PROXY STATEMENT

March 10, 2006

PRELIMINARY

The enclosed proxy is requested by the Board of Directors in connection with the Annual Meeting of Shareholders to be held on April 19, 2006. This proxy statement is first being mailed on approximately March 10, 2006.

ANNUAL REPORT

Sherwin-Williams Annual Report to Shareholders for the year ended December 31, 2005 is enclosed with this proxy statement. Additional financial and other reports may be submitted at the Annual Meeting, but it is not intended that any action will be taken relating to those reports.

ABOUT THE MEETING

What is the purpose of the Annual Meeting?

At the Annual Meeting, shareholders will act upon the proposals outlined in the Notice of Annual Meeting of Shareholders, including the election of directors, the approval of The Sherwin-Williams Company 2006 Equity and Performance Incentive Plan, the approval of The Sherwin-Williams Company 2006 Stock Plan for Nonemployee Directors, and the ratification of the appointment of Sherwin-Williams independent registered public accounting firm. In addition, management will report on Sherwin-Williams performance and respond to questions from shareholders.

Who is entitled to vote?

Only record holders of our common stock and convertible participating serial preferred stock at the close of business on March 3, 2006, the record date, are entitled to vote at the Annual Meeting. At the close of business on the record date, 136,199,369 shares of common stock and 12,295 shares of convertible participating serial preferred stock were outstanding. Each share owned on the record date is entitled to one vote.

How do I vote?

If you are a shareholder of record, you can vote in person at the Annual Meeting or you can vote on the Internet, by telephone or by signing and mailing your proxy card in the enclosed envelope. Detailed instructions for Internet and telephone voting are attached to your proxy card. Your Internet or telephone vote authorizes the proxy holders to vote your shares in the same manner as if you signed and returned your proxy card by mail. If you are a shareholder of record and you vote by the Internet or telephone, your vote must be received by 5:00 p.m. E.S.T. on April 18, 2006; you should not return your proxy card.

If you are a shareholder of record, the proxy holders will vote your shares in accordance with your directions. If you sign and return your proxy card, but do not properly direct how your shares should be voted on a proposal, the proxy holders will vote your shares *FOR* Proposals 1, 2, 3 and 4. If you sign and return your proxy card, the proxy holders will vote your shares according to their discretion on any other proposals and other matters that may be brought before the Annual Meeting.

If you hold shares through a broker or other nominee in street name, you should complete, sign and date the voting instruction card provided to you by your broker or nominee or vote by the Internet or telephone as permitted by your broker or nominee.

Table of Contents

Shareholders of record may also be represented by another person present at the Annual Meeting by signing a proxy designating such person to act on your behalf. If you hold shares through a broker or nominee, you may not vote in person at the Annual Meeting unless you have obtained a signed proxy from your broker or nominee giving you the right to vote your shares.

Representatives of The Bank of New York will tabulate the votes and act as inspectors of election at the Annual Meeting.

How do I vote if I am a participant in the Stock Ownership and Automatic Dividend Reinvestment Plan or the Employee Stock Purchase and Savings Plan?

If you are a participant in one of these plans, your proxy card also serves as voting instructions for the number of shares which you are entitled to direct the vote under each plan. You may vote your shares by the Internet, telephone or mail in the same manner outlined above. If you are a participant in the Employee Stock Purchase and Savings Plan, your voting instructions must be received by the close of business on April 13, 2006 in order to allow the trustee sufficient time for voting.

If you are a participant in the Employee Stock Purchase and Savings Plan and you do not timely provide your voting instructions, your shares will be voted in the same proportion as the trustee votes those shares for which it receives proper instructions. Any unallocated shares held in the Employee Stock Purchase and Savings Plan also will be voted by the trustee in the same proportion as the trustee votes those shares for which it receives proper instructions.

What are the voting recommendations of the Board of Directors?

The Board of Directors recommends that you vote:

FOR fixing the number of directors at 11 and electing the 11 nominees for directors (Proposal 1);

FOR approving The Sherwin-Williams Company 2006 Equity and Performance Incentive Plan (Proposal 2);

FOR approving The Sherwin-Williams Company 2006 Stock Plan for Nonemployee Directors (Proposal 3); and

FOR ratifying the appointment of Ernst & Young LLP as Sherwin-Williams independent registered public accounting firm (Proposal 4).
The Board of Directors is not aware of any other matters that will be brought before the Annual Meeting for action.

What constitutes a quorum for the Annual Meeting?

A quorum of shareholders is necessary for us to hold a valid Annual Meeting. For a quorum, there must be present, in person or by proxy, or by use of communications equipment, shareholders of record entitled to exercise not less than fifty percent of the voting power of Sherwin-Williams.

Proxy cards marked as withholding authority, as well as proxy cards containing abstentions and broker non-votes, will be treated as present for purposes of determining a quorum. A broker non-vote occurs when a broker or other nominee holding shares for a beneficial owner does not vote on a particular non-routine proposal because the broker or nominee does not have discretionary voting power for that proposal and has not received voting instructions from the beneficial owner. If you are a beneficial owner and a broker holds your shares, it is expected that your broker will be permitted to vote your shares on both Proposals 1 and 4 even if your broker does not receive voting instructions from you.

What vote is required to approve each proposal?

Election of Directors (Proposal 1). Proposal 1 to fix the number of directors at 11 requires the affirmative vote of the holders of a majority of the shares present, in person or by proxy, and entitled to vote on this proposal. The nominees receiving the greatest number of votes will be elected. A proxy card marked as withholding authority with respect to the election of one or more directors will not be voted with respect to the director or directors indi-

Table of Contents

cated, although it will be counted for quorum purposes.

Approval of the 2006 Equity and Performance Incentive Plan (Proposal 2). Proposal 2 to approve the 2006 Equity and Performance Incentive Plan requires the affirmative vote of a majority of the votes cast. A proxy card marked as abstaining with respect to this proposal and a broker non-vote with respect to this proposal will be counted for quorum purposes, but will not be counted as a vote cast, and therefore will have no effect on the vote.

Approval of the 2006 Stock Plan for Nonemployee Directors (Proposal 3). Proposal 3 to approve the 2006 Stock Plan for Nonemployee Directors requires the affirmative vote of a majority of the votes cast. A proxy card marked as abstaining with respect to this proposal and a broker non-vote with respect to this proposal will be counted for quorum purposes, but will not be counted as a vote cast, and therefore will have no effect on the vote.

Ratification of Independent Registered Public Accounting Firm (Proposal 4). Proposal 4 to ratify the appointment of Ernst & Young LLP as Sherwin-Williams independent registered public accounting firm requires the affirmative vote of a majority of the votes cast. A proxy card marked as abstaining with respect to this proposal will be counted for quorum purposes, but will not be counted as a vote cast, and therefore will have no effect on the vote.

Other Items. All other proposals and other business as may properly come before the Annual Meeting require the affirmative vote of a majority of the votes cast, except as otherwise required by statute or Sherwin-Williams Amended Articles of Incorporation or Regulations.

Can I revoke or change my vote after I submit my proxy?

Yes. You can revoke or change your vote before the proxy holders vote your shares by timely:

giving a revocation to Sherwin-Williams Vice President, General Counsel and Secretary in writing, in a verifiable communication or at the Annual Meeting;

returning a later signed and dated proxy card;

entering a new vote by the Internet or telephone; or

voting in person at the Annual Meeting.

How can I attend the Annual Meeting?

You are entitled to attend the Annual Meeting only if you were a Sherwin-Williams shareholder as of the close of business on March 3, 2006, the record date. You may be asked to present valid photo identification to enter the Annual Meeting.

If you are a shareholder of record, or own your shares through the Stock Ownership and Automatic Dividend Reinvestment Plan or the Employee Stock Purchase and Savings Plan, an admission ticket is attached to your proxy card. Simply tear it off and bring it to the Annual Meeting.

If you hold your shares through a broker or other nominee in street name, you will be required to provide proof of beneficial ownership as of the record date, such as a bank or brokerage account statement showing ownership as of March 3, 2006, a copy of the voting instruction card provided by your broker or nominee, or similar evidence of ownership.

Our Business Ethics Policy applies to all of our directors, officers and employees and outlines the broad principles of ethical and legal conduct embraced by Sherwin-Williams to guide our business related conduct. Under the Business Ethics Policy, any director or employee who reasonably believes or suspects that Sherwin-Williams or any director or employee has or is engaging in improper or illegal activities, fraud or activities which appear to be inconsistent with or in violation of the Business Ethics Policy is responsible for reporting such activities. Sherwin-Williams does not permit retaliation of any kind against any person who, in good faith, reports any known or suspected improper activities pursuant to the Business Ethics Policy.

The Business Ethics Policy includes additional ethical obligations for our senior financial management (which includes our chief executive officer, our chief financial officer, and the controller, treasurer and principal financial and accounting personnel in our operating groups and corporate departments). Our senior financial management is responsible for creating and maintaining a culture of high ethical standards throughout our company to ensure the fair and timely reporting of our financial results and financial condition.

Communications with Directors. The Board of Directors has adopted a process by which shareholders and other interested parties may communicate with the non-management directors or the chairperson of any of the committees of the Board of Directors by e-mail or regular mail. Communications by e-mail should be sent to the auditchair@sherwin.com, compchair@sherwin.com, or corpgovchair@sherwin.com, or to the non-management directors as a group to the non-managementdirectors@sherwin.com. Communications by regular mail should be sent to the attention of the Chairperson, Audit Committee, Chairperson, Compensation and Management Development Committee, or Chairperson, Nominating and Corporate Governance Committee, or to the non-management directors as a group to the Non-Management Directors, each c/o Corporate Secretary, The Sherwin-Williams Company, 101 Prospect Avenue, N.W., 12th Floor, Midland Building, Cleveland, Ohio 44115.

All communications received in accordance with this process will be reviewed by Sherwin-Williams management to determine whether the communication requires immediate action. Management will pass on all communications received, or a summary of such communications, to the appropriate director or directors.

Complaint Procedures for Accounting, Auditing and Financial Related Matters. The Audit Committee has established procedures for receiving, retaining and treating complaints from any source regarding accounting, internal accounting controls and auditing matters, and procedures for the confidential, anonymous submission by employees of concerns regarding questionable accounting or auditing matters. Interested parties may communicate such complaints by following the procedures for Communications with Directors, as outlined above. Employees may report such complaints by following the procedures outlined in the Business Ethics Policy. Sherwin-Williams does not permit any retaliation of any kind against any person who, in good faith, submits a complaint or concern under these procedures.

Independence of Directors. Under Sherwin-Williams Director Independence Standards (a copy of which is attached as Appendix A), 10 of our current 11 directors are independent and 10 of our 11 director nominees are independent. In addition, all members of the Audit Committee, Compensation and Management Development Committee, and Nominating and Corporate Governance Committee are independent.

Executive Sessions. The non-management members of the Board of Directors meet at least twice each year in regularly scheduled executive sessions. Additional executive sessions may be scheduled by the non-management directors. The chairpersons of the Audit Committee, the Compensation and Man-

agement Development Committee and the Nominating and Corporate Governance Committee rotate presiding over these sessions.

Annual Board Self-Assessments. The Board of Directors has instituted annual self-assessments of the Board of Directors, as well as the Audit Committee, the Compensation and Management Development Committee, and the Nominating and Corporate Governance Committee, to assist in determining whether the Board of Directors and its committees are functioning effectively. In early 2006, the Board and each of its committees completed self-evaluations and reviewed and discussed the results. This evaluation process was overseen by the Nominating and Corporate Governance Committee.

Board Committee Charters. The Board of Directors has adopted written charters for the Audit Committee, the Compensation and Management Development Committee, and the Nominating and Corporate Governance Committee. Each committee reviews and evaluates the adequacy of its charter at least annually and recommends any proposed changes to the Board of Directors for approval.

Stock Ownership Guidelines. The Board of Directors has established a minimum share ownership requirement for its directors, executive officers and operating presidents. Each director who has served on the Board for at least five years is expected to own a minimum of 5,000 shares of common stock. Each executive officer and operating president who has served in such capacity for at least five years is expected to own shares of common stock equal in value to a multiple of their base salary ranging from a low of three times to a high of five times for the Chairman and Chief Executive Officer. For purposes of meeting this minimum share ownership requirement, each equivalent share of common stock held under Sherwin-Williams benefit plans is considered as a share of common stock. Stock options are not considered towards meeting the share ownership requirement. All directors, executive officers and operating presidents have either met such guidelines or are pursuing plans to meet such guidelines within the time frames prescribed.

*The Board of Directors recommends that you vote **FOR** Proposal 1 relating to the election of directors.*

INDEPENDENCE OF DIRECTORS

The Board of Directors has adopted categorical Director Independence Standards to assist the Board of Directors in determining the independence of each director. To be considered independent, the Board of Directors must affirmatively determine that the director has no material relationship with Sherwin-Williams. In each case, the Board of Directors broadly considers all relevant facts and circumstances, including the director's commercial, industrial, banking, consulting, legal, accounting, charitable and familial relationships, and such other criteria as the Board of Directors may determine from time to time.

During the Board of Directors' annual review of director independence, the Board of Directors considers relationships and transactions between each director or an immediate family member of the director and Sherwin-Williams. The Board of Directors also considers relationships and transactions between each director or an immediate family member of the director and Sherwin-Williams' senior management.

As a result of this review, the Board of Directors determined that 10 of our current 11 directors are independent, 10 of our 11 director nominees are independent, and all members of the Audit Committee, Compensation and Management Development Committee, and Nominating and Corporate Governance Committee are independent. The Board of Directors has determined that Mrs. Kropf and Messrs. Anton, Boland, Collins, Evans, Hodnik, Mahoney, McCullough, Mixon, Moll and Smucker meet these standards and are independent and, in addition, satisfy the independence requirements of the New York Stock Exchange.

COMPENSATION OF DIRECTORS

Director Fees. The Compensation and Management Development Committee recently approved changes to the compensation payable to Sherwin-Williams' nonemployee directors. Officers of Sherwin-Williams who also serve as directors do not receive any extra compensation for services as a director. Effective January 1, 2006, the cash and equity compensation payable to Sherwin-Williams' nonemployee directors is as follows:

An annual cash retainer of \$65,000;

An additional annual cash retainer of \$12,500 for the chair of the Audit Committee;

An additional annual cash retainer of \$10,000 for the chair of the Compensation and Management Development Committee;

An additional annual cash retainer of \$7,500 for the chair of the Nominating and Corporate Governance Committee;

A meeting fee of \$1,750 for each Board or committee meeting attended in excess of seven meetings during a calendar year. For purposes of calculating the number of meetings during a calendar year, any Board and committee meetings held on the same date shall constitute one meeting; and

AUDIT COMMITTEE REPORT

Management has the primary responsibility for the integrity of Sherwin-Williams' financial information and the financial reporting process, including the system of internal control over financial reporting. Ernst & Young LLP, Sherwin-Williams' independent registered public accounting firm, is responsible for conducting independent audits of Sherwin-Williams' financial statements and management's assessment of the effectiveness of internal control over financial reporting in accordance with the standards of the Public Company Accounting Oversight Board (United States) and expressing an opinion on the financial statements and management's assessment based upon those audits. **COMPENSATION AND MANAGEMENT
DEVELOPMENT COMMITTEE
REPORT ON EXECUTIVE COMPENSATION**

Introduction. The Compensation and Management Development Committee assists the Board of Directors in fulfilling the Board's oversight responsibilities to administer Sherwin-Williams' management compensation program. Each member of the Committee is independent as defined in the corporate governance listing standards of the New York Stock Exchange and Sherwin-Williams' Director Independence Standards.

The Committee reports to the Board of Directors on all compensation matters regarding Sherwin-Williams' executive officers and other key salaried employees. The executive officers are identified in Sherwin-Williams' 2005 Annual Report to Shareholders. The Committee annually reviews and approves the compensation (including annual base salary, annual incentive opportunity, long-term incentive opportunity and other employee benefits) for Sherwin-Williams' executive officers and other key salaried employees. The Committee has the sole authority to retain compensation consultants and consulting firms to assist in the evaluation of executive compensation matters. You may learn more about the Committee's responsibilities by reading the Committee's Charter, which is available in the Corporate Governance section on the Investor Relations page of Sherwin-Williams' website at www.sherwin.com.

Management Compensation Policy. All of Sherwin-Williams' compensation programs are designed to maintain a performance

Table of Contents

and achievement-oriented environment throughout the company. Compensation programs are also designed to attract, retain and motivate talented and skilled individuals at all levels of the company. The management compensation program is designed to meet those same objectives. Compensation levels are based upon the position and level of responsibility of the employee, the performance of the individual employee, and the performance of Sherwin-Williams and its business units.

Management Compensation Program. Sherwin-Williams management compensation program is comprised of both cash and equity-based incentive compensation. The major components of the program consist of:

competitive base salaries that reflect, in part, individual performance;

additional annual incentive compensation, paid in the form of a cash bonus, based on the achievement of financial and other performance goals;

long-term stock-based incentive opportunities, which may include stock options and performance-based restricted stock; and

other benefits.

The annual base salary, annual incentive compensation and long-term incentive opportunities are intended to be competitive with market base salary and incentive compensation opportunities. Data is collected from various commercially available executive compensation surveys and information is gathered by an outside compensation consultant retained by the Committee in order to identify the base salary and incentive opportunities available at manufacturing and retail companies with comparable sales. The Committee believes that these companies likely compete with Sherwin-Williams for executive talent. This group of companies is a larger and more diverse group of companies than the companies comprising the peer group identified in the performance graph, but may include such companies if they participated in one or more of the compensation surveys. For the various components of compensation, the Committee uses the median compensation paid to executive officers holding equivalent positions or having similar responsibilities in manufacturing and retail companies with comparable sales. The amount of compensation paid to the executive officers is not based upon the cumulative total return on Sherwin-Williams common stock as reflected in the performance graph.

Base Salary. Annual cash compensation consists, in part, of a base salary. A salary range for each executive officer is approved each year on the basis of such person's position and level of responsibility. The midpoint of the range generally approximates the average salary paid for an equivalent position at comparable companies. Once a range is formulated, salary levels are based upon the executive officer's performance and, to a lesser extent, tenure in the particular position.

Annual salary increases are based on Sherwin-Williams overall annual salary budget guidelines and an evaluation of the individual's performance. As part of Sherwin-Williams annual budget process, Sherwin-Williams overall salary structure is reviewed to insure that it remains competitive. For 2005, Sherwin-Williams adopted a 3.5% overall merit ceiling for salary increases, with possible merit increases ranging from 0% to 8%. The executive officer's performance for the prior year is reviewed by his or her direct supervisor or, with respect to the performance of the Chief Executive Officer, by the Committee. The performance criteria utilized encompass both quantitative and qualitative measures which vary by executive officer and which usually relate to the particular business unit or function for which such person has responsibility. The base salary of each executive officer is then reviewed and approved annually by the Committee.

Annual Incentive Compensation. Annual cash compensation also consists of the opportunity to earn a cash bonus under the Management Incentive Plan. All of the executive officers participate in the Management Incentive Plan. In determining the amount of any bonus paid to the executive officers, great emphasis is placed on establishing incentive opportunities that are directly linked with Sherwin-Williams performance and the maximization of shareholder value. The Committee establishes a threshold goal of increased company earnings, and 75% of this earnings increase must be met before a bonus is paid, subject to the Committee's discretion to grant

Table of Contents

awards for individual performance and make adjustments for non-recurring or unusual items. Sherwin-Williams exceeded 75% of the earnings goal established for 2005.

The Committee annually approves target and maximum bonus award levels for the executive officers as a percent of salary. Target bonus awards are determined by using the median incentive compensation available at comparable companies, which is generally equivalent to the amount an executive officer could receive under the Management Incentive Plan if a 100% average of Sherwin-Williams' and the individual's goals are attained. For 2005, annual bonus awards for the executive officers could have ranged from zero, if less than a 75% average of the stated goals were reached, to a target award of between 45% and 95% of the executive officer's base salary (depending upon the executive officer's position) if a 100% average of the stated goals were attained. In the event Sherwin-Williams and an executive officer exceeded a 100% average of the stated goals, bonuses could have been awarded up to an aggregate maximum amount of 70% to 140% of the executive officer's base salary (depending upon position). Consequently, the amount of the annual bonus paid to an executive officer in any year may exceed or fall below the median incentive compensation available at comparable companies. The management compensation program is designed so that executive officers may earn higher than average total compensation for above average performance and lower than average total compensation for below average performance.

The Committee recently approved a change in bonus award levels beginning with bonuses earned for 2006 for the Chief Executive Officer, the Chief Financial Officer, and the President, Paint Stores Group. The Committee increased the maximum bonus award to 165% of base salary for the Chief Executive Officer, increased the maximum bonus award to 135% of base salary for the Chief Financial Officer, and increased the minimum, target and maximum bonus awards to 40%, 75% and 135%, respectively, of base salary for the President, Paint Stores Group. The table below sets forth the minimum, target and maximum cash bonus award levels, as a percent of salary, for the executive officers named in the Summary Compensation Table based upon the executive officer achieving 75%, 100% and 125%, respectively, of his or her individual performance goals.

Named Executive Officer	Incentive Award as a Percentage of Base Salary		
	Minimum	Target	Maximum
C.M. Connor	40	95	165
S. P. Hennessy	40	75	135
J.G. Morikis	40	75	135
L.E. Stellato	30	60	95
C.G. Ivy	30	60	95

Decisions on annual bonuses awarded to an executive officer are based upon the achievement of the threshold company earnings goal and the accomplishment by the executive officer of individual performance goals. Individual performance goals are assigned at the beginning of each year and are approved by the Chief Executive Officer or, with respect to the goals of the Chief Executive Officer, by the Committee. Individual performance goals vary by executive officer and usually relate to the particular business unit or function for which such person has responsibility. Executive officers are encouraged to have quantitative goals that stretch performance and have a significant impact on the improvement of a business unit or the company. Financial performance goals are generally weighted more heavily. Each executive officer's achievement of his performance goals are reviewed and approved by the Committee annually.

Long-term Incentive Compensation. Long-term incentive compensation in the form of stock options and restricted stock may be awarded to any one or all of the executive officers under the 2003 Stock Plan. The purpose of the 2003 Stock Plan is to attract and retain key executive, managerial, technical and professional personnel for Sherwin-Williams by pro-

Table of Contents

viding incentives and rewards for performance. All of the executive officers participate in the 2003 Stock Plan. Stock options and restricted stock are usually granted to the executive officers on an annual basis. Currently, stock options and restricted stock each represent about 50% of the value of long-term incentive compensation grants for executive officers. Grants of stock options and restricted stock vest over time, which encourage executive officers to improve the long-term performance of Sherwin-Williams, rather than to focus on short-term goals, thereby more closely aligning the interests of executive officers with the interests of shareholders. As part of this proxy statement, management is proposing that the shareholders approve a new long-term incentive plan, The Sherwin-Williams Company 2006 Equity and Performance Incentive Plan, which will replace the 2003 Stock Plan.

Stock Options. Grants of stock options are based on competitive market practices. The Committee grants stock options based upon the median market value of the underlying stock relating to stock options that comparable companies have been granting to their executive officers, as calculated under the Black-Scholes method. The specific number of stock options granted to an executive officer is based upon the executive officer's position and level of responsibility. The option exercise price is equal to the fair market value of Sherwin-Williams common stock on the date options are granted. The Board of Directors may not reprice stock options. Stock options typically vest at the rate of one-third per year for three years (beginning one year from the date of grant) and expire ten years from the date of grant. All of the executive officers were granted stock options during 2005.

Restricted Stock. The granting of restricted stock is determined in the same manner that the granting of stock options is determined. If granted, shares of restricted stock are subject to a substantial risk of forfeiture and vest in accordance with performance and time restrictions. Under the 2003 Stock Plan, the number of shares of restricted stock that will vest at the end of the restriction period is based upon the achievement of one or more performance goals. Up to 100% of the number of shares of restricted stock may be forfeited if the performance goals are not achieved. Performance goals may relate to any of the following business criteria: earnings before interest, taxes, depreciation and amortization; earnings per share; return on equity; return on net assets employed; and free cash flow. A performance goal may be measured on a periodic, annual, cumulative or average basis and may be established on a corporate-wide basis or with respect to one or more operating units, divisions, subsidiaries, acquired businesses, minority investments, partnerships or joint ventures.

In February 2005, shares of performance-based restricted stock were granted to all of the executive officers under the 2003 Stock Plan. The shares of restricted stock granted vest over a four-year period. During the four-year period, the executive officers are the beneficial owners of the shares of restricted stock and possess all voting and dividend rights. The number of shares of restricted stock that will actually vest at the end of the four-year period will range from 0% to 100% based upon Sherwin-Williams' achievement of specified financial performance goals relating to average return on average equity and cumulative earnings before interest, taxes, depreciation and amortization over the four-year period. At the end of the four-year period, the Committee will review Sherwin-Williams' performance against the goal and determine the number of shares of restricted stock that will vest.

Long-term incentive opportunities are intended to be competitive with market long-term incentive opportunities. Therefore, the amount of outstanding stock options and shares of restricted stock currently held by an executive officer is generally not considered by the Committee in making awards of stock options and restricted stock.

Other Benefits. Sherwin-Williams provides its executive officers with various retirement and savings programs, health and welfare programs, and other personal executive benefits as part of providing a competitive compensation program. Personal executive benefits may include a company automobile, parking, use of the corporate aircraft, personal liability insurance, an annual physical, club memberships, reimbursement for basic financial planning and

Table of Contents

a home security system. These personal benefits are valued based upon the incremental cost to Sherwin-Williams, including the variable operating costs of corporate aircraft. The incremental cost to Sherwin-Williams of such personal benefits for the named executive officers is set forth in the Summary Compensation Table.

Tally Sheets. When approving changes in compensation of the Chief Executive Officer and the other named executive officers, the Committee reviews a tally sheet for each executive officer that sets forth the dollar amount of all components of his current compensation, including salary, annual incentive compensation, long-term incentive compensation, retirement and savings programs, health and welfare programs and the cost of personal executive benefits. During 2005, the Committee also reviewed potential compensation payments to the Chief Executive Officer and the other named executive officers under various termination scenarios, including in the event of a change of control of Sherwin-Williams. This process included a review of potential severance payment obligations, potential values of vested and unvested restricted stock and stock options, and accumulated balances and projected payment obligations in connection with Sherwin-Williams' retirement and savings programs, including Sherwin-Williams' deferred compensation and supplemental retirement plans. Based upon this review, the Committee determined the total compensation, in the aggregate, for the Chief Executive Officer and the other named executive officers to be reasonable and not excessive.

Chief Executive Officer Compensation. The Committee annually reviews and approves corporate goals and objectives relevant to the Chief Executive Officer's compensation, evaluates the Chief Executive Officer's performance in light of those goals and objectives, and determines the Chief Executive Officer's compensation based on this evaluation. In determining the long-term incentive component of the Chief Executive Officer's compensation, the Committee considers Sherwin-Williams' performance and relative shareholder return, the value of similar awards to chief executive officers at comparable companies, and the awards given to the Chief Executive Officer in the past years.

For 2005, Mr. Connor's compensation consisted of the same principal components as the other executive officers' base salary, an annual bonus, grants of stock options and restricted stock and other benefits. The Committee determined Mr. Connor's compensation based on the factors and criteria described below.

Salary. Mr. Connor's base salary range was determined using the median base salary of chairmen and chief executive officers for manufacturing and retail companies having comparable sales as Sherwin-Williams. The Committee determined Mr. Connor's salary within the range based primarily upon the Committee's evaluation of his performance for the prior year relating to the following financial performance measures: consolidated net sales, diluted earnings per share, after tax return on shareholders' equity, after tax return on sales, free cash flow, and working capital as a percent of sales.

2005. For 2005, the average merit salary increase given generally to Sherwin-Williams' salaried employees was 3.5%, and the range of potential merit increases was 0% to 8%. In February 2005, Mr. Connor received a base salary increase of 4.5%, bringing his base salary to \$1,078,870.

2006. For 2006, the average merit salary increase given generally to Sherwin-Williams' salaried employees has been set at 3.5%, and the range of potential increases has been set at 0% to 8%. In February 2006, the Committee increased Mr. Connor's salary to \$1,116,648, an increase of 3.5%.

Bonus. The amount of Mr. Connor's bonus is based primarily upon Sherwin-Williams' results for financial performance goals that are assigned at the beginning of the year. Mr. Connor's target bonus award is set to approximate the median market bonus available to chief executive officers at comparable companies. Both the goals and Mr. Connor's performance in relation to those goals are reviewed and approved by the Committee.

Table of Contents

2005. In 2005, Mr. Connor earned a cash bonus of \$1,505,000, or 140% of his base salary. The Committee determined Mr. Connor's bonus based upon his achievement of financial performance goals relating to consolidated net sales, diluted earnings per share, after tax return on shareholders' equity, after tax return on sales, free cash flow, and working capital as a percent of sales.

2006. For 2006, the Committee has approved financial performance goals for Mr. Connor and has set his minimum, target and maximum cash bonus award levels at 40%, 95% and 165% of his base salary. Mr. Connor's financial performance goals for 2006 relate to consolidated net sales, diluted earnings per share, after tax return on shareholders' equity, free cash flow, working capital as a percent of sales, and earnings before interest, taxes, depreciation and amortization.

Stock Options and Restricted Stock. In determining the number of stock options and shares of restricted stock awarded to Mr. Connor under the 2003 Stock Plan, the Committee also identified the median market value of the underlying shares relating to stock options and of shares of restricted stock which comparable companies grant to their chief executive officers. The Committee grants stock options and restricted stock to Mr. Connor based upon the same terms and conditions as the Committee approves for all of the executive officers. The amount of stock options and shares of restricted stock currently held by Mr. Connor is not considered by the Committee in making awards of stock options and restricted stock.

2005. In 2005, Mr. Connor was awarded 175,000 stock options at a fair market value of \$43.595, which vest at the rate of one-third per year for three years. Mr. Connor was also awarded 53,750 shares of restricted stock, which vest over a four-year period based upon the achievement of financial performance goals.

2006. In February 2006, Mr. Connor was awarded 59,000 shares of restricted stock, which also vest over a four-year period based upon the achievement of financial performance goals.

Policy on Deductibility of Compensation. Section 162(m) of the Internal Revenue Code generally provides that certain compensation in excess of \$1 million per year paid to a company's chief executive officer and any of its four other highest paid executive officers is not deductible to a company unless the compensation qualifies for an exception. Section 162(m) provides an exception to the deductibility limit for performance-based compensation if certain procedural requirements, including shareholder approval of the material terms of the performance goal, are satisfied. The Committee believes that grants of options and restricted stock under the 2003 Stock Plan qualify for full deductibility under Section 162(m). Compensation paid under the Management Incentive Plan does not qualify for the exception for performance-based compensation.

At this time, based upon Sherwin-Williams' current compensation structure, the Committee believes it is in the best interests of Sherwin-Williams and its shareholders for the Committee to retain flexibility in awarding incentive compensation under the Management Incentive Plan that does not qualify for the exception for performance-based compensation. The Committee will continue to review and evaluate, as necessary, the impact of Section 162(m) on Sherwin-Williams' compensation programs.

* As permitted by the rules of the Securities and Exchange Commission, the amounts disclosed in this column for 2003 are tax gross-up payments and do not include personal benefits because the incremental cost to Sherwin-Williams of such benefits did not exceed \$50,000. Beginning with 2004, Sherwin-Williams is disclosing in this column the total incremental cost to Sherwin-Williams of all personal benefits provided to the named executive officers regardless of amount.

1 Sherwin-Williams provides its executive officers with personal benefits as part of providing a competitive compensation program. These may include such benefits as a company automobile, parking, use of the corporate aircraft, personal liability insurance, an annual physical, club memberships, reimbursement for basic financial planning and a home security system. These benefits are valued based upon the incremental cost to Sherwin-Williams. The incremental cost of personal use of corporate aircraft is calculated based upon the variable operating costs of the aircraft. The incremental cost to Sherwin-Williams of the aggregate personal benefits did not exceed \$50,000 for any named executive officer for any of the three years, except for Mr. Connor for 2004 and 2005. The amounts disclosed in this column for Mr. Connor include: (a) in 2004, \$31,910 for the executive automobile program and (b) in 2005, \$23,063 for the executive automobile program and \$19,724 for use of the corporate aircraft. For 2004, no amounts include tax gross-up payments, except \$4,231 for Mr. Morikis and \$4,931 for Mr. Ivy. For 2005, amounts include the following tax gross-up payments: Mr. Connor (\$13,131), Mr. Hennessy (\$939), Mr. Morikis (\$7,278), Mr. Stellato (\$323) and Mr. Ivy (\$5,441).

2 The dollar value of restricted stock indicated in this column is equal to the number of shares of restricted stock granted during such years multiplied by the closing price of our common stock on the date of grant. The number of shares of restricted stock granted to the named executive officers during 2005 were as follows: Mr. Connor (53,750), Mr. Hennessy (13,750), Mr. Morikis (11,500), Mr. Stellato (6,250) and Mr. Ivy (6,250). At December 31, 2005, the aggregate number and value (calculated by using the closing price of our common stock (\$45.42) on December 30, 2005) of shares of restricted stock held by the named executive officers were as follows: Mr. Connor, 251,750 shares (\$11,434,485); Mr. Hennessy, 63,750 shares (\$2,895,525); Mr. Morikis, 58,500 shares (\$2,657,070); Mr. Stellato, 30,250 shares (\$1,373,955); and Mr. Ivy, 30,250 shares (\$1,373,955). All grants were made under our 2003 Stock Plan. Shares of restricted stock vest over a four-year

period based upon the achievement of specified performance goals. Accordingly, the number of shares and values indicated are not necessarily indicative of the actual number of shares and values which may be realized by the named executive officers.

3 Dividends are paid on all restricted stock at the same rate as paid on our common stock.

4 The amounts disclosed in this column for 2005 include:

company contributions in the amount of \$12,300 for each of Messrs. Connor, Hennessy, Morikis, Stellato and Ivy under our Pension Investment Plan, a defined contribution plan;

1 One-third of the options granted are exercisable on each of the first, second and third anniversary dates of the grant. In the event of death of the optionee or a change of control of Sherwin-Williams, outstanding options become immediately exercisable in full. All rights under outstanding options terminate on the earliest of (a) the date on which the optionee ceases to be an employee except because of death or retirement, (b) three years after the date of death if the optionee dies while employed by Sherwin-Williams or dies following retirement, or (c) the date on which the optionee intentionally commits an act materially harmful to the interests of Sherwin-Williams.

2 The exercise price is equal to the fair market value of our common stock on the date of grant.

3 The amounts disclosed in these columns, which reflect appreciation of the price of our common stock at 5% and 10% annual rates over the ten year terms of the options, are not intended to be a forecast of the price of our common stock and are not necessarily indicative of the actual values which may be realized by the named executive officers or the shareholders. These assumed rates of 5% and 10% would result in the price of our common stock increasing from \$43.595 per share to \$71.01 per share and \$113.07 per share, respectively.

4

Edgar Filing: SHERWIN WILLIAMS CO - Form DEF 14A

The amounts disclosed reflect appreciation of the price of our common stock at 5% and 10% annual rates over a ten year period for all shareholders based on the total number of shares of our common stock outstanding on October 21, 2005 (the date on which the options set forth in this table were granted) and assuming a per share price equal to the exercise price of the options.

**EMPLOYMENT CONTRACTS,
TERMINATION OF EMPLOYMENT
AND CHANGE-IN-CONTROL
ARRANGEMENTS**

Severance Pay Agreements. To ensure continuity and the continued dedication of key executives during any period of uncertainty caused by the possible threat of a takeover, Sherwin-Williams has entered into severance pay agreements with key executives, including each of the executive officers named in the Summary Compensation Table. In the event there is a change of control of Sherwin-Williams and the employment of the executive terminates under certain conditions described in the agreements at any time during the two year period following a change of control, the executive will receive an agreed upon amount of severance pay.

For Mr. Connor, the severance pay agreement provides that upon termination of employment, whether voluntary or involuntary, unless the termination is because of death or by Sherwin-Williams for cause, he will receive accrued salary, bonus and vacation pay. He will also receive a lump sum cash amount equal to four times the sum of (a) twenty-six times his highest regular bi-weekly compensation in effect within the three year period preceding termination, plus (b) the greater of his highest bonus received within the three year period preceding termination or the bonus he would have received for the year of termination had he reached 100% of any stated goals (as explained in the Compensation and Management Development Committee Report on Executive Compensation). In addition, he will continue to participate in Sherwin-Williams employee welfare benefit plans and other benefit arrangements for a period of four years following termination, and receive special retirement benefits so that the total retirement benefits received will be equal to the retirement benefits which would have been received had his employment with Sherwin-Williams continued during the four year period following termination. He will also receive an additional payment equal to the amount of any excise tax imposed on him by Section 4999 of the Internal Revenue Code and any taxes, interest or penalties incurred with respect thereto.

For Messrs. Hennessy, Morikis, Stellato and Ivy, the severance pay agreements provide that upon termination of employment for any reason (including his right to terminate his employment for any reason during the thirty day period immediately following the first anniversary date of a change of control) other than death, disability, by Sherwin-Williams for cause or by the executive for other than good reason, each will receive accrued salary, bonus and vacation pay. Each executive will also receive a lump sum cash amount equal to three times the sum of (a) twenty-six times his highest regular bi-weekly compensation in effect within the three year period preceding termination, plus (b) the greater of his highest bonus received within the three year period preceding termination or the bonus he would have received for the year of termination had he reached 100% of any stated goals (as explained in the Compensation and Management Development Committee Report on Executive Compensation). In addition, each will continue to participate in Sherwin-Williams employee welfare benefit plans and other benefit arrangements for a period of three years following termination, and receive special retirement benefits so that the total retirement benefits received will be equal to the retirement benefits which would have been received had his employment with Sherwin-Williams continued during the three year period following termination. Each will also receive an additional payment equal to the amount of any excise tax imposed on him by Section 4999 of the Internal Revenue Code and any taxes, interest or penalties incurred with respect thereto.

Assuming a termination date of February 28, 2006, the lump sum cash amounts payable under the foregoing provisions of the severance pay agreements (including any amount relating to the excise tax described above) would have been approximately \$17,783,614, \$4,748,844, \$2,509,578, \$2,188,542 and \$1,972,212 for Messrs. Connor, Hennessy, Morikis, Stellato and Ivy, respectively.

The salary and other benefits provided by the severance pay agreements will be payable either from an escrow fund established by Sherwin-Williams with a national banking institution or from Sherwin-Williams general funds.

Table of Contents

Sherwin-Williams has agreed to indemnify each executive for any legal expense incurred in the enforcement of his rights under the severance pay agreements.

Employment Agreements. Mr. Ivy has an employment agreement with Sherwin-Williams. In addition to his basic compensation, incentive compensation, and participation in employee benefit plans and the 2003 Stock Plan, Mr. Ivy is entitled to receive, in the event Sherwin-Williams terminates his employment for any reason, except in the event termination is the result of a change of control of Sherwin-Williams, an amount equal to one and one-half times the sum of his annual salary and any bonus paid or payable to him for the same annual period. In the event termination of employment is the result of a change of control of Sherwin-Williams, Mr. Ivy is entitled to receive, at the time of his termination of employment, an amount equal to his annual assured compensation. Annual assured compensation is defined as the sum of (a) twenty-six times his highest regular bi-weekly salary in effect within the three year period preceding termination, plus (b) the greater of the highest bonus paid or payable within the three year period preceding termination or the bonus he would have received for the year of termination had he reached 100% of any stated goals (as explained in the Compensation and Management Development Committee Report on Executive Compensation).

Assuming a termination date of February 28, 2006 as a result of a change of control, the cash amount payable to Mr. Ivy under this agreement would have been approximately \$657,404. The amount received under this agreement due to a termination of employment resulting from a change of control will be offset against the amount payable under the severance pay agreement described above.

None of the other executive officers named in the Summary Compensation Table have employment agreements with Sherwin-Williams.

Benefit Plans and Arrangements. Sherwin-Williams stock plans, retirement plans and deferred compensation plans provide for accelerated vesting, and for certain plans accelerated payout of benefits, for all participants in the event of a change of control of Sherwin-Williams. Under Sherwin-Williams stock option and restricted stock plans, in the event of a change of control, outstanding stock options become immediately exercisable in full and shares of restricted stock no longer are subject to any substantial risk of forfeiture, restrictions on transfer or vesting requirements. Under Sherwin-Williams deferred compensation plans and retirement plans, in the event of a change of control, the amounts to which participants are entitled are immediately distributable in a lump sum cash payment.

Sherwin-Williams salaried employees are eligible to participate in funded retirement plans that are qualified under the applicable provisions of the Internal Revenue Code. The Code, however, places limits on the benefits that can be contributed and/or paid from a qualified retirement plan to higher compensated employees. Sherwin-Williams employees whose retirement benefits are limited under the Code are eligible to participate in a non-qualified deferred compensation plan maintained by Sherwin-Williams that provides eligible employees the retirement benefits they would have received under the qualified retirement plans but for the limitations imposed under the Code. However, pursuant to the terms of such non-qualified plan, certain key management employees are not eligible to participate in such plan. Therefore, to provide these key management employees with the same after-tax amount at retirement age as would have been provided under such non-qualified plan, Sherwin-Williams pays supplemental compensation amounts to fund individual grantor trusts established by participating key management employees, including certain executive officers. Each key employee is the beneficial owner of all accumulated amounts within their respective grantor trust, and Sherwin-Williams has no right, title or interest of any kind with respect to funds accumulated in the grantor trusts. The supplemental compensation amounts paid to the named executive officers are disclosed in the Summary Compensation Table.

Indemnity Agreements. Regulations provide that Sherwin-Williams will indemnify, to the full extent then permitted by law, any director or officer or former director or officer of Sherwin-Williams who was or is a party or is threatened to be

Table of Contents

made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, by reason of the fact that the individual is or was a director or an officer, employee or agent of Sherwin-Williams, or is or was serving at the request of Sherwin-Williams as a director, trustee, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise. Sherwin-Williams has entered into indemnity agreements with its directors and officers contractually obligating Sherwin-Williams to provide such protection.

**APPROVAL OF THE SHERWIN-WILLIAMS
COMPANY 2006 EQUITY AND
PERFORMANCE INCENTIVE PLAN (PROPOSAL 2)**

On February 22, 2006, the Board of Directors of Sherwin-Williams unanimously approved and adopted, subject to the approval of Sherwin-Williams shareholders at the 2006 Annual Meeting, The Sherwin-Williams Company 2006 Equity and Performance Incentive Plan (the Incentive Plan). The Incentive Plan affords the Board of Directors the flexibility to design equity-based compensatory awards that are responsive to Sherwin-Williams business needs and authorizes a variety of awards designed to advance the interests and long-term success of Sherwin-Williams.

The Incentive Plan replaces The Sherwin-Williams Company 2003 Stock Plan, which was approved by shareholders at the 2002 Annual Meeting. If the Incentive Plan is approved by shareholders, it will become effective on the day following the Annual Meeting, and no further awards will be made under the 2003 Stock Plan. Outstanding awards under the 2003 Stock Plan will continue in effect in accordance with their terms.

The following is a summary of the principal provisions of the Incentive Plan, a copy of which is attached as Appendix B to this proxy statement.

Incentive Plan Highlights

The Incentive Plan authorizes the Board of Directors, or a committee of the Board of Directors, to provide equity-based compensation in the form of option rights, stock appreciation rights (SARs), restricted stock, restricted stock units, performance shares and performance units for the purpose of providing Sherwin-Williams officers and employees incentives and rewards for performance. Some of the key features of the Incentive Plan are set forth below and are described more fully under the heading Summary of the Incentive Plan.

Incentive Plan Limits. Total awards under the Incentive Plan are limited to 10,000,000 shares of Sherwin-Williams common stock, of which no more than 3,000,000 may be issued in the form of awards other than stock options or SARs (after taking into account forfeitures, expirations and cancellations). The Incentive Plan also limits the aggregate number of stock options and SARs that may be granted to any one participant in a calendar year to 500,000. The aggregate number of restricted shares and restricted stock units that specify management objectives (as described below) and performance shares that may be granted to any one participant in a calendar year is limited to 200,000. In addition, no participant may receive performance units in any calendar year having a value in excess of \$5,000,000. Any shares remaining available under the 2003 Stock Plan will not be added to the shares available under the Incentive Plan.

No Liberal Recycling Provisions. The Incentive Plan provides that, except for awards settled in cash, only shares covered by awards that expire, are cancelled or are forfeited will again be available for issuance under the Incentive Plan. The following shares will not be added back to the aggregate plan limit: (a) shares tendered in payment of the option price; (b) shares withheld by Sherwin-Williams to satisfy any tax withholding obligation; and (c) shares that are repurchased by Sherwin-Williams with option right proceeds. Further, all shares covered by a SAR, to the extent that it is exercised and settled in shares, whether or not all shares covered by the award are actually issued to the participant upon exercise of the right, shall be considered issued or transferred pursuant to the Incentive Plan.

Minimum Vesting Periods. The Incentive Plan provides for the following minimum vesting periods, which may be subject to acceleration in the event of the retirement, death or

Table of Contents

disability of the participant or a change of control of Sherwin-Williams:

Restricted stock and restricted stock units may not become unrestricted solely by the passage of time before the third anniversary of the date of grant.

Restricted stock and restricted stock units that vest upon the achievement of management objectives cannot vest sooner than one year from the date of grant.

The period of time within which management objectives relating to performance shares and performance units must be achieved will be a minimum of one year.

Notwithstanding the foregoing, up to 5% of the maximum number of shares of common stock available may be used for awards that do not comply with the three-year and one-year requirements describe above.

No Repricing. Sherwin-Williams has never repriced underwater stock options, and option repricing is prohibited without shareholder approval under the Incentive Plan.

Other Features.

The Incentive Plan also provides that no stock options or SARs will be granted with an exercise or base price less than the fair market value of Sherwin-Williams common stock on the date of grant. The fair market value of a share of Sherwin-Williams common stock as reported on the New York Stock Exchange on February 28, 2006 was \$45.93 per share.

The Incentive Plan is designed to allow awards to qualify as performance-based compensation under Section 162(m) of the Internal Revenue Code (the Code).

It is intended that the Board of Directors will delegate administration of the Incentive Plan to the Compensation and Management Development Committee of the Board of Directors (consisting of only independent directors).

Summary of the Incentive Plan

Shares Subject to the Incentive Plan. Subject to adjustment as provided in the Incentive Plan, the number of shares of Sherwin-Williams common stock that may be issued or transferred (a) upon the exercise of option rights or SARs; (b) as restricted stock and released from substantial risks of forfeiture; (c) in payment of restricted stock units; (d) in payment of performance shares or performance units that have been earned; or (e) in payment of dividend equivalents paid with respect to awards, will not exceed in the aggregate 10,000,000 shares of common stock, plus any shares relating to awards that expire, are forfeited or are cancelled under the Incentive Plan. These shares may be shares of original issuance or treasury shares or a combination of the foregoing.

Shares covered by an award shall not be counted as used unless and until they are actually issued and delivered to a participant. Without limiting the generality of the foregoing, upon payment in cash of the benefit provided by any award, any shares that were covered by that award will be available for issue or transfer under the Incentive Plan. Notwithstanding anything to the contrary: (a) shares tendered in payment of the exercise price of an option right shall not be added to the aggregate plan limit described above; (b) shares withheld by Sherwin-Williams to satisfy any tax withholding obligation shall not be added to the aggregate plan limit described above; (c) shares that are repurchased by Sherwin-Williams with option right proceeds shall not be added to the aggregate plan limit described above; and (d) all shares covered by a SAR, to the extent that it is exercised and settled in shares, whether or not all shares covered by the award are actually issued to the participant upon exercise of the right, shall be considered issued or transferred pursuant to the Incentive Plan.

The aggregate number of shares of common stock actually issued or transferred by Sherwin-Williams upon the exercise of incentive stock options (ISOs) will not exceed 10,000,000 shares. The number of shares of common stock issued as restricted stock, restricted stock units, performance shares and performance units (taking into account any forfeitures, expirations and cancellations) will not, in the aggregate, exceed 3,000,000 shares. Further, no participant will be granted option rights or SARs, in the aggregate, for more than 500,000 shares of common stock during any

Table of Contents

calendar year, and no participant will be granted restricted stock or restricted stock units that specify management objectives or performance shares, in the aggregate, for more than 200,000 shares of common stock during any calendar year. In no event shall any participant in any calendar year receive an award of performance units having an aggregate maximum value as of their respective dates of grant in excess of \$5,000,000. The foregoing limits are subject to certain adjustments as provided in the Incentive Plan.

Up to 5% of the maximum number of shares of common stock available under the Incentive Plan may be used for awards that do not comply with the three-year and one-year requirements applicable to such awards as described below.

Eligibility. Officers and employees of Sherwin-Williams and its subsidiaries or any person who has agreed to commence serving in any of those capacities within 90 days of the date of grant may be selected by the Board of Directors to receive benefits under the Incentive Plan. The selection of those officers and employees who will receive awards, and the number of shares subject to awards, is entirely within the discretion of the Board of Directors. The current number of officers and employees who are likely to be selected to participate in the Incentive Plan is approximately 1,400.

Option Rights. Option rights may be granted that entitle the optionee to purchase shares of common stock at a price not less than the fair market value per share on the date of grant. The option price is payable (a) in cash; (b) by the transfer to Sherwin-Williams of shares of common stock owned by the optionee having a value at the time of exercise equal to the option price; (c) by a combination of such payment methods; or (d) by such other methods as may be approved by the Board of Directors. To the extent permitted by law, any grant of an option right may provide for deferred payment of the option price from the proceeds of sale through a broker of some or all of the shares to which the exercise relates.

Option rights may be any of the following: (a) options (including but not limited to ISOs) intended to qualify under particular provisions of the Code, (b) options not intended to so qualify, or (c) a combination of the foregoing. ISOs may only be granted to participants who satisfy the definition of employee under Section 3401(c) of the Code.

No option right may be exercisable more than 10 years from the date of grant. Each grant will specify the period of continuous service with Sherwin-Williams that is necessary before the option rights will become exercisable. A grant of option rights may provide for the earlier vesting of such option rights in the event of retirement, death or disability of the participant or a change of control of Sherwin-Williams. Successive grants may be made to the same optionee whether or not option rights previously granted remain unexercised. Any grant of option rights may specify management objectives that must be achieved as a condition to exercising such rights. Before the exercise of such rights, the Board must determine that the management objectives have been satisfied. Option rights will be subject to an evidence of award containing such terms and provisions, consistent with the Incentive Plan, as the Board of Directors may approve.

SARs. A SAR is a right, exercisable by surrender of the related option right (if granted in tandem with option rights) or by itself (if granted as a free-standing SAR), to receive from Sherwin-Williams an amount not exceeding 100% of the spread between the base price (or option price if a tandem SAR) and the value of a share of common stock on the date of exercise. Any grant may specify that the amount payable on exercise of a SAR may be paid in cash, in shares of common stock, or in any combination thereof, and may either grant to the participant or retain in the Board of Directors the right to elect among those alternatives. Any SAR grant may specify that the amount payable on exercise may not exceed a maximum specified by the Board of Directors at the time of grant. Any grant may specify waiting periods before exercise and permissible exercise dates and periods. Any grant of a SAR may specify that such SAR be exercised only in the event of, or earlier in the event of, retirement, death or disability of the participant or a change of control of Sherwin-Williams. Any grant of SARs may specify management objectives that must be achieved as a condition to exercise such rights. Before the exercise of

Table of Contents

such SARs, the Board must determine that the management objectives have been satisfied. SARs will be subject to an evidence of award containing such terms and provisions, consistent with the Incentive Plan, as the Board of Directors may approve.

Tandem SARs may be exercised only at a time when the related option right is exercisable and the spread is positive, and requires that the related option right be surrendered for cancellation. Successive grants of tandem SARs may be made to the same participant regardless of whether any tandem SAR previously granted to the participant remains unexercised.

Free-Standing SARs must have a base price that is not less than the fair market value of a share of common stock on the date of grant. Successive grants of free-standing SARs may be made to the same participant regardless of whether any free-standing SARs remain unexercised. No free-standing SAR may be exercised more than 10 years from the date of grant.

Restricted Stock. A grant of restricted stock constitutes the immediate transfer by Sherwin-Williams to a participant of ownership of a specific number of shares of common stock in consideration of the performance of services. The participant is entitled immediately to voting, dividend and other ownership rights in such shares, but subject to a substantial risk of forfeiture and restrictions on transfer as described below. Such grant or sale may be made without additional consideration or in consideration of a payment by the participant that is less than current fair market value of common stock.

Restricted stock that vests upon the passage of time must be subject to a substantial risk of forfeiture within the meaning of Section 83 of the Code for at least three years, as the Board of Directors may determine at the date of grant. To enforce these forfeiture provisions, the transferability of restricted stock will be prohibited or restricted in a manner and to the extent prescribed by the Board of Directors for the applicable period. The Board of Directors may provide for a shorter period during which the forfeiture provisions are to apply in the event of retirement, death or disability of the participant or a change of control of Sherwin-Williams.

Any grant of restricted stock may specify management objectives that, if achieved, will result in termination or early termination of the restrictions applicable to such shares. If the grant of restricted stock provides for management objectives, the restrictions cannot lapse sooner than one year from the date of grant, but may provide for earlier lapse in the event of the retirement, death or disability of the participant or the change of control of Sherwin-Williams. Any such grant may also specify in respect of such management objectives a minimum acceptable level of achievement and may set forth a formula for determining the number of shares of restricted stock on which restrictions will terminate if performance is at or above the minimum level, but below full achievement of the management objectives. Before termination or early termination of the restrictions, the Board of Directors must determine that the management objectives have been satisfied. Any grant or sale of restricted stock may require that any dividends or other distributions paid thereon during the period of the restrictions be automatically deferred and reinvested in additional shares of restricted stock, which may be subject to the same restrictions as the underlying award. Restricted stock will be subject to an evidence of award containing such terms and provisions, consistent with the Incentive Plan, as the Board of Directors may approve.

Restricted Stock Units. A grant of restricted stock units constitutes an agreement by Sherwin-Williams to deliver shares of common stock or cash to the participant in the future in consideration of the performance of services, but subject to the fulfillment of such conditions (including management objectives) during the restriction period as the Board of Directors may specify. Awards of restricted stock units may be made without additional consideration or in consideration of a payment by such participant that is less than the fair market value per share at the date of grant. During the restriction period, the participant has no right to transfer any rights under his or her award and no right to vote such restricted stock units, but the Board of Directors may, at the date of grant, authorize the payment of dividend equivalents on such restricted stock units on either a current or deferred or contingent basis, either in cash or in additional shares

of common stock. Each grant or sale will specify the time and manner of payment of restricted stock units that have been earned. Any grant or sale may specify that the amount payable may be paid in cash, in shares of common stock or in any combination thereof and may either grant to the participant or retain in the Board of Directors the right to elect among those alternatives.

Restricted stock units must be subject to a restriction period of at least three years if such restriction period lapses only by the passage of time, as determined by the Board of Directors at the date of grant. The Board of Directors may provide for a shorter restriction period in the event of retirement, death or disability of the participant or a change of control of Sherwin-Williams. Any grant of restricted stock units may specify management objectives that, if achieved, will result in termination or early termination of the restriction period. If the grant of restricted stock units provides for management objectives, the restriction period cannot lapse sooner than one year from the date of grant, but may be subject to earlier lapse in the event of retirement, death or disability of the participant or a change of control of Sherwin-Williams. Any such grant may also specify in respect of such management objectives a minimum acceptable level of achievement and may set forth a formula for determining the number of shares of restricted stock units on which the restriction period will terminate if performance is at or above the minimum level, but below full achievement of the management objectives. Before the termination or early termination of the restrictions applicable to such restricted stock units, the Board of Directors must determine that the management objectives have been satisfied. Restricted stock units will be subject to an evidence of award containing such terms and provisions, consistent with the Incentive Plan, as the Board of Directors may approve.

Performance Shares and Performance Units. A performance share is the equivalent of one share of common stock and a performance unit is the equivalent of \$1.00 or such other value as determined by the Board of Directors. The participant will be given one or more management objectives to meet within a specified performance period. Each grant may also specify management objectives level or levels. The specified performance period will be a period of time not less than one year, except in the case of retirement, death or disability of the participant or a change of control of Sherwin-Williams, if the Board of Directors shall so determine. If by the end of the performance period, the participant has achieved the management objectives, the participant will be deemed to have fully earned the performance shares or performance units. If the participant has not fully achieved the management objectives, but has attained or exceeded the predetermined level or levels of acceptable achievement, the participant will be deemed to have partly earned the performance shares or performance units in accordance with a predetermined formula. Before such awards will be earned and paid, the Board of Directors must determine that the management objectives have been satisfied.

To the extent earned, the performance shares or performance units will be paid to the participant at the time and in the manner determined by the Board of Directors. Any grant may specify that the amount payable may be paid in cash, shares of common stock or any combination thereof and may either grant to the participant or retain in the Board of Directors the right to elect among those alternatives. The grant may provide for the payment of dividend equivalents in cash or in shares of common stock on a current, deferred or contingent basis. Performance shares and performance units will be subject to an evidence of award containing such terms and provisions, consistent with the Incentive Plan, as the Board of Directors may approve.

Management Objectives. The Incentive Plan requires that the Board of Directors establish management objectives for purposes of performance shares and performance units. When so determined by the Board of Directors, option rights, SARs, restricted stock or restricted stock units may also specify management objectives. Management objectives may be described in terms of either company-wide objectives or objectives that are related to the performance of the individual participant or subsidiary, division, department, region or function within Sherwin-Williams or a subsidiary in which the participant is employed. The management objectives may also relate to the perform-

ance of other companies. Management objectives applicable to any award to a participant who is, or is determined by the Board of Directors likely to become, a covered employee within the meaning of Section 162(m) of the Code, will be limited to specified levels of or growth in: (a) appreciation in value of shares; (b) total shareholder return; (c) earnings per share; (d) operating income; (e) net income; (f) pretax earnings; (g) earnings before interest, taxes, depreciation and amortization; (h) pro forma net income; (i) return on equity; (j) return on designated assets; (k) return on capital; (l) economic value added; (m) revenues; (n) expenses; (o) operating profit margin; (p) operating cash flow; (q) free cash flow; (r) cash flow return on investment; (s) operating margin or net profit margin; or (t) any of the above criteria as compared to the performance of a published or a special index deemed applicable by the Board of Directors, including, but not limited to, the Standard & Poor's 500 Stock Index.

If the Board of Directors determines that a change in the business, operations, corporate structure or capital structure of Sherwin-Williams, or the manner in which it conducts its business, or other events or circumstances render the management objectives unsuitable, the Board of Directors may in its discretion modify such management objectives or the level or levels of achievement, in whole or in part, as the Board of Directors deems appropriate and equitable, except in the case of a covered employee where such action would result in the loss of the otherwise available exemption under Section 162(m) of the Code. In such case, the Board of Directors may not make any modification of the management objectives or acceptable level or levels of achievement with respect to such covered employee.

Administration. The Incentive Plan is to be administered by the Board of Directors, except that the Board of Directors has the authority to delegate any or all of its powers to the Compensation and Management Development Committee of the Board of Directors or another committee of the Board of Directors (or a subcommittee thereof). The Board of Directors is authorized to interpret the Incentive Plan and related agreements and other documents. To the extent permitted by Ohio law, the Board of Directors may delegate to one or more officers of Sherwin-Williams the authority to grant and determine the terms and conditions of awards granted under the Incentive Plan. However, such delegation will not be permitted with respect to awards to any executive officer or any person subject to Section 162(m) of the Code.

Adjustments. The number or kind of shares covered by outstanding awards under the Incentive Plan and, if applicable, the prices per share applicable thereto, are subject to adjustment in the event of stock dividends, stock splits, combinations of shares, recapitalizations, mergers, consolidations, spin-offs, reorganizations, liquidations, issuances of rights or warrants, and similar events. In the event of any such transaction or event, the Board of Directors, in its discretion, may provide in substitution for any or all outstanding awards under the Incentive Plan such alternative consideration (including cash), if any, as it may determine to be equitable in the circumstances and may require the surrender of all awards so replaced. The Board of Directors may also make or provide for such adjustments in the number of shares available under the Incentive Plan and the other limitations contained in the Incentive Plan as the Board of Directors may determine appropriate to reflect any transaction or event described above.

Transferability. No option right or SAR granted under the Incentive Plan is transferable by a participant, except upon death, by will or by the laws of descent and distribution. Except as otherwise determined by the Board of Directors, option rights and SARs are exercisable during the optionee's lifetime only by him or her or by his or her guardian or legal representative.

The Board of Directors may specify at the date of grant that part or all of the shares of common stock that are (a) to be issued or transferred by Sherwin-Williams upon exercise of option rights or SARs, upon termination of the restriction period applicable to restricted stock units or upon payment under any grant of performance shares or performance units or (b) no longer subject to the substantial risk of forfeiture and restrictions on transfer with

respect to restricted stock, will be subject to further restrictions on transfer.

Withholding Taxes. To the extent that Sherwin-Williams is required to withhold federal, state, local or foreign taxes in connection with any payment made or benefit realized by a participant or other person under the Incentive Plan, and the amounts available to Sherwin-Williams for such withholding are insufficient, it will be a condition to the receipt of such payment or the realization of such benefit that the participant or such other person make arrangements satisfactory to Sherwin-Williams for payment of the balance of such taxes required to be withheld, which arrangements (in the discretion of the Board of Directors) may include relinquishment of a portion of such benefit.

If a participant's benefit is to be received in the form of common stock, and such participant fails to make arrangements for the payment of tax, Sherwin-Williams shall withhold such number of shares of common stock having a value equal to the amount required to be withheld. Notwithstanding the foregoing, unless otherwise provided by the Board of Directors, when a participant is required to pay Sherwin-Williams an amount required to be withheld under applicable income and employment tax laws, the participant may elect to satisfy the obligation, in whole or in part, by electing to have withheld, from the shares required to be delivered to the participant, such number of shares of common stock having a value equal to the amount required to be withheld (except in the case of restricted stock where an election under Section 83(b) of the Code has been made), or by delivering to Sherwin-Williams other shares of common stock held by such participant. The shares used for tax withholding will be valued at an amount equal to the fair market value of such common stock on the date the benefit is to be included in the participant's income. In no event shall the fair market value of the shares of common stock to be withheld and/or delivered to satisfy applicable withholding taxes in connection with the benefit exceed the minimum amount of taxes required to be withheld. Participants shall also make such arrangements as Sherwin-Williams may require for the payment of any withholding tax obligation that may arise in connection with the disposition of shares of common stock acquired upon the exercise of option rights.

Compliance with Section 409A of the Code. The American Jobs Creation Act of 2004, enacted on October 22, 2004, revised the federal income tax law applicable to certain types of awards that may be granted under the Incentive Plan. To the extent applicable, it is intended that the Incentive Plan and any grants made under the Incentive Plan comply with the provisions of Section 409A of the Code. The Incentive Plan and any grants made under the Incentive Plan will be administered in a manner consistent with this intent, and any provision of the Incentive Plan that would cause the Incentive Plan or any grant made under the Incentive Plan to fail to satisfy Section 409A shall have no force and effect until amended to comply with Section 409A (which amendment may be retroactive to the extent permitted by Section 409A and may be made by Sherwin-Williams without the consent of the participants). Any reference to Section 409A will also include any proposed, temporary or final regulations, or any other guidance, promulgated with respect to such Section by the U.S. Department of the Treasury or the Internal Revenue Service.

Effective Date. The Incentive Plan will be effective the date immediately following the date it is approved by shareholders.

Amendments. The Board of Directors may amend the Incentive Plan from time to time without further approval by Sherwin-Williams shareholders, except if an amendment (a) would materially increase the benefits accruing to participants; (b) would materially increase the number of securities which may be issued under the Incentive Plan; (c) would materially modify the requirements for participation in the Incentive Plan; or (d) must otherwise be approved by the shareholders in order to comply with applicable law or the rules and regulations of the New York Stock Exchange. In addition, except for certain adjustments described above, the Board of Directors will not, without further approval of the shareholders, authorize the amendment of any outstanding option right to reduce the option price, or cancel any option right and replace it with an award having a lower option price.

Table of Contents

If permitted by Section 409A of the Code, in case of a termination of employment by reason of death, disability or normal or early retirement, or in the case of unforeseeable emergency or other special circumstances, of a participant who holds an option right or SAR not immediately exercisable in full, or any shares of restricted stock as to which the substantial risk of forfeiture or the prohibition or restriction on transfer has not lapsed, or any restricted stock units as to which the restriction period has not been completed, or any performance shares or performance units which have not been fully earned, or any other awards made pursuant to the Incentive Plan subject to any vesting schedule or transfer restriction, or who holds shares of common stock subject to any other transfer restriction imposed pursuant to the Incentive Plan, the Board of Directors may, in its sole discretion, accelerate the time at which such option right, SAR or other award may be exercised or the time at which such substantial risk of forfeiture or prohibition or restriction on transfer will lapse or the time when such restriction period will end or the time at which such performance shares or performance units will be deemed to have been fully earned or the time when such transfer restriction will terminate or may waive any other limitation or requirement under any such award.

Subject to the prohibition on option repricing described above, the Board of Directors may amend the terms of any award granted under the Incentive Plan prospectively or retroactively, except in the case of a covered employee where such action would result in the loss of the otherwise available exemption of the award under Section 162(m) of the Code. In such case, the Board of Directors will not make any modification of the management objectives or the level or levels of achievement with respect to such covered employee. Subject to adjustments (as described above), no such amendment shall impair the rights of any participant without his or her consent. The Board of Directors may, in its discretion, terminate the Incentive Plan at any time. Termination of the Incentive Plan will not affect the rights of participants or their successors under any awards outstanding and not exercised in full on the date of termination.

Term of the Incentive Plan. No grant will be made under the Incentive Plan more than 10 years after the date on which the Incentive Plan is first approved by Sherwin-Williams shareholders, but all grants made on or prior to such date will continue in effect thereafter subject to the terms thereof and of the Incentive Plan.

Federal Income Tax Consequences

The following is a brief summary of some of the federal income tax consequences of certain transactions under the Incentive Plan based on federal income tax laws in effect on January 1, 2006. This summary is not intended to be complete and does not describe state or local tax consequences.

Tax Consequences to Participants.

Non-qualified Option Rights. In general, (a) no income will be recognized by an optionee at the time a non-qualified option right is granted; (b) at the time of exercise of a non-qualified option right, ordinary income will be recognized by the optionee in an amount equal to the difference between the option price paid for the shares and the fair market value of the shares, if unrestricted, on the date of exercise; and (c) at the time of sale of shares acquired pursuant to the exercise of a non-qualified option right, appreciation (or depreciation) in value of the shares after the date of exercise will be treated as either short-term or long-term capital gain (or loss) depending on how long the shares have been held.

Incentive Option Rights. No income generally will be recognized by an optionee upon the grant or exercise of an ISO. The exercise of an ISO, however, may result in alternative minimum tax liability. If shares of common stock are issued to the optionee pursuant to the exercise of an ISO, and if no disqualifying disposition of such shares is made by such optionee within two years after the date of grant or within one year after the transfer of such shares to the optionee, then upon sale of such shares, any amount realized in excess of the option price will be taxed to the optionee as a long-term capital gain and any loss sustained will be a long-term capital loss.

If shares of common stock acquired upon the exercise of an ISO are disposed of prior to

Table of Contents

the expiration of either holding period described above, the optionee generally will recognize ordinary income in the year of disposition in an amount equal to the excess (if any) of the fair market value of such shares at the time of exercise (or, if less, the amount realized on the disposition of such shares if a sale or exchange) over the option price paid for such shares. Any further gain (or loss) realized by the participant generally will be taxed as short-term or long-term capital gain (or loss) depending on the holding period.

SARs. No income will be recognized by a participant in connection with the grant of a tandem SAR or a free-standing SAR. When the SAR is exercised, the participant normally will be required to include as taxable ordinary income in the year of exercise an amount equal to the amount of cash received and the fair market value of any unrestricted shares of common stock received on the exercise.

Restricted Stock. The recipient of restricted stock generally will be subject to tax at ordinary income rates on the fair market value of the restricted stock (reduced by any amount paid by the participant for such restricted stock) at such time as the shares are no longer subject to forfeiture or restrictions on transfer for purposes of Section 83 of the Code (Restrictions). However, a recipient who so elects under Section 83(b) of the Code within 30 days of the date of transfer of the shares will have taxable ordinary income on the date of transfer of the shares equal to the excess of the fair market value of such shares (determined without regard to the Restrictions) over the purchase price, if any, of such restricted stock. If a Section 83(b) election has not been made, any dividends received with respect to restricted stock that is subject to the Restrictions generally will be treated as compensation that is taxable as ordinary income to the participant.

Restricted Stock Units. No income generally will be recognized upon the award of restricted stock units. Any subsequent transfer of unrestricted shares of common stock or cash in satisfaction of such award will generally result in the recipient recognizing ordinary income at the time of transfer, in an amount equal to the aggregate amount of cash and the fair market value of the unrestricted shares of common stock received over the amount paid, if any, by the participant.

Performance Shares and Performance Units. No income generally will be recognized upon the grant of performance shares or performance units. Upon payment in respect of the earn-out of performance shares or performance units, the recipient generally will be required to include as taxable ordinary income in the year of receipt an amount equal to the amount of cash received and the fair market value of any unrestricted shares of common stock received.

Tax Consequences to Sherwin-Williams

To the extent that a participant recognizes ordinary income in the circumstances described above, Sherwin-Williams or the subsidiary for which the participant performs services will be entitled to a corresponding deduction provided that, among other things, the income meets the test of reasonableness, is an ordinary and necessary business expense, is not an excess parachute payment within the meaning of Section 280G of the Code and is not disallowed by the \$1 million limitation on certain executive compensation under Section 162(m) of the Code.

New Plan Benefits

It is not possible to determine specific amounts and types of awards that may be awarded in the future under the Incentive Plan because the grant and actual pay-out of awards are discretionary.

The Board of Directors unanimously recommends a vote FOR Proposal 2 to approve the Incentive Plan.

APPROVAL OF THE SHERWIN-WILLIAMS COMPANY 2006 STOCK PLAN FOR NONEMPLOYEE DIRECTORS (PROPOSAL 3)

On February 22, 2006, the Board of Directors of Sherwin-Williams unanimously approved and adopted, subject to the approval of Sherwin-Williams shareholders at the 2006 Annual Meeting, The Sherwin-Williams Company 2006 Stock Plan for Nonemployee Directors (the Director Stock Plan). The purpose of the Director Stock Plan is to attract and retain nonemployee directors of Sherwin-Williams. The Board of Directors believes the Director

Table of Contents

Stock Plan will provide nonemployee directors with additional incentive to serve Sherwin-Williams by increasing their proprietary interest in the financial success and long-term growth of Sherwin-Williams.

The Director Stock Plan replaces The Sherwin-Williams Company 1997 Stock Plan for Nonemployee Directors (the 1997 Director Stock Plan), which was approved by shareholders at the 1997 Annual Meeting. If the Director Stock Plan is approved by shareholders, it will become effective on the day following the Annual Meeting, and no further awards will be made under the 1997 Director Stock Plan. Outstanding awards under the 1997 Director Stock Plan will continue in effect in accordance with their terms.

The following is a summary of the principal provisions of the Director Stock Plan, a copy of which is attached as Appendix C to this proxy statement.

Director Stock Plan Highlights

The Director Stock Plan authorizes the Board of Directors, or a committee of the Board of Directors, to provide equity-based compensation in the form of option rights, stock appreciation rights (SARs), restricted stock and restricted stock units for the purpose of attracting and retaining Sherwin-Williams nonemployee directors. Some of the key features of the Director Stock Plan are set forth below and are described more fully under the heading Summary of the Director Stock Plan.

Director Stock Plan Limits. Total awards under the Director Stock Plan are limited to 200,000 shares of Sherwin-Williams common stock, plus any shares relating to awards that expire, are forfeited or are cancelled under the Director Stock Plan. Any shares remaining available under the 1997 Director Stock Plan will not be added to the shares available under the Director Stock Plan.

No Liberal Recycling Provisions. As in the case of the Incentive Plan, the Director Stock Plan provides that, except for awards settled in cash, only shares covered by awards that expire, are cancelled or are forfeited will again be available for issuance under the Director Stock Plan.

No Repricing. Sherwin-Williams has never repriced underwater stock options, and option repricing is prohibited without shareholder approval under the Director Stock Plan and the Incentive Plan.

Summary of the Director Stock Plan

Shares Subject to the Director Stock Plan. Subject to adjustment as provided in the Director Stock Plan, the number of shares of Sherwin-Williams common stock that may be issued or transferred (a) upon the exercise of option rights or SARs; (b) as restricted stock and released from substantial risks of forfeiture; (c) in payment of restricted stock units; or (d) in payment of dividend equivalents paid with respect to restricted stock units, will not exceed in the aggregate 200,000 shares of common stock, plus any shares relating to awards that expire, are forfeited or are cancelled under the Director Stock Plan. These shares may be shares of original issuance or treasury shares or a combination of the foregoing.

Shares covered by an award granted under the Director Stock Plan shall not be counted as used unless and until they are actually issued and delivered to a participant. Without limiting the generality of the foregoing, upon payment in cash of the benefit provided by any award granted under the Director Stock Plan, any shares that were covered by that award will be available for issue or transfer under the Director Stock Plan. Notwithstanding anything to the contrary: (a) shares tendered in payment of the exercise price of an option right shall not be added to the aggregate plan limit described above; (b) shares that are repurchased by Sherwin-Williams with option right proceeds shall not be added to the aggregate plan limit described above; and (c) all shares covered by a SAR, to the extent that it is exercised and settled in shares, whether or not shares are actually issued to the participant upon exercise of the right, shall be considered issued or transferred pursuant to the Director Stock Plan.

The number of shares issued as restricted stock or restricted stock units (taking into account any forfeitures, expirations and cancellations) will not, in the aggregate, exceed 200,000 shares. The foregoing limit is subject to

Table of Contents

certain adjustments as provided in the Director Stock Plan.

Eligibility. Members of the Board of Directors who are not employees of Sherwin-Williams may be selected by the Board of Directors to receive benefits under the Director Stock Plan. The Board of Directors will determine which nonemployee directors will receive awards and the number of shares subject to such awards. The number of nonemployee directors who are currently eligible to participate in the Director Stock Plan is nine.

Option Rights. Option rights may be granted that entitle the optionee to purchase shares of common stock at a price not less than the fair market value per share on the date of grant. The fair market value of a share of Sherwin-Williams common stock as reported on the New York Stock Exchange on February 28, 2006 was \$45.93 per share. The option price is payable (a) in cash; (b) by the transfer to Sherwin-Williams of shares of common stock owned by the optionee having a value at the time of exercise equal to the option price; (c) by a combination of such payment methods; or (d) by such other methods as may be approved by the Board of Directors. To the extent permitted by law, any grant of an option right may provide for deferred payment of the option price from the proceeds of sale through a broker of some or all of the shares to which the exercise relates.

No option right may be exercisable more than 10 years from the date of grant. Each grant will specify the period of continuous service with Sherwin-Williams that is necessary before the option rights will become exercisable. A grant of option rights may provide for the earlier vesting of such option rights in the event of death or disability of the participant. Successive grants may be made to the same optionee whether or not option rights previously granted remain unexercised. Option rights will be subject to an evidence of award containing such terms and provisions, consistent with the Director Stock Plan, as the Board of Directors may approve.

SARs. A SAR is a right to receive from Sherwin-Williams an amount not exceeding 100% of the spread between the base price and the value of a share of common stock on the date of exercise. Any grant may specify that the amount payable on exercise of a SAR may be paid in cash, in shares of common stock, or in any combination thereof, and may either grant to the participant or retain in the Board of Directors the right to elect among those alternatives. Any SAR grant may specify that the amount payable on exercise may not exceed a maximum specified by the Board of Directors at the time of grant. Any grant may specify waiting periods before exercise and permissible exercise dates and periods. Any grant of a SAR may specify that such SAR be exercised only in the event of, or earlier in the event of, death or disability of the participant.

SARs must have a base price that is not less than the fair market value of a share of common stock on the date of grant. Successive grants of SARs may be made to the same participant regardless of whether any SARs previously granted remain unexercised. No SAR may be exercised more than 10 years from the date of grant. SARs will be subject to an evidence of award containing such terms and provisions, consistent with the Director Stock Plan, as the Board of Directors may approve.

Restricted Stock. A grant of restricted stock constitutes the immediate transfer by Sherwin-Williams to a participant of ownership of a specific number of shares of common stock in consideration of the performance of services. The participant is entitled immediately to voting, dividend and other ownership rights in such shares, subject to a substantial risk of forfeiture and restrictions on transfer as described below. Such grant or sale may be made without additional consideration or in consideration of a payment by the participant that is less than current fair market value of common stock.

Restricted stock must be subject to a substantial risk of forfeiture within the meaning of Section 83 of the Code for a period to be determined by the Board of Directors at the date of grant. To enforce these forfeiture provisions, the transferability of restricted stock will be prohibited or restricted in a manner and to the extent prescribed by the Board of Directors for the applicable period. The Board of Directors may provide for a shorter period during which the forfeiture provisions are to apply in the event of death or

Table of Contents

disability of the participant. Restricted stock will be subject to an evidence of award containing such terms and provisions, consistent with the Director Stock Plan, as the Board of Directors may approve.

Restricted Stock Units. A grant of restricted stock units constitutes an agreement by Sherwin-Williams to deliver shares of common stock or cash to the participant in the future in consideration of the performance of services, but subject to the fulfillment of such conditions during the restriction period as the Board of Directors may specify. Awards of restricted stock units may be made without additional consideration or in consideration of a payment by such participant that is less than the fair market value per share of common stock at the date of grant. During the restriction period, the participant has no right to transfer any rights under his or her award and no right to vote such restricted stock units, but the Board of Directors may, at the date of grant, authorize the payment of dividend equivalents on such restricted stock units on either a current or deferred or contingent basis, either in cash or in additional shares of common stock. Each grant or sale will specify the time and manner of payment of restricted stock units that have been earned. Any grant or sale may specify that the amount payable may be paid in cash, in shares of common stock or in any combination thereof and may either grant to the participant or retain in the Board of Directors the right to elect among those alternatives.

Restricted stock units will be subject to a restriction period as determined by the Board of Directors at the date of grant, except that the Board of Directors may provide for a shorter restriction period in the event of death or disability of the participant. Restricted stock units will be subject to an evidence of award containing such terms and provisions, consistent with the Director Stock Plan, as the Board of Directors may approve.

Administration. The Director Stock Plan is to be administered by the Board of Directors, except that the Board of Directors has the authority to delegate any or all of its powers to the Compensation and Management Development Committee of the Board of Directors or another committee of the Board of Directors (or a subcommittee thereof). Pursuant to such delegation, the committee will have all the powers and authority of the Board of Directors as described therein. The Board of Directors is authorized to interpret the Director Stock Plan and related agreements and other documents.

Adjustments. The number or kind of shares covered by outstanding awards under the Director Stock Plan and, if applicable, the prices per share applicable thereto, are subject to adjustment in the event of stock dividends, stock splits, combinations of shares, recapitalizations, mergers, consolidations, spin-offs, reorganizations, liquidations, issuances of rights or warrants, and similar events. In the event of any such transaction or event, the Board of Directors, in its discretion, may provide in substitution for any or all outstanding awards under the Director Stock Plan such alternative consideration (including cash), if any, as it may determine to be equitable in the circumstances and may require the surrender of all awards so replaced. The Board of Directors may also make or provide for such adjustments in the number of shares available under the Director Stock Plan as the Board of Directors may determine appropriate to reflect any transaction or event described above.

Transferability. No option right or SAR granted under the Director Stock Plan is transferable by a participant, except upon death, by will or by the laws of descent and distribution. Except as otherwise determined by the Board of Directors, option rights and SARs are exercisable during the optionee's lifetime only by him or her or by his or her guardian or legal representative.

The Board of Directors may specify at the date of grant that part or all of the shares of common stock that are (a) to be issued or transferred by Sherwin-Williams upon exercise of option rights or SARs or upon termination of the restriction period applicable to restricted stock units or (b) no longer subject to the substantial risk of forfeiture and restrictions on transfer with respect to restricted stock, will be subject to further restrictions on transfer.

Compliance with Section 409A of the Code. The American Jobs Creation Act of 2004, enacted on October 22, 2004, revised the federal income tax law applicable to certain types of awards that may be granted under the

Table of Contents

Director Stock Plan. To the extent applicable, it is intended that the Director Stock Plan and any grants made under the Director Stock Plan comply with the provisions of Section 409A of the Code. The Director Stock Plan and any grants made under the Director Stock Plan will be administered in a manner consistent with this intent, and any provision of the Director Stock Plan that would cause the Director Stock Plan or any grant made under the Director Stock Plan to fail to satisfy Section 409A shall have no force and effect until amended to comply with Section 409A (which amendment may be retroactive to the extent permitted by Section 409A and may be made by Sherwin-Williams without the consent of the participants).

Effective Date. The Director Stock Plan will be effective the date immediately following the date it is approved by shareholders.

Amendments. The Board of Directors may amend the Director Stock Plan from time to time without further approval by Sherwin-Williams shareholders, except if an amendment (a) would materially increase the benefits accruing to participants; (b) would materially increase the number of securities which may be issued under the Director Stock Plan; (c) would materially modify the requirements for participation in the Director Stock Plan; or (d) must otherwise be approved by the shareholders in order to comply with applicable law or the rules and regulations of the New York Stock Exchange. In addition, except for certain adjustments described above, the Board of Directors will not, without further approval of the shareholders, authorize the amendment of any outstanding option right to reduce the option price or cancel any option right and replace it with an award having a lower option price.

Subject to the prohibition on option repricing described above, the Board of Directors may amend the terms of any award granted under the Director Stock Plan prospectively or retroactively. Subject to adjustments (as described above), no such amendment shall impair the rights of any participant without his or her consent. The Board of Directors may, in its discretion, terminate the Director Stock Plan at any time. Termination of the Director Stock Plan will not affect the rights of participants or their successors under any awards outstanding and not exercised in full on the date of termination.

Term of the Director Stock Plan. No grant will be made under the Director Stock Plan more than 10 years after the date on which the Director Stock Plan is first approved by Sherwin-Williams shareholders, but all grants made on or prior to such date will continue in effect thereafter subject to the terms thereof and of the Director Stock Plan.

Federal Income Tax Consequences

The following is a brief summary of some of the federal income tax consequences of certain transactions under the Director Stock Plan based on federal income tax laws in effect on January 1, 2006. This summary is not intended to be complete and does not describe state or local tax consequences.

Tax Consequences to Participants.

Option Rights. In general, (a) no income will be recognized by an optionee at the time an option right is granted; (b) at the time of exercise of an option right, ordinary income will be recognized by the optionee in an amount equal to the difference between the option price paid for the shares and the fair market value of the shares, if unrestricted, on the date of exercise; and (c) at the time of sale of shares acquired pursuant to the exercise of an option right, appreciation (or depreciation) in value of the shares after the date of exercise will be treated as either short-term or long-term capital gain (or loss) depending on how long the shares have been held.

SARs. No income will be recognized by a participant in connection with the grant of a SAR. When the SAR is exercised, the participant normally will be required to include as taxable ordinary income in the year of exercise an amount equal to the amount of cash received and the fair market value of any unrestricted shares of common stock received on the exercise.

Restricted Stock. The recipient of restricted stock generally will be subject to tax at ordinary income rates on the fair market value of the restricted stock (reduced by any amount paid by the participant for such restricted stock) at such time as the shares are no longer subject to forfeiture or restrictions on transfer

Table of Contents

for purposes of Section 83 of the Code (Restrictions). However, a recipient who so elects under Section 83(b) of the Code within 30 days of the date of transfer of the shares will have taxable ordinary income on the date of transfer of the shares equal to the excess of the fair market value of such shares (determined without regard to the Restrictions) over the purchase price, if any, of such restricted stock. If a Section 83(b) election has not been made, any dividends received with respect to restricted stock that is subject to the Restrictions generally will be treated as compensation that is taxable as ordinary income to the participant.

Restricted Stock Units. No income generally will be recognized upon the award of restricted stock units. Any subsequent transfer of unrestricted shares of common stock or cash in satisfaction of such award will generally result in the recipient recognizing ordinary income at the time of transfer, in an amount equal to the aggregate amount of cash and the fair market value of the unrestricted shares of common stock received over the amount paid, if any, by the participant.

Tax Consequences to Sherwin-Williams

To the extent that a participant recognizes ordinary income in the circumstances described above, Sherwin-Williams will be entitled to a corresponding deduction provided that, among other things, the income meets the test of reasonableness and is an ordinary and necessary business expense.

New Plan Benefits

It is not possible to determine specific amounts and types of awards that may be awarded in the future under the Director Stock Plan because the grant and actual pay-out of awards are discretionary.

The Board of Directors unanimously recommends a vote FOR Proposal 3 to approve the Director Stock Plan.

The Audit Committee has adopted a pre-approval policy pursuant to which the Audit Committee establishes detailed pre-approved categories of non-audit services that may be performed by Ernst & Young LLP during the fiscal year, subject to dollar limitations set by the Audit Committee. The Audit Committee has also delegated to the Chairman of the Audit Committee the authority to pre-approve all audit and non-audit services when the entire Audit Committee is unable to pre-approve services. The Chairman must report to the Audit Committee at its next meeting all such services pre-approved since the last meeting. None of the fees paid to Ernst & Young LLP under the categories Audit-Related, Tax and All Other were approved by the Audit Committee after the services were rendered pursuant to the de minimis exception established by the SEC.

Participants acquire units of this fund. The fund also holds short-term investments, the amount of which fluctuates on a daily basis. The number of shares of common stock shown as being held by the executive officers in the Plan is the approximate number of shares in the fund allocable to each of the executive officers. The number of shares allocable to each of the executive officers fluctuates on a daily basis based upon the amount of short-term investments held in the fund and the market value of our common stock.

APPENDIX A

THE SHERWIN-WILLIAMS COMPANY

**Board of Directors
Director Independence Standards**

The Board of Directors of The Sherwin-Williams Company has adopted the following Director Independence Standards to assist the Board in determining the independence of a director. To be considered independent, the Board must affirmatively determine that the director has no material relationship with the Company. In each case, the Board shall broadly consider all relevant facts and circumstances, including the director's commercial, industrial, banking, consulting, legal, accounting, charitable and familial relationships. The Board shall also consider such other criteria as the Board may determine from time to time.

1. In no event will a director be considered independent if such director fails to qualify as an independent director under Rule 303A.02(b) of the New York Stock Exchange Listed Company Manual. In addition, a director will not be independent if, within the preceding three years: (i) the director was employed by the Company; (ii) an immediate family member of the director was employed by the Company; (iii) the director receives, or an immediate family member receives, more than \$100,000 per year in direct compensation from the Company, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service); (iv) the director was employed by or affiliated with the Company's independent auditor; (v) an immediate family member of the director was employed as a partner, principal or manager, or employed in any other professional capacity, by the Company's independent auditor; or (vi) a Company executive officer served on the compensation committee of a company which employed the director, or which employed an immediate family member of the director, as an executive officer.
2. In addition to the relationships described in paragraph 1, audit committee members may not (i) directly or indirectly accept any consulting, advisory or other compensatory fee from the Company or any of its subsidiaries or (ii) be an affiliated person of the Company or any of its subsidiaries. Audit committee members may receive directors' fees, in the form of cash, stock, stock units, stock options or other consideration ordinarily available to directors, as well as regular benefits that other directors receive.
3. The following commercial and charitable relationships will not be considered to be material relationships that would impair a director's independence: (i) if a Company director is an executive officer or employee of another company that, during any of the past three years, made payments to, or receives payments from, the Company for property or services in an amount which, in any single fiscal year, is less than \$1 million or two percent, whichever is greater, of such other company's annual consolidated gross revenues; (ii) if an immediate family member of a Company director is an executive officer of another company that, during any of the past three years, made payments to, or receives payments from, the Company for property or services in an amount which, in any single fiscal year, is less than \$1 million or two percent, whichever is greater, of such other company's annual consolidated gross revenues; (iii) if a Company director, or an immediate family member of such director, is an executive officer of another company which is indebted to the Company in an amount which is less than five percent of such other company's total consolidated assets; and (iv) if a Company director, or an immediate family member of such director, serves as an officer, director or trustee of a foundation, university, charitable or other not for profit organization, and the Company's, or the Company's Foundation's discretionary charitable contributions (the Company's Foundation matching of employee charitable contributions will not be included in the amount of the Foundation's contributions for this purpose) to the organization, in the

Table of Contents

aggregate, are less than \$250,000 or five percent, whichever is greater, of that organization's latest publicly available annual consolidated gross revenues.

4. For relationships not covered by the categorical standards in paragraphs 1 and 3, the determination of whether the relationship is material or not, and therefore whether the director would be independent or not, shall be made by the directors who satisfy the standards set forth in paragraphs 1 and 3. The Company will explain in the next proxy statement the basis for any board determination that a relationship is immaterial despite the fact that it does not meet the categorical standards set forth in paragraphs 1 and/or 3 above.
5. The Board shall undertake an annual review of the independence of all directors. In advance of the meeting at which this review occurs, each director shall be asked to provide the Board with full information regarding the director's (including immediate family members') business, charitable and other relationships with the Company to enable the Board to evaluate the director's independence.
6. Directors have an affirmative obligation to inform the Board of any material changes in their circumstances or relationships that may impact their designation by the Board as independent. This obligation includes all business, charitable and other relationships between directors (including immediate family members) and the Company and its affiliates.

For purposes of these Director Independence Standards, immediate family member includes a person's spouse, parents, children, siblings, mothers and fathers-in-law, sons and daughters-in-law, brothers and sisters-in-law, and anyone (other than domestic employees) who shares such person's home.

(b) Each grant of Appreciation Rights will be subject to all of the requirements contained in the following provisions:

(c) Any grant of Tandem Appreciation Rights will provide that such Tandem Appreciation Rights may be exercised only at a time when the related Option Right is also exercisable and at a time when the Spread is positive, and by surrender of the related Option Right for cancellation. Successive grants of Tandem Appreciation Rights may be made to the same Participant regardless of whether any Tandem Appreciation Rights previously granted to the Participant remain unexercised.

(d) Regarding Free-Standing Appreciation Rights only:

6. **Restricted Stock.** The Board may also authorize the grant or sale of Restricted Stock to Participants. Each such grant or sale will be subject to all of the requirements contained in the following provisions:

(a) Each such grant or sale will constitute an immediate transfer of the ownership of shares of Common Stock to the Participant in consideration of the performance of services, entitling such Participant to voting, dividend and other ownership rights, but subject to the substantial risk of forfeiture and restrictions on transfer hereinafter referred to.

(b) Each such grant or sale may be made without additional consideration or in consideration of a payment by such Participant that is less than the Market Value Per Share at the Date of Grant.

(c) Each such grant or sale will provide that the Restricted Stock covered by such grant or sale that vests upon the passage of time will be subject to a substantial risk of forfeiture within the meaning of Section 83 of the Code for a period of not less than three years to be determined by the Board at the Date of Grant and may provide for the earlier lapse of such substantial risk of forfeiture as provided in Section 6(e) below or in the event of retirement, death or disability of the Participant or a Change of Control.

(d) Each such grant or sale will provide that during the period for which such substantial risk of forfeiture is to continue, the transferability of the Restricted Stock will be prohibited or restricted in the manner and to the extent prescribed by the Board at the Date of Grant (which restrictions may include, without limitation, rights of repurchase or first refusal in the Company or provisions subjecting the Restricted Stock to a continuing substantial risk of forfeiture in the hands of any transferee).

(e) Any grant of Restricted Stock may specify Management Objectives that, if achieved, will result in termination or early termination of the restrictions applicable to such Restricted Stock; provided, however, that restrictions relating to Restricted Stock that vests upon the achievement of Management Objectives may not terminate sooner than one year from the Date of Grant. Each grant may specify in respect of such Management Objectives a minimum acceptable level of achievement and may set forth a formula for determining the number of shares of Restricted Stock on which restrictions will terminate if performance is at or above the minimum level, but falls short of full achievement of the specified Management Objectives. The grant of Restricted Stock will specify that, before the termination or early termination of the restrictions applicable to such Restricted Stock, the Board must determine that the Management Objectives have been satisfied.

(f) Any such grant or sale of Restricted Stock may require that any or all dividends or other distributions paid thereon during the period of such restrictions be automatically deferred and reinvested in additional shares of Restricted Stock, which may be subject to the same restrictions as the underlying award.

(g) Each grant or sale of Restricted Stock will be evidenced by an Evidence of Award and will contain such terms and provisions, consistent with this Plan, as the Board may approve. Unless otherwise directed by the Board, all certificates representing shares of Restricted Stock will be held in custody by the Company until all restrictions thereon will have lapsed, together with a stock power or powers executed by the Participant in whose name such certificates are registered, endorsed in blank and covering such Shares.

services, but subject to the fulfillment of such conditions (which may include the achievement of Management Objectives) during the Restriction Period as the Board may specify. If a grant of Restricted Stock Units specifies that the Restriction Period will terminate upon the achievement of Management Objectives, such Restriction Period may not terminate sooner than one year from the Date of Grant. Each grant may specify in respect of such Management Objectives a minimum acceptable level of achievement and may set forth a formula for determining the number of shares of Restricted Stock Units on which restrictions will terminate if performance is at or above the minimum level, but falls short of full achievement of the specified Management Objectives. The grant of such Restricted Stock Units will specify that, before the termination or early termination of the restrictions applicable to such Restricted Stock Units, the Board must determine that the Management Objectives have been satisfied.

(b) Each such grant or sale may be made without additional consideration or in consideration of a payment by such Participant that is less than the Market Value Per Share at the Date of Grant.

(c) If the Restriction Period lapses only by the passage of time, each such grant or sale will be subject to a Restriction Period of not less than three years, as determined by the Board at the Date of Grant, and may provide for the earlier lapse or other modification of such Restriction Period in the event of retirement, death or disability of the Participant or a Change of Control.

(d) During the Restriction Period, the Participant will have no right to transfer any rights under his or her award and will have no rights of ownership in the Restricted Stock Units and will have no right to vote them, but the Board may at the Date of Grant, authorize the payment of dividend equivalents on such Restricted Stock Units on either a current, deferred or contingent basis, either in cash or in additional shares of Common Stock.

(e) Each grant or sale will specify the time and manner of payment of Restricted Stock Units that have been earned. Any grant or sale may specify that the amount payable with respect thereto may be paid by the Company in cash, in shares of Common Stock or in any combination thereof and may either grant to the Participant or retain in the Board the right to elect among those alternatives.

(f) Each grant or sale of Restricted Stock Units will be evidenced by an Evidence of Award and will contain such terms and provisions, consistent with this Plan, as the Board may approve.

8. Performance Shares and Performance Units. The Board may also authorize the granting of Performance Shares and Performance Units that will become payable to a Participant upon achievement of specified Management Objectives during the Performance Period. Each such grant will be subject to all of the requirements contained in the following provisions:

(a) Each grant will specify the number of Performance Shares or Performance Units to which it pertains, which number may be subject to adjustment to reflect changes in compensation or other factors; provided, however, that no such adjustment will be made in the case of a Covered Employee where such action would result in the loss of the otherwise available exemption of the award under Section 162(m) of the Code.

(b) The Performance Period with respect to each Performance Share or Performance Unit will be such period of time (not less than one year), commencing with the Date of Grant as will be determined by the Board at the time of grant which may be subject to earlier lapse or other modification in the event of retirement, death or disability of the Participant or a Change of Control.

(c) Any grant of Performance Shares or Performance Units will specify Management Objectives which, if achieved, will result in payment or early payment of the award, and each

Table of Contents

grant may specify in respect of such specified Management Objectives level or levels of achievement and will set forth a formula for determining the number of Performance Shares or Performance Units that will be earned if performance is at or above the level(s), but falls short of full achievement of the specified Management Objectives. The grant of Performance Shares or Performance Units will specify that, before the Performance Shares or Performance Units will be earned and paid, the Board must determine that the Management Objectives have been satisfied.

(d) Each grant will specify the time and manner of payment of Performance Shares or Performance Units that have been earned. Any grant may specify that the amount payable with respect thereto may be paid by the Company in cash, in shares of Common Stock or in any combination thereof and may either grant to the Participant or retain in the Board the right to elect among those alternatives.

(e) Any grant of Performance Shares may specify that the amount payable with respect thereto may not exceed a maximum specified by the Board at the Date of Grant. Any grant of Performance Units may specify that the amount payable or the number of shares of Common Stock issued with respect thereto may not exceed maximums specified by the Board at the Date of Grant.

(f) The Board may at the Date of Grant of Performance Shares, provide for the payment of dividend equivalents to the holder thereof on either a current, deferred or contingent basis, either in cash or in additional shares of Common Stock.

(g) Each grant of Performance Shares or Performance Units will be evidenced by an Evidence of Award and will contain such other terms and provisions, consistent with this Plan, as the Board may approve.

9. Administration of this Plan.

(a) This Plan will be administered by the Board, which may from time to time delegate all or any part of its authority under this Plan to the Compensation and Management Development Committee or any other committee of the Board (or a subcommittee thereof), as constituted from time to time. To the extent of any such delegation, references in this Plan to the Board will be deemed to be references to such committee or subcommittee.

(b) The interpretation and construction by the Board of any provision of this Plan or of any agreement, notification or document evidencing the grant of Option Rights, Appreciation Rights, Restricted Stock, Restricted Stock Units, Performance Shares or Performance Units and any determination by the Board pursuant to any provision of this Plan or of any such agreement, notification or document will be final and conclusive.

Moreover, in the event of any such transaction or event, the Board, in its discretion, may provide in substitution for any or all outstanding awards under this Plan such alternative consideration (including cash), if any, as it may determine to be equitable in the circumstances and may require in connection therewith the surrender of all awards so replaced. The Board may also make or provide for such adjustments in the numbers of shares specified in Section 3 of this Plan as the Board in its sole discretion may determine is appropriate to reflect any transaction or event described in this Section 10; provided, however, that any such adjustment to the number specified in Section 3(b)(i) will be made only if and to the extent that such adjustment would not cause any option intended to qualify as an Incentive Stock Option to fail so to qualify.

11. Change of Control. For purposes of this Plan, except as may be otherwise prescribed by the Board in an agreement evidencing a grant or award made under this Plan, a Change of Control shall be deemed to have occurred if:

(h) which are beneficially owned, directly or indirectly, by any other person (or any Affiliate or Associate of such other person) with which such person (or any of such person's Affiliates or Associates) has any agreement, arrangement or understanding (whether or not in writing), with respect to acquiring, holding, voting (except as described in the proviso to this definition) or disposing of any securities of the Company;

provided, however, that a person shall not be deemed the Beneficial Owner of, nor to beneficially own, any security if such person has the right to vote such security pursuant to an agreement, arrangement or understanding which (1) arises solely from a revocable proxy given to such person in response to a public proxy or consent solicitation made pursuant to, and in accordance with, the applicable rules and regulations under the Exchange Act, and (2) is not also then reportable on Schedule 13D (or any comparable or successor report) under the Exchange Act; and provided, further, that nothing in this Paragraph 5 shall cause a person engaged in business as an underwriter or securities to be the Beneficial Owner of, or to beneficially own, any securities acquired through such person's participation in good faith in a firm commitment underwriting until the expiration of forty (40) days after the date of such acquisition or such later date as the Board of Directors may determine in any specific case.

12. Non U.S. Participants. In order to facilitate the making of any grant or combination of grants under this Plan, the Board may provide for such special terms for awards to Participants who are foreign nationals or who are employed by the Company or any Subsidiary outside of the United States of America or who provide services to the Company under an agreement with a foreign nation or agency, as the Board may consider necessary or appropriate to accommodate differences in local law, tax policy or custom. Moreover, the Board may approve such supplements to or amendments, restatements or alternative versions of this Plan (including, without limitation, sub-plans) as it may consider necessary or appropriate for such purposes, without thereby affecting the terms of this Plan as in effect for any other purpose, and the Secretary or other appropriate officer of the Company may certify any such document as having been approved and adopted in the same manner as this Plan. No such special terms, supplements, amendments or restatements, however, will include any provisions that are inconsistent with the terms of this Plan as then in effect unless this Plan could have been amended to eliminate such inconsistency without further approval by the shareholders of the Company.

13. Transferability.

(a) No Option Right or Appreciation Right granted under this Plan shall be transferable by the Participant except by will or the laws of descent and distribution. Except as otherwise determined by the Board, Option Rights and Appreciation Rights will be exercisable during the Participant's lifetime only by him or her or, in the event of the Participant's legal incapacity to do so, by his or her guardian or legal representative acting on behalf of the Participant in a fiduciary capacity under state law and/or court supervision.

(b) The Board may specify at the Date of Grant that part or all of the shares of Common Stock that are (i) to be issued or transferred by the Company upon the exercise of Option Rights or Appreciation Rights, upon the termination of the Restriction Period applicable to

Restricted Stock Units or upon payment under any grant of Performance Shares or Performance Units or (ii) no longer subject to the substantial risk of forfeiture and restrictions on transfer referred to in Section 6 of this Plan, will be subject to further restrictions on transfer.

14. **Withholding Taxes.** To the extent that the Company is required to withhold federal, state, local or foreign taxes in connection with any payment made or benefit realized by a Participant or other person under this Plan, and the amounts available to the Company for such withholding are insufficient, it will be a condition to the receipt of such payment or the realization of such benefit that the Participant or such other person make arrangements satisfactory to the Company for payment of the balance of such taxes required to be withheld, which arrangements (in the discretion of the Board) may include relinquishment of a portion of such benefit. If a Participant's benefit is to be received in the form of Common Stock, and such Participant fails to make arrangements for the payment of tax, the Company shall withhold such shares of Common Stock having a value equal to the amount required to be withheld. Notwithstanding the foregoing, unless otherwise provided by the Board, when a Participant is required to pay the Company an amount required to be withheld under applicable income and employment tax laws, the Participant may elect to satisfy the obligation, in whole or in part, by electing to have withheld, from the shares required to be delivered to the Participant, shares of Common Stock having a value equal to the amount required to be withheld (except in the case of Restricted Stock where an election under Section 83(b) of the Code has been made), or by delivering to the Company other shares of Common Stock held by such Participant. The shares used for tax withholding will be valued at an amount equal to the Market Value Per Share of such Common Stock on the date the benefit is to be included in Participant's income. In no event shall the Market Value Per Share of the shares of Common Stock to be withheld and/or delivered pursuant to this Section to satisfy applicable withholding taxes in connection with the benefit exceed the minimum amount of taxes required to be withheld. Participants shall also make such arrangements as the Company may require for the payment of any withholding tax obligation that may arise in connection with the disposition of shares of Common Stock acquired upon the exercise of Option Rights.

15. Compliance with Section 409A of the Code.

(a) To the extent applicable, it is intended that this Plan and any grants made hereunder comply with the provisions of Section 409A of the Code. This Plan and any grants made hereunder shall be administered in a manner consistent with this intent, and any provision that would cause this Plan or any grant made hereunder to fail to satisfy Section 409A of the Code shall have no force and effect until amended to comply with Section 409A of the Code (which amendment may be retroactive to the extent permitted by Section 409A of the Code and may be made by the Company without the consent of Participants). Any reference in this Plan to Section 409A of the Code will also include any proposed, temporary or final regulations, or any other guidance, promulgated with respect to such Section by the U.S. Department of the Treasury or the Internal Revenue Service.

(b) In order to determine for purposes of Section 409A of the Code whether a Participant is employed by a member of the Company's controlled group of corporations under Section 414(b) of the Code (or by a member of a group of trades or businesses under common control with the Company under Section 414(c) of the Code) and, therefore, whether the shares of Common Stock that are or have been purchased by or awarded under this Plan to the Participant are shares of service recipient stock within the meaning of Section 409A of the Code:

(i) In applying Code Section 1563(a)(1), (2) and (3) for purposes of determining the Company's controlled group under Section 414(b) of the Code, the language "at least 50 percent" is to be used instead of "at least 80 percent" each place it appears in Code Section 1563(a)(1), (2) and (3); and

(ii) In applying Treasury Regulation Section 1.414(c)-2 for purposes of determining trades or businesses under common control with the Company for purposes of Sec-

tion 414(c) of the Code, the language "at least 50 percent" is to be used instead of "at least 80 percent" each place it appears in Treasury Regulation Section 1.414(c)-2.

(c) Notwithstanding any provision of this Plan to the contrary, to the extent an award shall be deemed to be vested or restrictions lapse, expire or terminate upon the occurrence of a Change of Control and such Change of Control does not constitute a change in the ownership or effective control or a change in the ownership or a substantial portion of the assets of the Company within the meaning of Section 409A(a)(2)(A)(v) of the Code, then even though such award may be deemed to be vested or restrictions lapse, expire or terminate upon the occurrence of the Change of Control or any other provision of this Plan, payment will be made, to the extent necessary to comply with the provisions of Section 409A of the Code, to the Participant the earliest of (i) the Participant's separation from service with the Company (determined in accordance with Section 409A of the Code); provided, however, that if the Participant is a specified employee (within the meaning of Section 409A of the Code), the payment date shall be the date that is six months after the date of the Participant's separation from service with the Company, (ii) the date payment otherwise would have been made in the absence of any provisions in this Plan to the contrary (provided such date is permissible under Section 409A of the Code), or (iii) the Participant's death.

16. Effective Date. This Plan will be effective as of the Effective Date. No grants will be made under The Sherwin-Williams Company 2003 Stock Plan on or after the Effective Date.

17. Amendments.

(a) The Board may at any time and from time to time amend this Plan in whole or in part; provided, however, that if an amendment to this Plan (i) would materially increase the benefits accruing to Participants under this Plan, (ii) would materially increase the number of securities which may be issued under this Plan, (iii) would materially modify the requirements for participation in this Plan or (iv) must otherwise be approved by the shareholders of the Company in order to comply with applicable law or the rules of the New York Stock Exchange or, if the shares of Common Stock are not traded on the New York Stock Exchange, the principal national securities exchange upon which the shares of Common Stock are traded or quoted, then, such amendment will be subject to shareholder approval and will not be effective unless and until such approval has been obtained.

(b) The Board will not, without the further approval of the shareholders of the Company, authorize the amendment of any outstanding Option Right to reduce the Option Price. Furthermore, no Option Right will be cancelled and replaced with awards having a lower Option Price without further approval of the shareholders of the Company. This Section 17(b) is intended to prohibit the repricing of underwater Option Rights and will not be construed to prohibit the adjustments provided for in Section 10 of this Plan.

(c) If permitted by Section 409A of the Code, in case of termination of employment by reason of death, disability or normal or early retirement, or in the case of unforeseeable emergency or other special circumstances, of a Participant who holds an Option Right or Appreciation Right not immediately exercisable in full, or any shares of Restricted Stock as to which the substantial risk of forfeiture or the prohibition or restriction on transfer has not lapsed, or any Restricted Stock Units as to which the Restriction Period has not been completed, or any Performance Shares or Performance Units which have not been fully earned, or who holds shares of Common Stock subject to any transfer restriction imposed pursuant to Section 13 of this Plan, the Board may, in its sole discretion, accelerate the time at which such Option Right, Appreciation Right or other award may be exercised or the time at which such substantial risk of forfeiture or prohibition or restriction on transfer will lapse or the time when such Restriction Period will end or the time at which such Performance Shares or Performance Units will be deemed to have been fully earned or the time when such transfer restriction will terminate or may waive any other limitation or requirement under any such award.

Subject to Section 17(b) hereof, the Board may amend the terms of any award theretofore granted under this Plan prospectively or retroactively, except in the case of a Covered Employee where such action would result in the loss of the otherwise available exemption of the award under Section 162(m) of the Code. In such case, the Board will not make any modification of the Management Objectives or the level or levels of achievement with respect to such Covered Employee. Subject to Section 10 above, no such amendment shall impair the rights of any Participant without his or her consent. The Board may, in its discretion, terminate this Plan at any time. Termination of this Plan will not affect the rights of Participants or their successors under any awards outstanding hereunder and not exercised in full on the date of termination.

18. Termination. No grant will be made under this Plan more than 10 years after the date on which this Plan is first approved by the shareholders of the Company, but all grants made on or prior to such date will continue in effect thereafter subject to the terms thereof and of this Plan.

19. Governing Law. This Plan and all grants and awards and actions taken thereunder shall be governed by and construed in accordance with the internal substantive laws of the State of Ohio.

20. Miscellaneous Provisions.

(a) The Company will not be required to issue any fractional shares of Common Stock pursuant to this Plan. The Board may provide for the elimination of fractions or for the settlement of fractions in cash.

(b) This Plan will not confer upon any Participant any right with respect to continuance of employment or other service with the Company or any Subsidiary, nor will it interfere in any way with any right the Company or any Subsidiary would otherwise have to terminate such Participant's employment or other service at any time.

(c) To the extent that any provision of this Plan would prevent any Option Right that was intended to qualify as an Incentive Stock Option from qualifying as such, that provision will be null and void with respect to such Option Right. Such provision, however, will remain in effect for other Option Rights and there will be no further effect on any provision of this Plan.

(d) No award under this Plan may be exercised by the holder thereof if such exercise, and the receipt of cash or stock thereunder, would be, in the opinion of counsel selected by the Board, contrary to law or the regulations of any duly constituted authority having jurisdiction over this Plan.

(e) Absence on leave approved by a duly constituted officer of the Company or any of its Subsidiaries shall not be considered interruption or termination of service of any employee for any purposes of this Plan or awards granted hereunder, except that no awards may be granted to an employee while he or she is absent on leave.

(f) No Participant shall have any rights as a stockholder with respect to any shares subject to awards granted to him or her under this Plan prior to the date as of which he or she is actually recorded as the holder of such shares upon the stock records of the Company.

(g) The Board may condition the grant of any award or combination of awards authorized under this Plan on the surrender or deferral by the Participant of his or her right to receive a cash bonus or other compensation otherwise payable by the Company or a Subsidiary to the Participant.

(h) Participants shall provide the Company with a written election form setting forth the name and contact information of the person who will have beneficial ownership rights upon the death of the Participant.

(i) If any provision of this Plan is or becomes invalid, illegal or unenforceable in any jurisdiction, or would disqualify this Plan or any award under any law deemed applicable by the Board, such provision shall be construed or deemed amended or limited in scope to conform to applicable laws or, in the discretion of the Board, it shall be stricken and the remainder of this Plan shall remain in full force and effect.

(a) This Plan will be administered by the Board, which may from time to time delegate all or any part of its authority under this Plan to the Compensation and Management Development Committee or any other committee of the Board (or a subcommittee thereof), as constituted from time to time. To the extent of any such delegation, references in this Plan to the Board will be deemed to be references to such committee or subcommittee.

9. Adjustments. The Board may make or provide for such adjustments in the numbers of shares of Common Stock covered by outstanding Option Rights, Appreciation Rights and Restricted Stock Units granted hereunder, in the Option Price and Base Price provided in outstanding Appreciation Rights, and in the kind of shares covered thereby, as the Board, in its sole discretion, may determine is equitably required to prevent dilution or enlargement of the rights of Participants or Optionees that otherwise would result from (a) any stock dividend, stock split, combination of shares, recapitalization or other change in the capital structure of the Company, or (b) any merger, consolidation, spin-off, split-off, spin-out, split-up, reorganization, partial or complete liquidation or other distribution of assets, issuance of rights or warrants to purchase securities, or (c) any other corporate transaction or event having an effect similar to any of the foregoing. Moreover, in the event of any such transaction or event, the Board, in its discretion, may provide in substitution for any or all outstanding awards under this Plan such alternative consideration (including cash), if any, as it may determine to be equitable in the circumstances and may require in connection therewith the surrender of all awards so replaced. (g) Participants shall provide the Company with a written election form setting forth the name and contact information of the person who will have beneficial ownership rights upon the death of the Participant.
