=====

Item 5. Other Events

As discussed in our 2002 Annual Report on Form 10-K, as of December 31, 2002, we maintained a 45 percent investment in Companias Asociadas Petroleras Sociedad Anonima (CAPSA), an Argentine company. CAPSA owns a 60 percent interest in CAPEX S.A., a publicly traded oil and gas company also in Argentina. During the first quarter of 2002, due to a deterioration of the Argentine economy, we recorded an impairment charge of approximately \$262 million representing the full value of our investment. In June of 2003, we completed the sale of the investment to our partner in

Edgar Filing: EL PASO CORP/DE - Form 8-K

the project for approximately \$24 million.

CAPSA and CAPEX use a fiscal year that ends on April 30. At the time we completed our 2002 Annual Report on Form 10-K, financial information related to our investment in CAPSA/CAPEX was not available for their fiscal year ended April 30, 2003. This financial information has now been received and is summarized below. This information is stated in U.S. Dollars, is unaudited, has been prepared as of and for the year ended April 30, 2003 and has been prepared using accounting principles that are generally accepted in Argentina. Primary differences between financial information prepared under that basis of accounting versus accounting principles generally accepted in the United States are the accounting for asset impairments, accounting for foreign currency exchange transactions, inflation accounting and accounting for income taxes, all of which could have a significant impact on the information presented below. In addition, the financial information presented below represents our proportionate share of CAPSA's assets, liabilities, equity and operating results based on our ownership interest in the investment.

Financial Position Data (In millions):

Current Assets.....	\$ 24
Non-current assets.....	263
