COMMERCE BANCORP, INC. AND SUBSIDIARIES<br>NOTES TO CONSOLIDATED FINANCIAL STATEMENTS<br>(unaudited)

## A. Consolidated Financial Statements

The consolidated financial statements included herein have been prepared without audit pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States has been condensed or omitted pursuant to such rules and regulations. The accompanying condensed consolidated financial statements reflect all adjustments which are, in the opinion of management, necessary to a fair statement of the results for the interim periods presented. Such adjustments are of a normal recurring nature.

These condensed consolidated financial statements should be read in conjunction with the audited financial statements and the notes thereto included in the registrant's Annual Report on Form 10-K for the period ended December 31, 2000. The results for the three months ended September 30, 2001 and the nine months ended September 30, 2001 are not necessarily indicative of the results that may be expected for the year ended December 31, 2001.

The consolidated financial statements include the accounts of Commerce Bancorp, Inc. and all of its subsidiaries, including Commerce Bank, N.A. (Commerce NJ), Commerce Bank/Pennsylvania, N.A., Commerce Bank/Shore, N.A., Commerce Bank/North, Commerce Bank/Delaware, N.A., Commerce National Insurance Services, Inc. (Commerce National Insurance), Commerce Capital Trust I, and Commerce Capital Markets, Inc. (CCMI). All material intercompany transactions have been eliminated. Effective April 1, 2001, Commerce Bank/Central, N.A. was merged into Commerce NJ.

## B. Commitments

In the normal course of business, there are various outstanding commitments to extend credit, such as letters of credit and unadvanced loan commitments, which are not reflected in the accompanying consolidated financial statements. Management does not anticipate any material losses as a result of these transactions.

## C. Comprehensive Income

Total comprehensive income, which for the Company included net income and unrealized gains and losses on the Company's available for sale securities, amounted to $\$ 73.3$ million and $\$ 39.0$ million, respectively, for the three months ended September 30, 2001 and 2000. For the nine months ended September 30, 2001 and 2000, total comprehensive income was $\$ 130.7$ million and $\$ 71.3$ million, respectively.

COMMERCE BANCORP, INC. AND SUBSIDIARIES

D. Segment Information

The Company operates one reportable segment of business, Community Banks, which includes Commerce NJ, Commerce PA, Commerce Shore, Commerce North, and Commerce Delaware. Through its Community Banks, the Company provides a broad range of retail and commercial banking services, and corporate trust services. Parent/Other includes the holding company, Commerce National Insurance, CCMI, and Commerce Capital Trust I.

Selected segment information is as follows:

## E. Recent Accounting Statements

In June 1998, the FASB issued Statement No. 133 "Accounting for Derivative Instruments and Hedging Activities" (FAS 133). FAS 133 requires the Company to recognize all derivatives on the balance sheet at fair value. Derivatives that are not hedges must be adjusted to fair value through income. If the derivative is a hedge, depending on the nature of the hedge, changes in the fair value of the derivative will either be offset against the change in fair value of the hedged asset or liability through earnings or recognized in other comprehensive income until the hedged item is recognized in earnings. The ineffective portion of a derivative's change in fair value will be immediately recognized in earnings. The Company adopted FAS 133 on January 1, 2001. Due to the Company's minimal use of derivatives, adoption did not have a material effect on the results of operations or the financial position of the Company. Future

5

COMMERCE BANCORP, INC. AND SUBSIDIARIES
impact of FAS 133 will depend on the nature and purpose of the derivative instruments in use by the Company at that time.

In June 2001, the FASB issued Statements No. 141 "Business Combinations" and No. 142 "Goodwill and Other Intangible Assets," effective for fiscal years beginning after December 15, 2001. Under the new rules, goodwill and intangible assets deemed to have indefinite lives will no longer be amortized but will be subject to annual impairment tests in accordance with the Statements. Other intangible assets will continue to be amortized over their useful lives. The Company will apply the new rules beginning in the first quarter of 2002. Due to the immaterial amount of goodwill and intangible assets recorded on the Company's balance sheet, adoption of the Statements is not expected to have a material impact on the results of operations or the financial position of the company.
F. Trust Capital Securities

On June 9, 1997, the Company issued $\$ 57.5$ million of $8.75 \%$ Trust Capital Securities through Commerce Capital Trust I, a newly formed Delaware business trust subsidiary of the Company. The net proceeds of the offering will be used for general corporate purposes, which may include contributions to subsidiary banks to fund their operations, the financing of one or more future acquisitions, repayment of indebtedness of the Company or of its subsidiary banks, investments in or extensions of credit to its subsidiaries, or the repurchase of shares of the Company's outstanding common stock. All \$57.5 million of the Trust Capital Securities qualify as Tier 1 capital for regulatory capital purposes.
G. Earnings Per Share

The calculation of earnings per share follows (in thousands, except for per share amounts):

```

\]
    Leverage ratio
6.15
At September 30, 2001, the Company's consolidated capital levels and each of the Company's bank subsidiaries met the regulatory definition of a "well capitalized" financial institution, i.e., a leverage capital ratio exceeding 5\%, a Tier 1 risk-based capital ratio exceeding 6\%, and a total risk-based capital ratio exceeding 10\%. Management believes that as of September 30, 2001, the Company and its subsidiaries meet all capital adequacy requirements to which they are subject.
```

## Deposits

```
Total deposits at September 30, 2001 were \(\$ 9.41\) billion, up \(\$ 2.3\) billion, or \(33 \%\) over total deposits of \(\$ 7.10\) billion at September 30, 2000, and up by \(\$ 2.02\) billion, or \(27 \%\) from year-end 2000. Deposit growth during the first nine months of 2001 included core deposit growth in all categories as well as growth from the public sector. The Company experienced "same-store core deposit growth" of \(21 \%\) at September 30, 2001 as compared to deposits a year ago for those branches open for more than two years.

COMMERCE BANCORP, INC. AND SUBSIDIARIES

## Interest Rate Sensitivity and Liquidity

The Company's risk of loss arising from adverse changes in the fair market value of financial instruments, or market risk, is composed primarily of interest rate risk. The primary objective of the Company's asset/liability management activities is to maximize net interest income, while maintaining acceptable levels of interest rate risk. The Company's Asset/Liability Committee (ALCO) is responsible for establishing policies to limit exposure to interest rate risk, and to ensure procedures are established to monitor compliance with these policies. The guidelines established by ALCO are reviewed by the Company's Board of Directors.

Management considers the simulation of net interest income in different interest rate environments to be the best indicator of the Company's interest rate risk. Income simulation analysis captures not only the potential of all assets and liabilities to mature or reprice, but also the probability that they will do so.

## Edgar Filing: COMMERCE BANCORP INC /NJ/ - Form 10-Q

Income simulation also attends to the relative interest rate sensitivities of these items, and projects their behavior over an extended period of time. Finally, income simulation permits management to assess the probable effects on the balance sheet not only of changes in interest rates, but also of proposed strategies for responding to them.

The Company's income simulation model analyzes interest rate sensitivity by projecting net income over the next 24 months in a flat rate scenario versus net income in alternative interest rate scenarios. Management continually reviews and refines its interest rate risk management process in response to the changing economic climate. Currently, the Company's model projects a proportionate 200 basis point change during the next year, with rates remaining constant in the second year. The Company's ALCO policy has established that interest income sensitivity will be considered acceptable if net income in the above interest rate scenario is within $15 \%$ of net income in the flat rate scenario in the first year and within $30 \%$ over the two year time frame. At September 30, 2001, the Company's income simulation model indicates net income would increase by $1.99 \%$ and decrease by $4.28 \%$ in the first year and over a two year time frame, respectively, if rates decreased as described above, as compared to an increase of $7.61 \%$ and $4.80 \%$, respectively, at September 30,2000 . At September 30, 2001, the model projects that net income would decrease by $4.59 \%$ and $2.27 \%$ in the first year and over a two year time frame, respectively, if rates increased as described above, as compared to a decrease of $7.52 \%$ and 5.31\%, respectively, at September 30, 2000. All of these net income projections are within an acceptable level of interest rate risk pursuant to the policy established by ALCO.

In the event the Company's interest rate risk models indicate an unacceptable level of risk, the Company could undertake a number of actions that would reduce this risk, including the sale of a portion of its available for sale portfolio, the use of risk management strategies such as interest rate swaps and caps, or the extension of the maturities of its short-term borrowings.

Management also monitors interest rate risk by utilizing a market value of equity model. The model assesses the impact of a change in interest rates on the market value of all the Company's assets and liabilities, as well as any off balance sheet items. The model calculates the market value of the company's assets and liabilities in excess of book value in the current rate scenario, and then compares the excess of market value over book value given an immediate 200 basis point change in rates. The Company's ALCO policy indicates that the level of interest rate risk is unacceptable if the immediate 200 basis point change would result in the loss of $60 \%$ or more of the excess of market value over book value in the current rate scenario. At September 30, 2001, the market value of equity model indicates an acceptable level of interest rate risk.

Liquidity involves the Company's ability to raise funds to support asset growth or decrease assets to meet deposit withdrawals and other borrowing needs, to maintain reserve requirements and to otherwise operate the Company on an ongoing basis. The Company's liquidity needs are primarily met by growth in core deposits, its cash and federal funds sold position, cash flow from its amortizing investment and loan portfolios, as well as the use of short-term borrowings, as required.

Short-Term Borrowings

Short-term borrowings, or other borrowed money, consist primarily of securities sold under agreements to repurchase and overnight lines of credit, and are used to meet short term funding needs. During the first nine months of 2001 , the Company reduced its short-term borrowings, primarily through increased deposits. At September 30, 2001, short-term

8<br>COMMERCE BANCORP, INC. AND SUBSIDIARIES

borrowings aggregated $\$ 84.7$ million and had an average rate of $2.83 \%$, as compared to $\$ 283.7$ million at an average rate of $6.70 \%$ at December 31, 2000.

Interest Earning Assets
For the nine month period ended September 30, 2001, interest earning assets increased $\$ 1.91$ billion from $\$ 7.43$ billion to $\$ 9.34$ billion. This increase was primarily in investment securities and the loan portfolio as described below.

Loans

During the first nine months of 2001, net loans increased $\$ 622.4$ million from $\$ 3.64$ billion to $\$ 4.26$ billion. At September 30,2001 , loans represented $45 \%$ of total deposits and 41\% of total assets. All segments of the loan portfolio experienced growth in the first nine months of 2001, including loans secured by commercial real estate properties, commercial loans, and consumer loans.

## Investments

In total, for the first nine months of 2001, securities increased $\$ 1.15$ billion from $\$ 3.64$ billion to $\$ 4.79$ billion. The available for sale portfolio increased $\$ 1.35$ billion to $\$ 3.37$ billion at September 30, 2001 from $\$ 2.02$ billion at December 31, 2000, and the securities held to maturity portfolio decreased $\$ 284.2$ million to $\$ 1.23$ billion at September 30, 2001 from $\$ 1.51$ billion at year-end 2000. The portfolio of trading securities increased $\$ 75.7$ million from year-end 2000 to $\$ 185.0$ million at September 30, 2001. At September 30, 2001, the average life of the investment portfolio was approximately 5.7 years, and the duration was approximately 4.2 years. At September 30, 2001, total securities represented $46 \%$ of total assets.

Net Income

Net income for the third quarter of 2001 was $\$ 26.3$ million, an increase of $\$ 5.3$ million or $25 \%$ over the $\$ 21.0$ million recorded for the third quarter of 2000 . Net income for the first nine months of 2001 was $\$ 74.8$ million, an increase of $\$ 16.1$ million or $27 \%$ over the $\$ 58.7$ million recorded for the first nine months of 2000. On a per share basis, diluted net income for the third quarter of 2001 and the first nine months of 2001 were $\$ 0.77$ and $\$ 2.21$ per common share compared to $\$ 0.64$ and $\$ 1.84$ per common share for the respective 2000 periods.

Return on average assets (ROA) and return on average equity (ROE) for the third quarter of 2001 were $1.07 \%$ and $17.46 \%$, respectively, compared to $1.11 \%$ and 20.02\%, respectively, for the same 2000 period. ROA and ROE for the first nine months of 2001 were $1.10 \%$ and $17.82 \%$, respectively, compared to $1.09 \%$ and $20.38 \%$ a year ago.

Net Interest Income

Net interest income totaled $\$ 102.7$ million for the third quarter of 2001, an increase of $\$ 27.1$ million or $36 \%$ from $\$ 75.6$ million in the third quarter of 2000. Net interest income for the first nine months of 2001 totaled $\$ 283.9$ million, up $\$ 66.7$ million or $31 \%$ from the first nine months of 2000 . The improvement in net interest income for both periods was due primarily to volume increases in the loan and investment portfolios.

## Edgar Filing: COMMERCE BANCORP INC /NJ/ - Form 10-Q

Noninterest income totaled $\$ 51.8$ million for the third quarter of 2001, an increase of $\$ 14.1$ million or $37 \%$ from $\$ 37.7$ million in the third quarter of 2000. The increase was due primarily to increased deposit charges and service fees, which rose $\$ 7.4$ million over the third quarter of 2000 primarily due to higher transaction volumes. In addition, other operating income increased \$6.7 million over the prior year, including increased revenues of $\$ 1.9$ million from CCMI, the Company's municipal public finance subsidiary, increased revenues of $\$ 1.7$ million from Commerce National Insurance, the Company's insurance brokerage subsidiary, and increased bank card-related revenues of $\$ 1.5$ million.

For the first nine months of 2001, noninterest income totaled $\$ 143.3$ million, an increase of $\$ 34.3$ million or $31 \%$ from $\$ 109.0$ million in the first nine months of 2000. Deposit charges and service fees rose $\$ 18.8$ million over the prior year

$$
9
$$

## COMMERCE BANCORP, INC. AND SUBSIDIARIES

primarily due to higher transaction volumes. Other operating income rose $\$ 15.3$ million over the first nine months of 2000 , including increased revenues of $\$ 5.2$ million from CCMI, $\$ 3.0$ million from Commerce National Insurance, and $\$ 3.7$ million from bank card-related income. In addition, the Company recorded $\$ 980$ thousand in net investment securities gains in the first nine months of 2001 versus $\$ 820$ thousand a year ago.

## Noninterest Expense

For the third quarter of 2001, noninterest expense totaled $\$ 109.6$ million, an increase of $\$ 31.1$ million or $40 \%$ over the same period in 2000 . Contributing to this increase was new branch activity over the past twelve months, with the number of branches increasing from 140 at September 30,2000 to 167 at September 30, 2001. With the addition of these new offices, staff, facilities, and related expenses rose accordingly. Other noninterest expenses rose $\$ 6.8$ million over the third quarter of 2000. This increase resulted primarily from higher bank card-related service charges, increased business development expenses, and increased provisions for non-credit-related losses.

For the first nine months of 2001, noninterest expense totaled $\$ 297.9$ million, an increase of $\$ 70.0$ million or $31 \%$ over $\$ 227.9$ million in the first nine months of 2000. Contributing to this increase was new branch activity and the growth of CCMI and Commerce National Insurance as noted above. Other noninterest expenses rose $\$ 16.3$ million over the first nine months of 2000 . The increase resulted primarily from higher bank card-related service charges, increased business development expenses, and increased provisions for non-credit-related losses.

The Company's operating efficiency ratio (noninterest expenses, less other real estate expense, divided by net interest income plus noninterest income excluding non-recurring gains) was 69.61\% for the first nine months of 2001 as compared to $69.79 \%$ for the same 2000 period. The company's efficiency ratio remains above its peer group primarily due to its aggressive growth expansion activities.

Loan and Asset Quality
Total non-performing assets (non-performing loans and other real estate, excluding loans past due 90 days or more and still accruing interest) at September 30,2001 were $\$ 20.8$ million, or $0.20 \%$ of total assets compared to $\$ 16.6$ million or $0.20 \%$ of total assets at December 31, 2000 and $\$ 16.1$ million or $0.21 \%$ of total assets at September 30, 2000.

Total non-performing loans (non-accrual loans and restructured loans, excluding loans past due 90 days or more and still accruing interest) at September 30, 2001 were $\$ 19.1$ million or $0.44 \%$ of total loans compared to $\$ 13.6$ million or

# Edgar Filing: COMMERCE BANCORP INC /NJ/ - Form 10-Q 

$0.37 \%$ of total loans at December 31, 2000 and $\$ 13.2$ million or $0.36 \%$ of total loans at September 30, 2000. At September 30, 2001, loans past due 90 days or more and still accruing interest amounted to \$964 thousand compared to \$489 thousand at December 31, 2000 and $\$ 561$ thousand at September 30, 2000. Additional loans considered as potential problem loans by the Company's internal loan review department ( $\$ 41.3$ million at September 30, 2001) have been evaluated as to risk exposure in determining the adequacy of the allowance for loan losses.

Other real estate (ORE) at September 30, 2001 totaled $\$ 1.7$ million compared to $\$ 3.0$ million at December 31, 2000 and $\$ 2.9$ million at September 30, 2000. These properties have been written down to the lower of cost or fair value less disposition costs.

On pages 12 and 13 are tabular presentation showing detailed information about the Company's non-performing loans and assets and an analysis of the Company's allowance for loan losses and other related data for September 30, 2001, December 31, 2000, and September 30, 2000.

COMMERCE BANCORP, INC. AND SUBSIDIARIES

## Forward-Looking Statements

The Company may from time to time make written or oral "forward-looking statements", including statements contained in the Company's filings with the Securities and Exchange Commission (including this Form 10-Q), in its reports to stockholders and in other communications by the Company, which are made in good faith by the Company pursuant to the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995.

These forward-looking statements include statements with respect to the Company's beliefs, plans, objectives, goals, expectations, anticipations, estimates and intentions, that are subject to significant risks and uncertainties and are subject to change based on various factors (some of which are beyond the Company's control). The words "may", "could", "should", "would", believe", "anticipate", "estimate", "expect", "intend", "plan" and similar expressions are intended to identify forward-looking statements. The following factors, among others, could cause the Company's financial performance to differ materially from that expressed in such forward-looking statements: the strength of the United States economy in general and the strength of the local economies in which the Company conducts operations; the effects of, and changes in, trade, monetary and fiscal policies, including interest rate policies of the Board of Governors of the Federal Reserve System (the "FRB"); inflation; interest rates, market and monetary fluctuations; the timely development of competitive new products and services by the Company and the acceptance of such products and services by customers; the willingness of customers to substitute competitors' products and services for the Company's products and services and vice versa; the impact of changes in financial services' laws and regulations (including laws concerning taxes, banking, securities and insurance); technological changes; future acquisitions; the expense savings and revenue enhancements from acquisitions being less than expected; the growth and profitability of the Company's noninterest or fee income being less than expected; unanticipated regulatory or judicial proceedings; changes in consumer spending and saving habits; and the success of the Company at managing the risks involved in the foregoing.

The Company cautions that the foregoing list of important factors is not

## Edgar Filing: COMMERCE BANCORP INC /NJ/ - Form 10-Q

exclusive. The Company does not undertake to update any forward-looking statement, whether written or oral, that may be made from time to time by or on behalf of the Company.
