,664 in professional services to a vendor. The warrants were issued with initial estimated values (based on Black-Scholes valuation model) ranging from \$0.20 to \$0.44 for each Class A warrant and from \$0.23 to \$0.48 for each Class B warrant and expire in 2005 and 2007, respectively. Each warrant represents the right to purchase one share of the Company's common stock at an exercise price ranging from \$0.75 to \$1.00 per share.

On January 31, 2000, the Company acquired TekSoft for 4,500,060 shares to the former shareholders of TekSoft. In addition, under the terms specified in the purchase agreement, the former shareholders of TekSoft may receive up to 1,500,000 additional shares over the five years ending January 31, 2005 if net sales, as defined in the agreement, increases. During the nine months ended September 30, 2002, an additional 72,991 shares were earned under this agreement at a value of \$0.28 per share. An additional \$20,437 was allocated to goodwill. As of September 30, 2002, 739,877 of the contingent shares have been earned and issued.

In May 2002, the Company changed its Preferred Stock from no par to a par value of \$0.001 per share.

In April 2002, the Company offered and issued 250,000 units in private placements to an individual deemed financially capable of making the investment. Units include one share of Company common stock and one two-year Class D common stock purchase warrant and one three-year Class A common stock purchase warrant and expire in 2004 and 2005, respectively. The units were sold for \$0.50 per unit. The exercise price for the Class D warrant was \$0.65 per share. The exercise price for the Class A warrant was \$0.85 per share. The Company estimated the value of the warrants to be \$0.22 for each Class D warrant and \$0.25 for each Class A warrant based on the Black-Scholes valuation model.

In March 2002, the Company offered and issued 150,000 units in a private placement to an officer of the Company. Units included one share of Company common stock and one three-year Class A common stock purchase warrant and one five-year Class B common stock purchase warrant and expire in 2005 and 2007, respectively. The units sold for \$0.50 per unit. The exercise price for the Class A warrant was \$0.75 per share. The exercise price for the Class B warrant was \$1.00 per share. The Company estimated the value of the warrants to be \$0.21 for each Class A warrant and \$0.23 for each Class B warrant based on the Black-Scholes valuation model.

In January 2002, the Company offered and issued 12,307 shares of Company common stock, 12,307 Class A stock purchase warrants and 12,307 Class B stock purchase warrants as payment of \$12,307 in professional services to a vendor. The warrants were issued with initial estimated values (based on Black-Scholes valuation model) of \$0.42 for each Class A warrant and \$0.48 for each Class B warrant and expire in 2005 and 2007, respectively. Each warrant represents the right to purchase one share of the Company's common stock at an exercise price of \$1.75 per share.

Edgar Filing: ONCOURSE TECHNOLOGIES INC - Form 10QSB

(9) Stock Option Plan-

In March 2002, the Board of Directors authorized 250,000 stock options for distribution in 2002 at an exercise price of \$0.37 per share for the benefit of current employees with 50,000 reserved for new employees. The vesting period will be five years or less based on the years of service performed by the employee. The options will expire December 31, 2010.

In 2001, the Company granted 140,000 stock options to an independent contractor at an exercise price of \$0.65 per share, and which vest over a 12-month period ending May 3, 2002. The options expire May 3, 2007. During the three months ended September 30, 2002 and 2001, the Company recorded legal and professional expenses for the options vesting during this period of \$0 and \$55,924, respectively. During the nine months ended September 30, 2002 and 2001, the Company recorded legal and professional expenses of \$8,512 and \$55,924, respectively. As of September 30, 2002, all of the options were vested.

During the nine months ended September 30, 2002, none of the stock options granted by the Company were exercised.

(10) Subsequent events-

Subsequent to September 30, 2002, the Company and the bank extended the maturity date on the \$100,000 line of credit facility from November 12, 2002 to February 12, 2003.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

The following discussion and analysis should be read in conjunction with the Company's Consolidated Financial Statements and notes thereto and the other financial information appearing elsewhere in this filing. In addition to historical information, the following discussion and other parts of this filing contain forward-looking information that involves risks and uncertainties. The Company's actual results could differ materially from those anticipated by such forward-looking information due to competitive factors, risks associated with the Company's plans and other information expressed or implied by these forward-looking statements. There may be other risks and circumstances that management is unable to predict. When used in this Quarterly Report, the words "believes", "expects", "intends", "plans", "anticipates", "estimates" and similar expressions are intended to identify forward looking statements, although there may be some forward-looking statements not accompanied by these expressions. All forward-looking statements are intended to be covered by the safe harbor created by Section 21E of the Securities Exchange Act of 1934.

RESULTS OF OPERATIONS

THREE MONTHS ENDED SEPTEMBER 30, 2002 AND 2001

The Company's sales continue to be negatively affected by the U.S. economy that has caused the Company's manufacturing driven customers to delay making investments in technology-based software solutions. The Company's strategy during 2002 was to continue its investment and development of its technology in preparation for the bi-annual International Manufacturing Technology Show (IMTS)

Edgar Filing: ONCOURSE TECHNOLOGIES INC - Form 10QSB

held in September 2002 and with the expectation that the economy was going to improve moderately during the third and fourth quarters of 2002. As part of its strategy, the Company further planned on making expense reductions if the economy didn't improve before and after the IMTS show. The Company met its goal of completing its targeted product development for the show and received positive feedback and interest in its products based on the newest revisions of its software. However, the economy didn't improve as expected. As a result, the Company incurred higher than anticipated losses. The Company plans to begin implementing cost reductions during the fourth quarter that are expected to eventually reduce annual operating costs by approximately \$700,000.

The Company believes that the investment made in its product development will increase sales significantly during the next twelve months. The Company has two customers that have indicated that their management team has verbally approved the purchase of the Company's estimating software for a combined sales value of \$816,000 and are currently preparing the purchase orders. The Company expects to receive the purchase orders in November 2002. These sales will be recognized over the next twelve months with approximately \$600,000 recognized in 2002.

The Company's net sales decreased from \$1,261,000 for the three months ended September 30, 2001 to \$1,163,000 for the same period in 2002 for an 8% decrease. In the case of the Company's estimating products that have lesser competition, sales have partially declined due to delays in the sale of its software products as potential buyers have pushed back the timing of their purchases in efforts to conserve cash or until economic conditions improve. While the same delays have occurred for the Company's computer-aided-design/computer-aided-manufacturing (CAD/CAM) software products, the Company also faces a significantly higher number of competitors vying for fewer sales opportunities. This competition for CAD/CAM sales has led to discounting off of list price. Deferred revenue increased 10% from \$1,763,000 as of June 30, 2002 to \$1,943,000 as of September 30, 2002, which contributed to sales being down compared to last year.

Cost of sales was \$606,000 or 52% of net sales for the three months ended September 30, 2002 as compared to \$503,000 or 40% for the same period in 2001. The gross margin percentage for the three months ended September 30, 2002 declined from the same period in 2001 mostly due to an increase in fixed capitalized software amortization expense for the Company's products and was further negatively impacted by a reduction in sales. The capitalized software amortization expense for the three months ended September 30, 2002 was \$369,000 compared to \$301,000 for the three months ended September 30, 2001. This increase is due to the Machine Shop Estimating 9.0 and 9.5, CAMWorks 2001, CAMWorks 2001 Plus and ProCAM II products for which the Company began amortizing capitalized costs after their product releases on various dates during or after the three months ended June 30, 2001, but before the beginning of the three months ended September 30, 2002. Many of the other costs recorded as cost of sales are fixed in nature as well.

Selling expenses increased 5% to \$586,000 for the three months ended September 30, 2002 as compared to \$559,000 for the same period in 2001. Selling expenses as a percentage of net sales were 50% and 44% for the three months ended September 30, 2002 and 2001, respectively. The increase in selling expenses was largely due to expenses related to the bi-annual IMTS show held in September 2002. The Company incurred approximately \$80,000 of additional expenses for the three months ended September 30, 2002 related to the seven day show that it didn't incur for the same period in 2001. The bi-annual show expenses along with reduced sales contributed to the increase in selling expenses as a percentage of net sales. Offsetting the higher show expenses was reduced spending in advertising and promotional activities for the Company's products in 2002 as compared to 2001. The advertising reduction was made due to the Company's

Edgar Filing: ONCOURSE TECHNOLOGIES INC - Form 10QSB

decision to direct its resources to developing its product offerings. Also contributing to the reduction was the decline in the economy causing sales to decline, which tightened cash flows and restricted spending.

Total research and development expense was \$51,000 and \$71,000 for the three months ended September 30, 2002 and 2001, respectively.

Goodwill and other intangible amortization expenses were \$31,000 and \$335,000 for the three months ended September 30, 2002 and 2001, respectively. The decrease is attributed to the Company implementing the Financial Accounting Standards Board's Statements of Financial Accounting Standard No. 142 "Goodwill and Other Intangible Assets" effective for fiscal years beginning after December 31, 2001. Under the new rules goodwill and intangible assets deemed to have indefinite lives will no longer be amortized but will be subject to periodic impairment tests in accordance with the Statements. Other intangible assets will continue to be amortized over their useful lives. The amortization expense for goodwill was \$0 and \$296,000 for the three months ended September 30, 2002 and 2001, respectively. The amortization expense for other intangibles was \$31,000 and \$38,000 for the three months ended September 30, 2002 and 2001, respectively. The decrease in amortization of other intangibles is related to the Assembled Workforce acquired as part of the TekSoft acquisition, which under the new accounting rules has an indefinite life and therefore is no longer amortized.

General and administrative expenses decreased to \$438,000 for the three months ended September 30, 2002 compared to \$519,000 for the same period in 2001. General and administrative expenses as a percentage of net sales were 38% of net sales for the three months ended September 30, 2002 as compared to 41% for 2001. The dollar decrease occurred mostly due to reductions in professional and legal expenses. The Company recorded \$42,000 for the three months ended September 30, 2001 for a professional services agreement for consulting services as compared to \$0 for the three months ended September 30, 2002. The Company issued 300,000 shares of common stock in 2000 for these services at a value of \$2.00 per share. In February 2001, this agreement was extended an additional nine months to February 2002, which reduced the monthly amortization related to this agreement from \$50,000 to \$14,000. Lower spending levels for other professional and legal services and other general administrative expenses during the three months ended September 30, 2002 contributed to the decrease from 2001.

Operating expenses including goodwill and other intangible asset amortization were \$1,106,000 for the three months ended September 30, 2002 as compared to \$1,484,000 for the same period in 2001.

Interest expense increased from \$36,500 for the three months ended September 30, 2001 to \$37,200 for the three months ended September 30, 2002. The 2% increase is attributed to additional debt incurred by the Company that was used to finance the development of the Company's new products released in 2001 and continued during the nine months ended September 30, 2002 and to fund losses that the Company incurred for the same period. The Company's strategy was to meet targeted product development goals that it set for the IMTS show and borrowed money to support this strategy. The Company also retained employees that it believed necessary to support growth that the Company was expecting in the third and fourth quarters in 2002. Offsetting the Company's higher debt was the benefits of lower interest rates during the three months ended September 30, 2002 as compared to interest rates in the same period in 2001.

The Company had a pre-tax loss of \$586,000 for the three months ended September 30, 2002 as compared to the \$762,000 pre-tax loss for the three months ended September 30, 2001.

The net loss after the tax benefit was \$427,000 and \$584,000 for the three months ended September 30, 2002 and 2001, respectively.

Edgar Filing: ONCOURSE TECHNOLOGIES INC - Form 10QSB

NINE MONTHS ENDED SEPTEMBER 30, 2002 AND 2001

The comments made in the previous "THREE MONTHS ENDED SEPTEMBER 30, 2002 and 2001" section relative to the impact that the economy had on sales are equally appropriate when analyzing the Company's sales for the nine months ended September 30, 2002 and 2001. The Company's net sales decreased from \$3,997,000 for the nine months ended September 30, 2001 to \$3,677,000 for the same period in 2002 for an 8% decrease. Deferred revenue increased 3% from \$1,890,000 as of December 31, 2001 to \$1,943,000 as of September 30, 2002.

Cost of sales was \$1,655,000 or 45% of net sales for the nine months ended September 30, 2002 as compared to \$1,374,000 or 34% for the same period in 2001. The gross margin percentage for the nine months ended September 30, 2002 declined from the same period in 2001 mostly due to an increase in fixed capitalized software amortization expense for the Company's products and was further impacted by a reduction in sales. The capitalized software amortization expense for the nine months ended September 30, 2002 was \$1,071,000 compared to \$832,000 for the nine months ended September 30, 2001. This increase is due to the Machine Shop Estimating 9.0 and 9.5, CAMWorks 2001, CAMWorks 2001 Plus and ProCAM II products for which the Company began amortizing capitalized costs after their product releases on various dates during or after the nine months ended September 30, 2001, but before the beginning of the nine months ended September 30, 2002. Many of the other costs recorded as cost of sales are fixed in nature as well.

Selling expenses decreased 11% to \$1,530,000 for the nine months ended September 30, 2002 as compared to \$1,725,000 for the same period in 2001. Selling expenses as a percentage of net sales were 42% and 43% for the nine months ended September 30, 2002 and 2001, respectively. The decline in selling expenses occurred largely due to reduced spending in advertising and promotional activities for the Company's products in 2002 as compared to 2001. The advertising reduction was made due to the Company's decision to direct its resources to product development. Also contributing to the reduction was the decline in the economy causing sales to decline, which tightened cash flows and restricted spending.

Total research and development expense was \$197,000 and \$232,000 for the nine months ended September 30, 2002 and 2001, respectively.

Goodwill and other intangible amortization expenses were \$92,000 and \$1,007,000 for the nine months ended September 30, 2002 and 2001, respectively. The decrease is attributed to the Company implementing the Financial Accounting Standards Board's Statements of Financial Accounting Standard No. 142 "Goodwill and Other Intangible Assets" effective for fiscal years beginning after December 31, 2001. Under the new rules goodwill and intangible assets deemed to have indefinite lives will no longer be amortized but will be subject to periodic impairment tests in accordance with the Statements. Other intangible assets will continue to be amortized over their useful lives. The amortization expense for goodwill was \$0 and \$891,000 for the nine months ended September 30, 2002 and 2001, respectively. The amortization expense for other intangibles was \$92,000 and \$116,000 for the nine months ended September 30, 2002 and 2001, respectively. The decrease in amortization of other intangibles is related to the Assembled Workforce acquired as part of the TekSoft acquisition, which under the new accounting rules has an indefinite life and therefore is no longer amortized.

General and administrative expenses decreased to \$1,363,000 for the nine months ended September 30, 2002 compared to \$1,646,000 for the same period in 2001. General and administrative expenses as a percentage of net sales decreased to

Edgar Filing: ONCOURSE TECHNOLOGIES INC - Form 10QSB

37% of net sales for the nine months ended September 30, 2002 as compared to 41% for 2001. The decrease occurred mostly due to reductions in professional and legal expenses. The Company recorded \$21,000 for the nine months ended September 30, 2002 for a professional services agreement for consulting services as compared to the \$162,000 for the nine months ended September 30, 2001. This represents a decrease of \$141,000 in general and administrative expenses from the nine months ended September 30, 2001. The Company issued 300,000 shares of common stock in 2000 for these services at a value of \$2.00 per share. In February 2001, this agreement was extended an additional nine months to February 2002, which reduced the monthly amortization related to this agreement from \$50,000 to \$14,000. In addition, significant legal and professional expenses were incurred during the nine months ended September 30, 2001 associated with the Company's follow-on expenses for the 10-SB and various other SEC filings. The same level of professional and legal expenses was not incurred during the nine months ended September 30, 2002 thus contributing to the expense decrease.

Operating expenses including goodwill and other intangible asset amortization were \$3,182,000 for the nine months ended September 30, 2002 as compared to \$4,610,000 for the same period in 2001.

Interest expense increased from \$94,000 for the nine months ended September 30, 2001 to \$110,000 for nine months ended September 30, 2002. The increase is attributed to additional debt incurred by the Company that was used to finance the development of the Company's new products released in 2001 and continued during the nine months ended September 30, 2002 and to fund losses that the Company incurred for the same period. The Company's strategy was to meet targeted product development goals that it set for the IMTS show and borrowed money to support this strategy. The Company also retained employees that it believed necessary to support growth that it was expecting in the third and fourth quarters in 2002. Offsetting the Company's higher debt was the benefits of lower interest rates during the three months ended September 30, 2002 as compared to interest rates in the same period in 2001.

The Company had a pre-tax loss of \$1,270,000 for the nine months ended September 30, 2002 as compared to the \$2,081,000 pre-tax loss for the nine months ended September 30, 2001.

The net loss after the tax benefit was \$902,000 and \$1,684,000 for the nine months ended September 30, 2002 and 2001, respectively.

LIQUIDITY AND CAPITAL RESOURCES

The Company has incurred losses over the last three years and has negative working capital. Based upon its current plans, the Company is expecting to reduce its annual operating expense approximately \$700,000 beginning in the fourth quarter 2002. In addition, the Company believes it has the ability to raise sufficient equity and debt funds to meet its operating expenses and capital requirements through fiscal year 2002 and into fiscal year 2003. However, there is no assurance that such additional funds will be available on acceptable terms, if at all. Should the plans contemplated by management not be consummated, the Company may have to seek alternative sources of capital or reevaluate its operating plans.

The Company's cash position as of September 30, 2002 was approximately \$179,000 as compared to \$77,000 as of December 31, 2001. During the nine months ended September 30, 2002, net cash provided by operating activities was \$244,000 versus \$227,000 for the nine months ended September 30, 2001. The relatively low amount of cash flow from operations for the nine months ended September 30, 2002 is largely related to reduced sales caused by the recessionary period experienced by the Company and the manufacturing marketplace and the Company not

Edgar Filing: ONCOURSE TECHNOLOGIES INC - Form 10QSB

reducing spending to offset the sales decline. As a result, the Company incurred higher than planned losses during 2002. The Company decided to retain all of its employees because it believed it necessary in order to handle its expected sales growth in 2002 as well as continue developing the next generation of manufacturing software. Management has identified annual expense reductions of approximately \$700,000 and will begin implementing the reductions in the fourth quarter 2002.

Cash flows used in investing activities were \$1,084,000 and \$1,069,000 for the nine months ended September 30, 2002 and 2001, respectively. The Company invested \$1,047,000 in capitalized software development costs and \$36,000 for property and equipment and other assets for the nine months ended September 30, 2002 as compared to \$979,000 and \$90,000, respectively, for the same period in 2001.

The Company had positive cash flows from financing activities of \$942,000 and \$749,000 for the nine months ended September 30, 2002 and 2001, respectively. The financing activities for the nine months ended September 30, 2002 were primarily comprised of positive inflows of \$219,000 on the line of credit facility, \$300,000 of term debt, \$240,000 of common stock proceeds, \$225,000 of notes payable to shareholders and a \$49,000 shareholder payment of notes receivable, which were partially offset by \$91,000 of payments on long-term debt, notes payables to shareholders and capital lease obligations.

The Company's working capital as of September 30, 2002 was a negative \$1,800,000 as compared to the negative working capital of \$1,650,000 as of December 31, 2001. The \$150,000 decrease in working capital from the December 31, 2001 balance is largely attributable to the unfavorable effects of a \$219,000 increase in the current portion of the line of credit, \$133,000 increase in the current portion of notes payable to shareholders, \$163,000 increase in accounts payables and accrued expenses and \$53,000 increase in deferred revenue, which were partially offset by the favorable effects of a \$102,000 increase in cash, \$128,000 increase in net accounts receivables, \$134,000 increase in prepaid and other current assets and a \$68,000 increase in deferred income tax assets. The remaining \$14,000 difference relates to an increase in accrued commissions and current portion of long-term debt. The short-term line of credit facility increase and additional \$225,000 notes payable to shareholders is largely due to lower sales and slower cash collections due to the recession experienced during the nine months ended September 30, 2002 and the Company's strategy of furthering the development of its products in anticipation of the IMTS show in September 2002. The combined spending and lower sales resulted in losses that caused a decline in working capital and adversely affected the Company's ability to pay its vendors on a timely basis.

The Company had total interest bearing debt of \$2,850,000 and \$2,197,000 as of September 30, 2002 and December 31, 2001, respectively, consisting of current and long-term portions of a line of credit, term debt, capital leases and notes payable to shareholders. This represents an increase of \$653,000 during the nine months ended September 30, 2002, which was made up of a \$300,000 term note, a \$219,000 increase in the Company's line of credit facility and \$225,000 of notes payable to shareholders, which were partially offset by a \$78,000 reduction in term debt, a \$12,000 reduction in notes payables to shareholders and a \$1,000 reduction in capital leases. As of September 30, 2002, the Company had borrowings of \$1,099,950 and \$339,000 against its \$1,100,000 long-term line of credit and \$350,000 short-term line of credit facilities, respectively. Subsequent to September 30, 2002, the Company and its bank agreed to extend the maturity date of the additional \$100,000 line of credit agreement from November 12, 2002 to February 12, 2003. The Company intends on seeking additional debt and equity financing to supplement its cash needs. However, there are no assurances that the bank or other lending or equity sources will provide additional capital financing.

Edgar Filing: ONCOURSE TECHNOLOGIES INC - Form 10QSB

Shareholder's Equity decreased to \$8,075,000 as of September 30, 2002 compared to \$8,705,000 as of December 31, 2001. The decrease in Shareholder's Equity for the nine months ended September 30, 2002 is largely attributed to a \$902,000 net loss and \$4,000 of dividends accrued on preferred stock. This decrease was partially offset by \$239,000 of proceeds from the issuance of common stock for cash and services, \$28,000 of common stock for contingent shares earned and \$9,000 of stock options issued.

The Company invested \$1,047,000 in capitalized software for the nine months ended September 30, 2002. This compares to \$979,000 for the nine months ended September 30, 2001. The Company believes that the development work done in 2001 and the nine months ended September 30, 2002 related to automatic feature recognition as found in its CAMWorks and ProCAM II CAD/CAM software and the integration of this technology with its estimating software will provide significant revenue opportunities in the fourth quarter 2002 and 2003. Offsetting \$28,000 of property and equipment purchases for the nine months ended September 30, 2002 was a disposal of a partially developed customer relationship management software package that has a book value of approximately \$42,000. The Company determined that the cost to complete the development and implementation of this package was significantly higher than planned and decided that it would seek other alternatives.

The Company intends on financing future expenditures for property and equipment, capitalized software and sales growth using capital provided by sales of common stock through private placement activities. Capital is required in order to supplement lower than expected internally generated cash flows from operations due to the recessionary period experienced during the nine months ended September 30, 2002 and the year ended December 31, 2001 and as projected for the third quarter of 2002. However, Management expects cash flow from operation to increase as the Company begins implementing targeted cost reductions beginning in the fourth quarter 2002.

ITEM 3. CONTROLS AND PROCEDURES

Within 90 days prior to the date of this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and the Company's Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective. It should be noted that in designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

There have been no significant changes in the Company's internal controls or in other factors that could significantly affect the internal controls subsequent to the date the Company completed its evaluation.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company may be subject to contingent liabilities resulting from litigation and claims incident to the ordinary course of business. As of the date of this report, the Company does not believe that it is subject to any legal proceedings the probable resolution of which would have material adverse effect on the

Edgar Filing: ONCOURSE TECHNOLOGIES INC - Form 10QSB

business or financial condition of the Company.

ITEM 2. CHANGES IN SECURITIES

In September 2002, the Company offered and issued 19,875 shares of Company common stock, 19,875 Class A stock purchase warrants and 19,875 Class B stock purchase warrants as payment of \$9,938 in professional services to a vendor. The warrants were issued with initial estimated values (based on Black-Scholes valuation model) ranging from \$0.10 to \$0.18 for each Class A warrant and from \$0.11 to \$0.20 for each Class B warrant and expire in 2005 and 2007, respectively. Each warrant represents the right to purchase one share of the Company's common stock at an exercise price ranging from \$0.75 to \$1.00 per share.

On September 30, 1999, the Company acquired Cimtronics, Inc. for 153,846 shares to the former shareholders of Cimtronics. In addition, under the terms specified in the purchase agreement, the former shareholders of Cimtronics may receive up to 153,846 additional shares over the five years ending September 30, 2004 based on net income, as defined in the agreement. During the nine months ended September 30, 2002, an additional 60,127 shares were earned under this agreement at an approximate value of \$0.13 per share. An additional \$7,756 was allocated to goodwill. As of September 30, 2002, all of the 153,846 of contingent shares have been earned and issued.

The Company believes that it has satisfied the exemption from the securities registration requirement provided by Section 4(2) of the Securities Act of 1933 and Regulation D promulgated thereunder for all of the above-described transactions.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

The Company was not in default with regards to its debt facilities.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted during the three months ended September 30, 2002 covered by this report to a vote of security holders, through the solicitation of proxies or otherwise.

ITEM 5. OTHER INFORMATION

None Applicable.

CERTIFICATIONS

I, Bernard A. Woods III, Chief Executive Officer of OnCourse Technologies, Inc., certify that:

1. I have reviewed this quarterly report on Form 10-QSB of OnCourse Technologies, Inc.;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and have:
 - (a) designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - (b) evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the "Evaluation Date"); and
 - (c) presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):

Edgar Filing: ONCOURSE TECHNOLOGIES INC - Form 10QSB

(a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and

(b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and

6. The registrant's other certifying officers and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
