You should read this prospectus supplement in conjunction with the prospectus, and this prospectus supplement is qualified by reference to the prospectus, except to the extent that the information in this prospectus supplement supercedes the information contained in the prospectus.

The table of selling securityholders contained on pages 53 to 55 of the prospectus is hereby amended to add the following additional selling securityholders.

(1) Assumes conversion of all of the securityholders' notes at a conversion price of \$19.40 per share of common stock. The conversion price is subject to adjustment as described under "Description of Notes-Conversion Rights" and, as a result, the amount of common stock issuable upon conversion of the notes may increase or decrease in the future.

- (2) Calculated based on Rule 13d-3(d)(i) of the Exchange Act using shares of common stock outstanding as of July 5, 2005. In calculating this amount, we treated as outstanding the number of shares of common stock issuable upon conversion of all of that particular securityholder's notes. We did not assume, however, the conversion of any other securityholder's notes.

Investing in the notes and our common stock involves risks, which are described under "Risk Factors" beginning on page 12 of the prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.
