EXHIBIT 99.1

Dear Shareholders:

During 2003, we continued to focus on increasing sales, operational excellence and exceeding the requirements of our customers.

With our success in meeting and exceeding our customers needs, we were able to secure significant sales growth in the primary markets we serve, despite a flat economic market. We have summarized our accomplishments for 2003 below:

- o Revenue increased by 21% or over \$17 Million.
- o Operating income increased 52% or over \$1.7 Million.
- o We achieved positive net income.
- o We started production in Pella, Iowa to support additional new business.

The entire company has continued to focus on meeting our business plan every day and providing the products and solutions that our customers want and expect. This focus has provided significant growth, including new business opportunities with existing and new customers. Much of that growth is attributable to our key customers accelerating the consolidation of their supply base and consolidating to us. We are confident in our belief that these growth opportunities substantiate our customer's confidence in our ability to deliver quality products on time, at a competitive price. We will continue our focus on execution and growing the business in 2004 by continuing to provide our customers with creative, cost effective solutions.

In 2004, we expect continued sales growth at a pace similar to 2003 and are confident in our ability to convert these sales into improved profitability. For the first quarter of fiscal 2004, we have experienced increases in revenues with improved profitability and operating results for the first quarter as compared to the same period in fiscal 2003 and are optimistic that this trend will continue. We will continue to align our business for increased competitiveness, strengthening our foundation and clarifying our path to develop new markets and customers.

---

Edgar Filing: CLARION TECHNOLOGIES INC/DE/ - Form 8-K

In order to provide the value you expect, we must continue the momentum begun in 2003 into 2004 and beyond. We look forward to the future and commit ourselves to continuing to strengthen our organization and position ourselves to be the dominant injection molder in the markets we serve.

Dated: April 12, 2004
