THE PROPOSALS

PROPOSAL 1 Election of Directors

Ten directors will be elected at the Annual Meeting to serve until the annual meeting of stockholders in 2009. Directors are elected by a plurality, so the ten persons nominated for director and receiving the most votes will be elected. Pursuant to AutoZone's Corporate Governance Principles, however, any nominee for director who receives a greater number of votes withheld from his or her election than votes for such election is required to tender his or her resignation for consideration by the Nominating and Corporate Governance Committee of the Board. The Nominating and Corporate Governance Committee will recommend to the Board the action to be taken with respect to such resignation.

Abstentions and broker non-votes have no effect on the election of directors. (Broker non-votes are shares held by banks or brokers on behalf of their customers that are represented at the Meeting but are not voted.)

The Board of Directors recommends that the stockholders vote FOR each of these nominees. These nominees have consented to serve if elected. Should any nominee be unavailable to serve, your proxy will be voted for the substitute nominee recommended by the Board of Directors, or the Board of Directors may reduce the number of directors on the Board.

Independence

How many independent directors does AutoZone have?

Our Board of Directors has determined that ten of our current twelve directors are independent: William C. Crowley, Charles M. Elson, Sue E. Gove, Earl G. Graves, Jr., Robert R. Grusky, N. Gerry House, W. Andrew McKenna, George R. Mrkonic, Jr., Luis P. Nieto, Jr., and Theodore W. Ullyot. All of these directors meet the independence standards of our Corporate Governance Principles and the New York Stock Exchange listing standards.

How does AutoZone determine whether a director is independent?

In accordance with AutoZone's Corporate Governance Principles, a director is considered independent if the director:

has not been employed by AutoZone within the last five years;

has not been employed by AutoZone's independent auditor in the last five years;

is not, and is not affiliated with a company that is, an adviser, or consultant to AutoZone or a member of AutoZone's senior management;

is not affiliated with a significant customer or supplier of AutoZone;

has no personal services contract with AutoZone or with any member of AutoZone's senior management;

is not affiliated with a not-for-profit entity that receives significant contributions from AutoZone;

within the last three years, has not had any business relationship with AutoZone for which AutoZone has been or will be required to make disclosure under Rule 404(a) or (b) of Regulation S-K of the Securities and Exchange Commission as currently in effect;

receives no compensation from AutoZone other than compensation as a director;

is not employed by a public company at which an executive officer of AutoZone serves as a director;

has not had any of the relationships described above with any affiliate of AutoZone; and

is not a member of the immediate family of any person with any relationships described above.

In determining whether any business or charity affiliated with one of our directors did a significant amount of business with AutoZone, our Board has established that any payments from either party to the other exceeding 1% of either party's revenues would disqualify a director from being independent.

In determining the independence of our directors, the Board considers relationships involving directors and their immediate family members that are relevant under applicable laws and regulations, the listing standards of the New York Stock Exchange, and the standards contained in our Corporate Governance Principles (listed above). The Board relies on information from Company records and questionnaires completed annually by each director.

As part of its most recent independence determinations, the Board noted that AutoZone does not have, and did not have during fiscal 2008, significant commercial relationships with companies at which Board members served as officers or directors, or in which Board members or their immediate family members held an aggregate of 10% or more direct or indirect interest. The Board considered the fact that Mr. Crowley is a director and officer of Sears Holdings Corporation and is also Chief Operating Officer of ESL Investments, Inc., which beneficially owns 40.3% of AutoZone's outstanding stock. ESL Investments, Inc., with its affiliates, is a substantial stockholder of Sears Holdings Corporation. During fiscal 2008, Sears Holdings

Corporation did business with AutoZone in arm's length transactions which were not, individually or cumulatively, material to either AutoZone or Sears Holding Corporation. The Board also reviewed donations made by the Company to not-for-profit organizations with which Board members or their immediate family members were affiliated by membership or service or as directors or trustees.

Based on its review of the above matters, the Board determined that none of Messrs. Crowley, Elson, Graves, Grusky, McKenna, Mrkonic, Nieto or Ulliot or Mmes. Gove and House has a material relationship with the Company and that all of them are independent within the meaning of the AutoZone Corporate Governance Principles and applicable law and listing standards.

Corporate Governance Documents

Our Board of Directors has adopted Corporate Governance Principles; charters for its Audit, Compensation, and Nominating & Corporate Governance Committees; a Code of Business Conduct & Ethics for directors, officers and employees of AutoZone; and a Code of Ethical Conduct for Financial Executives. Each of these documents is available on our corporate website at www.autozoneinc.com and is also available, free of charge, in print to any stockholder who requests it.

Did any of AutoZone's directors attend fewer than 75% of the meetings of the Board and their assigned committees?

All our directors attended at least 75% of the meetings of the Board of Directors and their assigned committees during the fiscal year. (Messrs. Crowley and Grusky were appointed to the Board in August 2008, after the final Board and committee meetings of the fiscal year had been held and Mr. Nieto was appointed after the completion of the fiscal year.)

The Compensation Committee has the authority, based on its charter and the AutoZone Corporate Governance Principles, to:

review and approve AutoZone's compensation objectives;

review and approve the compensation programs, plans and awards for executive officers, including recommending equity-based plans for stockholder approval;

act as administrator as may be required by AutoZone's short- and long-term incentive plans and other stock or stock-based plans; and

review the compensation of AutoZone's non-employee directors from time to time and recommend to the full Board any changes that the Committee deems necessary.

The Committee may appoint subcommittees from time to time with such responsibilities as it may deem appropriate; however, the committee may not delegate its authority to any other persons.

AutoZone's processes and procedures for the consideration and determination of executive compensation, including the role of the Compensation Committee and compensation consultants, are described in the Compensation Discussion and Analysis on page 18.

Who are the members of the Compensation Committee?

The Compensation Committee consists of Dr. House, Mr. McKenna, Mr. Mrkonic and Mr. Ulliyot (Chairman), all of whom are independent directors under the standards of AutoZone's Corporate Governance Principals and the listing standards of the New York Stock Exchange.

How many times did the Compensation Committee meet during the last fiscal year?

During the 2008 fiscal year, the Compensation Committee held three meetings.

Where can I find the charter of the Compensation Committee?

The Committee's charter is available on our corporate website at www.autozoneinc.com and is also available, free of charge, in print to any stockholder who requests it.

Nominating and Corporate Governance Committee

What is the function of the Nominating and Corporate Governance Committee?

The Nominating and Corporate Governance Committee ensures that:

qualified candidates are presented to the Board of Directors for election as directors;

Who are the members of the Nominating and Corporate Governance Committee?

Where can I find the charter of the Nominating and Corporate Governance Committee?

The Committee's charter is available on our corporate website at www.autozoneinc.com and is also available, free of charge, in print to any stockholder who requests it.

Director Nomination Process

What is the Nominating and Corporate Governance Committee's policy regarding consideration of director candidates recommended by stockholders? How do stockholders submit such recommendations?

The Nominating and Corporate Governance Committee's policy is to consider director candidate recommendations from stockholders if they are submitted in writing to AutoZone's Secretary in accordance with the procedure set forth in Article III, Section 1 of AutoZone's Fourth Amended and Restated Bylaws (Bylaws), including biographical and business experience information regarding the nominee and other information required by said Article III, Section 1. Copies of the Bylaws will be provided upon written request to AutoZone's Secretary and are also available on AutoZone's corporate website at www.autozoneinc.com.

What qualifications must a nominee have in order to be recommended by the Nominating and Corporate Governance Committee for a position on the Board?

The Board believes each individual director should possess certain personal characteristics, and that the Board as a whole should possess certain core competencies. Such personal characteristics are integrity and accountability, informed judgment, financial literacy, mature confidence, high performance standards, and passion. Core competencies of the Board as a whole are accounting and finance, business judgment, management expertise, crisis response, industry knowledge, international markets, strategy and vision. These characteristics and competencies are set forth in more detail in AutoZone's Corporate Governance Principles, which are available on AutoZone's corporate website at www.autozoneinc.com.

How does the Nominating and Corporate Governance Committee identify and evaluate nominees for director?

Prior to each annual meeting of stockholders at which directors are to be elected, the Nominating and Corporate Governance Committee considers incumbent directors and other qualified individuals as potential director nominees. In evaluating a potential nominee, the Nominating and Corporate Governance Committee considers the personal characteristics described above, and also reviews the composition of the full Board to determine the areas of expertise and core competencies needed to enhance the function of the Board. The Committee may also consider other factors such as the size of the Board, whether a candidate is independent, how many other public company directorships a candidate holds, and the listing standards requirements of the New York Stock Exchange.

The Nominating and Corporate Governance Committee uses a variety of methods for identifying potential nominees for director. Candidates may come to the attention of the Committee through current Board members, stockholders or other persons. The Nominating and Corporate Governance Committee may retain a search firm or other consulting firm from time to time to identify potential nominees. Nominees recommended by stockholders in accordance with the procedure described above, i.e., submitted in writing to AutoZone's Secretary, accompanied by the biographical and business experience information regarding the nominee and the other information required by Article III, Section 1 of the Bylaws, will receive the same consideration as the Committee's other potential nominees.

On June 25, 2008, the Company entered into an Agreement with ESL Investments, Inc. and its affiliates (ESL) in which the parties agreed, among other things, that the Company would take appropriate actions, once candidates were identified, to add three new members to the Board of Directors as promptly as practicable, and not later than the Annual Meeting. One candidate, reasonably acceptable to ESL, was to be identified by The Hollins Group, Inc., an independent search agency retained by the Company, and two additional directors were to be appointed from candidates identified by ESL. All three candidates had to be reasonably acceptable to both ESL and a majority of the

members of the Nominating and Corporate Governance Committee of the Board and be independent under the Company's Corporate Governance Principles and the rules of the New York Stock Exchange.

In accordance with that Agreement, Mr. Crowley and Mr. Grusky were identified by ESL and Mr. Nieto was identified by The Hollins Group, Inc. After review and approval by the Nominating and Corporate Governance Committee, Messrs. Crowley, Grusky and Nieto were appointed to the Board.

Procedure for Communication with the Board of Directors

with value equivalent to the value of shares of AutoZone common stock as of the grant date). They may elect to receive up to 100% of the fees in stock and/or to defer all or part of the fees in Stock Units, as defined herein. This column represents the 50% of the fees that were paid in cash or which the director elected to receive in stock or Stock Units during fiscal 2008. See Note B, Share-Based Compensation, to our consolidated financial statements in our Annual Report on Form 10-K for the year ended August 30, 2008 (2008 Annual Report) for a discussion of our accounting for share-based awards and the assumptions used. The other 50% of the

fees, which were required to be paid in stock or Stock Units, are included in the amounts in the Stock Awards column.

- (3) The Stock Awards column represents the dollar amounts recognized for financial statement reporting purposes in accordance with SFAS 123(R) for awards of common stock under the Director Compensation Plan during fiscal 2008, and awards of common stock and Stock Units under the Director Compensation Plan and its predecessor, the 1998 Director Compensation Plan, prior to fiscal 2008. See Note B, Share-Based Compensation, to our consolidated financial statements in our 2008 Annual Report for a discussion of our accounting for share-based awards and the assumptions used. The aggregate number of outstanding Stock Units held by each director and the grant date fair value of each stock award made during fiscal 2008 are shown in the following footnote 4. See Security Ownership of Management on page 16 for more information about our directors' stock ownership.

It includes amounts from awards granted in and prior to fiscal 2008. Narrative Accompanying Director Compensation Table

Directors may select at the beginning of each calendar year between two pay alternatives. The first alternative includes an annual retainer fee of \$40,000 and a stock option grant. The second alternative includes an annual retainer of \$40,000, a supplemental retainer fee of \$35,000, and a smaller stock option grant. The second alternative was added in 2008 to make the director compensation package more attractive to potential director candidates (and existing directors) who, in a given year, might prefer a higher percentage of fixed compensation. Directors electing either alternative receive a significant portion of their compensation in AutoZone common stock, since at least one-half of the base retainer and, if applicable, one-half of the supplemental retainer must be paid in AutoZone common stock or stock units.

Annual Retainer Fees. Non-employee directors must choose each year between the two compensation alternatives described above. A director electing the first alternative will receive an annual base retainer fee of \$40,000 (the Base Retainer). A director electing the second alternative will receive, in addition to the Base Retainer, an annual supplemental retainer fee in the amount of \$35,000 (the Supplemental Retainer), but will receive a smaller annual stock option award under the Director Stock Option Plan. There are no meeting fees.

The chairman of the Audit Committee receives an additional fee of \$10,000 annually, and the chairmen of the Compensation Committee and the Nominating and Corporate Governance Committee each receive an additional fee of \$5,000 per year.

Director Compensation Plan. Under the AutoZone, Inc. 2003 Director Compensation Plan (the Director Compensation Plan), a non-employee director may receive no more than one-half of the annual fees in cash the remainder must be taken in AutoZone common stock. The director may elect to receive up to 100% of the fees in stock or to defer all or part of the fees in units with value equivalent to the value of shares of AutoZone Common Stock (Stock Units). Unless deferred, the annual fees are payable in advance in equal quarterly installments on September 1, December 1, March 1, and June 1 of each year, at which time each director receives cash and/or shares of common stock in the amount of one-fourth of the annual fees. The number of shares issued is determined by dividing the amount of the fee payable in shares by the fair market value of the shares as of the grant date.

If a director defers any portion of the annual fees in the form of Stock Units, then on September 1, December 1, March 1, and June 1 of each year, AutoZone will credit a unit account maintained for the director with a number of Stock Units determined by dividing the amount of the fees by the fair market value of the shares as of the grant date. Upon the director's termination of service, he or she will receive the number of shares of common stock with which his or her unit account is credited, either in a lump sum or installments, as elected by the director under the Director Compensation Plan.

Director Stock Option Plan. Under the AutoZone, Inc. 2003 Director Stock Option Plan (the Director Stock Option Plan), directors who elect to be paid only the Base Retainer will receive, on January 1 during their first two years of service as a director, an option to purchase 3,000 shares of AutoZone common stock. After the first two years, such directors will receive, on January 1 of each year, an option to purchase 1,500 shares of common stock, and each such director who owns common stock or Stock Units worth at least five times the Base Retainer will receive an additional option to purchase 1,500 shares. Directors electing to be paid the Supplemental Retainer will receive, on January 1

during their first two years of service as a director, an option to purchase 2,000 shares of AutoZone common stock. After the first two years, such directors will receive, on January 1 of each year, an option to purchase 500 shares of common stock, and each such director who owns common stock or Stock Units worth at least five times the Base Retainer will receive an additional option to purchase 1,500 shares. In addition, each new director receives an option to purchase 3,000 shares upon election to the Board, plus a portion of the base annual option grant corresponding to the director's compensation election, prorated for the portion of the year served in office.

Stock option grants are made at the fair market value of the common stock as of the grant date, defined in the plan as the average of the highest and lowest prices quoted for the common stock on the New York Stock Exchange on the business day immediately prior to the grant date. They become fully vested and exercisable on the third anniversary of the date of grant, or the date on which the director ceases to be a director of AutoZone, whichever occurs first.

Stock options expire on the first to occur of (a) 10 years after the date of grant, (b) 90 days after the option holder's death, (c) 5 years after the date the option holder ceases to be an AutoZone director if he or she has become ineligible to be reelected as a result of reaching the term limits or mandatory retirement age specified in AutoZone's Corporate Governance Principles, (d) 30 days after the date that the option holder ceases to be an AutoZone director for reasons other than those listed in the foregoing clause (c), or (e) upon the occurrence of certain corporate transactions affecting AutoZone.

Predecessor Plans

The AutoZone, Inc. Second Amended and Restated Director Compensation Plan and the AutoZone, Inc. Fourth Amended and Restated 1998 Director Stock Option Plan were terminated in December 2002 and were replaced by the Director Compensation Plan and the Director Stock Option Plan. However, grants made under those plans continue in effect under the terms of the grant made and are included in the aggregate awards outstanding shown above.

Stock Ownership Requirement

The Board has established a stock ownership requirement for non-employee directors. Within three years of joining the Board, each director must personally invest at least \$150,000 in AutoZone stock. Shares and Stock Units issued under the Director Compensation Plan count toward this requirement.

PROPOSAL 2 Ratification of Independent Registered Public Accounting Firm

Ernst & Young LLP, our independent auditor for the past twenty-one fiscal years, has been selected by the Audit Committee to be AutoZone's independent registered public accounting firm for the 2009 fiscal year. Representatives of Ernst & Young LLP will be present at the Annual Meeting to make a statement if they so desire and to answer any appropriate questions.

The Audit Committee recommends that you vote FOR ratification of Ernst & Young LLP as AutoZone's independent registered public accounting firm. For ratification, the firm must receive more votes in favor of ratification than votes cast against. Abstentions and broker non-votes will not be counted as voting either for or against the firm. However, the Audit Committee is not bound by a vote either for or against the firm. The Audit Committee will consider a vote against the firm by the stockholders in selecting our independent registered public accounting firm in the future.

During the past two fiscal years, the aggregate fees for professional services rendered by Ernst & Young LLP were as follows:

	2008	2007
Audit Fees	\$ 1,622,758	\$ 1,365,436
Audit-Related Fees	65,339(1)	
Tax Fees	145,707(2)	68,388(3)

- (1) Audit-Related Fees for 2008 were for assistance with due diligence in exploring potential acquisitions.
- (2) Tax Fees for 2008 were for advice relating to the Company's debt offering and assistance with issues relating to international and domestic federal, state and local transfer pricing.
- (3) Tax Fees for 2007 were for assistance with issues relating to international and domestic federal, state and local transfer pricing.

The Audit Committee pre-approves all services performed by the independent registered public accounting firm under the terms contained in the Audit Committee charter, a copy of which can be obtained at our website at www.autozoneinc.com. The Audit Committee pre-approved 100% of the services provided by Ernst & Young LLP during the 2008 and 2007 fiscal years. The Audit Committee considers the services listed above to be compatible with maintaining Ernst & Young LLP's independence.

Audit Committee Report

The Audit Committee of AutoZone, Inc., has reviewed and discussed AutoZone's audited financial statements for the year ended August 30, 2008, with AutoZone's management. In addition, we have discussed with Ernst & Young LLP, AutoZone's independent registered public accounting firm, the matters required to be discussed by Statement on Auditing Standards No. 61, *Communications with Audit Committees*, as amended and as adopted by the Public Company Accounting Oversight Board (PCAOB) in Rule 3200T, the Sarbanes-Oxley Act of 2002, and the charter of the Committee.

The Committee also has received the written disclosures and the letter from Ernst & Young LLP required by Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees*, as adopted by the PCAOB in Rule 3600T, and we have discussed with Ernst & Young LLP their independence from the Company and its management. The Committee has discussed with AutoZone's management and the auditing firm such other matters and received such assurances from them as we deemed appropriate.

As a result of our review and discussions, we have recommended to the Board of Directors the inclusion of AutoZone's audited financial statements in the annual report for the fiscal year ended August 30, 2008, on Form 10-K for filing with the Securities and Exchange Commission.

While the Audit Committee has the responsibilities and powers set forth in its charter, the Audit Committee does not have the duty to plan or conduct audits or to determine that AutoZone's financial statements are complete, accurate, or in accordance with generally accepted accounting principles; AutoZone's management and the independent auditor have this responsibility. Nor does the Audit Committee have the duty to assure compliance with laws and regulations and the policies of the Board of Directors.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Introduction

This Compensation Discussion and Analysis provides a principles-based overview of AutoZone's executive compensation program. It discusses our rationale for the types and amounts of compensation that our executive officers receive and how compensation decisions affecting these officers are made. It also discusses AutoZone's total rewards philosophy, the key principles governing our compensation program, and the objectives we seek to achieve with each element of our compensation program.

What are the Company's key compensation principles?

Pay for performance. The primary emphasis of AutoZone's compensation program is linking executive pay to business results and stockholder value. Base salary levels are intended to be competitive, but the more potentially valuable components of executive compensation are annual cash incentives, which depend on the achievement of pre-determined business goals, and to a greater extent, long-term compensation, which is based on the value of our stock.

Attract and retain talented AutoZoners. The overall level and balance of compensation elements in our compensation program are designed to ensure that AutoZone can retain key executives and, when necessary, attract qualified new executives to the organization. We believe that a financially strong company which delivers solid stockholder results is the most important component of attracting and retaining executive talent.

What are the Company's overall executive compensation objectives?

Drive high performance. AutoZone sets challenging financial and operating goals, and a significant amount of an executive's annual cash compensation is tied to these objectives and therefore at risk payment is earned only if performance warrants it.

Drive long-term stockholder results. AutoZone's compensation program is intended to support long-term focus on stockholder results, so it emphasizes long-term rewards. At target levels, the majority of an executive officer's total compensation package each year is the potential value of his or her stock options.

The table below illustrates how AutoZone's compensation program weights the at-risk components of its named executive officers' 2008 total compensation (here defined as actual base salary + annual cash incentive target + Black-Scholes value of fiscal 2008 stock option grant):

Position	Base Salary	Annual Incentive	Stock Options
Chairman, President & CEO	20%	20%	60%
All Other Named Executive Officers (NEOs)	23%	14%	63%

Who participates in AutoZone's executive compensation programs?

The Chief Executive Officer and the other named executive officers, as well as the other senior executives comprising AutoZone's Executive Committee, participate in the compensation program outlined in this Compensation Discussion and Analysis. The Executive Committee consists of the Chief Executive Officer and officers with the title of senior vice president or executive vice president. However, many elements of the compensation program also apply to other levels of AutoZone management. The intent is to ensure that management is motivated to pursue, and is rewarded for achieving, the same financial, operating and stockholder objectives.

What are the key elements of the company's overall executive compensation program?

The table below summarizes the key elements of AutoZone's executive compensation program and the objectives they are designed to achieve. More details on these elements follow throughout the Compensation Discussion and Analysis and this Proxy Statement, as appropriate.

Health and other benefits

Executives are eligible for a variety of benefits, including:
 Medical, dental and vision plans;
and
 Life and disability insurance plans.

Provide competitive benefits. Minimize perquisites while ensuring a competitive overall rewards package.

Annual cash compensation. Annual cash compensation consists of base salary and annual cash incentives (bonus).

Base Salary. Salaries are determined within the context of a targeted total cash compensation level for each position. Base salary is a fixed portion of the targeted annual cash compensation, with the specific portion varying based on differences in the size, scope or complexity of the jobs as well as the tenure and individual performance level of incumbents in the positions. Points are assigned to positions using a job evaluation system developed by Hay Group, and AutoZone maintains salary ranges based on the job evaluations originally constructed with Hay Group's help. These salary ranges are usually updated annually based on broad-based survey data; in addition to Hay Group survey data, AutoZone uses surveys published by Mercer and Hewitt Associates, among others, for this purpose, as discussed below.

The survey data used to periodically adjust salary ranges is broad-based, including data submitted by hundreds of companies. Examples of the types of information contained in salary surveys include summary statistics (e.g., mean, median, 25th percentile, etc.) related to:

base salaries

variable compensation

total annual cash compensation

long-term incentive compensation

total direct compensation

The salary surveys cover both the retail industry and compensation data on a broader, more general public company universe. Multiple salary surveys are used, so that ultimately the data represent hundreds of companies and positions and thousands of incumbents, or people holding those positions. The surveys generally list the participating companies, and for each position matched, the number of companies and incumbents associated with the position. Subscribers cannot determine which information comes from which company.

The salary ranges which apply to the named executive officers, including the Principal Executive Officer, are part of the structure applicable to thousands of AutoZone's employees. AutoZone positions are each assigned to a salary grade. This is generally accomplished at the creation of a position, using the Hay job evaluation method, and jobs tend to remain in the same grade as long as there are no significant job content changes. Each grade in the current salary structure has a salary range associated with it. This range has a midpoint, to which we compare summary market salary data (generally median pay level) of the types discussed above.

Over time, as the median pay levels in the competitive market change, as evidenced by the salary survey data, AutoZone will make appropriate adjustments to salary range midpoints so that on average, these midpoints are positioned at roughly 95% of the market median value as revealed by the surveys. This positioning relative to the market allows for competitive base salary levels, while generally leaving actual average base pay slightly below the market level. This fits our stated philosophy of delivering competitive total rewards at or above the market median through performance-based variable compensation.

In making decisions related to compensation of the named executive officers, the Compensation Committee uses the survey data and salary ranges as context in reviewing compensation levels and approving pay actions. Other elements that the Committee considers are individual performance, Company performance, individual tenure, position tenure, and succession planning. The Hay Group, Mercer and Hewitt Associates surveys are utilized primarily to provide

comparative data.

Annual Cash Incentive. Executive officers and certain other employees are eligible to receive annual cash incentives (bonuses) each fiscal year based on the Company's attainment of certain Company performance objectives set by the Compensation Committee at the beginning of the fiscal year. The annual cash incentive target for each position, expressed as a percentage of base salary, is based on both salary range and level within the organization, and therefore does not change annually. As a general rule, as an executive's level

of management responsibility increases, the portion of his or her total compensation dependent on Company performance increases.

The threshold and target percentage amounts for the named executive officers for fiscal 2008 are shown in the table below.

Principal Position	Percentage of Base Salary	
	Threshold	Target
Chairman, President & CEO	50%	100%
All Other NEOs	30%	60%

Annual cash incentives for executive officers are paid pursuant to the AutoZone, Inc. 2005 Executive Incentive Compensation Plan (EICP), our performance-based short-term incentive plan. Pursuant to the Plan, the Compensation Committee establishes incentive objectives at the beginning of each fiscal year. For more information about the EICP, see Discussion of Plan-Based Awards Table on page 31.

The actual bonus amount paid depends on Company performance relative to the target objectives. A minimum pre-established goal must be met in order for any bonus award to be paid, and the bonus award as a percentage of annual salary will increase as the Company achieves higher levels of performance.

The Compensation Committee may in its sole discretion reduce the bonus awards paid to named executive officers. Under the EICP, the Committee may not exercise discretion in granting awards in cases where no awards are indicated, nor may the Committee increase any calculated awards. Any such positive discretionary changes, were they to occur, would be paid outside of the EICP and reported under the appropriate Bonus column in the Summary Compensation Table; however, the Committee has not historically exercised this discretion.

The Compensation Committee, as described in the EICP, may disregard the effect of one-time charges and extraordinary events such as asset write-downs, litigation judgments or settlements, changes in tax laws, accounting principles or other laws or provisions affecting reported results, accruals for reorganization or restructuring, and any other extraordinary non-recurring items, acquisitions or divestitures and any foreign exchange gains or losses on the calculation of performance.

The incentive objectives for fiscal 2008 were based on the achievement of specified levels of earnings before interest and taxes (EBIT) and return on invested capital (ROIC), as are the incentive objectives for fiscal 2009. The total bonus award is determined based on the impact of EBIT and ROIC on AutoZone's economic profit for the year, rather than by a simple allocation of a portion of the award to achievement of the EBIT target and a portion to achievement of the ROIC target. EBIT and ROIC are key inputs to the calculation of economic profit (sometimes referred to as economic value added), and have been determined by our Compensation Committee to be important factors in enhancing shareholder value. If both the EBIT and ROIC targets are achieved, the result will be a 100%, or target, payout. However, the payout cannot exceed 100% unless the EBIT target is exceeded (i.e., unless there is excess EBIT to fund the additional bonus payout). Additionally, when the aggregate bonus amount is calculated, if the resulting payout amount in excess of target exceeds a specified percentage of excess EBIT (currently 20%), then the bonus payout will be reduced until the total amount of the bonus payment in excess of target is within that specified limit.

The specific targets are tied to achievement of the Company's operating plan for the fiscal year. In 2008, the target objectives were EBIT of \$1,120.2 million and ROIC of 22.6%. The 2008 bonus awards for each named executive officer were based on the following performance:

	EBIT (Amount in MMs)	ROIC
Plan	\$ 1,120.2	22.6%
Actual (as adjusted)	\$ 1,127.5	23.9%
Difference	\$ 7.3	128bps

Our EBIT and ROIC performance targets are based on AutoZone's operating plan and are highly confidential and competitively sensitive. We have a long-standing policy against giving financial guidance to

securities analysts due to the competitive disadvantage that could result from our doing so. We believe that if we were to publish any financial projections, including any earnings information, our competitors would gain useful advance insight into our business strategy. Insofar as AutoZone is a leader in a highly competitive market, any such public disclosure could materially harm our competitive position within our industry.

Our Board of Directors participates in the creation of financial and operating plans designed to generate long-term shareholder value. The Compensation Committee sets EICP targets each year based on these plans. Because the targets are confidential, we believe the best indication of the difficulty of achieving such targets is our track record. Over the last five years, annual EICP payouts have exceeded target three times and have been below target twice (bonus payments during this period of time have ranged from 69% to 128% of target).

Effect of Performance on Total Annual Cash Compensation. Because AutoZone emphasizes pay for performance, it is only when the Company exceeds its target objectives that an executive's total annual cash compensation begins to exceed competitive market levels. Similarly, Company performance below target will cause an executive's total annual cash compensation to drop below competitive market levels. As discussed below, AutoZone does not engage in strict benchmarking of compensation levels, i.e., we do not use specific data to support precise targeting of compensation, such as setting an executive's base pay at the 50th percentile of an identified group of companies.

Stock options. To emphasize achievement of long-term stockholder value, AutoZone's executives receive a significant portion of their targeted total compensation in the form of stock options. Although stock options have potential worth at the time they are granted, they only confer actual value if AutoZone's stock price appreciates between the grant date and the exercise date. For this reason, we believe stock options are the best long-term compensation vehicle to reward executives for creating stockholder value. We do not maintain any other long-term incentive plans for our executives. We want our executives to realize total compensation levels well above the market norm, because when they do, such success is the result of both achievement of Company financial objectives and strong stockholder returns.

In order to support and facilitate stock ownership by our executive officers, a portion of their annual stock option grant typically consists of Incentive Stock Options (ISOs). If an executive holds the stock acquired upon exercise of an ISO for at least two years from the date of grant and one year from the date of exercise, he or she can receive favorable long-term capital gains tax treatment for all appreciation over the exercise price. ISOs have a term of ten years and vest in equal 25% increments on the first, second, third and fourth anniversaries of the grant date. They are granted at the fair market value on the date of grant as defined in the relevant stock option plan. There is a \$100,000 limit on the aggregate grant value of ISOs that may become exercisable in any calendar year.

Because of the limitations on ISOs, most of the stock options granted to our officers and other employees are non-qualified stock options (NQSOs). In general, our NQSOs have terms of ten years and one day and vest in equal 25% increments on the first, second, third and fourth anniversaries of the grant date. They are granted at the fair market value on the date of grant as defined in the relevant stock option plan.

AutoZone does not grant discounted stock options, and our stock option plans prohibit repricing of previously granted options. AutoZone's plans do not provide for the granting of reload options.

AutoZone grants stock options annually. Currently, the annual grants are reviewed and approved by the Compensation Committee in the meeting at which it reviews prior year results, determines incentive payouts, and takes other compensation actions affecting the named executive officers. The Compensation Committee has not delegated its authority to grant stock options; all grants are directly approved by the Compensation Committee. Option grant amounts are recommended to the Compensation Committee by the Chief Executive Officer, based on individual performance and the size and scope of the position held.

Newly promoted or hired officers may receive a grant shortly after their hire or promotion. As a general rule, new hire or promotional stock options are approved and effective on the date of a regularly scheduled meeting of the Compensation Committee. On occasion, these interim grants may be approved by unanimous written consent of the Compensation Committee. The grants are recommended to the Compensation Committee by the Chief Executive Officer based on individual circumstances (e.g., what may be required in order to

attract a new executive). Internal promotional grants are prorated based on the time elapsed since the officer received a regular annual grant of stock options.

For more information about our stock option plans, see Discussion of Plan-Based Awards Table on page 31.

Stock purchase plans. AutoZone maintains the Employee Stock Purchase Plan which enables all employees to purchase AutoZone common stock at a discount, subject to IRS-determined limitations. Based on IRS rules, we limit the annual purchases in the Employee Stock Purchase Plan to no more than \$15,000, and no more than 10% of eligible (base and bonus or commission) compensation. To support and encourage stock ownership by our executives, AutoZone also established a non-qualified stock purchase plan. The Fourth Amended and Restated AutoZone, Inc. Executive Stock Purchase Plan (Executive Stock Purchase Plan) permits participants to acquire AutoZone common stock in excess of the purchase limits contained in AutoZone's Employee Stock Purchase Plan. Because the Executive Stock Purchase Plan is not required to comply with the requirements of Section 423 of the Internal Revenue Code, it has a higher limit on the percentage of a participant's compensation that may be used to purchase shares (25%) and places no dollar limit on the amount of a participant's compensation that may be used to purchase shares under the plan.

The Executive Stock Purchase Plan operates in a similar manner to the tax-qualified Employee Stock Purchase Plan, in that it allows executives to defer after-tax base or bonus compensation (after making annual elections as required under Section 409A of the Internal Revenue Code) for use in making quarterly purchases of AutoZone common stock. Options are granted under the Executive Stock Purchase Plan each calendar quarter and consist of two parts: a restricted share option and an unvested share option. Shares are purchased under the restricted share option at 100% of the closing price of AutoZone stock at the end of the calendar quarter (i.e., not at a discount), and a number of shares are issued under the unvested share option at no cost to the executive, so that the total number of shares acquired upon exercise of both options is equivalent to the number of shares that could have been purchased with the deferred funds at a price equal to 85% of the stock price at the end of the quarter. The unvested shares are subject to forfeiture if the executive does not remain with the company for one year after the grant date. After one year, the shares vest, and the executive owes taxes based on the share price on the vesting date (unless a so-called 83(b) election was made on the date of grant).

The table below can be used to compare and contrast the stock purchase plans.

	Employee Stock Purchase Plan	Executive Stock Purchase Plan
Contributions	After tax, limited to lower of 10% of eligible compensation or \$15,000	After tax, limited to 25% of eligible compensation
Discount	15% discount based on lowest price at beginning or end of the quarter	15% discount based on quarter-end price
Vesting	None; 1-year holding period	Shares granted to represent 15% discount restricted for 1 year; 1-year holding period for shares purchased at fair market value
Taxes Individual	Ordinary income in amount of spread; capital gains for appreciation; taxed when shares sold	Ordinary income when restrictions lapse (83(b) election optional)

Taxes	Company	No deduction unless disposition	disqualifying	Deduction when included in employee s income

How does the Compensation Committee consider and determine executive and director compensation?

Chief Executive Officer. The Compensation Committee establishes the compensation level for the Chief Executive Officer, including base salary, annual cash incentive compensation, and stock option awards. The Chief Executive Officer's compensation is reviewed annually by the Compensation Committee in conjunction with a review of his individual performance by the non-management directors, taking into account all forms of compensation, including base salary, annual cash incentive, stock option awards, and the value of other benefits received.

Other Executive Officers. The Compensation Committee reviews and establishes base salaries for AutoZone's executive officers other than the Chief Executive Officer based on each executive officer's individual performance during the past fiscal year and on the recommendations of the Chief Executive Officer. The Compensation Committee approves the annual cash incentive amounts for the executive officers, which are determined by objectives established by the Compensation Committee at the beginning of each fiscal year as discussed above. The actual bonus amount paid depends on performance relative to the target objectives.

The Compensation Committee approves awards of stock options to many levels of management, including executive officers. Stock options are granted to executive officers upon initial hire or promotion, and thereafter are typically granted annually in accordance with guidelines established by the Compensation Committee as discussed above. The actual grant is determined by the Compensation Committee based on the guidelines and the performance of the individual in the position. The Compensation Committee considers the recommendations of the Chief Executive Officer.

Management Stock Ownership Requirement. To further reinforce AutoZone's objective of driving long-term shareholder results, a stock ownership requirement for all executive officers, including the NEOs, was implemented during fiscal 2008. Covered executives must attain a specified minimum level of stock ownership, based on a multiple of their base salary, within 5 years of the adoption of the requirement or the executive's placement into a covered position. Executives who are promoted into a position with a higher multiple will have an additional 3 years to attain the required ownership level. In order to calculate whether each executive meets the ownership requirement, we total the value of each executive's holdings of whole shares of stock and the intrinsic (or in-the-money) value of vested stock options, based on the fiscal year-end closing price of AutoZone stock, and compare that value to the appropriate multiple of fiscal year-end base salary.

To encourage full participation in our equity plans, all AutoZone stock acquired under those plans is included in the executive's holdings for purposes of calculating his or her ownership. This includes vested stock options and shares which have restrictions on sale. One of the purposes of the ownership requirement is to create a disincentive for an executive to exercise vested stock options early, selling shares to pay the exercise cost and taxes, before the award has had time to achieve its full potential value.

Key features of the stock ownership requirement are summarized in the table below:

Ownership Requirement	Chief Executive Officer 5 times base salary Executive Vice President 3 times base salary Senior Vice President 2 times base salary
Holding Requirements	<p>Individuals who have not achieved the ownership requirement within the five year period will be required to hold 50% of net after-tax shares upon exercise of any stock option, and may not sell any shares of AZO.</p> <p>Guidelines will no longer apply after an executive reaches age 62, in order to facilitate appropriate financial planning as retirement approaches. The Compensation Committee, in its discretion, may waive the guidelines for an executive who has communicated his or her intent to retire prior to age 62.</p>
Ownership Definition	<p>Shares of stock directly owned (including shares subject to holding requirements under any stock purchase plan);</p> <p>Unvested Shares acquired via the Executive Stock Purchase Plan; and</p> <p>Vested stock options acquired via the AutoZone Stock Option Plan (based on the in-the-money value).</p>

Under AutoZone's insider trading policies, all transactions involving put or call options on the stock of AutoZone are prohibited at all times. Officers and directors and their respective family members may not directly or indirectly participate in transactions involving trading activities which by their aggressive or speculative nature may give rise to an appearance of impropriety.

What roles do the Chief Executive Officer and other executive officers play in the determination of executive compensation?

The Chief Executive Officer attends most meetings of the Compensation Committee and participates in the process by answering Compensation Committee questions about pay philosophy and by ensuring that the Compensation Committee's requests for information are fulfilled. He also assists the Compensation Committee in determining the compensation of the executive officers by providing recommendations and input about such matters as individual performance, tenure, and size, scope and complexity of their positions. The Chief Executive Officer makes specific recommendations to the Compensation Committee concerning the compensation of his direct reports and other senior executives, including the executive officers. These recommendations usually relate to base salary increases and stock option grants. The Chief Executive Officer also recommends pay packages for newly hired executives. Management provides the Compensation Committee with data, analyses and perspectives on market trends and annually prepares information to assist the Compensation Committee in its consideration of such recommendations. Annual incentive awards are based on achievement of business objectives set by the Compensation Committee, but the Compensation Committee may exercise negative discretion, and if it does so, it is typically in reliance on the Chief Executive Officer's assessment of an individual's performance.

The Chief Executive Officer does not make recommendations to the Compensation Committee regarding his own compensation. The Senior Vice President, Human Resources has direct discussions with the Compensation Committee Chairman regarding the Compensation Committee's recommendations on the Chief Executive Officer's compensation; however, Compensation Committee discussions of specific pay actions related to the Chief Executive Officer are held outside his presence.

Does AutoZone use compensation consultants?

Neither AutoZone management nor the Compensation Committee hired executive compensation consultants during fiscal 2008. Although historically we have hired consultants to provide services from time to time,

it is not our usual practice, and as discussed previously, AutoZone does not regularly engage consultants as part of our annual review and determination of executive compensation. The Compensation Committee has authority, pursuant to its charter, to hire consultants of its selection to advise it with respect to AutoZone's compensation programs, and it may also limit the use of the Compensation Committee's compensation consultants by AutoZone's management as it deems appropriate.

What are AutoZone's peer group and compensation benchmarking practices?

AutoZone reviews publicly-available data from a peer group of companies to help us ensure that our overall compensation remains competitive. The peer group is currently composed of the 23 specialty retailers listed below, and includes our direct competitors as well as other companies which we believe are similar to AutoZone in such matters as customers, product lines, revenues and market capitalization. The peer group data we use is from proxy filings and other published sources—it is not prepared or compiled especially for AutoZone.

We periodically review the appropriateness of this peer group. It typically changes when such events as acquisitions and spin-offs occur.

ADVANCE AUTO PARTS INC	HOME DEPOT INC	ROSS STORES INC
BARNES & NOBLE INC	LIMITED BRANDS INC	SHERWIN WILLIAMS CO
BED BATH & BEYOND INC	LOWE'S COMPANIES INC	STAPLES INC
BEST BUY CO INC	O'REILLY AUTOMOTIVE INC	STARBUCKS CORP
BORDERS GROUP INC	OFFICE DEPOT INC	TJX COMPANIES INC
CIRCUIT CITY STORES INC	PEP BOYS MANNY MOE &	WILLIAMS SONOMA INC
GAP INC	JACK	ZALE CORP
GENUINE PARTS CO	PETSMART INC	
	RADIOSHACK CORP	

We do not use information from the peer group or other published sources to set targets or make individual compensation decisions. AutoZone does not engage in benchmarking, such as targeting base salary at peer group median for a given position. Rather we use such data as context in reviewing AutoZone's overall compensation levels and approving recommended compensation actions. Broad survey data and peer group information are just two elements that we find useful in maintaining a reasonable and competitive compensation program. Other elements that we consider are individual performance, Company performance, individual tenure, position tenure, and succession planning.

What is AutoZone's policy concerning the tax deductibility of compensation?

The Compensation Committee considers the provisions of Section 162(m) of the Internal Revenue Code (the Code) which allows the Company to take an income tax deduction for compensation up to \$1 million and for certain compensation exceeding \$1 million paid in any taxable year to a covered employee—as that term is defined in the Code. There is an exception for qualified performance-based compensation, and AutoZone's compensation program is designed to maximize the tax deductibility of compensation paid to executive officers, where possible. However, the Compensation Committee may authorize payments which are not deductible where it is in the best interests of AutoZone and its stockholders.

Plans or payment types which qualify as performance-based compensation include the EICP and stock options. Neither base salaries, nor the Executive Stock Purchase Plan, qualify as performance-based under 162(m).

How is AutoZone complying with Section 409A of the Internal Revenue Code?

Section 409A of the Internal Revenue Code was created with the passage of the American Jobs Creation Act of 2004. These new tax regulations create strict rules related to non-qualified deferred compensation earned and vested on or after January 1, 2005. AutoZone has conducted a thorough assessment of all affected plans, and continues to take actions necessary to comply with the new requirements by the deadlines established by the Internal Revenue Service.

Mr. Giles: During fiscal 2008, Mr. Giles' s former home sold for \$395,000 less than the appraised value at which the Company purchased the home and the Company wrote off \$149,900, which was the difference between the expected sales price at the end of fiscal year 2007 and the price at which it was ultimately sold. The remaining \$245,100 was written off by the Company during fiscal 2007 (as discussed below). Additionally, the Company paid \$10,000 in taxes on the home and \$21,850 in transfer taxes as part of the sales contract.

During fiscal 2007, Mr. Giles received \$253,728 in relocation expenses, including \$2,128 in temporary living expense reimbursements. The remaining amount consisted of \$6,500 for repair and maintenance of Mr. Giles' s former home and a difference of \$245,100 between the appraised value at which the Company purchased the home and the expected sales price at the end of fiscal year 2007.

The amounts actually paid for the 2008 fiscal year are described in the Non-Equity Incentive Plan Compensation column in the Summary Compensation Table. See Compensation Discussion and Analysis at page 18 and the discussion following this table for more information on the EICP.

Discussion of Plan-Based Awards Table

Executive Incentive Compensation Plan. The EICP is intended to be a performance-based compensation plan under Section 162(m) of the Internal Revenue Code. The Company's executive officers, as determined by the Compensation Committee of the Board of Directors, are eligible to participate in the EICP. At the beginning of each fiscal year, the Compensation Committee establishes a goal, which may be a range from a minimum to a maximum attainable bonus, based on one or more of the following measures:

Earnings

Earnings per share

Sales

Market share

Operating or net cash flows

Pre-tax profits

Earnings before interest and taxes

Return on invested capital

Economic value added

Return on inventory

Gross profit margin

Sales per square foot

Comparable store sales

The EICP provides that the goal may be different for different executives. The goals can change annually to support our business objectives. After the end of each fiscal year, the Compensation Committee must certify the attainment of goals under the EICP and direct the amount to be paid to each participant in cash. See Compensation Discussion and Analysis on page 18 for more information about the EICP.

Executive Stock Purchase Plan. The Executive Stock Purchase Plan permits participants to acquire AutoZone common stock in excess of the purchase limits contained in AutoZone's Employee Stock Purchase Plan. Because the Executive Stock Purchase Plan is not required to comply with the requirements of Section 423 of the Internal Revenue Code, it has a higher limit on the percentage of a participant's compensation that may be used to purchase shares (25%) and places no dollar limit on the amount of a participant's compensation that may be used to purchase shares under the plan. For more information about the Executive Stock Purchase Plan, see Compensation Discussion and Analysis on page 18.

Stock Option Plan. Stock options are awarded to many levels of management, including executive officers, to align the long-term interests of AutoZone's management and our stockholders. The stock options shown in the table were granted pursuant to the AutoZone, Inc. 2006 Stock Option Plan (2006 Stock Option Plan).

Both incentive stock options and non-qualified stock options, or a combination of both, can be granted under the 2006 Stock Option Plan. Incentive stock options have a term of ten years, and non-qualified stock options have a term of ten years and one day. Options granted during the 2008 fiscal year vest in one-fourth increments over a four-year period. All options granted under the 2006 Stock Option Plan have an exercise price equal to the fair market value of AutoZone common stock on the date of grant, which is defined in the 2006 Stock Option Plan as the closing price on the trading day previous to the grant date. Option repricing is expressly prohibited by the terms of the 2006 Stock Option Plan.

Each grant of stock options is governed by the terms of a Stock Option Agreement entered into between the Company and the executive officer at the time of the grant. The Stock Option Agreements provide vesting schedules and other terms of the grants in accordance with the 2006 Stock Option Plan.

(1) As the plan benefits were frozen as of December 31, 2002, there is no service cost and increases in future compensation levels no longer impact the calculations. The benefit of each participant is accrued based on a funding formula computed by our independent actuaries, Mercer. See Note I, Pension and Savings Plans, to our consolidated financial statements in our 2008 Annual Report for a discussion of our assumptions used in determining the present value of the accumulated pension benefits.

Prior to January 1, 2003, substantially all full-time AutoZone employees were covered by a defined benefit pension plan, the AutoZone, Inc. Associates Pension Plan (the Pension Plan). The Pension Plan is a

traditional defined benefit pension plan which covered full-time AutoZone employees who were at least 21 years old and had completed one year of service with the Company. The benefits under the Pension Plan were based on years of service and the employee's highest consecutive five-year average compensation. Compensation included total annual earnings shown on Form W-2 plus any amounts directed on a tax-deferred basis into Company-sponsored benefit plans, but did not include reimbursements or other expense allowances, cash or non-cash fringe benefits, moving expenses, non-cash compensation (regardless of whether it resulted in imputed income), long-term cash incentive payments, payments under any insurance plan, payments under any weekly-paid indemnity plan, payments under any long term disability plan, nonqualified deferred compensation, or welfare benefits.

AutoZone also maintained a supplemental defined benefit pension plan for certain highly compensated employees to supplement the benefits under the Pension Plan as part of our Executive Deferred Compensation Plan (the Supplemental Pension Plan). The purpose of the Supplemental Pension Plan was to provide any benefit that could not be provided under the qualified plan due to IRS limitations on the amount of salary that could be recognized in the qualified plan. The benefit under the Supplemental Pension Plan is the difference between (a) the amount of benefit determined under the Pension Plan formula but using the participant's total compensation without regard to any IRS limitations on salary that can be recognized under the qualified plan, less (b) the amount of benefit determined under the Pension Plan formula reflecting the IRS limitations on compensation that can be reflected under a qualified plan.

In December, 2002, both the Pension Plan and the Supplemental Pension Plan were frozen. Accordingly, all benefits to all participants in the Pension Plan were fixed and could not increase, and no new participants could join the plans.

Annual benefits to the Named Executive Officers are payable upon retirement at age 65. Sixty monthly payments are guaranteed after retirement. The benefits will not be reduced by Social Security or other amounts received by a participant. The basic monthly retirement benefit is calculated as 1% of average monthly compensation multiplied by a participant's years of credited service. Benefits under the Pension Plan may be taken in one of several different annuity forms. The actual amount a participant would receive depends upon the payment method chosen.

A participant in the Pension Plan is eligible for early retirement under the plan if he or she is at least 55 years old AND was either (a) a participant in the original plan as of June 19, 1976; or (b) has completed at least ten (10) years of service for vesting (i.e. years in which the participant worked at least 1,000 hours after becoming a Pension Plan participant). The early retirement date will be the first of any month after the participant meets these requirements and chooses to retire. Benefits may begin immediately, or the participant may elect to begin receiving them on the first of any month between the date he or she actually retires and the normal retirement date. If a participant elects to begin receiving an early retirement benefit before the normal retirement date, the amount of the accrued benefit will be reduced according to the number of years by which the start of benefits precedes the normal retirement date. Mr. Goldsmith is eligible for early retirement under the Pension Plan.

Messrs. Rhodes, Goldsmith, and Olsen are participants in the Pension Plan and the Supplemental Pension Plan. No named officers received payment of a retirement benefit in fiscal 2008.

NONQUALIFIED DEFERRED COMPENSATION

The following table sets forth information regarding nonqualified deferred compensation for the Company's Named Executive Officers as of and for the year ended August 30, 2008.

- (1) Represents contributions by the Named Executive Officers under the AutoZone, Inc. Executive Deferred Compensation Plan (the "EDCP"). Such contributions are included under the appropriate Salary and Non-Equity Incentive Plan Compensation columns for the Named Executive Officers in the Summary Compensation Table.
- (2) Represents matching contributions by the Company under the EDCP. Such contributions are included under the All Other Compensation column for the Named Executive Officers in the Summary Compensation Table.
- (3) Represents the difference between the aggregate balance at end of fiscal 2008 and the end of fiscal 2007, excluding (i) contributions made by the executive officer and the Company during fiscal 2008 and (ii) any withdrawals or distributions during fiscal 2008. None of the earnings in this column were included in the Summary Compensation Table because they were not preferential or above market.

Officers of the Company with the title of vice president or higher are eligible to participate in the EDCP after their first year of employment with the Company. The EDCP is a nonqualified plan that allows officers who participate in AutoZone's 401(k) plan to make a pretax deferral of base salary and bonus compensation. Officers may defer up to 25% of base salary and bonus, minus deferrals under the 401(k) plan. The Company matches 100% of the first 3% of deferred compensation and 50% of the next 2% deferred. Participants may select among various mutual funds in which to invest their deferral accounts. Participants may elect to receive distribution of their deferral accounts at retirement or starting in a specific future year of choice before or after anticipated retirement (but not later than the year in which the participant reaches age 75). If a participant's employment with AutoZone terminates other than by retirement or death, the account balance will be paid in a lump sum payment six months after termination of

employment. There are provisions in the EDCP for withdrawal of all or part of the deferral account balance in the event of an extreme and unforeseen financial hardship.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

Our executive officers may receive certain benefits if their employment terminates under specified circumstances. These benefits derive from Company policies, plans, agreements and arrangements described below.

Agreement with Mr. Rhodes

In February 2008, Mr. Rhodes and AutoZone entered into an agreement (the Agreement) setting forth the severance arrangements previously approved by the Board of Directors in connection with Mr. Rhodes' appointment as President and Chief Executive Officer and by the Compensation Committee in September 2007. The Agreement provides that if Mr. Rhodes' employment is terminated by the Company without cause, he will receive severance benefits consisting of an amount equal to 2.99 times his then-current base salary, a lump sum prorated share of any unpaid annual bonus incentive for periods during which he was employed, and AutoZone will pay the cost of COBRA premiums to continue his medical, dental and vision insurance benefits for up to 18 months to the extent such premiums exceed the amount Mr. Rhodes had been paying for such coverage during his employment. The Agreement further provides that Mr. Rhodes will not compete with AutoZone or solicit its employees for a three-year period after his employment with AutoZone terminates.

Executive Officer Agreements (Messrs. Giles and Shea)

In February 2008, AutoZone's executive officers who do not have written employment agreements, including Messrs. Giles and Shea, entered into agreements (Severance and Non-Compete Agreements) with the Company providing that if their employment is involuntarily terminated without cause, and if they sign an agreement waiving certain legal rights, they will receive severance benefits in the form of salary continuation for a period of time ranging from 12 months to 24 months, depending on their length of service at the time of termination. Mr. Giles presently has two years of service, and Mr. Shea has four.

Years of Service

Severance Period

0 - 1	12 months
2 - 5	18 months
Over 5	24 months

The executives will also receive a lump sum prorated share of their annual bonus incentive when such incentives are paid to similarly-situated executives. Medical, dental and vision insurance benefits generally continue through the severance period up to a maximum of 18 months, with the Company paying the cost of COBRA premiums to the extent such premiums exceed the amount the executive had been paying for such coverage. An appropriate level of outplacement services may be provided based on individual circumstances.

The Agreement further provides that the executive will not compete with AutoZone or solicit its employees for a two-year period after his or her employment with AutoZone terminates.

Employment Agreements (Messrs. Goldsmith and Olsen)

Mr. Goldsmith and Mr. Olsen have employment agreements, dated 1999 and 2000, respectively, which continue until terminated either by the executive or by AutoZone. If the agreement is terminated by AutoZone for cause, or by the

executive for any reason, the executive will cease to be an employee, and will cease to receive salary, bonus, and other benefits. If the agreement is terminated by AutoZone without cause, Mr. Goldsmith will remain an employee for three years after the termination date, and Mr. Olsen will remain an employee for two years after the termination date (each, a Continuation Period). Each executive will continue to receive his then-current salary and other benefits of an employee, and will receive a prorated bonus for the fiscal year in which he was terminated, but no bonuses thereafter. Each executive's stock options will continue to vest and may be exercised in accordance with the respective stock option agreements until the end of his Continuation Period, after which further stock option exercises and vesting will be governed by the terms of the respective stock option agreements. If either executive is terminated from his position by AutoZone or by the executive for reasons other than a change in control, then the executive will be prohibited

from competing against AutoZone or hiring AutoZone employees during his Continuation Period. Cause is defined in each agreement as the willful engagement by the executive in conduct which is demonstrably or materially injurious to AutoZone, monetarily or otherwise. No act or failure to act by the employee will be considered willful unless done, or omitted to be done, by the employee not in good faith and without reasonable belief that his action or omission was in the best interest of AutoZone. Change in control in each agreement means either the acquisition of a majority of our voting securities by or the sale of substantially all of our assets to a non-affiliate of the company.

Equity Plans

All outstanding, unvested options granted pursuant to the Stock Option Plans, including those held by all the Named Executive Officers, will vest immediately upon the option holder's death pursuant to the terms of the stock option agreements.

Unvested share options under our Executive Stock Purchase Plan, which normally are subject to forfeiture if a participant's employment terminates prior to the first anniversary of their acquisition, will vest immediately if the termination is by reason of the participant's death, disability, termination by the Company without cause, or retirement on or after the participant's normal retirement date. The Plan defines disability, cause, and normal retirement date.

Life Insurance

AutoZone provides all salaried employees in active full-time employment in the United States a company-paid life insurance benefit in the amount of two times annual earnings. Annual earnings exclude stock options but include salary and bonuses received. Additionally, salaried employees are eligible to purchase additional life insurance. The maximum benefit of the company-paid and the additional coverage combined is \$5,000,000. All of the Named Executive Officers are eligible for this benefit.

Disability Insurance

All full-time officers at the level of vice president and above are eligible to participate in two executive long-term disability plans. Accordingly, AutoZone purchases individual disability policies for its executive officers that pay 70% of the first \$7,143 of insurable monthly earnings in the event of disability. Additionally, the executive officers are eligible to receive an executive long-term disability plan benefit in the amount of 70% of the next \$35,714 of insurable monthly earnings to a maximum benefit of \$25,000 per month. AutoZone purchases insurance to cover this plan benefit. These two benefits combined provide a maximum benefit of \$30,000 per month. The benefit payment for these plans may be reduced by deductible sources of income and disability earnings. Mr. Goldsmith is only covered under the group long-term disability program, under which he is eligible to receive 70% of monthly earnings to a maximum benefit of \$30,000 per month.

The following table shows the amounts that the Named Executive Officers would have received if their employment had been involuntarily terminated on August 30, 2008. This table does not include amounts related to the Named Executive Officers' vested benefits under our deferred compensation and pension plans or pursuant to stock option awards, all of which are described in the tables above.

Related Party Transactions

Our Board of Directors has adopted a Related Persons Transaction Policy (the Policy) which requires the Audit Committee of the Board to review and approve or ratify all Related Person Transactions. The Audit Committee is to consider all of the available relevant facts and circumstances of each transaction, including but not limited to the benefits to the Company; the impact on a director's independence in the event the Related Person is a director, an immediate family member of a director or an entity in which a director is a partner, shareholder or executive officer; the availability of other sources for comparable products or services; the terms of the transaction; and the terms available to unrelated third parties generally. Related Person Transactions must also comply with the policies and procedures specified in our Code of Ethics and Business Conduct and Corporate Governance Principles described below.

The Policy also requires disclosure of all Related Person Transactions that are required to be disclosed in AutoZone's filings with the Securities and Exchange Commission, in accordance with all applicable legal and regulatory requirements.

A Related Person Transaction is defined in the Policy as a transaction, arrangement or relationship (or any series of similar transactions, arrangements or relationships) that occurred since the beginning of the Company's most recent

Our Board has also adopted a Code of Ethical Conduct for Financial Executives (the Financial Code of Conduct) that applies to the Company s officers and employees who hold the position of principal executive officer, principal financial officer, principal accounting officer or controller as well as to Company s officers and employees who perform similar functions (Financial Executives). Additionally, our Corporate Governance Principles require each director who is faced with an issue that presents, or may give the appearance of presenting, a conflict of interest to disclose that fact to the Chairman of the Board and the Secretary, and to refrain from participating in discussions or votes on such issue unless a majority of the Board determines, after consultation with counsel, that no conflict of interest exists as to such matter.

Equity Compensation Plans Not Approved by Stockholders

The AutoZone, Inc. Second Amended and Restated Director Compensation Plan and the AutoZone, Inc. Fourth Amended and Restated 1998 Director Stock Option Plan were approved by the Board, but were not submitted for approval by the stockholders as then permitted under the rules of the New York Stock Exchange. Both of these plans were terminated in December 2002 and were replaced by the Director Compensation Plan and the Director Stock Option Plan, respectively, after the stockholders approved them. No further grants can be made under the terminated plans. However, any grants made under these plans will continue under the terms of the grant made. Only treasury shares are issued under the terminated plans.

Under the Second Amended and Restated Director Compensation Plan, a non-employee director could receive no more than one-half of the annual retainer and meeting fees immediately in cash, and the remainder of the fees were taken in common stock or deferred in stock appreciation rights.

Under the Fourth Amended and Restated 1998 Director Stock Option Plan, on January 1 of each year, each non-employee director received an option to purchase 1,500 shares of common stock, and each non-employee director who owned common stock worth at least five times the annual fee paid to each non-employee director on an annual basis received an additional option to purchase 1,500 shares of common stock. In addition, each new director received an option to purchase 3,000 shares upon election to the Board of Directors, plus a portion of the annual directors option grant prorated for the portion of the year actually served in office. These stock option grants were made at the fair market value as of the grant date.
