NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited; tabular dollars in thousands, except for per share data)

1. Basis of Presentation

The terms "we", "us", "our" and "Company" are used in this report to refer collectively to Pitney Bowes Inc. and its subsidiaries.

The accompanying unaudited Condensed Consolidated Financial Statements of Pitney Bowes Inc. have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and the instructions to Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In addition, the December 31, 2006 consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by GAAP. In our opinion, all adjustments (consisting of only normal recurring adjustments) considered necessary to present fairly our financial position at March 31, 2007 and December 31, 2006, our results of operations for the three months ended March 31, 2007 and 2006 and our cash flows for the three months ended March 31, 2007 and 2006 have been included. Operating results for the three months ended March 31, 2007 are not necessarily indicative of the results that may be expected for any other interim period or the year ending December 31, 2007.

These statements should be read in conjunction with the financial statements and notes thereto included in our 2006 Annual Report to Stockholders on Form 10-K.

Certain prior year amounts have been reclassified to conform with the current period presentation.

2. Nature of Operations

We are a provider of leading-edge, global, integrated mail and document management solutions for organizations of all sizes. We operate in two business groups: Mailstream Solutions and Mailstream Services. Mailstream Solutions includes worldwide revenue and related expenses from the sale, rental, and financing of mail finishing, mail creation, shipping, and production mail equipment; supplies; mailing and multi-vendor support services; payment solutions; and mailing, customer communication and location intelligence software. Mailstream Services includes worldwide revenue and related expenses from facilities management contracts, reprographics, document management, and other value-added services for targeted customer markets; mail services operations, which include presort mail services and international outbound mail services; and marketing services. See Note 7 for details of our reporting segments and a description of their activities.

In 2006, we completed the sale of our Imagistics lease portfolio and our Capital Services external financing business. Both Imagistics and Capital Services results of operations have been reported as discontinued operations for all periods presented. See Note 4 for additional information on the discontinued operations.

3. Recent Accounting Pronouncements

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation (FIN) No. 48, *Accounting for Uncertainty in Income Taxes*, which supplements Statement of Financial Accounting Standard No. 109, *Accounting for Income Taxes*, by defining the confidence level that a tax position must meet in order to be recognized in the financial statements. FIN 48 requires the tax effect of a position to be recognized only if it is "more-likely-than-not" to be sustained based solely on its technical merits as of the reporting date. If a tax position is not considered more-likely-than-not to be sustained based solely on its technical merits, no benefits of the position are recognized. This is a different standard for recognition than was previously required. The more-likely-than-not threshold must continue to be met in each reporting period to support continued recognition of a benefit. At adoption, companies must adjust their financial statements to reflect only those tax positions that are more-likely-than-not to be sustained as of the adoption date. Any necessary adjustment is recorded directly to opening retained earnings in the period of adoption and reported as a change in accounting principle. We adopted the provisions of FIN 48 on January 1, 2007 which resulted in a decrease to opening retained earnings of

\$84.4 million, with a corresponding increase in our tax liabilities.

In July 2006, the FASB issued FASB Staff Position (FSP) No. FAS 13-2, *Accounting for a Change or Projected Change in the Timing of Cash Flows Relating to Income Taxes Generated by a Leveraged Lease Transaction*, that provides guidance on how a change or a potential change in the timing of cash flows relating to income taxes generated by a leveraged lease transaction affects the accounting by a lessor for the lease. We adopted the provisions of FSP No. FAS 13-2 on January 1, 2007. Our adoption of this FSP did not have a material impact on our financial position, results of operations or cash flows.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited; tabular dollars in thousands, except for per share data)

In September 2006, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements* (SFAS 157), to define how the fair value of assets and liabilities should be measured in more than 40 other accounting standards where it is allowed or required. In addition to defining fair value, the statement establishes a framework within GAAP for measuring fair value and expands required disclosures surrounding fair-value measurements. While it will change the way companies currently measure fair value, it does not establish any new instances where fair-value measurement is required. SFAS 157 defines fair value as an amount that a company would receive if it sold an asset or paid to transfer a liability in a normal transaction between market participants in the same market where the company does business. It emphasizes that the value is based on assumptions that market participants would use, not necessarily only the company that might buy or sell the asset. SFAS 157 is effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years, with early adoption allowed. We are currently evaluating the impact of adopting this Statement.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, which permits entities to choose to measure many financial assets and financial liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings. SFAS 159 is effective for fiscal years beginning after November 15, 2007. We are currently evaluating the impact of adopting this Statement.

4. Discontinued Operations

During the second quarter of 2006, we completed the sale of our Imagistics lease portfolio to De Lage Landen Operational Services, LLC, a subsidiary of Rabobank Group, and reported the results of the Imagistics lease portfolio in discontinued operations. Imagistics' results were previously included in our Capital Services segment. Accordingly, prior year results have been adjusted to be reflected as discontinued operations.

During the third quarter of 2006, we completed the sale of our Capital Services external financing business to Cerberus Capital Management, L.P. and reported the results of the Capital Services business in discontinued operations. Accordingly, prior year results have been adjusted to be reflected as discontinued operations. This sale resulted in the disposition of most of the external financing activity in the Capital Services segment. We have retained certain leveraged leases in Canada which are now included in our International Mailing segment.

The following table shows selected financial information included in discontinued operations for the three months ended March 31, 2007 and 2006, respectively:

	Three Months Ended March 31,	
Discontinued Operations	2007	2006
Revenue	\$ -	\$ 42,458
Pretax income	\$ -	\$ 22,010
Net (loss) income	\$ (1,788)	\$ 16,669
Total discontinued operations, net of tax	\$ (1,788)	\$ 16,669

Net loss for the three months ended March 31, 2007 relates primarily to the accrual of interest on uncertain tax positions. Interest expense included in discontinued operations was \$9.1 million for the three months ended March 31, 2006. Interest expense recorded in discontinued operations in 2006 includes only interest on third-party debt that was assumed by Cerberus. We have not allocated other consolidated interest expense to discontinued operations.

5. Acquisitions

On April 19, 2007, we acquired MapInfo Corporation for approximately \$408 million in cash, net of cash acquired. MapInfo is a global company and a leading provider of location intelligence software and solutions. We will assign the goodwill to the Software segment.

On July 31, 2006, we acquired Print, Inc. for approximately \$47 million in cash. Print, Inc. provides printer supplies, service and equipment under long-term managed services contracts. We assigned the goodwill to the U.S. Mailing segment.

On June 15, 2006, we acquired substantially all the assets of Advertising Audit Service and PMH Caramanning (collectively AAS) for approximately \$42 million in cash. AAS offers a variety of web-based tools for the customization of promotional mail and marketing collateral and designs and manages customer and channel performance solutions. We assigned the goodwill to the Marketing Services segment.

On April 24, 2006, we acquired Ibis Consulting, Inc. (Ibis) for approximately \$65 million in cash. Ibis is a leading provider of electronic discovery (eDiscovery) services to law firms and corporate clients. Ibis' technology and offerings complement those of Compulit, which we acquired in 2005, and expands our range of solutions and services for the complex litigation support needs of law firms and corporate legal departments. We assigned the goodwill to the Management Services segment.

On February 8, 2006, we acquired Emtex Ltd. (Emtex) for approximately \$42 million in cash. Emtex is a software and services company that allows large-volume mailers to simplify document production and centrally manage complex multi-vendor and multi-site print operations. We assigned the goodwill to the Software segment.

The following table summarizes selected financial data for the opening balance sheet allocation of acquisitions completed prior to March 31, 2007:

Allocation of the purchase price to the assets acquired and liabilities assumed has not been finalized for Print, Inc. and AAS. The purchase price allocation for these acquisitions will be finalized upon the completion of working capital closing adjustments and fair value analyses. Final determination of the purchase price and fair values to be assigned may result in adjustments to the preliminary estimated values assigned at the date of acquisition. The amount of tax deductible goodwill added from acquisitions in

PITNEY BOWES INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited; tabular dollars in thousands, except for per share data)

the three months ended March 31, 2007 was \$5.9 million. Acquisitions in the three months ended March 31, 2006 did not result in additional tax deductible goodwill.

During the three months ended March 31, 2007, we completed several smaller acquisitions, the aggregate cost of which was \$16 million. These acquisitions did not have a material impact on our financial results.

Consolidated impact of acquisitions

The Condensed Consolidated Financial Statements include the results of operations of the acquired businesses from their respective dates of acquisition. These acquisitions increased our earnings, but including related financing costs, did not materially impact earnings either on an aggregate or per share basis.

The following table provides unaudited pro forma consolidated revenue for the three months ended March 31, 2007 and 2006 as if our acquisitions had been acquired on January 1 of each period presented:

	Three Months Ended	
	March 31,	
	2007	2006
	\$	\$
Total revenue	1,417,672	1,391,159

The pro forma earnings results of these acquisitions were not material to net income or earnings per share. The pro forma consolidated results do not purport to be indicative of actual results that would have occurred had the acquisitions been completed on January 1, 2007 and 2006, nor do they purport to be indicative of the results that will be obtained in the future.

6. Earnings per Share

A reconciliation of the basic and diluted earnings per share computations for the three months ended March 31, 2007 and 2006 is as follows:

Edgar Filing: PITNEY BOWES INC /DE/ - Form 10-Q

In accordance with SFAS No. 128, *Earnings per Share*, approximately 321,000 and 890,000 common stock equivalent shares for the three months ended March 31, 2007 and 2006, respectively, issuable upon the exercise of stock options were excluded from the above computations because the exercise prices of such options were greater than the average market price of the common stock and therefore the impact of these shares was anti-dilutive.

On February 12, 2007, we made our annual stock compensation grant which consisted of approximately 1.5 million stock options and 320,000 restricted stock units.

7. Segment Information

During the second quarter of 2006, we reassessed our organizational structure in light of the sale of the Capital Services business and revised our business segments in accordance with SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information*. We conduct our business activities in seven business segments within the Mailstream Solutions and Mailstream Services business groups. As a result of these changes, we have reclassified the prior year amounts for the segment changes. EBIT is determined by deducting from revenue the related costs and expenses attributable to the segment. Segment EBIT excludes general corporate expenses, restructuring charges, interest expense, other income (expense) and income taxes.

Mailstream Solutions:

U.S. Mailing: Includes the U.S. revenue and related expenses from the sale, rental and financing of our mail finishing, mail creation and shipping equipment; supplies; equipment-based software, support and other professional services; and payment solutions.

International Mailing: Includes the non-U.S. revenue and related expenses from the sale, rental and financing of our mail finishing, mail creation and shipping equipment; supplies; equipment-based software, support and other professional services; and payment solutions.

Production Mail: Includes the worldwide sale, financing, support and other professional services of our high-speed, production mail systems and sorting equipment.

Software: Includes the worldwide sale and support services of our non-equipment-based mailing and customer communication software.

Mailstream Services:

Management Services: Includes our worldwide facilities management services; secure mail services; reprographic, document management services; and litigation support and eDiscovery services.

Mail Services: Includes our presort mail services and our outbound international mail processing services.

Marketing Services: Includes our direct marketing services for targeted customers; our web-tools for the customization of promotional mail and marketing collateral; and other marketing consulting services.

Nonpension Postretirement Benefit Plans

The components of net periodic benefit cost for nonpension postretirement benefit plans for the three months ended March 31, 2007 and 2006 are as follows:

	Three Months Ended March 31,	
	2007	2006
Service cost	\$ 832	\$ 902
Interest cost	3,612	3,659
Amortization of prior service cost	(458)	(475)
Amortization of net (gain) loss	709	909
Net periodic benefit cost	\$ 4,695	\$ 4,995

For the three months ended March 31, 2007 and 2006, we made \$8.8 million and \$9.0 million of contributions representing benefit payments, respectively.

15. Income Taxes

The effective tax rate was 34.5% for both the three months ended March 31, 2007 and 2006.

In June 2006, the FASB issued FIN. 48, *Accounting for Uncertainty in Income Taxes*, which supplements FAS 109, *Accounting for Income Taxes*, by defining the confidence level that a tax position must meet in order to be recognized in the financial statements. FIN 48 requires the tax effect of a position to be recognized only if it is ☐more-likely-than-not \square to be sustained, which is a different standard than was previously required. We adopted the provisions of FIN 48 on January 1, 2007. As a result, on initial adoption we recognized a \$84.4 million increase in our liability for uncertain tax positions and a corresponding reduction to our opening retained earnings. The total amount of unrecognized tax benefits at January 1, 2007 was \$460.4 million, of which \$363.3 million would affect the effective tax rate if recognized. Our tax filings are under continual examination by tax authorities. On a regular basis we conclude tax return examinations, statutes of limitations expire, court decisions are made that interpret tax law and we regularly assess tax uncertainties in light of these developments. Therefore, it is reasonably possible that the amount of our unrecognized tax benefits, primarily related to leasing transactions, could increase or decrease by approximately 10% within the next 12 months. We recognize interest and penalties related to uncertain tax positions in our provision for income taxes. We recognized \$1.8 million in interest and penalties during the three months ended March 31, 2007 and this amount was included in discontinued operations. We had \$104.5 million accrued for the payment of interest and penalties at January 1, 2007. Included in the \$517.3 million March 31, 2007 noncurrent deferred tax balance is \$249.6 million of other noncurrent tax liabilities.

The current IRS exam of tax years 2001-2004 is expected to conclude in 2008 while the formal statute of limitations for years 1995-2000 has also yet to expire. In connection with the 2001-2004 audit we are currently disputing a recent formal request from the IRS in the form of a civil summons to provide certain company workpapers. The company believes that certain documents being sought should not be produced because they are privileged. A similar issue is currently being litigated by other companies before the US District Courts of Rhode Island and Alabama. A variety of post-1999 tax years remain subject to examination by other tax authorities, including the UK, Canada, Germany and various US states. We have accrued our estimate of the probable tax, interest and penalties that may result from these tax uncertainties in these and other jurisdictions, and we believe that the accrual for them is appropriate. However, the resolution of such matters could have a material impact on our results of operations, financial position and cash flow.

16. Guarantees

We provide product warranties in conjunction with certain product sales, generally for a period of 90 days from the date of installation. Our product warranty liability reflects our best estimate of probable liability for product warranties based on historical claims experience, which has not been significant and other currently available evidence. Accordingly, our product warranty liability at March 31, 2007 and December 31, 2006, respectively, was not material.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) contains statements that are forward-looking. These statements are based on current expectations and assumptions that are subject to risks and uncertainties. Actual results could differ materially because of factors discussed in Forward-Looking Statements and elsewhere in this report.

The following analysis of our financial condition and results of operations should be read in conjunction with Pitney Bowes' Consolidated Financial Statements contained in this report and in Pitney Bowes' Form 10-K for the year ended December 31, 2006.

As a result of the sale of our Imagistics lease portfolio and Capital Services external financing business in 2006, the results of operations reflect these businesses as discontinued operations for all periods presented.

Overview

During the quarter, we announced a new executive leadership structure to position us for continued growth in a changing environment. Effective May 14th, Murray D. Martin, our President and Chief Operating Officer, will become President and Chief Executive Officer. Michael J. Critelli, our Chairman and current Chief Executive Officer, will assume the newly created position of Executive Chairman. Mr. Martin also was appointed to our Board of Directors. As CEO, Mr. Martin will assume full strategic and operational responsibility, overseeing our overall performance with a focus on sustaining increased shareholder, customer and employee value. In his new role, Mr. Critelli will lead our focus on emerging opportunities in the external environment, including postal reform and transformation in the U.S. and globally, and market opportunities arising from our innovation and leadership.

During the quarter, we also expanded our presence in the mailstream by entering into a merger agreement to acquire MapInfo Corporation. We completed the acquisition of MapInfo on April 19, 2007 for approximately \$408 million in cash, net of cash acquired. MapInfo is a leading provider of location intelligence software and solutions.

For the first quarter, revenue grew 4% driven by growth in payment solutions, supplies, mail services and marketing services. Revenue growth for the quarter was adversely affected by lower equipment sales and rentals. Revenue growth was positively affected by acquisitions and foreign currency translation, which each contributed 2%, respectively.

Income from continuing operations for the quarter was \$146.6 million or \$0.66 per diluted share as compared with \$0.60 earnings per diluted share in the first quarter of 2006. Income from continuing operations in the first quarter of 2006 included restructuring charges of 2 cents per diluted share.

See Results of Operations - First Quarter of 2007 compared to First Quarter of 2006 for a more detailed discussion of our results of operations.

Outlook

We anticipate that we will experience solid financial results in 2007. We expect our mix of product sales to continue to change, with a greater percentage of the revenue coming from diversified revenue streams associated with fully featured smaller systems and a smaller percentage from larger system sales. In addition, we expect to expand our market presence in Mailstream Solutions and Mailstream Services and derive further synergies from our recent acquisitions. We will continue to remain focused on our productivity programs and to allocate capital in order to optimize our returns. As part of the purchase accounting for MapInfo, we will align MapInfo's accounting policies with ours. Accordingly, certain software revenue that was previously recognized by MapInfo on a periodic basis, will now be recognized over the life of the contract. Including the effect of this purchase accounting, we expect the acquisition of MapInfo to reduce diluted earnings per share by approximately 5 cents in 2007.

(1) See reconciliation of segment amounts to Income from Continuing Operations before Income Taxes and Minority Interest in Note 7 to the Condensed Consolidated Financial Statements.

During the first quarter of 2007, Mailstream Solutions revenue increased 3% and EBIT increased 5% compared with the prior year. U.S. Mailing's revenue was flat with the prior year as growth in supplies and payment solutions was offset by lower equipment sales. The decrease in equipment sales was primarily due to historically low backlog at the beginning of the quarter; postal rate case revenue that was included in the prior year and delays in orders from customers due to uncertainties about the content and timing of the new rate case. Revenue continues to be adversely affected by the ongoing changing mix to more fully featured smaller systems. U.S. Mailing's EBIT increased 5% due to an increase in mix of higher margin revenue from payment solutions and supplies, and benefits from productivity initiatives. International Mailing revenue grew by 8% driven by foreign currency of 7%, growth in supplies and placements of mailing equipment with small businesses. Last year's upgrade cycle for mailing equipment in the U.K. affected the segment's rate of growth. In addition, incremental investments to expand marketing channels in Europe affected International Mailing's EBIT margin. Revenue for Production Mail grew by 7% driven by broad based equipment placements in the U.S., but was partially offset by lower sales in Europe. Acquisitions accounted for 4% of this growth while foreign currency contributed 2%. Production Mail EBIT grew 117% driven by a mix of higher margin product and continued focus on productivity initiatives. Software's revenue grew by 3% driven by the acquisition of Emtex in the first quarter of 2006. Revenue growth for the quarter was affected by delays in signing several large contracts. Also, the segment's EBIT margin was impacted by continued investments in expanding sales and marketing channels.

During the first quarter of 2007, Mailstream Services revenue grew 6% and EBIT grew 3% compared with the prior year. Our Management Services segment reported a revenue increase of 2% driven by acquisitions and foreign currency. Revenue growth was negatively affected by two large non-recurring print contracts that were included in the first quarter of 2006. Management Services EBIT grew by 1% driven by revenue growth. Mail Services revenue grew 11% due to continued growth in presort and international mail services. Mail Services EBIT grew by 20% to \$14.1 million as a result of the ongoing successful integration of acquired sites and increased operating efficiencies. Marketing Services revenue grew 32% driven by acquisitions which contributed

24% and expansion of our marketing services programs. However, the segment's results were negatively affected by lower revenue from motor vehicle registration services.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Revenue by source

The following table shows revenue by source for the three months ended March 31, 2007 and 2006:

(Dollars in thousands)	Three Months Ended March 31,		
	2007	2006	% change
Equipment sales	\$ 293,610	\$ 302,757	(3)%
Supplies	100,302	82,811	21%
Software	43,082	41,995	3%
Rentals	188,070	196,812	(4)%
Financing	190,580	178,145	7%
Support services	186,304	170,766	9%
Business services	412,289	388,360	6%
Total revenue	\$ 1,414,237	\$ 1,361,646	4%

Equipment sales revenue decreased by 3% from the prior year. This decrease was primarily due to lower sales of mail finishing equipment in the U.S. and U.K. and lower placement of production mail equipment in Europe.

Supplies revenue increased by 21% from the prior year. This growth was primarily driven by our customers' continued migration to digital technology, incremental revenue from the acquisition of our print management business in the third quarter of last year, which contributed 4%, and foreign currency translation, which contributed 3%.

Software revenue increased by 3% from the prior year driven by acquisitions.

Rentals revenue decreased from the prior year primarily due to customers continuing to downsize to smaller machines.

Financing revenue increased by 7% primarily due to higher revenue from payment solutions. Foreign currency translation accounted for 1% of this growth.

Support services revenue increased by 9% from the prior year period. This growth was primarily driven by higher service revenue from production mail and mailing equipment. Acquisitions contributed 3% and foreign currency translation contributed 2%.

Business services revenue increased by 6% from the prior year period. This growth was driven by higher revenue in mail and marketing services, acquisitions, which contributed 3%, and foreign currency translation, which accounted for 1%.

Costs and expenses

(Dollars in thousands)	Three Months Ended March 31,	
	2007	2006
Cost of equipment sales	\$ 148,256	\$ 152,980
Cost of supplies	\$ 26,123	\$ 20,608

Cost of rentals	\$ 42,421	\$ 43,539

Edgar Filing: PITNEY BOWES INC /DE/ - Form 10-Q

Cost of support services	\$ 105,504	\$ 96,296
Cost of business services	\$ 323,651	\$ 306,324
Selling, general and administrative	\$ 425,402	\$ 417,662
Research and development	\$ 43,569	\$ 41,535

Cost of equipment sales as a percentage of revenue was 50.5% in the first quarter of 2007 and 2006.

Cost of supplies as a percentage of revenue increased to 26.0% in the first quarter of 2007 compared with 24.9% in the prior year primarily due to the increase in sales of toner, ink, and other supplies which have lower margins than our meter-related supplies.

Cost of software increased to 26.8% of revenue in the first quarter of 2007 compared with 24.2% in the prior year due to the increase in mix of service versus licensing revenue.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Cost of rentals increased to 22.6% of revenue in the first quarter of 2007 compared with 22.1% in the prior year due to higher depreciation costs from the placement of new meters.

Cost of support services as a percentage of revenue increased to 56.6% compared with 56.4% in the prior year primarily due to the increase in mix of production mail revenue.

Cost of business services as a percentage of revenue decreased to 78.5% compared with 78.9% in the prior year due to successful integration of new sites and productivity improvements at our mail services operations.

Selling, general and administrative expenses as a percentage of revenue decreased to 30.1% in the first quarter of 2007 compared with 30.7% in the prior year due to benefits from our productivity programs.

Research and development increased from the prior year as we continued to invest in developing new technologies and enhancing our products.

Restructuring

In connection with our restructuring program that we concluded in 2006, we recorded pre-tax restructuring charges of \$5.6 million for the three months ended March 31, 2006.

We primarily fund restructuring payments with cash from operating activities. We expect to pay most of the outstanding restructuring balance by the end of 2007. We expect the restructuring initiatives to continue to increase our operating efficiency and effectiveness in 2007 and beyond while enhancing growth, primarily as a result of the reduction in personnel-related expenses.

The pre-tax restructuring charges were composed of:

(Dollars in thousands)	Three Months Ended March 31, 2006
Severance and benefit costs	\$ 4,522
Asset impairments	514
Other exit costs	561
	\$ 5,597

Accrued restructuring charges at March 31, 2007 were composed of the following:

(Dollars in thousands)	Balance at January 1, 2007	Cash payments	Balance at March 31, 2007
Severance and benefit costs	\$ 31,265	\$ (11,412)	\$ 19,853

(Dollars in thousands)

Three Months Ended March 31,
2007 **2006**

Interest expense, net	\$ 56,727	\$ 53,569
-----------------------	-----------	-----------

Net interest expense increased by \$3.2 million or 5.9% in the first quarter of 2007 compared with the prior year due to higher average interest rates and higher average borrowings during the quarter.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Income Taxes / Effective Tax Rate

The effective tax rate was 34.5% for both the first quarter of 2007 and the prior year.

Minority Interest

The following table details minority interest for the three months ended March 31, 2007 and 2006:

(Dollars in thousands)	Three Months Ended March 31,	
	2007	2006
Minority interest	\$4,746	\$2,917

Minority interest includes dividends paid to preferred stockholders in subsidiary companies. Minority interest increased by \$1.8 million or 62.7% in the first quarter of 2007 compared with the prior year due to higher average rates and a higher average balance during the quarter.

Discontinued Operations

The following table details the components of discontinued operations for the three months ended March 31, 2007 and 2006:

(Dollars in thousands)	Three Months Ended March 31,	
	2007	2006
Revenue	\$ -	\$ 42,458
Pretax income	\$ -	\$ 22,010
Net income	\$ (1,788)	\$ 16,669
Total discontinued operations, net of tax	\$ (1,788)	\$ 16,669

See Note 4 in the Condensed Consolidated Financial Statements for further discussion and details of the discontinued operations.

Liquidity and Capital Resources

Our primary sources of liquidity and capital resources include cash flows from operating activities. Additionally, we have substantial borrowing capability through our commercial paper program, long-term capital markets and our revolving credit line agreements. The primary factors that affect our liquidity position, other than operating results associated with current sales activity, include the following: growth and expansion requirements; customer financing assistance; federal income tax payments; interest and dividend payments; our stock repurchase program; internal investments; and potential acquisitions and divestitures.

Cash Flow Summary

The change in cash and cash equivalents is as follows:

(Dollars in thousands)	Three Months Ended March 31,
------------------------	---

	2007	2006
Cash provided by operating activities	\$ 220,225	\$ 286,234
Cash used in investing activities	(96,510)	(118,461)
Cash used in financing activities	(131,253)	(216,421)
Effect of exchange rate changes on cash	681	480
Decrease in cash and cash equivalents	\$ (6,857)	\$ (48,168)

2007 Cash Flows

Net cash provided by operating activities consisted primarily of net income adjusted for non-cash items and changes in operating assets and liabilities. The net increase in our deferred taxes on income and income taxes payable contributed \$60 million to cash from operations resulting from the timing of tax payments. The decrease in accounts payable and accrued liabilities reduced our cash from operations by \$131 million primarily due to the payment of year-end incentive compensation and commissions and the timing of accounts payable payments following the strong fourth quarter of 2006.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Net cash used in investing activities consisted of capital expenditures, acquisitions and a reduction in our reserve account deposits.

Net cash used in financing activities consisted primarily of dividends paid to stockholders and stock repurchases, partially offset by proceeds from issuance of stock.

2006 Cash Flows

Net cash provided by operating activities consisted primarily of net income adjusted for non-cash items and changes in operating assets and liabilities. The net increase in our deferred taxes on income and income taxes payable contributed \$70 million to cash from operations resulting from the timing of tax payments. The increase in our internal finance receivables balances decreased cash from operations by \$24 million reflecting growth in equipment placements and our payment solutions business during the quarter.

Net cash used in investing activities consisted primarily of capital expenditures.

Net cash used in financing activities consisted primarily of dividends paid to stockholders and stock repurchases, partially offset by proceeds from issuance of stock.

Capital Expenditures

During the first three months of 2007, capital expenditures included \$31.6 million in net additions to property, plant and equipment and \$36.0 million in net additions to rental equipment and related inventories compared with \$33.5 million and \$49.5 million, respectively, in the same period in 2006.

We expect capital expenditures for the full year of 2007 to be approximately the same as 2006. These investments will also continue to be affected by the timing of our customers' transition to digital meters.

Financings and Capitalization

We have a commercial paper program that is a significant source of liquidity. As of March 31, 2007, we had approximately \$479 million of outstanding commercial paper issuances and an unused credit facility of \$1.5 billion which supports commercial paper issuances.

In addition to our borrowing capability under the unused credit facilities described above, we have \$1.1 billion available under the shelf registration statement filed in February 2005 with the SEC, permitting issuances of up to \$2.5 billion in debt securities, preferred stock, preference stock, common stock, purchase contracts, depositary shares, warrants and units.

We funded our acquisition of MapInfo on April 19, 2007 for approximately \$408 million in cash, net of cash acquired, primarily through the issuance of commercial paper.

We believe our financing needs in the short and long term can be met with cash generated internally, borrowing capacity from existing credit agreements, available debt issuances under existing shelf registration statements and our existing commercial paper program.

Recent Accounting Pronouncements

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation (FIN) No. 48, *Accounting for Uncertainty in Income Taxes*, which supplements Statement of Financial Accounting Standard No. 109, *Accounting for Income Taxes*, by defining the confidence level that a tax position must meet in order to be recognized in the financial statements. FIN 48 requires the tax effect of a position to be recognized only if it is "more-likely-than-not" to be sustained based solely on its technical merits as of the reporting date. If a tax position is not considered more-likely-than-not to be sustained based solely on its technical merits, no benefits of the position are recognized. This is a different standard for recognition than was previously required. The

more-likely-than-not threshold must continue to be met in each reporting period to support continued recognition of a benefit. At adoption, companies must adjust their financial statements to reflect only those tax positions that are more-likely-than-not to be sustained as of the adoption date. Any necessary adjustment is recorded directly to opening retained earnings in the period of adoption and reported as a change in accounting principle. We adopted the provisions of FIN 48 on January 1, 2007 which resulted in a decrease to opening retained earnings of \$84.4 million, with a corresponding increase in our tax liabilities.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

In September 2006, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements* (SFAS 157), to define how the fair value of assets and liabilities should be measured in more than 40 other accounting standards where it is allowed or required. In addition to defining fair value, the statement establishes a framework within GAAP for measuring fair value and expands required disclosures surrounding fair-value measurements. While it will change the way companies currently measure fair value, it does not establish any new instances where fair-value measurement is required. SFAS 157 defines fair value as an amount that a company would receive if it sold an asset or paid to transfer a liability in a normal transaction between market participants in the same market where the company does business. It emphasizes that the value is based on assumptions that market participants would use, not necessarily only the company that might buy or sell the asset. SFAS 157 is effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years, with early adoption allowed. We are currently evaluating the impact of adopting this Statement.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, which permits entities to choose to measure many financial assets and financial liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings. SFAS 159 is effective for fiscal years beginning after November 15, 2007. We are currently evaluating the impact of adopting this Statement.

Regulatory Matters

There have been no significant changes to the regulatory matters disclosed in our 2006 Annual Report on Form 10-K.

Forward-Looking Statements

We want to caution readers that any forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 in this Form 10-Q, other reports or press releases or made by our management involve risks and uncertainties which may change based on various important factors. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. These forward-looking statements are those which talk about our or management's current expectations as to the future and include, but are not limited to, statements about the amounts, timing and results of possible restructuring charges and future earnings. Words such as "estimate," "project," "plan," "believe," "expect," "anticipate," "intend," and similar expressions may identify such forward-looking statements. Some of the factors which could cause future financial performance to differ materially from the expectations as expressed in any forward-looking statement made by or on our behalf include:

- changes in international or national political conditions, including any terrorist attacks
- negative developments in economic conditions, including adverse impacts on customer demand
- changes in postal regulations
- timely development and acceptance of new products
- success in gaining product approval in new markets where regulatory approval is required
- successful entry into new markets
- mailers' utilization of alternative means of communication or competitors' products
- our success at managing customer credit risk
- our success at managing costs associated with our strategy of outsourcing functions and operations not central to our business
- changes in interest rates
- foreign currency fluctuations
- cost, timing and execution of the restructuring plans including any potential asset impairments
- regulatory approvals and satisfaction of other conditions to consummation of any acquisitions and integration of recent acquisitions
- interrupted use of key information systems
- changes in privacy laws
- intellectual property infringement claims
- impact on mail volume resulting from current concerns over the use of the mail for transmitting harmful biological agents

- third-party suppliers' ability to provide product components
- negative income tax adjustments for prior audit years and changes in tax laws or regulations
- changes in pension and retiree medical costs
- acts of nature

Item 3: Quantitative and Qualitative Disclosures about Market Risk

There were no material changes to the disclosures made in the Annual Report on Form 10-K for the year ended December 31, 2006 regarding this matter.

Item 4: Controls and Procedures

Disclosure controls and procedures are designed to reasonably assure that information required to be disclosed in reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures are also designed to reasonably assure that such information is accumulated and communicated to our management, including our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), as appropriate to allow timely decisions regarding required disclosure.

Under the direction of our CEO and CFO, we evaluated our disclosure controls and procedures and internal control over financial reporting. The CEO and CFO concluded that our disclosure controls and procedures were effective as of March 31, 2007. In addition, no change in internal control over financial reporting occurred during the quarter ended March 31, 2007, that has materially affected, or is reasonably likely to materially affect, such internal control over financial reporting. It should be noted that any system of controls is based in part upon certain assumptions designed to obtain reasonable (and not absolute) assurance as to its effectiveness, and there can be no assurance that any design will succeed in achieving its stated goals. Notwithstanding this caution, the disclosure controls and procedures are designed to provide reasonable assurance of achieving their stated objectives, and the CEO and CFO have concluded that the disclosure controls and procedures are effective at that reasonable assurance level.

PART II. OTHER INFORMATION

Item 1: Legal Proceedings

This item updates the legal proceedings more fully described in our 2006 Annual Report on Form 10-K, dated March 1, 2007.

There have been no material developments in Ricoh Corporation et al. v. Pitney Bowes Inc. (United States District Court, District of New Jersey, filed November 26, 2002), the patent litigation where the company prevailed at trial. Post-trial motions are currently pending before the trial court.

During the first quarter of 2007, an additional purported national class action was filed against our subsidiary, Imagitas, Inc. alleging that the Imagitas DriverSource program violates the federal Drivers Privacy Protection Act (DPPA), Gentile v. Imagitas, Inc. (U.S. District Court, Southern District of Florida, filed March 8, 2007). The federal panel on multi-district litigation held a hearing on our motion to consolidate the ten purported class actions that have now been filed against Imagitas. During the first quarter, there have also been lawsuits filed against officials of the departments of motor vehicles in four of the states where the DriverSource program is active, Florida, Missouri, Minnesota and Ohio. Imagitas is not a defendant in those cases but these may be consolidated into the same multi-district litigation if consolidation is granted.

We expect to prevail in both the Ricoh litigation and the lawsuits against Imagitas; however, as litigation is inherently unpredictable, there can be no assurance in this regard. If the plaintiffs do prevail, the results may have a material effect on our financial position, future results of operations or cash flows, including, for example, our ability to offer certain types of goods or services in the future.

Item 1A: Risk Factors

There were no material changes to the risk factors identified in the Annual Report on Form 10-K for the year ended December 31, 2006 regarding this matter.

Item 2: Unregistered Sales of Equity Securities and Use of Proceeds***Repurchases of Equity Securities***

We repurchase shares of our common stock under a systematic program to manage the dilution created by shares issued under employee stock plans and for other purposes. This program authorizes repurchases in the open market. We have not repurchased or acquired any other shares of our common stock during 2007 in any other manner.

In March 2006, our Board of Directors authorized the repurchase of up to \$300 million of our common stock in the open market of which \$141.2 million remained for future purchases at December 31, 2006. We repurchased 1.9 million shares during the three months ended March 31, 2007 under this program for a total price of \$90.0 million, leaving \$51.2 million remaining for future repurchases under this program.

In March 2007, our Board of Directors authorized the repurchase of up to an additional \$300 million of our common stock in the open market.

The following table summarizes our share repurchase activity under active programs during the first three months of 2007:

Period	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of a publicly announced plan	Approximate dollar value of shares that may yet be purchased under the plan (in thousands)
March 2006 Program				
Balance carried forward				\$ 141,199
January 2007	866,300	\$47.88	866,300	\$ 99,721
February 2007	451,850	\$47.99	451,850	\$ 78,035
