Table of Contents**SCOR records an increase of 23% on premium income for Non-Life treaties on the Asian and Indian markets**

Non-Life reinsurance treaties in Japan and Korea were up for renewal on 1 April 2006. These treaties represent around 75% of SCOR's portfolio in the Asia-Pacific zone.

In Japan, written premiums reached Yen 7 billion, up 6% compared to 2005 (EUR 49 million at the present exchange rate). At current exchange rates, written premiums are up by 7%. Wind risk pricing in Japan is up by 5 to 10% depending on programmes. SCOR's market share is increasing regularly on this market, benefiting from the in-depth, long-term relationships it has with its Japanese clients.

In Korea, written premiums reached WON 30 million, up 4% (EUR 26 million at the present exchange rate). At current exchange rates, written premiums are up by 22%. In a context of low loss experience, rates have decreased slightly.

In India, written premiums reached INR 986 million, up 81% (EUR 18 million at the present exchange rate). At current exchange rates, written premiums are up by 113%. SCOR opened a representative office in 2005 in Mumbai and is continuing to expand on this rapidly growing market. Rates are on the increase in India and SCOR has taken positions with expanding private sector insurance clients.

By way of a reminder, on South East Asia treaties, which were up for renewal on 1 January 2006 (representing around 25% of the zone's portfolio), and particularly in Malaysia, China and Singapore, SCOR recorded an increase of 54% in gross written premiums, which amounted to USD 37 million (EUR 31 million at the 1/1/2006 exchange rate). (cf. press release n°4 dated 28 February 2006). At current exchange rates, premiums written on 1 January 2006 on these markets were up by 74%.

Overall, written premiums for Non-Life treaties in the Asia-Pacific / India zone has reached EUR 124 million in 2006, up 23% compared to 2005.

The Asia-Pacific zone represents a strategic development zone for the SCOR group and the Non-Life reinsurance treaty renewals on both 1 January and 1 April 2006 demonstrate the expansion of SCOR's client base across all of these markets, in line with the Group's strategy.

At the same time, SCOR has recorded growth in its activities in Large Corporate Accounts and Life reinsurance in Asia

Margin on net earned premiums in Life reinsurance: 7.6%

Investment income: EUR 124 million (+ 31% compared to the first quarter 2005)

The SCOR Board meeting of 16 May 2006, chaired by Denis Kessler, closed the accounts at 31 March 2006.

1. SCOR records a sharp increase in its business and results, in a competitive environment

In the first quarter 2006, gross written premiums amount to EUR 734 million, up 18% compared to the first quarter 2005. This growth is due to the sharp increase in Non-Life business Treaties (up 31%), the sustained expansion of Large Corporate Accounts business (+29%) and the development of the Credit and Surety business (+46%) combined with the stability of the premiums written in Life reinsurance.

Operating income for the first quarter 2006 is EUR 99.8 million, up 64% compared to the first quarter 2005. It is divided between a Non-Life operating income of EUR 81 million and a Life operating income of EUR 19 million.

Net income after tax for the first quarter 2006 is up 61% at EUR 53 million.

Group shareholders equity is EUR 1,763 million at 31 March 2006, compared to EUR 1,719 million at 31 December 2005, representing an increase of 2.6%. Permanent capital, which includes Group shareholders equity and long-term debt, is EUR 2,512 million.

Group operating cash flow is positive for the first quarter 2006, at EUR 15 million.

Net liabilities relating to contracts, which include technical reserves for insurance contracts as well as liabilities relating to financial contracts net of retrocessions, reach EUR 8,915 million at 31 March 2006, quasi-stable compared to 31 December 2005 (EUR 8,866 million).

The Group's cost ratio improves to 6.7% in the first quarter 2006, compared to 7.9% in the first quarter 2005. **Group overheads** are stable at EUR 49 million.

2. Results by line of business

2.1. In **Non-Life reinsurance** (Property & Casualty Treaties, Large Corporate Accounts and Credit & Surety), premium income reached EUR 469 million in the first quarter 2006, up 31% compared to the first quarter 2005.

During the Non-Life treaty renewals at 1 January 2006, SCOR won and regained several treaty shares, mainly on targeted markets and on existing portfolio treaties. Treaty business notably benefited from the renewal of part of the Alea Europe portfolio, to which SCOR acquired the renewal rights in December 2005.

Large Corporate Accounts business is renewed throughout the year. During the first quarter, this business is continuing on the same strong growth trend it has seen since the upgrade of the Group's rating. In a competitive pricing environment, SCOR continues to maintain the strict application of its underwriting criteria.

In total, Non-Life business in Europe is up 24% in the first quarter 2006 compared to the first quarter 2005. In Asia, business is up 44%. This increase should continue given the quality of the renewals of April 1. The **combined ratio for Non-Life reinsurance business** is 97.3% (including CRP) in the first quarter 2006, compared to 100.1% (including CRP) for the first quarter 2005. Excluding CRP, a subsidiary in run-off, the combined ratio is 97.0% in the first quarter 2006 compared to 96.7% in the first quarter 2005. This ratio, while impacted by more expensive

retrocession rates, reflects the technical profitability of the Non-Life reinsurance business.

2.2. Gross written premiums in **Life reinsurance** reach EUR 265 million for the first quarter 2006, stable compared to the first quarter 2005. Life reinsurance business in the United States is penalised by the Group's rating with one of the rating agencies. In Europe, Canada and Asia, Life reinsurance business is expanding.

Operating income for Life reinsurance business reaches EUR 19 million for the first quarter 2006, compared to EUR 12 million for the first quarter 2005, representing an increase of 58%. This result benefits in particular from the contribution made by investment income.

Table of Contents**3. An active investment management policy, in a favourable environment, leads to an increase in the Group's financial results**

Investment income for the first quarter 2006 is EUR 124 million, compared to EUR 95 million in the first quarter 2005, representing an increase of 31%.

In the first quarter 2006, investment income is distributed as follows: EUR 80 million in current investment yield (stable compared to the first quarter 2005), EUR 30 million in changes in fair value by income (compared to EUR 17 million in the first quarter 2005), EUR 17 million in capital gains and losses from disposals net of writedowns (compared to EUR 9 million in the first quarter 2005). This result includes a slight foreign exchange loss of EUR 3 million.

At 31 March 2006, investments reach EUR 9,691 million compared to EUR 9,743 million at 31 December 2005. Investments at 31 March 2006 are distributed into bonds (56%), cash and equivalents (16%), loans and receivables (15%), shares (10%) and real estate (3%).

Denis Kessler, Chairman and Chief Executive Officer, said:

The 1st Quarter 2006 is characterized by a series of positive developments from the SCOR Group. Non-Life January 1 renewals in Europe and those of April 1 in Asia are very satisfactory. Non-Life written premiums are up 31%. The combined ratio is 97.3%. Life reinsurance is developing throughout the world, outside of the U.S. Operating cash-flow is positive. The increased contribution from investments is a result of dynamic asset management. Operating income, at EUR 99.8 million, is up 64%. Net income, at EUR 53 million, is up 61% compared to the same period of last year. The streamlining of the Group into two subsidiaries dedicated to Life and Non-Life business, respectively, is complete. The Group is on the move. It benefits from larger degrees of freedom so as to take advantage of the positive current environment, in both the reinsurance as well as the financial markets.
