Report of Independent Auditors

Board of Directors

Commerce Bancorp, Inc.

We have audited the accompanying statements of assets available for benefits of the Commerce Bancorp, Inc. 401(k) Retirement Plan as of December 31, 2005 and 2004, and the related statements of changes in assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets available for benefits of the Plan at December 31, 2005 and 2004, and the changes in its assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2005, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Commerce Bancorp, Inc. 401(k) Retirement Plan

Notes to Financial Statements

December 31, 2005

1. Description of Plan

The following description of the Commerce Bancorp, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, established April 1, 1997, is a defined contribution plan covering all eligible employees of Commerce Bancorp, Inc. (the Company) who have at least six months of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2002, the Commerce Bancorp, Inc. Employee Stock Ownership Plan (ESOP) was merged with and into the Commerce Bancorp, Inc. 401(k) Retirement Plan to allow for greater administrative efficiencies. The net assets of the former ESOP are nonparticipant-directed and are maintained in a separate account (the ESOP Account) for each participant in accordance with the Plan.

Contributions

Each year, participants may contribute pretax annual compensation as defined in the Plan up to maximum IRS limitations. Participants may also contribute amounts representing distributions from other qualified retirement plans. The Company may, but is not obligated to, contribute a matching contribution for the plan year as determined by the board of directors. In 2005 and 2004, the Company provided a matching contribution equal to the employee contribution up to a maximum of 2.5% of the employee's salary. Contributions are subject to certain limitations.

Participants may direct employer and employee contributions in any of various fund options offered by the Plan or they may elect to open accounts that allow self-directed investments.

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Participant Accounts

Each participant's 401(k) account is credited with (a) the participant's contributions; (b) Company's contributions; (c) Plan earnings; and (d) is charged with an allocation of administrative expenses if any costs are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. Forfeitures of Company matching contributions arising from breaks in service experienced by participants with less than fully vested interests in the Plan shall be applied as promptly as possible to reduce Company matching contributions. Forfeited employer's contributions of approximately \$277,000 and \$212,100 were used to offset matching employer contributions and administrative costs paid in 2005 and 2004, respectively. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Each participant's ESOP Account is credited with an allocation of Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. When a participant terminates employment or otherwise suffers five (5) consecutive breaks in service (fewer than 501 hours of service worked per year), all or a portion of his or her nonvested interest may be forfeited. Effective January 1, 2004, the Company amended the Plan to allow the amount forfeited to be used to reimburse the Company for administrative expense incurred by the Plan or to reduce Company matching contributions. Shares totaling 23,077 and 20,498 were forfeited in 2005 and 2004, respectively. Proceeds from the sale, approximately \$1.3 million in 2004 and \$752,000 of 2005 forfeitures, which were received by the Plan in 2006, were used to reduce the employer match contributions and to offset administrative costs. Prior to January 1, 2004, amounts forfeited were reallocated among the accounts of the remaining participants as though the forfeited amounts were employer contributions.

Vesting

Participants are immediately vested in their contributions and all investment earnings thereon that have been allocated to their accounts.

1. Description of Plan (continued)

Vesting (continued)

Participants vest in the Company matching contributions (if any) based on the following:

Participant's Years of Service	Vested Percentage
Less than 2	None
2 but fewer than 3	20%
3 but fewer than 4	40%
4 but fewer than 5	60%
5 but fewer than 6	80%
6 years or more	100%

Loans

Participants may borrow funds from the Plan subject to requirements of the Plan. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Benefits are payable upon retirement, death, disability, or termination of employment. Benefits are distributed to the participant or beneficiary in a lump-sum payment as provided in the provisions of the Plan. Included in assets available for benefits at December 31, 2005 is \$429,000 which represents amounts due to participants who have requested withdraws. There was no such amount at December 31, 2004.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in any previously unvested Company contributions.

1. Description of Plan (continued)

Administrative Costs

Administrative costs of the Plan are paid by the Company, unless the Company elects to have such costs paid by the Plan. Administrative costs totaling \$420,000 and \$380,000 were paid by the Company in 2005 and 2004, respectively. For 2005 and 2004, no administrative costs were paid by the Plan.

2. Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value which is based on net asset value of shares on the last business day of the plan year for mutual funds and the last available quoted market price for shares of common stock and debt securities. Participant loans are valued at their outstanding balances, which approximate fair value. Purchases and sales of securities are recorded on a trade-date basis. The cost of investments sold is determined on an average historical cost basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with U. S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. Investments

The Plan's mutual funds, the Commerce Bancorp, Inc. Common Stock and the majority of self-directed accounts are administered by Fidelity Investments. The remaining self-directed accounts are administered by Janney Montgomery Scott. At December 31, 2004, the pooled accounts were administered by Nationwide Life Insurance Company. During the years ended December 31, 2005 and 2004, the Plan's investments appreciated in fair value as follows:

Subsequent to this issuance of the determination letter, the Plan has been amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain the qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of assets available for benefits.

8. Subsequent Events

In December 2005, the Company acquired Palm Beach County Bank based in West Palm Beach, Florida. In February 2006, the Company completed the acquisition of eMoney Advisors, Inc. As a result, approximately \$2.1 million in assets were transferred into the plan during 2006.
