REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustees and Participants of

Baker 401(k) Plan (f/k/a Michael Baker Corporation Employee Stock Ownership Plan)

Moon Township, Pennsylvania

We have audited the accompanying statements of net assets available for benefits of Baker 401(k) Plan (f/k/a Michael Baker Corporation Employee Stock Ownership Plan) (the Plan) as of December 31, 2006 and 2005, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting.

Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2006 and 2005, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2006 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan's management. Such schedule has been subjected to the auditing procedures applied in our audit of the basic 2006 financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

BAKER 401(k) PLAN

Notes to Financial Statements

December 31, 2006 and 2005

1. Description of the Plan

General

The following description of the Baker 401(k) Plan (f/k/a Michael Baker Corporation Employee Stock Ownership Plan) (the Plan) is provided for general information purposes only. The name of the Plan was changed effective January 1, 2006. Participants should refer to the Plan agreement for more complete information.

The Plan is a defined contribution plan that provides all eligible employees of Michael Baker Corporation (the Company) with an opportunity to accumulate additional retirement benefits as well as invest in the Company's stock. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Part-time and temporary employees are required to work 1,000 hours before becoming eligible to join the plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings or losses, and charged with an allocation of certain administrative fees.

Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Contributions

Participants contribute to the Plan through a Section 401(k) Employee Salary Redirection Election. During 2006 and 2005, participants were able to choose to contribute up to the lower of 75 percent of their salaries (including commissions and overtime) or the annual limitation established by the Internal Revenue Service (IRS). The maximum amount of a participant's salary, which may be eligible for withholding for any Plan year, could not exceed \$220,000 in 2006 or \$210,000 in 2005. The Plan also allows participants to roll over funds from a previous employer's tax-qualified plan or tax-qualified individual retirement account. All employees who are eligible to make deferred contributions under this Plan and who have attained age 50 before the close of the plan year shall be eligible to make catch-up contributions in accordance with and subject to the limitation established by the IRS.

Company Matching Contributions

In 2006 and 2005, under provisions of the Plan, the Company made matching contributions to the participants' accounts in the amount of 100 percent of the first 3 percent of eligible salary and 50 percent on the next 3 percent of eligible salary (including commissions but excluding overtime, except for Energy Division employees regularly scheduled to work over 40 hours per week, who are matched on overtime up to a maximum of 84 hours per biweekly pay period) contributed by each participant except for the Company's Energy employees, for which the Company made matching contributions of 50 percent on the first 6 percent of eligible salary. The Company is not required to match contribution amounts over the 5 percent limit.

The Company's matching contributions were invested in not less than 25 percent of the Company's common stock in 2006 and 2005, with the remaining 75 percent invested in accordance with the participant's investment elections for participant contributions.

The Company's Board of Directors is authorized to make additional discretionary contributions to the Plan from time to time. No discretionary contributions were made for 2006 or 2005.

Table of Contents

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. All amounts in the participants Plan accounts that are attributable to the transfer of funds from a previously terminated retirement plan, the rollover from a previous employer's tax-qualified plan, and participant contributions are 100 percent vested and nonforfeitable at all times.

All of the Company's matching and discretionary contributions will become 100 percent vested upon attainment of three years of service with the Company or earlier, upon attainment of normal retirement date, disability or death. If a participant ceases employment with the Company before attaining a vested interest in the Company's contributions, he or she will forfeit those contributions and those contributions will be used to reduce the Company's future matching contributions. Forfeitures of the Company's discretionary contributions by employees ceasing employment with the Company before attaining a vested interest are reallocated to the remaining participants.

Distributions

The Plan provides for distribution of benefits upon retirement, total and permanent disability, death, or termination of employment for any other reason. The amount of distributions that a participant, or his or her beneficiary is entitled to, is based on the vesting requirements discussed above. All distributions will be made in the form of a single, lump-sum distribution or in substantially equal annual installments over a period not exceeding ten years. For participant accounts invested in the Company's common stock, distributions may be made in cash and/or shares of common stock, at the discretion of the participant. As a one-time option, participants may apply in writing to the administrator for a withdrawal of up to 50 percent of their vested account balance for certain limited situations qualifying as financial hardships under IRS guidelines in effect at the time of the withdrawal.

Participant Loans

A participant may borrow money from the portion of his or her account attributable to his or her own 401(k) plan contributions. The participant is allowed one outstanding loan that may be obtained for any reason. Loan amounts shall not exceed the lesser of: (a) 50 percent of the participant's vested account balance, including rollovers, (b) \$50,000 adjusted for pre-existing loans, or (c) such amount as may be determined by the Plan administrator. All loans will be drawn against the participant's account among the respective investment options as directed, and are secured by the assets within the participant's accounts. Interest rates on outstanding notes receivable ranged from 5.00 percent to 10.50 percent at December 31, 2006. Principal and interest payments are paid ratably and are generally repaid by payroll deduction.

Forfeited Accounts

At December 31, 2006 and 2005, forfeited non-vested accounts totaled zero and \$8,235, respectively. Forfeited non-vested account balances are used to reduce future employer matching contributions. Also in 2006 and 2005, employer contributions were reduced by \$438,311 and \$716,463, respectively, as a result of forfeited non-vested accounts.

Common Stock

The Plan enables participating employees to acquire an equity interest in the Company; as such, contributions to the Plan can be invested in the Company's common stock. The Plan's investment in the Company's common stock comprised 1,494,266 shares (cost of \$15,243,885) and 1,701,050 shares (cost of \$15,385,782) at December 31, 2006 and 2005, respectively. Participants have the ability to divest themselves of the Company's common stock after they are vested.

Investment Options

Each participant may direct Fidelity Investments Institutional Services Company, Inc. (Fidelity) to invest certain portions of his or her account in investment funds. Investment funds available to participants are the Michael Baker Common Stock Fund (invests in common stock of the Company), the Fidelity Retirement Money Market Portfolio (primarily invests in U.S. dollar-denominated money market securities and

Table of Contents

repurchase agreements for those securities), the Managed Income Portfolio (invests in investment contracts issued by insurance companies and other financial institutions, and in fixed income securities as further described in the prospectus), PIMCO Total Return Fund Institutional class (invests in all types of bonds, including U.S. government, corporate, mortgage and foreign), Dodge & Cox Balanced Fund (invests in a diversified mix of common and preferred stocks and investment-grade bonds, generally rated in the top four ratings categories), T. Rowe Price Equity Income Fund (invests in at least 65% of the fund's total assets in dividend-paying common stocks, particularly of established companies, with favorable prospects for both increasing dividends and capital appreciation), Fidelity Contrafund (invests primarily in common stocks), Spartan U.S. Equity Index Fund (invests in at least 80% of its assets in common stocks included in the S&P 500 Index, which broadly represents the performance of common stocks publicly traded in the U.S.), Fidelity Growth Company Fund (invests primarily in common stocks), American Funds Growth Fund of America Class R5 (invests in a diversified portfolio consisting primarily of common stocks), Franklin Small-Mid Cap Growth Fund Advisor Class (under normal market conditions the fund will, invest at least 80% of its total asset in the equity securities of U.S. small capitalization companies and in the equity securities of U.S. mid capitalization companies), Loomis Sayles Small Cap Value Fund Institutional Class (seeks to achieve its objective by emphasizing both undervalued securities and securities of companies with significant growth potential), American Funds New Perspective Fund Class R5 (invests primarily in stocks of established companies located all over the world, including the United States), Fidelity International Discovery Fund (normally invests primarily in foreign securities), Fidelity Freedom Funds (Each freedom fund invests in a diversified portfolio of well-established Fidelity stock, bond, and money market mutual funds).

Plan Administration and Fees

The Company provides certain administrative and accounting services to the Plan at no cost. In addition, the Company pays the cost of services provided to the Plan by Fidelity, legal counsel and independent registered public accounting firm. Certain reasonable distribution processing fees charged by Fidelity are deducted from the respective participant account balances.

2. Summary of Significant Accounting Policies

Basis of Accounting

Fidelity performs the recordkeeping function for the Plan. The financial statements included herein include all required adjustments to reflect the financial statements on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Changes to Prior Year Financial Statements

Certain amounts in the 2005 financial statements have been reclassified to conform to 2006 presentation.

Investments

Investments are stated at fair value based upon quoted market values. Purchases and sales of securities are recorded on a trade-date basis. The investment in the Company's common stock is stated at publicly-traded closing market values as of December 31, 2006 and 2005. As of December 31, 2006 and 2005, the Plan's assets comprised approximately 17 percent and 22 percent, respectively, of the Company's shares of common stock; therefore, such valuation might be subject to significant fluctuation in the event of a substantial liquidation of such holdings by the Plan or due to other market fluctuations.

The difference between the cost and current market value of investments purchased since the beginning of the period as well as the increase in the stated market value of investments held at the beginning of the period is included in the caption, Net appreciation in fair value of investments in the Statements of Changes in Net Assets Available for Benefits.

Table of Contents**Contributions**

Employee and employer contributions are recorded in the period during which the Company makes payroll deductions from Plan participants' earnings. Discretionary contributions are accrued in the period they are earned.

Distributions

Distributions to participants are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make certain estimates and assumptions that may affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Concentration of Risk

Investments are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with these investments and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in the near term could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

3. Investments

The following presents the fair value of investments that represent 5 percent or more of the Plan's net assets at December 31, 2006 and 2005 respectively:

Fees	(7,398)
<i>Net assets available for benefits as of December 31, 2006</i>	\$33,845,129

4. Tax Status

The Internal Revenue Service determined and informed the Company by a letter dated October 30, 2003, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's counsel believe that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

5. Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

6. Related Party Transactions

Certain investments of the Plan are mutual funds managed by Fidelity. These transactions qualify as party-in-interest transactions.

One of the investment fund options available to employees contains the Company's stock. As a result, transactions related to this investment fund qualify as party-in-interest transactions (Note 1).

7. Reconciliation of Financial Statements to Schedule H Form 5500

The financial statements have been prepared using the accrual method of accounting while the Plan's Form 5500 has been prepared on the modified cash-basis method of accounting. A reconciliation between the 2006 financial statements and Form 5500 is as follows:
