-

Item 2.02. Results of Operations and Financial Condition

On February 1, 2010 Denbury Resources Inc. (Denbury) issued a press release announcing oil, natural gas and carbon dioxide (CQ) reserve information at year-end 2009, and preliminary estimates of its 2009 fourth quarter and full-year production and its 2009 capital expenditures. A copy of the press release is attached hereto as Exhibit 99.1.

As provided in General Instruction B.2 to Form 8-K, the information furnished in this Item 2.02 and in Exhibit 99.1 hereto shall not be deemed filed for purposes of Section 18 of the Securities and Exchange Act of 1934, as amended, nor shall it be deemed incorporated by reference in any filing with the Securities and Exchange Commission, except as shall be expressly provided by specific reference in such filing.

Item 8.01 Other Events

Year-End Proved Reserves and Analysis

Denbury s total proved oil and natural gas reserves as of December 31, 2009 were 207.5 million barrels of oil equivalent (MMBOE), consisting of 192.9 million barrels (MMBbbls) of crude oil, condensate and natural gas liquids and 88.0 billion cubic feet (Bcf) (14.7 MMBOE) of natural gas. The Company also announced that its proved CO reserves were 6.3 trillion cubic feet (Tcf) at year-end 2009. The independent reservoir engineering firm of DeGolyer and MacNaughton prepared Denbury s year-end reserve report, including its proved CQ reserve quantities. Denbury s year-end 2009 proved reserves are 93% oil, 62% are proved developed, and 65% of the year-end reserves are tertiary oil reserves.

In accordance with Securities and Exchange Commission requirements, Denbury s proved reserves at December 31, 2009 were computed using first-day-of-the-month 12-month average 2009 commodity prices of \$61.18 per Bbl of oil (based on NYMEX prices) and a Henry Hub cash price of \$3.87 per MMBtu of natural gas, with necessary adjustments applied to each field to arrive at the net price received by the Company. Denbury s net average prices contained in the reserve report, were approximately \$58.36 per Bbl of oil, \$38.56 per Bbl of natural gas liquids, and \$3.99 per Mcf of natural gas. Using these prices, the estimated discounted net present value of Denbury s proved reserves, before projected income taxes, using a 10% per annum discount rate (PV-10 Value) was \$3.1 billion at December 31, 2009, as compared to a PV-10 value of \$1.9 billion a year earlier prepared based upon unescalated year-end 2008 prices.

Proved reserves at December 31, 2008 were computed using unescalated NYMEX commodity prices of \$44.60 per Bbl of oil and a Henry Hub cash price of \$5.71 per MMBtu of natural gas. The Company estimates that the PV-10 Value at December 31, 2009 would change by approximately \$95 million for each dollar change in the oil price per Bbl and approximately \$4 million for each \$0.10 change in the natural gas price per Mcf, if the oil and natural gas prices were to change by relatively minor amounts. If oil and/or natural prices were to change significantly, it is likely that the NYMEX differentials and cost assumptions used in estimating the proved reserves would also need to be adjusted.

PV-10 Value is a non-GAAP measure and is different than the Standardized Measure of Discounted Future Net Cash Flows (Standardized Measure) in that PV-10 Value is a pre-tax number, while the Standardized Measure includes the effect of estimated future income taxes.

Estimates of 2009 Production

Based on preliminary data, the Company s estimated average daily production rate for its tertiary oil production during the fourth quarter of 2009 is approximately 26,300 Bbbls/d, an 8% sequential increase over its third quarter 2009 average tertiary production of 24,347 Bbbls/d. Estimated 2009 average tertiary oil production is approximately 24,343 Bbbls/d. The Company s preliminary fourth quarter total production is approximately 44,940 BOE/d, a 5% sequential increase over the third quarter of 2009 average of 42,659 BOE/d. This results in an average annual production rate for 2009 of approximately 48,280 BOE/d.

Item 9.01. Financial Statements and Exhibits

(d) Exhibits.

The following exhibits are furnished in accordance with the provisions of Item 601 of Regulation S-K:
