^(a) Because the selling security holder may sell pursuant to the prospectus all or a portion of the offered notes,

and common stock issuable upon conversion of the notes, we cannot know or estimate number or percentage of notes and common stock that the selling security holder will hold upon the termination of any particular offering. Please refer to the Plan of Distribution beginning on page 54 of the prospectus. The information presented assumes that the selling security holder will fully convert the notes for cash and shares of our common stock, and that the

selling security holder will sell all shares of our common stock that it receives pursuant to such conversion.

- (b) Includes shares of our common stock issuable upon conversion of the notes.
- (c) The number of shares of our common stock issuable upon conversion of the notes is calculated to be the maximum number of shares issuable upon conversion assuming (i) the value of the notes approach an infinite amount at the time of conversion, with the \$110,000,000 principal amount paid in cash and the remaining value paid in shares of our common stock, and (ii) the conversion of the full amount of notes held by the selling security holders at the initial conversion price of \$62.41, which corresponds to the initial conversion rate of 16.0229 shares per \$1,000 principal amount of the notes. Accordingly, the number of shares of

our common stock to be offered using this prospectus may be less than the amount shown.

Fractional shares will not be issued upon conversion of the notes. Instead, we will pay cash in lieu of fractional shares, if any. Due to the effects of rounding, the numbers shown in this column do not equal exactly 16.0229 shares per \$1,000 principal amount of the notes.

- (d) This selling security holder has identified itself as a registered broker-dealer and, accordingly, it is deemed to be, under the interpretations of the SEC, an underwriter within the meaning of the Securities Act.
- (e) In October 2006, the selling security holder acted as sole book-running manager, sole structuring agent and as an initial purchaser of the securities offered by this prospectus supplement and the prospectus in a private placement. The selling security holder received customary fees and commissions for

these transactions.
