## EXHIBIT C

Letter from Cadmus Capital Management, LLC to  
the Issuer dated May 5, 2006

[Cadmus Capital Management, LLC Letterhead]

May 5, 2006

Thomas D. Peschio  
President and Chief Executive Officer  
Government Properties Trust, Inc.  
13625 California Street, Suite 310  
Omaha, NE 68154

Dear Tom,

Thank you for taking the time the other day to explain to us the recent announcements by your Company. As you are aware, the Company announced on May 3, 2006 that 1) it is reducing the dividend from an annual rate of \$0.60 to an annual rate of \$0.45; and 2) acquisition prospects for the Company have diminished due to higher financing costs and competition among buyers of these assets. In light of these developments and an almost certain inability to expand beyond your current portfolio, we recommend that you take immediate steps to harvest the portfolio to achieve the highest possible value in the shortest period of time. As you will hopefully agree, we have been active and supportive stockowners of the Company, but the recent changes and lack of options for further growth have prompted this letter. At this point, after two years of trying to make this concept work, I hope you will understand that investors want their money back.

We urge the board to consider the following options:

## Edgar Filing: GOVERNMENT PROPERTIES TRUST INC - Form SC 13D

- 1) Sell the portfolio and return cash to shareholders.

As we have discussed in the past, the Company's portfolio is comprised of high-quality assets which benefit from long-term, high-credit-quality leases. In prior discussions you have indicated that the entire portfolio could be sold in a relatively short time frame, perhaps a matter of months, and that many of your assets could be sold at a premium to their book value. If that is the case, this option should be intensely considered. Our analysis values the properties at \$10.00 per share or greater. I cannot stress enough how attractive it would be for shareholders to receive a premium valuation in a short time frame.

- 2) Sell the company to a strategic buyer.

We believe that some of the Company's capabilities are unique, including its name and presence in the market, its ability to acquire properties on a pre-completion/pre-construction basis, and its systems for managing its properties. We think it is likely that a potential buyer would find value in both the portfolio and these other attributes, potentially leading to a higher value than the liquidation alternative above. It is our understanding that one or more strategic buyers have already contacted the Company and its shareholders, and that this interest from potential acquirers is on-going.

As the board is evaluating these alternatives for value realization, we strongly urge you to immediately reduce overhead costs. The Company's current overhead is geared for acquisition-led growth. We recommend that you immediately reduce overhead by at least half, eliminating all functions except those needed for basic maintenance of your current portfolio. The \$2 million, or \$0.10 per share, of annual savings would be extremely material to your shareholders and would add 22% to the reduced dividend. I frankly do not see why costs could not be lowered even further than that. We believe this new, higher dividend stream will value the shares at least between \$9.00 and \$10.00 and would preserve value as alternatives are reviewed. All functions related to underwriting and diligence of new properties should be eliminated. All functions related to new property closings, documentation, and financing should be eliminated. And all legal fees, advisors, and other third party costs should be reduced. We recommend that most senior management positions also be eliminated. Please note that these reductions should not detract from the values outlined in the alternatives above.

I regret having to write this letter since we were perhaps as excited as you about the concept of building an ever-larger portfolio of government-leased properties. We think highly of you, your team, and the extraordinary portfolio you have constructed to date. We hope you will agree that it is important to maximize what we have built to date and return those funds to shareholders in an expeditious manner.

Sincerely,

Joseph E. Bonnem  
General Partner
