**PART III NARRATIVE**

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

CanArgo Energy Corporation (the Company) is filing this Notification of Late Filing on Form 12b-25 with respect to the Company's Annual Report on Form 10-K for the year ended December 31, 2008 (the 2008 Form 10-K). As initially reported on Form 8-K filed on January 5, 2009, the Company is in default in making interest payments under its outstanding Senior Subordinated Convertible Guaranteed Notes, due September 1, 2009 and its 12% Subordinated Convertible Guaranteed Notes, due June 28, 2010. The Company is continuing its negotiations with certain of the Note holders with a view to addressing such defaults. There can be no assurance, however, that such negotiations will be successfully concluded. The Company's management team and finance and accounting personnel have been focused on such negotiations and, consequently, will not be able to timely file the 2008 Form 10-K due on March 16, 2009, without unreasonable effort or expense.

As a result of these developments, the Company is unable to complete the preparation of its consolidated financial statements and related disclosures to be included in the 2008 Form 10-K in order to have them properly certified by its principal executive officers and audited by its independent registered public accounting firm in order to timely file the 2008 Form 10-K.

(2) Have all other periodic reports required under Section 13 or 15(d) of the Securities Exchange Act of 1934 or Section 30 of the Investment Company Act of 1940 during the preceding 12 months or for such shorter period that the registrant was required to file such report(s) been filed? If answer is no, identify report(s).

Yes  No

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes  No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

On February 28, 2009, the Company publicly announced its preliminary unaudited consolidated results of operations and financial condition as at December 31, 2008 and for the fiscal year then ended. Subsequently on March 3, 2009 the Company filed a Current Report on Form 8-K ( Form 8-K ) which set forth the information in its Press Release and attached a copy of the Press Release as Exhibit 99.1. The preliminary unaudited consolidated results of operations and financial condition as at December 31, 2008 and for the fiscal year then ended were attached to Exhibit 99.1 filed with the Form 8-K and are incorporated herein.

Operating Revenues from Continuing Operations for 2008 increased by approximately 29% over 2007 to \$9.3 million. The increase in revenue was attributable to an increase in the realized price for its oil sold offset partially by lower volumes of oil sold at the Ninotsminda Field in Georgia.

The Company reported a net loss for 2008 of \$57.8 million compared to a net loss for 2007 of \$53.8 million. This was due to lower Income from Discontinued Operations, net of taxes and minority interest offset partially by improved Losses from Continuing Operations before taxes.

Operating Loss from Continuing Operations for 2008 increased to \$54.2 for 2008 compared to \$46.6 million in 2007. This was due higher Field Operating Expenses, Direct Project Costs, Depreciation, Depletion and Amortization and Impairment of Oil and Gas Properties, Ventures and Other Assets, partially offset by improved Operating Revenues from Continuing Operations and lower Selling, General and Administrative Expenses.

The Company performed its annual assessment of its costs classified as unproved property to determine if they should be transferred to the cost pool. After evaluating a number of factors including the length of time that these costs remained classified as unproved property, on February 28, 2009 the Board of Directors and Audit Committee of the Company determined that all of the \$9.4 million relating to exploration properties should be moved to the cost pool. The Brent spot price for crude oil of \$36.45 as at December 31, 2008 (compared to \$94.00 as at December 31, 2007) contributed significantly to a revised estimate of value of the Company's proved reserves as assessed by the Company's independent reserve engineers, although the volume of these reserves were not significantly reassessed. Subsequently, the quarterly ceiling test determined that the net capitalized costs in the cost pool should be impaired to \$nil and this

was reflected by a \$51.7m charge to Impairment of Oil and Gas Properties, Ventures and Other Assets in the last quarter of 2008.

**The information set forth herein is preliminary in nature, has been prepared by management and has not been audited by the Company's auditors. Accordingly, such information does not necessarily reflect results of the Company's operations and financial condition that may be reportable after completion of an audit and, while management is reasonably confident that such information is materially accurate, such preliminary results may be subject to change and should not be regarded as a definitive report on results of operations and financial condition of the Company as at December 31, 2008 and for the fiscal year then ended.**

*This Notification of Late Filing may contain forward-looking statements within the meaning of the federal securities laws, including statements regarding the intent, belief or current expectations of the Company and its management which are made with words such as will, expect, believe, and similar words. These forward-looking statements involve a number of risks, uncertainties and other factors, which may cause the actual results to be materially different from those expressed or implied in the forward-looking statements. Important factors that could cause the actual results of operations or financial condition of the Company to differ from expectations include: (i) the Company's ability to continue as a going concern; (ii) the potential adverse impact of its default under its outstanding Notes on the Company's liquidity or results of operations; (iii) the continued ability of the Company to fund its business, including, without limitation, its ability to meet its obligations as they come due; (iv) the ability of the Company to retain key executives and employees; and (v) other risks and factors regarding the Company described in the Company's Annual Report on Form 10-K for the year ended December 31, 2007, as updated from time to time in the Company's Securities and Exchange Commission filings. The Company does not intend to review, revise, or update any particular forward-looking statements in light of future events.*
