Press Release

CVRD acquires Norwegian ferroalloy company

Rio de Janeiro, February 3, 2003 - Companhia Vale do Rio Doce (CVRD) announces that it has signed a contract to acquire 100% of the capital of Elkem Rana AS (Rana), a wholly-owned subsidiary of Elkem ASA, a Norwegian company, for a total of US\$ 17.6 million, subject to certain working capital adjustments. The closing on the sale and acquisition is subject to competition clearance by the Federal Cartel Office in Germany.

Rana, which will change its name to Rio Doce Manganese Norway AS, has a plant located in an industrial park in Mo i Rana, Norway, where ferrochrome was produced until June 2002. The plant will be converted to produce manganese ferroalloys from 2003 onwards. The company has no debt and its cash holdings amounts to approximately US\$ 7 million.

The deal facilitates CVRD's plan to expand its ferroalloy business in Continental Europe, where its wholly-owned subsidiary Rio Doce Manganese Europe (RDME) already operates a manganese ferroalloys plant in Dunkerque, France.

CVRD is a leading player in the global manganese and ferroalloy market. It owns and operates four manganese mines (Azul, Urucum, Morro da Mina and MMN) and seven ferroalloy plants (Corumba, Santa Rita, Barbacena, Rancharia, Sao Joao Del Rey, Sibira and RDME). Annual production capacity totals 2.3 million tons of manganese ore, 450,000 tons of manganese ferroalloys and 25,000 tons of calcium silicon alloy.

The acquisition of Rana will strengthen CVRD's position in the world ferroalloy marketplace and highlights its commitment as a supplier of high quality raw materials (iron ore, pellets and ferroalloys) to the steel industry around the globe.

CVRD's strategy is focused on the exploration of its organic growth opportunities. However, CVRD will continue to engage in efforts aimed at identifying and pursuing acquisition opportunities that will create value for its shareholders, as is the case of Rana . Therefore, the acquisition of Rana is consistent with CVRD strategic plan.
