**AMENDMENT NO. 1 TO
FORM 10-Q QUARTERLY REPORT FOR
CABELTEL INTERNATIONAL CORPORATION
FOR THE FISCAL QUARTER ENDED MARCH 31, 2005**

The undersigned Registrant hereby amends the following items, exhibits, or other portions of its Quarterly Report on Form 10-Q for the fiscal quarter ended March 31, 2005, as set forth below and as reflected in the substituted pages attached hereto which replace the same numbered pages in the original filing.

As a preface to the identification below, the entirety of the Report has been amended to reflect an acquisition of two U.S. entities which are not consolidated into the Company but are maintained in a separate basis. This change was necessitated by certain comments by the Staff of the Securities and Exchange Commission (the SEC), which resulted in an appeal to the Office of the Chief Accountant of the SEC. On October 25, 2005, the Office of the Chief Accountant of the SEC provided its determination of the appeal with respect to certain accounting treatment. The appeal was the result of an initial determination and comment by the Staff of the SEC during May 2005, that, in this very unique set of circumstances and in the opinion of the Staff, reverse acquisition accounting treatment may not have been the proper treatment. Management has determined based upon discussions with the Office of the Chief Accountant during such appeal that while the overall acquisition and other contingent aspects of the transaction are a single transaction, the appropriate accounting treatment at this time is recordation of the issuance of the Preferred Stock together with a recordation of a contra asset in the same amount for the value of the two U.S. corporations and CableTEL AD. The result is that Management of the Company filed a Form 8-K Current Report for event noted October 25, 2005, under Item 4.02, which of necessity requires certain changes in the Annual Report on Form 10-K and the Quarterly Report on Form 10-Q to cover such treatment. This document includes items which are changed are as follows:

Page 4, Item 1 Financial Statements

Page 11, Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations

Page 14, Item 3 Quantitative and Qualitative Disclosures About Market Risk

The balance of the items have not been changed from the original filing and have, accordingly, not been updated to a more current date.

Notes To Consolidated Financial Statements
For the Unaudited Three Months Ended March 31, 2005 and 2004

Note A: Basis of Presentation

The accompanying unaudited consolidated financial statements include the accounts of CabelTel International Corporation and its majority-owned subsidiaries (collectively, the Company). All significant intercompany transactions and accounts have been eliminated.

The financial statements reflect all adjustments that are, in the opinion of management, necessary to fairly present such information. All such adjustments are of a normal recurring nature. Although the Company believes that the disclosures are adequate to make the information presented not misleading, certain information and footnote disclosures, including a description of significant accounting policies normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America, have been condensed or omitted pursuant to such rules and regulations.

These financial statements should be read in conjunction with the consolidated financial statements and accompanying notes included in the Company s Annual Report on Form 10-K, as amended, for the fiscal year ended December 31, 2004. Operating results for the three month period ended March 31, 2005 are not necessarily indicative of the results that may be expected for any subsequent quarter or the year ending December 31, 2005.

Note B: Notes Receivable

As a result of the sale of two properties in 2001 the Company holds tax-exempt notes in the amount of \$4,030,000 bearing interest at 9.5%. The notes mature on April 1, 2032, and August 1, 2031, respectively. The repayment of the notes is limited to the cash flow of the respective properties either from operations, refinance or sale. The Company has deferred gains of \$3,721,000 plus unpaid interest from these properties which will be recognized as cash is received.

The Company also sold a property in March 2005, and received a \$200,000 non-interest bearing note as partial payment. Repayment of the note is limited to the cash flow of the property from operations, refinancing or sale. The Company has deferred gains of \$200,000 which will be recognized as cash is received.

Note C: Long-Term Obligations

Long-term debt is comprised of the following (in thousands):

	March 31, 2005	December 31, 2004
Notes payable to financial institutions maturing through 2018; fixed and variable interest rates ranging from 5.75% to 11%, collateralized by property, fixtures, equipment and the assignment of rents	\$ 7,579	\$ 7,627
Notes payable to individuals and companies maturing through 2023; fixed and variable interest rates ranging from 10% to 18% collateralized by real property, personal property, fixtures, equipment and the assignment of rents	2,255	4,590
Notes payable to related parties, bearing interest at rates ranging from 15% to 18%	2,361	901
	12,195	13,118
Less: current maturities	3,526	5,945
	\$ 8,669	\$ 7,173

Note D Discontinued Operations

The Company owned an assisted living property in Greenville, South Carolina. In August 2002 the Company leased the property to an unrelated third party who has taken over the property's operation. The monthly lease payments received by the Company approximated the Company's cost for interest and real estate taxes. In May 2005 the Company sold the property to the lessee for the amount of the existing mortgage on the property which approximated the Company's carrying value for the property.

On January 31, 2004, the Company terminated a lease for an assisted living community in Georgia. The operations of that property have been reflected as a discontinued operation in 2005 and 2004.

In March 2005, the company sold an assisted living facility in North Carolina and recorded a loss of \$42,000. The operations of that property have been reflected as a discontinued operation in 2005 and 2004.

In May 2005 the Company sold an assisted living facility in South Carolina. The facility has been classified as an asset held for sale at March 31, 2005. The operations of that property have been reflected as a discontinued operation in 2005 and 2004.

Note E Segment Reporting**Business Operations**

The Company operates two separate distinct businesses:

The ownership and operation of real estate through one retirement community in King City, Oregon, with a capacity of 114 residents, leasing of a residential retirement property to a third party in Greenville, South Carolina and ownership and operation of an outlet mall in Gainesville, Texas with approximately 315,000 square feet of retail space available for lease.

The ownership of oil and gas leases in Gregg and Rusk Counties, Texas on which 48 producing wells were operating as of March 31, 2005.

The segment information and reconciliation to income (loss) from operations for the three months ended March 31, 2005, follows.

Three months ended March 31, 2005 (amounts in thousands)

	Corporate	Real Estate	Oil Operation	Consolidated

Item 2: Management's Discussion And Analysis Of Financial ConditionAnd Results Of Operations

Overview

Critical Accounting Policies and Estimates

The Company's discussion and analysis of its financial condition and results of operations are based upon the Company's Consolidated Financial Statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. Certain of the Company's accounting policies require the application of judgment in selecting the appropriate assumptions for calculating financial estimates. By their nature, these judgments are subject to an inherent degree of uncertainty. These judgments and estimates are based upon the Company's historical experience, current trends, and information available from other sources that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

The Company believes the following critical accounting policies are more significant to the judgments and estimates used in the preparation of its consolidated financial statements. Revisions in such estimates are recorded in the period in which the facts that give rise to the revisions become known.

The Company's allowance for doubtful accounts receivable and notes receivable is based on an analysis of the risk of loss on specific accounts. The analysis places particular emphasis on past due accounts. Management considers such information as the nature and age of the receivable, the payment history of the tenant, customer or other debtor and the financial condition of the tenant or other debtor. Management's estimate of the required allowance, which is reviewed on a quarterly basis, is subject to revision as these factors change.

Deferred Tax Assets

Significant management judgment is required in determining the provision for income taxes, deferred tax assets and liabilities and any valuation allowance recorded against net deferred tax assets. The future recoverability of the Company's net deferred tax assets is dependent upon the generation of future taxable income prior to the expiration of the loss carry forwards. The company believes that it will generate future taxable income to fully utilize the net deferred tax assets.

Liquidity and Capital Resources

At March 31, 2005, the Company had current assets of \$2,600,000 and current liabilities of \$5,604,000. Included in current liabilities is a \$1,147,000 mortgage loan for an assisted living community located in South Carolina. This community was sold in May 2005 and the cash proceeds were sufficient to repay the mortgage. Also included in current liabilities is an obligation of principal and accrued interest of \$2,768,000 the terms of which are similar to that

of preferred stock, whereby the Company can only pay this obligation from available earned surplus.

Future acquisitions by the Company are dependent upon obtaining capital and financing through various means, including financing obtained from loans, debt or equity offerings and, to the extent available, cash generated from operations. There can be no assurance that the Company will be able to obtain adequate capital to finance its projected growth.

Cash and cash equivalents at March 31, 2005 were \$227,000, compared with \$762,000 at December 31, 2004.

Net cash used by operating activities was \$482,000 for the three months ended March 31, 2005.

Net cash provided in investing activities was \$1,978,000 for the three months ended March 31, 2005. In March 2005, the Company sold an assisted living community and received approximately \$1,910,000. The proceeds were used principally to pay off the existing mortgage.

Net cash flow used in financing activities was \$2,031,000 in the three months ended March 31, 2005. In January 2005, the Company paid a \$631,000 note due to the wife of the former President of the Company. In March 2005, the Company used the proceeds from the sale of an assisted living facility to repay the mortgage of \$1,700,000.

Results of Operations

The Company reported a net loss of \$137,000 for the three months ended March 31, 2005, as compared to a net loss of \$175,000 for the corresponding period in 2004.

Revenue from real estate operations were \$1,100,000 for the three months ended March 31, 2005, as compared to \$1,224,000 for the three months ended March 31, 2004. The decrease is due to the revenues received at the Company's retail mall. The lower revenue reflects certain reductions in lease rates from certain tenants.

Revenue from oil and gas operations was \$414,000 for the three months ended March 31, 2005 as compared to \$315,000 for the three months end March 31, 2004. The increase in revenue was due primarily to the increased price of oil.

Expenses for real estate operations was \$606,000 for the three months ended March 31, 2005, as compared to \$632,000 for the three months ended March 31, 2004. The decrease was due to certain cost reductions at the Gainesville outlet mall.

Expenses for oil and gas operations was \$267,000 for the three months ended March 31, 2005, as compared to \$246,000 for the three months ended March 31, 2004. The increase was due to certain well repairs that were incurred in 2005.

Lease expense was \$231,000 for the for the three months ended March 31, 2005, as compared to \$224,000 for the three months ended March 31, 2004. The slight increase was due to additional lease expense at the Company's retirement facility.

Depreciation, depletion and amortization was \$109,000 for the three months ended March 31, 2005, as compared to \$87,000 for the three months ended March 31, 2004. The increase was due to depreciation for additional assets at the Gainesville, Texas, outlet mall.

General and administrative expenses were \$262,000 for the three months ended March 31, 2005, as compared to \$277,000 for the three months ended March 31, 2004. The slight decrease was due to reduced professional fees.

Interest income was \$40,000 for the three months ended March 31, 2005, as compared to \$74,000 for the three months ended March 31, 2004. The decrease was due principally to a reduction in notes receivable in 2005.

Interest expense was \$135,000 for the three months ended March 31, 2005, as compared to \$282,000 for the three months ended March 31, 2004. The decrease was due principally to the refinancing of the Gainesville outlet mall.

Loss on the sale of assets was \$118,000 for the three months ended March 31, 2005. The Company sold certain of its non-producing oil wells where it was determined by the Company that the operation of those wells was unlikely and incurred a loss of \$76,000. The Company also incurred certain legal and closing costs in its sale of the assisted living property in North Carolina.

Inflation

The Company's principal sources of revenue are from rents in a retirement community, an outlet shopping mall and its oil and gas operations. The operation of the real estate entities is affected by rental rates that are highly dependent upon market conditions and the competitive environment in the areas where the properties are located. Worldwide consumption patterns seem to preclude competition in the oil business in the foreseeable future. Compensation to employees and maintenance are the principal cost elements relative to the operations of the entities. Although the Company has not historically experienced any adverse effects of inflation on salaries or other operating expenses, there can be no assurance that such trends will continue or that, should inflationary pressures arise, the Company will be able to offset such costs by increasing rental rates in its real estate properties. The price of oil is dictated by market conditions and the Company could not arbitrarily increase the price of its oil.

Environmental Matters

The Company has conducted environmental assessments on most of its existing owned or leased properties. These assessments have not revealed any environmental liability that the Company believes would have a material adverse effect on the Company's business, assets or results of operations. The Company is not aware of any such environmental liability. The Company believes that all of its properties are in compliance in all material respects with all federal, state and local laws, ordinances and regulations regarding hazardous or toxic substances or petroleum products. The Company has not been notified by any governmental authority and is not otherwise aware of any material non-compliance, liability or claim relating to hazardous or toxic substances or petroleum products in connection with any of its communities.

Item 3. Quantitative and Qualitative Disclosures About Market Risk**Interest Rate Risk**

Nearly all of the Company's debt is financed at fixed rates of interest. Therefore, the Company has minimal risk from exposure to changes in interest rates.

Item 4. Controls and Procedures

As required by Rule 13(a)-15(b), the Company's management, including the principal executive officer, chief financial officer and principal accounting officer, conducted an evaluation as of the end of the period covered by this report, of the effectiveness of the Company's disclosure controls and procedures as defined in Exchange Act Rule 13(a)-15(e). Based on that evaluation, the chief executive officer and the chief financial officer concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report. As required by Rule 13(a)-15(d), the Company's management, including the chief executive officer, chief financial officer and principal accounting officer, also conducted an evaluation of the Company's internal controls over financial reporting to determine whether any changes occurred in the first fiscal quarter that materially affected, or are reasonably likely to materially effect, the Company's internal control over financial reporting. Based on that evaluation, there has been no such change during the first fiscal quarter.

It should be noted that any system of controls, however well designed and operated, can only provide reasonable and not absolute assurance that the objectives of the system will be met. In addition, the design of any control system is based in part on certain assumptions about the likelihood of future events.

Part II: Other Information**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

During the period of time covered by this report CabelTel International Corporation did not repurchase any of its equity securities. The following table sets forth a summary for the quarter indicating no repurchases were made and that, at the end of the period covered by this report, no specified number of shares may be purchased under any program in place.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Number of Shares that May Yet be Purchased Under the Program^(a)
Balance as of March 31, 2005				
April 1-30, 2005		\$		
May 1-31, 2005				
June 1-30, 2005				
Total		\$		

- (a) As a courtesy to stockholders of less than 100 shares and to relieve such stockholders of having to pay a broker's commission, the Company, although not obligated to do so, has periodically repurchased its common stock at the then most recent closing price of the

Company's common stock on the last trading day before the stock certificate(s) is actually received by the Company from the stockholder. The number of such shares purchased in any period of time has been minimal; no purchases were made during the quarter ended June 30, 2005.

Item 6. Exhibits

Exhibit 31.1 Certification of Chief Executive Officer Pursuant to Rule 13(a)-14(a) or Rule 15d-14(a)

Exhibit 31.2 Certification of Chief Financial Officer Pursuant to Rule 13(a)-14(a) or Rule 15d-14(a)

Exhibit 32.1 Certification of Chief Executive Officer and Chief Financial Officer Pursuant to Rule 13(a)-14(b), 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

Signatures

Pursuant to the requirements of the Securities and Exchange Act of 1934, registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
