1. Organization:

The Macerich Company (the "Company") is involved in the acquisition, ownership, development, redevelopment, management and leasing of regional and community/power shopping centers (the "Centers") located throughout the United States.

The Company commenced operations effective with the completion of its initial public offering on March 16, 1994. As of September 30, 2015, the Company was the sole general partner of and held a 94% ownership interest in The Macerich Partnership, L.P. (the "Operating Partnership"). The Company was organized to qualify as a real estate investment trust ("REIT") under the Internal Revenue Code of 1986, as amended (the "Code").

The property management, leasing and redevelopment of the Company's portfolio is provided by the Company's management companies, Macerich Property Management Company, LLC, a single member Delaware limited liability company, Macerich Management Company, a California corporation, Macerich Arizona Partners LLC, a single member Arizona limited liability company, Macerich Arizona Management LLC, a single member Delaware limited liability company, Macerich Partners of Colorado, LLC, a single member Colorado limited liability company, MACW Mall Management, Inc., a New York corporation, and MACW Property Management, LLC, a single member New York limited liability company. All seven of the management companies are collectively referred to herein as the "Management Companies."

All references to the Company in this Quarterly Report on Form 10-Q include the Company, those entities owned or controlled by the Company and predecessors of the Company, unless the context indicates otherwise.

2. Summary of Significant Accounting Policies:

Basis of Presentation:

The accompanying consolidated financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. They do not include all of the information and footnotes required by GAAP for complete financial statements and have not been audited by an independent registered public accounting firm.

The accompanying consolidated financial statements include the accounts of the Company and the Operating Partnership. Investments in entities in which the Company has a controlling financial interest or entities that meet the definition of a variable interest entity in which the Company has, as a result of ownership, contractual or other financial interests, both the power to direct activities that most significantly impact the economic performance of the variable interest entity and the obligation to absorb losses or the right to receive benefits that could potentially be significant to the variable interest entity are consolidated; otherwise they are accounted for under the equity method of accounting and are reflected as investments in unconsolidated joint ventures.

All intercompany accounts and transactions have been eliminated in the consolidated financial statements.

The unaudited interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014. In the opinion of management, all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of the consolidated financial statements for the interim periods have been made. The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The accompanying consolidated balance sheet as of December 31, 2014 has been derived from the audited financial statements but does not include all disclosures required by GAAP.

2. Summary of Significant Accounting Policies: (Continued)

Recent Accounting Pronouncements:

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2014-09, “Revenue From Contracts With Customers,” which outlines a comprehensive model for entities to use in accounting for revenue arising from contracts with customers. ASU 2014-09 states that “an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.” While ASU 2014-09 specifically references contracts with customers, it may apply to certain other transactions such as the sale of real estate or equipment. In July 2015, the FASB voted to defer the effective date of ASU 2014-09 by one year. Accordingly, ASU 2014-09 is effective for the Company beginning January 1, 2018, with early adoption permitted beginning January 1, 2017. The Company does not expect the adoption of this standard to have a significant impact on the consolidated financial statements.

In February 2015, the FASB issued ASU 2015-02, “Consolidation (Topic 810): Amendments to the Consolidation Analysis,” which makes certain changes to both the variable interest model and the voting model, including changes to (1) the identification of variable interests (fees paid to a decision maker or service provider), (2) the variable interest entity characteristics for a limited partnership or similar entity and (3) the primary beneficiary determination. ASU 2015-02 is effective for the Company beginning January 1, 2016. Early adoption is permitted. The Company does not expect the adoption of this standard to have a significant impact on the consolidated financial statements.

In April 2015, the FASB issued ASU 2015-03, “Simplifying the Presentation of Debt Issuance Costs,” which requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected. ASU 2015-03 is effective for the Company beginning January 1, 2016. Early adoption is permitted. Upon adoption, the Company will apply the new standard on a retrospective basis and adjust the balance sheet of each individual period to reflect the period-specific effects of applying the new standard. The Company does not expect the adoption of this standard to have a significant impact on the consolidated financial statements.

In September 2015, the FASB issued ASU 2015-16, "Simplifying the Accounting for Measurement-Period Adjustments," which requires adjustments to provisional amounts used in business combinations during the measurement period to be recognized in the reporting period in which the adjustment amounts are determined. It also requires the disclosure of the impact on changes in estimates on earnings, depreciation, amortization and other income effects. ASU 2015-16 is effective for the Company beginning January 1, 2016. The Company does not expect the adoption of this standard to have a significant impact on the consolidated financial statements.

4. Investments in Unconsolidated Joint Ventures:

The Company has made the following recent investments and dispositions in its unconsolidated joint ventures:

On June 4, 2014, the Company acquired the remaining 49% ownership interest in Cascade Mall, a 589,000 square foot regional shopping center in Burlington, Washington, that it did not previously own for a cash payment of \$15,233.

The Company purchased Cascade Mall from its joint venture partner in Pacific Premier Retail LLC. The cash payment was funded by borrowings under the Company's line of credit. Prior to the acquisition, the Company had accounted for its investment in Cascade Mall under the equity method of accounting. Since the date of acquisition, the Company has included Cascade Mall in its consolidated financial statements (See Note 13—Acquisitions).

On July 30, 2014, the Company formed a joint venture to redevelop Fashion Outlets of Philadelphia at Market East, a 1,376,000 square foot regional shopping center in Philadelphia, Pennsylvania. The Company invested \$106,800 for a 50% interest in the joint venture, which was funded by borrowings under its line of credit.

On August 28, 2014, the Company sold its 30% ownership interest in Wilshire Boulevard, a 40,000 square foot freestanding store in Santa Monica, California, for a total sales price of \$17,100, resulting in a gain on the sale of assets of \$9,033, which was included in loss on sale or write down of assets, net. The sales price was funded by a cash payment of \$15,386 and the assumption of the Company's share of the mortgage note payable on the property of \$1,714. The Company used the cash proceeds from the sale to pay down its line of credit and for general corporate purposes.

On November 13, 2014, the Company formed a joint venture to develop a 500,000 square foot outlet center at Candlestick Point in San Francisco, California. In connection with the formation of the joint venture, the Company issued a note receivable for \$65,130 to its joint venture partner that bears interest at LIBOR plus 2.0% and matures upon the completion of certain milestones in connection with the development of Candlestick Point (See Note 16—Related Party Transactions).

Bank and other notes payable consist of the following:

Line of Credit:

The Company has a \$1,500,000 revolving line of credit that bears interest at LIBOR plus a spread of 1.38% to 2.0%, depending on the Company's overall leverage level, and matures on August 6, 2018. 10. Co-Venture Arrangement:

On September 30, 2009, the Company formed a joint venture, whereby a third party acquired a 49.9% interest in Freehold Raceway Mall, a 1,669,000 square foot regional shopping center in Freehold, New Jersey, and Chandler Fashion Center, a 1,320,000 square foot regional shopping center in Chandler, Arizona.

As a result of the Company having certain rights under the agreement to repurchase the assets after the seventh year of the venture formation, the transaction did not qualify for sale treatment. The Company, however, is not obligated to repurchase the assets. The transaction has been accounted for as a profit-sharing arrangement, and accordingly the assets, liabilities and operations of the properties remain on the books of the Company and a co-venture obligation was established for the amount of \$168,154, representing the net cash proceeds received from the third party. The co-venture obligation is increased for the allocation of income to the co-venture partner and decreased for distributions to the co-venture partner. The co-venture obligation was \$68,689 and \$75,450 at September 30, 2015 and December 31, 2014, respectively.

11. Noncontrolling Interests:

The Company allocates net income of the Operating Partnership based on the weighted average ownership interest during the period. The net income of the Operating Partnership that is not attributable to the Company is reflected in the consolidated statements of operations as noncontrolling interests. The Company adjusts the noncontrolling interests in the Operating Partnership at the end of each period to reflect its ownership interest in the Company. The Company had a 94% ownership interest in the Operating Partnership as of September 30, 2015 and December 31, 2014. The remaining 6% limited partnership interest as of September 30, 2015 and December 31, 2014 was owned by certain of the Company's executive officers and directors, certain of their affiliates, and other third party investors in the form of OP Units. The OP Units may be redeemed for shares of stock or cash, at the Company's option. The redemption value for each OP Unit as of any balance sheet date is the amount equal to the average of the closing price per share of the Company's common stock, par value \$0.01 per share, as reported on the New York Stock Exchange for the 10 trading days ending on the respective balance sheet date. Accordingly, as of September 30, 2015 and December 31, 2014, the aggregate redemption value of the then-outstanding OP Units not owned by the Company was \$815,341 and \$877,184, respectively.

The Company issued common and preferred units of MACWH, LP in April 2005 in connection with the acquisition of the Wilmorite portfolio. The common and preferred units of MACWH, LP are redeemable at the election of the holder. The Company may redeem them for cash or shares of the Company's stock at the Company's option and they are classified as permanent equity.

Included in permanent equity are outside ownership interests in various consolidated joint ventures. The joint ventures do not have rights that require the Company to redeem the ownership interests in either cash or stock.

12. Stockholders' Equity:

Stock Buyback Program:

On September 30, 2015, the Company's Board of Directors authorized the repurchase of up to \$1,200,000 of the Company's outstanding common shares over the period ending September 30, 2017, as market conditions warrant. Repurchases may be made through open market purchases, privately negotiated transactions, structured or derivative transactions, including accelerated stock repurchase transactions, or other methods of acquiring shares and pursuant to Rule 10b5-1 of the Securities Exchange Act of 1934, from time to time as permitted by securities laws and other legal requirements.

12. Stockholders' Equity: (Continued)

At-The-Market Stock Offering Program ("ATM Program"):

On August 17, 2012, the Company entered into an equity distribution agreement ("2012 Distribution Agreement") with a number of sales agents (the "2012 ATM Program") to issue and sell, from time to time, shares of common stock, par value \$0.01 per share, having an aggregate offering price of up to \$500,000 (the "2012 ATM Shares"). Sales of the 2012 ATM Shares could have been made in privately negotiated transactions and/or any other method permitted by law, including sales deemed to be an "at the market" offering, which includes sales made directly on the New York Stock Exchange or sales made to or through a market maker other than on an exchange. The Company agreed to pay each sales agent a commission that was not to exceed, but could have been lower than, 2% of the gross proceeds of the 2012 ATM Shares sold through such sales agent under the 2012 Distribution Agreement.

On August 20, 2014, the Company terminated and replaced the 2012 ATM Program with a new ATM Program (the "2014 ATM Program") to sell, from time to time, shares of common stock, par value \$0.01 per share, having an aggregate offering price of up to \$500,000 (the "ATM Shares"). The terms of the 2014 ATM Program are substantially the same as the 2012 ATM Program. The unsold 2012 ATM Shares are no longer available for issuance. The Company did not sell any shares under the 2014 ATM Program during the nine months ended September 30, 2015.

As of September 30, 2015, \$500,000 of the ATM Shares were available to be sold under the 2014 ATM Program. Actual future sales of the ATM Shares under the 2014 ATM Program will depend upon a variety of factors including but not limited to market conditions, the trading price of the Company's common stock and the Company's capital needs. The Company has no obligation to sell the ATM Shares under the 2014 ATM Program.

The Company had loans to unconsolidated joint ventures during the three and nine months ended September 30, 2014. There were no loans outstanding at September 30, 2015 and December 31, 2014. Interest income associated with these notes was \$53 and \$162 for the three and nine months ended September 30, 2014, respectively. These loans represented initial funds advanced to development stage projects prior to construction loan funding. Accordingly, loan payables in the same amount were accrued as an obligation by the various joint ventures.

AWE/Talisman was considered a related party because it had a 40% noncontrolling ownership interest in Fashion Outlets of Chicago. On October 31, 2014, in connection with the Company's acquisition of AWE/Talisman's ownership interest in Fashion Outlets of Chicago, the balance of the Talisman Notes was settled (See Note 13—Acquisitions). The balance on this note was \$9,705 and \$11,027 at September 30, 2015 and December 31, 2014, respectively. RED is considered a related party because it is a partner in a joint venture development project. The note is collateralized by RED's membership interest in a development agreement.

Also included in due from affiliates is a note receivable from Lennar Corporation that bears interest at LIBOR plus 2% and matures upon the completion of certain milestones in connection with the development of Candlestick Point (See Note 4—Investments in Unconsolidated Joint Ventures). 17. Share and Unit-Based Plans:

Under the Long-Term Incentive Plan ("LTIP"), each award recipient is issued a form of operating partnership units ("LTIP Units") in the Operating Partnership. Upon the occurrence of specified events and subject to the satisfaction of applicable vesting conditions, LTIP Units (after conversion into OP Units) are ultimately redeemable for common

stock of the Company, or cash at the Company's option, on a one-unit for one-share basis. LTIP Units receive cash dividends based on the dividend

amount paid on the common stock of the Company. The LTIP may include both market-indexed awards and service-based awards. The market-indexed LTIP Units vest over the service period of the award based on the percentile ranking of the Company in terms of total return to the stockholders (the "Total Return") per common stock share relative to the Total Return of a group of peer REITs, as measured at the end of the measurement period.

On January 1, 2015, the Company granted 49,451 LTIP Units with a grant date fair value of \$83.41 per LTIP Unit that will vest in equal annual installments over a service period ending December 31, 2017. Concurrently, the Company granted 186,450 market-indexed LTIP Units ("2015 LTIP Units") at a grant date fair value of \$66.37 per LTIP Unit that vest over a service period ending December 31, 2015. The 2015 LTIP Units were equally divided between two types of awards. The terms of both types of awards were the same, except one award has an additional 3% absolute total stockholder return requirement, which if it is not met, then such LTIP Units will not vest. The fair value of the 2015 LTIP Units was estimated on the date of grant using a Monte Carlo Simulation model that assumed a risk free interest rate of 0.25% and an expected volatility of 16.81%.

On March 6, 2015, the Company granted 132,607 LTIP Units at a fair value of \$86.72 per LTIP Unit that were fully vested on the grant date.

The following summarizes the compensation cost under the share and unit-based plans:

On October 5, 2015, the Company paid off in full the existing mortgage note payable on Washington Square. On October 29, 2015, the Company placed a new \$550.0 million loan on the property that bears interest at 3.65% and matures on November 1, 2022.

On October 23, 2015, the Company placed a \$200.0 million mortgage note payable on South Plains Mall that bears interest at 4.22% and matures on November 6, 2025.

On October 30, 2015, the Company replaced the existing loan on Los Cerritos Center with a new \$525.0 million loan that bears interest at 4.00% and matures on November 1, 2027.

On October 30, 2015, in connection with the formation of the MAC GIC JV (See "Acquisitions and Dispositions"), the joint venture obtained a \$100.0 million term loan that bears interest at LIBOR plus 1.20% and matures on October 31, 2022.

Other Transactions and Events:

On January 1, 2015, the mortgage note payable on Great Northern Mall, an 895,000 square foot regional shopping center in Clay, New York, went into maturity default. On June 30, 2015, the Company conveyed the property to the mortgage lender by a deed-in-lieu of foreclosure and was discharged from the mortgage note payable. The mortgage note payable was a non-recourse loan. As a result, the Company recognized a loss of \$1.6 million on the extinguishment of debt.

On March 9, 2015, the Company received an unsolicited, conditional proposal from Simon Property Group, Inc. (“Simon”) to acquire the Company. The Company’s Board of Directors, after consulting with its financial and legal advisors, unanimously determined that the Simon proposal substantially undervalued the Company and was not in the best interests of the Company and its stockholders. On March 20, 2015, the Company received a revised, unsolicited proposal to acquire the Company from Simon, which Simon described as its best and final proposal. The Company’s Board of Directors carefully reviewed the revised proposal with the assistance of its financial, real estate and legal advisors, and determined that the revised proposal continued to substantially undervalue the Company and that pursuing the proposed transaction at that time was not in the best interests of the Company and its stockholders. The Company is negotiating with the loan servicer, which will likely result in a transition of Flagstaff Mall to the loan servicer or a receiver.

Redevelopment and Development Activities:

In February 2014, the Company's joint venture in Broadway Plaza started construction on the 235,000 square foot expansion of the 774,000 square foot regional shopping center in Walnut Creek, California. The joint venture expects to complete the project in phases with the first phase anticipated to be completed in Fall 2015. The total cost of the project is estimated to be \$270.0 million, with \$135.0 million estimated to be the Company's pro rata share. The Company has funded \$81.9 million of the total \$163.8 million incurred by the joint venture as of September 30, 2015. The Company is currently expanding Green Acres Mall, a 1,806,000 square foot regional center in Valley Stream, New York to include a 335,000 square foot power center. The project started in July 2015 and is expected to be completed in late 2016. As of September 30, 2015, the Company has incurred \$37.1 million in costs and estimates that the total cost of the project to be approximately \$105.0 million.

Inflation:

In the last three years, inflation has not had a significant impact on the Company because of a relatively low inflation rate. Most of the leases at the Centers have rent adjustments periodically throughout the lease term. These rent increases are either in fixed increments or based on using an annual multiple of increases in the Consumer Price Index ("CPI"). In addition, approximately 5% to 12% of the leases for spaces 10,000 square feet and under expire each year, which enables the Company to replace existing leases with new leases at higher base rents if the rents of the existing leases are below the then existing market rate. The Company has generally entered into leases that require tenants to pay a stated amount for operating expenses, generally excluding property taxes, regardless of the expenses actually incurred at any Center, which places the burden of cost control on the Company. Additionally, certain leases require the tenants to pay their pro rata share of operating expenses.

Seasonality:

The shopping center industry is seasonal in nature, particularly in the fourth quarter during the holiday season when retailer occupancy and retail sales are typically at their highest levels. In addition, shopping malls achieve a substantial portion of their specialty (temporary retailer) rents during the holiday season and the majority of percentage rent is recognized in the fourth quarter. As a result of the above, earnings are generally higher in the fourth quarter.

Critical Accounting Policies

The preparation of financial statements in conformity with generally accepted accounting principles ("GAAP") in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Some of these estimates and assumptions include judgments on revenue recognition, estimates for common area maintenance and real estate tax accruals, provisions for uncollectible accounts, impairment of long-lived assets, the allocation of purchase price between tangible and intangible assets and estimates for environmental matters. The Company's significant accounting policies are described in more detail in Note 2—Summary of Significant Accounting Policies in the Company's Notes to the Consolidated Financial Statements in the Company's Annual Report on Form 10-K. However, the following policies are deemed to be critical. There have been no significant changes to the Company's critical accounting policies during the nine months ended September 30, 2015.

Revenue Recognition:

Minimum rental revenues are recognized on a straight-line basis over the term of the related lease. The difference between the amount of rent due in a year and the amount recorded as rental income is referred to as the "straight line rent adjustment." Currently, 70% of the leases for the retail stores in the Company's regional shopping centers ("Mall Stores") and freestanding retail stores located along the perimeter of the Company's shopping centers ("Freestanding Stores") contain provisions for CPI rent increases periodically throughout the term of the lease. Percentage rents are recognized when the tenants' specified sales targets have been met. Estimated recoveries from certain tenants for their pro rata share of real estate taxes, insurance and other shopping center operating expenses are recognized as revenues in the period the applicable expenses are incurred. Other tenants pay a fixed rate and these tenant recoveries are recognized as revenues on a straight-line basis over the term of the related leases.

Table of Contents

Property:

Maintenance and repair expenses are charged to operations as incurred. Costs for major replacements and betterments, which includes HVAC equipment, roofs, parking lots, etc., are capitalized and depreciated over their estimated useful lives. Gains and losses are recognized upon disposal or retirement of the related assets and are reflected in earnings. Property is recorded at cost and is depreciated using a straight-line method over the estimated useful lives of the assets as follows:

Buildings and improvements	5 - 40 years
Tenant improvements	5 - 7 years
Equipment and furnishings	5 - 7 years

Capitalization of Costs:

The Company capitalizes costs incurred in redevelopment, development, renovation and improvement of properties. The capitalized costs include pre-construction costs essential to the development of the property, development costs, construction costs, interest costs, real estate taxes, salaries and related costs and other costs incurred during the period of development. These capitalized costs include direct and certain indirect costs clearly associated with the project. Indirect costs include real estate taxes, insurance and certain shared administrative costs. In assessing the amounts of direct and indirect costs to be capitalized, allocations are made to projects based on estimates of the actual amount of time spent on each activity. Indirect costs not clearly associated with specific projects are expensed as period costs. Capitalized indirect costs are allocated to development and redevelopment activities based on the square footage of the portion of the building not held available for immediate occupancy. If costs and activities incurred to ready the vacant space cease, then cost capitalization is also discontinued until such activities are resumed. Once work has been completed on a vacant space, project costs are no longer capitalized. For projects with extended lease-up periods, the Company ends the capitalization when significant activities have ceased, which does not exceed the shorter of a one-year period after the completion of the building shell or when the construction is substantially complete.

Acquisitions:

The Company allocates the estimated fair value of acquisitions to land, building, tenant improvements and identified intangible assets and liabilities, based on their estimated fair values. In addition, any assumed mortgage notes payable are recorded at their estimated fair values. The estimated fair value of the land and buildings is determined utilizing an "as if vacant" methodology. Tenant improvements represent the tangible assets associated with the existing leases valued on a fair value basis at the acquisition date prorated over the remaining lease terms. The tenant improvements are classified as an asset under property and are depreciated over the remaining lease terms. Identifiable intangible assets and liabilities relate to the value of in-place operating leases which come in three forms: (i) leasing commissions and legal costs, which represent the value associated with "cost avoidance" of acquiring in-place leases, such as lease commissions paid under terms generally experienced in the Company's markets; (ii) value of in-place leases, which represents the estimated loss of revenue and of costs incurred for the period required to lease the "assumed vacant" property to the occupancy level when purchased; and (iii) above or below-market value of in-place leases, which represents the difference between the contractual rents and market rents at the time of the acquisition, discounted for tenant credit risks. Leasing commissions and legal costs are recorded in deferred charges and other assets and are amortized over the remaining lease terms. The value of in-place leases are recorded in deferred charges and other assets and amortized over the remaining lease terms plus an estimate of renewal term of the acquired leases. Above or below-market leases are classified in deferred charges and other assets or in other accrued liabilities, depending on whether the contractual terms are above or below-market, and the asset or liability is amortized to minimum rents over the remaining terms of the leases. The remaining lease terms of below-market leases may include certain below-market fixed-rate renewal periods. In considering whether or not a lessee will execute a below-market fixed-rate lease renewal option, the Company evaluates economic factors and certain qualitative factors at the time of acquisition such as tenant mix in the Center, the Company's relationship with the tenant and the availability of competing tenant space. The initial allocation of purchase price is based on management's preliminary assessment, which may change when final information becomes available. Subsequent adjustments made to the initial purchase price allocation are made within the allocation period, which does not exceed one year. The purchase price allocation

is described as preliminary if it is not yet final. The use of different assumptions in the allocation of the purchase price of the acquired assets and liabilities assumed could affect the timing of recognition of the related revenues and expenses.

The Company immediately expenses costs associated with business combinations as period costs.

Table of Contents

Remeasurement gains are recognized when the Company obtains control of an existing equity method investment to the extent that the fair value of the existing equity investment exceeds the carrying value of the investment.

Asset Impairment:

The Company assesses whether an indicator of impairment in the value of its properties exists by considering expected future operating income, trends and prospects, as well as the effects of demand, competition and other economic factors. Such factors include projected rental revenue, operating costs and capital expenditures as well as estimated holding periods and capitalization rates. If an impairment indicator exists, the determination of recoverability is made based upon the estimated undiscounted future net cash flows, excluding interest expense. The amount of impairment loss, if any, is determined by comparing the fair value, as determined by a discounted cash flows analysis, with the carrying value of the related assets. The Company generally holds and operates its properties long-term, which decreases the likelihood of their carrying values not being recoverable. Properties classified as held for sale are measured at the lower of the carrying amount or fair value less cost to sell.

The Company reviews its investments in unconsolidated joint ventures for a series of operating losses and other factors that may indicate that a decrease in the value of its investments has occurred which is other-than-temporary. The investment in each unconsolidated joint venture is evaluated periodically, and as deemed necessary, for recoverability and valuation declines that are other-than-temporary.

Fair Value of Financial Instruments:

The fair value hierarchy distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity and the reporting entity's own assumptions about market participant assumptions.

Level 1 inputs utilize quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs that are observable for the asset or liability (other than quoted prices), such as interest rates, foreign exchange rates and yield curves that are observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liability, which is typically based on an entity's own assumptions, as there is little, if any, related market activity. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

The Company calculates the fair value of financial instruments and includes this additional information in the notes to consolidated financial statements when the fair value is different than the carrying value of those financial instruments. When the fair value reasonably approximates the carrying value, no additional disclosure is made.

Deferred Charges:

Costs relating to obtaining tenant leases are deferred and amortized over the initial term of the agreement using the straight-line method. As these deferred leasing costs represent productive assets incurred in connection with the Company's provision of leasing arrangements at the Centers, the related cash flows are classified as investing activities within the Company's consolidated statements of cash flows. Costs relating to financing of shopping center properties are deferred and amortized over the life of the related loan using the straight-line method, which approximates the effective interest method. The ranges of the terms of the agreements are as follows:

Deferred lease costs	1 - 15 years
Deferred financing costs	1 - 15 years

Results of Operations

Many of the variations in the results of operations, discussed below, occurred because of the transactions affecting the Company's properties described in Management's Overview and Summary above, including the Acquisition Properties, the Redevelopment Properties and the Disposition Properties (as defined below).

For purposes of the discussion below, the Company defines "Same Centers" as those Centers that are substantially complete and in operation for the entirety of both periods of the comparison. Non-Same Centers for comparison purposes include recently acquired properties ("Acquisition Properties"), those Centers or properties that are going through a substantial redevelopment often resulting in the closing of a portion of the Center ("Redevelopment Properties") and properties that have been disposed ("Disposition Properties"). The Company moves a Center in and out of Same Centers based on whether the Center is substantially complete and in operation for the entirety of both periods of the comparison. Accordingly, the Same Centers consist of all consolidated Centers, excluding the Acquisition Properties, the Redevelopment Properties and the Disposition Properties for the periods of comparison. For comparison of the three months ended September 30, 2015 to the three months ended September 30, 2014, the Acquisition Properties include the PPRLP Queens Portfolio and Inland Center. For comparison of the nine months ended September 30, 2015 to the nine months ended September 30, 2014, the Acquisition Properties include Cascade Mall, the PPRLP Queens Portfolio and Inland Center.

For comparison of the three and nine months ended September 30, 2015 to the three and nine months ended September 30, 2014, the Redevelopment Properties include Paradise Valley Mall, the expansion portion of Fashion Outlets of Niagara Falls USA, SouthPark Mall and Westside Pavilion. For comparison of the three and nine months ended September 30, 2015 to the three and nine months ended September 30, 2014, the Disposition Properties include Rotterdam Square, Somersville Towne Center, Lake Square Mall, South Towne Center, Camelback Colonnade and Great Northern Mall.

Unconsolidated joint ventures are reflected using the equity method of accounting. The Company's pro rata share of the results from these Centers is reflected in the Consolidated Statements of Operations as equity in income of unconsolidated joint ventures.

The Company considers tenant annual sales per square foot (for tenants in place for a minimum of twelve months or longer and 10,000 square feet and under) for regional shopping centers, occupancy rates (excluding large retail stores or "Anchors") for the Centers and releasing spreads (i.e. a comparison of initial average base rent per square foot on leases executed during the trailing twelve months to average base rent per square foot at expiration for the leases expiring during the trailing twelve months based on the spaces 10,000 square feet and under) to be key performance indicators of the Company's internal growth.

Tenant sales per square foot increased from \$571 for the twelve months ended September 30, 2014 to \$630 for the twelve months ended September 30, 2015. Occupancy rate decreased from 95.6% at September 30, 2014 to 95.4% at September 30, 2015. Releasing spreads increased 16.3% for the twelve months ended September 30, 2015. These calculations exclude Centers under development or redevelopment and property dispositions (See "Acquisitions and Dispositions" and "Other Transactions and Events" in Management's Overview and Summary).

Releasing spreads remained positive as the Company was able to lease available space at higher average rents than the expiring rental rates, resulting in a releasing spread of \$7.96 per square foot (\$56.93 on new and renewal leases executed compared to \$48.97 on leases expiring), representing a 16.3% increase for the trailing twelve months ended September 30, 2015. The Company expects that releasing spreads will continue to be positive for the remainder of 2015 as it renews or relets leases that are scheduled to expire. These leases that are scheduled to expire represent 1.1 million square feet of the Centers, accounting for 11.3% of the gross leasable area ("GLA") of Mall Stores and Freestanding Stores, for spaces 10,000 square feet and under, as of September 30, 2015.

During the trailing twelve months ended September 30, 2015, the Company signed 333 new leases and 407 renewal leases comprising approximately 1.4 million square feet of GLA, of which 1.3 million square feet related to the consolidated Centers. The annual initial average base rent for new and renewal leases was \$56.93 per square foot for the trailing twelve months ended September 30, 2015 with an average tenant allowance of \$14.83 per square foot.

Comparison of Three Months Ended September 30, 2015 and 2014

Revenues:

Minimum and percentage rents (collectively referred to as "rental revenue") increased by \$45.7 million, or 29.6%, from 2014 to 2015. The increase in rental revenue is attributed to an increase of \$49.7 million from the Acquisition Properties, \$1.8 million from the Same Centers and \$1.3 million from the Redevelopment Properties offset in part by a decrease of \$7.1 million from the Disposition Properties. Rental revenue includes the amortization of above and below-market leases, the amortization of straight-line rents and lease termination income. The amortization of above and below-market leases increased from \$3.0 million in 2014 to \$4.1 million in 2015. The amortization of straight-line rents increased from \$1.3 million in 2014 to \$2.8 million in 2015. Lease termination income increased from \$1.6 million in 2014 to \$3.1 million in 2015.

Tenant recoveries increased \$16.3 million, or 18.1%, from 2014 to 2015. This increase in tenant recoveries is attributed to an increase of \$21.0 million from the Acquisition Properties offset in part by a decrease of \$3.6 million from the Disposition Properties, \$0.6 million from the Same Centers and \$0.5 million from the Redevelopment Properties.

Other income increased \$3.9 million from 2014 to 2015. This increase in other income is attributed to an increase of \$4.1 million from the Acquisition Properties and \$0.1 million from the Redevelopment Properties offset in part by a decrease of \$0.3 million from the Disposition Properties.

Management Companies' revenue decreased from \$8.4 million in 2014 to \$5.3 million in 2015. The decrease in Management Companies' revenue is primarily due to a reduction in management and leasing fees as a result of the conversion from unconsolidated joint ventures to consolidated Centers of Cascade Mall and the PPRLP Queens Portfolio in 2014 and Inland Center in 2015 (See "Acquisitions and Dispositions" in Management's Overview and Summary).

Shopping Center and Operating Expenses:

Shopping center and operating expenses increased \$9.6 million, or 11.2%, from 2014 to 2015. This increase in shopping center and operating expenses is attributed to an increase of \$19.6 million from the Acquisition Properties offset in part by a decrease of \$5.2 million from the Same Centers, \$4.0 million from the Disposition Properties and \$0.8 million from the Redevelopment Properties. The decrease in shopping center and operating expenses at the Same Centers is primarily due to a reduction in maintenance and utility costs offset in part by an increase in property tax expense.

Management Companies' Operating Expenses:

Management Companies' operating expenses decreased \$0.5 million from 2014 to 2015.

REIT General and Administrative Expenses:

REIT general and administrative expenses increased by \$1.3 million from 2014 to 2015 due to an increase in share and unit-based compensation costs.

Depreciation and Amortization:

Depreciation and amortization increased \$27.7 million from 2014 to 2015. The increase in depreciation and amortization is attributed to an increase of \$32.0 million from the Acquisition Properties and \$1.2 million from the Redevelopment Properties offset in part by a decrease of \$3.3 million from the Disposition Properties and \$2.2 million from the Same Centers.

Interest Expense:

Interest expense increased \$7.2 million from 2014 to 2015. The increase in interest expense is attributed to an increase of \$10.5 million from the Acquisition Properties, \$2.2 million from borrowings under the Company's line of credit and \$0.1 million from the term loan offset in part by a decrease of \$3.1 million from the Same Centers, \$1.6 million from the Redevelopment Properties and \$0.9 million from the Disposition Properties. The decrease in interest expense at the Same Centers is primarily due to the payoff of the mortgage note payable on Fresno Fashion Fair in December

2014.

The above interest expense items are net of capitalized interest, which decreased from \$3.9 million in 2014 to \$3.6 million in 2015.

Equity in Income of Unconsolidated Joint Ventures:

Equity in income of unconsolidated joint ventures decreased \$6.1 million from 2014 to 2015. The decrease is primarily attributed to the conversion from unconsolidated joint ventures to consolidated Centers of the PPRLP Queens Portfolio in 2014 and Inland Center in 2015 offset in part by the acquisition of the interest in the Sears Portfolio (See "Acquisitions and Dispositions" in Management's Overview and Summary).

(Loss) Gain on Sale or Write Down of Assets, net:

The change in (loss) gain on sale or write down of assets, net from 2014 to 2015 was \$12.9 million, resulting from a gain of \$9.6 million in 2014 and a loss of \$3.3 million in 2015. The change is primarily due to the \$9.0 million gain on the sale of Wilshire Boulevard in 2014 (See "Acquisitions and Dispositions" in Management's Overview and Summary) and the \$4.3 million loss on impairment in 2015.

Net Income:

Net income decreased \$2.4 million from 2014 to 2015 primarily as a result of the items discussed above.

Funds From Operations ("FFO"):

Primarily as a result of the factors mentioned above, FFO attributable to common stockholders and unit holders—diluted increased 28.6% from \$132.5 million in 2014 to \$170.5 million in 2015. For a reconciliation of FFO attributable to common stockholders and unit holders and FFO attributable to common stockholders and unit holders—diluted to net income attributable to the Company, the most directly comparable GAAP financial measure, see "Funds From Operations ("FFO")" below.

This increase in tenant recoveries is attributed to an increase of \$61.2 million from the Acquisition Properties and \$2.9 million from the Same Centers offset in part by a decrease of \$10.6 million from the Disposition Properties and \$0.8 million from the Redevelopment Properties. The increase in tenant recoveries at the Same Centers is primarily due to an increase in property tax expense.

Other income increased \$11.2 million from 2014 to 2015. This increase in other income is attributed to an increase of \$11.7 million from the Acquisition Properties and \$0.1 million from the Same Centers offset in part by a decrease of \$0.6 million from the Disposition Properties.

Management Companies' revenue decreased from \$25.2 million in 2014 to \$17.1 million in 2015. The decrease in Management Companies' revenue is primarily due to a reduction in management fees as a result of the conversion from unconsolidated joint ventures to consolidated Centers of Cascade Mall and the PPRLP Queens Portfolio in 2014 and Inland Center in 2015 (See "Acquisitions and Dispositions" in Management's Overview and Summary).

Operating Activities:

Cash provided by operating activities increased from \$296.9 million in 2014 to \$413.7 million in 2015. The increase was primarily due to the acquisition of the PPRLP Queens Portfolio (See "Acquisitions and Dispositions" in Management's Overview and Summary) and changes in assets and liabilities and the results as discussed above.

Investing Activities:

Cash used in investing activities increased \$209.4 million from 2014 to 2015. The increase in cash used in investing activities is primarily attributed to an increase in contributions to unconsolidated joint ventures of \$78.8 million, an increase in development, redevelopment and renovations of \$78.7 million and a decrease in cash proceeds from the sale of assets of \$39.7 million. The increase in contributions to unconsolidated joint ventures is primarily due to the acquisition of the 50% ownership interest in the Sears Portfolio in 2015 (See "Acquisitions and Dispositions" in Management's Overview and Summary).

Financing Activities:

Cash provided by financing activities increased \$112.0 million from 2014 to 2015. The increase in cash provided by financing activities is primarily due to an increase in proceeds from mortgages, bank and other notes payable of \$1.2 billion offset in part by an increase in payments on mortgages, bank and other notes payable of \$1.0 billion and an increase in cash dividends and distributions of \$46.2 million.

Liquidity and Capital Resources

The Company anticipates meeting its liquidity needs for its operating expenses, debt service and dividend requirements for the next twelve months through cash generated from operations, working capital reserves and/or borrowings under its unsecured line of credit. The following tables summarize capital expenditures incurred at the Centers:

(Dollars in thousands)	For the Nine Months Ended September 30,	
	2015	2014
Consolidated Centers:		
Acquisitions of property and equipment	\$ 60,959	\$ 63,516
Development, redevelopment, expansion and renovation of Centers	148,474	127,573
Tenant allowances	20,496	12,845
Deferred leasing charges	20,753	18,076
	\$ 250,682	\$ 222,010
Joint Venture Centers (at Company's pro rata share):		
Acquisitions of property and equipment	\$ 153,352	\$ 109,030
Development, redevelopment, expansion and renovation of Centers	92,990	161,701
Tenant allowances	2,328	3,331
Deferred leasing charges	1,818	2,405
	\$ 250,488	\$ 276,467

The Company expects amounts to be incurred during the next twelve months for tenant allowances and deferred leasing charges to be comparable or less than 2014 and that capital for those expenditures will be available from working capital, cash flow from operations, borrowings on property specific debt or unsecured corporate borrowings. The Company expects to incur between \$300 million and \$400 million during the next twelve months for development, redevelopment, expansion and renovations. Capital for these major expenditures, developments and/or redevelopments has been, and is expected to continue to be, obtained from a combination of debt or equity financings, which are expected to include borrowings under the Company's line of credit and construction loans. The Company has also generated liquidity in the past through equity offerings and issuances, property refinancings, joint venture transactions and the sale of non-core assets. For example, the Company recently announced joint venture transactions to which the Company will contribute eight properties with the expected cash proceeds to the Company estimated at \$2.3 billion (See "Acquisitions and Dispositions" in Management's Overview and Summary), which will include new

debt or refinancings of existing debt on these properties with excess financing proceeds estimated to be \$1.1 billion (See "Financing Activity" in Management's Overview and Summary). The Company intends to use these proceeds to pay down its line of credit, fund the special dividends (See Note 19—Subsequent Events in the Company's Notes to Consolidated Financial Statements) and for other general corporate purposes, which may include any repurchases of

the Company's common stock under the recently authorized stock buyback program (See Note 12-Stockholder's Equity in the Company's Notes to Consolidated Financial Statements). Furthermore, the Company has filed a shelf registration statement, which registered an unspecified amount of common stock, preferred stock, depositary shares, debt securities, warrants, rights, stock purchase contracts and units that may be sold from time to time by the Company.

The capital and credit markets can fluctuate and, at times, limit access to debt and equity financing for companies. As demonstrated by the Company's recent activity, including through its \$500 million 2014 ATM Program as discussed below and its \$1.5 billion line of credit, the Company has been able to access capital; however, there is no assurance the Company will be able to do so in future periods or on similar terms and conditions. Many factors impact the Company's ability to access capital, such as its overall debt level, interest rates, interest coverage ratios and prevailing market conditions. In the event that the Company has significant tenant defaults as a result of the overall economy and general market conditions, the Company could have a decrease in cash flow from operations, which could result in increased borrowings under its line of credit. These events could result in an increase in the Company's proportion of floating rate debt, which would cause it to be subject to interest rate fluctuations in the future.

The Company has an equity distribution agreement with a number of sales agents (the "2014 ATM Program") to issue and sell, from time to time, shares of common stock, par value \$0.01 per share, having an aggregate offering price of up to \$500 million (the "2014 ATM Shares"). Sales of the 2014 ATM Shares can be made in privately negotiated transactions and/or any other method permitted by law, including sales deemed to be an "at the market" offering, which includes sales made directly on the New York Stock Exchange or sales made to or through a market maker other than on an exchange.

The Company did not sell any shares under the 2014 ATM Program during the nine months ended September 30, 2015.

As of September 30, 2015, \$500 million of the 2014 ATM Shares were available to be sold under the 2014 ATM Program. Actual future sales of the 2014 ATM Shares will depend upon a variety of factors including but not limited to market conditions, the trading price of the Company's common stock and the Company's capital needs. The Company has no obligation to sell the 2014 ATM Shares under the 2014 ATM Program.

The Company's total outstanding loan indebtedness at September 30, 2015 was \$7.5 billion (consisting of \$6.8 billion of consolidated debt, less \$0.2 billion of noncontrolling interests, plus \$0.9 billion of its pro rata share of unconsolidated joint venture debt). The majority of the Company's debt consists of fixed-rate conventional mortgage notes collateralized by individual properties. The Company expects that all of the maturities during the next twelve months, except for the loan on Flagstaff Mall, will be refinanced, restructured, extended and/or paid off from the Company's line of credit or cash on hand.

The Company has a \$1.5 billion revolving line of credit facility that provides for an interest rate of LIBOR plus a spread of 1.38% to 2.0%, depending on the Company's overall leverage levels, and matures on August 6, 2018. Based on the Company's leverage level as of September 30, 2015, the borrowing rate on the facility was LIBOR plus 1.50%. In addition, the line of credit can be expanded, depending on certain conditions, up to a total facility of \$2.0 billion. All obligations under the facility are unconditionally guaranteed only by the Company. At September 30, 2015, total borrowings under the line of credit were \$1.0 billion with an average effective interest rate of 1.88%.

The Company had a \$125.0 million unsecured term loan under the Company's line of credit that bore interest at LIBOR plus a spread of 1.95% to 3.20%, depending on the Company's overall leverage levels, and was to mature on December 8, 2018. Based on the Company's leverage level at September 30, 2015, the borrowing rate was LIBOR plus 2.20%. As of September 30, 2015, the total interest rate was 2.53%. On October 23, 2015, the term loan was paid off in full.

At September 30, 2015, the Company was in compliance with all applicable loan covenants under its agreements. At September 30, 2015, the Company had cash and cash equivalents of \$93.0 million.

Off-Balance Sheet Arrangements:

The Company accounts for its investments in joint ventures that it does not have a controlling interest or is not the primary beneficiary using the equity method of accounting and those investments are reflected on the consolidated balance sheets of the Company as investments in unconsolidated joint ventures.

In addition, certain joint ventures also have secured debt that could become recourse debt to the Company or its subsidiaries, in excess of the Company's pro rata share, should the joint ventures be unable to discharge the obligations of the related debt. At September 30, 2015, the balance of the debt that could be recourse to the Company was \$5.0 million offset in part by an indemnity agreement from a joint venture partner for \$2.5 million. The maturity of the recourse debt, net of the indemnification, is \$2.5 million in 2019.

Table of Contents

Additionally, as of September 30, 2015, the Company was contingently liable for \$2.8 million in letters of credit guaranteeing performance by the Company of certain obligations relating to the Centers. The Company does not believe that these letters of credit will result in a liability to the Company.

Contractual Obligations:

The following is a schedule of contractual obligations as of September 30, 2015 for the consolidated Centers over the periods in which they are expected to be paid (in thousands):

Funds From Operations ("FFO")

The Company uses FFO in addition to net income to report its operating and financial results and considers FFO and FFO-diluted as supplemental measures for the real estate industry and a supplement to Generally Accepted Accounting Principles ("GAAP") measures. The National Association of Real Estate Investment Trusts ("NAREIT") defines FFO as net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from extraordinary items and sales of depreciated operating properties, plus real estate related depreciation and amortization, impairment write-downs of real estate and write-downs of investments in an affiliate where the write-downs have been driven by a decrease in the value of real estate held by the affiliate and after adjustments for unconsolidated joint ventures. Adjustments for unconsolidated joint ventures are calculated to reflect FFO on the same basis.

FFO and FFO on a diluted basis are useful to investors in comparing operating and financial results between periods. This is especially true since FFO excludes real estate depreciation and amortization, as the Company believes real estate values fluctuate based on market conditions rather than depreciating in value ratably on a straight-line basis over time. The Company believes that such a presentation also provides investors with a meaningful measure of its operating results in comparison to the operating results of other REITs. The Company further believes that FFO on a diluted basis is a measure investors find most useful in measuring the dilutive impact of outstanding convertible securities.

The Company believes that FFO does not represent cash flow from operations as defined by GAAP, should not be considered as an alternative to net income as defined by GAAP, and is not indicative of cash available to fund all cash flow needs. The Company also cautions that FFO, as presented, may not be comparable to similarly titled measures reported by other REITs.

Management compensates for the limitations of FFO by providing investors with financial statements prepared according to GAAP, along with this detailed discussion of FFO and a reconciliation of FFO and FFO-diluted to net income. Management believes that to further understand the Company's performance, FFO should be compared with the Company's reported net income and considered in addition to cash flows in accordance with GAAP, as presented in the Company's consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company's primary market risk exposure is interest rate risk. The Company has managed and will continue to manage interest rate risk by (1) maintaining a ratio of fixed rate, long-term debt to total debt such that floating rate exposure is kept at an acceptable level, (2) reducing interest rate exposure on certain long-term floating rate debt through the use of interest rate caps and/or swaps with matching maturities where appropriate, (3) using treasury rate locks where appropriate to fix rates on anticipated debt transactions, and (4) taking advantage of favorable market conditions for long-term debt and/or equity.

The following table sets forth information as of September 30, 2015 concerning the Company's long-term debt obligations, including principal cash flows by scheduled maturity, weighted average interest rates and estimated fair value (dollars in thousands):

The consolidated Centers' total fixed rate debt at September 30, 2015 and December 31, 2014 was \$5.4 billion and \$5.2 billion, respectively. The average interest rate on such fixed rate debt at September 30, 2015 and December 31, 2014 was 3.65% and 3.63%, respectively. The consolidated Centers' total floating rate debt at September 30, 2015 and December 31, 2014 was \$1.5 billion and \$1.1 billion, respectively. The average interest rate on such floating rate debt at September 30, 2015 and December 31, 2014 was 1.99% and 2.11%, respectively.

The Company's pro rata share of the unconsolidated joint venture Centers' fixed rate debt at September 30, 2015 and December 31, 2014 was \$802.5 million and \$882.5 million, respectively. The average interest rate on such fixed rate debt at September 30, 2015 and December 31, 2014 was 4.36% and 4.50%, respectively. The Company's pro rata share of the unconsolidated joint venture Centers' floating rate debt at September 30, 2015 and December 31, 2014 was \$86.7 million and \$115.4 million, respectively. The average interest rate on such floating rate debt at September 30, 2015 and December 31, 2014 was 2.26% and 2.59%, respectively.

In addition, the Company has assessed the market risk for its floating rate debt and believes that a 1% increase in interest rates would decrease future earnings and cash flows by approximately \$15.5 million per year based on \$1.5

billion of floating rate debt outstanding at September 30, 2015.

The fair value of the Company's long-term debt is estimated based on a present value model utilizing interest rates that reflect the risks associated with long-term debt of similar risk and duration. In addition, the method of computing fair value for mortgage notes payable included a credit value adjustment based on the estimated value of the property that serves as collateral for the underlying debt (See Note 8—Mortgage Notes Payable and Note 9—Bank and Other Notes Payable in the Company's Notes to the Consolidated Financial Statements).

Item 4. Controls and Procedures

In addition, there has been no change in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15(d)-15(f) under the Securities Exchange Act of 1934) that occurred during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
