**Item 8.01. Other Events.**

On April 6, 2005, CancerVax Corporation issued a press release announcing plans to discontinue the Phase 3 clinical trial of Canvaxin in patients with Stage IV melanoma based upon the recommendation of the DSMB, which recently completed its planned, second, interim analysis of the data from this clinical trial. The DSMB found that the data are unlikely to provide significant evidence of a survival benefit for Canvaxin-treated patients with Stage IV melanoma versus those receiving placebo.

Based on a limited review of data from the Phase 3 clinical trial of Canvaxin in Stage III melanoma, the DSMB recommended that this clinical trial continue as planned. The press release is attached hereto as Exhibit 99.2 and is incorporated herein by reference.
