Individual Retirement and Investment Trust Plan

We have audited the accompanying statements of assets available for benefits of the Standard Products Individual Retirement and Investment Trust Plan as of June 30, 2001 and 2000 and the related statement of changes in assets available for benefits for the year ended June 30, 2001. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets available for benefits of the Plan at June 30, 2001 and 2000, and the changes in its assets available for benefits for the year ended June 30, 2001, in conformity with accounting principles generally accepted in the United States.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules of assets (held at end of year) as of June 30, 2001, and reportable transactions for the year then ended, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

The following description of the Standard Products Individual Retirement and Investment Trust Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all salaried and non-union hourly employees of The Standard Products Company (the Company) and its wholly-owned subsidiaries Oliver Rubber Company and Westborn Warehouse, Inc., which are all wholly-owned subsidiaries of Cooper Tire and Rubber Company (Cooper). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On June 30, 2000, the Company completed the sale of its Holm Industries, Inc. subsidiary. During the 2001 Plan year, assets totaling \$9,589,876 were transferred to the plan of the acquiring company.

Contributions

Each year, participants may contribute up to 15 percent of their pretax compensation. The Company contributes 75 percent of the first 2 percent and 25 percent of the next 3 percent (up to 5 percent) of base compensation that the participant contributes to the Plan. Effective July 1, 2000, all employer matching contributions were invested in the Cooper Tire & Rubber Company Common Stock Fund. From October 27, 1999 (date of acquisition of the Company by Cooper) to June 30, 2000, all employer matching contributions were invested in the Vanguard Prime Money Market Fund.

The Company may make a special employer contribution on behalf of each eligible non-union hourly employee, whether or not they are depositing participants. For the Plan year ended June 30, 2001, the special employer contributions were \$182,596. All special employer contributions are invested in the Vanguard Prime Money Market Fund.

Upon enrollment, a participant may direct their contributions to any of the Plan's investment fund options.

Participant Accounts

Individual accounts are maintained for each participant in the Plan. Each participant's account is credited with the participant's contributions, their allocation of the Company's contributions and Plan earnings.

Vesting

The participants are immediately vested in both their contributions and the Company's contributions plus actual earnings thereon.

The participant loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recognized when earned. Dividends are recorded on the ex-dividend date.
