**FOR IMMEDIATE RELEASE**

**EATON VANCE CORP.  
REPORT FOR THE THREE MONTHS AND NINE MONTHS ENDED  
JULY 31, 2007**

**Boston, MA** Eaton Vance achieved another quarter of outstanding progress in growth of assets under management and profits, despite the emergence of a global credit crunch and associated turmoil in financial markets toward the end of the period, said James B. Hawkes, Chairman and CEO of Eaton Vance Corp. While we experienced an increase in retail mutual fund redemptions in July and August, solid retail managed account inflows have more than offset these outflows. Net flows in institutional, high-net-worth and offshore fund products have all remained positive. Our lack of exposure to sub-prime mortgage loans, private equity and hedge funds, combined with our broad stable asset mix and strong financial condition should help shield the Company from highly volatile financial markets. As of August 15th, Eaton Vance's assets under management remained over \$150 billion.

Eaton Vance reported diluted earnings per share of \$0.41 in the third quarter of fiscal 2007 compared to diluted earnings per share of \$0.31 in the third quarter of fiscal 2006, an increase of 32 percent. Third quarter earnings were reduced by \$14.8 million or \$0.07 per diluted share by expenses associated with the \$1.3 billion initial public offering of the closed-end Eaton Vance Risk-Managed Diversified Equity Income Fund in July. These expenses consisted of \$12.6 million of structuring fees paid to distribution partners in the underwriting group and \$2.2 million of sales-based incentives to members of the Eaton Vance sales and marketing organization.

The Company earned \$0.60 per diluted share in the first nine months of fiscal 2007 compared to earnings of \$0.88 per diluted share in the first nine months of fiscal 2006. Year-to-date earnings per share were reduced by \$0.65 per diluted share by closed-end fund related expenses. These expenses consisted of structuring fee payments of \$76.0 million, sales-based incentives of \$14.8 million and one-time payments of \$52.2 million made to terminate compensation agreements of the Company with Merrill Lynch and AG Edwards related to certain closed-end funds offered in prior periods. The Company expects to earn significant future management fees from the \$9.9 billion in new closed-end fund assets raised in the first nine months of the fiscal year and increased operating income resulting from the termination of the compensation agreements on earlier closed-end funds.

Assets under management of \$152.3 billion at the end of the third quarter of fiscal 2007 were \$31.9 billion or 26 percent greater than the \$120.4 billion at the end of the third fiscal quarter last year. In the 12-month period ended July 31, 2007, the Company's assets under management were positively affected by long-term fund and separate account net inflows of \$22.8 billion and market price appreciation of \$9.9 billion. Gross sales and other inflows into long-term funds and separate accounts in the last 12 months were \$45.1 billion.

Net inflows of \$4.2 billion in the third quarter of fiscal 2007 were 56 percent greater than net inflows of \$2.7 billion in the third quarter of fiscal 2006, helped by the \$1.3 billion closed-end Eaton Vance Risk-Managed Diversified Equity Income Fund offering and higher net inflows into open-end funds and separate accounts. Excluding closed-end funds, total long-term fund and separate account net inflows in the third quarter of fiscal 2007 increased 14 percent compared to the third quarter of fiscal 2006. Open-end fund net inflows increased 31 percent to \$2.1 billion from \$1.6 billion. Retail managed account net inflows increased to \$1.2 billion from less than \$0.1 billion in the same period last year. Private fund net outflows of \$0.2 billion resulted from the liquidation of a bank loan warehouse facility managed by the Company in anticipation of a pending collateralized loan obligation fund that has been withdrawn due to unfavorable market conditions. Institutional and high-net-worth net outflows of \$0.3 billion resulted primarily from withdrawals from relatively low-fee separate accounts at Atlanta Capital Management. Tables 1-4 on page 6 summarize the Company's assets under management and asset flows by investment objective.

As a result of higher average assets under management, revenue in the third quarter of fiscal 2007 increased by \$70.4 million or 32 percent to \$286.9 million compared to revenue in the third quarter of fiscal 2006 of \$216.6 million. Investment adviser and administration fees increased 37 percent to \$205.9 million, compared to a 28 percent increase in average assets under management. Distribution and underwriter fees increased 16 percent and service fee revenue increased 27 percent due to the increase in fund assets that pay these fees.

Operating expenses increased 33 percent in the third quarter of fiscal 2007 to \$198.1 million compared to operating expenses of \$148.7 million in the third quarter of fiscal 2006 because of \$14.8 million of onetime expenses associated with the closed-end fund offering referred to earlier, as well as higher compensation, service fee, distribution and other expenses. Compensation expense (including closed-end fund-related compensation expenses) increased 29 percent because of significantly higher sales-based incentive payments and increases in employee headcount, base salaries, stock-option expense and higher management bonus accruals.

Amortization of deferred sales commissions increased 15 percent in the third quarter of fiscal 2007 compared to the third quarter of fiscal 2006 primarily because the growth in class C share fund sales and assets more than offset the continuing decline in class B share fund sales and assets. Service fee expense increased 31 percent, in line with the increase in assets that provide service fee revenue. Distribution expense increased 47 percent as a result of the \$12.6 million of one-time closed-end fund structuring fees and increases in sales support expenses and distribution fees on class C fund shares. Fund expenses increased 35 percent because of increases in asset-based sub-advisory fees and other fund related expenses paid by the Company. Other expenses increased 40 percent primarily due to increases in information technology, facilities, travel, consulting and other miscellaneous expenses in the third quarter of fiscal 2007.

Operating income increased 31 percent to \$88.9 million in the third quarter of fiscal 2007 from \$67.9 million in the third quarter of fiscal 2006.

In evaluating operating performance, the Company considers operating income and net income, which are calculated on a basis consistent with accounting principles generally accepted in the United States ( GAAP ), as well as adjusted operating income, a non-GAAP performance measure. Adjusted operating income is defined as operating income plus closed-end fund structuring fees and one-time payments, stock-based compensation and the write-off of any intangible assets associated with the Company s acquisitions. The Company believes that adjusted operating income is a key indicator of the Company s ongoing profitability and therefore uses this measure as the basis for calculating performance-based management incentives. Adjusted operating income is not, and should not be construed to be, a substitute for operating income computed in accordance with GAAP. However, in assessing the performance of the business, Management and the Board of Directors look at adjusted operating income as a measure of underlying performance, since amounts resulting from one-time events (e.g., the offering of a closed-end fund) do not necessarily represent normal results of operations. In addition, when assessing performance, Management and the Board look at performance both with and without stock-based compensation.

The following table provides a reconciliation of operating income to adjusted operating income:

### Reconciliation of Operating Income to Adjusted Operating Income

<i>(in thousands)</i>	For the Three Months Ended July 31,			For the Nine Months Ended July 31,

Adjusted operating income	\$112,334	\$77,642	45%	\$288,713	\$231,713	25%

Net income increased 33 percent to \$55.8 million in the third quarter of fiscal 2007 compared to \$41.8 million in the third quarter of fiscal 2006. Interest income increased 21 percent because of higher interest earned on cash and short-term investments. Interest expense declined 91 percent due to the extinguishment of the Company s long-term debt in August 2006. The Company s effective tax rate, before minority interest and equity in net income of affiliates, was 38.8 percent in the third quarter of fiscal 2007 and 39.2 percent in the third quarter of fiscal 2006.

Cash, cash equivalents and short-term investments were \$136.1 million on July 31, 2007, and \$295.7 million on July 31, 2006. The Company's strong operating cash flow in the last 12 months enabled it to pay \$251.4 million to repurchase 6.8 million shares of its non-voting common stock, \$86.2 million to retire its long-term debt and \$58.2 million in dividends to shareholders, in addition to \$128.2 million of

closed-end fund structuring fees and compensation agreement buyouts. There were no outstanding borrowings against the Company's \$180.0 million credit facility on July 31, 2007. The credit facility was expanded to \$200.0 million and extended for five years on August 13, 2007.

During the first nine months of fiscal 2007, the Company repurchased and retired 5.1 million shares of its non-voting common stock at an average price of \$40.05 per share under its current repurchase authorization. Approximately 6.7 million shares remain of the current 8.0 million share authorization.

Eaton Vance Corp., a Boston-based investment management firm, is traded on the New York Stock Exchange under the symbol EV.

This news release contains statements that are not historical facts, referred to as forward-looking statements. The Company's actual future results may differ significantly from those stated in any forward-looking statements, depending on factors such as changes in securities or financial markets or general economic conditions, the volume of sales and repurchases of fund shares, the continuation of investment advisory, administration, distribution and service contracts, and other risks discussed from time to time in the Company's filings with the Securities and Exchange Commission.
