PIMCO Municipal Income Funds II Notes to Financial StatementsMay 31, 2005

1. Organization and Significant Accounting Policies

PIMCO Municipal Income Fund II (the "Municipal II"), PIMCO California Municipal Income Fund II (the "California Municipal II") and PIMCO New York Municipal Income Fund II (the "New York Municipal II") collectively referred to as the "Funds" or "PIMCO Municipal Income Funds II", were organized as Massachusetts business trusts on March 29, 2002. Prior to commencing operations on June 28, 2002, the Funds had no operations other than matters relating to their organization and registration as closed-end management investment companies registered under the Investment Company Act of 1940 and the rules and regulations thereunder, as amended. Allianz Global Investors Fund Management LLC (the "Investment Manager"), formerly PA Fund Management LLC, serves as the Funds' Investment Manager and is an indirect wholly-owned subsidiary of Allianz Global Investors of America L.P. (the "Allianz Global"). Allianz Global is an indirect, majority-owned subsidiary of Allianz AG. The Funds have an unlimited amount of \$0.00001 par value common stock authorized.

Municipal II invests substantially all of its assets in a portfolio of municipal bonds, the interest from which is exempt from federal income taxes. California Municipal II invests substantially all of its assets in municipal bonds which pay interest that is exempt from federal and California state income taxes. New York Municipal II invests substantially all of its assets in municipal bonds which pay interest that is exempt from federal, New York State and New York City income taxes. The Funds will seek to avoid bonds generating interest income which could potentially subject individuals to alternative minimum tax. The issuers' abilities to meet their obligations may be affected by economic and political developments in a specific state or region.

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

In the normal course of business the Funds enter into contracts that contain a variety of representations which provide general indemnifications. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds based upon events that have not yet been asserted. However, the Funds expect the risk of any loss to be remote.

The following is a summary of significant accounting policies consistently followed by the Funds:

(a) Valuation of Investments

Portfolio securities and other financial instruments for which market quotations are readily available are stated at market value. Portfolio securities and other financial instruments for which market quotations are not readily available or if a development/event occurs that may significantly impact the value of the security, may be fair-valued, in good faith, pursuant to guidelines established by the Board of Trustees. The Funds' investments are valued daily by an independent pricing service. The independent pricing service uses information provided by market makers or estimates of market values obtained from yield data relating to investments or securities with similar characteristics. Exchange traded options and futures, are valued at the settlement price determined by the relevant exchange. Short-term investments maturing in 60 days or less are valued at amortized cost, if their original maturity was 60 days or less, or by amortizing their value on the 61st day prior to maturity, if the original term to maturity exceeded 60 days. Securities purchased on a when-issued or delayed-delivery basis are marked to market daily until settlement at the forward settlement value. The prices used by the Funds to value securities may differ from the value that would be realized if the securities were sold and the differences could be material to the financial statements. The Funds' net asset values are determined daily at the close of regular trading (normally 4:00 p.m. Eastern time) on the New York Stock Exchange.

(b) Investment Transactions and Investment Income

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Interest income is recorded on an accrual basis. Original issue discounts or premiums on debt securities purchased are accreted or amortized daily to non-taxable interest income. Market discount, if any, is accreted daily to taxable income.

(c) Federal Income Taxes

The Funds intend to distribute all of their taxable income and to comply with the other requirements of the U.S. Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, no provision for U.S. federal income taxes is required. In addition, by distributing substantially all of their taxable ordinary income and long-term capital gains, if any, during each calendar year, the Funds intend not to be subject to U.S. federal excise tax.

1. Organization and Significant Accounting Policies (continued)**(d) Dividends and Distributions—Common Stock**

The Funds declare dividends from net investment income monthly to common shareholders. Distributions of net realized capital gains, if any, are paid at least annually. Each Fund records dividends and distributions to its shareholders on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations, which may differ from generally accepted accounting principles. These "book-tax" differences are considered either temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal income tax treatment; temporary differences do not require reclassification. To the extent dividends and/or distributions exceed current and accumulated earnings and profits for federal income tax purposes they are reported as dividends and/or distributions of paid-in capital in excess of par.

(e) Futures Contracts

A futures contract is an agreement between two parties to buy and sell a financial instrument at a set price on a future date. Upon entering into such a contract, the Funds are required to pledge to the broker an amount of cash or securities, equal to the minimum "initial margin" requirements of the exchange. Pursuant to the contracts, the Funds agree to receive from or pay to the broker an amount of cash or securities equal to the daily fluctuation in the value of the contracts. Such receipts or payments are known as "variation margin" and are recorded by the Funds as unrealized appreciation or depreciation. When the contracts are closed, the Funds record a realized gain or loss equal to the difference between the value of the contracts at the time they were opened and the value at the time they were closed. Any unrealized appreciation or depreciation recorded is simultaneously reversed. The use of futures transactions involves the risk of an imperfect correlation in the movements in the price of futures contracts, interest rates and the underlying hedged assets, and the possible inability of counterparties to meet the terms of their contracts.

(f) Option Transactions

The Funds may purchase and write (sell) put and call options for hedging purposes, risk management purposes or as part of its investment strategy. The risk associated with purchasing an option is that the Funds pay a premium whether or not the option is exercised. Additionally, the Funds bear the risk of loss of premium and change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. The cost of securities acquired through the exercise of call options is increased by the premiums paid. The proceeds from securities sold through the exercise of put options is decreased by the premiums paid.

When an option is written, the premium received is recorded as an asset with an equal liability which is subsequently adjusted to the current market value of the option written. These liabilities are reflected as options written in the Statement of Assets and Liabilities. Premiums received from writing options which expire unexercised are recorded on the expiration date as a realized gain. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium is less than the amount paid for the closing purchased transactions, as a realized loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether there has been a realized gain or loss. If a put option is exercised, the premium reduces the cost basis of the security. In writing an option, the Funds bear the market risk of an unfavorable change in the price of the security underlying the written option. Exercise of a written option could result in the Funds purchasing a security at a price different from the current market.

(g) Residual Interest Municipal Bonds ("RIBS")/Residual Interest Tax Exempt Bonds ("RITES")

The Funds invest in RIBS and RITES whose interest rates bear an inverse relationship to the interest rate on another security or the value of an index. RIBS and RITES are created by dividing the income stream provided by the underlying bonds to create two securities, one short-term and one long-term. The interest rate on the short-term component is reset by an index or auction process normally every seven to 35 days. After income is paid on the short-term securities at current rates, the residual income from the underlying bond(s) goes to the long-term securities. Therefore, rising short-term interest rates result in lower income for the longer-term portion, and visa versa. The longer-term bonds may be more volatile and less liquid than other municipal bonds of comparable maturity. Investments in RIBS and RITES typically will involve greater risk than an investment in a fixed-rate bond.

(h) When-Issued/Delayed-Delivery Transactions

The Funds may purchase or sell securities on a when-issued or delayed-delivery basis. The transactions involve a commitment to purchase or sell securities for a predetermined price or yield, with payment and delivery taking place beyond

1. Organization and Significant Accounting Policies (continued)

the customary settlement period. When delayed-delivery purchases are outstanding, the Funds will set aside and maintain until the settlement date in a designated account, liquid assets in an amount sufficient to meet the purchase price. When purchasing a security on a delayed-delivery basis, the Funds assume the rights and risks of ownership of the security, including the risk of price and yield fluctuations, and takes such fluctuations into account when determining its net asset value. The Funds may dispose of or renegotiate a delayed-delivery transaction after it is entered into, and may sell when-issued securities before they are delivered, which may result in a realized gain or loss. When a security on a delayed-delivery basis is sold, the Funds do not participate in future gains and losses with respect to the security.

(i) Custody Credits Earned on Cash Balances

The Funds benefit from an expense offset arrangement with their custodian bank whereby uninvested cash balances earn credits which reduce monthly custodian and accounting agent expenses. Had these cash balances been invested in income producing securities, they would have generated income for the Funds.

2. Investment Manager /Sub-Adviser

Each Fund has entered into an Investment Management Agreement (the "Agreements") with the Investment Manager. Subject to the supervision by each Fund's Board of Trustees, the Investment Manager is responsible for managing, either directly or through others selected by it, the Fund's investment activities, business affairs and other administrative matters. Pursuant to the Agreements, the Investment Manager receives an annual fee, payable monthly, at the annual rate of 0.65% of each Fund's average daily net assets, inclusive of net assets attributable to any preferred shares that may be outstanding. In order to reduce each Fund's expenses, the Investment Manager has contractually agreed to waive a portion of its investment management fee for each Fund at the annual rate of 0.15% of each Fund's average daily net assets, including net assets attributable to any preferred shares that may be outstanding, from the commencement of operations through June 30, 2007, and for a declining amount thereafter through June 30, 2009.

The Investment Manager has retained its affiliate, Pacific Investment Management Company LLC (the "Sub-Adviser") to manage each Fund's investments. Subject to the supervision of the Investment Manager, the Sub-Adviser makes all investment decisions for the Funds. The Investment Manager, not the Funds, pays a portion of the fees it receives to the Sub-Adviser in return for its services, at the maximum annual rate of 0.50% of each Fund's average daily net assets, inclusive of net assets attributable to any preferred shares that may be outstanding. The Sub-Adviser has contractually agreed to waive a portion of the fees it is entitled to receive from the Investment Manager, such that the Sub-Adviser will receive 0.26% of each Fund's average daily net assets, including net assets attributable to any preferred shares that may be outstanding, from the commencement of the Funds' operations through June 30, 2007, and will receive an increasing amount not to exceed 0.50% of each Fund's average daily net assets, including net assets attributable to any preferred shares that may be outstanding thereafter through June 30, 2009. The Investment Manager informed the Funds that it paid the Sub-Adviser \$3,498,688, \$1,788,293 and \$617,519 in connection with sub-advisory services for Municipal II, California Municipal II, and New York Municipal II, respectively, for the year ended May 31, 2005.

7. Legal Proceedings

On September 13, 2004, the Securities and Exchange Commission (the "Commission") announced that the Investment Manager and certain of its affiliates (together with the Investment Manager, the "Affiliates") had agreed to a settlement of charges that they and certain of their officers had, among other things, violated various antifraud provisions of the federal securities laws in connection with an alleged market-timing arrangement involving trading of shares of certain open-end investment companies (open-end funds) advised or distributed by these certain affiliates. In their settlement with the Commission, the Affiliates consented to the entry of an order by the Commission and, without admitting or denying the findings contained in the order, agreed to implement certain compliance and governance changes and consented to cease-and-desist orders and censures. In addition, the Affiliates agreed to pay civil money penalties in the aggregate amount of \$40 million and to pay disgorgement in the amount of \$10 million, for an aggregate payment of \$50 million. In connection with the settlement, the Affiliates have been dismissed from the related complaint the Commission filed on May 6, 2004 in the U.S. District Court in the Southern District of New York. Neither the complaint nor the order alleges any inappropriate activity took place with respect to the Funds.

In a related action on June 1, 2004, the Attorney General of the State of New Jersey (NJAG) announced that it had entered into a settlement agreement with Allianz Global and the Affiliates, in connection with a complaint filed by the NJAG on February 17, 2004. The NJAG dismissed claims against the Sub-Adviser, which had been part of the same complaint. In the settlement, Allianz Global and other named affiliates neither admitted nor denied the allegations or conclusions of law, but did agree to pay New Jersey a civil fine of \$15 million and \$3 million for investigative costs and further potential enforcement initiatives against unrelated parties. They also undertook to implement certain governance changes. The complaint relating to the settlement contained allegations arising out of the same matters that were the subject of the Commission order regarding market-timing described above and does not allege any inappropriate activity took place with respect to the Funds.

On September 15, 2004, the Commission announced that the Affiliates had agreed to settle an enforcement action in connection with charges that they violated various antifraud and other provisions of federal securities laws as a result of, among other things, their failure to disclose to the board of trustees and shareholders of various open-end funds advised or distributed by the Affiliates material facts and conflicts of interest that arose from their use of brokerage commissions on portfolio transactions to pay for so-called shelf space arrangements with certain broker-dealers. In their settlement with the Commission, the Affiliates consented to the entry of an order by the Commission without admitting or denying the findings contained in the order. In connection with the settlement, the Affiliates agreed to undertake certain compliance and disclosure reforms and consented to cease-and-desist orders and censures. In addition, the Affiliates agreed to pay a civil money penalty of \$5 million and to pay disgorgement of approximately \$6.6 million based upon the aggregate amount of brokerage commissions alleged to have been paid by such open-end funds in connection with these shelf-space arrangements (and related interest). In a related action, the California Attorney General announced on September 15, 2004 that it had entered into an agreement with an affiliate of the Investment Manager in resolution of an investigation into matters that are similar to those discussed in the Commission order. The settlement agreement resolves matters described in a complaint filed contemporaneously by the California Attorney General in the Superior Court of the State of California alleging, among other things, that this affiliate violated certain antifraud provisions of California law by failing to disclose matters related to the shelf-space arrangements described above. In the settlement agreement, the affiliate did not admit to any liability but agreed to pay \$5 million in civil penalties and \$4 million in recognition of the California Attorney General's fees and costs associated with the investigation and related matters. Neither the Commission order nor the California Attorney General's complaint alleges any inappropriate activity took place with respect to the Funds.

On April 11, 2005, the Attorney General of the State of West Virginia filed a complaint in the Circuit Court of Marshall County, West Virginia (the "West Virginia Complaint") against the Investment Manager and certain Affiliates based on

PIMCO Municipal Income Funds II Notes to Financial Statements

7. Legal Proceedings (continued)

the same circumstances as those cited in the 2004 settlements with the Commission and NJAG involving alleged "market timing" activities described above. The West Virginia Complaint alleges, among other things, that the Investment Manager and certain Affiliates improperly allowed broker-dealers, hedge funds and investment advisors to engage in frequent trading of various open-end funds advised or distributed by the Affiliates in violation of the open end funds' stated restrictions on "market timing." As of the date of this report, the West Virginia Complaint has not been formally served upon the Investment Manager or the Affiliates. The West Virginia Complaint also names numerous other defendants unaffiliated with the Affiliates in separate claims alleging improper market timing and/or late trading of open-ended investment companies advised or distributed by such other defendants. The West Virginia Complaint seeks injunctive relief, civil monetary penalties, investigative costs and attorney's fees. The West Virginia Complaint does not allege that any inappropriate activity took place with respect to the Funds.

Since February 2004, certain of the Affiliates and their employees have been named as defendants in a total of 14 lawsuits filed in one of the following: U.S. District Court in the Southern District of New York, the Central District of California and the Districts of New Jersey and Connecticut. Ten of those lawsuits concern "market timing," and they have been transferred to and consolidated for pre-trial proceedings in the U.S. District Court for the District of Maryland; the remaining four lawsuits concern "revenue sharing" with brokers offering "shelf space" and have been consolidated into a single action in the U.S. District Court for the District of Connecticut. The lawsuits have been commenced as putative class actions on behalf of investors who purchased, held or redeemed shares of affiliated funds during specified periods or as derivative actions on behalf of the funds.

The lawsuits generally relate to the same facts that are the subject of the regulatory proceedings discussed above. The lawsuits seek, among other things, unspecified compensatory damages plus interest and, in some cases, punitive damages, the rescission of investment advisory contracts, the return of fees paid under those contracts and restitution. The Investment Manager believes that other similar lawsuits may be filed in federal or state courts naming as defendants the Investment Adviser, the Affiliates, Allianz Global, the Funds, other open and closed-end funds advised or distributed by the Investment Manager and/or its affiliates, the boards of directors or trustees of those funds, and/or other affiliates and their employees. Under Section 9(a) of the 1940 Act, if any of the various regulatory proceedings or lawsuits were to result in a court injunction against the Investment Manager, Allianz Global and/or their affiliates, they and their affiliates would, in the absence of exemptive relief granted by the Commission, be barred from serving as an investment manager/sub-adviser or principal underwriter for any registered investment company, including the Funds. In connection with an inquiry from the Commission concerning the status of the New Jersey settlement described above under Section 9(a), the Investment Manager and certain of its affiliates (together, the "Applicants") have sought exemptive relief from the Commission under Section 9(c) of the 1940 Act.

The Commission has granted the Applicants a temporary exemption from the provisions of Section 9(a) with respect to the New Jersey settlement until the earlier of (i) September 13, 2006 and (ii) the date on which the Commission takes final action on their application for a permanent order. There is no assurance that the Commission will issue a permanent order. If the West Virginia Attorney General were to obtain a court injunction against the Investment Manager or the Affiliates, the Investment Manager or the Affiliates would, in turn, seek exemptive relief under Section 9(c) with respect to that matter, although there is no assurance that such exemptive relief would be granted.

A putative class action lawsuit captioned *Charles Mutchka et al. v. Brent R. Harris, et al.*, filed in January 2005 by and on behalf of individual shareholders of certain open-end funds that hold equity securities and that are sponsored by the Investment Manager and the Affiliates, is currently pending in the federal district court for the Central District of California. The plaintiff alleges that fund trustees, investment advisers and affiliates breached fiduciary duties and duties of care by failing to ensure that the open-end funds participated in securities class action settlements for which those funds were eligible. The plaintiff has claimed as damages disgorgement of fees paid to the investment advisers, compensatory damages and punitive damages.

The Investment Manager believes that the claims made in the lawsuit against the Investment Manager and the Affiliates are baseless, and the Investment Manager and the Affiliates intend to vigorously defend the lawsuit. As of the date hereof, the Investment Manager believes a decision, if any, against the defendants would have no material adverse effect on the Funds or the ability of the Investment Manager or the Sub-Adviser to perform their duties under the investment management or portfolio management agreements, as the case may be.

7. Legal Proceedings (continued)

It is possible that these matters and/or other developments resulting from these matters could lead to a decrease in the market price of the Funds' shares or other adverse consequences to the Funds and their shareholders. However, the Investment Manager and the Sub-Adviser believe that these matters are not likely to have a material adverse effect on the Funds or on the Investment Manager's or the Sub-Adviser's ability to perform their respective investment advisory services related to the Funds.

The foregoing speaks only as of the date hereof. There may be additional litigation or regulatory developments in connection with the matters discussed above.

We believe that our audits, which included confirmation of securities at May 31, 2005 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

PIMCO Municipal Income Funds II Tax Information (unaudited)

Subchapter M of the Internal Revenue Code of 1986, as amended, requires the Funds to advise shareholders within 60 days of the Funds' tax year-end (May 31, 2005) as to the federal tax status of dividends and distributions received by shareholders during such tax period. Accordingly, please note that substantially all dividends paid from net investment income from the Funds during the tax period ended May 31, 2005 were federally exempt interest dividends. However, the Funds invested in municipal bonds containing market discount, whose accretion is taxable. Accordingly, the percentage of dividends paid from net investment income during the tax period which are taxable were:

Municipal II	4.84%
California Municipal II	2.32%
New York Municipal II	1.27%

Since the Funds' fiscal year is not the calendar year, another notification will be sent with respect to calendar year 2005. In January 2006, shareholders will be advised on IRS Form 1099 DIV as to the federal tax status of the dividends and distributions received during calendar 2005. The amount that will be reported will be the amount to use on your 2005 federal income tax return and may differ from the amount which must be reported in connection with each Funds' tax year ended May 31, 2005. Shareholders are advised to consult their tax advisers as to the federal, state and local tax status of the income received from the Funds. In January 2006, an allocation of interest income by state will be provided which may be of value in reducing a Shareholder's state and local tax liability, if any.

PIMCO Municipal Income Funds II Dividend Reinvestment Plan (unaudited)

Pursuant to the Funds' Dividend Reinvestment Plan (the "Plan"), all Common Shareholders whose shares are registered in their own names will have all dividends, including any capital gain dividends, reinvested automatically in additional Common Shares by PFPC Inc., as agent for the Common Shareholders (the "Plan Agent"), unless the shareholder elects to receive cash. An election to receive cash may be revoked or reinstated at the option of the shareholder. In the case of record shareholders such as banks, brokers or other nominees that hold Common Shares for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of Common Shares certified from time to time by the record shareholder as representing the total amount registered in such shareholder's name and held for the account of beneficial owners who are to participate in the Plan. Shareholders whose shares are held in the name of a bank, broker or nominee should contact the bank, broker or nominee for details. All distributions to investors who elect not to participate in the Plan (or whose broker or nominee elects not to participate on the investor's behalf), will be paid cash by check mailed, in the case of direct shareholder, to the record holder by PFPC Inc., as the Funds' dividend disbursement agent.

Unless you (or your broker or nominee) elect not to participate in the Plan, the number of Common Shares you will receive will be determined as follows:

- (1) If Common Shares are trading at or above net asset value on the payment date, the Funds will issue new shares at the greater of (i) the net asset value per Common Share on the payment date or (ii) 95% of the market price per Common Share on the payment date; or
- (2) If Common Shares are trading below net asset value (minus estimated brokerage commissions that would be incurred upon the purchase of Common Shares on the open market) on the payment date, the Plan Agent will receive the dividend or distribution in cash and will purchase Common Shares in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts. It is possible that the market price for the Common Shares may increase before the Plan Agent has completed its purchases. Therefore, the average purchase price per share paid by the Plan Agent may exceed the market price on the payment date, resulting in the purchase of fewer shares than if the dividend or distribution had been paid in Common Shares issued by the Funds. The Plan Agent will use all dividends and distributions received in cash to purchase Common Shares in the open market on or shortly after the payment date, but in no event later than the ex-dividend date for the next distribution. Interest will not be paid on any uninvested cash payments.

You may withdraw from the Plan at any time by giving notice to the Plan Agent. If you withdraw or the Plan is terminated, you will receive a certificate for each whole share in your account under the Plan and you will receive a cash payment for any fraction of a share in your account. If you wish, the Plan Agent will sell your shares and send you the proceeds, minus brokerage commissions.

The Plan Agent maintains all shareholders' accounts in the Plan and gives written confirmation of all transactions in the accounts, including information you may need for tax records. The Plan Agent will also furnish each person who buys Common Shares with written instructions detailing the procedures for electing not to participate in the Plan and to instead receive distributions in cash. Common Shares in your account will be held by the Plan Agent in non-certificated form. Any proxy you receive will include all Common Shares you have received under the Plan.

There is no brokerage charge for reinvestment of your dividends or distributions in Common Shares. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases.

Automatically reinvested dividends and distributions are taxed in the same manner as cash dividends and distributions.

The Funds and the Plan Agent reserve the right to amend or terminate the Plan. There is no direct service charge to participants in the Plan; however, the Funds reserve the right to amend the Plan to include a service charge payable by the participants. Additional information about the Plan may be obtained from the Funds' transfer agent, PFPC Inc., P.O.Box 43027, Providence, RI 02940-3027, telephone number 1-800-331-1710.
