NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

August 3, 2013

(unaudited)

(1) Basis of Presentation

In the opinion of management, the accompanying unaudited condensed consolidated financial statements of Guess?, Inc. and its subsidiaries (the "Company") contain all adjustments, consisting of normal recurring adjustments, considered necessary for a fair presentation of the condensed consolidated balance sheets as of August 3, 2013 and February 2, 2013, the condensed consolidated statements of income and condensed consolidated statements of comprehensive income for the three and six months ended August 3, 2013 and July 28, 2012, and the condensed consolidated statements of cash flows for the six months ended August 3, 2013 and July 28, 2012. The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and the instructions to Rule 10-01 of Regulation S-X of the Securities and Exchange Commission (the "SEC"). Accordingly, they have been condensed and do not include all of the information and footnotes required by GAAP for complete financial statements. The results of operations for the three and six months ended August 3, 2013 are not necessarily indicative of the results of operations to be expected for the full fiscal year. These financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended February 2, 2013.

The Company has made certain reclassifications to the prior year's consolidated financial statements to conform to classifications in the current year. These reclassifications had no impact on previously reported results from operations or net cash provided by operating activities.

The three and six months ended August 3, 2013 had the same number of days as the three and six months ended July 28, 2012. All references herein to "fiscal 2014", "fiscal 2013" and "fiscal 2012" represent the results of the 52-week fiscal year ending February 1, 2014, the 53-week fiscal year ended February 2, 2013 and the 52-week fiscal year ended January 28, 2012, respectively.

New Accounting Guidance

In February 2013, the Financial Accounting Standards Board ("FASB") issued authoritative guidance that requires an entity to provide information about the amounts reclassified out of accumulated other comprehensive income (loss) by component. In addition, an entity is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income (loss) by the respective line items of net income but only if the amount reclassified is required under GAAP to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required under GAAP to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures required under GAAP that provide additional detail about those amounts. The Company adopted this guidance effective February 3, 2013 and accordingly has presented the required comprehensive income disclosures in the accompanying notes to the condensed consolidated financial statements.

In July 2013, the FASB issued authoritative guidance which requires that an unrecognized tax benefit be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar loss or a tax credit carryforward, if specific criteria are met. This guidance is effective for fiscal periods beginning after December 15, 2013. The adoption of this guidance is not expected to have a material impact on the Company's consolidated financial statements.

Table of Contents

## (2) Earnings Per Share

Basic earnings per share represents net earnings attributable to common stockholders divided by the weighted-average number of common shares outstanding for the period. Diluted earnings per share represents net earnings attributable to common stockholders divided by the weighted-average number of common shares outstanding, inclusive of the dilutive impact of common equivalent shares outstanding during the period. However, nonvested restricted stock awards (referred to as participating securities) are excluded from the dilutive impact of common equivalent shares outstanding in accordance with authoritative guidance under the two-class method since the nonvested restricted stockholders are entitled to participate in dividends declared on common stock as if the shares were fully vested and hence are deemed to be participating securities. Under the two-class method, earnings attributable to nonvested restricted stockholders are excluded from net earnings attributable to common stockholders for purposes of calculating basic and diluted earnings per common share.

The computation of basic and diluted net earnings per common share attributable to common stockholders is as follows (in thousands, except per share data):

	Three Months Ended		Six Months Ended	
	Aug 3, 2013	Jul 28, 2012	Aug 3, 2013	Jul 28, 2012
Net earnings attributable to Guess?, Inc.	\$39,866	\$42,899	\$49,782	\$69,545
Less net earnings attributable to nonvested restricted stockholders	351	298	410	460
Net earnings attributable to common stockholders	\$39,515	\$42,601	\$49,372	\$69,085
Weighted average common shares used in basic computations	84,080	86,972	84,331	88,081
Effect of dilutive securities:				
Stock options and restricted stock units	267	265	232	303
Weighted average common shares used in diluted computations	84,347	87,237	84,563	88,384
Net earnings per common share attributable to common stockholders:				
Basic	\$0.47	\$0.49	\$0.59	\$0.78
Diluted	\$0.47	\$0.49	\$0.58	\$0.78

For the three months ended August 3, 2013 and July 28, 2012, equity awards granted for 1,061,684 and 1,541,867, respectively, of the Company's common shares and for the six months ended August 3, 2013 and July 28, 2012, equity awards granted for 1,412,576 and 1,328,398, respectively, of the Company's common shares were outstanding but were excluded from the computation of diluted weighted average common shares and common share equivalents outstanding because their effect would have been anti-dilutive. For the three and six months ended August 3, 2013, the Company also excluded 243,700 nonvested stock units which are subject to the achievement of performance-based vesting conditions from the computation of diluted weighted average common shares and common share equivalents outstanding because the performance condition had not yet been achieved as of August 3, 2013. There were no nonvested stock options or units in the comparable prior-year periods which remained subject to a performance condition as of July 28, 2012.

On March 14, 2011, the Company's Board of Directors authorized a program to repurchase, from time-to-time and as market and business conditions warrant, up to \$250 million of the Company's common stock (the "2011 Share Repurchase Program"). On June 26, 2012, the Company's Board of Directors authorized a new program to repurchase, from time-to-time and as market and business conditions warrant, up to \$500 million of the Company's common stock (the "2012 Share Repurchase Program"). The 2012 Share Repurchase Program was in addition to the 2011 Share Repurchase Program. Repurchases under programs may be made on the open market or in privately negotiated transactions, pursuant to Rule 10b5-1 trading plans or other available means. There is no minimum or maximum number of shares to be repurchased under programs and programs may be discontinued at any time, without prior notice. During the six months ended August 3, 2013, the Company repurchased 882,551 shares under the 2011 and 2012 Share Repurchase Programs at an aggregate cost of \$22.1 million. All such share repurchases were made during the three months ended May 4, 2013. At August 3, 2013,

Table of Contents

the Company had remaining authority under the 2012 Share Repurchase Program to purchase \$495.8 million of its common stock and no remaining authority to purchase shares under the 2011 Share Repurchase Program.

#### Redeemable Noncontrolling Interests

The Company is party to a put arrangement with respect to the common securities that represent the remaining noncontrolling interest from the acquisition of its majority-owned subsidiary, Guess Sud SAS (“Guess Sud”). The put arrangement for Guess Sud, representing 40% of the total outstanding equity interest of that subsidiary, may be exercised at the discretion of the noncontrolling interest holders by providing written notice to the Company any time after January 30, 2012. The put arrangement is recorded on the balance sheet at its expected redemption value and classified as a redeemable noncontrolling interest outside of permanent equity. On May 15, 2012, the Company and the noncontrolling interest holders executed an amendment to the Guess Sud put arrangement which modified the put price to be based on the value of specified net tangible and intangible assets of Guess Sud

instead of being based on a multiple of Guess Sud's earnings before interest, taxes, depreciation and amortization. The redemption value of the Guess Sud redeemable put arrangement was \$3.5 million and \$3.1 million at August 3, 2013 and February 2, 2013, respectively.

During the second quarter of fiscal 2014, the Company entered into a majority-owned joint venture to establish Guess Brasil Comércio e Distribuição S.A. ("Guess Brazil"). The Company funded \$0.8 million to obtain a 60% interest in Guess Brazil and is subject to a put arrangement with respect to the common securities that represent the remaining noncontrolling interest. The put arrangement may be exercised at the discretion of the noncontrolling interest holder by providing written notice to the Company beginning in fiscal 2020, or sooner in certain limited circumstances, and every third anniversary thereafter subject to certain time restrictions. The redemption value of the Guess Brazil put arrangement is based on a multiple of Guess Brazil's earnings before interest, taxes, depreciation and amortization subject to certain adjustments. The redemption value of the Guess Brazil redeemable put arrangement was \$0.5 million at August 3, 2013.

The Company was previously party to a put arrangement in connection with its now wholly-owned subsidiary, Focus Europe S.r.l. ("Focus"). Under the terms of this put arrangement, which represented 25% of the total outstanding interest of that subsidiary, the noncontrolling interest holder had the option to exercise the put arrangement at its discretion by providing written notice to the Company no later than June 27, 2012. The redemption value of the put arrangement was determined based on a multiple of Focus's net earnings. In June 2012, the noncontrolling interest holder notified the Company of its intent to exercise the put arrangement. On July 9, 2012, the Company paid \$4.2 million to the noncontrolling interest holder to acquire the remaining 25% interest in Focus. This amount was determined based on a multiple of Focus's net earnings in accordance with the terms of the put arrangement.

**(4)Accounts Receivable**

Accounts receivable consists of trade receivables relating primarily to the Company's wholesale business in Europe, and to a lesser extent, to its wholesale businesses in North America and Asia. The Company provided for allowances relating to these receivables of \$36.0 million and \$38.4 million at August 3, 2013 and February 2, 2013, respectively. In addition, accounts receivable includes royalty receivables relating to licensing operations of \$8.9 million and \$8.8 million at August 3, 2013 and February 2, 2013, respectively, for which the Company provided for an allowance for doubtful accounts of \$0.3 million at each of the periods ended August 3, 2013 and February 2, 2013. The accounts receivable allowance includes allowances for doubtful accounts, wholesale sales returns and wholesale markdowns. Retail sales returns allowances are included in accrued expenses.

**(5)Inventories**

Inventories consist of the following (in thousands):

	Aug 3, 2013	Feb 2, 2013
Raw materials	\$20,057	\$14,706
Work in progress	1,969	1,765
Finished goods	378,115	353,241
	\$400,141	\$369,712

As of August 3, 2013 and February 2, 2013, the Company had an allowance to write-down inventories to the lower of cost or market of \$23.0 million and \$20.4 million, respectively.

**(6)Restructuring Charges**

During the first quarter of fiscal 2014, the Company implemented plans to streamline its structure and reduce expenses in both Europe and North America. During the second quarter of fiscal 2014, the Company expanded these plans to include the consolidation and streamlining of certain operations in Europe and Asia. These actions resulted in restructuring charges related primarily to severance, impairment and lease termination costs of \$6.1 million and \$8.5 million during the three and six months ended August 3, 2013, respectively. As of August 3, 2013, the Company had a balance of approximately \$4.4 million in accrued expenses for amounts expected to be

paid during the remainder of fiscal 2014. The Company currently estimates that it may incur an additional \$2.0 million to \$4.0 million in future cash-related severance and lease termination costs during fiscal 2014 as facilities are vacated.

The following table summarizes the components of the restructuring activity during the three and six months ended August 3, 2013 (in thousands):

	Three Months Ended Aug 3, 2013

Foreign currency and other adjustments	129	(15)	114
Ending balance	\$4,376	\$4	\$4,380

**(7) Income Taxes**

Income tax expense for the interim periods was computed using the effective tax rate estimated to be applicable for the full fiscal year. The Company's effective income tax rate increased to 33.0% for the six months ended August 3, 2013 from 32.0% for the six months ended July 28, 2012.

The Company accrues an amount for its estimate of additional income tax liability which the Company, more likely than not, could incur as a result of the ultimate resolution of income tax audits ("uncertain tax positions"). The Company reviews and updates the estimates used in the accrual for uncertain tax positions as more definitive information becomes available from taxing authorities, upon completion of tax audits, upon expiration of statutes of limitation, or upon occurrence of other events.

The Company had aggregate accruals for uncertain tax positions, including penalties and interest and net of federal tax benefits, of \$4.4 million at each of the periods ended August 3, 2013 and February 2, 2013.

**Italian Tax Settlement**

In January 2013, to avoid a potentially long and costly litigation process, the Company reached an agreement with the Italian tax authority regarding an ongoing audit of one of the Company's Italian subsidiaries. The agreement covered fiscal years 2008 through 2013 (with fiscal year 2013 remaining subject to final documentation). As a result of the agreement during the fourth quarter of fiscal 2013, the Company recorded a settlement charge of \$12.8 million (including penalty and interest and net of related offsets in other tax jurisdictions) in excess of prior uncertain tax position reserves of \$11.7 million. As part of the agreement, a portion of the amount payable to the Italian tax authority will be payable in four installments during fiscal 2015, and as such, €3.0 million (US\$4.0 million) is included in other long-term liabilities in the Company's condensed consolidated

Table of Contents

balance sheet as of August 3, 2013. At February 2, 2013, the Company included €9.1 million (US\$12.4 million) in other long-term liabilities related to this agreement.

The Company was advised by its Italian counsel that tax audits like this one in Italy involving proposed income adjustments greater than €2 million are automatically referred for review by a public prosecutor who may seek to pursue charges or close the matter, and that resulting criminal charges, if any, would be instituted against individuals rather than against the affected companies under Italian law. Consistent with this process, a review proceeding by a prosecutor in Italy was initiated with respect to one current and two former members of the Guess European management team and the Company's former President (as the signing officer for certain Italian tax returns covering the relevant periods). In July 2013, the matter was closed based on the prosecutor's recommendation.

**(8) Segment Information**

The Company's businesses are grouped into five reportable segments for management and internal financial reporting purposes: North American Retail, Europe, Asia, North American Wholesale and Licensing. Management evaluates segment performance based primarily on revenues and earnings from operations before restructuring charges, if any. The Company believes this segment reporting reflects how its five business segments are managed and each segment's performance is evaluated. The North American Retail segment includes the Company's retail operations in North America. The Europe segment includes the Company's wholesale and retail operations in Europe and the Middle East. The Asia segment includes the Company's wholesale and retail operations in Asia. The North American Wholesale segment includes the Company's wholesale operations in North America and export sales to Central and South America. The Licensing segment includes the worldwide licensing operations of the Company. The business segment operating results exclude corporate overhead costs, which consist of shared costs of the organization, and restructuring charges. These costs are presented separately and generally include, among other things, the following unallocated corporate costs: accounting and finance, executive compensation, facilities, global advertising and marketing, human resources, information technology and legal.

Net revenue and earnings from operations are summarized as follows for the three and six months ended August 3, 2013 and July 28, 2012 (in thousands):

	Three Months Ended		Six Months Ended	
	Aug 3, 2013	Jul 28, 2012	Aug 3, 2013	Jul 28, 2012

Corporate Overhead	(21,374)	(18,671)	(40,078)	(48,808)
Restructuring Charges	(6,129)	—	(8,466)	—
Total earnings from operations	\$60,780	\$57,301	\$72,105	\$96,442

Due to the seasonal nature of the Company's business segments, the above net revenue and operating results are not necessarily indicative of the results that may be expected for the full fiscal year. Restructuring charges incurred during the three and six months ended August 3, 2013 related to plans to streamline and consolidate the Company's operations and reduce expenses in North America, Europe and Asia. Refer to Note 6 for more information regarding these restructuring charges.

## (9) Borrowings and Capital Lease Obligations

Borrowings and capital lease obligations are summarized as follows (in thousands):

	Aug 3, 2013	Feb 2, 2013
European capital lease, maturing quarterly through 2016	\$8,924	\$10,121
Other	1,301	94
	10,225	10,215
Less current installments	3,015	1,901
Long-term capital lease obligations	\$7,210	\$8,314
Capital Lease		

The Company entered into a capital lease in December 2005 for a new building in Florence, Italy. At August 3, 2013, the capital lease obligation was \$8.9 million. The Company entered into a separate interest rate swap agreement designated as a non-hedging instrument that resulted in a swap fixed rate of 3.55%. This interest rate swap agreement matures in 2016 and converts the nature of the capital lease obligation from Euribor floating-rate debt to fixed-rate debt. The fair value of the interest rate swap liability at August 3, 2013 was approximately \$0.6 million.

## Credit Facilities

On July 6, 2011, the Company entered into a five-year senior secured revolving credit facility with JPMorgan Chase Bank, N.A., Bank of America, N.A. and the other lenders party thereto (the "Credit Facility") which provided for a \$200 million revolving multicurrency line of credit. The Credit Facility is available for direct borrowings and the issuance of letters of credit, subject to certain letters of credit sublimits. It may be used for working capital and other general corporate purposes.

On August 31, 2012, the Company increased its borrowing capacity under the Credit Facility from \$200 million to \$300 million by exercising the accordion feature in the Credit Facility pursuant to a Lender Joinder Agreement with the lenders party thereto. Also on August 31, 2012, the Company entered into an Amendment to the Credit Facility with the lenders party thereto to provide for (i) greater flexibility in certain of the Company's covenants under the Credit Facility and (ii) access to a new \$100 million accordion feature, subject to certain conditions and the willingness of existing or new lenders to assume such increased amount. At August 3, 2013, the Company had \$3.5 million in outstanding standby letters of credit, no outstanding documentary letters of credit and no outstanding borrowings under the Credit Facility.

The Company, through its European subsidiaries, maintains short-term uncommitted borrowing agreements, primarily for working capital purposes, with various banks in Europe. The majority of the borrowings under these agreements are secured by specific accounts receivable balances. Based on the applicable accounts receivable balances at August 3, 2013, the Company could have borrowed up to \$140.0 million under these agreements. At August 3, 2013, the Company had no outstanding borrowings and \$1.8 million in outstanding documentary letters of credit under these agreements. The agreements are denominated primarily in euros and provide for annual interest rates ranging from 0.5% to 3.0%. The maturities of any short-term borrowings under these arrangements are generally linked to the credit terms of the underlying accounts receivable that secure the borrowings. With the exception of one facility for up to \$46.5 million that has a minimum net equity requirement, there are no other financial ratio covenants.

## Other

From time-to-time, the Company will obtain other short-term financing in foreign countries for working capital to finance its local operations.

## (10) Share-Based Compensation

The following table summarizes the share-based compensation expense recognized under all of the Company's stock plans during the three and six months ended August 3, 2013 and July 28, 2012 (in thousands):

	Three Months Ended		Six Months Ended	
	Aug 3, 2013	Jul 28, 2012	Aug 3, 2013	Jul 28, 2012
Stock options	\$684	\$1,293	\$1,257	\$2,481
Nonvested stock awards/units	2,994	2,471	4,599	5,980
Employee Stock Purchase Plan	73	77	143	182
Total share-based compensation expense	\$3,751	\$3,841	\$5,999	\$8,643

Unrecognized compensation cost, adjusted for estimated forfeitures, related to nonvested stock options and nonvested stock awards/units totaled approximately \$5.3 million and \$28.3 million, respectively, as of August 3, 2013. This cost is expected to be recognized over a weighted-average period of 1.9 years. The weighted average fair values of stock options granted during the six months ended August 3, 2013 and July 28, 2012 were \$6.05 and \$9.19, respectively.

**Grants**

On April 3, 2013, the Company made an annual grant of 416,500 stock options and 408,400 nonvested stock awards/units to its employees. On March 28, 2012, the Company made an annual grant of 290,400 stock options and 292,800 nonvested stock awards/units to its employees. On June 21, 2012, the Company made a grant of 270,000 nonvested stock awards/units to its employees.

**Performance Awards**

On July 11, 2013, the Company granted 100,000 nonvested stock units to Paul Marciano, the Company's Chief Executive Officer and Vice Chairman of the Board, in connection with a new employment agreement entered into between the Company and Mr. Paul Marciano. The nonvested stock units have an initial vesting period of seven months followed by two annual vesting periods, subject to the achievement of performance-based vesting conditions for the last three quarters of fiscal 2014. The Company also granted a target of 143,700 nonvested stock units to Mr. Paul Marciano on July 11, 2013. The number of shares that will ultimately vest will equal 0% to 150% of the target number of shares, subject to the achievement of performance-based conditions for the last three quarters of fiscal 2014. Such shares are scheduled to vest on February 1, 2016.

On May 1, 2008, the Company granted an aggregate of 167,000 nonvested stock awards to certain employees which were subject to certain annual performance-based vesting conditions over a five-year period. On October 30, 2008, the Company granted an aggregate of 563,400 nonvested stock options to certain employees scheduled to vest over a four-year period, which were subject to the achievement of performance-based vesting conditions for fiscal 2010.

During the first quarter of fiscal 2010, the Compensation Committee determined that the performance goals established in the prior year were no longer set at an appropriate level to incentivize and help retain employees given the greater than previously anticipated deterioration of the economy that had occurred since the goals were established. Therefore, in April 2009, the Compensation Committee modified the performance goals of that year's tranche of the outstanding performance-based stock awards and options to address the challenges associated with the economic environment. During the first quarter of fiscal 2011, fiscal 2012 and fiscal 2013, the Compensation Committee modified the performance goals of the respective year's tranche of the outstanding performance-based stock awards to address the continuing challenges associated with the economic environment. None of the modifications had a material impact on the consolidated financial statements of the Company.

**Consulting Arrangement**

On June 18, 2011, Maurice Marciano, the Company's then-serving executive Chairman of the Board of Directors, notified the Company of his decision to retire as an employee and executive officer effective January 28, 2012, the end of fiscal 2012. Mr. Maurice Marciano continues to serve as non-executive Chairman of the Board of Directors. In accordance with the terms of Mr. Maurice Marciano's employment agreement, the Company and

Table of Contents

Mr. Maurice Marciano entered into a two-year consulting agreement, under which Mr. Maurice Marciano will provide certain consulting services to the Company through January 2014. In connection with the ongoing services to be provided, Mr. Maurice Marciano's outstanding equity awards were modified to provide that all awards that would have otherwise been unvested and forfeited at January 28, 2012, will continue to vest in accordance with the original vesting terms for as long as Mr. Maurice Marciano continues to serve as a member of the Board of Directors of the Company. The original grant date fair value of the modified equity awards aggregated \$4.7 million while the modified grant date fair value aggregated \$5.0 million. As a result of the modification, compensation expense of \$2.5 million was accelerated and recorded in the last eight months of fiscal 2012.

(11) Related Party Transactions

The Company and its subsidiaries periodically enter into transactions with other entities or individuals that are considered related parties, including certain transactions with entities affiliated with trusts for the respective benefit of Paul Marciano, who is an executive of the Company, Maurice Marciano, Chairman of the Board, Armand Marciano, their brother and former executive of the Company, and certain of their children (the "Marciano Trusts").

Leases

The Company leases warehouse and administrative facilities, including the Company's corporate headquarters in Los Angeles, California, from partnerships affiliated with the Marciano Trusts and certain of their affiliates. There were four of these leases in effect at August 3, 2013 with expiration dates ranging from 2014 to 2020.

Aggregate rent and property tax expense under these related party leases was \$2.9 million for each of the six months ended August 3, 2013 and July 28, 2012. The Company believes the related party lease terms have not been significantly affected by the fact that the Company and the lessors are related.

Aircraft Arrangements

The Company periodically charters aircraft owned by MPM Financial, LLC ("MPM Financial"), an entity affiliated with the Marciano Trusts, through independent third party management companies contracted by MPM Financial to manage its aircraft. Under an informal arrangement with MPM Financial and the third party management companies, the Company has chartered, and may from time-to-time continue to charter, aircraft owned by MPM Financial at a discount from the third party management companies' preferred customer hourly charter rates. The total fees paid under these arrangements for the six months ended August 3, 2013 were minimal. During the six months ended July 28, 2012, the total fees paid under these arrangements were approximately \$0.9 million.

Consulting Arrangement

After serving for over 30 years as an executive and leader for Guess?, co-founder Maurice Marciano elected to retire from his position as executive Chairman of the Board and as an employee of the Company upon the expiration of his employment agreement on January 28, 2012. Mr. Marciano continues to serve the Company as its non-executive Chairman of the Board. In addition, under the terms of his previously existing employment agreement, the Company and Mr. Marciano entered into a two-year consulting agreement (the "Marciano Consulting Agreement") under which Mr. Marciano will provide certain consulting services to the Company, including advice and counsel to the Company's Chief Executive Officer and other senior executives. The Marciano Consulting Agreement, which has a two-year term that commenced on January 28, 2012, provides for consulting fees of \$500,000 per year and continued automobile use in a manner consistent with past practice. Total expenses incurred with respect to the Marciano Consulting Agreement were for \$0.3 million for each of the six months ended August 3, 2013 and July 28, 2012.

Other Transactions

From time-to-time, the Company utilizes a third-party agent named Harmony Collection, LLC to produce specific apparel products on behalf of the Company. Armand Marciano, brother of Maurice and Paul Marciano, is part owner and an executive of the parent company of Harmony Collection, LLC. The total payments made by

Table of Contents

the Company under this arrangement for the six months ended August 3, 2013 and July 28, 2012 were approximately \$0.8 million and \$0.3 million, respectively. The Company believes that the price and transaction terms have not been significantly affected by the relationship between the parties.

These related party disclosures should be read in conjunction with the disclosure concerning related party transactions in the Company's Annual Report on Form 10-K for the year ended February 2, 2013.

(12) Commitments and Contingencies

Leases

The Company leases its showrooms and retail store locations under operating lease agreements expiring on various dates through September 2031. Some of these leases require the Company to make periodic payments for property taxes, utilities and common area operating expenses. Certain retail store leases provide for rents based upon the minimum annual rental amount and a percentage of annual sales volume, generally ranging from 3% to 12%, when specific sales volumes are exceeded. Some leases include lease incentives, rent abatements and fixed rent escalations, which are amortized and recorded over the initial lease term on a straight-line basis. The Company also leases some of its equipment under operating lease agreements expiring at various dates through October 2018. As discussed in further detail in Note 9, the Company leases a building in Florence, Italy under a capital lease.

Litigation

On May 6, 2009, Gucci America, Inc. filed a complaint in the U.S. District Court for the Southern District of New York against Guess?, Inc. and certain third-party licensees for the Company asserting, among other things, trademark and trade dress law violations and unfair competition. The complaint sought injunctive relief, compensatory damages, including treble damages, and certain other relief. Complaints similar to those in the above action have also been filed by Gucci entities against the Company and certain of its subsidiaries in the Court of Milan, Italy, the Court of Paris, France and the Intermediate People's Court of Nanjing, China. The three week bench trial in the U.S. matter concluded on April 19, 2012, with the court issuing a preliminary ruling on May 21, 2012 and a final ruling on July 19, 2012. Although the plaintiff was seeking compensation in the U.S. matter in the form of damages of \$26 million and an accounting of profits of \$99 million, the final ruling provided for monetary damages of \$2.3 million against the Company and \$2.3 million against certain of its licensees. The court also granted narrow injunctions in favor of the plaintiff for certain of the claimed infringements. On August 20, 2012, the appeal period expired without any party having filed an appeal, rendering the judgment final. On May 2, 2013, the Court of Milan ruled in favor of the Company in the Milan, Italy matter. In the ruling, the Court rejected all of the plaintiff's claims and ordered the cancellation of three of the plaintiff's Italian and four of the plaintiff's European Community trademark registrations. On June 10, 2013, the plaintiff appealed the Court's ruling in the Milan matter.

On August 25, 2006, Franchez Isaguirre, a former employee of the Company, filed a complaint in the Superior Court of California, County of Los Angeles alleging violations by the Company of California wage and hour laws. The complaint was subsequently amended, adding a second former employee as an additional named party. The plaintiffs purport to represent a class of similarly situated employees in California who allegedly had been injured by not being provided adequate meal and rest breaks. The complaint seeks unspecified compensatory damages, statutory penalties, attorney's fees and injunctive and declaratory relief. On June 9, 2009, the Court certified the class but immediately stayed the case pending the resolution of a separate California Supreme Court case on the standards of class treatment for meal and rest break claims. Following the Supreme Court ruling, the Superior Court denied the Company's motions to decertify the class and to narrow the class in January 2013 and June 2013, respectively. The Company filed a writ petition in July 2013 challenging the Court's decision not to narrow the class definitions and is awaiting a ruling. No trial date has been set.

Although the Company believes that it has a strong position and will continue to vigorously defend each of these matters, it is unable to predict with certainty whether or not these efforts will ultimately be successful or whether the outcomes will have a material impact on the Company's financial position or results of operations.

Table of Contents

The Company is also involved in various other claims and other matters incidental to the Company's business, the resolution of which is not expected to have a material adverse effect on the Company's financial position or results of operations. No material amounts were accrued as of August 3, 2013 or February 2, 2013 related to any of the Company's legal proceedings.

**(13) Supplemental Executive Retirement Plan**

The components of net periodic pension cost for the three and six months ended August 3, 2013 and July 28, 2012 were as follows (in thousands):

	Three Months Ended		Six Months Ended	
	Aug 3, 2013	Jul 28, 2012	Aug 3, 2013	Jul 28, 2012
Interest cost	\$586	\$598	\$1,172	\$1,196
Net amortization of unrecognized prior service cost	156	155	311	310
Net amortization of actuarial losses	277	835	554	1,670
Net periodic defined benefit pension cost	\$1,019	\$1,588	\$2,037	\$3,176

In July 2013, the Company amended the SERP to limit the amount of eligible wages under the plan that count toward the SERP benefit for the active participant. As a result, the projected benefit obligation and unrecognized prior service cost were reduced by \$4.5 million.

As a non-qualified pension plan, no dedicated funding of the SERP is required; however, the Company has made, and expects to continue to make, periodic payments into insurance policies held in a rabbi trust to fund the expected obligations arising under the non-qualified SERP. The amount of future payments into the insurance policies may vary, depending on any changes to the estimates of final annual compensation levels and investment performance of the trust. The cash surrender values of the insurance policies were \$50.4 million and \$47.9 million as of August 3, 2013 and February 2, 2013, respectively, and were included in other assets in the Company's condensed consolidated balance sheets. As a result of changes in the value of the insurance policy investments, the Company recorded unrealized gains of \$1.1 million and \$2.6 million in other income during the three and six months ended August 3, 2013, respectively, and an unrealized loss of \$0.5 million and an unrealized gain of \$0.7 million in other income and expense during the three and six months ended July 28, 2012, respectively.

**(14) Fair Value Measurements**

Authoritative guidance defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The guidance establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair value into three broad levels as follows:

Level 1 - Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that can be accessed at the measurement date.

Level 2 - Inputs include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (i.e. interest rates, yield curves, etc.), and inputs that are derived principally from or corroborated by observable market data by correlation or other means (market corroborated inputs).

Level 3 - Unobservable inputs that reflect assumptions about what market participants would use in pricing the asset or liability. These inputs would be based on the best information available, including the Company's own data.

The following table presents the fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of August 3, 2013 and February 2, 2013 (in thousands):

There were no transfers of financial instruments between the three levels of fair value hierarchy during the six months ended August 3, 2013 or during the year ended February 2, 2013.

The fair values of the Company's available-for-sale securities are based on quoted prices. The fair value of the interest rate swaps are based upon inputs corroborated by observable market data. Foreign exchange forward contracts are entered into by the Company principally to hedge the future payment of inventory and intercompany transactions by non-U.S. subsidiaries. Periodically, the Company may also use foreign exchange forward contracts to hedge the translation and economic exposures related to its net investments in certain of its international subsidiaries. The fair values of the Company's foreign exchange forward contracts are based on quoted foreign exchange forward rates at the reporting date. Deferred compensation obligations to employees are adjusted based on changes in the fair value of the underlying employee-directed investments. Fair value of these obligations is based upon inputs corroborated by observable market data.

Available-for-sale securities are recorded at fair value and are included in short-term investments and other assets in the accompanying condensed consolidated balance sheets depending on their respective maturity dates. At August 3, 2013, available-for-sale securities consisted of \$10.2 million of corporate bonds with maturity dates ranging from November 2013 to September 2014 and \$0.5 million of marketable equity securities. At February 2, 2013, available-for-sale securities consisted of \$10.3 million of corporate bonds, \$1.8 million of certificates of deposit and \$0.5 million of marketable equity securities. Unrealized gains (losses), net of taxes, are included as a component of stockholders' equity and comprehensive income (loss). The accumulated unrealized gains net of taxes, included in accumulated other comprehensive income (loss) related to available-for-sale securities owned by the Company at each of the periods ended August 3, 2013 and February 2, 2013 were \$0.1 million.

The carrying amount of the Company's remaining financial instruments, which principally include cash and cash equivalents, trade receivables, accounts payable and accrued expenses, approximates fair value due to the relatively short maturity of such instruments. The fair values of the Company's debt instruments (see Note 9) are based on the amount of future cash flows associated with each instrument discounted using the Company's incremental borrowing rate. At August 3, 2013 and February 2, 2013, the carrying value of all financial instruments was not materially different from fair value, as the interest rates on variable-rate debt including the capital lease obligation approximated rates currently available to the Company.

Long-Lived Assets

Long-lived assets, such as property, plant, and equipment, and purchased intangibles subject to amortization, are reviewed for impairment quarterly or whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The Company considers each individual store as an asset group for impairment testing, which is the lowest level at which individual cash flows can be identified. The asset group includes store leasehold improvements, furniture, fixtures and equipment, computer hardware and software and certain long-term security deposits and lease acquisition costs. The Company reviews retail stores for impairment risk once the locations

have been opened for at least one year, or sooner as changes in circumstances require. The Company believes that waiting one year allows a store to reach a maturity level where a more comprehensive analysis of financial performance can be performed.

Table of Contents

An asset is considered to be impaired if the Company determines that the carrying value may not be recoverable based upon its assessment of the asset's ability to continue to generate income from operations and positive cash flow in future periods or if significant changes in the Company's strategic business objectives and utilization of the assets occurred. If the carrying amount of an asset exceeds its estimated undiscounted future cash flows, an impairment charge is recognized in the amount by which the carrying amount of the asset exceeds the estimated fair value, which is determined based on discounted future cash flows. The impairment loss calculations require management to apply judgment in estimating future cash flows and the discount rates that reflect the risk inherent in future cash flows. Future expected cash flows for store assets are based on management's estimates of future cash flows over the remaining lease period or expected life, if shorter. The Company considers historical trends, expected future business trends and other factors when estimating each store's future cash flow. The Company also considers factors such as: the local environment for each store location, including mall traffic and competition; the Company's ability to successfully implement strategic initiatives; and the ability to control variable costs such as cost of sales and payroll, and in some cases, renegotiate lease costs. The estimated cash flows used for this nonrecurring fair value measurement are considered a Level 3 input as defined above. If actual results are not consistent with the assumptions and judgments used in estimating future cash flows and asset fair values, there may be additional exposure to future impairment losses that could be material to the Company's results of operations.

The Company recorded asset impairment charges of \$2.1 million and \$3.1 million during the three and six months ended August 3, 2013, respectively, and \$0.1 million during the three and six months ended July 28, 2012, related primarily to the full impairment of long-lived assets for certain under-performing retail stores in North America and Europe. These asset impairment charges, which exclude asset impairment charges incurred related to restructuring activities, were included in SG&A expenses in the Company's condensed consolidated income statement for each of the respective periods. Refer to Note 6 for more information regarding asset impairment charges related to restructuring activities.

**(15) Derivative Financial Instruments****Hedging Strategy**

The Company operates in foreign countries, which exposes it to market risk associated with foreign currency exchange rate fluctuations. The Company has entered into certain forward contracts to hedge the risk of foreign currency rate fluctuations. The Company has elected to apply the hedge accounting rules in accordance with authoritative guidance for certain of these hedges.

The Company's primary objective is to hedge the variability in forecasted cash flows due to the foreign currency risk. Various transactions that occur in Canada, Europe and South Korea are denominated in U.S. dollars and British pounds and thus are exposed to earnings risk as a result of exchange rate fluctuations when converted to their functional currencies. These types of transactions include U.S. dollar denominated purchases of merchandise and U.S. dollar and British pound intercompany liabilities. In addition, certain operating expenses and tax liabilities are denominated in Swiss francs and are exposed to earnings risk as a result of exchange rate fluctuations when converted to the functional currency. The Company enters into derivative financial instruments, including forward exchange contracts, to offset some but not all of the exchange risk on certain of these anticipated foreign currency transactions. Periodically, the Company may also use foreign currency forward contracts to hedge the translation and economic exposures related to its net investments in certain of its international subsidiaries.

The impact of the credit risk of the counterparties to the derivative contracts is considered in determining the fair value of the foreign currency forward contracts. As of August 3, 2013, credit risk has not had a significant effect on the fair value of the Company's foreign currency contracts.

The Company also has interest rate swap agreements, which are not designated as hedges for accounting purposes, to effectively convert its floating-rate debt to a fixed-rate basis. The principal objective of these contracts is to eliminate or reduce the variability of the cash flows in interest payments associated with the Company's

Table of Contents

variable-rate capital lease obligation, thus reducing the impact of interest rate changes on future interest payment cash flows. Refer to Note 9 for further information.

**Hedge Accounting Policy**

U.S. dollar forward contracts are used to hedge forecasted merchandise purchases over specific months. Changes in the fair value of these U.S. dollar forward contracts, designated as cash flow hedges, are recorded as a component of accumulated other comprehensive income (loss) within stockholders' equity and are recognized in cost of product sales in the period which approximates the time the hedged merchandise inventory is sold. The Company also hedges forecasted intercompany royalties over specific months. Changes in the fair value of these U.S. dollar forward contracts, designated as cash flow hedges, are recorded as a component of accumulated other comprehensive income (loss) within stockholders' equity and are recognized in other income and expense in the period in which the royalty expense is incurred.

U.S. dollar forward contracts are also used to hedge the net investments of certain of the Company's international subsidiaries over specific months. Changes in the fair value of these U.S. dollar forward contracts, designated as net investment hedges, are recorded in foreign currency translation adjustment as a component of accumulated other comprehensive income (loss) within stockholders' equity and are not recognized in income until the sale or liquidation of the hedged net investment.

The Company also has foreign currency contracts that are not designated as hedging instruments for accounting purposes. Changes in fair value of foreign currency contracts not qualifying as cash flow hedges or net investment hedges are reported in net earnings as part of other income and expense.

**Summary of Derivative Instruments**

The fair value of derivative instruments in the condensed consolidated balance sheet as of August 3, 2013 and February 2, 2013 was as follows (in thousands):

As of February 2, 2013, the Company had forward contracts outstanding for its European and Canadian operations of US\$106.9 million and US\$40.3 million, respectively, that were designated as cash flow hedges.

Net Investment Hedges

During the six months ended August 3, 2013, the Company purchased U.S. dollar forward contracts in Europe totaling US\$17.9 million to hedge the net investments in certain of the Company's international subsidiaries that were designated as net investment hedges. The Company had no forward contracts outstanding for its European net investments as of August 3, 2013.

The Company recognized gains, net of tax, of \$0.2 million in the foreign currency translation adjustment component of accumulated other comprehensive income (loss) during the three and six months ended August 3,

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

General

Unless the context indicates otherwise, when we refer to "we," "us," "our" or the "Company" in this Form 10-Q, we are referring to Guess?, Inc. ("GUESS?") and its subsidiaries on a consolidated basis.

Important Notice Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q, including documents incorporated by reference herein, contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995.

Forward-looking statements may also be contained in the Company's other reports filed under the Securities Exchange Act of 1934, as amended, in its press releases and in other documents. In addition, from time-to-time, the Company through its management may make oral forward-looking statements. These statements relate to analyses and other information based on forecasts of future results and estimates of amounts not yet determinable. These statements also relate to our goals, future prospects and proposed new products, services, developments or business strategies. These forward-looking statements are identified by their use of terms and phrases such as "anticipate," "believe," "continue," "could," "estimate," "expect," "goal," "intend," "may," "outlook," "pending," "plan," "predict," "project," "strategy," "will," and similar terms and phrases, including references to assumptions.

Although we believe that the expectations reflected in any of our forward-looking statements are reasonable, actual results could differ materially from those projected or assumed. These forward-looking statements may include, among other things, statements relating to our expected results of operations, the accuracy of data relating to, and anticipated levels of, future inventory and gross margins, anticipated cash requirements and sources, cost containment efforts, restructuring charges, estimated charges, plans regarding store openings and closings, plans regarding business growth and international expansion, e-commerce, business seasonality, results of litigation, industry trends, consumer demands and preferences, competition, currency fluctuations, estimated tax rates, results of tax audits and other regulatory proceedings, raw material and other inflationary cost pressures, consumer confidence and general economic conditions. We do not intend, and undertake no obligation, to update our forward-looking statements to reflect future events or circumstances. Such statements involve risks and uncertainties, which may cause actual results to differ materially from those set forth in these statements. Important factors that could cause or contribute to such difference include those discussed under "Part I, Item 1A. Risk Factors" contained in the Company's most recent Annual Report on Form 10-K for the fiscal year ended February 2, 2013 and in our other filings made from time-to-time with the Securities and Exchange Commission ("SEC") after the date of this report.

Business Segments

The Company's businesses are grouped into five reportable segments for management and internal financial reporting purposes: North American Retail, Europe, Asia, North American Wholesale and Licensing. Information relating to these segments is summarized in Note 8 to the Condensed Consolidated Financial Statements. Management evaluates segment performance based primarily on revenues and earnings from operations before restructuring charges, if any. The Company believes this segment reporting reflects how its five business segments are managed and each segment's performance is evaluated. The North American Retail segment includes the Company's retail operations in North America. The Europe segment includes the Company's wholesale and retail operations in Europe and the Middle East. The Asia segment includes the Company's wholesale and retail operations in Asia. The North American Wholesale segment includes the Company's wholesale operations in North America and export sales to Central and South America. The Licensing segment includes the worldwide licensing operations of the Company. The business segment operating results exclude corporate overhead costs, which consist of shared costs of the organization, and restructuring charges. These costs are presented separately and generally include, among other things, the following unallocated corporate costs: accounting and finance, executive compensation, facilities, global advertising and marketing, human resources, information technology and legal.

Table of Contents

Products

We derive our net revenue from the sale of GUESS?, G by GUESS, GUESS Kids and MARCIANO apparel and our licensees' products through our worldwide network of retail stores, wholesale customers and distributors, as well as our on-line sites. We also derive royalty revenue from worldwide licensing activities.

Recent Global Economic Developments

Economic and market conditions have continued to be volatile and uncertain in many markets around the world and consumer behavior remains cautious. In North America, the relatively weaker levels of consumer confidence and the highly promotional conditions among retailers may persist for some time. In Europe, sovereign debt issues, government austerity programs and bank credit issues continue to affect the capital markets of numerous European countries, resulting in reduced consumer confidence and discretionary spending in those countries. These circumstances have had, and are expected to continue to have, a negative impact on our business, particularly in our more mature markets in Southern Europe. These conditions could have a greater impact in our multi-brand wholesale channel, particularly in Italy, where many customers are relatively small and are not well capitalized. We have also begun to see evidence of a more cautious consumer in China, where the economy has shown clear signs of slowing.

Foreign Currency Volatility

Since the majority of our international operations are conducted in currencies other than the U.S. dollar (primarily the euro, Canadian dollar and Korean won), currency fluctuations can have a significant impact on the translation of our international revenues and earnings into U.S. dollar amounts.

During the first half of fiscal 2014, the average U.S. dollar rate was weaker against the euro and the Korean won and stronger against the Canadian dollar compared to the average rate in the same prior-year period. This had an overall positive impact on the translation of our international revenues and earnings for the six months ended August 3, 2013 compared to the same prior-year period.

In addition, some of our transactions that occur in Canada, Europe and South Korea are denominated in U.S. dollars, Swiss francs and British pounds, exposing them to exchange rate fluctuations when converted to their functional currencies. Fluctuations in exchange rates can impact the operating margins of our foreign operations and reported earnings and are largely dependent on the transaction timing and magnitude during the period that the currency fluctuates. Relative weakness in the euro versus the U.S. dollar resulted in higher costs of U.S. dollar denominated purchases of merchandise in our European operations and resulted in an unfavorable impact on product margins during the first half of fiscal 2014 compared to the same prior-year period. In the future, if the euro weakens versus the U.S. dollar at the time U.S. dollar denominated inventory is purchased relative to the purchases of the comparable period, our product margins in Europe could continue to be unfavorably impacted. The Company enters into derivative financial instruments to offset some but not all of the exchange risk on foreign currency transactions. For additional discussion regarding our exposure to foreign currency risk, forward contracts designated as hedging instruments and forward contracts not designated as hedging instruments, refer to "Item 3. Quantitative and Qualitative Disclosures About Market Risk."

Strategy

**International Growth.** Despite the difficult economic conditions described above, our key long-term strategies remain unchanged. Global expansion continues to be the cornerstone of our long-term growth strategy. Our combined revenues outside of the U.S. and Canada represented more than half of the Company's total revenues for the six months ended August 3, 2013, compared to one-fifth in fiscal 2005. We expect to continue to expand in our existing international markets, particularly in less mature markets like China, Germany, India, Mexico, the Middle East and Russia. At the same time, we plan to develop in newer key markets such as Brazil and Japan.

Table of Contents

**Productivity Improvements.** Our goal is also to drive growth by enhancing the productivity of our existing operations. During the first quarter of fiscal 2014, the Company implemented plans to streamline its structure and reduce expenses in both Europe and North America. During the second quarter of fiscal 2014, the Company expanded these plans to include the consolidation and streamlining of certain operations in Europe and Asia. We will continue to regularly assess and implement initiatives that we believe will build brand equity, grow our business and enhance long-term profitability in each region.

**North American Retail.** In North American Retail, we plan to increase retail sales and profitability over the long-term by improving the productivity and performance of existing stores, increasing our mix of product offerings at lower price points and shortening our supply chain calendar to allow more flexibility to react to the latest trends. We will also continue to emphasize our e-commerce channel as we develop our omni-channel retail strategy. During the first half of fiscal 2014, we opened five retail stores in the U.S. and Canada. In fiscal 2014, we plan to reduce our store openings in the U.S. and Canada as compared to fiscal 2013 to 11 retail stores in total across all concepts as we focus on improving the performance of existing stores. In addition, we plan to remodel key existing locations as part of the roll-out of our new store designs.

**Europe.** In Europe, over the long-term, we will continue to focus on developing new markets in Northern and Eastern Europe where our brand is well known but still under-penetrated. We have flagship stores in key cities such as Barcelona, Dusseldorf, London, Milan and Paris. Together with our licensee partners, we opened 45 stores in Europe during the first half of fiscal 2014. In addition, we also acquired four stores from one of our European licensees. During fiscal 2014, we plan to continue our expansion in Europe, primarily in Northern and Eastern Europe, by opening 85 retail stores in total, about one-third of which will be operated directly by us. During fiscal 2014, we plan to strategically reduce our store openings in Southern Europe as compared to fiscal 2013 so we can focus on improving the performance of existing stores.

**Asia.** We see significant long-term market opportunities in Asia and we have dedicated capital and human resources to support the region's growth and development. We and our partners have opened flagship stores in key cities such as Beijing, Hong Kong, Macau, Seoul and Shanghai, and we have partnered with licensees to develop our business in the second-tier cities in this region. During fiscal 2013, we also partnered with a licensee in China to help our expansion efforts in the northern part of the country. In China, where the economy has shown some signs of slowing, we have begun to see evidence of a more cautious consumer. As a result, we have lowered our expectations for our China business for the remainder of fiscal 2014 in order to protect our licensee partners and to ensure that we continue to have a solid foundation for long-term growth in the region. Our strategy in South Korea, with a combined 343 stores and concessions at August 3, 2013, is to improve productivity and expand distribution for both our GUESS? and G by GUESS branded locations. We are also in the process of establishing our direct operations in Japan where we expect to have our first flagship store opened by fiscal 2015. We and our partners opened 22 stores and 26 concessions during the first half of fiscal 2014 across all of Asia and plan to open between 90 and 100 retail stores and concessions in total across all concepts in Asia during fiscal 2014.

**Capital Allocation**

The Company's investments in capital for the full fiscal year 2014 are planned between \$80 million and \$90 million (after deducting estimated lease incentives of approximately \$8 million). The planned investments in capital are primarily for expansion of our retail businesses in Europe and North America and store remodeling programs in North American Retail.

**Other**

The Company operates on a 52/53-week fiscal year calendar, which ends on the Saturday nearest to January 31 of each year. The three and six months ended August 3, 2013 had the same number of days as the three and six months ended July 28, 2012.

The Company reports National Retail Federation ("NRF") calendar comparable store sales on a quarterly basis for our physical stores in the U.S. and Canada excluding the results of our e-commerce sites. A store is considered comparable after it has been open for 13 full months. If a store remodel results in a square footage

Table of Contents

change of more than 15%, or involves a relocation or a change in store concept, the store is removed from the comparable store base until it has been opened at its new size, in its new location or under its new concept for 13 full months.

## Executive Summary

## Overview

Net earnings attributable to Guess?, Inc. decreased 7.1% to \$39.9 million, or diluted earnings of \$0.47 per common share, for the quarter ended August 3, 2013, compared to net earnings attributable to Guess?, Inc. of \$42.9 million, or diluted earnings of \$0.49 per common share, for the quarter ended July 28, 2012. During the first quarter of fiscal 2014, the Company implemented plans to streamline its structure and reduce expenses in both Europe and North America. During the second quarter of fiscal 2014, the Company expanded these plans to include the consolidation and streamlining of certain operations in Europe and Asia. These actions resulted in restructuring charges for the quarter ended August 3, 2013 of \$6.1 million (or \$4.4 million after considering the \$1.7 million reduction to income tax expense as a result of the charge), or an unfavorable after-tax impact of \$0.05 per share. Excluding the impact of the restructuring charges and the related tax impact, adjusted net earnings attributable to Guess?, Inc. was \$44.3 million and adjusted diluted earnings was \$0.52 per common share for the quarter ended August 3, 2013. References to financial results excluding the impact of the restructuring charges are non-GAAP measures and are addressed below under “Non-GAAP Measures.”

Highlights of the Company’s performance for the quarter ended August 3, 2013 compared to the same prior-year period are presented below, followed by a more comprehensive discussion under “Results of Operations”:

## Operations

Total net revenue increased 0.6% to \$639.0 million for the quarter ended August 3, 2013, from \$635.4 million in the same prior-year period. In constant currency, net revenue decreased by 1.4%.

Gross margin (gross profit as a percentage of total net revenue) declined 70 basis points to 38.9% for the quarter ended August 3, 2013, compared to 39.6% in the same prior-year period.

Selling, general and administrative (“SG&A”) expenses decreased 6.5% to \$181.6 million for the quarter ended August 3, 2013, compared to \$194.3 million in the same prior-year period. SG&A expenses as a percentage of revenue (“SG&A rate”) decreased by 220 basis points to 28.4% for the quarter ended August 3, 2013, compared to 30.6% in the same prior-year period.

The Company incurred \$6.1 million in restructuring charges during the quarter ended August 3, 2013.

Earnings from operations increased 6.1% to \$60.8 million for the quarter ended August 3, 2013, compared to \$57.3 million in the same prior-year period. Operating margin increased by 50 basis points to 9.5% for the quarter ended August 3, 2013, compared to 9.0% in the same prior-year period. The restructuring charges of \$6.1 million negatively impacted the operating margin for the quarter ended August 3, 2013 by 100 basis points.

Other expense, net (including interest income and expense), was minimal for the quarter ended August 3, 2013, compared to other income, net of \$5.9 million in the same prior-year period.

The effective income tax rate increased 100 basis points to 33.0% for the quarter ended August 3, 2013, compared to 32.0% in the same prior-year period.

## Key Balance Sheet Accounts

The Company had \$348.7 million in cash and cash equivalents and short-term investments as of August 3, 2013, up \$67.2 million, compared to \$281.5 million as of July 28, 2012.

During the fourth quarter of fiscal 2013, the Company paid a special cash dividend of \$1.20 per share of the Company’s common stock, totaling approximately \$102 million.

The Company invested \$22.1 million to repurchase approximately 0.9 million of its common shares during the first quarter of fiscal 2014.

Table of Contents

Accounts receivable, which relates primarily to the Company's wholesale business in Europe, and to a lesser extent, to its wholesale businesses in North America and Asia and its international licensing business, decreased by \$51.6 million, or 15.9%, to \$271.8 million at August 3, 2013, compared to \$323.4 million at July 28, 2012. On a constant currency basis, accounts receivable decreased \$66.9 million, or 20.7%.

Inventory increased by \$18.9 million, or 5.0%, to \$400.1 million as of August 3, 2013, compared to \$381.2 million as of July 28, 2012. When measured in terms of finished goods units, inventory volumes increased by 4.1% as of August 3, 2013, when compared to July 28, 2012.

**Global Store Count**

In the second quarter of fiscal 2014, together with our partners, we opened 34 new stores worldwide, consisting of 18 stores in Europe and the Middle East, 11 stores in Asia, three stores in the U.S. and Canada and two stores in Central and South America. Together with our partners, we closed 27 stores worldwide, consisting of 14 stores in Europe and the Middle East, seven stores in the U.S. and Canada and six stores in Asia.

We ended the second quarter of fiscal 2014 with 1,699 stores worldwide, comprised as follows:

Region	Total Stores	Directly Operated Stores	Licensee Stores
United States and Canada	507	507	—
Europe and the Middle East	632	257	375
Asia	474	49	425
Central and South America	86	32	54
Total	1,699	845	854

This store count does not include 447 concessions located primarily in South Korea and Greater China, which have been excluded because of their smaller store size in relation to our standard international store size. Of the total 1,699 stores, 1,190 were GUESS? stores, 301 were GUESS? Accessories stores, 112 were G by GUESS stores and 96 were MARCIANO stores.

**RESULTS OF OPERATIONS**

Three Months Ended August 3, 2013 and July 28, 2012

**Consolidated Results**

**Net Revenue.** Net revenue increased by \$3.6 million, or 0.6%, to \$639.0 million for the quarter ended August 3, 2013, from \$635.4 million for the quarter ended July 28, 2012. In constant currency, net revenue decreased by 1.4% as currency translation fluctuations relating to our foreign operations favorably impacted net revenue by \$12.5 million compared to the same prior-year period. The increases in revenue from expansion of our retail businesses in Europe and North America were offset by lower European wholesale shipments and negative comparable store sales in Europe and North American Retail.

**Gross Profit.** Gross profit decreased by \$3.1 million, or 1.2%, to \$248.5 million for the quarter ended August 3, 2013, from \$251.6 million in the same prior-year period, due primarily to the unfavorable impact from lower wholesale sales in Europe and negative comparable store sales in Europe and North American Retail, partially offset by the favorable impact from retail expansion in Europe and North America, net of higher occupancy costs, and currency translation.

Gross margin decreased 70 basis points to 38.9% for the quarter ended August 3, 2013, from 39.6% in the same prior-year period, due to a higher occupancy rate. The higher occupancy rate was driven by negative comparable store sales in North American Retail and Europe, the unfavorable impact of channel mix on the occupancy rate and lower wholesale shipments in Europe.

The Company's gross margin may not be comparable to that of other entities since some entities include all of the costs related to their distribution in cost of product sales and others, like the Company, generally exclude wholesale-related distribution costs from gross margin, including them instead in SG&A expenses. Additionally,

Table of Contents

some entities include retail store occupancy costs in SG&A expenses and others, like the Company, include retail store occupancy costs in cost of product sales.

**Selling, General and Administrative Expenses.** SG&A expenses decreased by \$12.7 million, or 6.5%, to \$181.6 million for the quarter ended August 3, 2013, from \$194.3 million in the same prior-year period. The decrease in SG&A expenses, which included the unfavorable impact of currency translation, was due primarily to the anniversary of a bad debt provision recorded in the same prior-year period, lower investments in advertising and marketing and lower selling and merchandising in Europe.

The Company's SG&A rate decreased by 220 basis points to 28.4% for the quarter ended August 3, 2013, from 30.6% in the same prior-year period. The SG&A rate was favorably impacted by the anniversary of a bad debt provision recorded in the same prior-year period, lower investments in advertising and marketing and lower selling and merchandising in Europe resulting from productivity improvements.

**Restructuring Charges.** During the first quarter of fiscal 2014, the Company implemented plans to streamline its structure and reduce expenses in both Europe and North America. During the second quarter of fiscal 2014, the Company expanded these plans to include the consolidation and streamlining of certain operations in Europe and Asia. These actions resulted in restructuring charges of \$6.1 million incurred during the quarter ended August 3, 2013.

**Earnings from Operations.** Earnings from operations increased by \$3.5 million, or 6.1%, to \$60.8 million for the quarter ended August 3, 2013, from \$57.3 million in the same prior-year period. Currency translation fluctuations relating to our foreign operations favorably impacted earnings from operations by \$2.1 million.

Operating margin increased 50 basis points to 9.5% for the quarter ended August 3, 2013, compared to 9.0% in the same prior-year period. Operating margin was favorably impacted by a lower SG&A rate, partially offset by the negative impact of the restructuring charges and a higher occupancy rate. The restructuring charges of \$6.1 million negatively impacted the operating margin for the quarter ended August 3, 2013 by 100 basis points.

**Interest Income, Net.** Interest income, net was \$0.1 million for the quarter ended August 3, 2013, compared to interest income, net of \$0.4 million for the quarter ended July 28, 2012 and includes the impact of hedge ineffectiveness of foreign currency forward contracts designated as cash flow hedges.

**Other Income (Expense), Net.** Other expense, net was \$0.1 million for the quarter ended August 3, 2013, compared to other income, net of \$5.4 million in the same prior-year period. Other expense, net in the quarter ended August 3, 2013 consisted primarily of net unrealized mark-to-market revaluation losses on foreign currency contracts and other foreign currency balances, partially offset by net unrealized gains on non-operating assets. Other income, net in the quarter ended July 28, 2012 consisted primarily of net unrealized mark-to-market revaluation gains on foreign currency contracts and other foreign currency balances, partially offset by net unrealized losses on non-operating assets.

**Income Taxes.** Income tax expense for the quarter ended August 3, 2013 was \$20.0 million, or a 33.0% effective tax rate, compared to income tax expense of \$20.2 million, or a 32.0% effective tax rate, in the same prior-year period. Generally, income taxes for the interim periods are computed using the effective tax rate estimated to be applicable for the full fiscal year which is subject to ongoing review and evaluation by management. The effective income tax rate for the three months ended August 3, 2013 included the impact of \$6.1 million in restructuring charges recorded during the second quarter of fiscal 2014. This unfavorably impacted the mix of taxable income among the Company's tax jurisdictions, resulting in an increase in the effective income tax rate for the second quarter of fiscal 2014 of 50 basis points. The increase was also driven by a larger estimated mix of taxable income in higher tax jurisdictions compared to the same prior-year period.

**Net Earnings Attributable to Noncontrolling Interests.** Net earnings attributable to noncontrolling interests in subsidiaries for the quarter ended August 3, 2013 was \$0.8 million, net of taxes, compared to \$0.1 million, net of taxes, in the same prior-year period.

**Net Earnings Attributable to Guess?, Inc.** Net earnings attributable to Guess?, Inc. decreased by \$3.0 million, or 7.1%, to \$39.9 million for the quarter ended August 3, 2013, from \$42.9 million in the same prior-year period.

Table of Contents

Diluted earnings per share decreased to \$0.47 per share for the quarter ended August 3, 2013, compared to \$0.49 per share for the quarter ended July 28, 2012. The results for the quarter ended August 3, 2013 included the unfavorable \$0.05 per share after-tax impact of the restructuring charges. Excluding the impact of the restructuring charges and the related tax impact, adjusted net earnings attributable to Guess?, Inc. was \$44.3 million and adjusted diluted earnings was \$0.52 per common share for the quarter ended August 3, 2013. References to financial results excluding the impact of the restructuring charges are non-GAAP measures and are addressed below under “Non-GAAP Measures.”

## North American Retail

Net revenue from our North American Retail operations increased by \$1.3 million, or 0.5%, to \$254.3 million for the quarter ended August 3, 2013, from \$253.0 million in the same prior-year period. The increase in revenue resulting from a larger store base and growth in our e-commerce business was offset by negative comparable store sales of 2.0% for our combined U.S. and Canadian stores (negative 1.7% in constant currency, which excludes the unfavorable translation impact of currency fluctuations relating to our Canadian retail stores). The store base for the U.S. and Canada increased by an average of one net additional store during the quarter ended August 3, 2013 compared to the same prior-year period, resulting in a net 0.7% increase in average square footage.

Earnings from operations for the North American Retail segment decreased by \$6.4 million, or 38.0%, to \$10.4 million for the quarter ended August 3, 2013, from \$16.8 million in the same prior-year period. The decrease reflects the impact on earnings from lower product margins and negative comparable store sales and higher asset impairment charges related to certain under-performing retail stores.

Operating margin decreased 250 basis points to 4.1% for the quarter ended August 3, 2013, compared to 6.6% in the same prior-year period. The decrease was driven by lower product margins due primarily to more

markdowns, the negative impact on the fixed cost structure resulting from negative comparable store sales and higher asset impairment charges related to certain under-performing retail stores.

In the second quarter of fiscal 2014, we opened three new stores in the U.S. and Canada and closed seven stores. At August 3, 2013, we directly operated 507 stores in the U.S. and Canada, comprised of 180 full-priced GUESS? retail stores, 135 GUESS? factory outlet stores, 82 G by GUESS stores, 59 GUESS? Accessories stores and 51 MARCIANO stores. This compares to 511 stores as of July 28, 2012.

**Europe**

Net revenue from our Europe operations increased by \$3.5 million, or 1.4%, to \$250.4 million for the quarter ended August 3, 2013, from \$246.9 million in the same prior-year period. In local currency, revenue decreased by 3.3% versus the same prior-year period. The increase in revenue from the expansion of our directly operated retail business was offset by lower revenue from our European wholesale business and a percentage decline in the mid-single digits for comparable store sales versus the same prior-year period. The decrease in our wholesale business was due mainly to lower apparel sales. We grew our business in newer markets, including Germany and Russia, though this growth was more than offset by declines in more mature markets such as Italy and France. At August 3, 2013, we directly operated 257 stores in Europe compared to 227 stores at July 28, 2012, excluding concessions, which represents a 13.2% increase over the prior-year second quarter end. Currency translation fluctuations relating to our European operations favorably impacted net revenue by \$11.2 million.

Earnings from operations from our Europe segment increased by \$14.7 million, or 59.5%, to \$39.3 million for the quarter ended August 3, 2013, from \$24.6 million in the same prior-year period. The increase was due primarily to lower SG&A expenses. Currency translation fluctuations relating to our European operations favorably impacted earnings from operations by \$2.1 million.

Operating margin increased 570 basis points to 15.7% for the quarter ended August 3, 2013, compared to 10.0% in the same prior-year period. The increase in operating margin was due primarily to a lower SG&A rate driven by the anniversary of a bad debt provision recorded in the same prior-year period, lower selling and merchandising resulting from productivity improvements and lower investments in advertising and marketing.

**Asia**

Net revenue from our Asia operations decreased by \$1.0 million, or 1.5%, to \$65.9 million for the quarter ended August 3, 2013, from \$66.8 million in the same prior-year period. In constant currency, net revenue decreased by 3.6% versus the same prior-year period. The decrease was driven by lower revenue in our Greater China business, partially offset by higher revenue in our South Korea business driven by higher wholesale shipments and positive comparable store sales versus the same prior-year period. We continued to grow our operations in Asia, where we and our partners opened 11 stores and 13 concessions during the quarter ended August 3, 2013. Currency translation fluctuations relating to our Asia operations favorably impacted net revenue by \$1.4 million.

Earnings from operations for the Asia segment increased by \$1.0 million, or 25.4%, to \$5.0 million for the quarter ended August 3, 2013, from \$4.0 million in the same prior-year period. The increase was driven by lower SG&A expenses, partially offset by the unfavorable impact on earnings from lower product margins and higher occupancy costs due to a larger retail store base.

Operating margin increased 170 basis points to 7.7% for the quarter ended August 3, 2013, compared to 6.0% in the same prior-year period. The increase in operating margin was driven primarily by a lower SG&A rate due primarily to lower investments in advertising and marketing, partially offset by lower overall gross margins driven by unfavorable channel mix.

**North American Wholesale**

Net revenue from our North American Wholesale operations decreased by \$0.3 million, or 0.7%, to \$41.4 million for the quarter ended August 3, 2013, from \$41.6 million in the same prior-year period. In constant currency, net revenue decreased by 1.4% compared to the same prior-year period. This decrease was driven by

Table of Contents

lower revenue in our U.S. and Canadian wholesale businesses, partially offset by higher revenue in our Mexican wholesale business.

Earnings from operations from our North American Wholesale segment increased by \$0.8 million, or 10.1%, to \$8.5 million for the quarter ended August 3, 2013, from \$7.7 million in the same prior-year period. The increase was due primarily to the favorable impact to earnings from lower distribution costs and higher gross margins.

Operating margin increased 200 basis points to 20.5% for the quarter ended August 3, 2013, compared to 18.5% in the same prior-year period, due primarily to higher gross margins driven by our Mexican wholesale business and a lower SG&A rate driven by lower distribution costs.

Licensing

Net royalty revenue from Licensing operations increased by \$0.1 million, or 0.4%, to \$27.1 million for the quarter ended August 3, 2013, from \$27.0 million in the same prior-year period.

Earnings from operations from our Licensing segment increased by \$2.2 million, or 9.8%, to \$25.1 million for the quarter ended August 3, 2013, from \$22.9 million in the same prior-year period. The increase was driven primarily by lower performance-based compensation.

Corporate Overhead

Unallocated corporate overhead increased by \$2.7 million to \$21.4 million for the quarter ended August 3, 2013, from \$18.7 million in the same prior-year period. The increase was driven primarily by higher performance-based compensation and higher legal fees.

Six months ended August 3, 2013 and July 28, 2012

Consolidated Results

Net Revenue. Net revenue decreased by \$26.7 million, or 2.2%, to \$1.19 billion for the six months ended August 3, 2013, from \$1.21 billion for the six months ended July 28, 2012. In constant currency, net revenue decreased by 3.2% as currency translation fluctuations relating to our foreign operations favorably impacted net revenue by \$12.0 million compared to the same prior-year period. The increases in revenue from expansion of our retail businesses in Europe and North America and growth in our Asian operations were more than offset by lower European wholesale shipments and negative comparable store sales in North American Retail and Europe.

Gross Profit. Gross profit decreased by \$40.6 million, or 8.4%, to \$446.0 million for the six months ended August 3, 2013, from \$486.6 million in the same prior-year period, due primarily to the unfavorable impact from lower wholesale sales in Europe, negative comparable store sales in North American Retail and Europe and lower overall product margins, partially offset by the favorable impact from retail expansion in Europe and North America, net of higher occupancy costs, and currency translation.

Gross margin decreased 260 basis points to 37.5% for the six months ended August 3, 2013, from 40.1% in the same prior-year period, due to a higher occupancy rate and lower overall product margins. The higher occupancy rate was driven by negative comparable store sales in North American Retail and Europe, lower wholesale shipments in Europe and the unfavorable impact of channel mix on the occupancy rate. Product margins declined due primarily to more markdowns in North American Retail.

Selling, General and Administrative Expenses. SG&A expenses decreased by \$24.8 million, or 6.4%, to \$365.4 million for the six months ended August 3, 2013, from \$390.2 million in the same prior-year period. The decrease in SG&A expenses, which included the unfavorable impact of currency translation, was due primarily to the anniversary of certain expenses in the same prior-year period.

The Company's SG&A rate decreased by 150 basis points to 30.7% for the six months ended August 3, 2013, from 32.2% in the same prior-year period. The SG&A rate was favorably impacted by the anniversary of certain expenses in the same prior-year period and lower selling and merchandising in Europe resulting from productivity improvements, partially offset by the negative impact on the Company's fixed cost structure resulting from negative comparable store sales in North American Retail and Europe and a decline in European wholesale shipments.

Table of Contents

**Restructuring Charges.** During the first quarter of fiscal 2014, the Company implemented plans to streamline its structure and reduce expenses in both Europe and North America. During the second quarter of fiscal 2014, the Company expanded these plans to include the consolidation and streamlining of certain operations in Europe and Asia. These actions resulted in restructuring charges of \$8.5 million incurred during the six months ended August 3, 2013.

**Earnings from Operations.** Earnings from operations decreased by \$24.3 million, or 25.2%, to \$72.1 million for the six months ended August 3, 2013, from \$96.4 million in the same prior-year period. Currency translation fluctuations relating to our foreign operations favorably impacted earnings from operations by \$2.4 million.

Operating margin decreased 180 basis points to 6.1% for the six months ended August 3, 2013, compared to 7.9% in the same prior-year period. Operating margin was negatively impacted by lower overall gross margins and the negative impact of the restructuring charges, partially offset by a lower SG&A rate. The restructuring charges of \$8.5 million negatively impacted the operating margin for the six months ended August 3, 2013 by 70 basis points.

**Interest Income (Expense), Net.** Interest expense, net was \$0.1 million for the six months ended August 3, 2013, compared to interest income, net of \$0.7 million for the six months ended July 28, 2012 and includes the impact of hedge ineffectiveness of foreign currency forward contracts designated as cash flow hedges. The change in interest expense, net for the six months ended August 3, 2013 compared to the same prior-year period was due primarily to lower average invested cash balances and lower interest rates on invested cash.

**Other Income, Net.** Other income, net was \$5.3 million for the six months ended August 3, 2013, compared to other income, net of \$6.0 million in the same prior-year period. Other income, net in the six months ended August 3, 2013 consisted primarily of net unrealized mark-to-market revaluation gains on foreign currency contracts and net unrealized gains on non-operating assets. Other income, net in the six months ended July 28, 2012 consisted primarily of net unrealized mark-to-market revaluation gains on foreign currency contracts and other foreign currency balances and net unrealized gains on non-operating assets.

**Income Taxes.** Income tax expense for the six months ended August 3, 2013 was \$25.5 million, or a 33.0% effective tax rate, compared to income tax expense of \$33.0 million, or a 32.0% effective tax rate, in the same prior-year period. Generally, income taxes for the interim periods are computed using the effective tax rate estimated to be applicable for the full fiscal year which is subject to ongoing review and evaluation by management. The effective income tax rate for the six months ended August 3, 2013 included the impact of \$8.5 million in restructuring charges recorded during the first half of fiscal 2014. This unfavorably impacted the mix of taxable income among the Company's tax jurisdictions, resulting in an increase in the effective income tax rate for the six months ended August 3, 2013 of 60 basis points. The increase was also driven by a larger estimated mix of taxable income in higher tax jurisdictions compared to the same prior-year period.

**Net Earnings Attributable to Noncontrolling Interests.** Net earnings attributable to noncontrolling interests in subsidiaries for the six months ended August 3, 2013 was \$2.0 million, net of taxes, compared to \$0.6 million, net of taxes, in the same prior-year period.

**Net Earnings Attributable to Guess?, Inc.** Net earnings attributable to Guess?, Inc. decreased by \$19.7 million, or 28.4%, to \$49.8 million for the six months ended August 3, 2013, from \$69.5 million in the same prior-year period. Diluted earnings per share decreased to \$0.58 per share for the six months ended August 3, 2013, compared to \$0.78 per share for the six months ended July 28, 2012. The results for the six months ended August 3, 2013 included the unfavorable \$0.08 per share after-tax impact of the restructuring charges. Excluding the impact of the restructuring charges and the related tax impact, adjusted net earnings attributable to Guess?, Inc. was \$56.0 million and adjusted diluted earnings was \$0.66 per common share for the six months ended August 3, 2013. References to financial results excluding the impact of the restructuring charges are non-GAAP measures and are addressed below under "Non-GAAP Measures."

## North American Retail

Net revenue from our North American Retail operations decreased by \$12.2 million, or 2.4%, to \$492.6 million for the six months ended August 3, 2013, from \$504.8 million in the same prior-year period. The increase in revenue resulting from a larger store base and growth in our e-commerce business was more than offset by negative comparable store sales of 5.9% for our combined U.S. and Canadian stores (negative 5.5% in constant currency, which excludes the unfavorable translation impact of currency fluctuations relating to our Canadian retail stores). The store base for the U.S. and Canada increased by an average of five net additional stores during the six months ended August 3, 2013 compared to the same prior-year period, resulting in a net 1.4% increase in average square footage. Currency translation fluctuations relating to our non-U.S. retail stores unfavorably impacted net revenue in our North American Retail segment by \$1.2 million.

Earnings from operations for the North American Retail segment decreased by \$27.6 million, or 81.8%, to \$6.2 million for the six months ended August 3, 2013, from \$33.8 million in the same prior-year period. The decrease reflects the impact on earnings from negative comparable store sales and lower product margins.

Operating margin decreased 550 basis points to 1.2% for the six months ended August 3, 2013, compared to 6.7% in the same prior-year period. The decrease was driven by an overall deleveraging of SG&A expenses and occupancy costs resulting from the negative comparable store sales and lower product margins due primarily to more markdowns.

Europe  
Net revenue from our Europe operations decreased by \$21.0 million, or 4.8%, to \$415.8 million for the six months ended August 3, 2013, from \$436.7 million in the same prior-year period. In local currency, revenue decreased by 7.1% versus the same prior-year period. The increase in revenue from the expansion of our directly

Table of Contents

operated retail business was more than offset by lower revenue from our European wholesale business and a percentage decline in the high-single digits for comparable store sales versus the same prior-year period. The decrease in our wholesale business was due mainly to lower apparel sales. We grew our business in newer markets, including Germany and Russia, though this growth was more than offset by declines in more mature markets such as Italy and France. At August 3, 2013, we directly operated 257 stores in Europe compared to 227 stores at July 28, 2012, excluding concessions, which represents a 13.2% increase over the prior-year second quarter end. Currency translation fluctuations relating to our European operations favorably impacted net revenue by \$10.3 million.

Earnings from operations from our Europe segment decreased by \$3.0 million, or 8.2%, to \$34.1 million for the six months ended August 3, 2013, from \$37.1 million in the same prior-year period. The decrease resulted primarily from the negative impact on earnings from lower wholesale shipments, partially offset by lower SG&A expenses and higher profits from the growth in retail stores, net of higher occupancy costs. Currency translation fluctuations relating to our European operations favorably impacted earnings from operations by \$2.3 million.

Operating margin decreased 30 basis points to 8.2% for the six months ended August 3, 2013, compared to 8.5% in the same prior-year period. The decline in operating margin was driven by a higher occupancy rate due to lower wholesale shipments and retail expansion, partially offset by a lower SG&A rate driven primarily by the anniversary of certain expenses in the same prior-year period and lower selling and merchandising resulting from productivity improvements.

**Asia**

Net revenue from our Asia operations increased by \$5.3 million, or 4.0%, to \$137.0 million for the six months ended August 3, 2013, from \$131.7 million in the same prior-year period. In constant currency, net revenue increased by 2.1% versus the same prior-year period. The increase in revenue was driven by growth in our South Korea business due primarily to retail expansion and higher wholesale shipments, partially offset by lower revenue in our Greater China business. We continued to grow our operations in Asia, where we and our partners opened 22 stores and 26 concessions during the six months ended August 3, 2013. Currency translation fluctuations relating to our Asia operations favorably impacted net revenue by \$2.5 million.

Earnings from operations for the Asia segment increased by \$2.1 million, or 21.3%, to \$12.0 million for the six months ended August 3, 2013, from \$9.9 million in the same prior-year period. The increase was driven primarily by the favorable impact to earnings from lower SG&A expenses, partially offset by higher occupancy costs due to a larger retail store base.

Operating margin increased 130 basis points to 8.8% for the six months ended August 3, 2013, compared to 7.5% in the same prior-year period. The increase in operating margin was driven primarily by a lower SG&A rate due primarily to lower investments in advertising and marketing, partially offset by lower overall gross margins driven by unfavorable channel mix.

**North American Wholesale**

Net revenue from our North American Wholesale operations decreased by \$0.4 million, or 0.4%, to \$85.2 million for the six months ended August 3, 2013, from \$85.5 million in the same prior-year period. In constant currency, net revenue decreased by 0.9% compared to the same prior-year period. This decrease was driven by lower revenue in our U.S. and Canadian wholesale businesses, partially offset by higher revenue in our Mexican wholesale business.

Earnings from operations from our North American Wholesale segment increased by \$0.1 million, or 0.5%, to \$17.1 million for the six months ended August 3, 2013, from \$17.0 million in the same prior-year period.

Operating margin increased 20 basis points to 20.1% for the six months ended August 3, 2013, compared to 19.9% in the same prior-year period.

**Licensing**

Net royalty revenue from Licensing operations increased by \$1.5 million, or 2.6%, to \$57.4 million for the six months ended August 3, 2013, from \$55.9 million in the same prior-year period.

Table of Contents

Earnings from operations from our Licensing segment increased by \$3.9 million, or 8.1%, to \$51.3 million for the six months ended August 3, 2013, from \$47.5 million in the same prior-year period. The increase was driven primarily by lower performance-based compensation and higher revenue.

## Corporate Overhead

Unallocated corporate overhead decreased by \$8.7 million to \$40.1 million for the six months ended August 3, 2013, from \$48.8 million in the same prior-year period. The decrease was driven primarily by lower legal fees.

## NON-GAAP MEASURES

The Company's reported financial results are presented in accordance with GAAP. The reported net earnings attributable to Guess?, Inc. and diluted earnings per share for the three and six months ended August 3, 2013 reflect the impact of restructuring charges which affects the comparability of those reported results. Those financial results are also presented on a non-GAAP basis, as defined in Section 10(e) of Regulation S-K of the SEC, to exclude the effect of this item. The Company has excluded these restructuring charges, and related tax impact, from its adjusted financial measures primarily because it does not believe such charges reflect the Company's ongoing operating results or future outlook. The Company believes that these "non-GAAP" or "adjusted" financial measures are useful as an additional means for investors to evaluate the comparability of the Company's operating results when reviewed in conjunction with the Company's GAAP financial statements. The non-GAAP measures are provided in addition to, and not as alternatives for, the Company's reported GAAP results.

The adjusted measures for the three and six months ended August 3, 2013 exclude the impact of restructuring charges. During the first quarter of fiscal 2014, the Company implemented plans to streamline its structure and reduce expenses in both Europe and North America. During the second quarter of fiscal 2014, the Company expanded these plans to include the consolidation and streamlining of certain operations in Europe and Asia. These actions resulted in restructuring charges incurred during the three and six months ended August 3, 2013. During the three months ended August 3, 2013, the Company recognized restructuring charges of \$6.1 million (or \$4.4 million after considering a \$1.7 million reduction to income tax as a result of the charges), or an unfavorable after-tax impact of \$0.05 per share. During the six months ended August 3, 2013, the Company recognized restructuring charges of \$8.5 million (or \$6.2 million after considering a \$2.2 million reduction to income tax expense as a result of the charges), or an unfavorable after-tax impact of \$0.08 per share. Net earnings attributable to Guess?, Inc. for the three and six months ended August 3, 2013 was \$39.9 million and \$49.8 million, respectively, and diluted earnings per common share for the three and six months ended August 3, 2013 was \$0.47 and \$0.58, respectively. Excluding the impact of the restructuring charges and the related tax impacts, adjusted net earnings attributable to Guess?, Inc. for the three and six months ended August 3, 2013 was \$44.3 million and \$56.0 million, respectively, and adjusted diluted earnings per common share for the three and six months ended August 3, 2013 was \$0.52 and \$0.66, respectively.

Our discussion and analysis above also includes certain constant currency financial information. Foreign currency exchange rate fluctuations affect the amount reported from translating the Company's foreign revenues and expenses into U.S. dollars. These rate fluctuations can have a significant effect on reported operating results under GAAP. The Company provides constant currency information to help investors assess how our businesses performed excluding the effects of changes in foreign currency translation rates. To calculate revenues and earnings from operations on a constant currency basis, operating results for the current year period for entities reporting in currencies other than U.S. dollars are translated into U.S. dollars at the average exchange rates in effect during the comparable period of the prior year. The constant currency calculations do not adjust for the impact of revaluing specific transactions denominated in a currency that is different to the functional currency of that entity when exchange rates fluctuate. The constant currency information presented may not be comparable to similarly titled measures reported by other companies.

Table of Contents**LIQUIDITY AND CAPITAL RESOURCES**

We need liquidity primarily to fund our working capital, the expansion and remodeling of our retail stores, shop-in-shop programs, concessions, systems, infrastructure, other existing operations, international growth, potential acquisitions, potential share repurchases and payment of dividends to our stockholders. During the six months ended August 3, 2013, the Company relied primarily on trade credit, available cash, real estate leases, short-term lines of credit, and internally generated funds to finance our operations and expansion. The Company anticipates that we will be able to satisfy our ongoing cash requirements during the next twelve months for working capital, capital expenditures, interest and principal payments on our debt, potential acquisitions, potential share repurchases and any dividend payments to stockholders, primarily with cash flow from operations and existing cash balances supplemented by borrowings, as necessary, under our existing Credit Facility and bank facilities in Europe, as described below under “—Credit Facilities.”

As of August 3, 2013, the Company had cash and cash equivalents of \$343.7 million and short-term investments of \$5.0 million. Approximately 74% of the Company’s cash and cash equivalents were held outside of the U.S. As of August 3, 2013, we have not provided for U.S. federal and state income taxes on the undistributed earnings of our foreign subsidiaries, since such earnings are considered indefinitely reinvested outside the United States. If in the future we decide to repatriate such earnings, we would incur incremental U.S. federal and state income tax, reduced by allowable foreign tax credits. However, our intent is to keep these funds indefinitely reinvested outside of the United States and our current plans do not indicate a need to repatriate them to fund our U.S. operations.

Excess cash and cash equivalents, which represent the majority of our outstanding cash and cash equivalents balance, are held primarily in overnight deposit and short-term time deposit accounts and four diversified money market funds. The money market funds are AAA rated by national credit rating agencies and are generally comprised of high-quality, liquid investments. Please see “—Important Notice Regarding Forward-Looking Statements” and “Part I, Item 1A. Risk Factors” contained in the Company’s most recent Annual Report on Form 10-K for the fiscal year ended February 2, 2013 for a discussion of risk factors which could reasonably be likely to result in a decrease of internally generated funds available to finance capital expenditures and working capital requirements.

The Company has presented below the cash flow performance comparison of the six months ended August 3, 2013, versus the six months ended July 28, 2012.

**Operating Activities**

Net cash provided by operating activities was \$102.2 million for the six months ended August 3, 2013, compared to \$44.7 million for the six months ended July 28, 2012, or an increase of \$57.5 million. The increase was driven primarily by the favorable impact of changes in working capital, partially offset by lower net earnings for the six month period ended August 3, 2013 versus the same prior-year period. The change in working capital was driven primarily by lower accounts receivable due to the favorable impact from timing of collections and lower European wholesale shipments compared to same prior-year period and the favorable impact from timing of inventory receipts in Asia and Europe.

**Investing Activities**

Net cash used in investing activities was \$30.0 million for the six months ended August 3, 2013, compared to \$69.5 million for the six months ended July 28, 2012. Cash used in investing activities related primarily to capital expenditures incurred on the expansion of our Europe and North American Retail businesses and existing store remodeling programs in North American Retail. In addition, the settlement of forward currency contracts designated as hedging instruments, the cost of any business acquisitions and purchases of investments or proceeds from the sale or maturity of investments are also included in cash flows used in investing activities.

The decrease in cash used in investing activities related primarily to lower investments in business acquisitions in our European business, timing of cash receipts on other long-term assets and a lower level of spending on new store expansion in North American Retail and Europe during the six months ended August 3, 2013 compared to

Table of Contents

the same prior-year period. During the six months ended August 3, 2013, the Company opened 31 directly operated stores compared to 39 directly operated stores that were opened in the comparable prior-year period. During the six months ended August 3, 2013, we also acquired four stores from one of our European licensees compared to 26 stores that were acquired from one of our European licensees in the comparable prior-year period.

Financing Activities

Net cash used in financing activities was \$51.9 million for the six months ended August 3, 2013, compared to \$182.8 million for the six months ended July 28, 2012. The decrease in net cash used in financing activities was due primarily to higher repurchases of shares of the Company's common stock during the six months ended July 28, 2012.

Effect of Exchange Rates on Cash

During the six months ended August 3, 2013, changes in foreign currency translation rates decreased our reported cash and cash equivalents balance by \$5.6 million. This compares to a decrease of \$12.2 million in cash and cash equivalents driven by changes in foreign currency translation rates during the six months ended July 28, 2012.

Working Capital

At August 3, 2013, the Company had net working capital (including cash and cash equivalents) of \$756.5 million compared to \$722.3 million at February 2, 2013 and \$695.9 million at July 28, 2012. The higher net working capital is due primarily to lower repurchases of the Company's common shares during the six months ended August 3, 2013 compared to the same prior-year period, partially offset by the payment of a special dividend in the fourth quarter of fiscal 2013 of \$1.20 per common share totaling approximately \$102 million. The Company's primary working capital needs are for accounts receivable and inventory. Accounts receivable at August 3, 2013 amounted to \$271.8 million, down \$51.6 million, compared to \$323.4 million at July 28, 2012. The accounts receivable balance relates primarily to the Company's wholesale business in Europe, and to a lesser extent, to its wholesale businesses in North America and Asia and its international licensing business. On a constant currency basis, accounts receivable decreased by \$66.9 million, or 20.7% when compared to July 28, 2012. The decrease in accounts receivable was driven primarily by lower European wholesale shipments during the first half of fiscal 2014 compared to same prior-year period. As of August 3, 2013, approximately 66% of our total trade receivables were insured for collection purposes or subject to certain bank guarantees or letters of credit. In Europe, approximately 81% of our trade receivables were insured for collection purposes or subject to certain bank guarantees or letters of credit. Inventory at August 3, 2013 increased to \$400.1 million, or 5.0%, compared to \$381.2 million at July 28, 2012. The increase reflects the negative impact of softer sales in North American Retail during the first quarter of fiscal 2014. The increase also supports the growth of our international retail business and expansion of our G by GUESS store concept in the U.S. and South Korea. When measured in terms of finished goods units, inventory volumes increased by 4.1% as of August 3, 2013, when compared to July 28, 2012.

Dividends

During the first quarter of fiscal 2008, the Company announced the initiation of a quarterly cash dividend of \$0.06 per share of the Company's common stock. Since that time, the Company has continued to pay a quarterly cash dividend, which has subsequently increased to \$0.20 per common share.

On August 28, 2013, the Company announced a regular quarterly cash dividend of \$0.20 per share on the Company's common stock. The cash dividend will be paid on September 27, 2013 to shareholders of record as of the close of business on September 11, 2013.

The payment of cash dividends in the future will be at the discretion of our Board of Directors and will be based on a number of business, legal and other considerations, including our cash flow from operations, capital expenditures, debt service requirements, cash paid for income taxes, earnings, share repurchases and liquidity.

Table of Contents

Capital Expenditures

Gross capital expenditures totaled \$40.4 million, before deducting lease incentives of \$0.3 million, for the six months ended August 3, 2013. This compares to gross capital expenditures of \$50.0 million, before deducting lease incentives of \$5.6 million, for the six months ended July 28, 2012. The Company's investments in capital for the full fiscal year 2014 are planned between \$80 million and \$90 million (after deducting estimated lease incentives of approximately \$8 million). The planned investments in capital are primarily for expansion of our retail businesses in Europe and North America and store remodeling programs in North American Retail.

In addition, we periodically evaluate strategic acquisitions and alliances and pursue those that we believe will support and contribute to our overall growth initiatives.

Credit Facilities

On July 6, 2011, the Company entered into a five-year senior secured revolving credit facility with JPMorgan Chase Bank, N.A., Bank of America, N.A. and the other lenders party thereto (the "Credit Facility") which provided for a \$200 million revolving multicurrency line of credit. The Credit Facility is available for direct borrowings and the issuance of letters of credit, subject to certain letters of credit sublimits. It may be used for working capital and other general corporate purposes.

On August 31, 2012, the Company increased its borrowing capacity under the Credit Facility from \$200 million to \$300 million by exercising the accordion feature in the Credit Facility pursuant to a Lender Joinder Agreement with the lenders party thereto. Also on August 31, 2012, the Company entered into an Amendment to the Credit Facility with the lenders party thereto to provide for (i) greater flexibility in certain of the Company's covenants under the Credit Facility and (ii) access to a new \$100 million accordion feature, subject to certain conditions and the willingness of existing or new lenders to assume such increased amount. At August 3, 2013, the Company had \$3.5 million in outstanding standby letters of credit, no outstanding documentary letters of credit and no outstanding borrowings under the Credit Facility.

The Credit Facility requires the Company to comply with a leverage ratio and a fixed charge coverage ratio. In addition, the Credit Facility contains customary covenants, including covenants that limit or restrict the Company and its subsidiaries' ability to: incur liens, incur indebtedness, make investments, dispose of assets, make certain restricted payments, merge or consolidate and enter into certain transactions with affiliates. The Credit Facility also limits the Company's ability to pay dividends unless immediately after giving effect thereto the aggregate amount of unrestricted cash and cash equivalents held by Guess?, Inc. and its domestic subsidiaries is at least \$50 million. The Company may need to borrow against this facility periodically to ensure it will continue to meet the requirements of this covenant. Upon the occurrence of an event of default under the Credit Facility, the lenders may cease making loans, terminate the Credit Facility and declare all amounts outstanding to be immediately due and payable. The Credit Facility specifies a number of events of default (some of which are subject to applicable grace or cure periods), including, among other things, non-payment defaults, covenant defaults, cross-defaults to other material indebtedness, bankruptcy and insolvency defaults and material judgment defaults. The Credit Facility allows for both secured and unsecured borrowings outside of the Credit Facility up to specified amounts.

The Company, through its European subsidiaries, maintains short-term uncommitted borrowing agreements, primarily for working capital purposes, with various banks in Europe. The majority of the borrowings under these agreements are secured by specific accounts receivable balances. Based on the applicable accounts receivable balances at August 3, 2013, the Company could have borrowed up to \$140.0 million under these agreements. At August 3, 2013, the Company had no outstanding borrowings and \$1.8 million in outstanding documentary letters of credit under these agreements. The agreements are denominated primarily in euros and provide for annual interest rates ranging from 0.5% to 3.0%. The maturities of any short-term borrowings under these arrangements are generally linked to the credit terms of the underlying accounts receivable that secure the borrowings. With the exception of one facility for up to \$46.5 million that has a minimum net equity requirement, there are no other financial ratio covenants.

Table of Contents

The Company entered into a capital lease in December 2005 for a new building in Florence, Italy. At August 3, 2013, the capital lease obligation was \$8.9 million. The Company entered into a separate interest rate swap agreement designated as a non-hedging instrument that resulted in a swap fixed rate of 3.55%. This interest rate swap agreement matures in 2016 and converts the nature of the capital lease obligation from Euribor floating-rate debt to fixed-rate debt. The fair value of the interest rate swap liability at August 3, 2013 was approximately \$0.6 million.

From time-to-time, the Company will obtain other short-term financing in foreign countries for working capital to finance its local operations.

**Share Repurchases**

On March 14, 2011, the Company's Board of Directors authorized a program to repurchase, from time-to-time and as market and business conditions warrant, up to \$250 million of the Company's common stock (the "2011 Share Repurchase Program"). On June 26, 2012, the Company's Board of Directors authorized a new program to repurchase, from time-to-time and as market and business conditions warrant, up to \$500 million of the Company's common stock (the "2012 Share Repurchase Program"). The 2012 Share Repurchase Program was in addition to the 2011 Share Repurchase Program. Repurchases under programs may be made on the open market or in privately negotiated transactions, pursuant to Rule 10b5-1 trading plans or other available means. There is no minimum or maximum number of shares to be repurchased under programs and programs may be discontinued at any time, without prior notice. During the six months ended August 3, 2013, the Company repurchased 882,551 shares under the 2011 and 2012 Share Repurchase Programs at an aggregate cost of \$22.1 million. All such share repurchases were made during the three months ended May 4, 2013. At August 3, 2013, the Company had remaining authority under the 2012 Share Repurchase Program to purchase \$495.8 million of its common stock and no remaining authority to purchase shares under the 2011 Share Repurchase Program.

**Supplemental Executive Retirement Plan**

On August 23, 2005, the Board of Directors of the Company adopted a Supplemental Executive Retirement Plan ("SERP") which became effective January 1, 2006. The SERP provides select employees who satisfy certain eligibility requirements with certain benefits upon retirement, termination of employment, death, disability or a change in control of the Company, in certain prescribed circumstances. Paul Marciano, Chief Executive Officer and Vice Chairman of the Board, is the only active employee participating in the SERP.

As a non-qualified pension plan, no dedicated funding of the SERP is required; however, the Company has made, and expects to continue to make, periodic payments into insurance policies held in a rabbi trust to fund the expected obligations arising under the non-qualified SERP. The amount of future payments into the insurance policies may vary, depending on any changes to the estimates of final annual compensation levels and investment performance of the trust. The cash surrender values of the insurance policies were \$50.4 million and \$47.9 million as of August 3, 2013 and February 2, 2013, respectively, and were included in other assets in the Company's condensed consolidated balance sheets. As a result of changes in the value of the insurance policy investments, the Company recorded unrealized gains of \$1.1 million and \$2.6 million in other income during the three and six months ended August 3, 2013, respectively, and an unrealized loss of \$0.5 million and an unrealized gain of \$0.7 million in other income and expense during the three and six months ended July 28, 2012, respectively.

**INFLATION**

The Company does not believe that inflation trends in the U.S. and internationally over the last three years have had a significant effect on net revenue or profitability.

**SEASONALITY**

The Company's business is impacted by the general seasonal trends characteristic of the apparel and retail industries. The U.S., European and Canadian retail operations are generally stronger during the second half of the fiscal year, and the U.S. and Canadian wholesale operations generally experience stronger performance from July through November. The European wholesale businesses operate with two primary selling seasons: the Spring/Summer season, which ships from November to April and the Fall/Winter season, which ships from May to

Table of Contents

October. The Company's goal in the European wholesale business is to take advantage of early-season demand and potential reorders by offering a pre-collection assortment which ships at the beginning of each season. Customers retain the ability to request early shipment of backlog orders or delay shipment of orders depending on their needs.

**WHOLESALE BACKLOG**

We generally receive orders for fashion apparel three to six months prior to the time the products are delivered to our customers' stores. The backlog of wholesale orders at any given time is affected by various factors, including seasonality, cancellations, the scheduling of market weeks, the timing of the receipt of orders and the timing of the shipment of orders and may include orders for multiple seasons. Accordingly, a comparison of backlogs of wholesale orders from period to period is not necessarily meaningful and may not be indicative of eventual actual shipments.

**U.S. and Canada Backlog.** Our U.S. and Canadian wholesale backlog as of August 31, 2013, consisting primarily of orders for fashion apparel, was \$47.0 million, compared to \$55.9 million in constant currency at September 1, 2012, a decrease of 15.9%.

**Europe Backlog.** As of September 3, 2013, the European wholesale backlog was €230.8 million, compared to €250.3 million at August 27, 2012, a decrease of 7.8%. The backlog as of September 3, 2013 is comprised of sales orders for the Fall/Winter 2013 and Spring/Summer 2014 seasons.

**APPLICATION OF CRITICAL ACCOUNTING POLICIES**

Our critical accounting policies reflecting our estimates and judgments are described in "Part II. Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations," in our Annual Report on Form 10-K for the year ended February 2, 2013 filed with the SEC on April 1, 2013. There have been no significant changes to our critical accounting policies during the six months ended August 3, 2013.

**RECENTLY ISSUED ACCOUNTING GUIDANCE**

In July 2013, the Financial Accounting Standards Board ("FASB") issued authoritative guidance which requires that an unrecognized tax benefit be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar loss or a tax credit carryforward, if specific criteria are met. This guidance is effective for fiscal periods beginning after December 15, 2013. The adoption of this guidance is not expected to have a material impact on the Company's consolidated financial statements.

**ITEM 3. Quantitative and Qualitative Disclosures About Market Risk.**

**Exchange Rate Risk**

More than half of product sales and licensing revenue recorded for the six months ended August 3, 2013 were denominated in currencies other than the U.S. dollar. The Company's primary exchange rate risk relates to operations in Europe, Canada and South Korea. Changes in currencies affect our earnings in various ways. For further discussion on currency related risk, please refer to our risk factors under "Part 1, Item 1A. Risk Factors" contained in the Company's most recent Annual Report on Form 10-K for the fiscal year ended February 2, 2013.

Various transactions that occur in Canada, Europe and South Korea are denominated in U.S. dollars and British pounds and thus are exposed to earnings risk as a result of exchange rate fluctuations when converted to their functional currencies. These types of transactions include U.S. dollar denominated purchases of merchandise and U.S. dollar and British pound intercompany liabilities. In addition, certain operating expenses and tax liabilities are denominated in Swiss francs and are exposed to earnings risk as a result of exchange rate fluctuations when converted to the functional currency. The Company is also subject to certain translation and economic exposures related to its net investment in certain of its international subsidiaries. The Company enters into derivative financial instruments to offset some but not all of its exchange risk. In addition, some of the derivative contracts in place will create volatility during the fiscal year as they are marked-to-market according to the accounting rules and may result in revaluation gains or losses in different periods from when the currency impact on the underlying transactions are realized.

## Derivatives Designated As Hedging Instruments

## Cash Flow Hedges

During the six months ended August 3, 2013, the Company purchased U.S. dollar forward contracts in Europe and Canada totaling US\$68.4 million and \$10.1 million, respectively, to hedge forecasted merchandise purchases and intercompany royalties that were designated as cash flow hedges. As of August 3, 2013, the Company had forward contracts outstanding for its European and Canadian operations of US\$102.3 million and US\$22.1 million, respectively, which are expected to mature over the next 13 months. The Company's derivative financial instruments are recorded in its condensed consolidated balance sheet at fair value based on quoted market rates. Changes in the fair value of the U.S. dollar forward contracts, designated as cash flow hedges for forecasted merchandise purchases, are recorded as a component of accumulated other comprehensive income (loss) within stockholders' equity and are recognized in cost of product sales in the period which approximates the time the hedged merchandise inventory is sold. Changes in the fair value of the U.S. dollar forward contracts, designated as cash flow hedges for forecasted intercompany royalties, are recorded as a component of accumulated other comprehensive income (loss) within stockholders' equity and are recognized in other income and expense in the period in which the royalty expense is incurred.

As of August 3, 2013, accumulated other comprehensive income included a net unrealized gain of approximately \$1.6 million, net of tax, which will be recognized in other income or cost of product sales over the following 12 months, at the then current values on a pre-tax basis, which can be different than the current quarter-end values. At August 3, 2013, the net unrealized gain of the remaining open forward contracts recorded in the Company's condensed consolidated balance sheet was approximately \$0.5 million.

At February 2, 2013, the Company had forward contracts outstanding for its European and Canadian operations of US\$106.9 million and US\$40.3 million, respectively, that were designated as cash flow hedges. At February 2, 2013, the net unrealized loss of these open forward contracts recorded in the Company's condensed consolidated balance sheet was approximately \$2.5 million.

## Net Investment Hedges

During the six months ended August 3, 2013, the Company purchased U.S. dollar forward contracts in Europe totaling US\$17.9 million to hedge the net investments in certain of the Company's international subsidiaries that were designated as net investment hedges. The Company had no forward contracts outstanding for its European net investments as of August 3, 2013. Changes in the fair value of these U.S. dollar forward contracts, designated as net investment hedges, are recorded in foreign currency translation adjustment as a component of accumulated other comprehensive income (loss) within stockholders' equity and are not recognized in income until the sale or liquidation of the hedged net investment.

The Company recognized gains, net of tax, of \$0.2 million in the foreign currency translation adjustment component of accumulated other comprehensive income (loss) during the six months ended August 3, 2013.

As of February 2, 2013, there were no forward contracts that were designated as net investment hedges.

## Derivatives Not Designated as Hedging Instruments

The Company also has foreign currency contracts that are not designated as hedging instruments for accounting purposes. Changes in fair value of foreign currency contracts not qualifying as cash flow hedges or net investment hedges are reported in net earnings as part of other income and expense. For the six months ended August 3, 2013, the Company recorded a net gain of \$3.0 million for its euro, Canadian dollar and British pound foreign currency contracts not designated as hedges, which has been included in other income. At August 3, 2013, the Company had euro foreign currency contracts to purchase US\$113.5 million expected to mature over the next 12 months, Canadian dollar foreign currency contracts to purchase US\$15.9 million expected to mature over the next three months and GBP£0.5 million of foreign currency contracts to purchase euros expected to mature over the next one month. At August 3, 2013, the net unrealized gain of these open forward contracts recorded in the Company's condensed consolidated balance sheet was approximately \$0.8 million.

## Table of Contents

At February 2, 2013, the Company had euro foreign currency contracts to purchase US\$90.2 million, Canadian dollar foreign currency contracts to purchase US\$39.7 million and GBP£4.7 million of foreign currency contracts to purchase euros. At February 2, 2013, the net unrealized loss of these open forward contracts recorded in the Company's condensed consolidated balance sheet was approximately \$1.7 million.

### Sensitivity Analysis

At August 3, 2013, a sensitivity analysis of changes in foreign currencies when measured against the U.S. dollar indicates that, if the U.S. dollar had uniformly weakened by 10% against all of the U.S. dollar denominated foreign exchange derivatives totaling US\$253.8 million, the fair value of the instruments would have decreased by \$28.2 million. Conversely, if the U.S. dollar uniformly strengthened by 10% against all of the U.S. dollar denominated foreign exchange derivatives, the fair value of these instruments would have increased by \$23.1 million. Any resulting changes in the fair value of the hedged instruments may be partially offset by changes in the fair value of certain balance sheet positions (primarily U.S. dollar denominated liabilities in our foreign operations) impacted by the change in the foreign currency rate. The ability to reduce the exposure of currencies on earnings depends on the magnitude of the derivatives compared to the balance sheet positions during each reporting cycle.

### Interest Rate Risk

At August 3, 2013, approximately 87% of the Company's total indebtedness related to a capital lease obligation, which is covered by a separate interest rate swap agreement with a swap fixed interest rate of 3.55% that matures in 2016. Changes in the related interest rate that result in an unrealized gain or loss on the fair value of the swap are reported in other income or expense. The change in the unrealized fair value of the interest swap increased other income, net by \$0.2 million during the six months ended August 3, 2013. Substantially all of the Company's remaining indebtedness is at variable rates of interest. Accordingly, changes in interest rates would impact the Company's results of operations in future periods. A 100 basis point increase in interest rates would have had an insignificant effect on interest expense for the six months ended August 3, 2013.

The fair value of the Company's debt instruments are based on the amount of future cash flows associated with each instrument discounted using the Company's incremental borrowing rate. At August 3, 2013 and February 2, 2013, the carrying value of all financial instruments was not materially different from fair value, as the interest rate on the Company's debt approximates rates currently available to the Company.

### ITEM 4. Controls and Procedures.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended.

Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective as of the end of the quarterly period covered by this report.

There was no change in our internal control over financial reporting during the second quarter of fiscal 2014, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## PART II. OTHER INFORMATION

### ITEM 1. Legal Proceedings.

#### Litigation

On May 6, 2009, Gucci America, Inc. filed a complaint in the U.S. District Court for the Southern District of New York against Guess?, Inc. and certain third-party licensees for the Company asserting, among other things, trademark and trade dress law violations and unfair competition. The complaint sought injunctive relief, compensatory damages, including treble damages, and certain other relief. Complaints similar to those in the above action have also been filed by Gucci entities against the Company and certain of its subsidiaries in the

Court of Milan, Italy, the Court of Paris, France and the Intermediate People's Court of Nanjing, China. The three week bench trial in the U.S. matter concluded on April 19, 2012, with the court issuing a preliminary ruling on May 21, 2012 and a final ruling on July 19, 2012. Although the plaintiff was seeking compensation in the U.S. matter in the form of damages of \$26 million and an accounting of profits of \$99 million, the final ruling provided for monetary damages of \$2.3 million against the Company and \$2.3 million against certain of its licensees. The court also granted narrow injunctions in favor of the plaintiff for certain of the claimed infringements. On August 20, 2012, the appeal period expired without any party having filed an appeal, rendering the judgment final. On May 2, 2013, the Court of Milan ruled in favor of the Company in the Milan, Italy matter. In the ruling, the Court rejected all of the plaintiff's claims and ordered the cancellation of three of the plaintiff's Italian and four of the plaintiff's European Community trademark registrations. On June 10, 2013, the plaintiff appealed the Court's ruling in the Milan matter. On August 25, 2006, Franchez Isaguirre, a former employee of the Company, filed a complaint in the Superior Court of California, County of Los Angeles alleging violations by the Company of California wage and hour laws. The complaint was subsequently amended, adding a second former employee as an additional named party. The plaintiffs purport to represent a class of similarly situated employees in California who allegedly had been injured by not being provided adequate meal and rest breaks. The complaint seeks unspecified compensatory damages, statutory penalties, attorney's fees and injunctive and declaratory relief. On June 9, 2009, the Court certified the class but immediately stayed the case pending the resolution of a separate California Supreme Court case on the standards of class treatment for meal and rest break claims. Following the Supreme Court ruling, the Superior Court denied the Company's motions to decertify the class and to narrow the class in January 2013 and June 2013, respectively. The Company filed a writ petition in July 2013 challenging the Court's decision not to narrow the class definitions and is awaiting a ruling. No trial date has been set.

Although the Company believes that it has a strong position and will continue to vigorously defend each of these matters, it is unable to predict with certainty whether or not these efforts will ultimately be successful or whether the outcomes will have a material impact on the Company's financial position or results of operations.

The Company is also involved in various other claims and other matters incidental to the Company's business, the resolution of which is not expected to have a material adverse effect on the Company's financial position or results of operations. No material amounts were accrued as of August 3, 2013 or February 2, 2013 related to any of the Company's legal proceedings.

ITEM 1A. Risk Factors.

There have not been any material changes from the Risk Factors as previously disclosed in our Annual Report on Form 10-K for the year ended February 2, 2013, filed with the SEC on April 1, 2013.

On March 14, 2011, the Company's Board of Directors authorized a program to repurchase, from time-to-time and as market and business conditions warrant, up to \$250 million of the Company's common stock (the "2011 Share Repurchase Program"). On June 26, 2012, the Company's Board of Directors authorized a new program to repurchase, from time-to-time and as market and business conditions warrant, up to \$500 million of the Company's (1) common stock (the "2012 Share Repurchase Program"). The 2012 Share Repurchase Program was in addition to the 2011 Share Repurchase Program. Repurchases under programs may be made on the open market or in privately negotiated transactions, pursuant to Rule 10b5-1 trading plans or other available means. There is no minimum or maximum number of shares to be repurchased under programs and programs may be discontinued at any time, without prior notice.

(2) Consists of shares surrendered to, or withheld by, the Company in satisfaction of employee tax withholding obligations that occur upon vesting of restricted stock awards granted under the Company's 2004 Equity Incentive Plan, as amended.
